Federal Compliance Filing by Institutions

Effective September 1, 2016 – August 31, 2018

This document outlines the information institutions should provide in a separate federal compliance section of their Assurance Argument or Comprehensive Quality Review. Institutions should answer the questions below and provide supporting documentation where necessary. A list of required and optional appendixes is provided at the end of the document.

The information requested in this document should be uploaded in the Assurance System in a separate federal compliance document **before** the visit unless otherwise noted. The institution should refer to the *Federal Compliance Overview: Information for Institutions and Peer Reviewers* in completing this template. This guide identifies applicable HLC policies and provides an explanation of each requirement.

Note that some federal requirements are related to the Criteria for Accreditation or Assumed Practices. This document identifies those related Criteria and Assumed Practices so that the institution may cross-reference any material it prepares to address them. The document also provides cross-references to the Code of Federal Regulations; while these cross-references will provide context for HLC's requirements, it is important that institutions write to HLC's requirements and not to the federal regulations cited.

Institution name: Highland Community College (KS)

Main contact in the financial aid office: Joshua North, Director of Financial Aid

Number of staff members in the financial aid office: 3

Identify when the last U.S. Department of Education training for the staff of the financial aid office occurred: 3/22/2017

Assignment of Credits, Program Length and Tuition

1. Complete the *Worksheet for Institutions on the Assignment of Credit Hours and Clock Hours*. Submit the worksheet and the attachments listed in it as **Appendix A**.

2. What is the length in semester or quarter hours or other applicable units of each of the institution's degree programs? Institutions offering programs at a single degree level may be able to identify a specific number of semester or quarter hours to which all their programs conform; institutions with programs at different degree levels may need to expand their answer, and if so should include a list in Part A, Section 1 of the *Worksheet for Institutions on the Assignment of Credit Hours and Clock Hours* (Appendix A).

Page 1

The Associate in Arts, Associate in Science, Associate in General Studies, Associate in General Studies - Human Services, and the Associate in Applied Science degrees in Accounting; Agribusiness; Business Administration; Commercial Photography; Criminal Justice; Early Childhood; Graphic Design; Nursing; Personal Fitness Trainer; Risk Management; and Technical Programs are all 63 credit hours each. The Associate in Applied Science for Medical Coding is 64 credit hours and the Associate in Applied Science for Precision Agriculture is 65 credit hours total.

3. Are there any differences in tuition for specific programs?

    ☒ Yes

    ☐ No

If so, please identify the programs and explain the rationale for the difference in tuition.

For the 2017-2018 Academic Year:

Campus/Regional Tuition - $56 per credit hr for Doniphan County, $70 per credit hour for all others

Technical Tuition - $98 per credit hour

Nursing - $117 per credit hour

Online - $79 per credit hour

Nursing and Technical Program tuition costs are higher because the programs cost more to deliver. We offset that extra cost by charging more tuition.

Online course tuition is higher to offset the cost of delivering online courses. Online program costs include a per credit hour charge paid to The Learning House for LMS hosting, technical support, training, marketing, and other online program services.

For more information see Federal Requirements 34 CFR §602.16(a)(1)(viii), 34 CFR §602.24(f), 34 CFR §600.2, and 34 CFR §668.8(k) and (l).

Related HLC Requirements: Core Component 3.A and Assumed Practice B.1.

Institutional Records of Student Complaints

4. What is the institution's process for handling student complaints?

The staff at Highland Community College strives to provide a positive college experience for all students and has established policies and procedures to respond appropriately should that not be the case. Students and stakeholders of the college are encouraged to let staff members know when things are going well or when they are in need of improvement.

HCC has a process to review and respond to student complaints. The college seeks to resolve any and all student complaints in an appropriate and timely manner and adheres to procedures for resolving academic and non-academic concerns. Steps, timelines, and resolution processes are addressed through procedures described in the academic catalog and the student handbook.

5. Provide the institution's complaint policy and procedure and the web address where the public can find this information:

https://highlandcc.edu/pages/hcc-compliment-and-complaint-process or attach as **Appendix B**.

6. Provide an aggregated report of the number and type of complaints received since the last comprehensive evaluation by HLC and explain their resolutions. Attach as **Appendix C**.

7. How does the institution integrate what it has learned from the complaint process into improvements in services or in teaching and learning?

Audience: Institutions
Form
Published: March 2016 © Higher Learning Commission

Process: Federal Compliance Filing
Contact: 800-621-7440
Page 2

HCC President's Staff review student complaints to ensure that they are addressed in a timely manner. The information learned during the complaint process is used to make informed decisions on policy and procedure changes within the institution. The Student Services department meets to address concerns and follow-up with submitted complaints.

For more information see Federal Requirement 34 CFR §602.16(a)(1)(ix).

Related HLC Requirements: Core Component 2.A and Assumed Practice A.3, A.4.

Publication of Transfer Policies

8. Where are the institution's transfer policies published?

   Transfer policies are published in the college catalog.

   Provide copies of the published transfer policies (such as those included in the institution's catalog, on the website or in other appropriate publications) as **Appendix D**.

9. How does the institution disclose articulation agreements, at both the institutional level and the program level, to current and prospective students? (Ensure that the disclosures clearly identify whether the institution 1) accepts credits from the other institution(s) through the articulation agreement; 2) sends credits to the other institution(s) through the articulation agreement; 3) both offers and accepts credits with the institution(s) in the articulation agreement; and 4) what specific credits articulate through the agreement [e.g., general education only; pre-professional nursing courses only; etc.].)

   HCC primarily shares articulation agreement and transfer equivalency information on our Transfer Guides web page (https://highlandcc.edu/pages/transfer-guides_3). Credit for Military Alignment is linked from our Veteran Affairs webpage (https://highlandcc.edu/pages/veteran-affairs).

   Academic advisors are also given updated information about new agreements or equivalencies at monthly academic advisor meetings. Any newly signed agreements are announced in weekly campus news emails.

   Provide a list of articulation agreements as **Appendix E** and the web address where the public can access this list. Note that you do not need to provide the full articulation agreements, only the list of agreements that you make public.

10. What is the process implemented by the institution to align the disclosed transfer policies with the criteria and procedures used by the institution in making transfer decisions?

    All transfer credit is officially reviewed by the HCC Registrar. For credit from Kansas's public colleges and universities, the Registrar first references the Kansas Guaranteed Transfer Matrix for courses that have been agreed upon statewide. All other credits are evaluated through a review of applicable articulation agreements and course equivalencies. Any credit from a regionally accredited institution not previously evaluated, will be determined by a comparison of institutional catalogs and course information.

    Provide evidence (e.g., charts, data, etc.) that institutional decisions regarding transfer of academic credit align with the policy:

    See the Kansas Guaranteed Transfer Matrix as Appendix F. or attach as **Appendix F**.

For more information see Federal Requirement 34 CFR §668.43(a)(11).

Practices for Verification of Student Identity

11. Does the institution have students enrolled in distance or correspondence courses, as defined in federal definitions?

    ☒ Yes

    ☐ No

12. How does the institution verify the identity of students enrolled in these courses?

    Highland Community College has a process in place to ensure that the student registering for a course is the same student who participates in the course or receives course credit, primarily through the use of a secure login and password.

    Secure Login and Password

    Highland Community College assigns each student a secure network account with a unique username and password. All students registering for a course at Highland Community College are assigned unique identification numbers and corresponding usernames. Before a student can access any information resource on the College's network (including the Learning Management System), the student must be authenticated by the College's directory service using his/her username and password. Students are assigned a randomly generated, suitable complex password that meets identified password criteria guidelines when their account is first established. The Highland Community College Office of Information Technology is responsible for maintaining the credential verification procedures.

    All users of the College's learning management system are responsible for maintaining the security of usernames, passwords, and other access credentials as required. An account is assigned to an individual for the exclusive use by that individual. Attempting to discover another user's password or attempts to gain unauthorized access to another person's files or mail is prohibited.

    Additional Verifications

    Faculty teaching courses through distance learning delivery methods have a role in identity verification by being alert and recognizing changes in student behavior, including, but not limited to: sudden shifts in academic performance, changes in style and language used in written work or discussion posts, student time on task, and quiz/exam completion data; which may indicate academic integrity issues. It is recommended that faculty routinely use a variety of assessment instruments and select assignments types that are more difficult to plagiarize.

    Highland Community College systems also monitor user LMS logs based on dates, times, and IP addresses for all users. The HCC system also closes course sections on the LMS within one week of the course end date, blocking students from reentering and retrieving any content from a course once it has ended.

    Highland Community College will continue to review and evaluate the effectiveness and feasibility of new verification technologies as it becomes available.

13. Are there any additional costs (e.g., fees associated with test proctoring) charged directly to the student because of this method?

    ☐ Yes

    ☒ No

14. What are these additional costs?

    N/A

Audience: Institutions
Form
Published: March 2016 © Higher Learning Commission

Process: Federal Compliance Filing
Contact: 800-621-7440
Page 4

15. How are the additional costs disclosed to students prior to enrollment in a distance or correspondence course?

N/A

Provide copies of the disclosures and the web address where the public can access such information as **Appendix G**.

16. How does the method of verification make reasonable efforts to protect student privacy?

24/7 web-based password resets can only be made by providing the date of birth, the email address from the student's application, and the student's first and last name. Student ID information or passwords are never given out over the phone. We only discuss login issues directly with the student and will not trigger a password reset at the request of anyone other than the student. After verifying the student's identity, then a password reset may be sent to the personal e-mail account that is on file from that student's application process.

For more information see Federal Requirement 34 CFR §602.17(g).

Related HLC Requirement: Core Component 2.A.

Title IV Program Responsibilities

This requirement has several components the institution must address. The institution staff compiling this information should work with the financial aid office and the chief financial officer or comptroller. For more information see Federal Requirement 34 CFR §602.16(a)(1)(x).

17. General Program Responsibilities

 a. What is the current status of the institution's Title IV program (e.g., recertified on date x, provisionally certified on date x, etc.)?

 Provisional Approval until 6/30/2020, as of 8/22/2017

 b. When was the institution's most recent Title IV program review?

 January, 2017

 c. Has the institution been audited or inspected by the Office of the Inspector General of the U.S. Department of Education since the last comprehensive evaluation by HLC?

 ☐ Yes
 ☒ No

 d. Attach the most recent Title IV program review, or other inspection or audit reports since the last comprehensive evaluation by HLC, as **Appendix H**.

 e. List any limitation, suspension or termination actions imposed on the institution by the U.S. Department of Education (hereafter referred to as "the Department") since the last comprehensive evaluation by HLC and the reason for such actions.

 N/A

 f. List any fines, letters of credit or heightened monitoring imposed on the institution by the Department since the last comprehensive evaluation by HLC and the reason for such actions.

 Heightened Cash Monitoring 1 due to Late Audits

 g. What response and corrective actions has the institution taken in regard to these Department actions?

Audience: Institutions
Form
Published: March 2016 © Higher Learning Commission

Process: Federal Compliance Filing
Contact: 800-621-7440
Page 5

Since the Program Review, we have started monitoring R2T4s much closer, including developing a report that we can run at any point that includes the Begin Date, End Date and Last Date of Attendance. We are also using PowerFAIDs, our Financial Aid Student Information System, to process all R2T4s. In regards to unreturned checks, the business office has developed and implemented a check monitoring procedure to make sure we return all checks to the Department once the check is older than 240 days old.

h. What are the consequences of these challenges for the institution's short- and long-term financial health?

In the short-term, we were required to pay the Department of Education $51,494 due to errors found during our Program Review. This amount consists of $27,977 for checks that were unreturned after 240 days outstanding, $22,807 from incorrect Return of Title IV Calculations and $710 in Interest from these errors. This was an unexpected expenditure that we were not anticipating, but were able to pay immediately.
In the long-term, the consequences from the Program Review are all positive. We have been able to find weaknesses in our Title IV awarding process, implemented new policies and procedures to make sure we are following all rules to the best of our ability and are more confident in our ability to correctly administer Title IV programs.

i. What are the findings from the OMB Circular A-133 portion of the institution's three most recent audited financial statements, which identifies material weaknesses in the processing of financial aid?
2016-2017: No Findings
2015-2016: No Material Weakness
2014-2015: R2T4 Processing, Reconciliations not performed monthly, Allowable Costs/Cost Principles

j. In which of the following Title IV federal financial aid programs does the institution participate? Select all that apply:

☒ Pell Grant
☐ Federal Family Education Loan
☒ Federal Direct Stafford Loan
☒ Direct PLUS Loan
☒ Federal Supplemental Educational Opportunity Grant
☒ Federal Work Study
☐ Perkins Loans
☐ Academic Competitiveness Grant

Provide all correspondence with the Department and other documents that explain the above responses as **Appendix I.**

For more information see Federal Requirement 34 CFR §668.16.

18. Financial Responsibility Requirements

a. What were the outcomes of the three most recent Department reviews of the institution's composite ratios and financial audits?
The institution is a public school and is not required to calculate a composite ratio. For the year ended June 30, 2017, HCC ended with a positive net position of $13,261,722.

b. Have there been any fines, penalties, letters of credit or other requirements imposed by the Department as a result of these reviews?

Audience: Institutions
Form
Published: March 2016 © Higher Learning Commission

Process: Federal Compliance Filing
Contact: 800-621-7440
Page 6

No

Note: HLC also annually analyzes each institution's financial ratios to determine whether there might be financial concerns. The peer review team checks with the institution and the HLC staff to determine whether HLC or the Department has previously raised concerns about the institution's finances based on these ratios.

   c. What actions has the institution taken or does it plan to take in response to any concerns raised by HLC or the Department? (*Related HLC Requirements: Core Components 5.A, 2.B; Assumed Practice D.1.)*
N/A

Provide all correspondence with the Department and other documents that explain the above actions as **Appendix J**.

For more information see Federal Requirements 34 CFR 668.15, 34 CFR 668.23, 34 CFR 668.171, 34 CFR 668.173, and 34 CFR 668.174.

Related HLC Requirements: Criterion 5, Core Components A (resources) and B (administrative capacity).

19. Default Rates. The institution should take steps to avoid excessive loan default rates.

Institutions and teams should use the three-year default rate to complete this section.

   a. What are the student loan default rates as provided by the Department for the three years leading up to the visit? (Institutions with evaluations after September must include the most recent cohort default rate in the Federal Compliance Filing or ensure that the most recent rate is provided to the team on-site if the rate was not available when the Federal Compliance Filing was submitted.)

Year 1: 19.4

Year 2: 18.0

Year 3: 16.2

   b. If the institution's default rates are higher than those of its peer institutions, if the institution's rates are rising, or if the rates have exceeded Departmental thresholds or triggered a Department review, what actions has the institution taken in response?

N/A

Provide any correspondence with the Department related to default rates and any default rate management plan required by the Department as **Appendix K**.

   c. Does the institution participate in private loan programs or any loan services that it provides to students directly or that a related corporation provides to its students?
☐ Yes

☒ No

If yes, provide a list of companies that provide loan services to the institution's students and explain the relationship of these companies to the institution.
N/A

Provide samples of the loan agreements and disclosure information as **Appendix L**.

For more information see Federal Requirements 34 CFR §668.201, §668.204, and §668.217.

Related HLC Requirements: HLC Criterion 2, Core Component A (integrity); Criterion 5, Core Components A (resources) and B (administrative capacity); Assumed Practices D.1–5.

20. Campus Crime Information, Athletic Participation and Financial Aid, and Related Disclosures. Title IV responsibilities include the legal obligation to disclose information to students and to the public about campus crime, athletic participation and financial aid.

    a. What administrator or office on campus is responsible for ensuring that these disclosures are regularly compiled and published and that the data are accurate?
    Vice President for Student Services and the Student Life Office

    b. Has the institution been the subject of any federal investigation related to any of the required disclosures listed in question 20?
    ☐ Yes
    ☒ No

    c. Does the institution have any findings from the Department regarding these disclosures?
    ☐ Yes
    ☒ No

    Explain any findings related to any of the required disclosures listed in question 20 and corrective action plans the institution may have put together to remedy the findings.
    N/A

    d. Provide copies of the information disclosed to students and provide the web address where this information is made available to the public as **Appendix M**.

For more information see Federal Requirements 34 CFR §668.40, 668.41, 668.42, 668.43, 668.44, 668.46, and 668.49.

21. Student Right to Know/Equity in Athletics. Title IV responsibilities require that institutions provide to students and the public graduation/completion rates for the student body by gender, ethnicity, receipt of Pell grants and other data as well as information about the process for withdrawing as a student, cost of attendance, policies on refund and return of Title IV financial aid, current academic programs and faculty, names of applicable accrediting agencies, description of facilities for disabled students, and the institution's policy on enrollment in study abroad. In addition, certain institutions need to disclose their transfer-out rate. Also, institutions with athletic programs are required to disclose athletic participation rates and financial support data.

    a. What administrator or office on campus is responsible for ensuring that these disclosures are regularly compiled and published and that the data are accurate?
    The Director of Institutional Research is responsible for ensuring the data for these reports are regularly compiled, published, and accurate. He works with any departments on campus necessary to compile the data. The Vice President for Academic Affairs and the Chief Graphic Designer assist with posting reports to the website.

    b. Has the institution been the subject of any federal investigation related to any of the required disclosures listed in question 21?
    ☐ Yes

Audience: Institutions

Page 8

☒ No

c. Does the institution have any findings from the Department regarding these disclosures?
☐ Yes

☒ No

d. Explain any findings related to any of the required disclosures listed in question 21 and corrective action plans the institution may have put together to remedy the findings.
N/A

e. Attach copies of the information disclosed to students and provide the web address where this information is made available to the public as **Appendix N**.

For more information see Federal Requirements 34 CFR §668.41, 668.45, 668.48, and 668.8.

Related HLC Requirement: Assumed Practice A.6.

22. Satisfactory Academic Progress and Attendance Policies. The institution is required to have a Satisfactory Academic Progress policy and an attendance policy as part of the Title IV program.

a. Are these policies readily available to students?
☒ Yes

☐ No

b. Do they satisfy state or federal requirements?
☒ Yes

☐ No

c. Does the institution have any findings from the Department regarding these disclosures?
☐ Yes

☒ No

Explain any findings related to any of the required disclosures listed in question 22 and corrective actions that may have been required by the Department related to these findings.
N/A

d. Attach copies of the information disclosed to students and provide the web address where this information is made available to the public as **Appendix O**.

e. Are the policies being appropriately applied by the institution in individual student situations?

Note: HLC does not necessarily require that the institution take attendance unless required to do so by state or federal regulations but does anticipate that institutional attendance policies provide information to students about attendance at the institution.

☒ Yes

☐ No

For more information see Federal Requirement 34 CFR §668.34.

Related HLC Requirements: Criterion 3, Core Component A; Assumed Practice A.5.

23. Contractual Relationships. List any contracts related to academic programs with third-party entities not accredited by a federally recognized accrediting agency. Attach as **Appendix P**. Include the name of the provider, the name of the relevant academic program, what the provider does, the dates when the relationship starts and ends, and the date it was approved by HLC if required.

   (The institution should have previously disclosed to HLC all existing contracts and received approval for those contracts as required by HLC policy. Institutions can see the list of HLC-approved contractual arrangements on its *Institutional Status and Requirements (ISR) Report*. HLC's substantive change policy requires that the institution notify HLC of any new contracts for up to 25 percent of an academic program, that the institution obtain prior HLC approval before initiating any contract for 25 to 50 percent of a program, and that HLC approve contracts for more than 50 percent of a program only in exceptional circumstances under strict scrutiny.)

For more information see Federal Requirements 34 CFR §668.5 and 602.22(a)(2)(vii).

Related HLC Requirements: Assumed Practices A.10–11.

24. Consortial Relationships. List any consortial relationships with other entities accredited by a federally recognized accrediting agency. Attach as **Appendix Q.** Include the name of the provider, the name of the relevant academic program, what the provider does, the dates when the relationship starts and ends, and the date it was approved by HLC if required.

   (The institution should have previously disclosed to HLC all existing consortiums and received approval for those consortial arrangements as required by HLC policy. Institutions can see the list of HLC-approved consortial arrangements on its *Institutional Status and Requirements (ISR) Report*. HLC's substantive change policy requires that the institution notify HLC of any new consortiums for up to 25 percent of an academic program, that the institution obtain prior HLC approval before initiating any consortiums for 25 to 50 percent of a program, and that HLC approve consortiums for more than 50 percent of a program only in exceptional circumstances under strict scrutiny.)

For more information see Federal Requirement 34 CFR §668.5.

Related HLC Requirements: Assumed Practices A.10–11.

Required Information for Students and the Public

25. Provide course catalogs and student handbooks. Attach as **Appendix R.**

26. Which sections of the institution's website include required disclosure information? Provide the webpage name and link for each.
   Course Catalog https://highlandcc.edu/pages/catalog_1
Student Handbook & Policies https://highlandcc.edu/pages/handbook
Student Outcome Data https://highlandcc.edu/pages/student-outcome-data
Students "Right to Know" Information https://highlandcc.edu/pages/student-right-to-know

27. What policies and processes does the institution have in place to ensure required information for current and prospective students about institutional programs, fees, policies and related required information is accurate, timely and appropriate? Attach copies of these policies and procedures as

Page 10

Appendix S.

For more information see Federal Requirement 34 CFR §602.16(a)(1)(vii).

Related HLC Requirements: Core Component 2.A, 2.B; Assumed Practice A.5.

Advertising and Recruitment Materials and Other Public Information

28. Do the institution's advertisements and recruiting materials provide accurate, timely and appropriately detailed information to current and prospective students, and is information about the institution's accreditation status with HLC and other accrediting agencies clear and accurate? If the institution has been placed on a sanction or its programmatic accreditation has been withdrawn, do the disclosures accurately explain this information?

☒ Yes

☐ No

Provide copies of these advertising and recruiting materials as **Appendix T**.

29. Which sections of the institution's website include advertising and recruiting information? Provide the webpage name and link for each.

The HCC Homepage, Admissions, Campus Visit, and Course Guide web pages provide the majority of recruiting information. These would be where inquiries would be directed to start. For Regional Locations, students would be directed to the HCC hompage or the webpage for that specific location.

30. What policies and processes does the institution have in place to ensure advertising and recruiting information to current and prospective students about its programs, locations and policies is accurate, timely and appropriate? Provide copies of these policies and procedures as **Appendix U.**

31. What webpage displays the Mark of Affiliation on the institution's website? Provide a link.

https://highlandcc.edu/

For more information see Federal Requirements 34 CFR §602.16(a)(1)(vii) and 602.23(d).

Related HLC Requirements: Core Component 2.B; Assumed Practices A.5, A.7.

Review of Student Outcome Data

Institutions in their program review and institutional improvement processes are required to consider student outcome or performance data on the full range of their offerings where such data are available. Data can be at the institutional or the program level. Student achievement data typically include retention rates, graduation rates, licensure exam pass rates, employment rates, acceptance to further study or other similar information.

32. How does the institution gather or receive information about student outcomes from academic programs across the institution?

The Director of Institutional Research primarily gathers student outcome data from institutional, state, and national sources. Some technical program data is collected by the Technical Center staff. The faculty's Assessment Committee, Academic Standards Committee, and Instructional Council help the

Page 11

Director of IR with course level and program level assessments as part of our Comprehensive Assessment Plan.

Several public universities in Kansas also share reports on a semester or annual basis of our transfer students' performance once at the university. The President typically receives these reports and shares the information with the faculty and the Board of Trustees.

33. List the types of student outcome data available to the institution:

    See Appendix V or attach as **Appendix V**.

34. Explain how information about student outcomes informs planning, academic program review, assessment of student learning, consideration of institutional effectiveness, and other topics.

    Although several parts of our Comprehensive Assessment Plan are still in early stages, we do have a number of examples where we currently use data to inform planning, academic program review, and consideration of institutional effectiveness.

    All programs going up for Academic Program review receive a "box of data" by December 1, prior to their April review. This data includes the following information for each program up for review: total credit hours and enrollments; total credit hours generated by course; total credit hours by modality each year since the last review; total number of sections offered by year and enrollments; total number of sections by location; overall HCC grades, all courses combined; overall program grades, all courses combined; program GPAs by academic year; program GPAs by location as well as modality; and overall grades, C or better, and pass rate in the program's key courses. The academic program faculty use all of this information to complete the program's Academic Program Review paperwork. The program's up for review each year then submit their paperwork and give a presentation to Instructional Council in April. Members of Instructional Council then complete individual review comments which are compiled and shared with the reviewed program.

    The Schedule Committee meets each semester to determine the Highland course schedule. The committee gets a report of enrollment numbers for the past three years to inform the next semester's class schedule. For all regional locations and online, each Regional Director reviews the previous year's schedules and enrollment trends, consults with an full-time faculty, and then makes decisions about what to offer and when. Regional Directors also advise the students at their locations so they often have a good sense of which classes are in demand.

    Our Shared Performance Expectations (SPEs) Evaluations of Students have been collected in on-ground classes for over a year and our Director of Institutional Research presents this data out to all faculty once or twice per year. Plan-Do-Check-Act (PDCA) Projects, which have been in place for 5 years, contributes to faculty improvement by giving faculty members an opportunity to pilot an innovative teaching idea at least one semester per year.   Our General Education Outcomes Assessment shows the success in Gen Ed classes.

    Other parts of our Comprehensive Assessment Plan are in earlier stages of collection, analysis, and reporting.

35. The federal government is increasingly concerned that institutions and accreditors are taking into account federal metrics in the review of student outcome data. These metrics are best found in the College Scorecard.

    Explain how information from the Scorecard is incorporated in the institution's review of its student outcome data. Please note the loan repayment rate identified on the Scorecard and explain how the institution uses this metric in its review of its own data.

The College Scorecard including our financial aid loan repayment history are reviewed in President's Staff meetings and rates are compared over time. This information is also shared with the Board.

For more information see Federal Requirement 34 CFR 602.16(a)(1)(i).

Related HLC Requirements: Core Components 4.A–C; Assumed Practice C.6, C.7.

Publication of Student Outcome Data

Student outcome data should be made available to the public through the institution's website—for instance, linked to from the institution's home page, included within the top three levels of the website or easily found through a search of related terms on the website—and should be clearly labeled as such. Any technical terms in the data should be defined, and any necessary information on the method used to compile the data should be included. Data may be provided at the institutional or department level or both, but the institution must disclose student outcome data that address the broad variety of its programs.

36. Are student outcome data published on the institution's website following the specifications above?

☑ Yes

☐ No

37. How does the institution ensure that the publication of these data accurately reflects the range of programs at the institution?

Highland collects and reports data in several ways. Student outcome data is posted online at https://highlandcc.edu/pages/student-outcome-data. This includes student enrollment, types of financial aid, retention rates, graduation rates, transfer out rates, number of degrees/certificates awarded, funds per FTE student, gainful employment information, student to faculty ratios, and various technical center reports.

We are continuously building our list of public reports online at https://highlandcc.edu/pages/hlc-public-reports such as results from IPEDS, the College Employee Satisfaction Survey, National Community College Benchmark Project, and various Kansas state assessments.

38. Provide a link to the webpage(s) that contains the student outcome data.

https://highlandcc.edu/pages/student-outcome-data

https://highlandcc.edu/pages/hlc-public-reports

Related HLC Requirement: Assumed Practice A.6.

Standing With State and Other Accrediting Agencies

39. List any relationships the institution has with a specialized, professional or institutional accreditor or with any governing or coordinating bodies in states in which the institution has a presence. Note whether the institution or any of its programs is on a sanction, is provisionally approved or has lost status with any state agency or accrediting body.

Kansas Board of Nursing: Accreditor for HCC's Practical Nursing and Registered Nursing Programs

ASE Education Foundation (formerly National Automotive Technicians Education Foundation): Accreditor for Automotive Technology Program

Page 13

The Kansas Board of Regents: The coordinating body for two-year colleges in Kansas

Higher Learning Commission: Highland Community College's Regional Accreditation Agency

U.S. Department of Education: Agency for Approval of Federal Programs

Provide the most recent comprehensive evaluation report and action letter from each institutional or specialized accrediting agency as well as any interim monitoring prepared for that agency. Attach as **Appendix W**.

40. Explain how the institution makes its standing with state agencies and accrediting bodies available to students. Provide samples of those disclosures as **Appendix X** and indicate the web address where students and the public can find these disclosures.

Highland Community College informs its students of the College's standing with state agencies and accrediting bodies through its website. This information (shown here) is available on the Student Right to Know page (https://highlandcc.edu/pages/student-right-to-know) under Accreditation and Licensure:

"Highland Community College is authorized to operate by the Kansas Board of Regents and is regionally accredited by the Higher Learning Commission (HLC). HLC offices are located at 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604, (800) 621-7440/(312) 263-0456. Program specific accreditations are available on file at Highland Community College Technical Center, Atchison, KS. HCC Nursing Programs are approved by the Kansas State Board of Nursing (KSBN). The curriculum for both the LPN - RN Program and the PN Program support the statewide alignment as outlined by the Kansas Post-Secondary Technical Education Authority (TEA) under the auspices of KBOR as approved by KSBN. HCC's Auto Technology Program is ASE Education Foundation (formerly NATEF - National Automotive Technician Education Foundation) certified. We are authorized by the U.S. Department of Education to participate in the Title IV, HEA programs listed in our Program Participation Agreement available on file in the Financial Aid Office at Highland Community College, 606 W Main, Highland, KS 66035."

We also have the Higher Learning Commission status verification badge at the base of our home page (http://highlandcc.edu). Students may click on that badge to learn more about our regional accreditation status.

For the Kansas Board of Nursing, we also include the following on the front cover of the "Student Guidelines" document used in each of our Nursing programs. The cover states, "Highland Community College is authorized to operate by the Kansas Board of Regents and accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (NCA). The LPN to RN Completion Program is approved by the Kansas State Board of Nursing." and the addresses of both accrediting bodies are included. The sentences about Nursing approval listed on the Student Right to Know page are also included on the individual program pages for LPN (https://highlandcc.edu/pages/lpn) and for LPN to RN (https://highlandcc.edu/pages/lpn-to-rn).

Our ASE Education Foundation (formerly NATEF) certification for Auto Technology is mentioned on that program's web page (https://highlandcc.edu/pages/automotive-technology2-yr).

For more information see Federal Requirements 34 CFR §602.28, 34 CFR 668.41, and 668.43.

Public Notification of Opportunity to Comment

Local newspapers, institutional websites and alumni magazines are appropriate choices of media in which to solicit public comments. Notices of the opportunity to comment should reach all constituencies but should not unduly burden the institution. Notices of the visit should be published following the format prescribed in the *Procedure on Third-Party Comments*.

Notices should include:

- The purpose and dates of the visit.
- The institution's accreditation status with HLC.
- An invitation to send written, signed comments directly to HLC.
- Contact information for HLC.

Notices should specify that comments must be sent to HLC no later than four weeks before the start of the visit.

In cases where comments are of a sensitive nature, HLC ensures that the commenter is aware that comments are typically forwarded to the institution and the evaluation team with identifying information intact. In some cases, HLC may redact the identifying information of the commenter or summarize the comment.

41. Submit a list of constituencies that have received the notice of opportunity to comment. (These groups may include students, parents, alumni, taxpayers, donors, community groups and local businesses.)

    General public
    Students
    Parents of students
    Doniphan county taxpayers
    Doniphan County Chamber of Commerce
    HCC Foundation Board of Directors
    HCC Foundation donors

42. What media did the institution use to solicit comments?

    Area newspapers:
            Kansas Chief
            Hiawatha Daily World
            Atchison Globe
            Horton Headlight
    Social media:
            Facebook
            Twitter

43. Copies of the institution's notices must be sent in PDF format to HLC (legalaffairs@hlcommission.org) at least one month before the comprehensive evaluation visit. The comments and notices are compiled by HLC staff members and sent to the evaluation team and the institution three weeks prior to the visit. As third-party comments are an important part of the comprehensive evaluation, HLC also reviews and forwards comments received after the deadline lapses and even during the visit. Attach a copy of the notices as **Appendix Y**.

Competency-Based Programs Including Direct Assessment Programs / Faculty-Student Engagement

44. Does the institution offer any direct assessment programs, as defined in 34 CFR §668.10?

☐ Yes

☒ No

Note: HLC policy and federal regulations require that direct assessment programs be reviewed and approved by the accrediting agency before they are initiated. Contact your HLC liaison if the institution offers direct assessment programs that have not been approved by HLC.

45. Does the institution offer any competency-based programs?

☐ Yes

☒ No

Note: The definition of competency-based and direct assessment programs (as taken from 34 CFR §668.10) can be found on the substantive change application for new competency-based or direct assessment programs.

46. Provide a list of direct assessment or competency-based programs offered by the institution.
N/A

47. How does the institution ensure that faculty in these programs regularly engage with students? Please respond to the following questions:

a. Do the faculty members initiate communication on some regular basis with the students in the course(s)? If yes, provide examples of how and when this occurs in each program.

N/A

b. Do the students have a responsibility to initiate communication with the faculty members on some regular basis that is at least equivalent to contact in a traditional classroom? If yes, provide examples of how and when this occurs.

N/A

c. Describe the manner in which faculty respond to questions from students about the academic content of the program. Describe the interaction between faculty and students about demonstrating competencies in the program material.

N/A

d. Demonstrate that in the tasks mastered to assure competency, faculty and students interact about critical thinking, analytical skills, written and oral communication abilities, etc., in the context of the course(s) in question with appropriate guidance by faculty.

N/A

e. Demonstrate that in the tasks mastered to assure competency, faculty and students interact about core ideas, important theories, current knowledge, etc., in the context of the course(s) in question with appropriate guidance by faculty.

N/A

Review of Student Outcome Data

Standing With State and Other Accrediting Agencies

Public Notification of Opportunity to Comment

Appendix A: Worksheet for Institutions on the Assignment of Credit Hours and Clock Hours

Instructions

This worksheet should be completed by the person(s) at the institution who knows the most about the institution's calendar and credit hour assignments; at many institutions the registrar may be the appropriate person to complete this worksheet. The person(s) completing the worksheet should work closely with the institution's financial aid officer to ensure consistency between what is reported to HLC on this form and what is reported to the U.S. Department of Education (hereafter referred to as "the Department").

Purpose of this form. This form provides the peer review team with a single source of information about the institution's calendar, credit hour policies and total credit hour generation related to the courses for which it provides instruction, and an overview of the institution's pattern of distribution of credit hour assignments. **It is not an inventory of every course the institution offers.** The institution should:

• Report on academic terms and credit for courses that support the institution's certificate and degree programs.

• When appropriate, include in the form brief explanations of the allocation of credit hours.

• Estimate or round off where appropriate.

• **Not** include prior learning, transfer, etc., wherein the institution awards credit but does not provide instruction associated with that credit.

Part A. Assignment of Credits and Program Length. All institutions must complete Part A. Institutions that use multiple calendars may need to complete more than one area of Section 1*.*

Part A includes:
Section 1. Institutional Calendar, Term Length and Type of Credit
Section 2. Format of Courses and Number of Credits Awarded
Section 3. Policy on Credit Hours
Section 4. Total Credit Hour Generation
Section 5. Clock Hours
   Clock Hour Worksheet. Institutions should complete this worksheet only if they offer clock hour courses/programs or are required by the Department to report certain courses/programs to the Department in clock hours for Title IV purposes.

Part B. Supplemental Materials

Section 1: Institutional Calendar, Term Length and Type of Credit

Institutions using multiple calendars across the institution may need to complete more than one area of the chart below. For more information about the terminology and calendaring units referenced in this form, see the 2011–2012 "Federal Student Aid Handbook," Volume 3, Chapter 1, "Academic Calendar, Payment Periods and Disbursements." Definitions in this section are taken from that handbook.

Institution name: Highland Community College (KS)

Calendar	Term	Column 1 Term Length: Number of Weeks	Column 2 Number of Starts
Semester / Trimester Calendar	Standard Format: 14 to 17 week term	15 weeks	1 per semester
	Compressed Formats: 4, 8 or other week terms within the semester calendar[1]	Fall/Spring: 1st 8-week, 2nd 8-week, Off-Block Summer: 15-day, 4-week, 8-week	3
	Summer Term		
Quarter Calendar	Standard Format: 10 to 12 week term		
	Compressed Formats: 2, 5 or other week terms within the quarter calendar[1]		
	Summer Term		

[1]*If an institution offers a summer term that is different in length than the typical fall semester, it should report summer term information in this section.*

Non-standard Terms (terms that are not semesters, trimesters or quarters. A non-standard term may have the following characteristics: courses do not begin and end within a set period of time; courses overlap terms, including self-paced and independent study courses or sequential courses that do not begin and end within a term; terms may be of equal or unequal length.)

Calendar	Term	Column 1 Term Length: Number of Weeks	Column 2 Number of Starts	Column 3 Type of Credit
Non-standard Term Calendar	Term One			
	Term Two			

	Term Three			
	Summer Term			

Degree Programs (Optional)

What is the length in semester or quarter hours or other applicable units of each of the institution's degree programs? Institutions with programs at different degree levels may include a list here if an expanded answer is required (see question 2 in the *Federal Compliance Filing by Institutions.*)

The Associate in Arts, Associate in Science, Associate in General Studies, Associate in General Studies - Human Services, and the Associate in Applied Science degrees in Accounting; Agribusiness; Business Administration; Commercial Photography; Criminal Justice; Early Childhood; Graphic Design; Nursing; Personal Fitness Trainer; Risk Management; and Technical Programs are all 63 credit hours each. The Associate in Applied Science for Medical Coding is 64 credit hours and the Associate in Applied Science for Precision Agriculture is 65 credit hours total.

Section 2. Format of Courses and Number of Credits Awarded

Guide to Completing This Section

Purpose

In this section, the institution provides an overview of the pattern of instructional hours required for the credit hours it awards. The sample form provides a suggested approach for conveying that information to the peer review team. The institution may make modifications to the chart's format or add brief notes as appropriate to explain credit hour awards, particularly in non-standard or compressed-format classes.

If the institution offers multiple types of terms, such as a compressed-format term and a regular semester term, it should **complete a separate form for each type of term identified in Section 1**. Separate forms will help the peer review team understand how instructional time is related to credit hour awards in each term. The information in this section need not be extensive as long as it explains how credit hours are awarded across various formats at the institution.

This section should not be used to demonstrate that the institution assigns credit hours appropriately in regard to non-contact-hour requirements such as out-of-class group meetings or homework assignments. That issue may be addressed in the institution's credit hour policy, and may be evaluated by the peer review team in the sample of institutional programs it examines during the visit.

Period Reported

An institution may use any recent term that appropriately depicts its credit hour allocations as the basis for completing the *Form for Reporting an Overview of Credit Hour Allocations and Instructional Time for Courses* below.

Key to Rows

- Number of Courses—Count each course offered by the institution in the row corresponding to the number of credits awarded and the column or columns representing the format of delivery through

which the course or a section of the course is offered. Do not count sections of the same course if the sections are offered in the same delivery format.

- Number of Meetings—Enter the total number of class meetings (or equivalent) provided in each course with each credit award during the term reported; if the number of class meetings varies, enter a range. For distance, correspondence or other formats, report on instructional time. Do not include study or other time during which students work independently or with other students even though such time may be provided to replace time with a faculty member. Instructional time need not be limited to time spent with all students in the class in a single format.

- Include labs or discussions in the number of meetings if they are a required element of the course, if they do not have a separate course number or credit hour allocation, and if the presence of a lab or discussion is considered significant when the institution assigns credit hours to the course. If a lab or discussion does not meet these considerations, it need not be reflected in this chart.

- Meeting Length—Enter the range (shortest to longest) of meeting times in each category. (*Note:* One hour may be 50 minutes of actual instructional time.)

Key to Columns

- **FTF (face-to-face):** Courses in which instructors interact with students in the same physical space for approximately 75 percent or more of the instructional time.

- **Mixed FTF:** Courses in which instructors interact with students in the same physical space for less than 75 percent of the instructional time, with the remainder of the instructional time provided through distance or correspondence education.

Note: The above explanations arise from HLC's distance education protocol. Institutions may use other thresholds for FTF and Mixed FTF provided that they define them clearly and include the definition on this worksheet.

- **Distance:** Courses in which instructors interact with students through one or more forms of distance delivery.

- **Correspondence:** Courses in which instructors interact with students through mail or electronic interface, typically according to a self-paced schedule.

    Federal Definitions of Distance/Correspondence Education:

    Distance education/course means education that uses one or more of the {following} technologies (i) to deliver instruction to students who are separated from the instructor: and (ii) to support regular and substantive interaction between the students and the instructor, synchronously or asynchronously. The technologies used may include: (i) the internet; (ii) one way and two way transmissions through open broadcast, closed circuit, cable, microwave, broadband lines, fiber optics, satellite, or wireless communications devices; (iii) audioconferencing; or (iv) videocassettes, DVDs, and CD-Roms, if the videocassettes, DVDs or CD-Roms are used in conjunction with any of the technologies listed in clauses (i) through (iii).

    Correspondence education/course means: (1) Education provided through one or more courses by an institution under which the institution provides instructional materials, by mail or electronic transmission, including examinations on the materials, to students who are separated from the instructor. (2) Interaction between the instructor and the student is not regular and substantive,

and is primarily initiated by the student. (3) Correspondence courses are typically self-paced. (4) Correspondence education is not distance education.

- **Independent/Directed Study:** Courses in which instructors interact with students through a flexible format.

- **Weekend College:** Some institutions may have an evening or weekend college that, while on the same calendar, may structure its courses and credit assignments differently than the same courses offered during the regular day. If courses are offered in the evening or on the weekend as another scheduling option for students, but the courses provide similar class meetings or instructional time as those courses offered by the institution during the regular day, the institution need not report evening or weekend courses in this category.

- **Internships or Practica:** Some institutions may provide internship or practica experiences for which credits are awarded. Institutions that have professional schools in medicine, law, nursing, physical therapy, etc., which often require internships or practica with high credit allocations, should provide brief summative information about the internships but need not include them in the report form.

Examples

- If the institution offers Calculus 210, a three credit-hour course, in FTF and distance formats as well as through the Weekend College, the course should be reported in the row for 3 credits and once in each column corresponding to each course format offered.

- If the institution offers that course in a full 14–17-week standard format as well as in a compressed format, the course should be reported on one form for the standard format and on a separate form for the compressed format.

- If in the FTF format instructors meet with students two times per week for 1.5 hours per meeting for the 14 weeks of the term, the number of meetings should be reported as 28 meetings, and the length of each meeting as 1.5 hours.

NEW: Direct Assessment or Competency-Based Credit Hour Equivalencies

Complete the questions following the chart with regard to direct assessment or competency-based programs.

Form for Reporting an Overview of Credit Hour Allocations and Instructional Time for Courses

Using the above instructions and the following sample as a guide, create a form that provides an overview of the pattern of instructional hours required for the credit hours the institution awards. Complete a separate form for each term length specified in Section 1, Columns 1 and 2, above. Attach the form(s) as **Supplement A1**.

Note: Institutions offering courses with **six or more credits awarded** should include those courses in this form. Identify the number of credits awarded in the first column. In addition, identify the course(s) and explain the reasoning behind the credit allocated to those courses in a narrative attached to the form.

SAMPLE—NOT FOR COMPLETION

Term and Length (e.g., Spring 2011, 16 weeks OR Spring 2011, 5 weeks)**:**

Number of Credits Awarded	Instructional Time	Course Formats						
		FTF	Mixed FTF	Distance	Corresp.	Independent / Directed Study	Weekend College	Internship or Practica
1 Credit	Number of courses							
	Number of meetings							
	Meeting length							
2 Credits	Number of courses							
	Number of meetings							
	Meeting length							
3 Credits (Example)	Number of courses	119	24	57	14	2	20	4
	Number of meetings	15-45	15-30	15	4-8	3-14	6	6-10
	Meeting length	1-3 hrs.	1-2 hrs.	1 hr.	1-2 hrs.	.5-3 hrs.	4 hrs.	1-4 hrs.
4 Credits	Number of courses							
	Number of meetings							
	Meeting length							
5 Credits	Number of courses							
	Number of meetings							
	Meeting length							

Other Courses Not Reported

List below any other courses that were not included in the *Form for Reporting an Overview of Credit Hour Allocations and Instructional Time for Courses*. Identify the course names, the number of credits allocated, a brief description of how instruction takes place in these courses and how many hours of

instruction are provided. (Such courses might include travel, summer term or other courses that do not fit in the columns above because they have a different delivery format.)

