Subject: Adjunct Invitation to Canvas Learning Management System Training
Date: Wednesday, April 8, 2020 4:33:45 PM
Attachments: [Canvas Letter Faculty Rollout letter 2 4.2.2020 WEBINAR.docx](#)

Good afternoon everyone,

(So sorry if you have already received this email as part of the full-time faculty and staff!)

Attached is information about our Canvas learning management system rollout. Canvas will replace Moodle effective with the Summer 2020 academic session. Please take a few moments to read the letter. Questions can be directed to me (**do not “REPLY ALL” as there are many people blind copied on this message**) or to your main contact with Highland Community College.

Links to the Webinars as well as a detailed agenda will be distributed soon.

Thanks so much for all you are doing to support co-workers and students!

Highland Community College offices will have minimal staff through April 6th due to COVID-19. All applications and other requests will be processed as soon as possible.

Students should check their HCC e-mail account often during this time for updates regarding courses, coursework, and office hours.

We thank you for your patience during this challenging time.

Sharon Kibbe, MSM
Director of Instructional Services
Highland Community College

From: [Denise Peters](#)
Subject: Canvas Training Opportunity April 14 & 15
Date: Monday, April 13, 2020 3:38:42 PM

Hello Instructors!

I wanted to remind you that HCC is offering Canvas Training over the next two days via Zoom connections. Please see the session times and topics, along with the connection link at the bottom of this message.

Attending these trainings in the “live” Zoom environment is encouraged, but remains optional to you as an adjunct. Each session will be recorded and then the video will be available for review by topic in the upcoming days.

You will also receive access to our self-paced Growing with Canvas Instructor Training within the next 10 days. This is a five-part training course built within Canvas that includes hands-on practice. Along with these tools, we can review specific topics through the Canvas Community resources and I’ll be available to work with you one-on-one or in a small group to address any specific questions you have before you teach your first course in Canvas. You will also have access to phone and chat support from Instructure/Canvas to assist you in learning how to complete a task and trouble-shoot issues.

I’d encourage you to use your best judgement as to your immediate training needs. I do want to remind you that we will no longer have our Wiley Faculty Support Specialist (aka Julie Lutes) or comparable support person to complete course tasks for you when we move to Canvas. The migrated shells from Moodle to Canvas will need some clean-up and organization work. Gradebooks will have to be completely rebuilt and I also have not seen any rubrics come through correctly. I am finding quizzes and exams to be in working order, but have not pinpointed if they did or did not use questions from a test bank on the Moodle portal.

I anticipate having access to Canvas shells for those teaching an online or hybridwilliam summer class (starts June 3) available by April 27. After summer shells are released, I’ll move to working on the July sections. Once we start summer classes, I’ll move to the August course needs and begin finalizing shell access and continue working with instructors throughout the summer months to be ready for fall launch.

If you have any questions, please let me know!

Thank you,

Denise

Center Director, Wamego, Kansas

Job Details

Level

Experienced

Job Location

Wamego - Wamego, KS

Position Type

Full Time

Education Level

4 Year Degree

Salary Range

\$48,000.00 - \$53,000.00 Salary/year

Description/ Duties and Responsibilities

SUMMARY

This position is responsible for organization, facilitation, supervision, and delivery of all academic courses/programs and student services to the current and/or potential student at the HCC Center in Wamego, Kansas.

ESSENTIAL DUTIES AND RESPONSIBILITIES include the following. Other duties may be assigned.

As a member of the Regional Instruction Team, the Director will:

- Develop a comprehensive regional schedule and implement a marketing plan and calendar of recruiting/registration events for the Wamego Center in conjunction with the HCC marketing and student services plans;
- Within the overall campus plan for assessing student learning outcomes, implement assessment activities for the Wamego Center;
- Work with the Academic Affairs office to plan and implement a calendar of faculty/staff development, training, and recognition events, and assist in presenting information sessions for the purpose of updating faculty and staff on policy changes and new program initiatives.

As a coordinator of individual regional instruction and services, the Director will:

- Submit proposals for new programs, courses, and instructional sites based upon identified needs within his/her region and suggest changes or deletions as appropriate;
- Coordinate registration events at each instructional site or for combined sites as appropriate, and ensure that all rosters, reports, forms, and payments are submitted according to HCC policies and deadlines;
- In coordination with the HCC Bookstore staff, manage textbook distribution for assigned sites.

Other related duties:

- Serve as liaison among students, faculty, community members, local Center staff, and regional staff; maintain positive, service-oriented relationships with area businesses, industry, schools, government agencies, and community groups;
- Offer scheduled and walk-in opportunities for placement, interest inventory, and aptitude testing for current and prospective students and advise students in selecting courses that apply to their degrees or career goals;
- Assist in the recruitment and selection of qualified adjunct faculty members within guidelines as established by the Human Resource Department; submit appropriate documents for faculty and staff payroll and reimbursements;
- In cooperation with local building personnel, ensure that the facilities where HCC classes are held are maintained in a clean and safe manner.
- Assist instructors with conduct violations in coordination with the Student Conduct and Compliance Officer.