Direct Assessment or Competency-Based Programs

An institution must demonstrate that any direct assessment or competency-based programs that it offers have appropriate credit hour equivalencies.

1. Provide a list of the academic programs available in direct assessment or competency-based format and the required credit hours for each program. Identify the learning objectives for each such program.

   We do not have direct assessment or competency-based programs.

2. Explain how the institution sets credit hour equivalencies for these courses and programs and otherwise ensures that students have sufficient instructional time and out-of-class work to justify the credit allocations for the courses and programs.

3. How does the institution's credit hour policy explain credit hour allocations or equivalencies established by the institution for these types of offerings?

4. Identify aggregate learning outcomes information the institution has collected for direct assessment and competency-based programs and explain how the institution reviewed this information and considered it in academic program review and its improvement processes.

Section 3: Policy on Credit Hours

Does the institution have a policy specific to the assignment of credit?

☒ Yes

☐ No

The institution has policies specific to the assignment of credit at the following levels (check all that apply):

☒ Institution-wide

☐ Delivery-format-specific

☐ Department-specific

☐ Program-specific

Attach copies of all applicable policies related to the assignment of credit as **Supplement A2**.

Section 4: Total Credit Hour Generation

How many credits does a typical full-time or part-time undergraduate student take during a regular term?
12 full-time, 6 part-time

How many credits does a typical full-time or part-time graduate student take during a regular term? N/A

Provide the head count of students earning more than the typical credits taken during a regular term in the most recent fall and spring semesters/trimesters (or the equivalent, for institutions with quarters or non-standard terms).

465 Most Recent Fall Term   2016 Year

421 Most Recent Spring Term   2017 Year

Section 5: Clock Hours

This worksheet does not apply to all institutions.

This worksheet is not intended for institutions to demonstrate that they have assigned credit hours relative to contact hours in accordance with the Carnegie definition of the credit hour. This worksheet solely addresses those programs reported to the Department in clock hours for Title IV purposes. Institutions that do not have such programs should not complete this worksheet.

Answer "Yes" to the statement below **only if the institution offers any programs in clock hours or programs that must be reported to the Department in clock hours for Title IV purposes even though students may earn credit hours for graduation from these programs**. For example, any program that prepares students for a licensed or professional discipline may need to be reported in clock hours to the Department.

Check with the institution's financial aid officer to determine if the institution has programs of this nature. Such programs typically include those that must be identified in clock hours for state licensure of the program or where completing clock hours is a requirement for graduates to apply for licensure or authorization to practice the occupation. Such programs might include teacher education, nursing or other programs in licensed fields.

Does the institution report clock hours to the U.S. Department of Education with regard to some programs for Title IV purposes?

☐ Yes

☒ No

If the answer is Yes, complete the Clock Hour Worksheet.

Clock Hour Worksheet

Only certain institutions must complete this worksheet.

Please review the following instructions.

Complete this worksheet **only if** the institution answered "Yes" in Section 5, indicating that the institution offers programs in clock hours OR programs that must be reported to the U.S. Department of Education in clock hours for Title IV purposes even though students may earn credit hours for graduation from these programs.

Federal Formula for Minimum Number of Clock Hours of Instruction (34 CFR §668.8):

> 1 semester or trimester hour must include at least 37.5 clock hours of instruction
> 1 quarter hour must include at least 25 clock hours of instruction

Institution name:

Attach as **Supplement A3** a list of the academic programs that are reportable in clock hours based on the information above.

Does the list in Supplement A3 match the list submitted to the U.S. Department of Education?

☐ Yes

☐ No

What is the institution's credit-to-clock-hour conversion policy?

If the credit-to-clock-hour conversion numbers are less than the federal formula, what are the specific requirements, if any, for student work outside of class?

Attach the institution's last E-App as **Supplement A4.**

Attach the institution's ECAR as **Supplement A5.**

Attach the institution's most recent program review as **Supplement A6.**

Part B: Supplemental Materials

The institution must include with this document the following supplements as PDF documents.

- Attach a copy of the catalog or other document that contains course descriptions and applicable credit hour assignments as **Supplement B1**.

- Attach the catalog or other document in which the institution has marked or highlighted any course provided by the institution in non-standard terms or compressed format for the term reported. This information can also be provided on a separate list that identifies those courses and how to find them in the course catalog. Attach this document as **Supplement B2**.

- Attach as **Supplement B3** the course schedule for the most recently completed fall and spring terms, including times and meeting dates for all classes at all locations and in all delivery formats. If the course schedule is not available as a separate document, include a URL to access this information online. If a password is required to access this information, include that password.

Note: The peer review team may ask for additional data to examine credit hour production by educational program and by course. These data may include separate breakdowns for general education as well as by delivery format, by course academic unit (semester, quarter, etc.), by level, or by location.

Number of Credits Awarded	Instructional Time	FTF	Mixed FTF	Distance	Independent/Directed Study	Internship or Practica
1 credit	Number of courses	75 courses (including 30 Tech courses)		1 course	1 course	2 courses

	Number of meetings	18 meetings	9 meetings			
	Meeting Length	5 hrs	8 hrs FTF plus online			
12 credits	Number of courses	**2 (EMT Beginning & Advanced)**				
	Number of meetings	30 meetings				
	Meeting Length	4 hrs				

CURRICULUM AND INSTRUCTION COMMITTEE
Ground Rules/By-Laws
Established 1992-1993
14th Revision March 2017

1. **Meeting Days and Times**
   a. Meetings will be held once a month or as scheduled.
   b. Special meetings may be scheduled as needed.

2. **Member Absences**
   a. Members (s) will notify the Chair of absence prior to meeting.
   b. Member(s) absent for a meeting may submit a vote by e-mail to the chair prior to the scheduled meeting.
   c. In the event that the Chair is unable to attend a meeting the previous Chair (or in cases where that is not possible, a designated individual from the committee) shall conduct the meeting.

3. **Voting on Material**
   a. Material for the agenda must be submitted to the Academic Affairs office ten (10) days prior to the next scheduled meeting
   b. Notifications require no vote
   c. Agenda items requiring one (1) presentation – presentation and vote
   d. Agenda items requiring two (2) presentations;
      - First meeting; the Initiator (or designated representative) of the submission must be present for the presentation
      - Second meeting; Discussion on submitted materials will continue. A vote may be taken at this time if no further discussion is required or submission may be continued to a third meeting before a vote is taken.
   a. In order to take a vote, a quorum (defined as one over ½ of the membership) must be present.
   b. Voting may take place during a meeting or under some circumstances via e-mail.

4. **Membership**
   a. Voting members should be appointed from each of the following disciplines and positions:
      - Fine Arts (music, visual arts, theatre, photography)
      - Oral and Written Communications
      - Business, Early Childhood, or Agriculture
      - Mathematics
      - Social and Behavioral Sciences (Psychology, Sociology, Anthropology, Criminal Justice, Political Science and Physical Education)
      - Humanities (History, Philosophy, Language)
      - Biological and Physical Sciences
      - Health Sciences
      - Regional Center Director or Designee
      - Director of eLearning
      - Director of the Library
      - Director of Academic Advising or Designee
      - Director of Technical Education
      - Registrar
      - Administrative Assistance to the Vice President of Academic Affairs

   b. Ex Officio (Non-voting) members:
      - Vice President for Academic Affairs
      - Student Advisory Member

   c. The Chair is elected from the membership annually in May and is a voting member.

5. **Functions**

   a. To review departmental program curriculum and instructional needs,

b. To make recommendations to the Vice President for Academic Affairs concerning additions, deletions or modifications to the college curriculum reviewed/modified/new by the committee,
c. To make recommendations to pertinent departments regarding course offerings.
d. To make recommendations for catalog review and updates,
e. To work with the articulation coordinator to insure that instruction and curriculum needs are being met in transfer programs,
f. To make recommendations to the Vice President for Academic Affairs regarding instructional facilities, additional faculty, and textbooks necessary to fulfill instruction and curriculum needs.

6. Vice President for Academic Affairs

The Vice President for Academic Affairs is a non-voting member, however he or she retains the privilege to approve or disapprove the proposed course(s), modifications, and/or program based upon the action of the C & I Committee and any additional information deemed applicable.

Disclaimer

The H.C.C. catalog is not a contract between Highland Community College (HCC) and any prospective student. HCC retains the right to cancel programs or course offerings when enrollments are insufficient to continue programs/courses on an educationally sound and/or economically efficient basis. Published tuition, fees, and regulations are also subject to change. The listing of courses included in any college catalog or class schedule is by way of announcement only and shall not be regarded as any offer of contract. Highland Community College expressly reserves the right to (1) add or delete courses from its offerings, (2) change times or locations of courses or programs, (3) substitute instructors, (4) change academic calendars without notice, (5) cancel any course for insufficient registration, or (6) revise or change rules, charges, fees, schedules, courses, requirements for degrees, and any other policy or regulation affecting students, including, but not limited to, evaluation standards, whenever the same is considered to be in the best interest to the College.

Credit Hour Definition

Credit is the basic unit of collegiate level instruction assigned to a course or course equivalent learning. Credit may be awarded according to the following standards.
Time-based Standard

- A regular college semester is defined as fifteen (15) weeks of instruction plus one (1) week allocated for final exams.
- Lecture courses must meet for a minimum of 750 minutes per credit hour (50-minute hour for 15 weeks), plus time allocated for a final exam.
- Laboratory courses including those in vocational-technical programs, must meet for a minimum of 1,125 minutes per credit hour (1.5 X 750 minutes). Laboratory courses are ones in which students predominantly are involved in experimentation or application learning activities.
- Internships, practicum, and on-the-job training courses must meet for a minimum of 45 hours (60 minute hour) per credit hour.
- Physical education activity courses must meet for a minimum of 1,500 minutes per credit hour.
- Clinical courses and apprenticeship courses will meet the minimum required by the respective professional accrediting or regulatory agency, but may not be less than the minimum required for laboratory courses as defined above.

New Course, Course Modification and/or New Program, Program Modification Process

- Initiator discusses their idea with the Vice President for Academic Affairs

- Initiator gets the appropriate paperwork from the office of Academic Affairs.
- Initiator completes the paperwork, which includes departmental approval as well as justification and sends an electronic syllabus to the Academic Affairs office. If there is a question concerning department approval, the Vice President of Academic Affairs will provide direction.
- The completed paperwork is taken to the Academic Affairs office. The Academic Affairs office notifies the C&I Chair to add a new/modified course or a new/modified program to be placed on the next C&I agenda. All electronic documentation must be provided ten (10) days prior to the next scheduled meeting.
- The C&I chair and/or a designee from the Vice President of Academic Affairs Office notifies the Initiator with the time, date and location for the meeting for presentation.
- The new/modified program or new/modified course is introduced to the C&I committee.
- After the 1st or 2nd presentation the C&I committee will vote for approval or disapproval. A final syllabus & documentation is to be electronically submitted to the Academic Affairs office.

New/Modified Course Process

The Vice President for Academic Affairs office will submit the new/modified course(s) to the Kansas Board of Regents on the KSPSD Course Inventory website with the required mailed documentation, after the approval of the C&I committee. The Director at the HCC Technical Center will submit the new/modified course(s) to the Kansas Board of Regents on the KSPSD Course Inventory/Program Inventory website with the required mailed documentation, after the approval of the C&I committee for HCC vocational and technical areas. A minimum of four (4) months is required for the complete process prior to implementation.

New/Modified Program Process

The Vice President for Academic Affairs office will submit the new/modified course(s) to the Kansas Board of Regents on the KSPSD Course Inventory website with the required mailed documentation, after the approval of the C&I committee. The Director at the HCC Technical Center will submit the new/modified course(s) to the Kansas Board of Regents on the KSPSD Course Inventory/Program Inventory website with the required mailed documentation, after the approval of the C&I committee for HCC vocational and technical areas. A minimum four (4) months is required for the complete process prior to implementation.

When the final syllabus is received in the Academic Affairs office from the Syllabi Coordinator, it will be sent to the Director of eLearning/HCC Online and the Transfer and Articulation Coordinator. The Syllabi Coordinator posts updated documents to the website and the Administrative Assistant to Vice President of Academic Affairs updates the changes in PowerCampus.

14th revision ratified by C&I membership on March 31, 2017.

A 101 Art Appreciation 3
This course is an introduction to the fundamentals of the visual arts. The course focuses on the importance of art in the contemporary world as well as the historical aspects of art and its influence on Western culture today.

A 103 2-D Design 3
This course provides an introductory study of the elements and principles of two-dimensional design. Emphasis will be placed on two-dimensional spatial organization. A variety of materials and approaches will be explored and applied.

A 104 3-D Design 3
This studio design course covers the elements and principles of three-dimensional design. Course projects will deal with the linear and planar aspects of 3-D design as well as the structural concepts of volume, mass, and form.

A 105 Prints I 3
This course provides an introduction to the tools, methods, and techniques used in intaglio and relief printing processes. Emphasis will be placed on the variety of ways to create an intaglio plate, such as etching, soft mezzotint, engraving, aquatint, and drypoint. Relief processes such as linocut and woodcut will also be included.

A 107 Drawing I 3
This course will cover the fundamentals of drawing as applied to the realistic and expressive representation of objects through the use of various media, approaches, and techniques. Emphasis will be placed on composition, line, value, texture, and spatial relationships.

A 108 Drawing II 3
This class continues the investigation of various drawing media with an emphasis on creative expression. The course will cover techniques as well as compositional problems. Subject matter will include still life, landscape, the figure, and invented compositions. *PreReq: A 107*

A 110 Painting I 3
This course will provide a brief history of painting and an introduction to the color wheel and various painting techniques. The course will emphasize the use of oil and acrylic paint, and projects will deal with line, color, form, texture, and space in both representational and non-objective subject matter.

A 111 Painting II 3
This course will provide a continuation of Painting I concepts and will also emphasize individual expression and exploration. *PreReq: A 110*

A 112 Ceramics I 3
This course will provide an introduction to the use of clay as an art medium. The course will cover traditional techniques used in hand-building and wheel thrown forming methods and will also introduce ceramic glazes, slips, stains, and firing methods.

A 113 Typography 3
This course will provide a study of the principles of contemporary typographic design. The course will focus on size, form, contrast, color, spacing, and design of the printed word and printed page. Typography production from traditional letterpress through photomechanical processes will also be discussed. The course will provide an introduction to the Macintosh computer and the latest graphic design software.

A 117 Ceramics II 3
This course continues the instruction and skill building begun in Ceramics I. The course will emphasize the development of sound clay design and form and will cover contemporary hand-building and throwing techniques, as well as kiln firing and glaze formulation. *PreReq: A 112*

A 121 Design Software Applications 3
This course provides an introduction to computer hardware, software, and peripherals commonly used by graphic designers and professional artists. Students will complete projects using graphic design software.

A 123 Design Software Applications 3
This course introduces students to the use of digital technology using state-of-the-art computer illustration software. Projects will incorporate use of the Macintosh computer for digital imaging and manipulation, as well as image editing, scanning, and printing.

A 139 Computer Graphics -Web Design 3
This course provides an introduction to basic web page and site design. The course will focus on applying strong design principles to create effective page and site projects using Macintosh computers and web design software. *PreReq: A121*

A 201 Art History I 3
This course provides an introductory survey of the art and architecture of the Western world from Prehistoric times through the Early Renaissance. Because of the extensive time period and the number of civilizations being examined, the course will focus on art objects and monuments that are most representative and significant for each historical period. A broad range of art forms will be examined, including monumental architecture, sculpture, ceramics, paintings (including frescoes, mosaics, and manuscripts), textiles, and metalwork.

A 202 Art History II 3
This course provides an introductory survey of the art and architecture of the Western world from the Renaissance through Modern periods, ending with a survey of trends in contemporary American and European art. The course will explore the relationships between the art periods and styles as well as the achievements of individual artists. Because of the extensive time period and the number of cultures and styles being examined, the course will focus on art objects and monuments that are most representative and significant for each historical period. A broad range of art forms will be examined, including monumental architecture, sculpture,

ceramics, paintings (including frescoes, mosaics, and manuscripts), textiles, and metalwork.

A 205 Art Methods 3
This course will focus on the principles and practices of teaching art to children from preschool through middle school.

A 215 Graphic Design 3
This course covers the resources, materials, and procedures of graphic design. The course will provide an introduction to problem solving, basic layout skills, and graphic design terminology. An introduction to the Macintosh computer with the latest graphic software will be included. Projects will emphasize color, form, and typography.

A 223 Computer Graphics - Illustration 3
This course provides an introduction to contemporary illustration practice, including the use of traditional drawing, painting, and print-making techniques supplemented with digital manipulation using the most recent version of Adobe Illustrator and Adobe Photoshop. The course also covers hand rendering, computer rendering, scanning, digital tablet use, image manipulation, and printing. The course will also focus on a client based approach to image creation, emphasizing the development of concepts and ideas concluded by finished images. *PreReq: None, A 103 or A 121 recommended*

A 224 Computer Graphics - Enhanced Photography 3
This course provides experience in the use of high-tech enhanced photography software. Course projects will incorporate use of Macintosh computers and Adobe Photoshop software for digital imaging and manipulation as well as image editing, scanning, and printing.

A 240 Art Seminar 1
This course is designed for students interested in research, discussion, and studio experience in various media within academic or vocational areas such as art education, art therapy, computer graphics, graphic design, interior design, and studio art. *PreReq: Sophomore standing*

A 250 Advanced Studio I 1
This studio course is designed for the student with an interest in fine arts. The course will allow students to explore the possibilities of self-expression with media and materials of their own choosing. *PreReq: Any previous studio course*

A 251 Advanced Studio II 1
This studio course is designed for the student with an interest in fine arts. The course will allow students to explore the possibilities of self-expression with media and materials of their own choosing. *PreReq: A 250*

A 252 Advanced Studio III 1
This studio course is designed for the student with an interest in fine arts. The course will allow students to explore the possibilities of self-expression with media and materials of their own choosing. *PreReq: A 251*

A 253 Advanced Studio IV 1
This studio course is designed for the student with an interest in fine arts. The course will allow students to explore the possibilities of self-expression with media and materials of their own choosing. *PreReq: A 252*

A 260 Portfolio Preparation 1
This course is intended to provide students with the skills and knowledge to design and prepare a portfolio that can be used for college admissions or scholarship applications as well as for pursuing employment opportunities. *Pre Req: Sophomore standing*

AB 101 Small Scale Local Food Production 3
This course will cover garden practices as they relate to food production. Fruit and vegetables will be raised in a College garden site. The course will specifically cover the principles of plant growth, garden planning, soil preparation, planting and tending crops, marketing, and processing garden produce.

AB 108 Principles of Animal Science 3
This course will provide an introduction to the field of animal science. The course will focus on fundamental concepts of genetics, animal breeding, physiology, anatomy, nutrition, digestion, and the scope of the livestock industry. *PreReq: AB 114 or permission*

AB 114 Orientation 2
This course will provide an introduction to the various careers in agriculture. The course will also cover career and job trends, setting academic goals, note taking, designing a term study plan, preparing for tests, and test taking strategies and skills.

AB 120 Introduction to Beekeeping 3
This course will provide an introduction to the basics of beekeeping. The course will cover equipment and supplies necessary for setting up an apiary, appropriate apiary locations, installing a colony of bees, and checking the progress of a colony.

AB 121 Honey Products Development & Marketing 3
This course is designed to provide an introduction to the legal requirements of honey product packaging and quality control of the product. The course will also cover packaging and marketing strategies to maximize profits. Other value-added products will be introduced for diversification of sales possibilities.

AB 122 Colony Health & Treatment of Disease 1
This course is designed to provide an introduction to the recognition, diagnosis, and treatment of honeybee diseases and pests. The course will also cover preventative maintenance methods for general colony health.

AB 123 Spring Apiary Management 2
This course is designed to provide an introduction to the basics of spring apiary management. The course will cover preparing colonies for spring honey production, promoting colony health, and increasing the number of colonies.

*indicates a technical course

AB 124 Beekeeping Equipment Construction   **1**
This course will provide a hands-on learning experience in making a complete beehive from wood. The course will also cover assembling pre-made beehive components. *PreReq: Permission*

AB 126 Principles of Agronomy   **3**
This course will provide instruction in crop plant classification, use, and identification. The course also covers cropping systems, tillage methods, planting methods, harvesting methods, and crop growth patterns. Course emphasis will be balanced between theoretical and practical crop science.

AB 128* Agriculture Electronic Devices/System   **3**
This course is designed for students with basic electrical knowledge and will provide information on how agribusiness and industrial machines are controlled. The course will cover basic concepts, such as 2 and 3 wire control systems, as well as more complex systems, including the applications and limitations of Programmable Logic Controllers (PLCs). Applications of this technology and the language of how to read and understand ladder diagrams and wiring diagrams will also be emphasized.

AB 130* Precision Farming Systems   **3**
This course presents an overview of precision farming concepts and the tools of precision farming (Global Positioning System, Geographic Information System, and Intelligent Devices and Implements). The course will provide experience using these tools within the processes of a precision farming system, and hands-on activities with local data will be included. Economic and environmental benefits are also covered.

AB 132* Advanced Precision Farming Systems   **3**
This course will cover the use of precision farming software, including initial setup, creating management and production lists, saving and unloading data cards, and processing field data. The course will also cover using the software to create reports and prescription/application maps. Deere Apex, Ag Leader Spatial Management System, and FarmWorks SiteMate will be the packages used. This is a project driven course in which the instructor will provide guidance, with students required to read software documentation to complete most of the tasks.

AB 134* Advanced Precision Farming Hardware   **3**
This course will cover the use of various precision farming hardware components. The course will include basic concepts of electricity, electronics, hydraulics, and pneumatics and will provide hands-on experience in the installation of display modules, Global Positioning System (GPS) units, and control components. This is a project driven course which requires students to use technical manuals for installations. Systems used for the course will include Deere Greenstar, Deere StarFire Real Time Kinematics (RTK), Ag Leader guidance, Case IH yield monitoring, and Rawson variable rate hydraulic unit.

AB 136* Geographic Information Systems   **3**
This course covers fundamental concepts and theories from the geospatial, cartographic, and computing sciences relevant to the emergence, use, and development of Geographic Information Systems (GIS). The course will focus on GIS, Global Positioning Systems (GPS), and remote sensing as well as spatial data production, analysis, and management. The course will combine a review of theoretical foundations with hands-on practical exercises in collecting, analyzing, and producing geospatial and attribute information.

AB 138* Remote Sensing   **3**
This course will cover the concepts of radiometric and photometric measurements: propagation, irradiance, radiance, radiant intensity, luminance, and radiant existence. Calibration and characteristics of remote sensing data and data analysis techniques will be included. The course will also focus on the interaction between electromagnetic radiation and matter and the effects of the atmosphere on light propagation and remote sensing experiments. Class work will include laboratory and teamwork exercises and will also provide practical experience in the technical workplace.

AB 142* Mapping for Decision Making   **3**
This intermediate course focuses on the concepts and procedures used in discovering and applying the spatial relationships within and among maps. The course applies the mapping and geo-query capabilities of Geographic Information System (GIS) technology to map analysis and construction of spatial models. The course also provides a comprehensive framework that addresses a wide range of applications from natural resources to geo-business.

AB 144* Intermediate GIS   **3**
This course will cover advanced topics and current techniques in Geographic Information Science (GISci). The course will emphasize both theory and practice and will go beyond the development of geographic mapping technology to focus on integrated systems. The course will cover data models, spatial data quality and uncertainty modeling, network analysis and modeling, digital terrain modeling, spatial interpolation, 3-D mapping and visualization, mobile Geographic Information System (GIS) mapping, and Internet GIS.

AB 146* Aerial Systems Management   **2**
This course introduces Unmanned Aerial Systems (UAS) platforms, their history, and commercial applications, with special emphasis in Precision Agriculture, Federal Aviation Administration (FAA) regulatory framework, data collection, privacy issues, and navigation concepts. Although instruction will cover content that is needed to pass the certification test for flying drones, no certification will be awarded as part of this class in the actual flight of unmanned aerial vehicles. Further training and instruction will be required for students wishing to acquire and/or pilot aerial vehicles, and students will be responsible for pursuing that certification through testing.

AB 148* Positioning Systems Management   **3**
The Global Navigation Satellite System (GNSS) is a worldwide, satellite-based navigation system used for aviation, remote sensing, shipping, vehicle tracking, surveying, time transfer, search and rescue operations, and personal communications via satellite. This course provides an introduction to this rapidly growing field,

71

indicates a technical course

covering both applications and the technology that makes satellite navigation possible. It is by nature an interdisciplinary course, covering subject material in orbit prediction, satellite systems, signal processing, error modeling, computer programming, digital and microwave electronics.

AB 202 Agriculture Economics I   **3**

This course provides an introduction to the field of agricultural economics as well as some of the basic tools and concepts of decision making. Concepts are illustrated in terms of selected contemporary social and economic issues, including the role of agriculture in both the national and international dimensions. Topics will include the structure of U.S. agriculture, consumer food issues, world food problems, agribusiness, and rural development.

AB 203 Soils and Soils Lab   **4**

This course will provide a study of the physical, chemical, and biological properties of soils and how these properties determine the nature of each soil and its crop productivity. The course will also cover soil management practices. *PreReq: AB 210, PS 111 or 2 years high school chemistry or permission*

AB 207 Fundamentals of Animal Nutrition   **3**

This course covers the role of carbohydrates, proteins, lipids, minerals. vitamins, and water in animal nutrition. The course will emphasize digestion, absorption, metabolism, and excretion of nutrients and their metabolites. *PreReq: AB 108 or permission*

AB 208 Applied Animal Nutrition   **3**

This advanced course will cover various techniques involved in the formulation, preparation, and construction of animal nutrient rations. *PreReq: AB 207 or permission*

AB 210 Crop Science   **4**

This course will examine plant morphology and anatomy and will also provide a history of plant agriculture. The course will emphasize plant structures and systems related to the five major field crops found in the local region: corn, sorghum, wheat, soybeans, and alfalfa. Growth stages, critical periods of development, plant nutrition, mineral elements involved in physiology, and grain grading and marketing will also be covered. *PreReq: PS 107, PS 111 or permission*

AB 212 Livestock Production   **3**

This advanced animal science course is designed so students can expand their expertise working with livestock. The course will cover lactation, genetic applications, physiology of reproduction, animal ecology, and the impact of livestock production on the quality of life. *PreReq: AB 108 or permission*

AB 216 Marketing Farm Products   **3**

This introductory course will cover operations involved in the movement of agricultural commodities from the farmer to the consumer. The course will focus on the essential marketing functions of buying, selling, transportation, storage, financing, standardization, pricing, and risk bearing. *PreReq: AB 202 or permission*

AB 220 Beef Production   **3**

This course will cover the basic husbandry practices used in modern beef production. The course will focus on the latest advancements in technology as they apply to cattle production. Special emphasis will be placed on genetics, physiology of reproduction, beef nutrition, health programs, management methods, use of electronic ID systems, ID databases, and marketing methods. *PreReq: AB 108 or permission*

AB 222 Sheep Production   **3**

This course is designed to introduce the technology required for modern sheep production. The course will focus on genetics, reproduction, health, nutrition, management concepts, marketing, budgets, and the proper care and handling of wool. *PreReq: AB 108 or permission*

AB 224 Range Management   **3**

This course is designed to give students knowledge about forage and range management. The course will cover principles of plant species selection, establishment, fertilization, and weed control. Utilization and grazing of natural grasses will also be covered, as well as improved cultivators. The course will include discussion of intensive grazing design and temporary forage systems, silage, and haying methods. *PreReq: AB 210 or permission*

AB 225 Animal Diseases and Health   **3**

This course will cover general concepts and applications for designing and developing an effective flock or herd health program. The course will emphasize effective sanitation, disease prevention, control of ectoparasites and endoparasites, disease identification, and methods of effective chemotherapy. *PreReq: AB 108 or permission*

AB 227 Ag Microcomputer   **3**

This course is designed for students who have had some experience with computers. The course will cover the start-up dialogue, care and maintenance of software and hardware, and what to look for when purchasing a farm computer system. The course will also emphasize the use of integrated software packages and their agricultural applications. *PreReq: 2 years high school math or permission*

AB 244 Applications Global Positioning Systems   **3**

The Global Positioning System (GPS) is a worldwide, satellite-based navigation system used for aviation, remote sensing, shipping, vehicle tracking, surveying, time transfer, search and rescue operations, and personal communications via satellite. This course provides an introduction to this rapidly growing field, covering both applications and the technology that makes satellite navigation possible. The focus of the course is interdisciplinary in nature, including orbit prediction, satellite systems, signal processing, error modeling, computer programming, and digital and microwave electronics.

ACR 105* Painting and Refinishing I   **3**

This course is the first in a four-course sequence covering all aspects of painting and refinishing auto body surfaces. The course will cover safety and health issues, surface preparation, metal treatments, equipment, and paint specifics.

*indicates a technical course

ACR 115* Non-Structural Analysis & Damage Repair I   4
This course is the first in a four-course sequence covering all aspects of non-structural analysis and damage repair for automobiles. The course will cover safety issues, vehicle construction, industry opportunities, and auto body repair techniques and materials.

ACR 125* Structural Analysis & Damage Repair I   2
This course is the first in a four-course sequence covering all aspects of structural analysis and damage repair for automobiles. The course will cover measuring, damage analysis, safety, frame repair, unibody analysis, and welding.

ACR 135* Airbrush, Fiberglass, and Pin Striping   3
This course is designed to enhance skills in auto collision repair through creating detail and unique products using airbrush and pin striping techniques and fiberglass fabrication.

ACR 155* Painting and Refinishing II   3
This course is the second in a four-course sequence covering all aspects of painting and refinishing auto body surfaces. The course will cover protective equipment, shop operations, and specific painting principles and procedures. *PreReq: ACR 105*

ACR 165* Non-Structural Analysis and Damage Repair II   4
This course is the second in a four-course sequence covering all aspects of non-structural analysis and damage repair for automobiles. The course will cover trim and hardware protection, glass, outer body, metal work, welding, safety, cutting, plastics, and adhesives. *PreReq: ACR 115*

ACR 175* Structural Analysis and Damage Repair II   2
This course is the second in a four-course sequence covering all aspects of structural analysis and damage repair for automobiles. The course will cover safety, frame inspection and repair, structural damage, unibody repair, welding techniques, and cutting procedures. *PreReq: ACR 125*

ACR 185* Panel Fabrication   3
This course is designed to give students the skills needed to fabricate panels using sheet metal in order to create a finished product by replacing or repairing existing parts. *PreReq: ACR 125*

ACR 205* Painting and Refinishing III   3
This course is the third in a four-course sequence covering all aspects of painting and refinishing auto body surfaces. This more advanced course will focus on application procedures and techniques for auto body painting. *PreReq: ACR 155*

ACR 215* Non-Structural Analysis and Damage Repair III   4
This course is the third in a four-course sequence covering all aspects of non-structural analysis and damage repair for automobiles. This advanced course will cover trim and hardware, glass repair, outer body, mechanical and electrical components, safety protocol, intermediate welding skills, and plastic and adhesive repairs.. *PreReq: ACR 165*

ACR 225* Structural Analysis and Damage Repair III   3
This course is the third in a four-course sequence covering all aspects of structural analysis and damage repair for automobiles. This advanced course will cover safety, welding and cutting techniques, unibody damage and repair, frame procedures, and fixed glass. *PreReq: ACR 175*

ACR 235* Fleet and Commercial Vehicles   3
This course is designed to allow students to use knowledge gained in sheet metal repair, welding, plastic repair, and painting to obtain skills in working on fleet and commercial vehicles, using tools and paint specific to the industrial field of collision repair. *PreReq: ACR 175*

ACR 255* Painting and Refinishing IV   4
This course is the final one in a four-course sequence covering all aspects of painting and refinishing auto body surfaces. This course will focus on advanced aspects, techniques, and procedures for a variety of auto body painting and refinishing applications. *PreReq: ACR 205*

ACR 265* Non-Structural Analysis and Damage Repair IV   5
This course is the final one in a four-course sequence covering all aspects of non-structural analysis and damage repair for automobiles. This course will focus on advanced aspects, techniques, and procedures for non-structural damage repair. *PreReq: ACR 215*

ACR 275* Structural Analysis and Damage Repair IV   3
This course is the final one in a four-course sequence covering all aspects of structural analysis and damage repair for automobiles. The course will focus on advanced welding and cutting techniques, unibody repair, frame repair, and fixed glass removal and installation. *PreReq: ACR 225*

ACR 285* Mechanical and Electrical   3
This course will focus specifically on auto mechanical and electrical systems and will cover inspection, diagnosis, service, and repair of system problems or damage. *PreReq: ACR 225*

ACR 295* Occupational Work Experience   0
Occupational Work Experiences are available to students who have completed at least 85% of their required course hours. This is an optional course for students wanting practical experience at local businesses or other approved sites.

ADM 101* Document Processing I   3
This course develops the student's basic typing skills and emphasizes the production of various kinds of business correspondence, tabulations, reports, and forms from unarranged and rough-draft sources.

ADM 115* Administrative Procedures I   3
This course is designed to give students knowledge about the concepts, terminology, skills, and procedures used in a business office. The course will focus on topics such as basic filing, office design, computer and office technology, business writing, and presentations.

ADM 121* Proofreading and Editing   3
This course is designed to assist students in identifying and correcting errors in abbreviations, formats, grammar, punctuation,

indicates a technical course

word division, capitalization, and number expression. The course also covers reviewing and applying the rules of written language to business documents, such as letters, memos, reports, resumes, agendas, and itineraries.

ADM 131* Microcomputer Applications I   3
This course is designed to examine and apply the skills, tools, and information necessary to perform basic software applications used with microcomputers. The course will cover Microsoft Word, Outlook, Power Point, and Desktop Publisher.

ADM 135* Business Math with 10-Key   3
This course will cover fundamental business mathematical operations and will emphasize development of speed and accuracy. The course will also include topics necessary for understanding business and consumer application and accounting techniques. Students will become familiar with using both mechanical and computerized 10-key calculators to complete basic math operations.

ADM 140A* Professional Profile I   1
This course will focus on the knowledge, professionalism, and skills necessary to succeed in business environments and grow personally and professionally. A variety of topics will be presented through campus seminars, faculty and guest speakers, student presentations, and group projects.

ADM 140B* Professional Profile II   1
This course continues ADM 140A and will focus on the knowledge, professionalism, and skills necessary to succeed in business environments and grow personally and professionally. A variety of topics will be presented through campus seminars, faculty and guest speakers, student presentations, and group projects. *PreReq: ADM 140A*

ADM 141* Applied Media Technology   3
This course offers an overview of the role that media play in modern society, with emphasis on the ethics, technology, social obligations, and technical skills needed by modern communicators. Course work will include digital photography, electronic publishing, and current office technology. As new technology emerges, it will be incorporated into this course.

ADM 151* Document Processing II   3
This course is a continuation of ADM 101. Students are placed in a variety of office settings with each situation emphasizing office skills such as editing, decision making, abstracting information, setting priorities, maintaining a smooth work flow, following directions, and working under pressure with interruptions.

ADM 161* Administrative Procedures II   3
This course builds on material covered in Administrative Procedures I and provides additional information on mail and shipping services, career development, effective leadership skills, stress and time management, telephone and teleconference techniques, and travel arrangements. *PreReq: ADM 115*

ADM 171* Microcomputer Applications II   3
This course provides advanced instruction on how to use database and spreadsheet software programs. The course is designed to give students in-depth knowledge for using Microsoft Excel and Access. Students will create and manage databases and spreadsheets along with exploring the Internet as a valuable tool in today's business. *PreReq: ADM 131*

ADM 180* Accounting I   3
This course is designed to give students a broad overview of business operations and the basic skills needed to keep financial records. Simulations provide students the opportunity to combine individual tasks in hands-on activities.

ADM 280* Occupational Work Experience and/or Special Topics   3
Occupational Work Experiences are available to students who have completed at least 85% of their required course hours. This is an optional course for students wanting practical experience at local businesses or other approved sites.

ANT 100 Introduction to Archaeology   3
This course will provide a general survey of archaeology and the history of archaeology. The course will emphasize the impact and importance of major discoveries and the relevance of archaeology as it relates to history. The course will include a general survey of world prehistory revealing major cultural changes from the development of early foraging societies through the rise of agricultural and complex communities. The course will also examine prehistoric cultures and their evolution in adaptive responses to changing natural and social environments from the early Paleolithic to the emergence of urban civilizations.

ANT 112 General Anthropology   3
This survey course will cover the biological and cultural evolution of humans and will emphasize culture as an adaptive and learned behavior necessary for survival. The four fields of anthropology will be introduced as well as perspectives on anthropological culture, cultural diversity, and the value of multiculturalism. The course will also focus on race, emergence of civilizations, survival needs and skills, agriculture, horticulture, contraception, economic development, language, marriage and family, kinship and descent, sex and gender, political organization, civilization, social control, social stratification, supernatural beliefs, art, globalization, and cultural change.

AUT 101* Electrical and Electronic Systems   3
This course is designed for the study of automotive electrical and electronic systems. The course takes a practical look at electricity and electronics. Topics include completing work orders, describing basic electrical relationships, identifying electrical system faults, and describing basic circuit characteristics. These topics will be covered using a variety of classroom and shop learning and assessment activities.

*indicates a technical course

AUT 121* Auto Electricity and Electronics   2
This course deals with the operation, diagnosis, and service of electrical and computer systems found on modern automobiles and light trucks. The course will focus on the latest developments in the field.

AUT 122* Brakes I   3
This course is designed to provide students with an understanding of how various basic and antilock brake systems work.

AUT 132* Engine Performance I   3
This course provides current information to develop the skills needed to diagnose and fix drivability problems. The course will cover OBD I and OBD II diagnosis as well as computerized power-train systems.

AUT 142* Automotive Technology Lab I   7
This lab course is designed to give students practical work experience in diagnosing, repairing, and understanding the components of engine repair, auto transmission/transaxles, and auto service management.

AUT 151* Heating and Air Conditioning   2
This course is designed to provide knowledge of basic heating and air conditioning systems. The course will cover theory and operation as well as proper maintenance and service procedures. Emphasis will also be on safety and correct use of air conditioning tools. *PreReq: AUT 142*

AUT 161* Steering and Suspension I   2
This course is designed to provide knowledge about various parts of chassis work, such as wheel alignment, wheel balancing, and suspension system operation and repair.

AUT 192* Automotive Technology Lab II   7
This lab course is designed to give students practical work experience in diagnosing, repairing, and understanding the components of engine repair, auto transmission/transaxles, and auto service management. *PreReq: AUT 142*

AUT 193* Hybrid and Fuel Cell Vehicles   1
This course is designed to give students an introduction to the various types of hybrid electric vehicles (HEV). Topic areas include improvement of fuel economy, hybrid designs, HEV components, and the operation of the typical HEV.

AUT 201* Manual Drive Train and Axles   2
This course is designed to provide an in-depth study of torque delivery. The course will cover clutches, drive-lines, drive axles, transfer case, and manual transmissions and transaxles. *PreReq: AUT 192*

AUT 211* Auto Transmission/Transaxles I   2
This course provides an in-depth study of torque delivery and planetary gear sets. Instruction areas include operation, service, diagnosis, and repair of automatic transmission and transaxle functions, including electronic controls. *PreReq: AUT 192*

AUT 221 Engine Performance Drivability II   2
This course provides current information to develop more advanced skills needed to diagnose and fix more complex drivability problems. The course will cover analyzing, servicing, and diagnosing a variety of fuel, exhaust, and induction systems. *PreReq: AUT 192*

AUT 242* Automotive Technology Lab III   7
This lab course is designed to give students practical work experience in diagnosing, repairing, and understanding the components of engine repair, auto transmission/transaxles, and auto service management.

AUT 251* Engine Repair I   2
This course begins with basic engine diagnostics and progresses through engine removal, tear down, short block repair, and cylinder head repair. The course will also emphasize correct engine repair techniques. *PreReq: AUT 242*

AUT 255* Automatic Transmission & Transaxle II   1
This course continues the study of automatic transmissions and transaxles and their electronic control circuits, including trouble diagnosis and service procedures. *PreReq: AUT 242*

AUT 261* Auto Service Management   2
This interactive course covers the essentials and rationale for service management. The course covers shop safety, safety planning, personal planning, supervising, and customer and staff relations. *PreReq: AUT 242*

AUT 281* Automotive Technology Lab IV   7
This lab course is designed to give students practical work experience in diagnosing, repairing, and understanding the components of engine repair, auto transmission/transaxles, and auto service management. *PreReq: AUT 242*

AUT 291* Service Management Practicum   2
This course is a continuation of AUT261 Auto Service Management and is designed to develop professional and personal skills. Emphasis will be placed on attendance, professional attitude, and laboratory behavior for the fourth semester of the program. *PreReq: AUT 242*

AUT 295* Occupational Work Experience   0
Occupational Work Experiences are available to students who have completed at least 85% of their required course hours. This is an optional course for students wanting practical experience at local businesses or other approved sites.

BS 101 College Biology   5
This general education course will examine the plant and animal kingdoms, their fundamental principles and processes of life, and their relationship to everyday life. The course consists of three hours of lecture plus three hours of laboratory work per week. *PreReq: MAT 090 , ENG 096, or Assessment*

*indicates a technical course

BS 104 Human Anatomy   4
This course is an anatomical study of the systems forming the human body. Emphasis is placed on the organs forming each system, the embryonic development of the system, and the functions of the tissues and organs of each system. The course includes a brief physiological review with each system and will consist of three hours lecture and one and one half hours of laboratory work per week.

BS 105 Human Physiology   4
This course provides a physio-chemical study of the systems forming the human body. The course will focus on the relationships between the systems and the maintenance of a homeostatic condition within the body. Diseases, defects, and abnormalities are covered with each system. The course will consist of three hours of lecture and one and one-half hours of laboratory per week.

BS 107 Introduction to Environmental Science   4
This interdisciplinary science course is designed to stimulate interest in environmental science, increase awareness of environmental problems, and improve understanding of environmental issues. The focus is on contemporary issues relating to biodiversity and sustainability. Topics include air and water quality, global climate change, environmental toxicants, energy resources, deforestation, overfishing, and endangered species. The course will also examine political and ethical concerns, sociological consequences, and economic impacts. A weekly lab session will offer a variety of experiences that demonstrate the principles, processes, techniques, and technologies of natural environmental systems and solutions.

BS 109 Medical Terminology   3
This course is designed to teach basic competency in the vocabulary and comprehension of medical terms. The course will focus on word attack skills for medical terms. The course can serve as preparation for academic success in Human Anatomy.

BS 110 Nutrition   3
This course is a study of the fundamentals of human nutrition and the relationship of nutrition to health, well-being, and personal food choices. The course will examine human growth and development, scientific research in nutrition, and how nutrition affects human disease. The course will also include the application of basic nutritional science to the requirements of life cycle stages, activity and exercise, and various states of health. This course is appropriate for Biology, Nursing, and Pre-Med students.

BS 111 Nutrition for Health, Fitness, Sports   3
This course will provide a study of food and the effect nutrition has on health, growth and development, and physical performance. The course topics include: calorie expenditures and the nutritional value of foods, including related calculations; human metabolism and metabolic pathways for carbohydrates, fat, and protein; methods for determining body composition, general fitness levels, and exercise intensity; nutritional health research data and statistics; and scientific data concerning the effects of nutrition on health, fitness, and sports activity.

BS 112 Nutrition for Health, Fitness, Sport w/ Lab   5
This course will provide a study of food and the effect nutrition has on health, growth and development, and physical performance. The course topics include: calorie expenditures and the nutritional value of foods, including related calculations; human metabolism and metabolic pathways for carbohydrates, fat, and protein; methods for determining body composition, general fitness levels, and exercise intensity; nutritional health research data and statistics; and scientific data concerning the effects of nutrition on health, fitness, and sports activity.

BS 201 General Zoology   5
This course covers the anatomy and physiology of representative species of each phylum of the animal kingdom. The evolutionary connection between the phyla of the phylogenetic tree is covered with each phylum. *PreReq: BS 101*

BS 202 General Botany   5
This course provides a study of the structure of plants and how they live, grow, and reproduce. The course will emphasize function as a basis of life and how it is related to human problems such as population, food supply, and conservation. *PreReq: BS 101 or BS 105*

BS 203 Microbiology   5
This course will provide a study of the morphology, physiology, and classification of microorganisms associated with disease. The course will also focus on methods of disease prevention through sanitation, disinfection and sterilization, sources and means of infection, and body defenses. *PreReq: BS 101 or BS 105*

BS 220 Pathophysiology   4
An introduction to the basic concepts of pathophysiology as it relates to nursing and pre-professional students. This course is organized in a manner that brings the principles of pathophysiology to the forefront with a focus on the relatively few patterns of disease, rather than asking students to memorize extensive catalogs of specific diseases and this conceptual approach is more suited to these types of students. Laboratories will be used to support and supplement the information presented in lecture. *PreReq: BS 104, BS 105*

BS 240 Emergency Medical Technician   12
This course is designed to provide training for giving medical care to patients in the pre-hospital setting. The course will offer instruction and practical experience for students to develop the knowledge, skills, and attitudes needed for certification and practice as an Emergency Medical Technician-Basic (EMT-B) in Kansas.

BS 241 CPR Basic   1
This course is designed to give students the knowledge and skills needed to provide emergency care using cardiopulmonary resuscitation (CPR) and automated external defibrillator (AED).

BS 244 Emergency Medical Training - Intermediate   6
This course is designed to provide advanced training for giving medical care to patients in the pre-hospital setting. The course will offer instruction and practical experience for students to develop the knowledge, skills, and attitudes needed for certification and practice as an Emergency Medical Technician-Intermediate (EMT-I) in Kansas.

*indicates a technical course

BTT 105* General Safety for the Building Trades   1
This course provides an introduction to the tools and materials required in the building trades. The course will cover wood and lumber, engineered panels, engineered lumber products, fasteners, hand tools, portable power tools, and stationary power tools. Emphasis will be placed on the safe operation of hand and power tools as well as job hazards and safety in the building trades industry.

BTT 106* Introductory Craft Skills   4
This course provides both a general and specific introduction to the construction business. The course will include a study of the Occupational Outlook and the various types of jobs available in the building trades industry. Emphasis will be placed on the safe operation of hand and power tools and other equipment. The course also covers the application of basic mathematics in the construction industry.

BTT 109* Carpentry Basics   4
This course provides step by step instruction on how to use equipment, tools, and fasteners, as well as how to measure, cut, drill, join, fasten, and finish various types of hardwoods and softwoods. The course will also cover reading and interpreting plans, elevations, schedules, sections, and details contained in basic construction drawings. Students will apply construction skills through participation in a student designed and built house project.

BTT 111* Roof Framing   3
This course provides a practical study of roof styles, including gambrel, gable, shed, hips, and trusses. The course covers rafter and truss design, lay-out, and framing, as well as cornice, soffits, and gable end construction.

BTT 119* Floors, Walls, and Ceiling Framing   4
This course provides experience in construction of the sub-floor system in a residential house according to the Uniform Building Code. The course also offers experience in constructing and installing exterior and interior walls, as well as a practical study of sheet rock materials and finishing techniques. *PreReq: BTT 111*

BTT 121* Residential Concrete Construction   3
This course is a study of the reinforcing materials, concrete, and basic formwork used in construction. The course will cover how to perform several masonry and concrete finishing tasks, such as mixing concrete, building footings, edges and wall forms, and using concrete reinforcing materials.

BTT 155* Residential Interior Finish Carpentry   3
This course focuses on the materials, techniques, and skills needed to finish the interior of a home. The course will cover insulation and moisture protection, finishing walls, ceilings, and floors, and cabinetry. *PreReq: BTT 121*

BTT 159* Windows, Doors, and Stairs   3
This course provides a study of exterior sheathings, windows, doors, sidings, eaves, and fasciae. The course will include instruction and experience in installation, finish, and maintenance. In addition, the course will provide experience in installing thresholds, weather stripping, locksets, and overhead garage doors.

BTT 170* Painting, Finishing, and Decorating   5
This course focuses on the various materials used for coatings that cover all types of finishes, including wood and other materials such as metals and drywall. The course will provide instruction and experience in paints, stains, varnishes, and various synthetic materials, both clear and colored. *PreReq: BTT 159*

BUS 101 Introduction to Business   3
This course provides an introduction to business, including business organization and management, the financing of a business operation, the marketing of the product or service, the accounting of business transactions, and career information.

BUS 102 Personal Finance   3
This course is for non-business as well as business majors. The course is primarily concerned with the management of money from the viewpoint of the individual. Topics covered include the consumer's credit buying, borrowing, saving, and investments; purchase of insurance, real-estate, and other major items; the problem of taxation and wills; and controlling expenditures through the use of a budget.

BUS 103 Accounting I   3
This course will focus on the recording, classification, and analysis of economic transactions of the sole proprietorship form of business ownership. The student will analyze transactions, use journals and ledgers, prepare financial statements, and summarize results at the close of the fiscal period.

BUS102 Personal Finance   3
This course is for non-business as well as business majors. The course is primarily concerned with the management of money from the viewpoint of the individual. Topics covered include the consumer's credit buying, borrowing, saving, and investments; purchase of insurance, real-estate, and other major items; the problem of taxation and wills; and controlling expenditures through the use of a budget.

BUS 105 Accounting II   3
This course is a continuation of Accounting I. The focus of the course will be on recording, classification, and analysis of economic transactions of the corporation. Students will analyze transactions, use journals and ledgers, prepare financial statements, and summarize results at the close of the fiscal period. Students will be introduced to decision-making and financial analysis. *PreReq: A C or higher in BUS103*

BUS 108 Business Visitations   1
This course provides the opportunity to tour businesses. Owners or managers will host students and explain their business operations.

BUS 109 Applied Office Practice I   1
This course provides paid on-the-job training in an office setting.

77

indicates a technical course

BUS 110 Records Management   3
This course provides instruction on how to manage records in an office setting. The course will cover methods of filing, including alphabetic, numeric, geographic, subject, and chronological, as well as cross-referencing and procedures for using requisitions, re-trievals, charge-outs, and follow-ups. The course will also examine special equipment and supplies, micro-graphics, cycle creation, retention, transfer, and records safety, security, and disposal.

BUS 111 Applied Office Practice II   1
This course provides paid on-the-job training in an office setting. *PreReq: BUS 109*

BUS 112 The Business of Personal Training   3
This course will provide a study of the entrepreneurial process specifically focused on the business of personal training. The course will cover topics such as opportunity recognition, entry strategies, market opportunities and marketing, business plan, financial projections, venture capital, financing, external assistance for startups and small businesses, legal and tax issues, intellectual property, franchising, and entrepreneurship economics.

BUS 113 Business English and Vocabulary   3
This course will cover the essentials of business writing and will focus on terminology, word choice, spelling, capitalization, punctuation, and effective sentence structure.

BUS 115 Business Math with Calculators   3
This course covers basic business math operations and focuses on the development of speed and accuracy on the calculator. The course will emphasize business and consumer applications using both mechanical and computerized 10-key calculators.

BUS 116 Introduction to Accounting   3
This course provides an introduction to the fundamental princi-ples of accounting as applied to business enterprises. The entire accounting cycle is covered.

BUS 117 Computerized Accounting   3
This course provides an introduction to computerized accounting. The course will offer practical experience in establishing and main-taining accounting systems and records for single proprietorships and corporations. *PreReq: BUS 116 or permission*

BUS 120 Professional Development I   1
This course provides an introduction to the concepts of professional activities and behavior in business. The course will focus on attitude, work ethic, leadership, and communication. *PreReq: Permission*

BUS 120A Professional Development II   1
This course provides an introduction to the concepts of professional activities and behavior in business. The course will focus on attitude, work ethic, leadership, and communication. *PreReq: Permission*

BUS 120B Professional Development II   1
This course provides an introduction to the concepts of professional activities and behavior in business. The course will focus on attitude, work ethic, leadership, and communication. *PreReq: Permission*

BUS 120C Professional Development IV   1
This course provides an introduction to the concepts of professional activities and behavior in business. The course will focus on attitude, work ethic, leadership, and communication. *PreReq: Permission*

BUS 123 Advanced Document Production   3
This course focuses on increasing straight copy speed and produc-tion rate for letters, business forms, tables, reports, and rough-draft copy that would be encountered in a business office setting.

BUS 125 Human Resources   3
This course will examine the development and role of human resources management in an organization. The course will focus on legal and ethical contexts, administration of wages and benefits, job design and analysis, performance management systems, and recruitment, hiring, and training.

BUS 126 Keyboarding   1
This course covers basic touch keyboarding skills for computer use.

BUS 127 Principles of Entrepreneurship I   3
This courses emphasizes the major issues confronting entrepre-neurs and those in small business. It provides guidance regarding the legal considerations of which entrepreneurs should be aware when launching a new enterprise. It serves as a source and reference to those who either aspire or are currently active in the entrepreneurial world.

BUS 130 Microcomputer Applications I: Word Processing, Spreadsheet, Database, Presentation   3
This course is designed to provide practical knowledge and skill in using basic computer applications. The course will focus on problem solving with the use of word processing, spreadsheet, database management, and presentation software.

BUS 132 Microcomputer Applications I: Outlook   1
This course is designed to develop the desktop information man-agement program skills needed in business, which include sending and receiving e-mail and managing messages, appointments, contacts, and tasks. Calendars will be shared with other users, and data stored within Outlook will be integrated to and from the other applications within the Microsoft Office suite.

BUS 133 Microcomputer Applications I: Spreadsheet   3
This course focuses on the mastery of spreadsheet concepts and applications utilizing the spreadsheet as a tool in the processing of information.

*indicates a technical course

BUS 136 Microcomputer Applications I: Desktop Publishing 3
This course will focus on the production of publication-quality documents. Appropriate software will be used to combine text and graphics. The course will provide practice in creating, editing, formatting, laying out, and designing brochures, programs, flyers, advertisements, resumes, agendas, invitations, menus, letterheads, forms, booklets, and newsletters.

BUS 136A Microcomputer Applications I: Desktop Publishing 2
This course will focus on the production of publication-quality documents. Appropriate software will be used to combine text and graphics. The course will provide practice in creating, editing, formatting, laying out, and designing brochures, programs, flyers, advertisements, resumes, agendas, invitations, menus, letterheads, forms, booklets, and newsletters.

BUS 137 Microcomputer Applications I: Integrated Software 3
This course will focus on problem solving with the use of integrated software.

BUS 139 Microcomputer Applications I: Word Processing   3
This course is designed to provide students instruction on word processing concepts, systems, equipment, and career opportunities.

BUS 140 Microcomputer Applications II:
Word Processing, Spreadsheet, Database   3
This course provides advanced instruction in the use of word processing, spreadsheet, and database software. *PreReq: BUS 130*

BUS 151 Electronic Business Presentation   3
This course will focus on using presentation software to create organizational charts, business graphs, and other visual information materials. The course will also cover how to enhance presentations by using features such as animation, slides, templates, note pages, and transition effects.

BUS 181 Microcomputer Applications I: Word Processing 1
This course is designed to provide instruction in using word processing software. This course is not available for students who have already taken BUS 139.

BUS 182 Microcomputer Applications I: Database Management 1
This is an introductory course that will cover the basic functions to set up a database, enter and add data, edit entries, delete entries, find data, index and sort data, save a database, and print files. The main focus is on the combination of practical database design principles with hands-on experience in the computer laboratory.

BUS 183 Microcomputer Applications I: Spreadsheet   1
This course is designed to provide instruction in using spreadsheet software. This course is not available for students who have already taken BUS 133.

BUS 185 Microcomputer Applications I: Desktop Publishing 1
This course is designed to provide instruction in using desktop publishing software. This course is not available for students who have already taken BUS 136.

BUS 186 Microcomputer Applications I: Integrated Software 1
This course will focus on problem solving with the use of integrated software. This course is not available for students who have already taken BUS 137.

BUS 188 Microcomputer Applications I: Windows   1
This course is designed to introduce Microsoft Windows operating environment software.

BUS 189 Microcomputer Applications I: Electronic Business Presentation   1
This course is designed to provide instruction in using business presentation software. This course is not available for students who have already taken BUS 151.

BUS 191 Microcomputer Applications II: Word Processing 1
This course provides advanced instruction in the use of word processing software. This course is not available for students who have already taken BUS139. *PreReq: A C or higher in BUS 130 or BUS 181*

BUS 200 Financial Accounting   4
This course focuses on the basic accounting model, measurement processes, and data classifications essential to the interpretation and effective use of financial statements by shareholders, creditors, government auditors, and managers. The course will also emphasize the effective communication of financial information. *PreReq: BUS 116 or permission*

BUS 201 Principles of Management   3
This course is designed to provide a basic understanding of the field and techniques of management. The course will cover management and managers, scientific management, human relations in management, bureaucracy in management, contingency findings, the management of foreign operation, product management, and ethics and social concerns of managers.

BUS 203 Macroeconomics   3
This course provides a study of basic macroeconomic concepts, principles, and terminology. Attention is given to supply and demand, national income, unemployment, money and banking, international trade, and finance. *PreReq: MAT 100 or Assessment*

BUS 204 Microeconomics   3
This course provides a study of basic microeconomic theory applied to the analysis of prices, markets, production, profits, rents, interest, and wages. *PreReq: MAT 100*

BUS 205 Business Law   3
This course provides a basic study of law related to business. Emphasis will be on contracts, law of sales, negotiable instruments, consumer protection, and the Uniform Commercial Code (UCC).

BUS 209 Medical Procedures   3
This course covers duties and responsibilities of office employees in the medical office. The course will focus on oral and written

79

indicates a technical course

communications, medical vocabulary, medical forms, travel arrangements, filing, mail handling, business meetings, financial records, reprographics, public relations, establishing priorities, and organization work. *PreReq: BS 109*

BUS 210 Marketing 3
This course provides a study of the importance of marketing techniques to the success of modern organizations. The course will focus on the four basic elements of marketing: product, price, promotion, and place. Topics include the marketing concept, marketing research, consumer behavior, the product life cycle, channels of distribution, physical distribution, advertising, personal selling, pricing objectives and strategies, and social responsibilities of marketers.

BUS 213 Business Communications 3
This course covers both traditional and innovative communication skills. The primary focus will be on writing employment documents and business letters for specific situations. *PreReq: ENG 101*

BUS 216 Managerial Accounting 3
This course provides a study of materials, labor, overhead, budget administration, cost accounting systems, break-even analysis, accounting statement analysis, and return on investment as factors in management decisions. *PreReq: A C or higher in BUS 105 or BUS 200*

BUS 230 Principles of Entrepreneurship II 3
This course will provide a study of the basic entrepreneurial process. The course will cover opportunity recognition, entry strategies, market opportunities and marketing, creation of a successful business plan, financial projections, venture capital, debt and other forms of financing, external assistance for startups and small businesses, legal and tax issues, intellectual property, franchising, and entrepreneurship economics. *PreReq: BUS127, BUS103, BUS210, and BUS101 or BUS201, BUS 130*

BUS 245C   Electronic Communication: Internet 1
This course introduces Internet use and applications, such as e-mail, file transfer protocol, and the web.

BUS 245D Electronic Communications: Web Design 2
This course is designed to provide a basic understanding of the Internet and various software applications used with the Internet. The course will also cover basic web page design.

BUS 246A Microcomputer Applications I: Dreamweaver 3
This course is designed to provide an introduction to web site creation and design through the use of Adobe Dreamweaver software. Also covered will be how to use the Spry framework to create enhanced web site activities. The course will include adding media objects to web pages as well.

BUS 246B Microcomputer Applications I: FrontPage 3
This course focuses on the practical use of computer communication through web page design using Microsoft FrontPage software.

CAD 101* Technical Drawing I 4
This course teaches the basic concepts of drafting communication.

Subjects include line types, orthographic projections, sectioning, language, auxiliary views, pictorial drawings, and scale.

CAD 111* Operating Systems 4
This course provides the student with a basic understanding of computer terminology, operations, hardware, and software. An overview of word processing, spreadsheet, and database software related to the student's primary area will be explored.

CAD 122* Measurements 3
This course covers the basic principles of operations and scale, with emphasis on the order of operations. The course reviews the use of decimal and fractional operations and also covers the use of scales and how they are read and applied.

CAD 131* Computer Graphics I 5
This course is designed to provide students with a basic understanding of the uses and applications of computer drafting hardware and software. The course will also explore and develop drawing, editing, and coordinate input skills.

CAD 151* Technical Drawing II 4
This course is a continuation of Technical Drawing I and teaches the basic concepts of drafting communication. Subjects include line types, orthographic projections, sectioning, language, auxiliary views, pictorial drawings, and scale. *PreReq: CAD 101*

CAD 162* Word Processing 2
This course is designed to give the student a working knowledge and skill in the use of Microsoft Word software and how it can be applied to computer assisted drafting.

CAD 172* Algebra 2
This course covers the basic principles of algebra, including symbols, signs, equations, basic operations, proportions, and formulas. The course will focus on how these principles apply to graphic communications.

CAD 182* Computer Graphics II 5
This course is designed to provide students with an advanced understanding of the uses and applications of computer drafting hardware and software. The course will also explore and develop drawing, editing, and coordinate input skills. *PreReq: CAD 131*

CAD 201* Technical Drawing III 4
This course covers advanced concepts of drafting communication pertaining to mechanical engineering. Subjects include line types, orthographic projections, sectioning, language, auxiliary views, pictorial drawings, and scale. *PreReq: CAD 131*

CAD 211* Spreadsheets 3
This spreadsheet application course is designed to show students how to organize data, complete calculations, make decisions, graph data, and develop professional-looking worksheets. The course will also cover Microsoft Windows concepts and terminology.

indicates a technical course

CAD 221* Geometry   2
This course covers the principles of basic geometric construction: lines, arcs, circles, angles, and the relationships between geometric forms. The course will focus how these principles apply to graphic construction.

CAD 232* Computer Graphics III   5
This advanced course will cover hardware, networking, and Internet concepts. The course will cover how to install hardware devices, interrupts, jumpers, and switches, as well as troubleshooting. Network protocol, operations, and concepts will also be covered. The course will also focus on accessing information on the Internet and using e-mail and news groups. *PreReq: CAD 182*

CAD 251* Technical Drawing IV   4
This course covers advanced concepts of drafting communication pertaining to mechanical engineering. Subjects include line types, orthographic projections, sectioning, language, auxiliary views, pictorial drawings, and scale. *PreReq: CAD 201*

CAD 261* Database   4
This database application course is designed to show students how to create, store, sort, and retrieve data. The course will also cover Microsoft Windows concepts and terminology.

CAD 271* Trigonometry   2
This course covers trigonometric functions, solution of triangles, vectors, and complex numbers. Application of trigonometric functions in the solution of triangles will be stressed.

CAD 282* Computer Graphics IV   5
This advanced course will cover hardware, networking, and Internet concepts. The course will cover how to install hardware devices, interrupts, jumpers, and switches, as well as troubleshooting. Network protocol, operations, and concepts will also be covered. The course will also focus on accessing information on the Internet and using e-mail and news groups. *PreReq: CAD 232*

CAD 295* Occupational Work Experience   0
Occupational Work Experiences are available to students who have completed at least 85% of their required course hours. This is an optional course for students wanting practical experience at local businesses or other approved sites.

CJ 100 Introduction To Criminal Justice   3
This is an introductory course in the field of criminal justice. The course will provide a short historical background of law enforcement, constitutional limits of law enforcement, 4th, 5th, 6th and 14th amendment safeguards, court room processes, and court processes from pre-arrest through verdict. This course will give students a general knowledge about the scope of crime, measurement of crime, and causes of crime.

CJ 105 Introduction to Corrections   3
This course is an introductory study of the entire field of corrections, beginning with conviction. The course will cover the sentencing grid from the state of Kansas, including mitigating and aggravating factors, post-conviction remedies, and appeal processes. Students will explore alternatives to confinement as well as probation and parole practices. There will be an emphasis on current trends in incarceration.

CJ 110 Fundamentals of Investigation   3
This course is designed to explore the fundamentals of criminal investigative techniques. While many investigative techniques remain relatively static, most are evolving due to technology, national databases, and applicability of basic medical practices. This course focuses specifically on major felony investigations with an emphasis on adherence to rigid crime scene protocols. *PreReq: CJ 100*

CJ 111 Forensic Investigation   2
This course focuses on laboratory investigations of forensic science, with an emphasis on the lab operations of criminal science. Topics will include detection of blood stains, blood typing and testing, hair analysis, drug detection, gunshot residue analysis, fingerprint analysis, virus spread within a population, and DNA fingerprinting. The course will use laboratory and computer simulations.

CJ 120 Juvenile Delinquency   3
This course is a contemporary approach to understanding the nature of juvenile delinquency. Students will examine the evolution of juvenile rights in America and juvenile court processes. The course will provide a balanced view of high risk factors for delinquency and prevention methods.

CJ 140 Police Patrol Procedures   3
This course is designed for students who want to have a career in law enforcement. Students will gain a fundamental understanding of the organization, management, and administration of law enforcement agencies. Basic police patrol procedures, including officer safety protocol, pursuit policies, arrest procedures, search and seizure processes, and a basic understanding of police report writings will be covered.

CJ 201 Criminal Law I   3
This course is designed to provide the student with a general understanding of American criminal law. Topics include principles of criminal law, principles of criminal liability, complicity, inchoate offenses, defenses, justifications, crimes against persons, crimes against property, and crimes against public order. Additionally, this course will cover basic rules of criminal procedure, including, but not limited to, constitutional aspects of criminal justice processes, pretrial processes, trials, sentencing, and appeals. *PreReq: CJ100 or permission*

CJ 205 Critical Issues In Law Enforcement   3
This course is designed to focus on several issues facing law enforcement today in terms of police response, mandatory arrest, and policy formation. These issues recognize the core of violence including domestic violence, child abuse/neglect, and elderly abuse. An overview of each system is provided as well as careful examination of the infrastructure and interrelationship between them. *PreReq: CJ100 or permission*

81

*indicates a technical course

CJ 211 Penology and Corrections   3
This course provides a survey of correctional services and treatment. The course Includes philosophy, history, correctional models by type and function, institutional treatment, parole operations, community-based treatment, and special treatment programs.

CJ 220 Practicum in Administration of Justice   3
Students will participate in community administration of justice agencies to provide experience in the practical application of classroom instruction.

COL 103 College Success and Orientation   1
This course is an orientation to the world of college. The course will include preparation of an academic plan to obtain an associate degree in a selected major. The course will also cover curriculum structure, program design, college success skills, transferring to a four-year institution, decision making, and career planning. This course must be taken before registering for the 25th credit hour at HCC. Students who have already taken a similar course elsewhere or who are transferring more than 30 hours to HCC are not required to take this course.

COL 103A College Success and Orientation   1
This course is an orientation to the world of college. The course will include preparation of an academic plan to obtain an associate degree in a selected major. The course will also cover curriculum structure, program design, college success skills, transferring to a four-year institution, decision making, and career planning.

COL 162 Careers in Sports and Fitness   2
The purpose of this course is to make students aware of the variety of careers related to sports and fitness. The course will provide students a realistic look at personal abilities, level of commitment, and work ethic. The course will examine various sports and fitness careers as well as preparation, expectations, and employment opportunities. Guest speakers currently engaged in sports or fitness careers will also provide information and insight. The focus of the course is to help students make an informed choice and develop a plan to achieve personal goals in a sports or fitness career.

COL 170 Leadership Organization and Goals   0.5
This course will provide practical instruction and experience in student government and leadership. The course will cover leadership qualities, parliamentary procedures, time management, conflict resolution, budgeting, and team building. Students will be actively involved in student government, as well as fundraising, community projects, student activities, entertainment, and programs. This course is designed for individuals with little or no background in student government. *PreReq: Permission*

COL 180 Self Awareness for Young Adults   2
This course will emphasize personal and career growth and development by exploring the family of origin, developing insight and self-confidence, and making assertive life choices. We will focus on the individual's ability to find answers from within him/her self, as well as the development of the class as a group.

CRT 191* Certification Training Lab   3
This class is designed to give the second semester student supervised practice with computerized testing. Students will apply previously learned skills and concepts in preparation for the CompTIA A+ Examinations. Practice test banks will be used to simulate the exams. Students will take practice tests, review answers, research any incorrect answers, and research and obtain correct answers. The actual exams are scheduled when the student feels prepared for them.

CST 103* Operating Systems   2
This course provides instruction on the most commonly used major operating systems. Components covered will be installation, configuration, maintenance, file management, and batch files.

CST 105* Industrial Computer Applications   2
This is an introductory course appropriate for all technical and skilled trade students. This course is designed to provide computer familiarity, not proficiency. Industrial applications of computers will be stressed. Computer software, storage/input/output devices, and controls as they apply to industry will be explored. The course is competency based and will provide the student with experiences and demonstrations in keyboarding, Windows programs, word processing, spreadsheets, computer graphics, and e-mail. The student will learn the basic features and functions of the Internet, Outlook, Word, and Excel. The student will also learn about basic computer concepts and Internet skills.

CST 106* Networking Fundamentals: CCNA1   4
This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. It uses the Open System Interconnection (OSI) and Transmission Control Protocol (TCP) layered models to examine the nature and roles of protocols and services at the application, network, data link, and physical layers. The principles and structure of Internet Protocol (IP) addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. Labs use a "model Internet" to allow students to analyze real data without affecting production networks. Packet Tracer (PT) activities help students analyze protocol and network operation and build small networks in a simulated environment. This is the first class in a series of four offerings to prepare for the Cisco Certified Network Associate (CCNA) certification. *PreReq: Concurrent enroll in CST or CompTIA+ Certification*

CST 111* PC Fundamentals   3
This course is designed as an introduction to personal computer technology. The course will examine basic computer concepts, history of computers, terminology associated with computer technology, and basic hardware troubleshooting.

CST 122* Technical Writing   2
This course is designed to give students instruction on the organization and writing of technical documents, including proposals, business letters and memos, and technical reports.

82

*indicates a technical course

CST 124* PC Troubleshooting Essentials　　　3
This course is intended to introduce the student to various comput-er components, business systems, and the basics of troubleshoot-ing the Personal Computer (PC). Safety and proper tool usage will also be covered. The course will focus on the techniques used to isolate and resolve computer problems, multimedia technology, and input-output devices, including monitors and video cards. Instruc-tion will also be given on basic electrical principles and PC power supplies.

CST 154* CompTIA A+ Essentials　　　3
This course is designed to give instruction on complex hardware installation as well as prevention and recovery of data loss. The course will also provide an introduction to telephone communica-tions, printers, notebook PCs, virus infection, and data recovery.

CST 156* Integrated Applications　　　2
This course is designed to give instruction on the skills, tools, and information necessary to perform basic software applications used with microcomputers. The course will cover software applications for word processing, spreadsheet, database, presentation, and Web page development.

CST 158* CompTIA A+ Practical Applications　　　3
This course is designed to give instruction on how to troubleshoot and resolve operating system issues. The student will use tools within the operating systems as well as third-party software to resolve problems. This course will examine common operating system problems and problems specific to individual operating systems. The differences, advantages, and disadvan-tages of several Windows operating systems will be considered.

CST 159* CCNA2 : Routers and Routing　　　4
This course describes the architecture, components, and operation of routers, and explains the principles of routing and routing proto-cols. Students will analyze, configure, verify, and troubleshoot the primary routing protocols: Routing Information Protocol Version 1 (RIPv1), Routing Information Protocol Version 2 (RIPv2), Enhanced Interior Gateway Routing Protocol (EIGRP), and Open Shortest Path First (OSPF). The course will cover the recognition and correction of common routing issues and problems. The course includes a basic procedural lab, followed by basic configuration, implementation, and troubleshooting labs. Packet Tracer activities will reinforce concepts and allow students to model and analyze routing processes that may be difficult to visualize or understand. This is the second class in a series of four offerings to prepare for the Cisco Certified Network Associate (CCNA) certification. *PreReq: CST 106*

CST 201* Advanced Operating Systems　　　3
This course is designed to provide advanced instruction on the most commonly used operating systems. The course will cover installation and configuration of dual boot operating systems, sys-tem file configuration and editing, system files, and system conflict resolution.

CST 205* Advanced Integrated Applications　　　3
This course is designed to provide advanced instruction on how to use Microsoft Office for Windows 2007. The course covers Microsoft Word, Excel, Access, and PowerPoint, and will include desktop publishing, databases, spreadsheets, and integrated presentations. Simulated business problems will be used and students will create and maintain records, inquire, sort, search, and prepare reports.

CST 206* Programming　　　2
This course is designed to provide an introduction to computer programming. The course will cover basic programming skills such as form and menu creation, decision making, looping arrays and subroutines, and database interfacing. The course will introduce stu-dents to programming in a Windows environment using Visual Basic.

CST 207* Technical Support Lab I　　　2
This course is designed for second-year students who are enrolled in the Computer Support Technology and/or the A.A.S. Degree Program. The course will provide advanced classroom instruction as well as practical experience with service calls and help desk situations. Students will be repairing PCs and resolving networking problems during class time, working directly with instructors and stu-dents from other departments on campus. The course will also cover advanced techniques to develop and improve workplace skills.

CST 208* Network Operating Systems　　　2
This course provides an introduction to computer networking administration and maintenance. The course will examine typical network hardware, network architectures, data transmission, and popular network technologies as well as how communication layers and their protocols are used on a network. The course will also cover installing Novell NetWare, troubleshooting network problems, and ensuring the integrity and stability of a network.

CST 212* CCNA3: LAN Switching and Wireless　　　4
This course provides a comprehensive, theoretical, and practical approach to learning the technologies and protocols needed to de-sign and implement a converged switched network. Students learn about the hierarchical network design model and how to select ser-vices for each layer. The course explains how to configure a switch for basic functionality and how to implement Virtual Local Area Networks (VLANs), VLAN Trunking Protocol (VTP), and Inter-VLAN routing in a converged network. The different implementations of Spanning Tree Protocol in a converged network are presented as well as how to implement a Wireless Local Area Network (WLAN) in a small-to-medium network. This is the third class in a series of four offerings to prepare for the Cisco Certified Network Associate (CCNA) certification. *PreReq: CST 106, CST 159*

CST 213* Network Operating Systems Lab　　　3
This course is an introduction to computer networking administra-tion and maintenance. The course will examine typical network hardware, network architectures, data transmission, and popular network technologies as well as how communication layers and their protocols are used on a network. The course will also cover installing Windows Server and Linux Server, troubleshooting of network problems, and ensuring integrity and stability of a network.

83

indicates a technical course

CST 214* CCNA4: WAN Technologies   **4**
This course is designed to provide a comprehensive understanding of how to design and implement Local Area Networks (LANs) and Wide Area Networks (WANs). The focus will be on the equipment and technologies used in LANs and WANs. This course covers the features and functions of these devices as well as the circumstances under which each device can be implemented. Cabling standards and appropriate design parameters for various types of media and topologies are included. This course introduces wireless technologies and a variety of high-speed Internet access options. The challenges involved in creating a network design that meets the needs of the users of today's LANs and WANs will be discussed. The course will feature hands-on projects and case projects that provide experience in using tools involved in network design and implementation. This is the fourth class in a series of four offerings to prepare for the Cisco Certified Network Associate (CCNA) certification. *PreReq: CST106, CST159, CST212*

CST 295* Occupational Work Experience   **0**
This course is designed to finish students' preparation for employment in the Information Technology industry. Students will complete a resume to present to potential employers and may also participate in on-the-job-training opportunities.

DSL 101* Shop Safety I   **1**
This course is designed to identify safety hazards associated with working around heavy equipment and to establish procedures that will prevent accidents.

DSL 111* Fundamentals of Operating Principles   **4**
This course covers the history of the diesel engine from invention to the present. The course will also focus on the differences and advantages of the diesel over other types of engines.

DSL 121* Engine Maintenance   **2**
This course provides instruction for standard DB, DB@ and DM pump disassemble inspection and overhaul. The course covers removal, installation, and timing procedures on the injection pumps, as well as test stand operation, pump installation on the test stand, and proper calibration of the injection pump.

DSL 132* Engine Overhaul   **5**
This course teaches the three major engine companies products. Training engines are provided for all classes to ensure the student's knowledge of troubleshooting maintenance, disassembly, overhaul, and reassembly techniques. Training is further enhanced by class discussion and visual media.

DSL 141* Welding & Fabrication Lab   **2**
This course includes basic principles and fundamentals of arc welding and acetylene cutting as applied to heavy equipment and diesel repairs. It also covers basic welding and acetylene safety.

DSL 152* Fuel Systems Diagnosis/Repair   **4**
This course teaches the operating of fuel systems used on most modern diesel engines, how they differ from one another, and service and adjustment of each system.

DSL 161* Introduction Electrical Diagnosis/Repair   **4**
This course of basic electrical systems on the diesel engine teaches troubleshooting and component testing using volt ohm meter and volt 33 tester.

DSL 171* Introduction to Clutch/Power Train   **3**
This course teaches disassembly, inspection, and troubleshooting of the three major types of clutch systems used by present engine manufacturers. The course also teaches installation techniques and adjustments.

DSL 182* Introduction to Hydraulics   **3**
This course gives a student a short introduction to hydraulic systems. It covers major component identifications, their functions and how each component operates in the system.

DSL 201* Shop Safety II   **1**
This course is continuation of Shop Safety I and is designed to identify safety hazards associated with working around heavy equipment and to establish procedures that will prevent accidents. Avoidance to actions that may result in damage to personal or equipment is stressed. *PreReq: DSL 101*

DSL 212* Advanced Engine Overhaul   **3**
This is an advanced training course in engine overhaul. Advanced training is provided to ensure the student's knowledge of troubleshooting maintenance, disassembly, overhaul, and reassembly techniques. *PreReq: DSL 132*

DSL 222* Advanced Electrical Diagnosis/Repair   **5**
Students will become proficient in the diagnosis and repair of electrical circuits including testing, repairing, and /or replacing of components. *PreReq: DSL 161*

DSL 232* Hydraulic Components Diagnosis/Repair   **3**
This course teaches the theory of both open and closed center hydraulic systems. It covers pump overhaul and testing procedures. It also covers the use of hydraulic flow meter and testing procedures.

DSL 251* Electronic Computer Diagnosis Repair   **3**
This course covers the study of the electrical and electronic control system used on diesel powered equipment. This course also teaches the student how to use service tools, system operations, monitoring attachments, fault codes, and injection timing sensor and actuator principles to diagnose computer related problems.

DSL 261* Air Conditioning Diagnosis/ Repair   **3**
This course covers refrigeration theory, operation, testing, and repair of air conditioning systems. Students will also discuss the use of refrigerant recovery methods.

*indicates a technical course

DSL 271* Brakes/Suspension Diagnosis/Repair   3
This course teaches troubleshooting disassembly, inspection and adjustment of both hydraulic and air brake systems with the advantages and disadvantages of both systems. The course also covers the two air systems, their components, and function in the brake system.

DSL 275* Diesel Management   3
This course introduces the concepts and principles of effective business management as they apply to diesel technology and includes forms of business ownership, typical business organizational structures, relationship of business to the community and the effect of government regulations on businesses.

DSL 281* Transmission Overhaul/ Diagnosis   3
This course covers standard DB, DB2 and DM pump disassemble inspection and overhaul. It teaches removal, installation, and timing procedures on the above injection pumps. This course also teaches test stand operation, pump installation on the test stand, and proper calibration of the injection pump.

DSL 291* Advanced Clutch/Power Train   3
Students will become proficient in the diagnosis and repair of power trains, clutches, transmissions, and differentials. *PreReq: DSL 171*

DSL 295* Occupational Work Experience   0
Occupational Work Experiences are available to student who have completed 85% of their required course hours. This is an optional course for diesel technology students who wish to gain further "real life" experiences at local businesses and/or approved sites.

ECH 100 Early Childhood Fundamentals   3
Students will develop baseline knowledge and skills needed to work with young children in an Early Care and Education Program in Northeast Kansas. Students will complete a Kansas Bureau of Investigation (KBI) background check and provide a copy of a current physical and TB test. Information covered will serve as the foundation for decisions and practices carried out by professionals in all settings and programs. Students set up their Child Development Associate (CDA) Professional Portfolio. In addition, students will identify the steps involved in preparing for National Child Development Association (CDA) credentialing. *PreReq: Students unable to pass the KBI inspection, the physical, and the TB test are unable to work with young children.*

ECH 101 Recognizing Child Abuse and Neglect   1
This course focuses on the categories of child abuse and neglect as well as the signs and symptoms of the various types of abuse and neglect. The course will cover appropriate responses to suspected abuse or neglect and what to do in the event of child disclosure. Kansas-mandated reporter laws are also discussed. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

ECH 102 Understanding Multiple Intelligences and Children's Learning Styles   1
This course will focus on Howard Gardner's theory of multiple intelligences and how different learning styles are affected by the environment, physiology, processing, emotions, and social choices. Practical information will be given on how to create educational environments by applying activities that use different learning styles. Students will also examine their own personal teaching style as applied to teaching multiple intelligences to a variety of students. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

ECH 103 Infant Toddler Creative Curriculum   3
This course will provide basic information about what professionals need to know and be able to do to provide quality care for infants and toddlers. The course will use the research-based Creative Curriculum model and will explore the integrated roles of the caregiver/teacher, the children, the families, and the community, using a strength-based model that defines developmentally appropriate practices for infants and toddlers and the role of the curriculum.

ECH 104 Preschool Creative Curriculum   3
This course will provide basic information about what professionals need to know and be able to do to provide quality care for preschool children. The course will use the research-based Creative Curriculum model and will explore the integrated roles of the caregiver/teacher, the children, the families, and the community, using a strength-based model that defines developmentally appropriate practices for preschoolers and the role of the curriculum.

ECH 105 Early Childhood Cultural Competency   1
This course will present general concepts about cultural competency when working with children and families. The course will examine cultural norms, values, codes of conduct, traditions, and child rearing practices of ethnic, cultural, and other groups served by programs. The course will also focus on assessment of individual or family behavior and how racism, sexism, ageism, homophobia, and other forms of discrimination can affect individual and family development and functioning. This course is instructor-led and interactive through discussions and assignments.

ECH 106 Understanding Children's Temperament   1
This course provides an overview of the nine temperament traits and the variety of influences on temperament styles. The course will discuss challenging temperaments, including flexible, fearful, and feisty styles. Students will assess a child's temperament as well as their own. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

ECH 107 Supporting Children's Learning Through Play   1
This course will examine the nature and characteristics of play and why play is important in a child's development. The course will cover the development domains and milestones that affect children's learning through play, as well as the social and cognitive stages of play and the behavior children exhibit in those stages. The course is instructor-led and interactive through discussions and assignments in course discussion boards.

85

indicates a technical course

ECH 108 Childhood Obesity and Good Nutrition   1
This course will examine the common reasons for childhood obesity and the complications of being overweight or obese. The course will focus on the new food pyramid, MyPlate, and will look at ways to encourage healthy eating habits and ways to integrate learning activities about healthy eating into daily routines. The course will also cover movement activities that encourage and support development and learning in children, as well as ways to share information on healthy eating and active living with parents and families. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

ECH 109 Bullying Prevention and Response   1
This course will examine types of bullying and consequences for bullying behaviors. The course will cover the dynamics of bullying behaviors and the roles of targets, bullies, and witnesses. Emphasis will be placed on intervention strategies for dealing with bullying behaviors, as well as strategies to prevent bullying behaviors. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

ECH 110 Early Childhood Functions I   3
This course is designed to provide the skills and knowledge for creating safe, healthy learning environments for infants, toddlers, and preschool age children. Individuals will also acquire the skills and knowledge associated with advancing physical and intellectual competence for those age groups. Creativity and communication are also explored. Students will learn how to ensure well-run programs. Students will achieve first aid/CPR certification. Student will conduct observation in an approved Early Care and Education Program in Northeast Kansas. Students will complete additional steps involved in preparing their Child Development Associate (CDA) professional Portfolio*: PreReq: ECH100*

ECH 111 Caring for Children with Special Needs   1
This course will examine child development milestones and how to recognize signs of early childhood delays. The course will cover guiding terms, as well as laws and principles regarding special needs, including common questions and answers for childcare providers. The course will focus on observation, assessment, documentation, communication with families, and resources available to families and caregivers. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

ECH 115 Early Childhood Function II   3
Students will learn ways to establish positive relationships with parents and families with young children. Students will identify areas of strength and areas for future professional growth as an Early Childhood Professional. Students will complete the final steps necessary for requesting national Child Development Associate (CDA) Credentialing. Students will conduct classroom observations and complete the Direst Assessment Application. They will compile data from a family questionnaire and write their Professional Philosophy Statement. *PreReq: ECH100, ECH110*

ECH 120 Family Child Care Administration   2
This course covers the management aspects of operating a family child care business. The course will focus on contracts, policies, legal issues, fee structure, collection, budgeting, cash flow, keeping records, taxes, and developing sound fiscal and management skills.

ECH 150 Creative Experiences   3
This course is designed for early childhood classroom practitioners. The course will focus on how to develop interesting and secure environments and activities that encourage play, exploration, learning, and creative expression.

ECH 160 Observing and Interacting with Young Children   3
This course is designed for practitioners who work with children and families. Students will develop skills for quality observation and documentation associated with young children. Ethical considerations and confidentiality are discussed. Students will conduct an in-depth child study. Students must identify a child and set up and conduct observations. Students will also conduct structured observations targeting specific developmental areas. Students will create a professional report illustrating the developmental level of the child. The child portfolio will include completed checklists, work samples, pictures, and interviews. *PreReq: ECH 100, ECH 110, ECH 115*

ECH 180 Early Childhood Literacy and Language Development 3
This course will prepare current or future early childhood teachers to enhance the early literacy outcomes of young children by improving teachers' knowledge of early literacy development. Students will develop an in-depth understanding of language development and acquisition. Students will acquire skills and knowledge in facilitating early literacy to young children, and how to involve parents and families in the process. *PreReq: 9 CR of Early Childhood*

ECH 182 Early Childhood CDA Renewal   3
This course is for students who have a current preschool or Infant/Toddler Child Development Associate (CDA) Credential and are interested in renewing their credential. Students will learn to act with specific goals in mind for all domains and children's development. This course provides specific ideas and strategies for interacting with children in key subject areas during both child-guided and adult-guided experiences. Students will complete all of the documentation and requirements for CDA renewal. *PreReq: A Valid Preschool or Infant/Toddler Child Development Association Credential @ CPR*

ECH 200 Program Planning and Development   3
This course will examine the administrative and curriculum demands in different types of early childhood education centers. Funding, budgeting, evaluating, hiring, planning, collecting fees, and writing reports are some of the topics that will be covered. The course will emphasize developing sound fiscal and program management skills with a focus on interpersonal relationships. *PreReq: ECH 100, ECH 110, ECH 115*

*indicates a technical course

ECH 202 Early Childhood Mentoring   3
This course is for the committed Early Childhood Professional. Early Childhood Professional Ethics and Standards will be infused throughout the course. Students ill reflect on their personal and professional growth and leadership skills. Understanding the role of the mentor, effective mentoring practices, and the mentor as a change agent will be explored. This course will provide individuals working in the Early Childhood field the basic foundation needed for developing mentoring relationships, especially those with apprentices. *PreReq: 12 hours of Early Childhood*

ECH 210 Family Involvement in Education   3
This course will provide a study of family involvement in education from an interdisciplinary approach. The course will cover history, current research, and diversity in families and will also present information, activities, and programs to enrich family-school partnerships and collaborations. *PreReq: ECH 100, ECH 110, ECH 115*

ECH 220 Principles of Inclusion   3
This course explorers the barriers to and influences on inclusive education settings for young children. Topics covered will include instructional strategies, individualized instruction, and family perceptions of inclusion, collaborative relationships among adults, classroom ecology, social policy, and cultural and linguistic diversity. *PreReq: ECH 100, ECH 160, or permission*

ECH 250 Early Childhood Practicum   3
This course is designed for students who are assuming teaching responsibility under guided supervision. Students must meet all state and national requirements for working in an Early Childhood facility. The purpose of the practicum is to put theory into practice. Students will spend 15 hours in classroom activities and 225 hours teaching in the Early Childhood classroom. The course will cover working with parents, classroom management, observation and assessment, values identification, trends and issues in Early Childhood, personal reflections, and educational philosophy. *PreReq: Permission*

ED 101 Pre-professional Lab I   1
This course is designed to provide an introductory hands-on experience for students majoring in education. The course will consist of direct experience observing a professional educator in the classroom as well as tutoring and participation in classroom activities. *PreReq: ED 110*

ED 102 Pre-professional Lab II   1
This course is a continuation of ED 101 and is designed to provide additional hands-on experience for students majoring in education. The course will consist of direct experience observing a professional educator in the classroom as well as tutoring and participation in classroom activities. *PreReq: Permission*

ED 110 Introduction to Education   3
This course will cover the historical and sociological development of American education, the role of public schools in American society, and the diverse nature of the American student population. The course will also look at professional opportunities in the field of education.