SUPERVISORY RESPONSIBILITIES

Directly supervise office personnel, Academic Advisors, Adjunct Instructors, and any other employees assigned to the Wamego Center. Carries out supervisory responsibilities in accordance with the organization's policies and applicable laws. Responsibilities include interviewing and hiring according to guidelines set forth by the HCC Human Resource Manager; training employees; planning, assigning, and directing work; appraising performance; rewarding and disciplining employees; addressing complaints and resolving problems.

PHYSICAL DEMANDS

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- While performing the duties of this job, the employee is frequently required to use hands to finger, handle, or feel. The employee must frequently talk or hear. The employee may occasionally be required to lift and/or move up to 50 pounds (books, instructional materials, etc.)

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- The noise level in the work environment is usually moderate.

Qualifications

QUALIFICATIONS To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Education and/or Experience

Bachelor's required; Master's preferred. Teaching or administrative experience at the community college level preferred. Computer literacy required.

Language Skills

Ability to read, analyze, and interpret general business periodicals, professional journals, technical procedures, or governmental regulations. Ability to write reports and business correspondence. Must be able to communicate well both orally and in writing with students and other constituents of the College. Ability to effectively present information and respond to questions from groups of students, employees, and the general public. Must participate as an integral part of the institution as a committee member, activity sponsor, or an institutional representative to promote the welfare of the college.

Mathematical Skills

Ability to apply concepts such as fractions, percentages, ratios, and proportions to practical situations.

Reasoning Ability

Ability to apply common sense understanding to carry out instructions furnished in written, oral, or diagram form. Ability to deal with problems involving several concrete variables in standardized situations. Must have excellent organizing and coordinating ability. Must have good decision making abilities.

Other

Must be able to operate with a minimum of supervision. There is some flexibility in the work schedule, to be coordinated with the supervisor. Must be able to drive or otherwise travel frequently throughout the area. Must be service oriented and have a positive attitude toward students, faculty, administration and community people who interact with the College. Ability to retain composure under pressure. Must have a valid driver's license with no major infractions in the last five years.

HIGHLAND COMMUNITY COLLEGE

Job Description

Job Title: Perry Center Director, Part-time
Department: Student Services
Job Site: Perry, Kansas
Reports To: VP for Student Services
Job Status: Part-time, Administrative
FLSA Status: Exempt
Prepared By: HCC Human Resources
Prepared Date: 08/02/2017
Approved By: President
Approved Date: 08/03/2017

SUMMARY

This position will assist in the organization, facilitation, supervision, and delivery of all academic courses/programs and related student services to the current and/or potential student at the HCC Center in Perry, Kansas, and the surrounding area assigned to the Perry Center.

ESSENTIAL DUTIES AND RESPONSIBILITIES include the following. Other duties may be assigned.

As a member of the Regional Instruction Team, the Director will:

Develop a comprehensive regional schedule and implement a marketing plan and calendar of recruiting/registration events for the Perry Center in conjunction with the HCC marketing and student services teams;

Within the overall campus plan for assessing student learning outcomes, implement assessment activities for the Perry Center;

Work with the Academic & Student Services offices to plan and implement a calendar of faculty/staff development, training, and recognition events, and assist in presenting information sessions for the purpose of updating faculty and staff on policy changes and new program initiatives.

As a Director of the Perry Center instruction and services, the Director will:

Submit proposals for new programs, courses, and instructional sites based upon identified needs within his/her region and suggest changes or deletions as appropriate;

Coordinate registration events at each instructional site or for combined sites as appropriate, and ensure that all rosters, reports, forms, and payments are submitted according to HCC policies and deadlines;

In coordination with the HCC Bookstore staff, manage textbook distribution for assigned sites;

Offer workshops and other continuing education opportunities for the community served by the Perry Center to promote HCC in that area.

Other related duties:

Serve as liaison among students, faculty, community members, local Center staff, and regional staff; maintain positive, service-oriented relationships with area businesses, industry, schools, government agencies, and community groups;

Offer scheduled and walk-in opportunities for placement, interest inventory, and aptitude testing for current and prospective students and advise students in selecting courses that apply to their degrees or career goals;

Assist in the recruitment and selection of qualified adjunct faculty members within guidelines as established by the Human Resource Department; submit appropriate documents for faculty and staff payroll and reimbursements;

In cooperation with local building personnel, ensure that the facilities where HCC classes are held are maintained in a clean and safe manner.

QUALIFICATIONS To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Education and/or Experience

Bachelor's degree required; Master's preferred. Teaching or administrative experience at the community college level preferred. Computer literacy required.

Language Skills

Ability to read, analyze, and interpret general business periodicals, professional journals, technical procedures, or governmental regulations. Ability to write reports and business correspondence. Must be able to communicate well both orally and in writing with students and other constituents of the College. Ability to effectively present information and respond to questions from groups of students, employees, and the general public. Must participate as an integral part of the institution as a committee member, activity sponsor, or an institutional representative to promote the welfare of the college.

Mathematical Skills

Ability to apply concepts such as fractions, percentages, ratios, and proportions to practical situations.

Reasoning Ability

Ability to apply common sense understanding to carry out instructions furnished in written, oral, or diagram form. Ability to deal with problems involving several concrete variables in standardized situations. Must have excellent organizing and coordinating ability. Must have good decision making abilities.

Other

Must be able to operate with a minimum of supervision. There is some flexibility in the work schedule, to be coordinated with the supervisor. Must be able to drive or otherwise travel frequently throughout the area. Must be service orientated and have a positive attitude toward students, faculty, administration and community people who interact with the College. Ability to retain composure under pressure.

SUPERVISORY RESPONSIBILITIES

Assist in the supervision of office personnel, Academic Advisors, Adjunct Instructors, and any other employees assigned to the Perry Center. Carries out supervisory responsibilities in accordance with the organization's policies and applicable laws. Qualifications

Masters Degree w/18 hours in subject area required for most disciplines; however, certain technical courses may be taught with a bachelors/technical degree/certifications or specific training.

Early Childhood Instructor, Baileyville, Kansas

Job Details

Level

Experienced

Job Location

Western Center - Baileyville, KS

Position Type

Full Time

Description/ Duties and Responsibilities

SUMMARY

The Early Childhood Instructor will teach all assigned courses and associated activities as related to the subject area. The Instructor is the primary individual responsible for program development, instruction, recruiting, and placement of students at their teaching location. The Instructor will maintain accurate student records, keep current in the teaching field, recommend pertinent library materials for acquisition, and sponsor student and support activities as applicable. Related service activities include: Actively serving on college committees, attending faculty meetings, cooperating with and assisting Student Services with regard to recruiting events and current student support, and attending commencement ceremonies.

The Instructor will conduct classes following the Technical Instruction schedule to high school and postsecondary students. Classes may be on-ground or using a hybrid format, e.g. combined on-ground/interactive distance learning (IDL), or on-ground/online during the daytime.

The successful candidate's primary office will be located either at the HCC Technical Center in Atchison, KS, or the Western Technical Center in Baileyville, KS. Occasional travel between these locations may be required. Coordination of observation sites across the College's service area may require weekly travel between sites.

ESSENTIAL DUTIES AND RESPONSIBILITIES include the following. Other duties may be assigned.

1. Prepare course syllabi, first day handouts, gradebook, class outlines, Learning Management System (LMS) course shell, and any additional information needed for students before the first day of class.
2. Maintain student records and observe confidential and ethical practices (i.e. attendance, grades, and other reports).
3. Complete requested documents and follow assessment procedures as needed by the Vice President for Academic Affairs, Director of Institutional Research, and academic committees involved with assessment.
4. Meet all classes and associated activities as scheduled and maintain order and discipline. Associated activities include but are not limited to: Field trips, Observations, Daycare Facilities, etc.
5. Post and maintain office hours to advise and counsel students who request assistance. Refer students who need additional assistance to the appropriate college support service area for tutoring/counseling.
6. Prepare and submit annual professional/educational development plan.
7. Maintain a learning environment in the classroom using generally accepted teaching methods.
8. Conduct periodic self and formal (per Master Contract) evaluation of instruction.
9. Prepare and submit reports, plans of action, program review, state reports, survey results, student placement reports, leave requests, travel requests, etc., on a timely basis as required.
10. Attend in-service, department, and faculty meetings as called.
11. Schedule, conduct, and document advisory committee activities as appropriate.
12. Submit textbook requests when needed.
13. Be familiar and comply with the College policies, procedures, and announcements.
14. Maintain up-to-date instructional program materials and equipment inventory.
15. Communicate with colleagues in Highland as well as in HCC's regional and online locations and with other community colleges and universities.
16. Provide subject area leadership in the development of new major courses, support courses, and/or

program

offerings.

17. Consistently strive to improve the quality of service provided to the community.
18. Provide leadership in the community.
19. Seek the most effective ways to facilitate learning to stimulate critical thinking, to develop skills, and to broaden and enrich student interest.
20. Attend commencement ceremonies.
21. Serve on committee(s) as required.
22. Assist with student recruitment, advising, enrollment, and retention.
23. Ensure moral, ethical, and integrity values.

SUPERVISORY RESPONSIBILITIES

Responsible for supervision of students in class setting. May supervise Work Study or Work Arrangement students. Carries out supervisory responsibilities in accordance with the organization's policies and applicable laws. Responsibilities include planning, assigning, and directing work; appraising performance; rewarding and disciplining employees; addressing complaints and resolving problems.