ELE 101* Electrical and General Safety   1
This course will present basic safety information for establishing a safe electrical working environment. The course will cover electrical and general safety practices needed during coursework and at construction sites. The course will provide hands-on instruction in the use and care of power tools, hand tools, special electrical trade tools, ladders, and other equipment.

ELE 110* Direct Current Fundamentals   1
This course will focus on basic direct current theory. The course will cover electron theory and Ohm's law and how they apply to direct current circuits. The course will also introduce series circuits and their equations, parallel circuits and their equations, and combination circuits and their equations.

ELE 111* Alternating Current Fundamentals   2
This course will examine the effects an alternating current has on circuits. The course will also cover the functions and properties of capacitors, inductors, resistors, and other circuit components.

ELE 121* Residential Construction Wiring and Maintenance   6
This course is an introduction to the field of residential wiring. The course will cover basic blueprint reading and construction of cable layouts as well applying code standards. The course will provide hands-on experience in the lab and on site.

ELE 122* Residential Wiring I   4
An introductory course on residential wiring methods that includes practical application hand-on experience in implementing National Electrical Code (NEC) requirements.

ELE 131* Commercial Construction Wiring and Design   6
This course provides an introduction to the high intensity lighting systems used in commercial and industrial locations. The course will examine types of structures, location, types of equipment, and requirements of the National Electrical Code. Emphasis will be on how to install, maintain, and troubleshoot each system. The course will cover the application of lighting systems appropriate to the construction site, as well as wiring methods such as conduit, cable trays, surface metal raceways, rigid non-metallic conduits, and others, depending on the commercial application.

ELE 132* Commercial Wiring I   4
An introductory course on commercial wiring methods that includes practical applications and hands-on experience in implementing code requirements. This course of instruction will introduce the student to an environment much different than that of residential construction. In commercial applications, students have to look at types of structures, location, types of equipment, and requirements of the National Electrical Code (NEC). The course introduces student to the high intensity lighting systems used in commercial and industrial locations. Students learn how to install, maintain, and troubleshoot each system. Students will also receive instruction on application of different lighting systems to suit the application

87

encountered. The course also provides instruction about wiring methods such as conduit, cable trays, surface metal raceways, rigid non-metallic conduits, and those of other wiring methods used to meet certain locations in commercial applications.

ELE 141* Journeyman Exam Preparation NEC I   1
The purpose of this course is to introduce the Block and Associates exam. The course focuses on the makeup of the tests, the best use of time, highlighting text in the code book, and many other helpful testing ideas. The course will also provide sample exams and explain how to identify weaknesses and areas needing improvement.

ELE 151* Industrial Construction Wiring and Design   6
This course will examine requirements and designs used for the industrial wiring environment. The course will focus on the study of transformers — single and three phases are begun — as well as connection of these systems and voltages found. The course will also provide an introduction to the requirements for plant automation.

ELE 161* Electric Motor Operation and Control   6
This course will begin a study of electrical motors and systems used to control their operation. The course will cover the fundamentals of single and three phase motors along with their operational characteristics. The course will also focus on the language of control, ladder diagram, logical operational sequences, connection control sequences, diagramming, and troubleshooting. Voltages and systems presented are those found in most industrial locations. The code ruling is used during this course.

ELE 172* Fundamentals of Programmable Logic Controllers 2
This course provides an introduction to programmable logic controllers (PLCs) and their industrial and commercial applications. The course will cover the fundamentals of operation, installation, and programming. *PreReq: This course is for students who have completed all the motor control requirements.*

ELE 181* Journeyman Exam Preparation NEC II   1
This course continues preparation for the Block and Associates exam. The course focuses on the makeup of the tests, the best use of time, highlighting text in the code book, and many other helpful testing ideas. The course will also provide sample exams and explain how to identify weaknesses and areas needing improvement. *PreReq: ELE 141*

ELE 195* Occupational Work Experience   0
Occupational Work Experiences are available to students who have completed at least 85% of their required course hours. This is an optional course for students wanting practical experience at local businesses or other approved sites.

ENG 095 Fundamentals of Reading & Writing   5
This course is designed to develop student proficiency in college reading and writing. In this course students will apply analytical and critical reading skills to a variety of texts and will develop skills in the writing process. In addition, students will gain skills in document design, researching, and documentation. Upon completion, students should be able to recognize and use various patterns of text organization and compose effective paragraphs and short essays. Students should also improve critical thinking, enlarge working vocabulary, improve reading skills, and increase reading speed. *PreReq: Assessment*

ENG 096 Fundamentals of Reading & Writing   3
This course is designed to develop student proficiency in college reading and writing. In this course students will apply critical thinking skills, critical reading skills, and writing skills to narrative and expository texts. In addition, students will develop skills in document design, researching, and documentation. Upon completion, students will be able to demonstrate effective skills in reading comprehension, analysis, and evaluation of college texts, as well as effective writing skills necessary to succeed in ENG 101 College English I and in the workforce. *PreReq: Assessment*

ENG 101 Composition I   3
This course provides instruction and practice in the principles of written composition. The major emphasis is on improving the ability to organize and express thoughts clearly and effectively. Students will be expected to write coherent essays that declare and support a thesis, as well as use and document research material. A reading text is used for criticism and discussion. This course is required for all degree programs. *PreReq: ENG 096 or assessment*

ENG 102 Composition II: Literature and Research   3
This is the second of a two-course sequence in college English composition. The course will continue to emphasize improving the ability to organize and express thoughts in clear, effective writing. The course will use literature study as a basis for improving and extending research, critical analysis, and writing skills. The forms, elements, and techniques of literature will be examined in terms of how literature affects readers. *PreReq: ENG 101*

ENG 103 Composition II: Rhetoric and Research   3
This is the second of a two-course sequence in college English composition. The course will continue to emphasize improving the ability to organize and express thoughts in clear, effective writing. The course will also place emphasis on writing practices/processes (pre-writing, drafting, revision) as well as reinforcement of rhetoric as the art of persuasion. Critical thinking skills are developed in many areas (identifying and understanding scholarly or credible sources, integrating others' perspectives into one's own argument, analyzing audience). *PreReq: ENG 101*

ENG 104 Intro to Literature   3
This course will enable the student to discuss and interpret representative English-language literary works in a variety of genres. The student will identify the use of literary elements; recognize relationships between writers, works, and socio-cultural contexts; and arrive at informed personal and critical interpretations. Various thematic approaches may be offered.

*indicates a technical course

ENG 110 Technical Composition   3
This course focuses on using rhetorical writing methods applied to technical fields. Students will practice organizing technical subject matter and arranging and supporting writing with facts. Analysis and explanation, advocacy and argument, and academic and professional discourse will be explored. The course will also cover audience analysis. *PreReq: ENG 096 or assessment*

ENG 201 Advanced Composition   3
This course provides additional training in writing for individuals who have completed College English I and II. The course will focus on advanced rhetorical techniques, sentence structure, idea development, and writing style. *PreReq: ENG 101, ENG 102*

ENG 202 American Literature I   3
This course provides a survey of significant writers, works, and developments in American literature from around 1620 to 1885.

ENG 203 English Grammar   3
This course is designed to provide a comprehensive examination of English grammar and to serve as a foundation for further linguistic study. The course will provide an intensive study of grammar and the application of grammatical principles to composition, emphasizing a functional approach to both sentence structure and punctuation. This course is especially recommended for students majoring in the areas of language instruction or public communication, including English, ESL, foreign language, journalism, speech, theatre, radio, television, education, business, and pre-law. *PreReq: ENG 101*

ENG 205 Old Testament Literature   3
This course provides a survey of the Old Testament as a literary work. The course will emphasize literary characteristics and the cultural and historical contexts of various books of the Old Testament and Apocrypha.

ENG 207 Narrative Film   3
This course is designed to provide an introduction to the history and conventions of narrative film. The focus of the course will be on narrative form and film's story-telling techniques and capabilities. *PreReq: ENG 102*

ENG 208 Introduction to the Short Story   3
The purpose of this course is to provide a study of the literary genre of the short story, with emphasis on critical analysis and appreciation. The basic elements of short fiction, such as point of view, plot, character, and theme will be discussed and analyzed in terms of how they are applied in individual stories by major writers from various periods and countries. The purpose of such analysis will be to help students understand, appreciate, and enjoy more fully the reading of short fiction.

ENG 209 American Literature II   3
This course provides a survey of the significant writers, works, and developments in American literature from roughly 1865 to the present.

ENG 210 World Literature I   3
This course focuses on the scope of world literature with selections generally regarded as masterpieces. The time range represented by the selections is wide, roughly from 2000 BCE to 1650 CE.

ENG 211 World Literature II   3
This course focuses on the scope of world literature with selections generally regarded as masterpieces. The time range represented by the selections is wide, roughly from 1650 CE to the present.

ENG 212 English Literature I   3
This course provides a survey of the significant writers, works, and developments in English literature from the Middle Ages through the Eighteenth Century.

ENG 213 English Literature II   3
This course provides a survey of the significant writers, works, and developments in English literature from the Nineteenth Century Romantic writers through the Twentieth Century.

ENG 223 Creative Writing   3
This course is designed to give students an opportunity to write and develop skills in various genres of creative writing, such as fiction, poetry, and drama. Students may do some work in each area but will be able to focus on the genre of their choice. Basic elements of creative writing will be discussed, and students will work on several creative projects in a workshop format. In addition to the instructor providing evaluation and guidance, students themselves will be an audience for the writing done in the class and will give feedback, interaction, and critiques of other students' work.

ENO 116 Introduction to Enology   3
This introductory course is designed to provide students with an understanding of winemaking principles, including history, grape growing, chemistry, wine microorganisms, fermentation, and winery operations. It is intended for entrepreneurs to explore business opportunities and winery employees to gain career development. Coursework is expected to integrate lecture, discussion, guest presenters, and field trips to operating vineyards and wineries. Students will make wine at home from a kit, track fermentation, make various chemical measurements, and provide one bottle of finished wine at the conclusion of the course.

ENO 130 Intermediate Enology   3
This intermediate course is built on the fundamentals of science and technology in wine making practices taught in Introduction to Enology. During this course, students will understand how the whole wine making practice works and learn the scientific background for any decisions made during the process of wine making. At the completion of the course, students will understand wine making calculations necessary for accurate, precise, and safe additions to the wine. This class emphasizes the practical aspects to growing grapes and making wine. *PreReq: ENO 116*

ENO 148 Winery Sanitation   3
This is a course in the basic science and technology of winery sanitation. The course serves as an introduction to wine microbiology and covers all methods used for winery sanitation, including but not limited to premises, tanks, pumps, filters, oak barrels and sampling equipment, chemical agents, reagents, and thermal

89

indicates a technical course

treatments leading to sterile bottling. Environmental issues and compliance are also addressed. *PreReq: ENO 116 or permission*

ENO 160 Winery Equipment Operations   2
This course covers process technologies and process systems that are used in modern commercial wineries. The course will include lectures, demonstrations, and two-day workshops and will provide an overview of wine-making systems, including wine making operations and equipment, barrel aging and barrel management, membrane separation processes, specialized contacting systems, cleaning and sanitation systems, process control systems, refrigeration systems, air conditioning and humidity systems, electrical systems, waste water systems, solid waste handling, and work place safety. *PreReq: ENO 116 or permission*

ENO 210 Introduction to Wine Microorganisms   2
This course is an introduction to the variety of both beneficial and harmful microorganisms frequently encountered in the wine making process. Topics include identification, physiology, morphology, and biochemistry of various wine microorganisms. *PreReq: ENO 116 or permission*

ENO 257 Fall Winery Production Technology   3
This course is designed for the individual anticipating a career in the wine industry. This course (practicum) is designed to provide a student who has completed major course sequences with an intense level of practical and realistic winery operation experiences sufficient to equip him or her with sufficient skills and work experience for an entry-level position in the wine industry. Students involved in this program will participate in a full time Crush Season practicum at a supporting winery and are expected to use the time and opportunities to further their understanding of the wine making process and common winery operations. A minimum of 120 hours of field practicum are required along with a daily journal of practicum experiences. *PreReq: ENO 130, ENO 148, ENO 160, or permission*

ENO 259 Cellar Operation Technology   2
This course is designed to provide students initiated in the field of enology with actual and practical exposure to the technology of wine making as it is performed during the passive vineyard periods associated with winter. The student is expected to improve his/her understanding of the methods and science involved by on-site participation in each of the various activities associated with finished wine production. The course may qualify as experience for those seeking employment in commercial enology. A minimum of 80 hours of field practicum are required along with a daily journal of practicum experiences. *PreReq: ENO 257*

ENO 266 Sensory Evaluation   3
This course is intended for students who need to develop an understanding of the principles of sensory evaluation used in commercial wine making. It will also be of benefit to the wine enthusiast who is interested in reaching advanced levels of appreciation as well as to the producer, the wine merchant, and ultimately the enologist, who, by the nature of their profession, need to discern flavors and establish tasting benchmarks. Students will utilize sensory kits and

workshops to further their sensory evaluation skills and techniques. Students must be at least 21 years old to enroll in this class. *PreReq: ENO 116 or permission*

ENO 268 Wine and Must Analysis   3
This course is designed to provide students with an understanding of the principles of grape juice and wine analysis and the reasons for use of each analysis. Analyses of a practical and useful nature are chosen for the laboratory exercises demonstrating various chemical, physical and biochemical methods. Students will participate in workshops and hands-on experiences at participating wineries. *PreReq: ENO 116 and PS 107 or permission*

GEO 212 World Regional Geography   3
This course provides a general survey of the distinguishing geographic characteristics of the major regions of the world. Emphasis is placed on the physical, cultural, historic, and economic aspects of each region. The course is designed to meet the needs of students majoring in education, social science, or geography, as well as students interested in attaining a global perspective

HIS 101 United States History I   3
This course provides a survey of United States history from European beginnings through the Reconstruction period after the Civil War. The course considers the changing configurations of American culture and its modes of expression, religion, politics, and literature. Also covered arethe rise of the Federalists, the War of 1812, the emergence of the Jacksonian Movement, westward expansion, war with Mexico, and the Civil War. Special emphasis will be placed on economic, political, and social forces from colonial times to the Civil War.

HIS 102 United States History II   3
This course provides a survey of United States history from post-Civil War Reconstruction to the present. The course considers the changing configurations of American culture and its modes of expression, religion, politics, and literature. Emphasis will be placed on the changing role of the government in the lives of people and on the changing position of the United States in world affairs. The course will also cover the impact of industrialism, imperialism, two world wars, and the Cold War on the policies of the United States.

HIS 103 History of Western Civilization I   3
This course provides a survey of the development of western culture and institutions from the ancient world to the time of the European Renaissance and Reformation. The course will cover the civilizations of the Ancient Near East, Greece, and Rome, as well as the development of European nations from the early Middle Ages to the High Middle Ages. Emphasis will be on political, social, religious, and cultural life. The course will also cover the rise of Christianity and its importance from the end of the Roman Empire through the rise of European civilization in the Middle Ages.

90

indicates a technical course

HIS 104 History of Western Civilization II   3
This course provides a survey of the history of Europe from the Reformation and Renaissance to the present. The spiritual, intellectual, social, political, and economic foundations will be covered, with emphasis on the religious wars of the 16th century, the Age of Absolutism of the 17th and 18th centuries, and the American and French Revolutions of the 18th century and the many European revolutions of the first half of the 19th century. The course will also cover the breakdown of order in the early 20th century which led to World War I and World War II, the aftermath of World War II, the Cold War, and the fall of the Soviet Union.

HIS 202 Introduction to Ancient History   3
This course provides a survey of the political, social, and economic development of Mesopotamia, Asia Minor, Greece, and Rome from the Paleolithic times to A.D. 500. The course will review the history of the ancient world from 5000 B.C. to the collapse of the Roman Empire. Emphasis will be placed on reviewing the similarities and differences between various cultures and civilizations. The course will also examine the influence the past has had on the modern world and the impact the ancient world has had on the way the modern world views the arts, government, education, religion and ethics.

HIS 204 Readings in Western Civilization I   3
This interdisciplinary course critically examines the ideas and values of Western culture from ancient beginnings in Mesopotamia, the Near East, Greece, and Rome through the Middle Ages, Renaissance, Reformation, and the beginning of the modern period.

HS 101 Introduction to Health Information   4
This course provides an introduction to health information management and healthcare delivery systems in the United States. The course will focus on the roles of health professionals, types of healthcare organizations, types and levels of healthcare delivery systems, healthcare governing bodies, content and structure of the health record, documentation requirements for health records in various healthcare settings to ensure clinical coders are familiar with basic health data structure, content and standards; healthcare delivery systems; and information technology and systems.

HS 103 Legal and Ethical Issues in Healthcare   3
This course introduces the U.S. legal system, laws, and ethical issues and how they relate to health care. Emphasis is placed on legal and compliance issues faced by clinical coders in the workplace setting.

HS 105 Insurance and Health Information Compliance   3
This course introduces the study of the uses of coded data and health information in reimbursement and payment systems appropriate to all healthcare settings and managed care. Topics will include contemporary prospective payment systems and key health plans, charge master maintenance, and evaluation of fraudulent billing practices.

HS 109 Pharmacology for Allied Health Professionals   3
This course introduces the principles of pharmacology, drug classifications, and the effects of selected medication on the human body. The course will cover drug classifications, use of generic name drugs, trade drugs, and drugs to treat various body systems. Emphasis is placed on understanding the actions of the drugs, such as absorption, distribution, metabolism, and excretion of drugs by the body, and matching drugs to common conditions and laboratory findings. This course does not meet the current requirements for nursing.

HS 110 Pathopharmacology for Health Science   4
This course is designed for the Health Science student to study diseases and disorders that affect the various body systems and the principles of pharmacology, drug classifications, and the effects of selected medication on the human body. This course will focus on diseases of each body system including cause, diagnosis, and treatment. Emphasis is also placed on understanding the actions of the drugs, such as absorption, distribution, metabolism, and excretion of drugs by the body, and matching drugs to common conditions and laboratory findings. This course does not meet the current requirements for nursing.

HS 112 Pathophysiology for Allied Health Professionals   3
This course is designed for the Allied Health student to study diseases and disorders that affect the various body systems. This course will focus on diseases of each body system including cause, diagnosis, and treatment. This course does not meet the current requirements for nursing. *PreReq: A C or higher in BS 104, BS 105 and BS 109*

HS 115 International Classification of Disease (ICD) Coding I 3
This course helps the student develop an understanding of coding and classification systems in order to assign valid diagnostic and/or procedure codes. It will include the validation of coded clinical information, and case mix/severity of illness data. The course will focus on basic diagnosis coding skill and guidelines associated with International Classification of Diseases, Clinical Modification (ICD-CM). *PreReq: A C or higher in BS 104, BS 105, and BS 109*

HS 118 Current Procedural Terminology (CPT) Coding I   3
This course helps the student develop an understanding of coding and classification systems in order to assign valid diagnostic and/or procedure codes. It will include the validation of coded clinical information, and case mix/severity of illness data. The course will focus on basic diagnosis coding skills and guidelines associated with Current Procedural Terminology (CPT) and Healthcare Common Procedure Coding System (HCPCS). *PreReq: A C or higher in BS 104, BS 105, and BS 109*

HS 120 Healthcare Computer Applications and Electronic Encoder   3
This course is designed for the Health Science student to study diseases and disorders that affect the various body systems and the principles of pharmacology, drug classifications, and the effects of selected medication on the human body. This course will focus on diseases of each body system including cause, diagnosis, and treatment. Emphasis is also placed on understanding the actions of the drugs, such as absorption, distribution, metabolism, and excretion of drugs by the body, and matching drugs to common

91

indicates a technical course

conditions and laboratory findings. This course does not meet the current requirements for nursing. *PreReq: BUS 130*

HS 125 International Classification of Disease (ICD) **3**
International Classification of Disease (ICD) Procedural Coding Systems This course helps the student develop an understanding of coding and classification systems in order to assign valid diagnostic and/or procedure codes. It will include the validation of coded clinical information, and case mix/severity of illness data. The course will focus on diagnosis coding skill and guidelines associated with International Classification of Diseases Procedural Coding System (ICD/PCS). *PreReq: A C or higher in HS 115 or permission (ICD/PCS).*

HS 130 Reimbursement Methodologies (Physician) **3**
Study the uses of coded data and health information in reimbursement and payment systems appropriate to all healthcare settings and managed care. Includes contemporary prospective payment systems and key health plans, charge-master maintenance, and evaluation of fraudulent billing practices.

HS 210 International Classification of Disease ICD) Coding II **3**
This course helps the student develop an understanding of coding and classification systems in order to assign valid diagnostic and/or procedure codes. It will include the validation of coded clinical information and case mix/severity of illness data. The course will focus on more advanced diagnosis coding skills and guidelines associated with International Classification of Diseases, Clinical Modification (ICD-CM). *PreReq: A C or higher in HS 115*

HS 218 Current Procedural Terminology (CPT) Coding II 3
This course helps the student develop an understanding of coding and classification systems in order to assign valid diagnostic and/or procedure codes. It will include the validation of coded clinical information and case mix/severity of illness data. The course will focus on more advanced diagnosis coding skills and guidelines associated with Current Procedural Terminology (CPT) and Healthcare Common Procedure Coding System (HCPCS). *PreReq: A C or higher in HS 118*

HS 225 Healthcare Coding Practicum **3**
To provide the student with coding practices in a hospital, physician's office, clinical, or other healthcare setting, with directed projects common to a clinical coding specialist on the job. This course will reinforce skills developed in the medical coding program and provide an opportunity to perform these skills in the workplace. *PreReq: Permission*

HVA 101* Occupational Safety **1**
This course is designed to provide students with an appreciation and basic understanding of the safety rules and regulations that govern the construction industry. Students will also learn and apply safe work habits and the use of hand and power tools as well as the handling use and application of hazardous materials.

HVA 102* Blueprint Reading/Sketching **2**
This course will introduce students to a basic set of house plans, including the plan views, elevations, framing, wall section, and details. Students will be able to read these prints and sketch details and layouts of specific items that relate to their occupational area.

HVA 103* Hand/Power Tools **1**
This course will introduce students to the various hand and power tools used in the construction industry, specifically related to those in the HVAC occupational area. The correct and safe use of hand and power tools will be emphasized. Students will be required to pass a written and performance safety test on all power equipment used in their program area.

HVA 106* Technical Math **2**
This course is designed to provide students a review of the basic principles of math, which include whole numbers, common and decimal fractions, ratio proportions and percent algebra, the metric system, and basic geometric shapes and graphs.

HVA 110* Theory of Refrigeration **3**
This course in refrigeration is designed to include how mechanical refrigeration operates. This includes the following: heat and heat flow, temperature measurement, pressure and state of matter, as well as the laws of refrigeration.

HVA 115* Electrical Magnetic Fundamentals **3**
"This course covers generating electricity, types of electricity, direct and alternating current circuit fundamentals, magnetism, and electrical components.

HVA 121* Domestic Refrigeration **3**
This course includes terminology associated with domestic refrigeration, identification of types of domestic refrigeration, location of data plates, and their purpose. Also covered will be sealed system components, what their functions are and how they operate, as well as locating and solving programs in a domestic refrigeration system in a safe manner.

HVA 126* Plumbing I **3**
This course is designed to provide an understanding of the plumbing system of a structure including water supply distribution pipes; fixtures and fixture traps; soil, waste and vent pipes; building drains and building sewers; storm water drainage and their devices; appurtenances and connections within the building and outside the building within the property lines. All plumbing is taught to specifications of the Uniform Plumbing Code.

HVA 136* Electric Circuits & Controls **3**
This course includes electric control circuits in ladder diagram and pictorial form. Also covered will be icemaker diagrams, comfort cooling controls, central air-conditioning controls, pressure motor controls, motor safety controls, defrost controls, and humidity controls. *PreReq: HVA 115*

*indicates a technical course

HVA 145* Sheet Metal   3
This course introduces the student to pattern development and fabrication of fittings used in the heating/air conditioning industry. Installation in a sage and proper manner is covered.

HVA 156* AC Heating & Cooling   3
This course covers terminology associated with heating and humidification. Heating equipment covered will include; gas heating systems, hydraulic heating, electric heating, and oil heating. In addition, humidification will be covered. Also covered. *PreReq: HVA 136*

HVA 170* AC Control Systems   3
This course is designed to help students to understand the operation of the control systems in heating and cooling equipment as well as heat pump control systems. Sequence of operation of the controls will be covered. *PreReq: HVA 156*

HVA 175* Commercial Refrigeration   3
This course includes the study of condensing units, condensers, refrigerant controls, evaporators, and other components used in commercial refrigeration systems, as well as diagnosing, testing, servicing and repair of commercial equipment. Safety for the technician, customer, and equipment is also covered.

HVA 181* Plumbing II   3
This course is a continuation of Plumbing I dealing with the development of technical skills and knowledge of the trade. *PreReq: HVA 126*

HVA 195* Occupational Work Experience   0
Occupational Work Experiences are available to students who have completed 85% of their required course hours. This is an optional course for HVAC technology students who wish to gain further "real life" experiences.

IDS 110 Contemporary Issues in Sustainability   3
This interdisciplinary course is designed to introduce students to diverse global perspectives and practical personal solutions related to long-term sustainability. The course focuses on the impact personal and professional decisions have on the global condition and how those decisions can support the objectives of sustainability: economic viability, environmental integrity, and social equity. Topics covered will include energy, food, land use, water, air, waste, housing, personal health, and community. Instruction will be provided by a team of faculty, staff, and practitioners of sustainable living.

IDS 120 Introduction to Leadership Concepts   3
This interdisciplinary course is designed to introduce students to the academic discipline of leadership. The course focuses on the study of leadership development through the examination of leadership theory and research, identity development, self-awareness, awareness of others and the application of leadership theories, concepts, and skills.

IDS 130 Culture and Context   3
This interdisciplinary leadership course is designed to discover and examine personal cultural identity from a values based perspective. The course will focus on strategies and skills needed to analyze intercultural experiences, events, and dilemmas. The concepts of power and privilege will be discussed as psychological constructs operating across all cultures and contexts. *PreReq: IDS 120 and sophomore standing.*

IWT 105* Welding Safety   1
This course will provide information on safety issues, equipment, and procedures in the field of industrial welding. The course will cover job and site hazards, safety precautions, personal protective equipment, procedures, and practices. Fire prevention techniques will also be covered.

IWT 115* Cutting Processes   3
This course will cover the cutting equipment and processes used in the welding trade. The course will include set up, operation, and shut down of various cutting equipment. Safety and inspection for quality will be emphasized.

IWT 125* Shielded Metal Arc Welding   3
This course will provide instruction and experience in the Shielded Metal Arc Welding (SMAW) process. The course will cover setting up the SMAW workstation, electrode classification, selection, and use, welding, and inspection.

IWT 135* Gas Metal Arc Welding   3
This course will provide instruction and experience in the Gas Metal Arc Welding (GMAW) process. The course will cover setting up the GMAW workstation, electrode classification, selection, and use, welding, and inspection.

IWT 145* Gas Tungsten Arc Welding   3
This course will provide instruction and experience in the Gas Tungsten Arc Welding (GTAW) process. The course will cover setting up the GTAW workstation, electrode classification, selection, and use, welding, and inspection.

IWT 162* Blueprint Reading   4
This course will provide an introduction to reading blueprints related to industrial welding. The course will cover basic lines, views, and abbreviations, as well as interpretation of basic 3-D sketches. The course will also include applicable mathematical operations, measuring, scale ratios, identification of welding joints and symbols, and interpreting a bill of materials.

IWT 175* Shielded Metal Arc Welding II   5
This course will continue instruction and experience in Shielded Metal Arc Welding (SMAW). The course will cover safety issues, equipment repairs, setting up a complete SMAW system, operation of equipment, surface repairs, groove welds, and thickness qualification tests. *PreReq: IWT 125*

indicates a technical course

IWT 180* Gas Metal Arc Welding II   5
This course will continue instruction and experience in Gas Metal Arc Welding (GMAW). The course will cover safety issues, equipment repairs, setting up a complete GMAW system, operation of equipment, surface repairs, groove welds, and thickness qualification tests. *PreReq: IWT 135*

IWT 185* Gas Tungsten Arc Welding II   5
This course will continue instruction and experience in the Gas Tungsten Arc Welding (GTAW) process. The course will cover safety issues, equipment repairs, setting up a complete GTAW system, operation of equipment, surface repairs, 5G welds, and qualification tests. *PreReq: IWT 145*

IWT 190* Blueprint Reading II   3
This course will continue instruction and experience in blueprint reading related to industrial welding. *PreReq: IWT 162*

IWT 195* Occupational Work Experience   0
Occupational work experiences are available to students who have completed 85% of their required course hours. This is an optional course for welding students who wish to gain practical experience at local businesses and industries or other approved sites.

LG 100 Conversational Spanish   2
This course emphasizes the development of basic Spanish communications skills through practice in listening, speaking, reading, and writing. It is designed to introduce students to skills necessary for casual conversation and career specific situations.

LG 101 Spanish I   5
This course covers the fundamentals of Spanish pronunciation, vocabulary building, conjugation of the present tense, and introduction of two past tenses. The course will provide practice in understanding and speaking simple phrases, elementary reading and writing, and some study of the culture of people in countries where Spanish is spoken.

LG 102 Spanish II   5
This course builds on Spanish I and provides continued emphasis on pronunciation, vocabulary building, speaking, and understanding modern Spanish. Focus will be on elementary reading and basic writing skills as well as the study of the culture of Latin America and Spain. Review of the present tense is continued. The course will introduce the preterite tense and irregulars, the future, conditional, and perfect tenses, and subjunctive-introduction to present. Direct and indirect object pronouns, reflexive pronouns, command forms, sequencing, and storytelling will also be covered. *PreReq: LG 101*

LG 105 American Sign Language   3
This course offers a basic study of American Sign Language (ASL), the language used by the deaf community in the United States. The course covers the fundamentals of ASL grammar, vocabulary, finger spelling, numbers, visual-gestural communication, and information related to deaf culture.

LG 106 American Sign Language II   3
This course continues study begun in LG 105 and will focus on continued development of American Sign Language (ASL) skills, concentrating on comprehension and production. The course will also provide information about the linguistic and cultural features relevant to language learning.

LG 201 Spanish III   3
This course builds on Spanish II and provides continued emphasis on pronunciation, vocabulary building, speaking, and understanding modern Spanish. Focus will be on intermediate listening, speaking, reading, and writing skills, using a variety of tenses and moods, as well as the continued study of the culture of Latin America and Spain. Expanded review and practice using the present, preterite, imperfect, future, and conditional tenses and the imperative, indicative, and subjunctive moods will be continued. Sequencing and storytelling will also be continued. Por and para, comparatives and superlatives, prepositions, and the subjunctive in noun, adjective, and adverbial clauses will be covered and incorporated in the demonstration of appropriate interpretation and response to Spanish language input. *PreReq: LG 102 or permission*

LS 102 Children`s Literature   3
This course is designed to introduce students to the field of children's literature. The course will cover the theories, history, and types of children's literature. Emphasis will be on giving students the ability to evaluate and select appropriate literature for various ages of children. The course is recommended for elementary education and library science majors, and at some institutions, is a requirement for those majors. Course material, however, will be broad enough to accommodate anyone with an interest in the field of children's literature.

M 101 Music Fundamentals   3
This course covers the basics of music, including symbols, rhythm, and scale construction. The course also introduces reading and dictation in two or three parts, the minor modes and chromatics, eye and ear study through the simple modulations, and transpositions.

M 103 Music History and Appreciation   3
This course provides an introduction to music as an art form. The course will cover the basic elements of music and historically significant style periods and composers. The course will also emphasize the concept of music as self-expression.

M 105 Applied Keyboard I   1
This course offers private lessons on piano and/or electronic keyboard for music majors or non-music majors interested in developing their skills. *PreReq: Permission*

M 106 Applied Keyboard II   1
This course offers private lessons on piano and/or electronic keyboard for music majors or non-music majors interested in developing their skills. *PreReq: M 105 or permission*

indicates a technical course

M 107 Applied Music I (Vocal) 1
This course offers private lessons for students interested in developing vocal performance skills.

M 108 Applied Music II (Vocal) 1
This course offers private lessons for students interested in developing vocal performance skills. *PreReq: M 107*

M 111 Applied Music I (Instrumental) 1
This course provides private lessons on primary instruments for music majors or non-music majors interested in developing their skills. *PreReq: Permission*

M 112 Applied Music II (Instrumental) 1
This course provides private lessons on primary instruments for music majors or non-music majors interested in developing their skills. *PreReq: M 111 or permission*

M 113 Vocal Ensemble - Lads and Lassies I 1
This course is designed for both music majors and other students interested in performing with a stage vocal ensemble that features various styles of music along with choreography and props. The ensemble also travels within the College service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and ensemble music skills. *PreReq: Permission*

M 114 Vocal Ensemble - Lads and Lassies II 1
This course is designed for both music majors and other students interested in performing with a stage vocal ensemble that features various styles of music along with choreography and props. The ensemble also travels within the College service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and ensemble music skills. *PreReq: Permission*

M 115 Chorus I 1
This course is designed for both music majors and other students interested in performing with a stage vocal chorus that features various styles of music along with choreography and props. The chorus also travels within the College service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and choral music skills.

M 116 Chorus II 1
This course is designed for both music majors and other students interested in performing with a stage vocal chorus that features various styles of music along with choreography and props. The chorus also travels within the College service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and choral music skills. *PreReq: M 115*

M 119 Wind Ensemble I 1
This course is designed for both music majors and other students interested in performing with a wind and percussion ensemble. The course provides opportunities for musical self-expression and continued development of individual and ensemble music skills.

M 120 Wind Ensemble II 1
This course is designed for both music majors and other students interested in performing with a wind and percussion ensemble. The course provides opportunities for musical self-expression and continued development of individual and ensemble music skills. *PreReq: M 119*

M 130 Pep Band I 1
This course is for both music majors and other students interested in performing with a pep band at home football and basketball games. The course offers opportunities for musical self-expression while providing a service for the College's athletic community.

M 131 Pep Band II 1
This course is for both music majors and other students interested in performing with a pep band at home football and basketball games. The course offers additional opportunities for musical self-expression while providing a service for the College's athletic community. *PreReq: M 130*

M 135 Aural Skills I 2
This course provides an aural study of melodies, intervals, harmonies, rhythms, and meters. *CoReq: M 200*

M 145 Aural Skills II 2
This course provides additional aural study of melodies, intervals, harmonies, rhythms, and meters. *CoReq: M 201, M 135*

M 152 Opera Production I 1
This course is designed for dance and music students and others interested in participating in a stage vocal and dance ensemble that prepares and performs the role of the chorus with a professional opera company. The course provides opportunities for artistic self-expression and continued development of individual and ensemble skills, while offering exposure to the performance arts as a profession. *PreReq: Permission*

M 153 Opera Production II 1
This course is designed for dance and music students and others interested in participating in a stage vocal and dance ensemble that prepares and performs the role of the chorus with a professional opera company. The course provides opportunities for artistic self-expression and continued development of individual and ensemble skills, while offering exposure to the performance arts as a profession. *PreReq: M 152 and permission*

M 154 Group Piano I 1
This course is designed to develop functional keyboard skills needed in the music classroom or for personal enjoyment.

M 155 Group Piano II 1
This course is designed to develop intermediate keyboard skills needed in the music classroom or for personal improvement and enjoyment. *PreReq: M 154*

M 162 Introduction to World Music 3
This course will provide an introduction to music across the world. The basic elements of music and musical style from specific

95

regions will be studied. The course will also emphasize music as self-expression.

M 200 Music Theory I   3

This course will provide a study of the harmonic systems used in musical composition from approximately 1650 to 1900, including mastery of scales, keys, intervals, rhythms, and basic triads. The course will cover simple four-part writing, triad inversions, non-chord tones, secondary chords, and dominant seventh chords. Students will also analyze chorales, hymns, and representative literature from recognized style periods. *CoReq: M 135 PreReq: A C or higher in M 101 or permission*

M 201 Music Theory II   3

This course will provide more advanced study of the harmonic systems used in musical composition from approximately 1650 to 1900, including mastery of scales, keys, intervals, rhythms, and basic triads. The course will cover simple four-part writing, triad inversions, non-chord tones, secondary chords, and dominant seventh chords. Students will also analyze chorales, hymns, and representative literature from recognized style periods. *PreReq: A C or higher in M 200 CoReq: M 145*

M 205 Pep Band III   1

This course is for both music majors and other students interested in performing with a pep band at home football and basketball games. The course offers additional opportunities for musical self-expression while providing a service for the College's athletic community. *PreReq: M 131*

M 206 Pep Band IV   1

This course is for both music majors and other students interested in performing with a pep band at home football and basketball games. The course offers additional opportunities for musical self-expression while providing a service for the College's athletic community. *PreReq: M 205*

M 207 Applied Music III (Vocal)   1

This course offers private lessons for students interested in developing vocal performance skills. *PreReq: M 108*

M 208 Applied Music IV (Vocal)   1

This course offers private lessons for students interested in developing vocal performance skills. *PreReq: M 207*

M 211 Applied Music III (Instrumental)   1

This course provides private lessons on primary instruments for music majors or non-music majors interested in developing their skills. *PreReq: M 112 or permission*

M 212 Applied Music IV (Instrumental)   1

This course provides private lessons on primary instruments for music majors or non-music majors interested in developing their skills. *PreReq: M 211 or permission*

M 213 Vocal Ensemble - Lads and Lassies III   1

This course is designed for both music majors and other students interested in performing with a stage vocal ensemble that features various styles of music along with choreography and props. The ensemble also travels within the college service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and ensemble music skills. *PreReq: Permission*

M 214 Vocal Ensemble - Lads and Lassies IV   1

This course is designed for both music majors and other students interested in performing with a stage vocal ensemble that features various styles of music along with choreography and props. The ensemble also travels within the college service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and ensemble music skills. *PreReq: Permission*

M 215 Chorus III   1

This course is designed for both music majors and other students interested in performing with a stage vocal chorus that features various styles of music along with choreography and props. The chorus also travels within the College service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and choral music skills. *PreReq: M 116*

M 216 Chorus IV   1

This course is designed for both music majors and other students interested in performing with a stage vocal chorus that features various styles of music along with choreography and props. The chorus also travels within the College service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and choral music skills. *PreReq: M 215*

M 219 Wind Ensemble III   1

This course is designed for both music majors and other students interested in performing with a wind and percussion ensemble. The course provides opportunities for musical self-expression and continued development of individual and ensemble music skills. *PreReq: M 120*

M 220 Wind Ensemble IV   1

This course is designed for both music majors and other students interested in performing with a wind and percussion ensemble. The course provides opportunities for musical self-expression and continued development of individual and ensemble music skills. *PreReq: M 219*

M 223 History of Jazz   3

This course provides a listening-based approach to the evolutionary development of America's unique jazz art form. The course will cover the American roots of jazz and its early figures, the development of various jazz styles, significant jazz musicians, and the place of jazz in modern music.

indicates a technical course

M 225 Applied Keyboard III   1
This course offers private lessons on piano and/or electronic keyboard for music majors or non-music majors interested in developing their skills. *PreReq: M 106 and permission*

M 226 Applied Keyboard IV   1
This course offers private lessons on piano and/or electronic keyboard for music majors or non-music majors interested in developing their skills. *PreReq: M 225 and permission*

M 229 Aural Skills III   2
This course provides aural study of melodies, intervals, harmonies, rhythms, and meters. *PreReq: A C or higher in M 145, CoReq: M 233*

M 230 Aural Skills IV   2
This course provides aural study of melodies, intervals, harmonies, rhythms, and meters. *PreReq: A C or higher in M 229, CoReq: M 234*

M 233 Music Theory III   3
This course continues work with harmony and composition. The course will also introduce the use of 20th century techniques with melody, rhythm, form, and harmony. *PreReq: A C or higher in M 201, CoReq: M 229*

M 234 Music Theory IV   3
This course continues work with harmony and composition. The course will also introduce the use of 20th century techniques with melody, rhythm, form, and harmony. *PreReq: A C or higher in M 233, CoReq: M 230*

M 252 Opera Production III   1
This course is designed for dance and music students and others interested in participating in a stage vocal and dance ensemble that prepares and performs the role of the chorus with a professional opera company. The course provides opportunities for artistic self-expression and continued development of individual and ensemble skills, while offering exposure to the performance arts as a profession. *PreReq: M 153 and permission*

M 253 Opera Production IV   1
This course is designed for dance and music students and others interested in participating in a stage vocal and dance ensemble that prepares and performs the role of the chorus with a professional opera company. The course provides opportunities for artistic self-expression and continued development of individual and ensemble skills, while offering exposure to the performance arts as a profession. *PreReq: M 252 and permission*

MAT 090 Fundamentals of Math   3
Fundamentals of Math precedes the algebra sequence of courses. This course is designed to develop skills in the four fundamental mathematical operations using whole numbers, fractions, decimal fractions, ratio, proportion, and percent. Business and consumer applications are also included. If time permits, applied geometry and an introduction to algebra will be included.