Qualifications

QUALIFICATIONS To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Education and/or Experience

Preferred - Master's degree in Early Childhood, Family and Consumer Sciences, or Human Services with an Early Childhood emphasis or a Master's degree in any field with a minimum of 18 graduate hours in Early Childhood. Minimum - Bachelor's degree in Early Childhood, Family and Consumer Sciences, or Human Services with an Early Childhood emphasis or a related field. College teaching experience preferred in the field of Early Childhood Education. Experience teaching online via interactive distance learning (IDL)/telepresence, or hybrid format preferred.

Required Knowledge, Skills, and Abilities

The instructor will possess:

- Knowledge of subject area;
- Skill and ability to convey the knowledge to students in an effective manner and as required by the Board of Trustees;
- The ability to organize and direct all instructional activities in compliance with safe and standard practices;
- Knowledge of Statewide Initiatives in Early Childhood Education and especially in Core Competencies;
- The ability to work with and assist students in academic planning;
- The ability to communicate effectively with others to facilitate consensus;
- The ability to represent and promote the welfare of the College as required;
- The ability to communicate effectively with all constituents of the community college environment including the public.

PHYSICAL DEMANDS The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee is regularly required to talk or hear.

WORK ENVIRONMENT The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

The noise level in the work environment is usually moderate.

Atchison - Atchison, KS

Position Type

Full Time

Description/ Duties and Responsibilities

This full-time position w/benefits will begin with the Fall, 2021, semester. The successful candidate's primary office will be located in Atchison, Kansas, at the Highland Community College Technical Center.

SUMMARY

The instructor will conduct class on-ground or using a hybrid format, e.g. combined on-ground /telepresence or on-ground/online during days, evenings, or weekends. The Instructor will prepare all instructional materials for the various learning activities associated with the major subject area to include lab set up and take down, maintain accurate student records, keep current in the teaching discipline, sponsor student and support activities. Related service activities include actively serving on college committees, attending faculty meetings, recommending pertinent library materials for acquisition to the Library, cooperating and assisting Student Services with regard to student needs, and attending commencement ceremonies.

ESSENTIAL DUTIES AND RESPONSIBILITIES include the following. Other duties may be assigned.

1. Prepare course syllabi, First Day Handouts, gradebook, class outlines, Learning Management System (LMS) course shell, and any additional information needed for students on or before the first day of class.
2. Maintain student records and observe confidential and ethical practices (i.e. attendance, grades, state reimbursement, etc.).
3. Complete requested documents and follow assessment procedures as needed by the Vice President for Academic Affairs, Director of Institutional Research, and academic committees involved with assessment.
4. Meet all classes and associated activities as scheduled and maintain order and discipline. Associated activities include but are not limited to: Laboratory, Studio, Field trips, Rehearsals, Performances, Special Productions, Independent Study, athletic events, cultural and social events, etc.
5. Post and maintain office hours to advise and counsel students who request assistance. Refer students who need additional assistance to the appropriate college support service area for tutoring/counseling.
6. Prepare and submit annual professional/educational development plan.
7. Maintain a learning environment in the classroom using generally accepted teaching methods.
8. Maintain listing of Library resources for students interested in further readings in subject area.
9. Conduct periodic self and formal (per Master Contract) evaluation of instruction.
10. Prepare and submit reports, plans of action, program review, state reports, survey results, student placement reports, leave requests, travel requests, etc., on a timely basis as required.
11. Attend in-service, department, and faculty meetings as called.
12. Schedule, conduct, and document advisory committee activities as appropriate.
13. Submit textbook requests when needed.
14. Be familiar and comply with the College policies, procedures, and announcements.
15. Maintain up-to-date instructional program materials and equipment inventory.
16. Communicate with colleagues at all HCC locations and online and with other community colleges and universities.
17. Represent Highland at the annual Core Outcomes Group meetings whenever a Precision Agriculture course is being reviewed.
18. Update Master Course Outline each time course content is changed and communicate any changes to all Precision Ag adjunct instructors.

19. Provide subject area leadership in the development of new major courses, support courses, and/or program offerings.
20. Consistently strive to improve the quality of service provided to the community.
21. Provide leadership in the community
22. Seek the most effective ways to facilitate learning to stimulate critical thinking, to develop skills, and to broaden and enrich student interest.
23. Attend commencement ceremonies.
24. Serve on committee(s) as required.
25. Assist with student recruitment, advising, enrollment, and retention.
26. Ensure moral, ethical, and integrity values.

SUPERVISORY RESPONSIBILITIES

Responsible for supervision of students in class setting. May supervise Work Study or Work Arrangement students. Carries out supervisory responsibilities in accordance with the organization's policies and applicable laws. Responsibilities include planning, assigning, and directing work; appraising performance; rewarding and disciplining employees; addressing complaints and resolving problems.

PHYSICAL DEMANDS The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee is regularly required to talk or hear. The employee frequently is required to use hands to finger, handle or feel and to reach with hands and arms. The employee may occasionally lift and/or move up to 50 pounds and to climb or crawl.

WORK ENVIRONMENT The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee is frequently exposed to varying outside weather conditions. The employee may occasionally be exposed to fumes or airborne particles and toxic or caustic chemicals. The noise level in the work environment is moderate to loud.

Qualifications

QUALIFICATIONS To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Education and/or Experience

Relevant education/training/experience. Teaching experience helpful. Must have valid driver's license and a clean driving record with no major infractions for the past five years.

Required Knowledge, Skills, and Abilities

The instructor will possess:

- Knowledge of subject area;
- Skill and ability to convey the knowledge to students in an effective manner and as required by the Board of Trustees;
- The ability to organize and direct all instructional activities in compliance with safe and standard practices;
- The ability to work with and assist students in academic planning;
- The ability to communicate effectively with others to facilitate consensus;
- The ability to represent and promote the welfare of the College as required;
- The ability to communicate effectively with all constituents of the community college environment including the public.

Mathematics Instructor

Graduate Degree

Description/ Duties and Responsibilities

SUMMARY

This full-time position w/benefits will begin with the Fall, 2021, semester. The successful candidate's primary office will be located on the Highland Community College campus in Highland, Kansas. The instructor will teach via on-ground, hybrid, interactive distance learning (IDL) or Zoom, and HyFlex formats as assigned. Students may be attending courses face-to-face or remotely via instructional technology such as Zoom video conferencing.

The Mathematics Instructor will teach all assigned courses and associated activities as related to major subject area. Courses include but are not limited to: Developmental Math courses in an Accelerated Learning Program (ALP) co-requisite format, College Algebra, Trigonometry, Contemporary Math, Statistics, and possibly Calculus I, II, and III. The instructor will prepare all instructional materials for the various learning activities associated with their major subject area, maintain accurate student records, and serve actively on college committees. Related responsibilities include recruiting interested students, keeping current in the discipline, recommending pertinent library materials for acquisition to the HCC Library, participating in faculty meetings, cooperating and assisting Student Services with regard to student needs, and attending commencement ceremonies.

ESSENTIAL DUTIES AND RESPONSIBILITIES include the following. Other duties may be assigned.

1. Prepare course syllabi, first-day handouts, and Learning Management System (LMS) course shells, and provide the appropriate information therein to students on or before the first day of class.
2. Maintain student records and observe confidential ethical practices (i.e. attendance, grades, and other reports).
3. Complete requested documents and follow assessment procedures as needed by the Vice President for Academic Affairs, Director of Institutional Research, and academic committees involved with assessment. Prepare and maintain meaningful assessment methods to include administering any benchmark assignments.
4. Meet all classes and associated activities as scheduled and practice appropriate classroom management. Associated activities include but are not limited to: Field trips, Theatre performances, Cultural and social events, etc.
5. Post and maintain office hours to advise and counsel students who request assistance. Refer students who need additional assistance to the appropriate college support service area for tutoring/counsel.
6. Prepare and submit annual professional/educational development plan.
7. Maintain a learning environment in the classroom using teaching methods rooted in innovation and the latest cognitive science.
8. Recommend pertinent materials to the Director of the Library for students who may be interested in further readings in subject area.
9. Conduct periodic self and formal (per Master Contract) evaluation of instruction.
10. Prepare and submit reports, plans of action, program review, state reports, survey results, student placement reports, leave requests, travel requests, etc., on a timely basis as required.
11. Attend in-services, Mathematics Division meetings, and faculty meetings as called.
12. Be familiar and comply with the College policies, procedures, and announcements.
13. Submit textbook requests when needed and as per College procedures and maintain up-to-date instructional program materials and equipment inventory.
14. Communicate with on campus and regional colleagues, adjunct instructors, and other community colleges and universities.
15. Provide subject area leadership in the development of new major courses, support courses, and/or

- program offerings.
16. Consistently strive to improve the quality of service provided to the community.
 17. Provide subject area leadership in the development of new major courses, support courses, and/or program offerings.
 18. Seek the most effective ways to facilitate learning to stimulate critical thinking, to develop skills, and to broaden and enrich student interest.
 19. Attend commencement ceremonies.
 20. Serve on committee(s) as required.
 21. Actively participate in the recruitment, advising, enrollment and retention of students in the program.
 22. Ensure moral, ethical, and integrity values.

Qualifications

Education and Experience

Master's degree in Math or Master's degree in any field with a minimum of 18 graduate hours in mathematics required.

Community college teaching, curriculum development, teaching online, remote, or hybrid preferred.

Experience with active learning techniques and Accelerated Learning Programs strongly preferred.

Required Knowledge, Skills, and Abilities

The instructor will possess:

- Knowledge of subject area;
- Skill and ability to convey the knowledge to students in an effective manner and as required by the Board of Trustees;
- Ability to organize and direct all instructional activities in compliance with safe and standard practices;
- Ability to work with and assist students in academic planning;
- Ability to communicate effectively with others to facilitate consensus;
- Ability to represent and promote the welfare of the College as required;
- Ability to communicate effectively with all constituents of the community college environment including the public.