MAT 100 Beginning Algebra   3
This course focuses on basic algebra fundamentals and is designed to prepare students for the Intermediate Algebra course. *PreReq: MAT 090 or assessment*

MAT 102 Technical Math   3
Technical math focuses on measurement, algebraic operations, formulas, geometry, and basic statistics, scientific notation, number systems, algebra (equations and formulas, factoring, and systems), geometry, and trigonometry. These concepts are supported by practical applications to a variety of career and technical vocations, including manufacturing, automotive, allied health, welding, building trades, and heating, ventilation, air conditioning, and plumbing*: MAT 090 or assessment*

MAT 103 Intermediate Algebra   3
Intermediate Algebra is a thorough study of the fundamental laws of algebra, including adding, subtracting, multiplying, dividing, factoring, and simplifying polynomial, rational, and radical expressions. The course also will cover solving linear, quadratic, rational, and radical equations, including non-real complex solutions, as well as solving linear, compound, and absolute value inequalities. In addition, graphing linear equations, inequalities, and quadratic functions, solving systems of two equations in two variables, and using function notation will be covered, as well as applications of many of these algebraic concepts. Other topics will be included as time permits. A scientific calculator is required for this course. *PreReq: MAT 100 or assessment*

MAT 104 College Algebra   3
College Algebra is a comprehensive study of the fundamental laws of algebra, including exponents, linear and quadratic equations, polynomial and rational inequalities, system of equations, radicals and radical equations, functions and graphing, polynomials and polynomial equations, modeling, logarithms, complex numbers, augmented matrices, determinants, and regression. The course will provide analysis of graphs and linear systems in two or three variables, as well as applications of most of the topics listed above and others as time permits. A graphing calculator is required for this course. *PreReq: MAT 103 or assessment*

MAT 105 Trigonometry   3
College Trigonometry includes the study of circular functions and their graphs, working with the right triangle, unit circle, inverse circular functions, identities, conditional equations, the Law of Sines, the Law of Cosines, and other topics as time permits. *PreReq: MAT 104 or assessment*

MAT 106 Calculus I   5
Calculus I is the first in a three-semester sequence of calculus courses. This course consists of the study of algebraic functions of one variable, the use of modern technology to enhance calculus knowledge, limits including the study of L'Hopital's Rule, differentiation and its various techniques, definite and indefinite integrals, including integration by substitution and logarithmic functions, and applications of the derivative and definite integral in geometry, science, engineer-

indicates a technical course

ing, business, medicine, and other fields. Other topics will be covered as time permits. *PreReq: MAT 105 or assessment*

MAT 107 General Calculus and Linear Algebra 3

General Calculus is an introduction to calculus and linear algebra concepts that are particularly useful in the study of economic and business administration. This course consists of the study of algebraic functions of both one and several variables, the use of modern technology to enhance calculus knowledge, differentiation and partial differentiation and their various techniques and applications to business such as marginal analysis and optimization including Lagrange Multipliers. Other topics may be covered as time permits. *PreReq: MAT 104*

MAT 108 Topics in Contemporary Mathematics 3

This course is designed to develop problem-solving skills by studying a wide range of contemporary applications of mathematics and to develop an appreciation of what mathematics is and how it is used today. The main goal of the course is to give an introduction to the power and variety of mathematical techniques that are available to an educated member of society. Some of the great ideas of mathematics and how they can be used in everyday life will be explored, including but not limited to: set theory, logic and syllogisms, graph theory, number theory, algebraic models, modeling systems for both linear equations and inequalities, voting methodology, consumer mathematics, and descriptive statistics. *This course does not satisfy the graduation requirements for an Associate in Science degree. PreReq: MAT 103 or assessment*

MAT 110 Calculus II 5

Calculus II is the second in a three-semester sequence of calculus courses. This course consists of working with logarithms and other exponential functions, hyperbolic functions, inverse and hyperbolic trigonometric functions, numerous integration techniques including using tables, integration by parts, substitutions, partial fractions, improper integrals, continued work with L'Hopital's rule, sequences and series, convergence and comparison tests, using formulas to estimate integrals, and differential equations. The course also covers calculus involving three-dimensional space, vector operations including the dot product, projections, the cross product, parametric equations of lines, and three-dimensional plane operations with quadric surfaces, as well as selected topics in analytic geometry as time permits. *PreReq: MAT 106*

MAT 201 Calculus III 5

Calculus III is the final course in the three-semester sequence of calculus courses. This course is designed to prepare students to be successful in Differential Equations, Vector Analysis, Statics, Dynamics, and other upper-level mathematics, science, and engineering courses. The course consists of a thorough study of polar coordinates and parametric equations, vector analysis in calculus problems, vector-valued functions, partial derivatives, centroids, directional derivatives, gradients, and multiple integrals including double integrals, triple integrals, changing variables involving polar coordinates, center of mass and moments of inertia, and many applications. In addition, there will be a thorough study of multiple

integrals and their applications, including in cylindrical and spherical coordinates and change of variables using Jacobians. Topics from the field of vector analysis, such as vector fields, line integrals, Green's Theorem applications, surface integrals including applications and flux, and the use of matrices in various operations will also be covered. *PreReq: MAT 110*

MAT 202 Differential Equations 3

This course covers standard types of ordinary differential equations of first and second order, linear equations, solutions by series, and application to geometry and physical science. *PreReq: MAT 201*

MAT 203 Basic Statistics 3

This course is an introductory study of the fundamentals of modern statistics and probability. The main topics covered include descriptive methods, inductive statistics, probability, estimation, and tests of hypotheses, along with other topics as time allows. *PreReq: MAT 104*

MOA 109* Emergency Preparedness 1

This course is designed to provide health care professionals with an orientation for their possible future roles in disaster response. Focus will be on the importance of staying within the scope of practice of the profession. The course will also cover being prepared to meet the expectations of their employers, volunteering effectively, and being confident and safe responders.

MOA 110* Administrative Aspects I 3

This course covers the administrative skills needed as a health care team member, including effective telephone techniques, scheduling patients for appointments, management of facilities, records management, and use of office equipment.

MOA 113* Clinical Internship I 2

This course provides practical experience in the Medical Office Assistant field by working in various medical arenas.

MOA 114* Patient Care I 4

This course focuses on the application of skills learned in the classroom and lab in the internship. The course also introduces the basics of patient care, including Medical Asepsis and Infection Control, preparing a patient for examination, acquiring vital signs, and assisting the physician with patient exams.

MOA 121* Principles of Pharmacology 3

This course presents topics essential for a thorough understanding of drug sources, legislation relating to drugs, drug references and forms of drugs, drug classifications and actions, the medication order, and basic principles.

indicates a technical course

MOA 123* Insurance Billing and Coding　　　　**3**
This course covers a wide range of medical insurance topics, including types of health insurance, types of coverage, claims processing, abstracting from medical records, and current issues in medical insurance.

MOA 125* Medical Terminology　　　　**3**
This course defines prefixes, suffixes, and roots used to compose medical terms. The course will cover spelling, pronunciation, definitions, and interpretation of terminology related to body structure, disease, diagnosis, and treatment.

MOA 128* Body Structure and Functions　　　　**3**
This course examines the complexities of human structure and function. The course emphasizes how tissues, organs, and body systems work together to carry out complex activities such as eating, learning and responding to stress, and interaction with other structures of the body.

MOA 133* Administrative Aspects II　　　　**3**
This course covers the administrative skills needed as a health care team member managing specialized patient appointment scheduling, electronic medical records, and referrals. The course also examines the financial responsibilities of medical office assistants relating to posting of charges and payments and balancing of day sheets. *PreReq: MOA 110*

MOA 134* Patient Care II　　　　**3**
This course introduces cast application and removal, performing EKG's, and patient teaching. The course also covers how to prepare and administer various forms of medication. *PreReq: MOA 114*

MOA 135* Clinical Internship II　　　　**2**
This course provides practical experience in the Medical Office Assistant field by working in various medical arenas. *PreReq: MOA 113*

MOA 136* Clinical Laboratory Procedures　　　　**4**
This course addresses the role and function of the professional in the clinical laboratory setting. Topics include safety, Clinical Laboratory Improvement Act of 1988 (CLIA), government regulations, and quality assurance in the laboratory. The course examines concepts and procedures in different departments of the laboratory, including specimen collection and performance of CLIA 88 low and/or moderate complexity testing.

MOA 137* Professional Issues　　　　**2**
This course focuses on the basic concept of professional practice of medicine and the role and function of the medical assistant. The course examines personal and professional characteristics and legal and ethical standards for medical assistants, explores professional and personal therapeutic communication, and addresses time management and goal setting.

MOA 295* Occupational Work Experience　　　　**0**
This experience is designed to provide the student with purposeful occupational experience in the Medical Office Assistant field. Each experience is individualized. A training plan is created for each student in conjunction with the training site to provide experience related to the skills and knowledge acquired in the program. Students must have completed 85% of their required course hours, be in good standing, and have instructor and administration approval.

MT 111 Introduction to Media Technology　　　　**3**
This course concentrates on the advanced applications of various media technologies used in a creative way to produce the College yearbook.

MT 112 Media Technology I　　　　**3**
This course is a continuation of MT 111. It concentrates on the advanced applications of various media technologies used in a creative way to produce the College yearbook.

MT 113 Media Technology II　　　　**3**
This course is a continuation of MT 111 and MT 112. This course is a continuation of MT 112. It concentrates on the advanced applications of various media technologies used in a creative way to produce the College yearbook. *PreReq: MT 113 and permission*

MT 114 Media Technology III　　　　**3**
This course is a continuation of MT 113. It concentrates on the advanced applications of various media technologies used in a creative way to produce the College yearbook. *PreReq: MT 113 and permission*

NET 125* Introduction to Net+　　　　**3**
This course will introduce the various networking concepts and technologies for students interested in becoming network administrators. Safety and proper tool usage will be reinforced. Key topics include protocols, topologies, hardware, client and server configuration, network services, and network security. In addition, the course will provide hands-on experience in configuration, troubleshooting, and maintenance of networks.

NET 195* Certification Training Lab NET+　　　　**3**
This course is designed to give the second semester student supervised practice with computerized testing. Students will apply previously learned skills and concepts in preparation for the CompTIA Network+ Examination. Practice test banks will be used to simulate the exams. Students will take practice tests, review answers, research incorrect answers, and obtain correct answers. The actual exam is scheduled when the student feels prepared for it.

NUR 103* PN Success　　　　**3**
This course provides an orientation to the Practical Nursing program. The course includes math for medication administration, basic computer use, and strategies to learn and test well.

NUR 106* Foundations of Nursing KSPN　　　　**4**
This course utilizes the nursing standards of practice based on principles of biology, psychosocial, spiritual and cultural to meet the needs of clients throughout the lifespan. Emphasis is placed on basic nursing skills, patient safety and therapeutic communication. Concepts and skills are enhanced in subsequent courses.

99

indicates a technical course

NUR 117* Pharmacology KSPN   4
This course introduces the principles of pharmacology and drug classifications. The course also covers the effects of selected medication on the human body. The nursing process is used as the framework for ensuring safe and effective nursing care for clients across the lifespan. *PreReq: NUR 103*

NUR 122* Medical Surgical Nursing I KSPN   4
This course focuses on the effect of disorders of selected systems throughout the lifespan and applies the nursing process in meeting basic needs. Health promotion and maintenance, rehabilitation, and continuity of care are emphasized. The role of the practical nurse is incorporated throughout. *PreReq: NUR 106, NUR 126*

NUR 126* Foundations of Nursing Clinical I KSPN   2
This clinical course explores the art and science of nursing. The course will focus on the nursing process, cultural and spiritual awareness, communication, data collection, performance of basic nursing skills, and documentation. The course will also introduce the principles of safe medication administration.

NUR 127* Medical-Surgical Nursing I Clinical KSPN   3
This course provides practical experience in simulated and actual care situations dealing with selected systems throughout the lifespan. The course will use acute and long-term care settings and will focus on critical thinking and clinical decision-making skills, principles of leadership for the practical nurse, and multi-task management skills for transition as a practical nurse. Note: Medication administration competency evaluations in NUR 126 must be passed in order to dispense and administer medications in this clinical experience. *PreReq: NUR 106, NUR 126*

NUR 130* IV Therapy for LPN   3
This course is designed to prepare the LPN to start, maintain, troubleshoot, and discontinue intravenous infusions safely and in accordance with Kansas statute and regulations. The course consists of online learning, 10 hours on-site clinical experience, and two hours on site for the final written exam. The course is also appropriate for RNs wanting to learn basic IV therapy or to refresh their skills. HCC Technical Center is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering is approved for 32 contact hours applicable for LPN relicensure or 20 contact hours for RNs. Kansas State Board of Nursing Provider: available upon request.

NUR 150* Gerontology KSPN   2
This course explores issues related to the aging adult using the nursing process as the organizing framework. The course also examines the impact of ageism, alterations in physiological and psychosocial functioning, and the role of the practical nurse in caring for older adult clients.

NUR 156* Mental Health Nursing KSPN   2
This course explores basic concepts and trends in mental health nursing as well as therapeutic modalities and client behavior management. The course will emphasize the nursing process and meeting the basic human needs of the mental health client.

NUR 157* Maternal Child Nursing KSPN   2
This course focuses on pre-natal and post-natal maternal nursing care, as well as the care of children from infancy to adolescence. The course emphasizes normal reproduction and frequently occurring biological, cultural, spiritual, and psychosocial needs of the child-bearing and child-rearing family.

NUR 159* Medical-Surgical Nursing II KSPN   4
This course focuses on the effect of disorders of selected systems throughout the lifespan and applies the nursing process in meeting basic needs. Prevention, rehabilitation, and continuity of care are emphasized. The role of the practical nurse is incorporated throughout.

NUR 162* Critical Thinking in Nursing   2
This course focuses on developing a deeper understanding of the nursing process and critical thinking in the work environment. The course will present scenarios, case studies, practice tests, and ATI test performance.

NUR 163* Nursing Leadership & Management   2
This course focuses on the skills needed to set and meet goals within a nursing workplace setting, including management, delegation, evaluation, and time and resource management within the scope of practice of the LPN in Kansas. Legal and ethical standards are also presented as guides to behaviors of the nurse.

NUR 168* Maternal Child Nursing Clinical KSPN   1
This clinical course applies concepts from Maternal Child I. Emphasis is placed on the nursing process and meeting the basic needs of the maternal child client.

NUR 170* Medical-Surgical Nursing II Clinical KSPN   3
This experience uses simulated and actual care situations of selected systems throughout the lifespan, utilizing acute ADN long-term care settings. An emphasis is placed on critical thinking and clinical decision-making skill development. Principles of leadership for the practical nurse will be implemented, as well as multi-task management skills for transition as a practical nurse.

NUR 172* Clinical Simulations   1
This clinical course uses both moderate and high fidelity manikins in a variety of clinical situations designed to give students a safe environment to test clinical understanding and competence.

NUR 201 Certified Nurse Aide   6
This course is based on the Kansas Department of Health and Environment (KDHE) Certified Nurse Aide Curriculum Guidelines (90 Hours) and prepares individuals to take the state certification exam. The course focuses on the responsibilities of the nurse aide working as a member of the health team in caring for residents of long term care facilities. The course includes basic anatomy and physiology, communication skills, measurement of vital signs, and procedures to help meet the hygiene, nutrition, and rehabilitation needs of older individuals. Students who successfully complete this course and pass the state exam will be qualified to become a practicing Kansas Certified Nurse Aide (CNA). *PreReq: Permission*

*indicates a technical course

NUR 202 Certified Medication Aide   5

This course is based on the Kansas Department of Health and Environment (KDHE) Medication Aide Curriculum and prepares individuals to take the state certification exam. The course focuses on the responsibilities associated with medication administration, including drug dosage calculations. Students who successfully complete this course and pass the state exam will be qualified to become a practicing Kansas Certified Medication Aide (CMA). *PreReq: Kansas Certified Nurse Aide*

NUR 203 Certified Medication Aide Certification Update I   1

Provides continued certification for the Certified Medication Aide. *PreReq: Permission*

NUR 206 Social Service Designee   3

This course prepares the individual for the role of Social Services Designee in an adult care facility. The course examines the impact of aging changes on the psychosocial and physical needs of long-term care residents. The course also covers the specific responsibilities and functions of the Social Services Designee with residents and as a member of the healthcare team. *PreReq: Permission*

NUR 220* LPN to RN Transition   1

This course prepares the licensed practical nurse to perform as a registered nurse by expanding the LPN knowledge base and exploring the scope of practice of the RN. The course begins with a review of nursing process, communication, client teaching, and critical thinking. Also covered are the philosophy of associate degree nursing as well as the philosophy and objectives of the LPN to RN completion program. The scope and the standards of practice for the professional RN are stressed. In addition, the results of entrance testing provide a blueprint for the LPN student to use for content review and remediation. *PreReq: Admission to LPN to RN*

NUR 225* Health Assessment & Advanced Nursing Skills   4

The course provides the framework for preparing students to perform comprehensive health assessments. Emphasis is placed on taking a thorough nursing history, performing physiological, psychological, sociological, cultural, and spiritual assessments. Laboratory experiences provide an opportunity to practice assessment and perform a head to toe assessment at a prescribed competency level. This course will also develop student skills in relation to advanced nursing skills needed to provide patient-centered care to patients with complex and multisystem disorders. *PreReq: Admission to LPN to RN*

NUR 230* Advanced Medical-Surgical Nursing   6

This course focuses on the care of adult and older patients with complex medical/surgical health alterations. Emphasis is placed on helping patients and their families cope with alterations in body functions. Concepts pf pharmacology and parenteral therapy, health promotion and education, evidence-based practice, and inter-professional collaboration will be integrated throughout the course. Intermediate and complex clinical skills, as well as priority setting, clinical judgment, and tenets of legal and ethical practice are integrated throughout the course. Emphasis is placed on

enhancing time management, organizational, and priority-setting skills when providing care to patients with multiple needs. Clinical experiences provide the student an opportunity to apply theoretical concepts and implement safe, quality care to patients. *PreReq: Admission to LPN to RN*

NUR 235* Advanced Mental Health Nursing   3

This course focuses on the care of patients across the lifespan experiencing cognitive, mental, and behavioral disorders. Emphasis is placed on management of patients facing emotional and psychological stressors as well as promoting and maintaining the mental health of individuals and families. Concepts of crisis interventions, therapeutic communication, anger management, and coping skills are integrated throughout the course. The community as a site for care and support services is addressed. Clinical experiences provide the student an opportunity to apply theoretical concepts and implement safe patient care to patients in selected mental health settings. *PreReq: Admission to LPN to RN*

NUR 235* Advanced Mental Health Nursing   3

This combined lecture/discussion and clinical course focuses on the client need for care and support in times of stress, crisis, and acute or chronic mental illness. The course will explore selected mental illnesses and their treatment modalities, care for clients with dependencies (substance and non-substance), care for clients in crisis and care for clients and families experiencing end of life. Critical thinking, nursing process, caring, therapeutic communication and documentation, and teaching/learning are integrated throughout the course.

NUR 240* Nurse as Manager of Care   2

This online course focuses on the principles of management used in professional nursing. The course covers client and staff safety as well as legal and ethical issues pertaining to management. Also covered are topics in delegation, client, time, and resource management, evaluation, patient teaching, and communication skills with a multidisciplinary health care team. This course addresses program outcomes 4, 5, and 6. *PreReq: NUR 220, NUR 225, NUR 230, NUR 235, NUR 245*

NUR 245* High Risk Maternal-Child Nursing   2

This lecture/discussion course provides content needed for the registered nurse to care for the high-risk maternal, newborn, and pediatric client not covered in the basic LPN curriculum. The nursing process, developmental age, communication, and pharmacology are integrated into this course. *PreReq: NUR 220, NUR 225, NUR 230, NUR 235*

NUR 250* Professional Nursing Practicum   4

This clinical course is the capstone course for the LPN to RN Completion program. Students will demonstrate novice competency as a professional nurse by managing and providing care for a culturally, economically, medically, developmentally, and socially diverse clientele in a variety of clinical settings. Students will develop and implement plans of care using critical thinking and the nursing process, employ therapeutic communication, support physiologic and psychosocial integrity, and promote a safe environment for clients. *PreReq: NUR 220, NUR 235, NUR 230, NUR 225, NUR 240, NUR 245*

101

indicates a technical course

PE 103 Volleyball (WVA)   1
This course is for women participating in volleyball at the collegiate level. The course is designed to improve skill and knowledge in all areas of volleyball.

PE 104 Basketball (WVA)   1
This course is for women participating in basketball at the collegiate level. The course is designed to improve skill and knowledge in all areas of basketball.

PE 105 Football (MVA)   1
This course is for men participating in football at the collegiate level. The course is designed to improve skill and knowledge in all areas of football.

PE 106 Basketball (MVA)   1
This course is for men participating in basketball at the collegiate level. The course is designed to improve skill and knowledge in all areas of basketball.

PE 107 Dance Team I   1
This performance class is specifically for members of the Classy Lassies dance group, which represents the College at athletic events and school activities. Auditions are required for admission. The course emphasizes development of technical and choreographic skills for performance.

PE 108 Dance Team II   1
This performance class is specifically for members of the Classy Lassies dance group, which represents the college at athletic events and school activities. Auditions are required for admission. The course emphasizes development of technical and choreographic skills for performance. *PreReq: PE 107*

PE 109 PE for Elementary Teachers   3
This course for prospective elementary teachers examines the practice of organized play activity. The course includes a study of the meaning of play, values of supervised play, and selection of games and activities. The course will also cover writing objectives and making lesson plans, unit plans, and a yearly plan. Different styles of teaching and how to evaluate programs and students will also be covered.

PE 110 Rules and Officiating I   2
This course covers how to officiate the sports of football and volleyball. The course will examine rules and the development of officiating philosophies as a basis for judgment and decision making.

PE 111 History and Principals of PE   3
This course focuses on the historical development and foundation areas of physical education in America.

PE 112 Personal and Community Health   3
This course provides an overview of the physical, mental, emotional, social, and spiritual components of health that affect the whole human being. The course will include an introduction to the interdependency and relationships between such topics as mental/emotional health, drug use, drug misuse, drug abuse, physical fitness, nutrition, consumer health, human sexuality, death and dying, community health, environmental health, and diseases.

PE 113 First Aid and Safety   3
This course focuses on identifying and eliminating potentially hazardous conditions in various situations, recognizing emergencies, and making appropriate decisions for first aid care. The course covers the knowledge and skills that people in the workplace need to give immediate care to an ill or injured person until more advanced medical care arrives.

PE 114 Track (WVA)   1
This course is for women participating in track and field at the collegiate level. The course is designed to improve skill and knowledge in all areas of track and field.

PE 115 Softball (WVA)   1
This course is for women participating in softball at the collegiate level. The course is designed to improve skill and knowledge in all areas of softball.

PE 116 Track (MVA)   1
This course is for men participating in track and field at the collegiate level. The course is designed to improve skill and knowledge in all areas of track and field.

PE 117 Baseball (MVA)   1
This course is for men participating in baseball at the collegiate level. The course is designed to improve skill and knowledge in all areas of baseball.

PE 118 Cross Country I (MVA)   1
This course is for men participating in cross country at the collegiate level. The course is designed to improve skill and knowledge in all areas of cross country.

PE 119 Tennis   1
This course covers the basic skills, fundamentals, knowledge of the rules, and strategies of the game of tennis.

PE 121 Volleyball I   1
This course is designed to provide instruction in the basic skills of volleyball, including the forearm pass, overhead set, spike, and overhand serve. Elementary offenses and defenses will also be covered in the course.

PE 122 Archery   1
This course provides the basic skills, fundamentals, and general information about the leisure sport of archery. The course will introduce the skills, general rules, safety, and techniques related to the sport of archery, with emphasis on acquisition of skills.

*indicates a technical course

PE 123 Introduction to Physical Education   3
This course provides a study of the historical background, philosophy, and principles of the field of physical education. The course will also offer some practical experience in this area.

PE 124 Weightlifting I   1
This course offers an individualized weightlifting program designed to improve physical health, well-being, and strength.

PE 125 Introduction to Recreation   3
This course is designed for the student interested in a career in recreation. Various recreational activities are included in this class along with opportunities for practical experience. The student is also given the opportunity to work in a recreational setting in the community.

PE 126 Physical Fitness Management   1
This course is designed to provide each student the opportunity to develop the knowledge and skills essential for maintaining a fitness lifestyle.

PE 127 Cheerleading I   1
This performance course is for members of the College spirit group of cheerleaders, yell leaders, and mascots. The course emphasizes the development of physical and technical skills, including jumps, stunts, cheers, chants, conditioning, and safety for performing at athletic events and other school activities.

PE 128 Cheerleading II   1
This performance course is for members of the College spirit group of cheerleaders, yell leaders, and mascots. The course emphasizes the development of physical and technical skills, including jumps, stunts, cheers, chants, conditioning, and safety for performing at athletic events and other school activities. *PreReq: PE 127*

PE 129 Basketball I   1
This course is designed to develop skills fundamental to playing basketball. The course will focus on strategies that are necessary for team play.

PE 134 Golf   1
This course will cover the history, rules, fundamental techniques, proper use of the clubs, and courtesies of the game of golf.

PE 135 Running Awareness   1
This course covers the proper mechanics of running and training, exercise benefits, fitness programs, warm-ups, and cool downs. The course will also emphasize cardiovascular fitness.

PE 136 Baseball Conditioning I   1
This course is designed to improve individual physical strength and endurance through a strength program and conditioning drills. Enrollment is limited to those enrolled in activities courses such as baseball and softball.

PE 137 Basketball Conditioning I - Men   1
This course provides weight training and conditioning for the men's basketball program. Enrollment is limited to those enrolled in basketball activity courses.

PE 138 Basketball Conditioning I - Women   1
This course provides weight training and conditioning for the women's basketball program. Enrollment is limited to those enrolled in basketball activity courses.

PE 139 Lifetime Fitness   2
This course is designed to provide an individual exercise and fitness evaluation and program. The course will focus on how to develop and maintain a fitness lifestyle.

PE 139A Lifetime Fitness   3
This course is designed to provide each student pursuing the field of personal fitness training with the knowledge to build an individual exercise program, including cardiovascular, strength, and flexibility, essential for maintaining a fitness lifestyle. The course will also cover nutrition, weight management, and body composition. This course is part of an Applied Science Degree program and offers preparation for the National Council of Strength and Fitness personal trainer exam. *PreReq: Permission*

PE 140 Advanced Weightlifting and Conditioning   1
This course provides an individualized program to improve health, well-being, and strength through weightlifting, conditioning drills, and agility drills.

PE 141 PE for Men   1
This course focuses on improving strength and overall fitness through exercise. The course will demonstrate how to apply exercises to improve fitness.

PE 143 Introduction to Athletic Training I   3
This course provides an overview of the athletic training profession and the field of sports medicine. The course will cover the different aspects of an athletic trainer's job and provide an opportunities for practical experience and observation in this field.

PE 147 Cross Country I (WVA)   1
This course is for women participating in cross country at the collegiate level. The course is designed to improve skill and knowledge in all areas of cross country.

PE 149 Softball Conditioning I   1
This course is designed to improve athleticism, both mental and physical. The course will focus on techniques used in the following aspects of softball: hitting, pitching, fielding, and base running.

PE 150 Personal Trainer Field Experience I   1
This course provides a beginning hands-on experience for students pursuing a personal fitness trainer degree. The course will provide instruction and experience in how to interact with people participating in a personal training program. The course will include application

103

indicates a technical course

of exercise theory to fitness machine workouts. This course is part of an Applied Science degree program and offers preparation for the National Council of Strength and Fitness personal trainer exam.

PE 150A Personal Trainer Field Experience II   1
This second semester course provides additional hands-on experience for students pursuing a personal fitness trainer degree. This course focuses on a more comprehensive approach to wellness. Students will work with staff members of the Walters Wellness center and will follow a program provided by the trainer to help individuals obtain their fitness goals. Students may also work with various athletic groups or clubs with pre-written programs. This course is part of an Applied Science degree program and offers preparation for the National Council of Strength and Fitness personal trainer exam. *PreReq: PE 150*

PE 150B Personal Trainer Field Experience III   1
This third semester course provides additional hands-on experi-ence for students pursuing a personal fitness trainer degree. This course provides experience in writing and executing comprehensive wellness programs with the input of the trainer. This course is part of an Applied Science degree program and offers preparation for the National Council of Strength and Fitness personal trainer exam. *PreReq: PE 150A*

PE 150C Personal Trainer Field Experience IV   1
This fourth semester course is designed to provide each student pursuing the field of personal fitness training more experience outside of the college wellness center and campus. The student will be able to job shadow or interact with area fitness facilities. This course is part of an Applied Science Degree program and offers preparation for the National Council of Strength and Fitness personal trainer exam. *PreReq: PE 150B*

PE 151 Clinical Experience Athletic Training I   2
This course will provide students with an introduction to clinical experiences in the Highland Community College Athletic Training Education Program. There will be application of introductory skills through laboratory practice and clinical experiences in practical settings. *PreReq: Permission*

PE 151B Clinical Experience Athletic Training II   2
This course will provide an intermediate level of clinical experiences in the Highland Community College Athletic Training Education Program. There will be application of intermediate skills through laboratory practice and clinical experiences in practical settings. *PreReq: PE 151*

PE 151C Clinical Experience Athletic Train III   2
This course will provide an advanced level of clinical experiences in the Highland Community College Athletic Training Education Pro-gram. There will be application of advanced skill modules through laboratory practice and clinical experiences in practical settings. *PreReq: PE 151B*

PE 151D Clinical Experience Athletic Training IV   2
This course will provide a professional level of clinical experiences in the Highland Community College Athletic Training Education Program. There will be application of professional skills through laboratory practice and clinical experiences in practical settings. *PreReq: PE 151C*

PE 203 Volleyball II (WVA)   1
This course is for women participating in volleyball at the collegiate level. The course is designed to improve skill and knowledge in all areas of volleyball. *PreReq: PE 103*

PE 204 Basketball II (WVA)   1
This course is for women participating in basketball at the collegiate level. The course is designed to improve skill and knowledge in all areas of basketball. *PreReq: PE 104*

PE 205 Football II (MVA)   1
This course is for men participating in football at the collegiate level. The course is designed to improve skill and knowledge in all areas of football. *PreReq: PE 105*

PE 206 Basketball II (MVA)   1
This course is for men participating in basketball at the collegiate level. The course is designed to improve skill and knowledge in all areas of basketball. *PreReq: PE 106*

PE 207 Dance Team III   1
This performance class is specifically for members of the Classy Lassies dance group, which represents the College at athletic events and school activities. Auditions are required for admission. The course emphasizes development of technical and choreographic skills for performance. *PreReq: PE 108*

PE 208 Dance Team IV   1
This performance class is specifically for members of the Classy Lassies dance group, which represents the College at athletic events and school activities. Auditions are required for admission. The course emphasizes development of technical and choreo-graphic skills for performance. *PreReq: PE 207*

PE 210 Advanced Concepts of Personal Training   5
Released by the National Council on Strength & Fitness (NCSF), this is an intensive cumulative core course designed to prepare students for the NCSF National Certified Personal Trainer Exam. The course covers all the areas required for the exam and will include lessons with textbook reviews, presentations, and study guide sessions, as well as lab activities for each lesson or chapter of the textbook. There will be three hours lecture and two hours lab per week. *PreReq: Permission*

PE 214 Track II (WVA)   1
This course is for women participating in track and field at the collegiate level. The course is designed to improve skill and knowledge in all areas of track and field. *PreReq: PE 114*

104

PE 215 Softball II (WVA)   1
This course is for women participating in softball at the collegiate level. The course is designed to improve skill and knowledge in all areas of softball. *PreReq: PE 115*

PE 216 Track II (MVA)   1
This course is for men participating in track and field at the collegiate level. The course is designed to improve skill and knowledge in all areas of track and field. *PreReq: PE 116*

PE 218 Cross Country II (MVA)   1
This course is for men participating in cross country at the collegiate level. The course is designed to improve skill and knowledge in all areas of cross country. *PreReq: PE 118*

PE 220 Theory of Coaching Basketball   2
This course covers all phases of the game of basketball and is designed to provide a foundation for those interested in coaching basketball. The course will include developing a coaching philosophy, motivational techniques, offensive and defensive strategies, and developing a basketball program.

PE 222 Theory of Coaching Football   2
This course covers the history of the sport of football, theories of coaching, and fundamental coaching techniques.

PE 223 Theory of Coaching Baseball   2
This course covers the basic fundamentals of coaching the sport of baseball. The course will focus specifically on pitching, catching, infield and outfield positions, and hitting. The course will also cover how to deal with individual players and the correction of common faults.

PE 224 Care and Prevention of Athletic Injuries   3
This course provides a practical study of injury recognition, preventative measures, evaluation techniques, supportive taping methods, and basic modalities and rehabilitation used in the management of athletic injuries.

PE 225 Theory of Coaching Volleyball   2
This course is designed to provide an understanding of the game of volleyball from a coaching perspective. The course will cover developing a personal coaching philosophy, organization of practices, teaching fundamentals, game strategies, working with individual athletes, team dynamics, team and program management, and professional development. The course will consider all levels of volleyball competition.

PE 227 Cheerleading III   1
This performance course is for members of the College spirit group of cheerleaders, yell leaders, and mascots. The course emphasizes the development of physical and technical skills, including jumps, stunts, cheers, chants, conditioning, and safety for performing at athletic events and other school activities. *PreReq: PE 128*

PE 228 Cheerleading IV   1
This performance course is for members of the college spirit group of cheerleaders, yell leaders, and mascots. The course emphasizes the development of physical and technical skills, including jumps, stunts, cheers, chants, conditioning, and safety for performing at athletic events and other school activities. *PreReq: PE 227*

PE 236 Baseball Conditioning II   1
The course will focus on techniques for improving hitting, pitching, fielding, and base running. The course is designed to make the student a better athlete both mentally and physically. *PreReq: PE 136*

PE 237 Advanced Basketball Conditioning- Men   1
This course covers preseason conditioning for men's varsity basketball. The course will focus on proper weight training techniques and running principles. *PreReq: PE 137*

PE 238 Advanced Basketball Conditioning - Women   1
This course covers preseason conditioning for women's varsity basketball. The course will focus on proper weight training techniques and running principles. *PreReq: PE 138*

PE 240 Advanced Weightlifting & Conditioning II   1
This course provides an individualized program to improve health, well-being, and strength through weightlifting, conditioning drills, and agility drills. *PreReq: PE 140*

PE 241 Weightlifting II   1
This course offers an individualized weightlifting program designed to improve physical health, well-being, and strength. *PreReq: PE 124*

PE 243 Introduction to Athletic Training II   3
This course covers documentation of athletic injuries, principles of therapeutic modalities, and methods of therapeutic exercise. *PreReq: PE 143 and permission*

PE 245 Baseball II (MVA)   1
The course will focus on techniques for improving hitting, pitching, fielding, and base running. The course is designed to make the student a better athlete both mentally and physically. *PreReq: PE 117*

PE 247 Cross Country II (WVA)   1
This course is for women participating in cross country at the collegiate level. The course is designed to improve skill and knowledge in all areas of cross country. *PreReq: PE 118*

PE 249 Softball Conditioning II   1
The course will focus on techniques for improving hitting, pitching, fielding, and base running. The course is designed to make the student a better athlete both mentally and physically. *PreReq: PE 149*

PE 250 Exercise Physiology   3
This course examines the fundamental physiological processes that operate during exercise. The course will emphasize integrating systems and organs into a functional whole. Laboratory work will provide experience in evaluating exercise stress by motion methods and equipment. *PreReq: BS 105*

105

indicates a technical course

PHI 101 Introduction to Philosophy   3
This course provides a study of major philosophical ideas of the Western world from the time of Plato to the present. The course will present a broad overview of the history of philosophy and the thoughts of major philosophers. Emphasis will be placed on showing relationships between current societies and significant philosophical ideas.

PHI 102 Introduction to Ethics   3
This course provides a survey of ethical theories as they apply to the quest for human happiness and "the good life." The principles of moral reasoning and good reasoning will be considered and emphasis will be placed on the views of leading moral philosophers of the western tradition, such as Aristotle, Kant, Mill, Nietzsche, and others. The course will also focus on the applications of moral theory to practice.

PHI 103 Logic and Critical Thinking   3
The study of critical thinking and logic allows the student to practice skills in clear and logical thinking, analysis of information, and effective argumentation. The student will formulate and deliver arguments in written and oral form, supported by evidence and valid underlying assumptions.

PHI 105 Religions of the World   3
This course provides an objective and impartial survey of the major religious systems of the world, including Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, and Islam.

PHO 104 Introduction to Digital Photography   3
This is a basic course that provides familiarization with digital cameras and their technical controls. The course covers the use of camera functions: lens, exposure, f-stops, shutter speeds, and digital formats. Adobe Lightroom will be used as an image editing tool as well as digital printing output. The course will emphasize technical and compositional skills along with the aesthetic importance of the image. Students must have access to a digital single lens reflex (SLR) camera or equivalent with the ability for manual control and RAW image capture.

PHO 105 Introduction to Film Photography   3
This course provides an introduction to film photography using a 35 mm single lens reflex (SLR) camera. The course will cover the use of gelatin silver black and white materials and achieving technical control of film, paper, and chemistries in the development and print processes, including techniques for refining the print image and using previsualization and darkroom manipulations. *PreReq: PHO 104*

PHO 107 History of Photography   3
This course provides an introduction to the history of still photography as an art medium. The course will cover developments of the photographic image from 1839 to the present. Emphasis will be placed on individual artists, artistic movements, and photography as a communication tool.

PHO 108 Applied Photography I   1
This course is designed for the student with an interest in commercial photography. The student will have supervised assignments in a field relating to their professional interests. Such areas may include, but are not limited to, portraiture, fashion, industrial, or illustration photography. The class will meet one hour per week, with additional hours arranged as necessary. *PreReq: PHO 101*

PHO 109 Studio Photography I   1
This course is designed for the student with an interest in fine arts photography. The course will provide an opportunity to explore the possibilities of self-expression with the photographic image. Students may elect to explore non-silver (alternative) photographic processes as well, including, but not limited to, palladium printing, salted paper prints, carbon, or kallitype prints. The course will meet one hour per week, with additional hours arranged as necessary. *PreReq: PHO 101*

PHO 110 Photography Fundamentals   2
This is a beginning course covering the basics of digital cameras and their technical controls. Camera functions: lens, exposure, f-stops, shutter speeds and digital formats will be explored. Emphasis will be geared toward understanding the creative potential and use of digital imaging technology. Compositional skills and the aesthetic importance of image making will be discussed.

PHO 203 Color Photography   3
This is an advanced course using digital technologies to examine, explore, and apply color theory in photographic works. The course will focus on the advanced use of Photoshop, color balancing, and management systems in digital printing. The emphasis of the course is on self-expression using color as a tool for mood and emotional value. Students must have access to a high quality digital SLR camera with the ability for manual control and RAW image capture. *PreReq: PHO 104*

PHO 205 Lighting Techniques   3
This course provides an introduction to the physical laws of light and photographic lighting techniques. The course will cover terminology and lighting techniques for form, texture, and separation, using both portraiture and still life. Assignments will include controls and exposure of lighting systems such as working with natural, tungsten or strobe lighting. Students must have access to a high quality digital (single lens reflex) camera with the ability for manual control and RAW image capture. *PreReq: PHO 104*

PHO 207 Advanced Digital Photography   3
This course is designed in exploring and using advance functions on the digital (single lens reflex) camera. Functions and topics include: color corrections, working in HDR, using live view, perspective controls, tweaking saturation, lens control and programing presets. Computer editing will include using both Adobe Lightroom and Photoshop. Assignments will be given in architecture, product and advertising, and fine art photography. Studio lighting techniques with tungsten, flood, or strobe systems will be utilized. *PreReq: PHO 203, PHO 205*

*indicates a technical course

PHO 208 Applied Photography II   1
This is an advanced course designed for the student with professional goals in commercial photography. The student will continue to concentrate on a series of photographs that will relate to their professional interests in a specific field. The class will meet one hour per week, with additional hours arranged as necessary. *PreReq: PHO 108*

PHO 209 Studio Photography II   1
This advanced course is designed for the student with professional goals in the photographic fine arts. Students will continue to explore the photographic image as a tool for self-expression. Students may elect to work with traditional or non-traditional processes. The course will meet one hour per week, with additional hours arranged as necessary.

PHO 210 Landscape Photography   3
This course allows students to work in the natural environments of the landscape. The goal of the course is to expand technical and aesthetic photographic skills by working in practical and unique field locations. Daily field sessions and lectures will be scheduled as well as individual assistance. The student will select a field project of their choice. Topics could include, but are not limited to, fine art landscape, wildlife, macro, and portrait location photography. *PreReq: PHO 101*

PHO 210A Landscape Photography   3
This course allows students to work in the natural environments of the landscape. The goal of the course is to expand technical and aesthetic photographic skills by working in practical and unique field locations. Daily field sessions and lectures will be scheduled as well as individual assistance. The student will select a field project of their choice. Topics could include, but are not limited to, fine art landscape, wildlife, macro, and portrait location photography. *PreReq: PHO 101*

PHO 260 Portfolio Preparation   1
Provides individuals with the necessary skills and knowledge to design and prepare a portfolio. A finished portfolio can be helpful in seeking educational goals such as scholarships or entrance requirements, or utilized in seeking employment. *PreReq: Permission*

POL 100 United States Government   3
This course focuses on the political arena and public affairs of the national government of the United States. The course will examine the development of constitutional principles and issues, such as civil liberties, the role of political parties, and the structure and function of the legislative, executive, and judicial branches of the United States government.

POL 101 Introduction to Political Science   3
This course provides a survey of the field of political science. The course will cover the nature of politics and political power, the institutions of government and how they make decisions, enforce rules, and decide conflicts about policies, the nature of public opinion and political participation, major political ideologies and philosophers of politics, and politics in the international realm. The course will focus on American politics but will also provide some comparison with other nations.

POL 115 State and Local Government   3
This course examines the interrelationships between the federal, state, and local branches of the United States government. Current events will be discussed as they relate to state and local governmental entities. The course will also emphasize the impact of government on daily life.

PS 101 College Physical Science   5
This course provides a study of major concepts in modern science. The course will focus on physics, chemistry, geology, meteorology, and astronomy. Some consideration will be given to the problems of energy and the environment. This course is designed for those with no previous background in physical science and will include laboratory experience. *PreReq: MAT 100*

PS 102 Concepts of Physics   4
This course provides a qualitative introduction to the science of physics and examines principles from classic, relativity, and quantum theories. The course will cover motion, forces, energy, thermodynamics, waves, electromagnetism, atomic physics, special and general relativity. This course is intended as a broad-based introduction to physics for students who are not majoring in science. Three hours of lecture and 1.5 hours of lab per week. *PreReq: MAT100 or assessment*

PS 104 Physical Geology   4
The course offers an introduction to the basic principles of geology. The course covers geological measuring techniques, minerals and rocks, internal processes such as plate tectonics, earthquakes and volcano, and surface processes such as streams, coasts, mass movement, and glaciers. This course is intended as a broad-based introduction to geology for students who are not majoring in science. Three hours of lecture and 1.5 hours of lab per week.

PS 107 General Chemistry   5
This course includes a survey of chemistry with special emphasis on solutions and biochemistry. This course is for students who have not had the equivalent of one year of high school chemistry. The course is designed for students majoring in scientific and technological fields such as allied health and agriculture. Three hours of lecture and three hours of lab.