ALLIED HEALTH

H

Enrich your life in the healthcare field where you are in high demand. Gain personal fulfillment from knowing you care for the well-being of others. Discover your potential with Allied Health! Highland Community College offers Allied Health courses in Certified Nurse Aide (CNA), Certified Medication Aide (CMA) and Emergency Medical Technician (EMT). The Allied Health courses prepare students for the Kansas State Exam.

CNA: The majority of the day-to-day care provided in nursing homes, assisted living communities and other long-term care facilities are performed by a Certified Nurse Aide (CNA), while working under the supervision of licensed nurses. The role you play in the residents' healthcare puts you in the best position to get to know them and keep a close watch on their condition.

CMA: It's a fact of life, the more we age, the more medications we need to take. That's why senior communities spread across the nation are being staffed with Certified Medication Aides (CMA), who can safely administer each resident's prescription drug regimen.

EMT: Emergencies of all types occur frequently. Highland Community College's Emergency Medical Technician (EMT) course is designed for individuals interested in providing emergency care to an individual via an ambulance or another form of emergency vehicle.

MEDICAL ASSISTANT

If you have a desire for personal growth and to help people in a medical setting, consider a career in the fast growing profession of Medical Assisting. The Medical Assisting profession is expected to grow faster than the average for all occupations according to the The Occupational Information Network (O*NET)! Clinics and health care facilities will need support personnel, particularly medical assistants, trained in both administrative and clinical duties.

Highland Community College is poised to meet this growing need by offering a Medical Assistant training program that teaches clinical and administrative skills including the following: obtaining patient histories and vital signs, performing phlebotomy and EKG's, administering injections, applying bandages, records management, and insurance processing and billing.

The Medical Assistant program is a 9-month certificate program. Successful completion of the program prepares graduates to take the Registered Medical Assistant (RMA) exam. Because of the competitive workforce, passing the RMA exam will give you the edge you need for a rewarding job in the medical field.

HIGHLAND

COMMUNITY COLLEGE

ESTABLISHED IN 1858 | HIGHLAND, KS | WWW.HIGHLANDCC.EDU | (785) 442-6000
Highland Community College is accredited by the Higher Learning Commission (hlcommission.org), a regional accreditation agency recognized by the US Department of Education. Highland Community College does not discriminate on the basis of sex, race, color, national origin, disability, age, religion, genetic information, marital status, veteran's status, sexual orientation, or other factors that cannot be lawfully considered in its programs and activities as required by all applicable laws and regulations. Inquiries concerning the college's compliance with its nondiscrimination policies may be referred to the Vice President for Student Services or Human Resources Manager.

PRACTICAL NURSING

Make the most of your future with a career in nursing! Nursing offers career growth in the expanding healthcare field, services to communities, and self satisfaction from being part of a service profession.

The Practical Nursing program at Highland Community College Technical Center prepares students for this exciting and challenging career. Training is a combination of lecture and hands-on clinical and lab time. HCCTC Nursing Programs have a Simulation Center designed to create "real life" medical experiences using high tech simulators. Sim View™ is an innovative debriefing system with rotating cameras and microphones used to capture the simulation scenario.

This 9-month certificate program unlocks employment opportunities in hospitals, long term care agencies, clinics, and home care agencies. Graduates will gain the knowledge, skills, and attitude necessary to succeed in passing the National Licensing examination (NCLEX-PN) and practice as Licensed Practical Nurses.

BUSINESS TECHNOLOGY

The Business Technology program is designed for students who wish to enter the office workforce or update existing skills. Students in the program work towards Microsoft Office Certifications. These certifications include: Word, PowerPoint, Excel, Access, and Outlook. Students can also work towards Expert Certification in Microsoft Word and Excel. In addition, students learn basic accounting, photo editing, project management, and to compose/format correspondence.

The Business Technology program at Highland Technical Center is a 9-month certificate program that gives students the skills needed to work in any office setting. After completing this program, students will have an extensive knowledge of software applications and skills necessary to enter a competitive workforce.

The Engineering Graphics and Technologies program at Highland Community College offers several areas that may interest you. HCC offers EGT students over a dozen CAD software programs and a variety of equipment to utilize. Students will be exposed to architecture drawing, 3-D modeling, mechanical/CNC drafting, digital drafting and design, 3-D animations, and much more.

The Engineering Graphics and Technologies program will give you the knowledge, skills, and attitude necessary to succeed in the drafting field. Highland students may choose to pursue either an 18-month certificate or an Associate in Applied Science degree. The Associate in Applied Science degree is for those individuals who seek additional academic preparation for advancement into management, engineering, or other related areas. Both choices include extensive course work and hands-on experience in all phases of the EGT field.