PS 108 Astronomy   4
This course provides a qualitative introduction to the nature of the solar system and beyond. The course will cover the celestial sphere, astronomical observation techniques, the planets and moons, asteroids and comets, the Sun, the lives and evolution of stars, pulsars, black holes, galaxies and dark matter. This course is intended as a broad-based introduction to astronomy for students who are not majoring in science. Three hours of lecture and 1.5 hours of lab per week. *PreReq: MAT 100 or assessment*

indicates a technical course

PS 111 College Chemistry I 5

This course provides a college-level introduction to chemistry. The course is intended for those students majoring in technological and scientific fields such as engineering, pre-medical, pre-veterinary, pre-pharmacy, pre-dentistry. This is also the PreRequisite course for further chemistry studies in organic chemistry, biochemistry. The course will focus on the study of chemical compounds, their properties and reactions, and the scientific laws which determine their behavior. Topics include basic chemical concepts, calculations with chemical formulas and equations, chemical reactions, thermo-chemistry, modern theories of the atom and electronic structure, chemical periodicity, and chemical bonds. This is the first semester of a two-semester sequence. *PreReq: High school chemistry, MAT 103, or permission*

PS 112 College Chemistry II 5

This course is a continuation of PS 111 and is designed for students whose studies will continue in science or engineering. This is also a part of the required pre-professional course load. Topics include crystals and solids, reaction kinetics, chemical equilibrium, solution chemistry including acid-base and complex-ion equilibria, thermodynamics, and electrochemistry. There is also a brief discussion of organic chemistry, biochemistry, and nuclear chemistry. *PreReq: PS 111*

PS 203 General Physics I 5

This course provides a study of units, physical quantities and vectors, motion, forces and equilibrium, oscillations and waves, gravitation, work, energy, and thermodynamics. This is the introductory course for those who require algebra-based physics. *PreReq: MAT 104*

PS 204 General Physics II 5

This course includes the study of electricity, magnetism, electromagnetic induction, electromagnetic waves, optics, and atomic and nuclear physics. This is a second semester course for students who require algebra-based physics. *PreReq: PS 203*

PS 210 Organic Chemistry I 5

This course is the first of a two-semester sequence. Fundamental topics studied will include hybridization, bond and molecular orbitals, stereochemistry, acids and bases, chemical radicals, kinetics, thermodynamics, conformational analysis, and molecular structure. These topics will be applied to alkanes, haloalkanes, alkenes, and alcohols. Spectroscopic techniques including NMR, IR, and mass spec will be applied to structure determination of organic molecules. *PreReq: PS 111, PS 112, and permission*

PS 212 Organic Chemistry II 5

This course is the second of a two-semester sequence. Fundamental topics studied will include a continuation of all topics from the first semester and their application to chemical synthesis and structure determination. These topics will be applied to aldehydes and ketones, carboxylic acids and their derivatives, amines, aromaticity, benzene and its derivatives, organometallic compounds, conjugated and unconjugated unsaturated systems, and pericyclic reactions. Selected applications to biochemistry, medicinal and pharmaceutical chemistry, and industrial chemistry will also be discussed. *PreReq: PS 210 and permission*

PS 215 College Physics I 5

This course covers in detail the analysis of units, physical quantities and vectors, motion, forces and equilibrium, oscillations and waves, gravitation, work, energy, and thermodynamics. This is a first semester course for students who require calculus-based physics such as engineering, chemistry, physics, and pre-med majors. Three hours of lecture, one hour of recitation and two hours of lab per week. *PreReq: MAT 110 may be taken concurrently*

PS 216 College Physics II 5

This course continues PS 215 and includes the study of electricity, magnetism, electromagnetic induction, electromagnetic waves, optics, and atomic and nuclear physics. This is a second semester course for students who require calculus-based physics such as engineering, chemistry, physics, and pre-med majors. Three hours of lecture and one hour of recitation and two hours of lab per week. *PreReq: PS 215*

PSY 101 General Psychology 3

This general survey course provides a broad background in the principles and applications of scientific psychology. The course will focus on the principles and proponents of psychological theories and methods of scientific inquiry, as well as the biological basis of behavior, including physiology of the brain and nervous system and the accompanying sensory systems and perceptual processes. The course also covers learning theories and cognitive processes, theories and applications of motivation and emotion, the major phases of human life span development, and the major theories of personality, including disorders, treatments, therapies, and how human interaction is influenced by the individual, group, and environment.

PSY 202 Child Psychology 3

This course is a study of child development from conception to adolescence. The course will cover the physical, intellectual, emotional, and social aspects of personality. Genetic predisposition and environmental influences will also be reviewed. *PreReq: PSY 101*

PSY 205 Human Growth and Development 3

This course focuses on human development using normative scales for physical, intellectual, emotional, language, social, and personality development. The process of human growth and development across biological beginnings, infancy, childhood, adolescence, adulthood, and end of life will be presented. Environmental and biological influences that affect development are also reviewed.

PSY 206 Social Psychology 3

This course provides a psychological perspective on social behavior and the processes involved in being a member of a social group. Social psychology is the scientific study of how people think about, influence, and relate to one another. Topics include self-concept, perception, attitude, social influence, conformity, persuasion, prejudice, group influence, and pro-social behavior. The individual as a member of a group and society is a central component of this course. *PreReq: PSY 101*

indicates a technical course

PSY 280 Health Psychology 3
This course examines the psychosocial factors relevant to general health. The course will cover the contributions of psychological theory to the encouragement of health and wellness and prevention of physical illness. Course topics include stress management, theories of pain and pain management, and evaluation of health related research. *PreReq: PSY 101*

PSY 290 Abnormal Psychology 3
This course is a study of emotional and behavioral disorders. Abnormal Psychology focuses on the description, causes, and treatment of abnormal behavior patterns. Classifications of disorders according to the DSM-IV, such as mood disorders, anxiety disorders, psychotic disorders, and personality disorders will be presented. Methods of treatment, specifically psychotherapies and biomedical therapies, will be discussed. *PreReq: PSY 101*

RM 100 Security & Loss Prevention 3
This course is designed to provide a comprehensive overview of security and loss prevention. The course will focus on loss problems and those countermeasures that protect against crimes, fires, and accidents.

RM 110 Risk Assessment 3
This course is designed to provide a comprehensive overview of the risk management process. The course will focus on loss exposures that organizations face and will cover the quantitative foundations needed for assessing the importance of loss exposures and forecasting their effect.

RM 111 Investigations in the Workplace 3
This course is designed to provide a comprehensive overview of the investigative process. The course explores the methodology, rationale, and practices involved in effective workplace investigations.

RM 112 Security & Loss Prevention II 3
This course examines security and loss prevention challenges associated with specific areas and industries. The course will focus on loss problems and those countermeasures that protect against crimes, fires, and accidents. *PreReq: RM 110*

RM 114 Risk Control 3
The course is designed to provide a comprehensive overview of the risk control process, including the techniques and measures available to control the risks from property, personnel, liability, and net income loss exposures. *PreReq: RM 110*

RM 115 Prevention and Assessment Workplace Violence 3
This course is designed to provide a comprehensive overview of the prevention, assessment, and intervention of workplace violence.

RM 116 Safety I 3
This course is designed to provide a comprehensive overview of the safety responsibilities associated with a risk management professional. The course will focus on general industry: officers, retailers, manufacturers, and industrial facilities that do not have special technical safety concerns.

RM 117 Foundations of Information Systems Security and Loss Prevention 3
This course is designed to provide a comprehensive overview of information systems security. The course will focus on establishing and managing an information system protection program.

RM 200 Risk Finance 3
The course is designed to provide a comprehensive overview of the risk financing process, including the techniques and measures available to finance the risks from property, personnel, liability, and net income loss exposures. *PreReq: RM 114*

RM 201 Safety II 3
This advanced course is designed to provide a comprehensive overview of the safety responsibilities associated with a risk management professional. The course will focus on general industry: officers, retailers, manufacturers, and industrial facilities that do not have special technical safety concerns.

RM 202 Risk Communications 3
This course is designed to provide a comprehensive overview of the risk communication process. The course will cover care, consensus, and crisis communication as it relates to environmental, safety, and health issues.

RM 204 Risk Quality 3
This course is designed to introduce the risk management professional to quality management concepts and tools. The course will cover continuous improvement tools, satisfying internal customers, meeting and team development and management, problem solving, survey development, cost/benefit analysis, and audit techniques.

SOC 100 Creating Positive Settings for Children & Families 1
This course will consider how children's mental health is affected by life events, culture, environment, biology and relationships and how these aspects affect understanding and wellness. The course will include how to create safe and nurturing learning environments and strategies for working with families to create a healthy atmosphere for children. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

SOC 101 General Sociology 3
This course provides an introduction to sociology and the basic principles of sociological perspectives, theories, and research methods. The course will focus on the way culture patterns societies and social interaction and how these patterns are transmitted through socialization and social interaction. The course will also cover social stratification systems, social institutions, collective behaviors, social change, and perspectives on how social forces influence human activity and how human activity creates social forces.

SOC 102 Marriage and the Family 3
This course examines the nature, development, functions, and norms of the family in American society as well as in other cultures. The course will focus on courtship, marriage, sexual relations, birth control, male and female roles, kinship, child rearing, divorce, and death in the family.

indicates a technical course

SOC 104 Introduction to Social Work 3
This course provides an introduction to the field of social work. The course will cover the history, mission, values, and activities of social work practice. The course will focus on how social workers interact with a diverse client population and contribute to solving social problems. The knowledge and value base of the profession will also be examined.

SOC 150 Community Leadership 3
This course will focus on leadership skills and community leadership procedures and techniques. The course will emphasize the principles of project management, including design, planning, follow-up, and closure, as well as problem solving, community diversity, and long-range planning.

SOC 150A Community Leadership 1
This course will focus on leadership skills and community leadership procedures and techniques. The course will emphasize the principles of project management, including design, planning, follow-up, and closure, as well as problem solving, community diversity, and long-range planning.

SOC 200 Sociology through Film 3
This course is designed to teach key sociological concepts and topics through the use of cinematic film. The course will examine how social life is presented, distorted, magnified, or politicized in the films. The course will also consider how films not only reflect society but also actually shape social trends and values. *PreReq: SOC 101 and ENG 101 with grade B or higher in both courses, SOC 102 or ANT 112*

SOC 204 Introduction to Nonviolence Studies 3
This course will examine the theory and practice of nonviolence as a method of social change and as a way of life. The course will consider the dynamics of violence and nonviolence within individuals and in terms of global issues that affect the future of the Earth and its life forms. The course will focus on the history of nonviolence movements around the world and on people who have thought about and practiced nonviolence in their lives and work.

SOC 210 Social Problems 3
This course examines a wide variety of social problems in society, including crime, racial discrimination, poverty, drug abuse, disorganization of social institutions, and rapid social change. The course will apply sociological theories to explain social problems and will look at various approaches used to solve these problems. *PreReq: SOC 101*

SP 101 Oral Communications 3
The purpose of this course is to develop the understanding and skill necessary for meaning-oriented oral communication. This course focuses on becoming a more effective critical listener and communicator and includes both interpersonal and public communication.

SP 105 Interpersonal Communication 3
This course is designed to improve student effectiveness in small-group and one-to-one communication.

SP 106 Public Speaking 3
The purpose of this course is to increase student understanding of the principles and applications of public speaking through analysis and practice in communication theory, topic selection, audience analysis, research, use of support materials, content organization, presentation, and evaluation.

TH 103 Theatre Practicum I 1
This course is designed to provide practical experience as a member of a theatre production crew. Crew members may work in several technical or production areas, including stage management, costumes, set design and construction, lighting, sound, properties, house management, and publicity.

TH 104 Theatre Practicum II 1
This course continues TH 103 and is designed to provide additional practical experience as a member of a theatre production crew. Crew members may work in several technical or production areas, including stage management, costumes, set design and construction, lighting, sound, properties, house management, and publicity. *PreReq: TH 103*

TH 105 Introduction to Dramatics 3
This course will provide a thorough survey of the basic elements of theatre and the dramatic arts.

TH 106 Play Production 3
This course provides an introduction to the elements of play production. The course will cover planning, management, and technical aspects of play production and will include practical experience working with College productions.

TH 108 History and Appreciation of Theatre Art 3
This course is designed to provide an introduction to the development of theatrical presentation from antiquity to the modern stage. The course will examine direction, management, design, and performance. Representative dramatic productions will be viewed to provide insight into the historical development and artistic values of theatre.

TH 109 Fundamental Style and Principles of Acting 3
This course provides an introduction to the basics of acting and is geared towards students with little or no performance experience. The course will focus on rehearsal procedures and techniques, terminology, actor discipline, and public performance.

TH 110 Acting I 3
This course continues TH 109 and provides additional experience in the basics of acting. The course is geared towards students with limited performance experience. The course will focus on rehearsal procedures and techniques, terminology, actor discipline, and public performance. *PreReq: TH 109*

*indicates a technical course

TH 151 Introduction to Stage Lighting 3

This course provides hands-on experience with the tools and theory of stage lighting and basic electricity, including types of lighting instruments, lamps, and plugs, types of lighting control equipment, special lighting effects, mounting productions, use of cue sheets, hanging plots, running orders, and dimmer schedules.

TH 152 Stagecraft I 3

This course provides an introduction to the basic tools and principles of stagecraft. The course will focus on basic tools and their uses, shop organization and maintenance, construction, rigging, and painting. Course participants will be responsible for building, maintaining, and striking sets used in performances.

TH 203 Theatre Practicum III 1

This course continues TH 104 and is designed to provide additional practical experience as a member of a theatre production crew. Crew members may work in several technical or production areas, including stage management, costumes, set design and construction, lighting, sound, properties, house management, and publicity. *PreReq: TH 104*

TH 204 Theatre Practicum IV 1

This course continues TH 203 and is designed to provide additional practical experience as a member of a theatre production crew. Crew members may work in several technical or production areas, including stage management, costumes, set design and construction, lighting, sound, properties, house management, and publicity. *PreReq: TH 203*

TH 206 Acting II 3

This course continues TH 110 and provides additional experience in the basics of acting. The course is geared toward students with some performance experience. The course will focus on rehearsal procedures and techniques, terminology, actor discipline, and public performance. *PreReq: TH 110*

TH 207 Acting III 3

This course continues TH 206 and provides additional experience in acting. The course is geared toward students with some performance experience. The course will focus on rehearsal procedures and techniques, terminology, actor discipline, and public performance. *PreReq: TH 206*

TH 211 Stagecraft II 3

This course continues TH 152 and provides additional experience in the use of basic tools and principles of stagecraft. The course will focus on basic tools and their uses, shop organization and maintenance, construction, rigging, and painting. Course participants will be responsible for building, maintaining, and striking sets used in performances. *PreReq: TH 152*

VIN 111 Intro to Viticulture and Vineyard Establishment 3

This course is designed to introduce students to current practices for establishing a commercial vineyard and maintaining its health and productivity. Topics include varietal selection, site selection, site preparation, equipment, first season establishment, vine growth development and training, trellis systems, vine propagation, weed control, and vine disease control. Field practicum sessions consisting of 16 hours of hands-on experience will be scheduled in area vineyards.

VIN 211 Integrated Pest Management 2

This course focuses on how effective grape production depends on the grower developing a system of grape management that is appropriate for each vineyard. The course will also examine the decisions that need to be made for managing all the normal cultural practices, such as planting, fertility, harvesting, and pruning, as well as managing the insect, disease, and weed problems that occur either regularly or sporadically. The information in this course will address management issues related to common, expected pest problems as well as the occasional appearance of minor pest problems.

VIN 212 Winter Viticulture Technology 2

This course is a study of commercial grape growing in the Midwest United States. Topics include cultivators, vine nutrition, irrigation, canopy management, pests, maturity sampling and harvest, balanced pruning/cropping, and cold injury. *PreReq: VIN 111 or permission*

VIN 213 Midwest Vineyard Management 2

This course is a study of commercial grape growing in the Midwest United States. Topics include cultivators, vine nutrition, irrigation, canopy management, pests, maturity sampling and harvest, balanced pruning/cropping, and cold injury.

VIN 214 Spring Viticulture Technology 2

This course is designed to provide practical experience in spring viticultural operations for students already initiated in the field of viticulture. Students are required to partner with an approved vineyard to participate in the required field experience portion of the course, which will serve as work experience for those seeking employment in commercial viticulture. A minimum of 30 hours of field practicum are required along with a daily journal of practicum experiences. *PreReq: VIN 111 or permission*

VIN 215 Summer-Fall Viticulture Technology 2

This course is designed to provide practical experience in summer/fall vineyard operations for students already initiated in the field of viticulture. Students are required to partner with an approved vineyard to participate in the required field experience portion of the course, which will serve as work experience for those seeking employment in commercial viticulture. A minimum of 30 hours of field practicum are required along with a daily journal of practicum experiences. *PreReq: VIN 111 or permission*

VIN 293 Soils for Viticulture 3

This course will explore soil properties and behavior and their influence on wines. The course focuses not only on growth and production, but also on the long-term effects of viticulture on soil quality and the wider environment.

111

HCC Compliment and Complaint Process

The staff at Highland Community College strives to provide a positive college experience for all students and has established policies and procedures to respond appropriately should that not be the case. The college has established the following Shared Performance Expectations for all staff and students.

·   Be Competent at your Work

·   Communicate Effectively

·   Respect Others

·   Make Good Decisions

·   Act Responsibly

·   Work Effectively in Teams

HCC provides various opportunities on a routine basis for assessment of these expectations. Students and stakeholders of the college are encouraged to let staff members know when things are going well or when they are in need of improvement.

In accordance with the U. S. Department of Education Program Integrity Rule, 34, C.F.R. Part 600.9, HCC has a process to review and respond to student complaints. The college seeks to resolve any and all student complaints in an appropriate and timely manner and adheres to procedures for resolving academic and non-academic concerns. Steps, timelines, and resolution processes are addressed through procedures described in the **academic catalog** and the **student handbook**.

Informal Complaint Process

Online Options

HCC students are encouraged to offer feedback-compliments or complaints- to staff at any time by completing the online **feedback form**.

In addition, students wishing to report violations anonymously may complete the online **Silent Witness Report**.

Face-to-Face Options

Students who wish to issue a complaint regarding a matter associated with Highland Community College are encouraged to begin with an informal process by discussing the matter with the faculty or staff of the department where the issue originated and only escalating it to their supervisor or vice president if not resolved. In most cases, complaints may be resolved through this informal process. The general divisions of the College are as follows:

Athletics-Overseen by the **Director of Athletics** and deals with issues surrounding all athletic teams and NJCAA eligibility issues.

Academic-Overseen by the **Vice President for Academic Affairs** and deals with issues arising in the classroom, online, and with faculty members.

Student Services-Overseen by the **Vice President for Student Services** and deals with issues arising in housing, financial aid, registrar, advising, Student Support Services, security, admissions, student conduct, and information technology.

Finance and Operations- Overseen by the **Vice President for Finance and Operations** and deals with issues of billing statements, third party payments, payment plans, and maintenance.

Formal Complaint Process

Complaints that remain unresolved after following the informal complaint process may be addressed by filing a formal complaint. Students or others needing assistance with the filing of any form should contact the Vice President for Student Services office at 785.442.6020 or **vpstudentservices@highlandcc.edu**.

Discrimination, Harassment, or Gender-Based Misconduct Form (Title IX)

Incident Reporting Form (academic misconduct, concerning or threatening behavior, or someone violating the rights of another person on campus)

Grade Appeals Process-Please refer to the **HCC Student Handbook**.

Unresolved Complaints

Complaints that have not been resolved through the informal or formal process may be addressed to the Highland Community College Board of Trustees. These should be addressed to the HCC Board of Trustees Chairperson, 606 West Main, Highland, KS 66035 or emailed to **hccboardchair@highlandcc.edu**.

The written complaint should include the following information:

1. Name, current mailing address, phone number of complainant

2. Email address

3. Dates of your enrollment

4. Details of your complaint

5. Expected outcome

The Board will reply to you within 10 business days to let you know they have received your complaint and whether it requires any additional information. The Board will let you know their tentative plan for investigating and resolving the complaint, and will update you if it takes longer than originally planned. The Board will send you a written response, usually within 45 days of receipt of your complaint, explaining the investigation and the resolution.

Additional Resources

Consumer protection and/or fraud complaints may be filed with the **Kansas Attorney General's office**.

Discrimination complaints may be filed with the **Kansas Human Rights Commission**.

Complaints regarding State Authorization Reciprocity Agreement (SARA) courses delivered by SARA member community colleges may be filed by students enrolled in those courses with the **Kansas Board of Regents office**.

Kansas Community Colleges are regionally accredited by the North Central Association of the Higher Learning Commission on Colleges and Universities (NCAHLC). Complaints regarding an institution's ongoing ability to meet the Criteria of Accreditation may be filed by following the guidelines at the **Higher Learning Commission**.

Date	Student/ Parent/ Employee/Other	Reason for this for form	Department Feedback	Briefly describe the situation	What steps have you taken to resolve this concern	What do you consider a satisfactory resolution to your concern	Name	Phone	Email	Notes
1/14/2015	Other	Suggestion	The website has a link for online degree programs listing an Associates in Medical Coding and a certificate in Medical Coding but the links go to the same document. There is no document available for the certificate in Medical Coding.				**All names and contact information have been removed for public posting of this document.**			
1/16/2015	Student	Complaint		As a past student and potential current student of Highland who is pursuing a BFA from Emporia currently requesting to take a calss in my hometown to avoid commuting 3 days a week to Emporia to take the same class I am already accepted to at I am not pleased with your school. I am a 3.76 GPA nontraditional student in my final semester who requested to take the Alegbra class in Holton. I am already enrolled to take it in Emporia but it is a 100 mile each way commute and I try to limit my travel. I was willing to pay for the class up front out of pocket. Had made arrangements for tutoring on weekends to ensure my success and was denied an exception because of my score on the entrance test. This exception was already made at my current school because I have proven myself. I provided a copy of my transcripts, received an allowance from the instructor and was denied by the interim director under the reasoning that they dont want me to fail. My husband and I planned to take this course together in Holton and share the tutoring time as he is a student at Washburn and would also be requiring the class. As an adult who is offering to pay for the class and who has made arrangements for extra instruction as well as taking the time to receive an exception from the instructor I see no reason why you would turn us away. Please explain.	Student can't move to college algebra based upon that score. If she wants to take the placement test again, we will offer that option for free as a remedial step and good faith effort.	Simply take our money and enroll us in the class				

11/3/2015	Parent	Complaint	Housing	If you tell me on your form that I can pay online if I go to highlandcc.edu to pay for my childs class........then I expect you to make it easy for me. Where do I go to pay for my childs class?					
11/3/2015	Employee	Suggestion	Athletics	A friend asked when the basketball season started. I went to our website and we're still posting the 2013 calendar.					
11/3/2015	Student	Suggestion		I called the main office today to ask why I haven't received a bill yet for my fall semester. Your recorded message gave me the summer office hours, so I know why my 1:30pm call was greeted by a recorded message, which I appreciate. However, it would be a nice added feature if your answering service also gave the caller the option of leaving a recorded message					
11/3/2015	Other	Suggestion		This is about your commercial. The music on it is so slow and mournful--all it does is make me sad! I know that my mom feels the same. I don't know if others do or not. Just a suggestion-- maybe a happier or at least peppier tone??	We have had good feedback on that commercial, especially the music.				
11/3/2015	Other	Suggestion	Academics	There is no place for listing of job vacancies or application for employment. I suggest that you correct this deficiency.					
11/10/2015	Student	Complaint		Food at the tech center in Atchison ks is not appetizing. It's provided by Mr. G's but a lot of it I would not eat. Along with some other students we eat out because it's not good. One day we had a loaded baked potato for lunch… That's all..	Forwarded to [Technical Center Director]: acknowledged some days are not as good. Tried a loaded baked potato- some like that, others did not.	Better more appetizing food and no just a potato to eat			

2/4/2016	Student	Complaint		We have been finding a lot of hair in our food. This makes me never want to eat at the café and is a waste of money on my meal card. Please get this problem fixed as I'm not the only one who has had issues with this. Lots of complaints about it recently.	The Food Service Manager will make her employees more aware. She had a meeting with both her day crew and night crew. She asks that any future occurrences be brought to her attention immediately. If unable to do so, we recommend taking that food immediately to [the VP for Student Services's] office in Student Services. If hair is found at night, simply wrap it in napkins/ small bowl and bring it to the office in the morning.					
2/28/2016	Student	Complaint		I went to get tutoring from the SSS Math Specialist, and she didn't know what she was doing. I sat there for 2 hours and we tried the problem 5 different ways. Eventually, I ended up figuring the problem out by myself because she left to help someone else.	The supervisors will visit with the Mathematics Specialist about her thoughts on helping multiple students at the same tie, and if she is encountering any situations where she is not able to help a student. She will not know your identity. Once they have her perceptions, they will point out ways for her to get better without citing your experience.					

Date	Role	Type	Department	Feedback	Response				
3/29/2016	Parent	Complaint	Admissions	This complaint is for both [individuals] in the registration office. They told me everything they "could not do for me". Not one time did they offer any help. I asked and pleaded with them several times to help me. By electronically sending my son transcript to Hutch Comm College. Both of them was short with tone on why they could not electronically send my son transcript. [The Registrar] even quoted Federal Law on why she could not. I make nine dollars and hour and have been making monthly payments and I don't understand why not one of them could say, "let me help you". All I received was negativity and tone. Thanks, [a student's mother]. My son is [name and ID removed]. Please send transcript ASAP.	The transcript has been sent. [Registrar's Office staff] are aware of the effects of perceived negative voice tones.				
9/19/2017	Student	Complaint	Advising	This is my last semester at Highland. I've attended since 2015. Every single time I email [the Director] I either never get a response or have to resend my email several times before she responds. She is no help whatsoever. And from my understanding is the only advisor at the [regional] center now since [another advisor] left. Which is unfortunate.	[This Director] was contacted by Craig Mosher about the importance of responding in a timely fashion to students. She is going to email her staff to remind them of the importance of meeting our student's needs. [The Director] will be sending an email and distributing flyers across campus about the advising options available to students at the [Regional] Center.

Affirmative Action/Equal Opportunity Statement
Highland Community College does not discriminate on the basis of race, color, religion, national origin, sex, age, disability, marital status, or military status, or military veteran status as defined by law, in employment, admission, or operation of its educational programs and activities, as prescribed by Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Executive Order 11246, as amended, sections 503 and 504 of the Rehabilitation Act of 1973, the Vietnam Era Veteran's Readjustment Assistance Act of 1974, The Age Discrimination Acts of 1974 and 1975, and other federal and state laws and regulations. Inquiries concerning the application of these laws and regulations to the College may be directed to the College's affirmative action officer, or the Director, Office of Civil Rights, U.S. Department of Education, Washington, D.C. 20201.

Content and Disclaimer
Currently the HCC website represents the curriculum, educational plans, offerings, and requirements that may be altered from time to time to carry out the purposes and objectives of the College. Highland Community College retains the right to cancel or change programs or course offer-ings when enrollments are insufficient to continue them on an educationally sound and/or economically efficient basis.

Highland Community College expressly reserves the right to:
1. Add or delete courses from its offerings
2. Change times or locations of courses or programs
3. Reassign or substitute instructors
4. Change academic calendars without notice
5. Cancel any course for insufficient registration or other reasons
6. Revise or change tuition, rules, charges, fees, schedules, courses, requirements for degrees
7. Revise or change policies or regulations affecting students
8. Revise or change evaluation standards

The electronic catalog is updated periodically and represents the current legal document, available at **highlandcc.edu/pages/catalog_1.**

Revision of Regulations
Any regulation adopted by the Board of Trustees or the administration of Highland Community College subsequent to the printing of this catalog shall have the same force as a printed regulation within the website. The new regulation shall supersede any ruling on the same subject, which may either appear in the printed website or in official bulletins of the College.

Photo and Videotape Policy
The HCC Office of Institutional Advancement takes photographs (still and video) of students throughout the year. These photographs often include students in classrooms, study areas, attending athletic events, etc. HCC reserves the right to use these photographs as a part of its publicity and marketing efforts. Students who enroll at HCC do so with the understanding that these photographs might include their likeness and might be used in College publications, both printed and electronic, for recruiting and advertising purposes.

Academic Calendar
The academic calendar is located at **highlandcc.edu/pages/calendar** . This may be altered or changed to carry out the purposes and objectives of the College. Highland Community College retains the right to cancel or change events listed without notice.

Mission Statement
HCC, the first college in Kansas, provides lifelong learning opportunities and contributes to economic development to enhance the quality of life in the communities we serve.

Vision Statement
Highland Community College is recognized as the college of choice in Northeast Kansas.

History of Highland Community College
Highland Community College was chartered as Highland University by the Kansas Territorial Legislature on February 9, 1858, making it the first college in Kansas and two years older than the state itself. Begun as part of the Presbyterian mission to area Indian tribes, the College evolved through eight name changes and a variety of support structures to today's public regional community college serving a nine county service area in Northeast Kansas.

The history and mission of the College can best be described as providing opportunities for higher education that citizens in the region would not have had otherwise. Whether as a conduit to a four-year degree, for professional enhancement, a variety of technical career opportunities or personal development, the College provides affordable access to higher education in Northeast Kansas.

Today, the College is financially sound and serving more students than any time in its history. The College is governed by a six-member Board of Trustees elected from Doniphan County and is coordinated by the Kansas Board of Regents.

Degrees and Certificates
Highland Community College offers associate degrees and certificates of achievement in specialized areas. The associate degrees are: Associate in Arts, Associate in Science, Associate in Applied Science, Associate Degree in Nursing, and Associate in General Studies. Students have a choice of over eighty programs, including technical certificates and degrees. Degree and certificate planning forms begin on page 20 of this catalog.

HIGHLAND COMMUNITY COLLEGE

Concurrent
Highland's Concurrent Program provides high school students in the HCC service area the opportunity to expand their curriculum by enrolling in concurrent courses. Highland courses taught at the high school have the identical course content of courses offered on campus, online, and in regional centers. Classes are evaluated by the Director of Concurrent Enrollment and the Vice President of Academic Affairs before being implemented at the high school. The course instructor must meet the Kansas Board of Regents (KBOR) criteria prior to teaching a concurrent course.

The Kansas Board of Regents (KBOR) encourages high school students to take advantage of postsecondary educational opportunities by enrolling in college courses while still in high school. The statute is known as Concurrent Enrollment of High School Students in Eligible Postsecondary Institutions. Taking college classes in the high school setting is a great opportunity for high school junior and seniors in good standing to experience college while they are still in high school. Students who choose the Concurrent Program learn first-hand the demands of going to college. They experience the process of enrolling in college classes and get a feel for the costs associated with college: tuition, fees, and textbooks. The Concurrent Program experience eases a student's transition from high school to college and provides academic enrichment to students who are ready for the challenge of college course work. Highland classes are offered at affordable rates when compared to state universities, and students enjoy accessibility to instructors within small classroom settings.

Interactive Distance Learning (IDL)
The IDL system allows students to complete courses being taught at other HCC sites without having to travel to that location. Through a TV, camera setup, and microphone, students are able to physically attend class at one location and fully participate and interact with the instructor and classmates located at other sites. Instructors utilize lecture, board work, videos, and computer sharing to provide a high-quality learning environment.

Hybrid
Hybrid classes combine face-to-face classroom learning with computer-assisted online learning. Time in a hybrid course is divided between classroom learning activities and online classroom participation in the HCC Online platform. Students benefit from the quality instruction delivered through different modes and the flexibility of both the online and classroom learning environments through independent and collaborative work.

Online
The College has an active online program which offers courses in 8-week and 16-week sessions. Several degree programs are available entirely online, offering students the

opportunity to pursue their educational goals, such as earning transfer credit or achieving personal and career growth. Online courses are an excellent option when attending college in a traditional classroom is not convenient. Courses taught in the online format meet the same competencies as those in a classroom, yet fit the student's schedule.

Regional
The College serves nine counties in Northeast Kansas. The five regional centers are: Atchison, Holton, Perry, Wamego, and Western Center in Baileyville. All administrative services for students -- advising, placement testing, and enrollment are available at each regional center and online. The College continues to offer college courses during the day, evening, and weekend at over thirty existing community sites, including high schools and community education centers.

Adult Basic Education/General Educational Development (ABE/GED)
The Highland Community College Adult Education Program offers free services to students 18 years of age and over and 16 and 17 year olds not currently enrolled in school (with a "Compulsory School Attendance Disclaimer" form) in Northeast Kansas.

New students may enter the program at appointed times throughout the year. Pre-tests are given to help determine the level at which students begin study. Further testing is used to determine when a student is ready to take the General Educational Development (GED) test. More information available at **highlandcc.edu/pages/adult-education-programs.**

Placement Testing
Highland Community College provides placement testing for incoming students who have no ACT or SAT scores to determine placement in English, reading and mathematics. HCC currently administers the Work Keys and Accuplacer. Students may contact any location to set up an appointment for assessment. Multiple attempts on assessments cost $25.00 each. Work Keys Assessments are available at the Technical Centers for students applying for technical programs. The Work Keys assessments cost $10.00 each for reading and mathematics.

Outcome Assessment
Assessment of student learning is a critical component of the College's mission. Students who graduate with the Associate in Arts (A.A.) or Associate in Sciences (A.S.) degree complete an assessment of general education competencies. Students who earn an Associate in Applied Science or Technical Certificate complete an exit exam specific to their program or discipline.

Student Handbook
Highland Community College annually publishes a Student Handbook with information about Student Conduct, Notification of Non-Discrimination, Campus Policies, Security, Sexual Harassment, Student Grievance, Directory Information and several other student related categories. Please consult the Student Handbook at **highlandcc.edu/pages/handbook.**

Student Accidents and Losses
Although the College exercises reasonable precautions, it can assume no responsibility for accidents to students that may occur incidental to attendance at, or participation in classroom, laboratory work, intramural or intercollegiate activities. The College does not accept responsibility for any personal property lost, stolen, or misplaced.

Student Identification Cards
At registration, new students receive an identification card that is good for their period of enrollment at Highland Community College. The identification card is important because it is the student's permit to enter the College buildings, one of the requirements for checking out books and accessing electronic information in the Library, an admittance card to many student activities and College events, meal plan access, and it allows benefits such as reduced rates at plays, concerts and other public events. A fee of $5.00 will be assessed for replacing a lost identification card.

Admissions
Students who meet the requirements listed below may be admitted to Highland Community College. Admission to the College does not ensure entrance into a particular course or program of study. An application for admission can be found at **highlandcc.edu/pages/online-application** on the HCC website or by contacting the Admissions Office at (785) 442-6020.

Rights of the College
The College reserves the right to deny a student admission or readmission if considered detrimental to the best interests of the college community or if the College is unable to provide the services, courses or program(s) needed to assist the student in meeting educational objectives.

Regular Student Admission
Any applicant who has graduated from an accredited high school or has successfully passed the General Educational Development (GED) examination is eligible to enroll at Highland Community College. If the applicant meets neither of these requirements, admission as a special student should be sought.

All students applying for regular admission must:
- Complete an application for admissions at **highlandcc.edu/pages/apply**
- Submit a current high school or GED transcript and a complete official transcript upon graduation.
- Submit official college transcripts from each college attended.
- Submit ACT/SAT scores OR arrange to take appropriate placement test.
- Comply with Tuberculosis Screening Requirement (excludes online only students). See "Additional Admissions Requirement for Face-to-Face Classroom Settings."

Regular students are eligible to receive federal financial aid and may earn a certificate and or degree, and may be eligible to compete in intercollegiate athletics. International students are not eligible to receive federal financial aid.

Note: *Students not submitting all official transcripts from all previously attended institutions prior to completion of entering term will be changed to "Special Student" for the next term and not be eligible to receive federal financial aid.*

Special Student Admission*

A person may be admitted to Highland Community College as a special student if the student meets one of the following criteria:

- Is not seeking an approved certificate or degree from Highland.
- Is taking classes for personal enrichment.
- Is a high school/home school sophomore, junior or senior with permission from the high school/home school administrator.
- Is a high school/home school student enrolled in approved gifted program with permission from the high school/home school administrator.
- Is taking classes to transfer to another school.
- Comply with Tuberculosis Screening Requirement (excludes online only students). See "Additional Admissions Requirement for Face-to-Face Classroom Settings."

Special students are not required to submit transcripts, are not eligible for federal financial aid and most institutional aid, are not eligible to earn a certificate or degree from Highland, and are not eligible to complete in intercollegiate athletics. Student services will be available upon the student's request. For purposes of placement, special students may be required to submit placement scores, college transcripts, or be assessed prior to enrollment. Special students taking face-to-face classes must comply with "Additional Admissions Requirement for Face-to-Face Classroom Settings."

Changing Status from Special Student to Regular Student

Concurrent Students and other Special Students who wish to change their status from special student to regular student must contact the Highland Campus Admissions Office at admissions@highlandcc.edu.

Transfer Students

A transfer student must meet all of the regular student admissions requirements. HCC reserves the right to determine which transfer courses will fulfill graduation or departmental program requirements. A maximum of forty-seven (47) credit hours may be transferred to HCC and applied toward a degree, including hours transferred from other institutions as well as qualifying CLEP test credits.

Prior to registration, students transferring to HCC are required to submit official transcripts of all credits earned at other institutions. The Registrar will evaluate successfully completed coursework from accredited institutions. If accepted as satisfying degree requirements, these transfer hours will be counted towards graduation and will be counted in the calculation of the GPA. A transfer student must complete sixteen (16) credit hours at Highland Community College to be eligible for graduation.

Repeating a Course

Highland Community College will transcript both the original and any repeated course. The highest will be used in computing the cumulative grade point average.

International Applicants

For purposes of admission, international applicants are defined as all persons who are not citizens nor permanent residents of the United States. An international applicant must meet ALL of the following requirements.

1. Submission of an HCC application for admissions **highlandcc.edu/pages/apply (at least two months prior to the beginning of the semester for which application is being made).**
2. Submission of official transcripts from all secondary schools and universities attended. Student must have a 3.0 minimum GPA on a 4.0 scale in secondary school.
   a. If English translation is needed: Students must have their foreign credits evaluated by an accredited, independent agency such as: World Education Services (wes.org), Educational Perspectives (educational-perspectives.org), or Educational Credential Evaluators, Inc. (ece.org).
   b. If English translation is not needed: Transcripts must be mailed, faxed, or emailed directly from the institution to HCC Student Services, 606 W. Main, Highland, KS 66035 Fax: 785-442-6106 or Email: admissions@highlandcc.edu

3. Submission of evidence of the ability to communicate in English, which will permit reasonable academic progress, through the following methods:
a. Completion of a minimum of 15 weeks in an approved Intensive Language Center OR
b. A score on the Test of English as a Foreign Language (TOEFL) of one of the following:
   ·500 (paper-based)
   ·173 (computer-based)
   ·61 (internet-based)
c. A score on the International English Language Testing System (IELTS) of 6.0
4. Submission of the affidavit of support form and a bank statement dated within 6 months of the start of the semester.
5. Payment of $150 housing deposit and signed housing contract for HCC campus housing or provide written verification from a sponsor living within 30 mile radius of Highland campus or other HCC regional site the student is planning to attend.
6. Payment of $100 I-20 processing fee, which is credited toward fees in the semester for which the I-20 is issued.
7. Provide a copy of current passport (photo identification).

Before receiving F-1 visa, student must pay the $200 SEVIS fee for the I-901 document online at ice.gov/sevis/i901.

After Arriving at Campus

8. Provide proof of adequate health insurance, which includes coverage for medical evacuation, repatriation, and medical coverage while in US.
9. Provide copy of F-1 Visa to Student Services Office.
10. Students, who are not citizens of the United States and come from TB endemic countries as defined by WHO Global TB database, are required to have a TB skin test (known also as a PPD) upon arrival on campus.

International Student Admission-Special Student

International students whose I-20 is held by another college or university may take up to 9 hours per semester at Highland Community College and may be admitted as a Special Student after the following are provided:

1. Submission of an HCC application for admissions **highlandcc.edu/pages/apply**
2. Letter (on official letterhead) from the PDSO or DSO of the SEVP university or college holding the I-20, stating that the student is maintaining their immigration status.
3. Copy of the I-20 form.
4. TB test (if applicable). Special students taking face-to-face classes must comply with "Additional Admissions Requirement for Face-to-Face Classroom Settings."

Selective Admissions Policy

Admission to Highland Community College does not guarantee acceptance and/or enrollment in the following programs. Additional admissions requirements are required:

Practical Nursing (PN)

Students are required to be a CNA (certified nursing aide) and take the following hours prior to entering the PN Program:
• Human Growth and Development-3 credit hours
• Human Anatomy & Human Physiology with lab - minimum of 5 credit hours. (There is a 7 year expiration date. If over 7 years, please contact the Nursing Department.)
    o BS104 Human Anatomy with lab- 4 credit hours
    o BS105 Human Physiology with lab- 4 credit hours

PN students begin classes each August and finish in May. Application materials (Nursing Program Application; Test Results; Transcripts; etc.) are due by April 1 each year. Forty students are accepted into the PN program each year. Students should contact the nursing department to obtain an informational packet with comprehensive application requirements by emailing Nursing@highlandcc.edu

Applicant's file must contain the following in order to interview:
1. Application with correct major/program and semester (select practical nursing and fall.)
2. Teas V Test: Minimum average score of 58.7%. Bring photo ID, arrive 15 minutes prior to start time, plan on two plus hours, fee is $65. Call (913) 367-6204, ext. 138 for open test dates

3. Work Keys Scores: Level 5 for Math and level 6 for Reading. Plan on two plus hours for these tests. Fee is $12 for each test for a total of $24.
4. CNA certification in Kansas or its equivalent if from another state. This must be current.
5. Proof of graduation from high school or completion of GED.
6. Letter of reference (form provided in information packet) from most recent employer that recommends applicant.
7. Transcripts verifying C or better grades for these college courses: Anatomy & Physiology (minimum of 5 credit hours with lab) and Human Growth and Development (3 credit hours).

The Selection Process is Point Driven:

An applicant's file is complete when items 1-7 are in his/her file. Applicants whose files are complete are scheduled for the group interview around April 1st. As part of the interview, applicants will be given points for punctuality, attire, and the writing sample. A point system is used to determine the best qualified applicants who are then sent letters of acceptance. These individuals must respond to their acceptance letter by the date indicated in the letter. Failure to return the acceptance by the date provided will result in the loss of a position in the class.

Additional Points Award for the following: CNA (<6 month), CMA, College English, College or Intermediate Algebra. All application materials must be in the nursing office by April 1. Applicants will be directed as to how to obtain a criminal background check and a drug screen in the acceptance letter. Nursing applicants must be 18 years old by graduation from the Practical Nursing Program and able to perform the physical and mental activities required of nurses.

LPN to RN Completion Program (Associate Degree in Nursing)

Must have an active LPN license. In addition, the following prerequisites are required:
• Human Growth and Development - 3 credit hours
• Human Anatomy and Human Physiology with labs - minimum of 5 credit hours. (There is a 7 year expiration date. If over 7 years, please contact the Nursing Department.)
    o BS104 Human Anatomy with lab - 4 credit hrs
    o BS105 Human Physiology with lab - 4 credit hrs
• General Psychology - 3 credit hours
• Microbiology with lab - minimum of 4 credit hours. (There is a 7 year expiration date. If over 7 years, please contact the Nursing Department.)
    o BS 203 Microbiology with lab - 5 credit hours (BS 101 prerequisite)
• College English I - 3 credit hours
• College English II or Public Speaking or Oral Communications - 3 credit hours
• Computer Literacy Elective - 1 credit hour
• Humanities and Fine Arts Elective - 3 credit hours
• IV Therapy Certification
• CPR Certification - American Heart Association BLS for Healthcare Providers

Students must make application to the program by September 1 meeting all application requirements. Students should contact the nursing department to obtain an informational packet with comprehensive application requirements. The program begins in the spring semester and finishes after the summer semester. Twenty students are accepted to the program each year.

Kansas Army National Guard and Reservists
Members of the Kansas Army National Guard can attend Highland Community College under an agreement between the Kansas Army National Guard and Kansas community colleges. The agreement allows Guard members to transfer military training and experiences under the recommendations of the American Council of Education (ACE) to Highland Community College and to gain credit through the College Level Examination Program (CLEP).

Generally, the Guard member must earn a minimum of sixty-three credit hours of which sixteen (16) hours must be in residency (on campus, regional site, or online) at Highland Community College. Guard members must earn the sixteen hours within two years of their graduation date.

**Additional Admissions Requirement for
Face-to-Face Classroom Settings**
In compliance with Kansas Statute KSA 2009 Supp. 65-129, the College has instituted a tuberculosis prevention and control policy for students. All students applying for admission to Highland with classes in a classroom setting at Highland Community College or at one of its regional sites will be required to complete a Tuberculosis Screening Questionnaire. Very Important: A yes response to ANY of the five questions on the questionnaire will classify the student in a "high risk" tuberculosis category as defined by the Kansas Department of Health and Enrollment guidelines. These students will be required to complete a Tuberculosis Assessment at the local health department or medical clinic prior to attendance in a college classroom. Students who do not comply with this requirement will not be able to enroll in face-to-face classes.

Credit by Assessment
Highland Community College accepts College Level Examination Program (CLEP) credits by examination. The CLEP permits students of any age or education level to gain college credit, following satisfactory completion of CLEP examinations. Highland Community College serves as a testing center along with other community colleges, colleges, and universities around the United States.