COMPUTER SUPPORT SPECIALIST

In this highly technical age, there's always a demand for great computer technicians! By joining the Computer Support Specialist program at Highland Community College Technical Center you will gain the skills necessary to compete in the ever growing field of computer technology. Your training involves networking, repair, server setup and configuration, and workstation setup and configuration.

Highland Technical Center students may choose to pursue an 18-month technical certificate or an Associate in Applied Science degree (AAS). Both choices include extensive course work and hands-on experience in networking and repair technology. Because of the competitive workforce, training includes the opportunity to become CompTIA A+, Network +, Security +, as well as CISCO CCNA certified. These certifications will give you the edge you need for successful employment.

CONSTRUCTION TECHNOLOGY

The Construction Technology program at Highland Community College will prepare you for immediate and successful employment in the construction field. As a student in the Construction Technology program, you will be exposed to blueprint reading; foundation work; framing of walls, roofs, and stairs; and exterior and interior finish work. And the best part is, you learn all these things through hands-on, "real-life" experience! Instructors at HCC know the importance of hands-on work, so you will spend about 85% of your time working in the field.

The Construction Technology program is a 9-month certificate program. Graduates will be given the knowledge, skills, and attitudes necessary to succeed in the construction field.

PRECISION AGRICULTURE

The demand for farmers to continuously produce more food, fiber, fuel and pharmaceuticals has made it increasingly necessary to become more efficient. The need for efficiency has spurred the adoption of various forms of precision agriculture technologies. The technology that precision agriculture offers collects immense amounts of data that assists in making field management decisions. The variability in Kansas soil and other Midwest plains states demands that fields be managed as small areas and treated differently according to their individual characteristics.

Agriculture careers are in high demand. Highland Community College offers an Associate in Applied Science in Precision Agriculture. The Precision Agriculture program offers core classes to include both theoretical and practical applications with extensive lab and hands-on training, as well as general education requirements. Graduates are employed as precision technicians at implement dealerships, agronomy centers, and independent precision service providers. Other options include: Agronomy firms, crop consultants, and individual and family farm operations.

STUDENTS WILL LEARN SKILLS IN:

- General Agronomy • Crop Production • Soils & Soil Fertility • GPS • GIS

WANT TO LEARN MORE:

Scan the QR code to be directed to our Precision Agriculture Program web page.

HIGHLAND

COMMUNITY COLLEGE

ESTABLISHED IN 1858 | HIGHLAND, KS | WWW.HIGHLANDCC.EDU | (785) 442-6000

Highland Community College is accredited by the Higher Learning Commission (hlc.commission.org), a regional accreditation agency recognized by the US Department of Education. Highland Community College does not discriminate on the basis of sex, race, color, national origin, disability, age, religion, genetic information, marital status, veteran's status, sexual orientation, or other factors that cannot be lawfully considered in its programs and activities as required by all applicable laws and regulations. Inquiries concerning the college's compliance with its nondiscrimination policies may be referred to the Vice President for Student Services or Human Resources Manager.

WELDING TECHNOLOGY

Ever thought of a career in welding? The Welding Technology program at Highland Community College offers several areas that may interest you! HCC offers welding students hands-on experience in all major arc welding processes. You will be exposed to metal arc welding (stick), gas shielded arc welding (wire), gas tungsten arc welding (tig), oxy-acetylene welding (gas), plasma and carbon arc cutting, blueprint reading, and pipe welding.

This 9-month certificate program will have you in the shop within the first week of classes. You will begin the year with structural and plate welding. By the end of the program, you will learn pipe welding and fabrication. Students in the Welding Technology program spend over 80% of their time in the welding shop. At the completion of the program you should have the knowledge, skills, and attitude necessary to succeed in the welding field.

ELECTRICAL TECHNOLOGY

Brighten your future by joining the Electrical Technology program at Highland Community College Technical Center. The program includes training in AC and DC fundamentals, residential construction wiring, blueprint reading, commercial and industrial wiring, National Electrical Code (NEC), motor controls, and programmable logic controllers (PLC's). The combination of theory and hands-on training prepares graduates for a successful career in the electrical field.

The Electrical program offers students the choice between an 18-month technical certificate or an Associate in Applied Science degree. The Associate of Applied Science degree is for those individuals seeking electrical training and additional academic preparation for advancement into management and other related areas. Either choice includes hands-on experience in the field.

AUTO COLLISION & REFINISHING TECHNOLOGY

H

Every day people get into accidents and whether they are minor parking lot dents or structural damage, someone needs to do the repairs, so it might as well be you! The Auto Collision & Refinishing program at Highland Community College Technical Center will teach you what you need to know to be a successful Auto Collision technician. Within the first few weeks of class, you will begin a hands-on training. Once you have the basics down, you will begin working on customer vehicles.

The Auto Collision & Refinishing program offers students a choice between an 18-month technical certificate or an Associate in Applied Science degree. The Associate in Applied Science degree is for those individuals who seek auto collision repair training and additional academic preparation for advancement into management, sales, or other related areas. Either choice includes hands-on experience in the Auto Collision field.