College-Level Examination Program (CLEP)
CLEP exams offered are sufficiently challenging to an individual who has a significant background in the subject area. Study guides with sample test questions are available online at **collegeboard.com.**

Highland Community College is a CLEP Open Test Center. This means that the CLEP Coordinator will administer the CLEP examinations upon receipt of the completed "Request for College Credit" form and fees from the individual requesting the service. However, students seeking a degree program from HCC are reminded to review institutional policies concerning CLEP credit and confer with the Registrar for permission to test. More information at **highlandcc.edu/pages/clep-testing.**

Registering for CLEP Exams
1. Obtain a "Request for College Credit" form, from the Testing Coordinator.
2. Discuss taking a CLEP examination with the Registrar. If approved, then the Testing Coordinator and the Registrar must sign the "Request for College Credit".
3. Schedule a date and time with the Testing Coordinator to take the test.
4. On test date, take the completed "Request for College Credit " form and two checks: One payable to CLEP for the amount of the exam(s) and one payable to Highland Community College for the amount of the administrative fee. Credit cards are accepted. (English Literature and American Literature ONLY require additional fees.)

HCC "CLEP" Policy <u>Subject Examinations</u>
1. The Registrar must grant approval for a student (those seeking a degree from HCC) to take a subject level exam on the basis of an interview.
2. A passing score on the examination shall be the mean score achieved by "C" students in the national norm sample.
3. Sixteen (16) semester hours of credit is the maximum allowed toward a degree program through CLEP. Credit can be used to meet course requirements in a major field of study, general studies program or other appropriate areas.
4. CLEP credit earned does not count toward course load in any term.
5. Students who fail a course offered by Highland Community College cannot be approved for a CLEP subject examination covering similar content.
6. Subject examinations may be repeated with written authorization obtained in advance from the College Entrance Examination Board (CEEB), once within a 12-month period but no sooner than six months after the student was last tested.

Highland Community College will accept CLEP credit for the following courses (following page) if the scores meet the minimum score required for each course. Minimum scores are the credit-granting scores recommended by the American Council on Education. No more than sixteen (16) credit hours of CLEP credit will be accepted at HCC. A student's transcript will designate all credits earned through CLEP.

College-Level Examination Program (CLEP) Guidelines for Awarding College Credit for CLEP Subject Examinations

Subject Examinations	HCC Course Equivalent	Minimum Acceptable	Amount of Credit Awarded
American Government	POL100	50	3

General Information
A normal full-time class load consists of twelve (12) to eighteen (18) credit hours. Students enrolled in fewer than twelve (12) are considered part-time students. Students may register for up to eighteen (18) credit hours per semester (or 12 credit hours over an 8 week summer session or 6 hours over a 4 week summer session). Students wishing to enroll in more than eighteen (18) credit hours must obtain approval. Visit the website at **highlandcc.edu/pages/request-for-overload** for the overload approval form. All tuition and fees are due at the time of registration.

Registration Procedure
Class schedules are located on our website at **myhcc.highlandcc.edu/SelfService/Search/SectionSearch. aspx** Dates and hours published are set by the College. Questions concerning enrollment should be directed to the Student Services, regional or online offices.

Enrollment is available when the class schedule is open and posted, to current students, in good academic standing: Available for new students that have submitted all required admissions documents; official transcripts, and have been accepted. Enrollment is available for all students on a first-come, first-serve basis.

Placement Testing
Entering freshmen are encouraged to take either the ACT or SAT assessment prior to registration. Students who have not taken the ACT or SAT assessments will be required to take the Work Keys and Accuplacer assessment in mathematics, English, and reading. All campus students will be assigned an advisor who will use these scores to place students in the appropriate level course(s). Regional and online students will be advised and assessed based on their assessment scores.

College Success and Orientation Classes
College Success and Orientation classes are scheduled to introduce all new students to the programs and requirements of the College. Attendance is mandatory. These sessions are specifically organized to help answer questions about admissions, registration, enrollment, and program planning. All new Highland Community College students are required to complete AB114 Agriculture Orientation (2 credit hours) or COL 103 College Success and Orientation (1 credit hour). Orientation is a graduation requirement.

More facts about orientation:
1. Students must take the course before enrolling in the twenty-fifth (25) credit hour.
2. Students transferring more than thirty (30) hours into Highland Community College are not required to take orientation.
3. Students who have already taken a similar course are not required to take orientation.

Current Tuition and Fees
The HCC tuition and fees are in compliance with the laws of the state of Kansas and adopted by the Highland Community College Board of Trustees. These are subject to change at any time by the Board of Trustees. To determine the amount due from semester charges, Highland Community College will total all charges (tuition, all fees, room and board) and subtract verifiable financial aid (Pell, SEOG, loans, scholarships) and advance payments. If the student has a prior semester balance due that student will not be allowed to enroll until the prior semester's balance is paid in full. All tuition and fees are payable at the time of registration. Payment may be made with cash, check, or credit card (MasterCard, Visa, Discover). For the most current tuition and fees, please refer to the College website at **highlandcc.edu/pages/tuition-costs**.

Payment Plans
Highland Community College offers payment plans as yet another way to make college more affordable. This payment plan is administered by Nelnet Business Solutions. Students taking an HCC course may finance a portion of their tuition, fees and main campus Room/Board via one of the payment plans. There is a $25 non-refundable fee due immediately to establish a payment plan for each semester.

Students may set up a payment plan in their name, or they may authorize a parent, guardian or another individual to set up a payment plan on their behalf. To set up a payment plan or for more information visit the website at **highlandcc.edu/pages/payment-plans.**

Third Party Payments
Payments made by a third party vendor will have the option of deferred billing. A student must submit a letter from the vendor on a letterhead indicating the total cost it will cover and attach a letter from the vendor indicating it will cover the cost of the amount due. The College will bill the vendor. Should the vendor not pay the account in full, the student is responsible for any balance remaining.

Billing
Students with outstanding balances will receive monthly statements indicating amount due.

Collections
Accounts with outstanding balances beyond ninety (90) days will be sent to a collection agency.

Refunds and Withdrawals
1. If HCC cancels a course, the student will receive a full refund of tuition paid.
2. 100% refunds are given on student-initiated withdrawals within the first week of classes. (1st week is defined as

three hours of class time in a 3 hour class; five hours of class time in a 5 hour class; and one hour of class time in a 1 credit hour class.)
3. 50% refunds are given on student-initiated withdrawals within two weeks of the class beginning. (Two weeks is defined as six hours of class time in a 3 credit hour class; 10 hours of class time in a 5 credit hour class; and two hours of class time in a 1 credit hour class.)
4. 0% refunds are given at the beginning of the 3rd week of classes. (Three weeks is defined as attending seven hours in a 3 credit hour class; 11 hours in a 5 credit hour class; and three hours in a 1 credit hour class.)

Campus students should contact their Advisor, regional students must contact the Regional Center Director, and online students must send an email to **hcconline@highlandcc.edu** to process withdrawals. For students who receive financial aid, refunds will be determined according to Federal Financial Aid regulations. Highland Community College will use the institutional policy or the 'Return of Title IV Funds' formula issued by the U.S. Department of Education.

Housing and Food Service
On-campus apartment-style housing is available at Highland Community College on a first come basis. A completed contract and deposit will hold a housing space as received. Summer on-campus housing is also available at an affordable rate. Contact the Student Services office for details at (785) 442-6020.

The deposit is a refundable damage deposit. Students must complete a required check out procedure with the College staff to confirm status of the room and contents. Pending the results of the check out procedure and other debts to the College, a refund will be sent within forty-five (45) days of the end of the academic year.

The contract also includes paid utilities, cable television service, and Internet access.

Things to Remember
Each year, financial aid from various sources is available to eligible students. The College administers a variety of federal, state, and local programs, as well as providing computerized search programs and application materials for an assortment of private scholarship and grant sources. The Highland Community College Financial Aid Office staff is eager to answer students' questions and provide assistance to students in determining their eligibility for available funds. A major source of funding for educational programs is obtained through federal and state governmental agencies. There are many regulations, forms to complete, and deadlines to meet. The Financial Aid staff will only ask for documents necessary to determine eligibility for financial assistance. All information students provide will be held in confidence as required by the Family Educational Rights and Privacy Act of 1974. We try to prevent any duplication of effort and work as quickly as possible.

The Financial Aid Application Process
Follow these guidelines to make the application process easier:
1. Apply early! Gather the requested documents and submit an application well before the published deadlines so there is time to resolve any problems.
2. Students and their parents must maintain copies of IRS tax forms, Social Security or Pension Benefit Letters or other official documents needed to complete the application and verify family income.
3. Read all instructions carefully before completing your application. Ask for help if necessary.
4. Make certain the student's mailing address is reported accurately, and report any change of address.
5. Don't leave items blank. If the answer is zero, enter zero (0).
6. When mail is received from the College, the Department of Education, the State Scholarship Commission, or other similar agencies, open immediately, read carefully, and respond promptly.
7. Even if the student receives financial assistance, that aid will rarely cover all expenses while attending college. The student will be expected to contribute some portion of the total cost.

Getting Access to Financial Assistance
The Financial Aid office assists students in gaining access to available sources of financial assistance to complete their college program. Federal, state, and local governmental agencies fund an assortment of financial assistance programs. Funds may also be obtained from various private businesses, foundations, or other philanthropic organizations. However, students are rarely able to find enough resources to fully fund the complete cost of college attendance and should be aware that the primary responsibility for financing educational expenses belongs to the student and his/her family.

Eligibility Requirements for Federal Financial Aid
As of July 1, 2011, all successful federal financial aid applicants, in addition to meeting institutional admission requirements, must have earned a high school diploma or recognized equivalent at the time of admission.

Successful applicants for federal and state financial aid programs must also:
1. Establish a "complete" financial aid file.
2. Meet current federal and state guidelines for financial need.
3. Be a U.S. citizen or eligible nonresident.
4. Enroll as a student in an eligible program with the objective of earning a degree or certificate in a program leading to a recognized field or occupation.
5. Maintain satisfactory academic progress as defined by the College.
6. Be neither in default on, nor owe a refund or repayment on a federal grant or education loan.
7. Have lawfully complied with Selective Service Registration procedure.

How Financial "Need" for Federal and State Programs is Determined
Financial need is the difference between the cost of attendance (COA) at Highland Community College and the amount the student and/or the student's family can reasonably be expected to contribute to the cost. This "family contribution" is computed on the basis of documented income and other related information (family size, number of family members in college, family assets, etc.) that must be furnished by every applicant completing the Free Application for Federal Student Aid (FAFSA). The data are used in a Congressionally approved needs analysis formula which determines Effective Family Contribution (EFC). This figure can be found on the Student Aid Report (SAR) and is used by the College to determine the total amount of financial aid one can receive.

After an application for financial aid is processed, depending on the availability of funds, the Financial Aid Office will put together an individualized package, based on the applicant's computed EFC, and the institution's scheduled cost of attendance, or student budget.

How to Apply for Federal and State Financial Aid
Complete the Free Application for Federal Student Aid (FAFSA) electronically at **fafsa.gov**. When completing the FAFSA, it is important to indicate Highland Community College as the first school choice; the **HCC school code is 001921**. Depending on the method of application, the applicant should receive a response from the processor within two to six weeks.

The FAFSA is used for all federal, most state, and some independently funded financial aid programs. Provide the Financial Aid Office with:
1. All requested documents to verify income, citizenship status, household size, and other essential data elements.
2. Verification of compliance with Selective Service Registration procedures, upon request.
3. Documentation of a valid social security number, upon request.
4. All other requested documents related to verification of your eligibility for financial aid funds.

Financial Aid Programs
Federal Work Study Program
The Federal Work Study Program provides jobs for students with financial need, allowing them to earn money to help pay education expenses. The program encourages community service work and work related to the student's course of study.

Federal Pell Grant
Pell grants are federal funds intended to provide the basis for a student's financial aid package. An eligible student may currently qualify for a maximum award of $5,645.00 (2013 rate) a year, for full-time enrollment, to help cover the cost of tuition, fees, books, living expenses, and transportation. The actual amount of the grant will depend on hours enrolled and demonstrated need.

Supplemental Educational Opportunity Grant (SEOG)
Federal funds that supplement Pell grant awards for students with exceptional financial need. Students are offered these awards on a "first-come, first-served basis," depending on certified eligibility, demonstrated need, and availability of funds.

Awards
Highland Community College offers a variety of awards. The sources of these funds include the state, the College, and private donors. Awards are available in the academic, performance, and athletic areas. For information containing a complete list of awards and requirements, please see the website at **highlandcc.edu/pages/scholarships-awards.**

Loans
Federal Direct Loan Program, Highland Community College participates in the federally-sponsored Direct Loan Program commonly known as Stafford Loans. Students demonstrating need may be eligible to receive a subsidized Stafford Loan with interest paid by the federal government while the student is in school. Students who do not demonstrate need based upon their Free Application for Federal Student Aid (FAFSA) may qualify for an Unsubsidized Stafford Loan. Although the student may defer payment of interest on the loan until after leaving school, he or she remains responsible for all interest that accrues from the disbursement date of the loan. Students apply for these programs by completing the FAFSA and meeting all other institutional, federal, state, academic, and financial aid eligibility requirements. The student borrower must repay loan funds.

Independent Funding Sources
Students who do not qualify for federal and state need-based programs are encouraged to inquire about possible referrals for other independently administered award, grant, and loan programs.

Veterans Educational Benefits
The Registrars office provides administrative assistance to obtain benefits for veterans enrolled at Highland Community College. Some of the programs eligible veterans may participate in at Highland Community College include:
Benefits Sponsored by the Department of Veterans' Affairs:
1. G.I. Bill, provides monthly stipend
2. Veterans' Dependents Allowance Educational benefits are for dependents of deceased or disabled veterans
3. Vocational Rehabilitation Benefits for occupational retraining
4. Tutorial Assistance

Eligibility requirements vary. The application is available on the GI Bill website at **gibill.va.gov.**

Standards of Satisfactory Academic Progress (SAP) for Financial Aid Eligibility

Federal regulations require that students receiving federal financial aid, including Pell Grants, Supplemental Educational Opportunity Grants, Federal Work Study, VA Benefits, and Federal Direct Student Loans, maintain satisfactory academic progress towards a degree or certificate in order to be eligible to receive federal aid. Progress will be measured at the end of each semester according to three factors: 1) a semester and cumulative grade point average (GPA); 2) completion of credit hours; 3) and the time frame allowed for completing a certificate or degree.

Students in Good Standing

Students maintaining the following minimum criteria will be in good standing for Federal Aid purposes.

1. GPA - A minimum 2.0 GPA measured by semester and cumulative credit hours. All hours except for developmental and audit hours are counted in a student's GPA. Developmental hours are included as hours paid and passed, but are not calculated in the GPA. Audit hours are NOT considered for financial aid.
2. Minimum Completion Rate-Students must complete 66.67% or two thirds of all hours attempted. This will be measured by semester and cumulative hours. Completion rate is calculated as follows: hours completed/(divided by) hours attempted x (multiplied by) 100 = completion percentage.
3. Maximum Time Frame 150% - Two-year degree seeking students may not receive financial aid for more than 150% of the required hours to complete a degree. At HCC, students may not receive federal aid for more than 95 hours. Calculation: HCC degrees require students to complete 63 credit hours. 150% x 63=94.5 (rounded to 95).

Warning Status

Students who have been in good standing, but fail to meet the minimum requirements stated above will be placed on warning for the following semester of attendance, but will continue to receive Federal Financial Aid. At the end of the warning semester, students must have a semester and cumulative 2.0 GPA <u>and</u> must have a 66.67% or two thirds cumulative completion rate. <u>There is no Warning status for students who have exceeded the Maximum Time Frame of 150%. These students will go directly into suspension status.</u>

Suspension Status

Suspension means that a student's eligibility for federal grants, direct loans, VA Benefits, and federal work-study has been suspended due to not making Satisfactory Academic Progress. Suspension from Federal Student Aid will occur if a student on Warning or Probation does not meet the requirements for Good Standing. Suspension will also occur if a student has exceeded the Maximum Time Frame stated above. Students will be able to attend HCC if reinstated.

Reinstatement

Students who are suspended from financial aid will receive a suspension notification letter at the end of the semester. There are two ways that a student may be reinstated.

1. **Appeal** - Students with documented mitigating or unusual circumstances may complete an online appeal form and submit appropriate documentation requesting reinstatement from the Satisfactory Academic Progress Committee. The decision of the committee is final. Students should submit their appeal form and documentation any time after receiving notice of suspension (or withdrawing) and no later than midterm of the semester before they want to re-enroll. Allow approximately three weeks for processing. SAP appeals will be approved only once per academic career.
2. **Self-Reinstatement** - If there is not an extenuating documented circumstance to appeal or if the appeal is denied, a student is placed on self-reinstatement. Any student with this status is eligible to re-enroll at Highland Community College but is not eligible for financial aid or VA Benefits. After a Self-Reinstatement semester, a student must reach Good Standing requirements to regain eligibility to financial aid. If a student owes a repayment of overpayment of Federal Student Aid, it must be taken care of before the student can regain eligibility for additional Federal Student Aid. Student account balances must be paid in full before financial aid can be reinstated. <u>Students on suspension for Maximum Time Frame cannot appeal or self-reinstate, but must submit a separate reason for Attending 150% of Degree Program Form</u>

Probation

Probation occurs when a suspended student submits an appeal form to the SAP committee and the appeal is granted. Probation students will be eligible for federal aid for one additional semester. After the probationary semester, students now meeting the required SAP standards will be placed back in Good Standing and will have their financial aid reinstated upon review. Students not meeting the required standards will no longer have the option to receive financial aid at HCC and will again be placed on Suspension..

Maximum Time Frame
Students who have exceeded the 150% Maximum Time Frame, as stated above, will need to submit a Pace Appeal Form. Students who do not have a 2.0 GPA or 66.67%, or two thirds, completion rate will not be considered for a Reason for Attending 150% of Degree Program. It will not be reviewed until all previous college transcripts have been received. Students must report all other colleges they have attended to the Financial Aid office. The Pace Appeal form will be reviewed in conjunction with the Registrar's office to determine hours needed for degree completion or transfer. Students may be funded for the number of hours needed at HCC to finish their degree or hours needed for the degree completion institution. If students take classes not needed for their degree or transfer degree, then they will not have enough financial aid to complete. If a student runs out of fundable hours OR it is determined that no hours are needed, then the student is not eligible for additional financial aid. There is no appeal once a student is out of fundable hours. Students will not be allowed fundable hours for repeated, failed, or withdrawn classes.

Repeated Coursework
Passed Courses
Students needing to retake a previously passed course can receive financial aid for one additional attempt. A, B, C, or D is considered passed, regardless of the program of study.

Transfer Credits
Transfer credits that count toward the student's current program will be counted as both attempted and completed hours when determining a student's GPA, minimum completion rate, and maximum time frame. Per federal regulations these hours must be counted regardless of whether the student received financial aid for those hours or not.

HCC Student Status Definitions for Continued Attendance & Financial Aid Eligibility

Good Standing: Students who have a 2.0 semester and a cumulative GPA; have completed 66.67%, or two thirds of all attempted hours; and have not attempted more than 95 cumulative hours, will be eligible to receive financial aid.

Warning: Students who fail to meet the minimum good standing requirements listed above, but may enroll and may receive financial aid for one semester to be given the opportunity to get back in good standing.

Suspension: Students will not receive financial aid because they did not make satisfactory academic progress, even after the warning status period or have attempted more than 95 total credit hours. Students on suspension cannot enroll at HCC until they have requested reinstatement either by being granted an appeal or by self-reinstating.

Probation: Students who have been suspended for not meeting SAP, but applied for reinstatement and have been granted an appeal by the SAP committee. These students are eligible to enroll at HCC and are eligible for financial aid for one additional semester with the goal of earning the student good standing status.

Self-Reinstatement: Students who have been suspended for not meeting SAP, but
a) requested an appeal for reinstatement that was denied by the SAP committee and now agree to take, pay for, and complete course(s) with the goal of getting back to the good standing student status. (Must pay for and complete all hours in which they are enrolled.)
b) have applied to be self-reinstated and agreed to take, pay for, and complete course(s) with the goal of getting back to the good standing student status. (Must pay for and complete all hours in which they are enrolled.) Students who are self-reinstated may enroll at HCC, but are not eligible to receive financial aid or VA Benefits.

Obligations to the College
Students may be prohibited from registering and/or receiving grade reports and transcripts for reasons falling within the following general categories.

Financial/Materials A properly authorized agent of the College may restrict a student who has failed to meet financial obligations or to return library or other materials to the College.

Judicial The Student Conduct Officer may suspend or place on disciplinary probation following due process a student who has failed to honor the Highland Community College Standards of Conduct on the College website at: **highlandcc.edu/pages/handbook.**

Condition of Registration The Admissions Office may restrict a student who has not fulfilled a duly established condition of registration.

The Student's Program
Twelve semester hours are considered to be a minimum full-time load during fall and spring terms. Fifteen semester hours are the normal full-time program, and eighteen is the maximum. Twelve hours is considered to be full-time for the summer term. Students wishing to exceed the eighteen or twelve hour limits must apply for approval. The overload request form is at **highlandcc.edu/pages/request-for-overload.**

Students are expected to spend at least two hours in preparation for each hour of class session. For twelve semester hours, at least twenty-four hours per week should be budgeted for class preparation. Laboratory hours meet one and a half-hours of instruction per week for one hour of credit. Other instruction may vary with each program.

Highland Community College reserves both the rights to restrict a student's program to less than full-time and even to

assign a course. Such decisions may be based on a review of the student's previous academic record, on results of placement tests given at the time of registration, or on commitments outside of the College. The purpose of this restriction is to meet better the needs of each student.
Students who are employed and attending college should consider carefully the number of hours they undertake in order to ensure that they have sufficient study time.

The College reserves the right to select from the courses listed in this catalog those that can be offered during any session. Further, the College reserves the right to change any of its offerings or regulations without previous notice.

Responsibility of the Student
It is the student's responsibility to meet course prerequisites and graduation requirements. Students who plan to complete the admission and graduation requirements of a transfer institution should refer directly to the catalog of that institution and the transfer guidelines. In addition, students are encouraged to contact the Transfer Coordinator for assistance.

The curricula of Highland Community College are described in this catalog. The College offers a number of resources to assist students in planning their educational programs. Academic Advisors are available, *but it is the student alone who makes final choices and assumes responsibility for decisions and actions.*

Academic Standards
Academic Integrity Highland Community College faculty and students have the responsibility to maintain high academic standards. Academic dishonesty by students, which includes but is not limited to cheating, fabrication, plagiarism, or facilitation of academic work, is reason for disciplinary action. Students should submit their own academic work. Faculty should not allow or leave unreported academic dishonesty by the student.

Cheating affects more than just the cheat; it frustrates the honest efforts of other students, degrades the learning environment, and reflects poorly on any institution that tolerates it. At HCC, a record of cheating does not go away at the end of the course or semester. Integrity violations become part of the violator's record. Multiple violations may result in more serious penalties, including possible dismissal from HCC.
Every instructor will:
• State clearly in the first-day handout his/her personal policy about academic dishonesty and the consequences for such actions.
• List examples of academic dishonesty and how those specific acts will be handled (not all acts of academic dishonesty can be anticipated and this list is not all inclusive).
• Send his/her policy (first-day handout) to the Vice President for Academic Affairs or appropriate regional director for review and acceptance.

First violations of academic integrity will generate sanctioning from the classroom instructor. Subsequent violations will generate an institutional response via the Student Conduct Process.

Once the instructor confirms there have been no prior academic dishonesty violations in any course, the instructor will sanction first offenses according to his/her individual classroom policy. Instructors will send a notification of all offenses and resulting consequence to the Vice President for Academic Affairs, along with any relevant documentation. Incidents of academic dishonesty recorded in the student conduct system are cumulative; multiple or repeated incidents of academic dishonesty will be turned over to the conduct officer and ordinarily result in a medium-level sanction, which may include removal from the course. However, repeated or severe violations may result in high-level sanctions, such as loss of scholarship or expulsion from the College.

A student may appeal decisions of academic dishonesty for the following reasons:
a. There were procedural errors made which significantly impacted the sanction or the findings.
b. The severity of the sanction imposed was not appropriate based on the nature of the violation or the circumstances.
c. New information is discovered that was not available at the time of the investigation that would significantly impact the sanction or the findings.

First offense academic integrity appeals will be assigned to the VPAA. Subsequent offense appeals will go through the Student Conduct Process.

Classroom Disruptions
Acts of disruption in the classroom will not be tolerated at Highland Community College. If students are being disruptive, they are violating the rights of others to an educational atmosphere, interfering with the operations of the College and/or being insubordinate to College authorities. Please refer to the HCC Student Handbook and First Day Handouts for specific policy information. Please refer to the Student Handbook and First Day Handouts for specific policy.

Course Load and Credit Hours
The credit hour is the unit by which the College measures course work and calculates tuition charges. Most Highland Community College courses meet for three instructional hours a week and carry three semester hours' credit. Students enrolled for 12 or more credit hours are considered full-time (an average of 16 hours per semester is needed to complete a degree program in two years); a course load of 11 hours or less is part-time enrollment. Highland Community College reserves the right to restrict students to less than full-time or to assign students to specific courses on the basis of placement test results, on the basis of a review of students' previous academic records, or on the basis of such other criteria as the College deems appropriate.

Course Load and Credit Hours
Students may not normally register for more than eighteen (18) credit hours per semester (or twelve credit hours over an eight week summer session or six hours over a four week summer session). Those wishing permission to exceed these

credit-hour limits must apply and obtain permission. The request for overload form may be found under resources on our website at, **highlandcc.edu/pages/request-for-overload**. Students uncertain about the course load appropriate to their particular circumstances are urged to speak with an Academic Advisor/ Regional Center Director.

Scholastic Honors
President's Honor List
Students completing a minimum of twelve credit hours within a semester and achieving a semester grade point average of 4.0 are placed on the President's Honor List.

Dean's Honor List
Students completing a minimum of twelve credit hours within a semester and achieving a semester grade point average of 3.5 or higher (with no grade lower than a "C") are placed on the Dean's Honor List. The scholastic honors lists are issued at the end of each semester.

Standard Course Syllabus
The Standard Course syllabi's containing a description of a class, noting prerequisites, course content, number of hours, etc. are available on the website at **highlandcc.edu/ pages/course-descriptions_0** . During the first week of class, the instructor will provide a first day handout which includes an outline of course goals, competencies, methods of instruction, course content, reading materials, grading practices, class policies and their attendance policy.

All letter grades earned will be included in a student's permanent academic record or transcript.

Grade Designations

Letter Grade	Description	Points per credit hour
A	Excellent	4
B	Good	3
C	Average	2
D	Minimum Passing	1
F	Failure	0 – not counted
CR	Credit	0 – not counted
NC	No Credit	0 – not counted
I	Incomplete	0 – not counted
AU	Audit	0 – not counted
W	Withdrawal	0 – not counted

Credit/No Credit
Credit/No Credit grading can be employed only on the recommendation of the instructor and approval of the Vice President for Academic Affairs prior to the time that the course begins. The courses are added to a student's credit hour total, but are not included in the grade point average. A "no credit" grade results in no credit earned for the course attempted.

Incomplete
Students who have actively pursued a course, have earned a passing grade up to the final examination period, but have not completed the final examination and/or other specific course assignments because of illness or some other sufficient reason, may be issued a grade of "I" by the instructor. To remove an "I" grade, a student must make arrangements with the instructor to complete the coursework and/or take the final examination within the first four weeks following the termination of the semester, except when an extension of time is granted by the Vice President for Academic Affairs and the instructor of the course. If the course work is not completed and given to the instructor by this deadline, the "I" grade will convert to an "F" grade. A student who has an "I" grade may not re-register in that course. However, if the "I" is changed to an "F", the student may then re-register for the course.

Withdrawal
W—Administrative Withdrawal
The College reserves the right to withdraw students from classes at any time during the semester.

W—Student Initiated Withdrawal
A student may withdraw from a course through the eighth week of the semester (or as posted for the Summer term). A student-initiated withdrawal must be requested on the College's official add/drop form, which may be obtained from the student's Academic Advisor/ Regional Center Director. The "W" appears on the student's permanent academic record, but is not used to calculate cumulative grade point average.

Academic Status
Cumulative grade point average (GPA) is calculated on the basis of all grades, "A" through "F", earned in college credit courses at Highland Community College. If a student repeats a course, the highest grade earned will be counted in the grade point average, although both grades will appear on the permanent academic record.

A student who has earned
1 credit hour to 29.5 credit hours = Freshman Status
30+ credit hours = Sophomore status

Final Examinations
Final examinations are scheduled during the last week of the semester. A required two-hour time period is scheduled for each class period during this week. The only courses which are exempt from a final examination are activity courses. Only in the case of extreme emergency and with the approval from the Vice President for Academic Affairs will a student be permitted to deviate from the announced final examination schedule. An administrative fee will be assessed for each deviation.

Grade Change Policy
In any course of instruction for which grades are awarded, the instructor of the course shall determine the grade to be awarded in accordance with the course syllabus and the grading designations listed above. The determination of the student's grade by the instructor shall be final in the absence of mistake, fraud, bad faith, incompetence, or caprice. The instructor of record may correct a grade given in error within one semester of the initial award of the grade. More information available **highlandcc.edu/pages/handbook.**

Privacy of Records

Highland Community College maintains various student records to assist students in achieving their educational goals. These records are regarded as confidential, and information contained in them can be released only by written permission from the student. The College complies fully with the provisions of the Family Educational Rights and Privacy Act.

Transcripts of Academic Records

The Registrar's office will provide a transcript of a student's academic record upon request. All requests for transcripts must be in writing; either by letter or by completing the Transcript Request Form supplied by the Registrar's office. Students also may fax their written and signed requests for transcripts to (785) 442-6106. No transcripts will be released without the written permission of the student. Therefore, transcript requests by telephone or e-mail will not be honored at Highland Community College. The College reserves the right to withhold transcripts of persons who have past-due monetary obligations to the College, such as tuition, fees, or materials. Transcripts issued directly to the student will be marked 'Issued to Student.' Current students can log in to their MyHCC account to access an unofficial transcript. Official transcripts from other institutions cannot be released to any individual or institution.

Transfer Students

Prior to registration, students transferring to Highland Community College are required to submit official transcripts of all credits earned at other institutions. The College Registrar will evaluate successfully completed coursework from accredited institutions. If accepted as satisfying degree requirements, these transfer hours will be counted towards graduation and will be counted in the calculation of the GPA. A transfer student must complete sixteen (16) credit hours at Highland Community College to be eligible for graduation.

Grade Appeals

Students are responsible for meeting the standards for academic performance established for each course in which they are enrolled. The establishment of the criteria for grades and the evaluation of student academic performance are the responsibilities of the instructor. This grade appeal procedure is available only for the review of allegedly capricious grading, and not for review of the instructor's evaluation of the student's academic performance. Capricious grading, as the term is used here, consists only of any of the following:

1. The assignment of a grade to a particular student on some basis other than the performance in the course;
2. The assignment of a grade to a particular student by resort to more exacting or demanding standards than were applied to other students in the course;
3. The assignment of a grade by a substantial departure from the instructor's previously announced standards.

STEP 1 - The student should first discuss the course grade fully with the instructor of the course. This must be done within thirty calendar days after grades have been posted by the College at the close of each semester. If the student cannot arrange such a meeting, he/she should contact the Vice President for Academic Affairs to arrange for such a meeting.

STEP 2 - If the matter cannot be resolved by consultation with the instructor, the student may request that the instructor set up a hearing with the Vice President for Academic Affairs within ten calendar days. The student, the instructor, and the Vice President for Academic Affairs should attempt to resolve the matter at this level.

STEP 3 - If the matter is not resolved, the student may appeal to the Vice President for Student Services. The student's appeal to the Vice President for Student Services should be made within fifteen calendar days after receiving notification of the Vice President for Academic Affairs' decision. The Vice President for Student Services will establish an ad hoc academic appeals committee and appoint a committee chairperson to review the written records presented by the student, instructor, and recommendation of the Vice President for Academic Affairs. After the committee has had the opportunity to review all verbal or written data, the committee will make its decision regarding the appeal. The decision of the committee will be communicated to the student, the instructor, the Vice President for Academic Affairs, and the Vice President for Student Services by the committee chairperson.

STEP 4 - The student may appeal the committee's decision to the College President within fifteen calendar days after receiving notification by the committee's chairman. The President will review all written data collected regarding the student's appeal. The President's decision will be communicated in writing to the student, the instructor, the Vice President for Academic Affairs, and the Vice President for Student Services.

STEP 5 - The student may thereafter appeal to the Board of Trustees of Highland Community College by filing a written Notice of Appeal with the chairperson and the President or primary administrative officer as appropriate to be placed on the Board of Trustees' agenda. Such Notice of Appeal must be filed within ten (10) days of the notification of action by the President.

Upon the filing of a Notice of Appeal to the Board, the President shall cause the records of the case, including any written memorandum received during the consideration, to be promptly filed with the secretary of the Board through the Office of the President. The decision of the Board of Trustees will be final and binding upon all parties of the appeal. Students must begin the grievance procedure within thirty days of the publication of grades (and for grievances relating to spring semester grades, within thirty days from the beginning of the fall semester) by requesting a conference with the instructor. Please consult the Student Handbook. available at **highlandcc.edu/pages/handbook.**

Transfer Guides

Transfer Information

These transfer guides have been developed to assist HCC students in making the smoothest possible transition to other institutions of higher learning. In transferring, nothing will substitute for sound planning. Students should consult closely with their advisor and the college they are transferring to ensure they enroll in courses that transfer. If you have questions about the information in these guides, or transferring credit in general, please contact **Dr. Erin Shaw**, Vice President for Academic Affairs at 785-442-6012.

Kansas Board of Regents Seamless Transfer

A seamless educational system offers the best resources to provide a high quality education by providing a smooth transition from one level of learning to the next level, including graduate and professional education. The Kansas Board of Regents has adopted a seamless transfer policy for Kansas public postsecondary educational institutions. Students transferring to Kansas public universities with a completed AA or AS degree shall be given junior standing.

REVERSE ◄ TRANSFER

Articulation Agreements

Disclaimer: Articulation Agreements are between two schools where each institution agrees to articulate the credit as described, as long as the transfer student follows the agreement. For any of the following Articulation Agreements, it is incredibly important that you work closely with your academic advisor to ensure you are adhering to all requirements.

- **Baker University**
- **Baker University--School of Nursing**
- **Donnelly College**
- Emporia State University **BS in Business- Business Administration**
- Fort Hays State University **Teacher Education Memorandum**
- **Friends University**
- **Hillyard Technical Center**
- **Kansas Wesleyan University**
- Palmer College of Chiropractic **Articulation Agreement**
- **Peru State College**

Transfer Guides, Memorandums of Understanding, and Transfer Course Equivalency Information

Some colleges and universities prefer to provide course-to-course transfer information, transfer guides to advise you, or form Memorandums of Understanding (MOU) between two schools instead of an articulation agreement. These are additional tools that can help you confirm you are taking the correct classes at HCC before you transfer to the schools listed below. If you have any questions, please be sure to meet with your advisor.

- **Benedictine College** (Transfer Advising Guides)
- **Brescia University** (Course Equivalencies)
- **Emporia State University-All Majors** (Transfer Advising Guides)
  - **Biology-Secondary Education-Nursing**
  - **Business-Business Education**
  - **Elementary and Secondary Education**
  - **Psychology**
- **Fort Hays State University** (Course Equivalencies)
- Friends University - Transfer 78 credits (Transfer Advising Guides)
  - **AA Business to Bachelor of Business Administration in Management**
  - **AA Accounting to Bachelor of Business Administration in Accounting**
  - **AA Business to Bachelor of Science in CIS**
  - **AA Business to Bachelor of Business Adminisration in Human Resource Management**
- **Kansas State University** (Course Equivalencies - Search by course or Search by curriculum)
  - **DirectLink**
- **Northwest Missouri State University** (Course Equivalencies)
- **Missouri Western State University** (Memorandum of Understanding)
- Palmer College of Chiropractic **Curriculum Guide** (Transfer Advising Guide)
- **Pittsburg State University** (Course Equivalencies)
- **Sterling College** (Guaranteed Admissions Agreement)
- **University of Kansas** (Course Equivalencies)
- **Washburn University** (Course Equivalencies)
- **Transfer Courses** (Transfer Advising Guide)
- **Wichita State University** (Transfer Advising Guides and Course Equivalencies)
  - **General Education Courses**
  - **College of Education**
  - **College of Engineering**
  - **Fairmount College of Liberal Arts and Sciences**
  - **College of Fine Arts**
  - **College of Health Professions**
  - **W. Frank Barton College of Business**

Note: All courses are subject to final acceptance. While each of these institutions and Highland Community College work to keep this information updated you should always consult with both your HCC advisor and your transfer institution to confirm you are relying on the most updated information.

Re: Announced on-site Program Review
     OPE ID Number: 00192100

Dear Mr. Reist:

This letter confirms that an on-site Program Review has been scheduled to begin on January 23, 2017 at Highland Community College (HCC). You were notified via telephone of this review by Jenny Hendrickson on December 19, 2016. This review will be performed by Jenny Hendrickson, Matthew Monsees, and John Nading.

This review will assess HCC's administration of the Title IV, HEA programs in which it participates. The review initially will cover the 2015-2016 and 2016-2017 award years, but may be expanded if appropriate. The Department of Education (Department) considers the administration of the Title IV, HEA programs to be an institution-wide effort. Consequently, the review will include all offices involved in the financial aid administration:

- Financial Aid office
- Registrar office
- Academic office
- Admissions office
- Fiscal/Business office

At the start of the review, we will conduct an entrance conference with you and your staff to discuss the review process. Please inform the personnel responsible for the above areas, and any others you deem appropriate, so they or their designees can attend the entrance conference and remain available during the review.

In preparation for the review, please provide the following information to me prior to the review and no later than January 6, 2017.

- Catalog/brochure of institution
- Policy and procedures concerning:
    o Admissions, institution and academic programs
    o Satisfactory academic progress

Federal Student Aid
An OFFICE of the U.S. DEPARTMENT of EDUCATION
Kansas City School Participation Division
1010 Walnut Street, Suite 336, Kansas City, MO 64106-2147
www.StudentAid.gov

- o   Attendance
- o   Recruiter compensation/incentive programs
- o   Withdrawals, official and unofficial
- o   Return of Title IV, HEA funds
- o   Verification
- o   Awarding of Title IV, HEA program aid
- o   Statements regarding the institution's educational programs, its financial charges, or the employability of its graduates
- List of Third Party Servicers involved in marketing, recruitment, admissions and the services they provide (if applicable)
- Institutional and financial aid student consumer publications
- Examples of institutional forms, applications and worksheets that are used in administering the Title IV, HEA programs
- Total current enrollment and percentage receiving Title IV, HEA program aid
- A list of all programs that are offered at physical campus locations
- If the institution offers correspondence courses, include the following:
- The percentage of correspondence courses offered in the latest complete award year
- A list of all courses offered in the latest complete award year, identifying those courses that are correspondence

The institution must also provide a photocopy, or electronic copy, of the original complete student file for at least one student on the Recipient Data Spreadsheet (see below).

Please do not send original materials, except for catalogs, brochures, pamphlets, handbooks, etc. The requested documents listed above should be copies.

Please direct this information to:

> ATTN: Jenny Hendrickson
> Federal Student Aid
> U.S. Department of Education
> 1010 Walnut Street, Suite 336
> Kansas City, MO 64106-2147

In addition, the institution must provide the data elements indicated in the attached Recipient Data Spreadsheet. The institution may choose to complete the provided file, or generate its own electronic file in the same format as the file provided. Return the file to Jenny Hendrickson by e-mail at jenny.hendrickson@ed.gov no later than January 6, 2017. Please see the enclosure, Protection of Personally Identifiable Information (PII) for instructions regarding submission of required data / documents containing PII.

Regulatory authority to examine program and fiscal records and conduct reviews may be found at 34 C.F.R. § 668.24.

In addition to the information we have requested prior to the review, we also request that other specific records and documents be assembled in advance of the visit for examination by the

review team at the start of the review on January 23, 2017. These records and documents are outlined on the enclosure. Please be certain that all records, hard copy and electronic, are available on site at the start, and for the duration, of the review. If the institution has contracted with one or more third-party servicers, such as consultants and data processors, to perform any functions related to the Title IV, HEA programs, HCC must notify each servicer of the program review so that all of the records are available for examination at the institution no later than the start of the program review. The reviewers may request additional documents and records while on-site as necessary.

Please make arrangements for the review team to have access (view only and print capability) to any computer databases containing information related to Title IV, HEA program eligibility or disbursements (e.g., computerized student account records).

HCC must provide access to its administrative staff and students. We also request that the institution provide a secure working space for the review team to ensure the confidentiality of the institutional records being reviewed. We will also need access to a photocopy machine.

At the conclusion of the review, the review team may conduct an exit conference with you and/or your designee(s). The institution will receive an official written report at a later date.

If you have any questions, please call Jenny Hendrickson at 816-268-0411. Thank you for your cooperation.

Sincerely,

Ralph A. LoBosco
Division Director

Re: Records and Documents for Program Review

We request that the following records or documents be assembled in advance of the visit so that they are available for examination by the review team at the start of the review on January 23, 2017.

1. Organizational chart of the institution that includes at a minimum, all administrators currently employed by the institution

2. A complete set of fiscal records for financial aid, including a chart of accounts, general ledgers and subsidiary ledgers, including lists of disbursements to students

3. Original canceled checks, bank statements, deposit slips, checkbook or check register and any back-up documentation for cash transactions (including cash requests and refunds/returns of federal cash) with the Department's G5 System

4. Copy of all Satisfactory Academic Progress Reports for the 2015-2016 and 2016-2017 award years indicating student SAP status

5. List of students, by term, who earned a 0.00 GPA for a given term (eg: grades of F, Incompletes, Withdraws) for all complete terms in the 2015-2016 and 2016-2017 award years

6. Fiscal Operations Report and Application to Participate, with supporting documentation (two most recently filed reports)

7. Gainful Employment reporting disclosures for all non-degree programs

8. List of internal/external recruiters

9. Accreditation Statement of Affiliation (or equivalent) and any additional accreditation documents that demonstrate the accreditation of the institution and describe the extent of the accreditor's recognition of the institution (locations, academic programs, restrictions, etc.)

10. State agency documents that reflect the institution's legal authority to provide educational services and describe the extent of the State's recognition of the institution (locations, academic programs, restrictions, etc.)

11. For each award year, list of all incarcerated students enrolled, with addresses, and the total student population

12. Contracts with third parties concerning the administration of Title IV, HEA program funds or the delivery of educational services for which the institution received Title IV, HEA program funds

Note: Refer to the instructions worksheet for information regarding completion of report.

PROTECTION OF PERSONALLY IDENTIFIABLE INFORMATION

Personally Identifiable Information (PII) being submitted to the Department must be protected. PII is any information about an individual which can be used to distinguish or trace an individual's identity (some examples are name, social security number, date and place of birth).

PII being submitted electronically must be encrypted. The data must be submitted in a .zip file encrypted with Advanced Encryption Standard (AES) encryption (256-bit is preferred). The Department uses WinZip, however, files created with other encryption software are also acceptable, provided that they are compatible with WinZip (Version 9.0) and are encrypted with AES encryption. Zipped files using Win Zip must be saved as Legacy compression (Zip 2.0 compatible).

The Department must receive an access password to view the encrypted information. The password must be e-mailed separately from the encrypted data. The password must be 12 characters in length and use three of the following: upper case letter, lower case letter, number, special character. A manifest must be included with the e-mail that lists the types of files being sent (a copy of the manifest must be retained by the sender).

Hard copy and electronic files containing PII must be:

- sent via a shipping method that can be tracked with signature required upon delivery
- double packaged in packaging that is approved by the shipping agent (FedEx, DHL, UPS, USPS)
- labeled with both the "To" and "From" addresses on both the inner and outer packages
- identified by a manifest included in the inner package that lists the types of files in the shipment (a copy of the manifest must be retained by the sender).

PII data cannot be sent via fax.

RE: **Program Review Report**
      OPE ID: 00192100
      PRCN: 201720729523

Dear President Reist:

From January 23, 2017 to January 27, 2017, John Nading, Jenny Hendrickson, Matthew
Monsees and Carol Hayes as representatives of the U.S. Department of Education conducted a
review of Highland Community College's (Highland) administration of the programs authorized
pursuant to Title IV of the Higher Education Act of 1965, as amended, 20 U.S.C. §§ 1070 et seq.
(Title IV, HEA programs). The findings of that review are presented in the enclosed report.