AUTOMOTIVE TECHNOLOGY

Thinking of a career as an Automotive Technician? Attending the Highland Community College Automotive Technology program will give you the training you need to start earning a nice paycheck. HCC offers a hands-on, real-world experience in diagnosing, repairing, and servicing the mechanical, electrical, and electronics systems in cars and light trucks. The Automotive Technology program is accredited by the National Institute for Automotive Service Excellence (ASE).

The Auto Technology program offers students a choice between an 18-month Technical Certificate or an Associate in Applied Science degree. The Associate in Applied Science degree is for those individuals who seek auto technology training and additional academic preparation for advancement into management, sales, or other related areas. By the end of the program, students should have the knowledge, skills, and attitude necessary to succeed in the automotive field.

DIESEL TECHNOLOGY

Detroit, Cummins, John Deere, Caterpillar, and Mack are just a few of the engines you will be exposed to in the Diesel Technology program at Highland Community College. Students in the Diesel Technology program begin working in the shop within the first few weeks of classes. Since the Diesel program is a live shop, one day you could be diagnosing and repairing an electrical problem, and the next, getting your hands dirty with an engine overhaul.

Students will complete the ASE entry-level certification for Medium/Heavy Truck. ASE entry-level certification is the first step in building career credentials as a service professional. The Associate in Applied Science degree program is for those individuals who seek diesel technology training and additional academic preparation for advancement into management, sales, or other related areas. With either option, students get intensive hands-on experience in repairing and servicing trucks, agriculture equipment, and trailers.

EARLY CHILDHOOD

The path to leadership begins early in life and early childhood educators lay the foundation of future learning for young children. Through hands-on experience, internships, and classroom work, you will be prepared for a career working with young children.

HCC's Early Childhood certificate provides academic study and hands-on experience that encourage a reflective approach to early childhood responsibilities. This program provides a good foundation in developing appropriate curriculum, creating classroom environments that meet children's developmental needs, and working effectively with parents and families.

Important Points from Sophomore Visit Day – February 16 and 23, 2021

Excel in Career and Technical Education – formerly called Senate Bill 155

- Free college tuition for technical programs and/or classes for high school juniors and seniors.
- Start taking classes the summer prior to junior year and ends when you graduate in May.
- Includes:
 - Technical Programs
 - Select Individual classes – face-to-face, online, and concurrent
 - Allied Health – CNA, CMA, and EMT

Technical Programs through the Western Center – offer morning session from 8:00 a.m. to 11:07 a.m. or afternoon session from 12:00 (noon) to 3:07 p.m.

- Construction Technology – one year program
- Diesel Technology – two year program
- Engineering Graphics & Technologies – two year program – NEW!
- Industrial Welding – one year program
- Medical Office Assistant – one year program
- Precision Agriculture – one or two year program

* **NOTE:** high school students attend the program at a part time status, so a one year program will take two years to complete.

* Technical programs will require a WorkKeys assessment score for admission. Test has applied math and reading sections, each cost \$15, total of \$30 for the testing. (*See WorkKeys flyer.*)

The Western Center also provides access to a wide variety of general education classes that are offered during the day and evening, for the summer, fall and spring semesters.

Apply for admission at highlandcc.edu → Getting Started → Apply Now → Click on Application for Admission and then select “High School Application for Admission”

Cara Baker, Director, cbaker@highlandcc.edu, 785-442-6240

Angela Sutton, Student Services, asutton@highlandcc.edu, 785-442-6240

Schedule an individual visit to the Western Center!

Frequently Asked Questions

Does it cost to apply to HCC?

No. It is free to apply to Highland Community College. Apply at: highlandcc.edu → Getting Started → Apply Now → Click on Application for Admission and then select “High School Application for Admission”

What if I don't finish a technical program while in high school?

- You can return to the Western Center as a part-time or full-time college student. You will be eligible for Federal Financial Aid and Scholarships.
- You can finish the program at our HCC Technical Center at the Atchison location and live in Highland on the main campus – eligible for a technical scholarship!
- We can help you look at your transfer options.

Do I have to buy tools?

High school students do not have to purchase tools. However, the program may require work boots, safety glasses, scrubs, etc.

Where can I take the WorkKeys test?

We offer the WorkKeys test at the Western Center. Or if you have already taken it at your high school, the scores can be sent to us.

When can I take the WorkKeys test?

Tuesday, March 23rd

8:15 a.m. OR 12:15 p.m.

Tuesday, April 13th

8:15 a.m. OR 12:15 p.m.

Tuesday, April 27th

8:15 a.m. OR 12:15 p.m.

- OR by appointment. Please call 785-442-6240 to schedule your test.
- Space is limited to 10 per session.

What if I don't get the score needed for my program of study?

You may *retest*. It will cost \$15 per test again. Ask Angela, in Student Services, for practice test websites.