Findings of noncompliance are referenced to the applicable statutes and regulations and specify
the action required to comply with the statute and regulations. Please review the report and
respond to each finding, indicating the corrective actions taken by Highland. The response
should include a brief, written narrative for each finding that clearly states Highland's position
regarding the finding and the corrective action taken to resolve the finding. Separate from the
written narrative, Highland must provide supporting documentation as required in each finding.

Please note that pursuant to HEA section 498A(b), the Department is required to:
  (1) provide to the institution an adequate opportunity to review and respond to any
      preliminary program review report[1] and relevant materials related to the report before any
      final program review report is issued;
  (2) review and take into consideration an institution's response in any final program review
      report or audit determination, and include in the report or determination –
        a. A written statement addressing the institution's response;
        b. A written statement of the basis for such report or determination; and
        c. A copy of the institution's response.

---

[1] A "preliminary" program review report is the program review report. The Department's final program review
report is the Final Program Review Determination (FPRD).

The Department considers the institution's response to be the written narrative (to include e-mail communication). Any supporting documentation submitted with the institution's written response will not be attached to the FPRD. However, it will be retained and available for inspection by Highland upon request. Copies of the program review report, the institution's response, and any supporting documentation may be subject to release under the Freedom of Information Act (FOIA) and can be provided to other oversight entities after the FPRD is issued.

The institution's response should be sent directly to Matthew Monsees of this office within 60 calendar days of receipt of this letter.

**Protection of Personally Identifiable Information (PII):**
PII is any information about an individual which can be used to distinguish or trace an individual's identity (some examples are name, social security number, date and place of birth). The loss of PII can result in substantial harm, embarrassment, and inconvenience to individuals and may lead to identity theft or other fraudulent use of the information. To protect PII, the findings in the attached report do not contain any student PII. Instead, each finding references students only by a student number created by Federal Student Aid. The student numbers were assigned in Appendix A, Student Sample. In addition, Appendix B Return to Title IV Sample also contains PII. These appendices were encrypted and sent separately to the institution via e-mail. Please see the enclosure Protection of Personally Identifiable Information for instructions regarding submission to the Department of required data / documents containing PII.

Record Retention:
Program records relating to the period covered by the program review must be retained until the later of: resolution of the loans, claims or expenditures questioned in the program review; or the end of the retention period otherwise applicable to the record under 34 C.F.R. § 668.24(e).

We would like to express our appreciation for the courtesy and cooperation extended during the review. Please refer to the above Program Review Control Number (PRCN) in all correspondence relating to this report. If you have any questions concerning this report, please contact Matthew Monsees at matthew.monsees@ed.gov.

Sincerely,

Dvak Corwin
Compliance Manager

A. Institutional Information

Highland Community College
602 West Main
Highland, KS 66035

Type: Public

Highest Level of Offering: Associate's Degree

Accrediting Agency: North Central Association of Colleges and Schools - CIHE (Higher Learning Commission)

Current Student Enrollment per institution: 3355 (Fall 2015)

% of Students Receiving Title IV per institution: 32.52% (Fall 2015)

Title IV Participation (G5):

	2014-2015
Federal Pell Grant (Pell)	$ 3,670,509
Federal Supplemental Educational Opportunity Grant (FSEOG)	$ 44,561
Federal Work-Study (FWS)	$ 82,685
Federal Direct Loans (DL)	$ 4,569,127

Default Rate FFEL/DL:	2013	18%
	2012	16.2%
	2011	25.3%

B. Scope of Review

The U.S. Department of Education (the Department) conducted a program review at Highland Community College (Highland) from January 23, 2017 to January 27, 2017. The review was conducted by John Nading, Jenny Hendrickson, Matthew Monsees and Carol Hayes.

The review was focused on distance education and student eligibility. The review consisted of an examination of Highland's policies and procedures regarding institutional and student eligibility, individual student financial aid and academic files, attendance records, student account ledgers, and fiscal records.

A sample of 40 files was identified for review from the 2015-2016 and 2016-2017 (year to date) award years. The files were selected randomly from a statistical sample of the total population receiving Title IV, HEA program funds for each award year. Appendix A lists the names and partial social security numbers of the students whose files were examined during the program review.

Disclaimer:

Although the review was thorough, it cannot be assumed to be all-inclusive. The absence of statements in the report concerning Highland's specific practices and procedures must not be construed as acceptance, approval, or endorsement of those specific practices and procedures. Furthermore, it does not relieve Highland of its obligation to comply with all of the statutory or regulatory provisions governing the Title IV, HEA programs.

This report reflects initial findings. These findings are not final. The Department will issue its final findings in a subsequent Final Program Review Determination letter.

C. Findings

During the review, several areas of noncompliance were noted. Findings of noncompliance are referenced to the applicable statutes and regulations and specify the actions to be taken by Highland to bring operations of the financial aid programs into compliance with the statutes and regulations.

Finding 1: Late/Incorrect Return to Title IV Funds Calculation

Citation: Federal regulations state that when a recipient of Title IV, HEA funds withdraws from an institution during a payment period or period of enrollment in which the recipient began attendance, the institution must perform a Return of Title IV Funds calculation to determine the amount of Title IV, HEA grant or loan assistance the student earned as of the student's withdrawal date. A student is considered to have withdrawn from a payment period or period of enrollment if in the case of a program that is measured in credit hours, the student does not complete all the days in the payment period or period of enrollment that the student was scheduled to complete. The calculation should incorporate all of the elements of a Return of Title IV Funds calculation identified in pertinent Federal regulations. *34 C.F.R. § 668.22(a)*

For a student who ceases attendance at an institution that is required to take attendance, the student's withdrawal date is the last date of academic attendance as determined by the institution from its attendance records. An institution must document a student's withdrawal date and maintain the documentation as of the date of the institution's determination that the student withdrew. An institution is required to take attendance if the institution itself has a requirement that its instructors take attendance. *34 C.F.R. § 668.22(b)*

Institutions are required to take attendance are expected to have a procedure in place for routinely monitoring attendance records to determine in a timely manner when a student withdraws. Except in unusual instances, the date of the institution's determination that the student withdrew should be no later than 14 days after the student's withdrawal date. *2015-2016 Federal Student Aid Handbook, Volume 5, Chapter 2*

The amount of Title IV grant or loan assistance that is earned by the student is calculated by determining the percentage of Title IV grant or loan assistance that has been earned by the student and applying this percentage to the total amount of Title IV grant or loan assistance that was disbursed for the payment period or period of enrollment as of the student's withdrawal date.

The percentage of Title IV grant or loan assistance that has been earned by the student is equal to the percentage of the payment period or period of enrollment that the student completed as of the student's withdrawal date, if this date occurs on or before completion of 60 percent of the payment period or period of enrollment for a program that is measured in credit hours. The percentage of Title IV grant or loan assistance that has been earned by the student is 100 percent,

if the student's withdrawal date occurs after completion of 60 percent of the payment period or period of enrollment for a program that is measured in credit hours. *34 C.F.R. § 668.22(e)*

The percentage of the payment period or period of enrollment completed is determined by dividing the total number of calendar days in the payment period or period of enrollment into the number of calendar days completed in that period as of the student's withdrawal date in the case of a program that is measured in credit hours. The schedule must have been established in accordance with requirements of the accrediting agency and the State licensing agency, if such standards exist.

The total number of calendar days in a payment period or period of enrollment includes all days within the period that the student was scheduled to complete, except that scheduled breaks of at least five consecutive days are excluded from the total number of calendar days in a payment period or period of enrollment and the number of calendar days completed in that period. *34 C.F.R. § 668.22(f)*

For a credit-hour program, the percentage of the period completed is determined by dividing the number of calendar days completed in the payment period or period of enrollment, as of the day the student withdrew, by the total number of calendar days in the same period. The number of calendar days in the numerator or denominator includes all days within the period, except for institutionally scheduled breaks of five or more consecutive days. The day the student withdrew is counted as a completed day. *2015-2016 Federal Student Aid Handbook, Volume 5, Chapter 1*

An institution must return the amount of Title IV funds for which it is responsible as soon as possible but no later than 45 days after the date of the institution's determination that the student withdrew. *34 C.F.R. § 668.22(j)*

The regulatory time line for most Return of Title IV Funds calculations is 45 days. Any action taken after a deadline, even a correction, is a violation of that deadline requirement. When an institution corrects a Return of Title IV Funds calculation and, as a result, returns funds after the 45- day deadline, it is a late return. *2015-2016 Federal Student Aid Handbook, Volume 5, Chapter 1*

Noncompliance: On a systemic basis, Highland failed to properly perform Return to Title IV Funds calculations in two aspects.

Failure to Adhere to Published Attendance Policy: Highland failed to maintain attendance records for all enrolled students. According to institution officials, Highland is not considered an institution that takes attendance, and does not consistently collect or maintain attendance records for all students for a payment period or period of enrollment.

However, per the Highland Community College Handbook:

> Students may be dropped from a course when they are failing the class AND have absences totaling 20% of the class by November 1 of the fall semester and April 1 of the

spring semester...Instructors will define in their first day handout the equivalent number of absences equaling 20% for their course. Instructors will maintain course attendance for each student on MyHCC.

Based on discussion with institution officials and the above policy, it appears Highland requires attendance be taken by instructors and is therefore an attendance taking institution for Return purposes.

Late Return to Title IV Fund Calculations: For a student who ceases attendance at an institution that is required to take attendance, the student's withdrawal date is the last date of academic attendance as determined by the institution from its attendance records. In discussions with Highland staff during the on-site portion of the program review, it was established that Highland did not consider itself as an attendance taking institution or consistently track attendance, and that Return calculations for students who unofficially withdrew were performed at the conclusion of the payment period, therefore making them late.

Additionally, on a student-level basis, eight of ten 2015-2016 and 2016-2017 Return to Title IV Funds calculations revealed Highland failed to make the necessary Return within the required time frame, failed to properly perform the Return calculation, or both.

Student # 16: Highland did not return Title IV, HEA funds within the regulatory timeframe. The Return worksheet completed by Highland determined a refund of $668 in Unsubsidized loan funds was due back to the Department. The worksheet also indicated the student withdrew on October 7, 2015. Highland should have returned the funds by December 5, 2015. As of the date of this report, Highland has not returned the necessary funds back to the Department.

Student #17: Highland did not complete the Return calculation within the regulatory timeframe. The Return worksheet indicates that Highland determined the student withdrew on October 28, 2015. Highland should have determined the amount earned by the student by December 26, 2015. Student earned 100% of the eligible funds and therefore no fund returns were required.

Student #18: Highland failed to properly perform the Return calculation. The Return worksheet indicates that Highland determined the student withdrew on October 22, 2015. However, attendance records indicate the student's last day of attendance was September 14, 2015. Consequently, a Department performed Return recalculation indicates Highland failed to return $3,763 in Title IV, HEA funds due to the adjustment in withdrawal date within the required time frame.

Student #19: Highland failed to properly perform the Return calculation. The Return worksheet indicates that Highland determined the student withdrew on November 20, 2015. However, attendance records indicate the student's last day of attendance as November 21, 2015. Consequently, the adjustment in withdrawal date did not affect the student's eligibility since the student still completed sixty percent of the payment period, and earned one-hundred percent of the disbursed aid.

Student #20: Highland failed to properly perform the Return calculation. The Return worksheet indicates that Highland determined the student withdrew on October 4, 2015. Attendance records included in the student file indicate the student's last day of attendance as October 5, 2015. Also, Highland incorrectly used August 17, 2015 as the beginning of the payment period. Highland's academic calendar indicates the payment period began on August 24, 2015.

Highland returned $559 in Unsubsidized loans on February 22, 2016. However, due to the adjustment in withdrawal date and payment period start date, the return of funds was short by $29. As of the date of this report, Highland has not returned the necessary funds back to the Department.

Student #38: Highland failed to properly perform the Return calculation. The Return worksheet indicates the payment period began on August 15, 2016. Highland's academic calendar indicates the payment period began on August 22, 2016.

Highland returned $457 in Unsubsidized loans on January 6, 2017. However, due to the adjustment in payment period start date, the return of funds was short by $32. As of the date of this report, Highland has not returned the necessary funds back to the Department.

Student #39: Highland failed to properly perform the Return calculation. The Return worksheet indicates payment period began on August 15, 2016. Highland's academic calendar indicates the payment period began on August 22, 2016.

Consequently, the adjustment in payment period did not affect the student's eligibility since the student still completed sixty percent of the payment period, and earned one-hundred percent of the disbursed aid.

Student #40: Highland failed to properly perform the Return calculation. The Return worksheet indicates that Highland determined the student withdrew on November 14, 2016. Attendance records included in the student file indicate the student's last day of attendance as November 13, 2016. Also, Highland incorrectly used August 15, 2016 as the beginning of the payment period. Highland's academic calendar indicates the payment period began on August 22, 2016.

Consequently, the adjustment in payment period did not affect the student's eligibility since the student still completed sixty percent of the payment period, and earned one-hundred percent of the disbursed aid.

Required Action: In response to this finding, Highland must provide comprehensive information for all Title IV, HEA program fund recipients who officially and unofficially withdrew during the 2015-2016 and 2016-2017 (year-to-date) award years. The institution must identify, review, and report on the files of all Title IV, HEA program fund recipients for whom a Return calculation should have been performed in any of the two award years. For Return

calculations that are found to be improperly calculated Highland must perform a correct recalculation.

Highland must submit five recalculated Return calculations to Matthew Monsees within thirty calendar days of receipt of this letter with the required supplemental documentation prior to completing the full comprehensive report for 2015-2016 and 2016-2017 (year-to-date) award years.

The materials the institution must submit include:

(1) A spreadsheet that contains, for each Title IV, HEA funds recipient who officially or unofficially withdrew in the 2015-2016 and 2016-2017 award years, the following information:

    (a) Award Year;
    (b) Student's last name, first name;
    (c) Student's SSN number;
    (d) Award Year EFC;
    (e) Total original hours enrolled in for semester;
    (f) Final hours student attended for semester;
    (g) Payment period start date;
    (h) Corrected payment period start date, if applicable;
    (i) Payment period end date;
    (j) Corrected payment period end date, if applicable;
    (k) Total days in payment period;
    (l) Corrected total days in payment period, if applicable;
    (m) Student's last date of attendance;
    (n) Student's withdrawal date, if applicable:
    (o) Institution's date of determination;
    (p) Original Pell award for term;
    (q) Recalculated Pell award;
    (r) The date that the Return was calculated, if applicable;
    (s) The amount of the original Title IV, HEA funds returned, if applicable
            1. organized by each Title IV program
            2. and amount;
    (t) The date(s) the Return(s) were made, if applicable (organized by Title IV program);
    (u) Amount of Post-withdrawal Disbursement (PWD), if applicable;
    (v) Title IV program from which PWD was made;
    (w) Date PWD was paid;

The spreadsheet must be organized by **award year**, and then by **individual student**. The spreadsheets must be compiled in an Excel spreadsheet program and submitted either via e-mail or in CD-ROM format;

(2) A copy of all pertinent student account cards for the Returns identified above. The account card should reflect the disbursements included in the Return calculation as well as the return of the Title IV funds, HEA funds, if applicable;

(3) Legible copies of all audit trail documentation (i.e. wire transfer records on bank statements, institutional drawdown and refund reports, screen prints of Common Origination and Disbursement [COD] screens with pertinent detail information) to support the return of the funds to the Title IV, HEA program accounts. The documentation must clearly identify the amount of the Return for the individual in question. If a Return was repaid to the Title IV, HEA programs by check, then a legible copy of the cancelled check, front and back, must be submitted;

(4) Pertinent attendance records supporting Highland's determination of the student's last date of attendance. This may include a copy of the student's official withdrawal form (or another official withdrawal document) with the official date of withdrawal annotated, if applicable and/or class attendance records;

(5) In cases where a Post-withdrawal Disbursement was calculated, copies of all supporting documentation establishing that the Post-withdrawal Disbursement of Title IV, HEA Direct loan funds were offered to the student or parent, and the student or parent's response to that offer. In cases where no such documentation is available, Highland must provide documentation indicating that the student, or parent in the case of a PLUS loan, was notified that a Post-withdrawal Disbursement was made on their behalf, the amount of the disbursement, and the date that it occurred;

(6) In the case of unearned Title IV, HEA program funds that are required to be returned by a student, copies of all supporting documentation establishing that Highland contacted the student and made appropriate repayment arrangements, as outlined in federal regulations.

The Return of Title IV Funds spreadsheet discussed above should be compiled in an Excel spreadsheet program, and submitted either via e-mail or in CD-ROM format in the following manner:

Award year	Student	SSN	Award Year EFC	Total original hours enrolled in for semester	Final hours student attended for semester	Payment period start date	Corrected Payment period start date, if applicable	Payment period end date	Corrected payment period end date, if applicable	Total days in payment period	Corrected total days in payment period, if applicable
2015-16	Doe, John	1234	412	12	4	08/22/15	08/15/15	12/11/15	12/9/15	101	103
2016-17	Doe, Jane	0987	2251	12	12	08/22/15	08/17/15	12/11/15	12/7/15	101	103

Last date of attendance	Withdrawal date, if applicable	Institution's date of determination	Original Pell award for term	Recalculated Pell award	The date that the Return was calculated, if applicable	Total Original Amount of return, if applicable	Title IV program	Amount of aid returned after recalculation, if applicable	Date of Return
06/20/13	n/a	08/20/13	$2,550	$1,275	08/23/14	$2,000	DL Unsub	$1000	06/30/14
11/14/14	n/a	03/02/15	$1,650	$1,238	03/05/15	$1,356	DL Sub	$900	04/12/15

Amount of PWD, if applicable	PWD program	Date PWD was paid
N/A	N/A	N/A
N/A	N/A	N/A

Second, Highland must review and revise its internal policies and procedures to ensure that Returns of Title IV Funds are performed properly and in a timely manner in the future. A detailed discussion of these revised policies and procedures must accompany Highlands's response to this report.

Hard copy and electronic files containing PII must be safeguarded as described in the enclosure to the cover letter of this report.

Instructions for repayment of any liabilities will be provided in the FPRD letter. Highland must not repay any funds owed to the Department until the FPRD is issued.

Finding 2: Inadequate Monitoring of Undeliverable Title IV, HEA Credit Balances

Citation: A Title IV credit balance occurs whenever an institution credits Title IV program funds to a student's account and the total amount of those Title IV funds exceeds the student's allowable charges.

If Title IV disbursements to the student's account at the institution create a Title IV credit balance, the institution must pay the credit balance directly to the student or parent as soon as possible but no later than 14 days after:

- The date the balance occurred on the student's account, if the balance occurred after the first day of class of a payment period; or
- The first day of classes of the payment period if the credit balance occurred on or before the first day of class of that payment period. *34 C.F.R. § 668.164(h)(1)*

The law requires that any excess PLUS Loan funds be returned to the parent. Therefore, if PLUS Loan funds create a credit balance, the credit balance would have to be given to the parent. However, the parent may authorize the institution (in writing or through StudentLoans.gov) to transfer the proceeds of a PLUS Loan credit balance directly to the student for whom the loan is made (for example, to a bank account in the student's name). The Department does not specify how an institution must determine which FSA funds create an FSA credit balance. An institution may not require a student to take any actions to obtain his or her credit balance. It is the sole responsibility of the institution to pay, or make available, any FSA credit balance within the 14-day regulatory time frames. *2015-2016 Federal Student Aid Handbook, Volume 4, Chapter 2*

Notwithstanding any State law (such as a law that allows funds to escheat to the State), an institution must return to the Secretary, lender, or guaranty agency, any Title IV, HEA program funds, except FWS program funds, that it attempts to disburse directly to a student or parent but the student or parent does not receive or negotiate those funds. For FWS program funds, the institution is required to return only the federal portion of the payroll disbursement.

If an institution attempts to disburse the funds by check and the check is not cashed, the institution must return the funds no later than 240 days after the date it issued that check. If a check is returned to the institution, or an EFT is rejected, the institution may make additional attempts to disburse the funds, provided that those attempts are made not later than 45 days after the funds were returned or rejected. In cases where the institution does not make another attempt, the funds must be returned before the end of this 45-day period. In cases where the institution makes further attempts, the institution must cease any additional disbursement attempts and return the funds no later than 240 days after the date it issued the check. *34 C.F.R. §668.164(l); 2015-2016 Federal Student Aid Handbook, Volume 4, Chapter 2*

Noncompliance: Highland failed to return Title IV, HEA credit balances to the Department in a timely manner after attempts to pay the credit balances to students were unsuccessful.

During interviews with Highland staff, it was disclosed that Highland does not maintain policies and procedures for making further attempts to pay Title IV, HEA fund credit balances to students when initial attempts fail. It was also established that Highland has not returned Title IV, HEA credit balances to the Department when it was unable to deliver them to the student or, as applicable, the parent within the allotted time frame.

A report compiled by Highland identified 44 credit balance checks containing Title IV, HEA funds issued between 04/25/2014 and 06/22/2016 that the institution had been unable to deliver to the student or parent, as applicable, and which remained in the institution's operating account. The total amount of the undelivered credit balance checks was $28,541.32. An unknown number of the undeliverable credit balance checks represented Title IV, HEA funds, either in part or wholly due to Highland's inability to differentiate Title IV, HEA funds from other funds.

Required Action: Highland must review the institution's account for undeliverable credit balance checks and identify all Title IV, HEA credit balances that Highland was unable to pay to

the student (or parent, in the case of PLUS Loan funds) within 240 days, and that the institution failed to pay to the Department within the prescribed time frame, including any Title IV, HEA funds that were allowed to escheat to the state. Highland must compile a report based on this file review, and submit the report with its response. The report must include the following elements:

1) Award year in which Title IV, HEA credit balance was created;
2) Student's first name, last name;
3) Student's Social Security number;
4) Title IV program(s), date(s), and disbursement amount(s) causing the credit balance;
5) Amount of Title IV, HEA credit balance;
6) Date and check number of Title IV, HEA credit balance check was issued (or electronic transfer was attempted);
7) Complete and legible copy of student's original account card;
8) Date funds escheated to the state, as applicable;
9) Date Title IV, HEA credit balance was paid to student, as applicable.

The file review spreadsheet must also clearly indicate the particular Title IV, HEA program or programs that created a particular Title IV, HEA credit balance. The following abbreviations should be used in the spreadsheet to indicate the various programs: Pell, FSEOG, FWS, DL Sub, DL Unsub, and DL PLUS. If a particular Title IV, HEA credit balance was composed of more than one type of Title IV, HEA funding, Highland must identify the amounts attributable to each program.

For each student identified in the spreadsheet, Highland must also provide legible copies of the following documents:

- Comprehensive student account card;
- Legible copy of all checks included in the Title IV, HEA credit balance report.

The Title IV, HEA credit balance file review spreadsheet discussed above should be compiled in an Excel spreadsheet program and submitted in the following manner:

Award year	Student's last name, first name	SSN	Title IV program	Date of disbursement	Amount of disbursement
2015/16	Doe, Jane	*** ** ****	Pell	1/1/16	$1,000.25
2015/16	Doe, Jill	*** ** ****	DL Sub	6/28/16	$2,000.00
2015/16	" " "	" " "	DL Unsub	6/28/16	$3,000.00

(continued)

Amount of Title IV credit balance	Date credit balance paid to Department, if applicable	Check Number of credit balance outstanding	Amount of credit balance outstanding	Date funds escheated to state
$500.25	3/1/16	12234	$0	n/a
$125.00	n/a	12235	$125.00	n/a
$3,000.00	n/a	12236	$3,000.00	n/a

Additionally, Highland must develop and implement procedures for monitoring Title IV, HEA credit balances to ensure that all unpayable Title IV, HEA credit balances are returned to the Department within the require time frames. A detailed discussion of these revised procedures must accompany Highland's response.

Hard copy and electronic files containing PII must be safeguarded as described in the enclosure to the cover letter of this report. Instructions for repayment of any liabilities will be provided in the FPRD letter. *Highland should not attempt to repay any liabilities until the FPRD letter is issued.*

Finding 3: Improper Holding Title IV Credit Balances

Citation: Federal regulations state that an institution is permitted to hold Title IV credit balances if it obtains a voluntary authorization from the student (or parent, in the case of PLUS).
In obtaining the student's or parent's authorization, an institution—

1) May not require or coerce the student or parent to provide that authorization;
2) Must allow the student or parent to cancel or modify that authorization at any time; and
3) Must clearly explain how it will carry out that activity.

If a student or parent cancels an authorization to hold Title IV funds, the institution must pay those funds directly to the student or parent as soon as possible but no later than 14 days after the institution receives that notice. *34 C.F.R. §668.165(b)*

All elements of an authorization to hold a Title IV credit balance must be conspicuous. An authorization must include the following elements:

1) An authorization must explain what FSA funds are covered by the document, and it must specify the time period covered;
2) An authorization must clearly provide the student or parent with the information he or she needs to make an informed decision;
3) The student or parent must be informed that he or she may refuse to authorize any individual item, that he or she may cancel such authorization at any time, and that a cancellation is not retroactive;

4) A credit-balance authorization must provide detail that is sufficient to give the student or parent an idea of how the credit balance will be used.

If the Department has placed a school on reimbursement or determines that the school has failed to meet financial responsibility standards, it may choose to prohibit the school from holding a credit balance for any student. *2015-2016 Federal Student Aid Handbook, Volume 4, Chapter 2*

The Secretary has sole discretion to determine the method under which the Secretary provides Title IV, HEA program funds to an institution. In accordance with procedures established by the Secretary, the Secretary may provide funds to an institution under the advance payment method, reimbursement payment method, or heightened cash monitoring payment method. Under the heightened cash monitoring payment method, an institution must credit a student's ledger account for the amount of Title IV, HEA program funds that the student or parent is eligible to receive, and pay the amount of any credit balance due. *34 C.F.R. § 668.162(a),(d)*

Noncompliance: Student credit balances were held without proper written authorization from students and parents. During interviews with Highland staff, it was disclosed Highland did not have a formal authorization process to hold Title IV, HEA credit balances but indicated student credit balances, of which may or may not be Title IV, HEA credit balances, were being held by Highland. This practice was applied an unknown number of times and may or may not have contained Title IV, HEA funds, either in part or wholly.

Further, Highland is on Heightened Cash Monitoring 1 (HCM1) as of June 26, 2015. Due to being on HCM1, Highland was not permitted to hold credit balances effective July 1, 2016 when revisions to 34 C.F.R. §668.162 went into effect.

Required Action: Highland must cease its practice of holding Title IV, HEA credit balances on student accounts beyond 14 days after the credit balances occurred while on HCM1. If Highland chooses to hold Title IV, HEA credit balances once off HCM1 Highland is reminded that the authorization form must conform to the Department's requirements.

Finding 4: Failure to Reconcile Title IV Accounts on a Monthly Basis

Citation: Participation of a school in the Direct Loan Program means that eligible students at the school may receive Direct Loans. To participate in the Direct Loan Program, a school must, on a monthly basis, reconcile institutional records with Direct Loan funds received from the Secretary and Direct Loan disbursement records submitted to and accepted by the Secretary. *34 C.F.R. § 685.300 (a)(5)*

A school that participates in the Direct Loan Program is required to reconcile cash (the funds it has received (from the G5 system) to pay its students) with disbursements (the actual disbursement records) it has submitted to the Common Origination and Disbursement (COD) system. Schools are required to reconcile monthly.

Internal reconciliation is the process where the business and financial aid offices compare their Direct Loan records to ensure that they match, both in disbursement date and disbursement amount. The frequency and methods used for internal reconciliation are based on school decision and need but should occur at least monthly and before the required monthly reconciliation to the Direct Loan Student Account Summary (SAS).

The business office should review its Direct Loan account bank statement to ensure that funds drawn and returned are in the appropriate year. In addition the business office will need to regularly monitor the account to comply with cash management regulations, i.e., making sure those funds are drawn for immediate need and any funds that cannot be used within cash management guidelines are returned promptly.

A school has completed its monthly reconciliation when all differences between the SAS and the school's internal records (Direct Loan System, financial aid office, and business office system) have been resolved or documented. Schools should clearly outline their method of documentation in both business office and financial aid office procedures.

The Department does not mandate or prescribe any particular method of documentation, which allows your school to determine the type and method that best suits your internal processes. Your school must maintain documented results of its monthly reconciliation to provide to auditors and reviewers at their request but does not need to send any proof of this reconciliation to the Department. *2015-2016 Federal Student Aid Handbook, Volume 4*

Noncompliance: Highland failed to reconcile Title IV program receipts and expenditures on a monthly basis. During the on-site portion of the program review it was established, in interviews with business office staff, that Highland reconciles its expenditures of Pell Grants, Direct Loans, and FSEOG on a bi-monthly basis rather than on the required monthly basis.

Required Action: Highland must develop and implement procedures to ensure that all Title IV program activity is reconciled on a monthly basis, and that such reconciliations take into account financial aid office and business office activity, as well as the Department's G5 and COD systems. A detailed discussion of these revised procedures must accompany Highland's response to this report.

Finding 5: Failure to Resolve Conflicting Information

Citation: To begin and to continue to participate in any Title IV, HEA program, an institution shall demonstrate to the Secretary that the institution is capable of adequately administering that program under each of the standards established in this section. The Secretary considers an institution to have that administrative capability if the institution –

- Administers the Title IV, HEA programs in accordance with all statutory provisions of or applicable to Title IV of the HEA, all applicable regulatory provisions prescribed under

that statutory authority, and all applicable special arrangements, agreements, and limitations entered into under the authority of statutes applicable to Title IV of the HEA; and

- Designates a capable individual to be responsible for administering all the Title IV, HEA programs in which it participates and for coordinating those programs with the institution's other Federal and non-Federal programs of student financial assistance. *34 C.F.R. §668.16(a),(b)(1)*

A school must have a system of identifying and resolving discrepancies in all FSA-related information received by any school office. A school must resolve discrepancies for all students, not just those selected for verification. Resolution includes determining what information is correct and documenting the school's findings in the student's file.

Such a system must include a review of :

- All student aid applications, need analysis documents, multiple reporting records, potential overawards from COD, statements of educational purpose, statements of registration status, and eligibility notification documents presented by or on behalf of each applicant.
- The Student Aid Report/ISIR for a student. Even if a school has already verified the information on a student's SAR/ISIR, it must review all information on subsequent SARs/ISIRs.
- Any documents, including copies of federal tax return and tax account transcripts, that are normally collected by the school to verify information received from the student or other sources.
- Any other information submitted or normally available to the school regarding a student's citizenship, previous educational experience, or Social Security number or other factors relating to the student's eligibility for FSA funds. *2015-2016 Federal Student Aid Handbook, Volume 2, Chapter 3*

Noncompliance: Highland failed to resolve conflicting information reported on the ISIR for two students as it relates to student status question 55, "Are/Were you in the Legal Guardianship as determined by a court in your state of legal residence?"

Student #4: The 2015-2016 ISIR indicates the student answered 'Yes' to the question "Are/Were you in the Legal Guardianship as determined by a court in your state of legal residence?". However, documentation included in the student's financial aid file indicates the student was only placed into temporary custody of the student's grandmother.

Student #15: The 2015-2016 ISIR indicates the student answered 'Yes' to the question "Are/Were you in the Legal Guardianship as determined by a court in your state of legal residence?". However, documentation included in the student's financial aid file indicates the student was only placed into temporary custody of family friends.

Required Action: In response to this finding, Highland must ensure the information reported on the ISIR is accurate and it resolves conflicting information when applicable. Highland must revise its procedures to ensure that conflicting information is reported to the capable individual responsible for administering all the Title IV, HEA programs at the institution. A detailed discussion of these revised procedures must accompany Highland's response.

Finding 6: National Student Loan Data System (NSLDS) Reporting Incorrect/Untimely

Citation: Federal regulations state that a school shall—

(1) Upon receipt of a student status confirmation report form from the Secretary, complete and return that report within 30 days of receipt; and
(2) Unless it expects to submit its next student status confirmation report to the Secretary within the next 60 days, notify the Secretary within 30 days if it discovers that a Direct Subsidized, Direct Unsubsidized, or Direct PLUS Loan has been made to or on behalf of a student who –
    (i) Enrolled at that school but has ceased to be enrolled on at least a half-time basis;
    (ii) Has been accepted for enrollment at that school but failed to enroll on at least a half-time basis for the period for which the loan was intended; or
    (iii) Has changed his or her permanent address. *34 C.F.R. § 685.309*

Student enrollment information is extremely important. It is used to determine if the student is still considered in school, must be moved into repayment, or is eligible for an in-school deferment. For students moving into repayment, the out-of-school status effective date determines when the grace period begins and how soon a student must begin repaying loan funds.

The institution is required to report changes in the student's enrollment status, the effective date of the status, and an anticipated completion date. Changes in enrollment to less than half-time, graduated, or withdrawn must be reported within 30 days. *2015-2016 Federal Student Aid Handbook, Volume 2, Chapter 3*

Schools should report enrollment information for students who have received or benefited from any Title IV grant or loan, at your school or at a previously attended school. *NSLDS Enrollment Reporting Guide, Chapter 2, November 2016*

Noncompliance: On a systemic basis, Highland failed to report student enrollment data to NSLDS properly or in a timely manner. Highland reported student enrollment status to NSLDS incorrectly or late in 7 of the 30 student files reviewed. The following list is a sample of students who were reported incorrectly:

Student #2: Highland failed to report the updated enrollment status to NSLDS upon the student's withdrawal from the institution. Student completed the Spring 2016 semester as a full time student per the student's academic transcript. No further enrollment history was listed on

the student's academic transcript or in NSLDS indicating the student had withdrawn. Failure to report changes in enrollment status affects the start of the student's grace period, and therefore the interest accrued by the student.

Student #4: Highland failed to report the updated enrollment status to NSLDS upon the student's withdrawal from the institution. Student completed the Spring 2016 semester as a full time student per the student's academic transcript. No further enrollment history was listed on the student's academic transcript or in NSLDS indicating the student had withdrawn. Failure to report changes in enrollment status affects the start of the student's grace period, and therefore the interest accrued by the student.

Student #8: Highland failed to report the updated enrollment status to NSLDS upon the student's withdrawal from the institution. Student completed the Spring 2016 semester as a full time student and was listed as graduated on May 13, 2016 per the student's academic transcript. No further enrollment history was listed on NSLDS indicating the student had graduated. Failure to report changes in enrollment status affects the start of the student's grace period, and therefore the interest accrued by the student.

Student #30: Highland failed to report the student to NSLDS within the required timeframe. The student's academic transcript shows the student began attendance at Highland during the Summer 2016 semester. Highland did not report to NSLDS until 02/21/2017, past the required 30 days deadline.

Required Action: Highland is required to review the enrollment status of all students at the institution in the 2014-15 and 2015-16 award years, and update enrollment statuses for all students to correctly reflect each student's enrollment. The institution must provide a discussion of the results of this review of enrollment status reporting in its response to this report, and must provide documentation to show that all updates have been made. Additionally, Highland must review and, as necessary, revise its policies and procedures in relation to NSLDS reporting processes. A copy of these documents must be submitted with Highland's response to the PRR.

Finding 7: Failure to Perform Direct Loan Exit Counseling

Citation: An institution must ensure that exit counseling is conducted with each Direct Loan borrower either in person, by audiovisual presentation, or by interactive electronic means. In each case, the institution must ensure that this counseling is conducted shortly before the student borrower ceases at least half-time study at the institution, and that an individual with expertise in the Title IV, HEA programs is reasonably available shortly after the counseling to answer the student borrower's questions.

As an alternative, in the case of a student borrower enrolled in a correspondence program or a study-abroad program that the home institution approves for credit, written counseling materials may be provided by mail within 30 days after the student borrower completes the program. If a

student borrower withdraws from the institution without the institution's prior knowledge, or fails to complete an exit counseling session as required, the institution must ensure that exit counseling is provided through either interactive electronic means or by mailing written counseling materials to the student borrower at the student borrower's last known address within 30 days after learning that the student borrower has withdrawn from the institution or failed to complete the exit counseling as required.

Institutions may rely on Web counseling services, if these services provide all information required by regulation. Regulations also require that knowledgeable financial aid staff be reasonably available to answer questions from student borrowers. Institutions must document student files to illustrate that the counseling was performed. If exit counseling is conducted by electronic interactive means, the institution must take reasonable steps to ensure that each student borrower receives the counseling materials, and participates in and completes the counseling. The institution must maintain documentation substantiating the institution's compliance with this section for each student borrower. *34 C.F.R. §685.304(b)*

Noncompliance: On a systematic basis, Highland failed to properly document that it provided Direct Loan exit counseling, either in-person, by audiovisual presentation, or by interactive electronic means. Program Reviewers were provided a letter template used by Highland for exit counseling purposes but were unable to determine when the required students received exit counseling because no date or names were listed on the provided letter templates.

Required Action: In Highland's response to this report, Highland must provide exit counseling materials to each student borrower who was determined to have graduated or student borrowers who ceased at least half-time study at the institution during the 2015-2016 and 2016-2017(year-to-date) award years. Highland may exclude students who have completed exit counseling via studentloans.gov. A receipt of certified mailing is considered adequate documentation.

Additionally, Highland must review and, as necessary, revise its policies and procedures for performing Direct Loan exit counseling in accordance with federal regulations. A detailed discussion of these reviewed and revised procedures should accompany Highland's response.

As a reminder, hard copy and electronic files containing PII must be safeguarded as described in the enclosure to the cover letter of this report.

Finding 8: Inadequate Federal Work Study Job Descriptions

Citation: Federal regulations state that a student's work must be governed by employment conditions, including pay, that are appropriate and reasonable in terms of type of work, geographical region, employee proficiency, and any applicable federal, state or local law. *34 C.F.R. §675.20(c)*

Job descriptions for all FWS positions should be a part of the control procedures included in an institution's policies and procedures manual. A written job description will ensure that the position is one that qualifies under the FWS program regulations. In addition, a written job description provides students with the information they need to determine whether they qualify for the job, whether the job is related to their educational or career objectives, and whether the job is of interest to them.

Finally, a written job description establishes a record to which all parties can refer. In addition, it can help avoid disagreements and adjudication and provide a reference in such cases.

If a student is employed with an agency or organization that provides community services, the institution should, as with any other FWS position, have a job description that includes the duties and the responsibilities. Institutions should use the job description to verify that the job meets the definition of community services in the FWS regulations. In addition, for students performing reading tutoring or family literacy activities, the job description should support those jobs.

Every FWS position should have a job description that includes the following:

(1) Name of the position;
(2) Classification of the position (e.g., reading tutor 1, laboratory assistant);
(3) Name and address of the student's employer (the school, public agency, etc.);
(4) Department or office in which the student will be employed;
(5) Location where the student will perform his/her duties;
(6) Name of the student's supervisor;
(7) Purpose/role of the position within the organization;
(8) Duties and responsibilities associated with the position and how they relate to the purpose/role;
(9) Rates of pay for the position (cross-referenced to the wage rates appearing in the school's policies and procedures manual);
(10) General qualification for the position and the specific qualification for the levels/rates of pay associated with the position;
(11) The length of student's employment (beginning and end dates);
(12) Procedures for determining a student's rate of pay when a position has multiple rates; and
(13) Evaluation procedures and schedules.
2015-2016 Federal Student Aid Handbook, Volume 6, Chapter 2

Noncompliance: Highland failed to fully develop FWS job descriptions in the 2015-2016 and 2016-2017 (year to date) award years.

A review of Highland's 2015-2016 and 2016-2017 FWS job descriptions disclosed that none of the descriptions appear to include all of the elements required by federal regulations and

guidance. For example, the 2016-2017 FWS job description for the "Theatre – Fine Arts" position is missing the following required elements:

1) Classification of the position;
2) Name and address of the student's employer;
3) Location where the student will perform his/her duties;
4) Name of the student's supervisor;
5) Purpose/role of the position within the organization;
6) General qualification for the position and the specific qualification for the levels/rates of pay associated with the position;
7) The length of student's employment (beginning and end dates).

Required Action: Highland must review and revise all of its current FWS job descriptions for each on and off-campus FWS position, so that the descriptions include all the required elements identified in federal regulations and guidelines. Copies of these revised job descriptions must be included with Highland's response to this report.

Also, Highland must review and revise its internal policies and procedures to ensure that FWS job descriptions are properly developed and maintained in the future. A detailed discussion of these revised policies and procedures must accompany Highland's response to this report.

Finding 9: Improper Federal Work Study Payments

Citation: As a participant in the FWS program, an institution must establish and maintain fiscal records for each student employed under the FWS program, which includes a certification that each student has worked and earned the wage amount being paid. The student's supervisor, or an official of the institution or off-campus agency, must sign the certification, which must include, for students being paid on an hourly basis, a timesheet showing the hours each student worked and the rate of pay. *34 C.F.R. §675.19(b)(2)(i)*

When deciding on an appropriate FWS award for a student, an institution should consider the student's academic workload and any other factors that might affect the hours that a student could work each week. *2015-2016 Federal Student Aid Handbook, Volume 3, Chapter 6*

In general, students are not permitted to work in FWS positions during scheduled class times. Exceptions are permitted if an individual class is cancelled, if the instructor has excused the student from attending for a particular day, and if the student is receiving credit for employment in an internship, externship, or community work-study experience. Any such exemptions must be documented. *2015-2016 Federal Student Aid Handbook, Volume 6, Chapter 2*

Noncompliance: Highland does not have a system in place to ensure students are not working during scheduled class times. Highland paid FWS funds to one student who worked during class time:

Student	Date	FWS time in	FWS time out	Course	Class start time	Class end time
14	09/01/2015	1:00PM	4:00PM	SOC101	2:30PM	3:20PM

Required Action: Highland must review and, as necessary, revise its policies and procedures in relation to FWS awarding, disbursement, and recordkeeping to ensure that in the future the institution will monitor the work and academic schedules of FWS recipients more effectively to ensure that students work only during appropriate hours or that exceptions are documented and retained. A detailed discussion of these FWS policies and procedures must accompany Highland's response to this report.

Finding 10: Failure to Employ Federal Work Study as Reading Tutor or for Family Literacy Activities

Citation: An institution must use at least seven percent of the sum of its initial and supplemental FWS allocations for an award year to compensate students employed in community service activities. In meeting this community service requirement, an institution must include at least a reading tutoring project that employs one or more FWS students as reading tutors for children who are preschool age or are in elementary school or Family literacy project that employs one or more FWS students in family literacy activities.

The Secretary may waive the FWS community service requirements if the Secretary determines that an institution has demonstrated that enforcing the requirements would cause a hardship for students at the institution. To the extent practical, in providing reading tutors for children, an institution must—

1) Give priority to the employment of students to tutor in reading in schools that are participating in a reading reform project that is designed to train teachers how to teach reading on the basis of scientifically-based research on reading, and is funded under the Elementary and Secondary Education Act of 1965; and
2) Ensure that any student who is employed at a school participating in a reading reform project receives training from the employing school in the instructional practices used by the school. *34 C.F.R. §675.18(g)*

There are two community service expenditure requirements that a school must meet. A school must use at least 7% of its FWS federal allocation for an award year to pay the federal share of wages to students employed in community service jobs for that year.

1) In meeting the 7% community service requirement, one or more of the school's FWS students must be employed as a reading tutor for children in a reading tutoring project or performing family literacy activities in a family literacy project.

2) A school that fails to meet one or both of these FWS community service requirements will be required to return FWS federal funds in an amount that represents the difference between the amount a school should have spent for community service and the amount it actually spent.

A school may request a waiver of the community service and tutor requirements; the request must be in writing. The fact that it may be difficult for the school to comply with these requirements is not, in and of itself, a basis for granting a waiver. To request a waiver for an award year, a school must send a waiver request and any supporting information or documentation to the Department by the established deadline date of that award year. *2015-2016 Federal Student Aid Handbook, Volume 6, Chapter 2*

Noncompliance: Highland failed to employ any FWS students as reading tutors or in Family Literacy activities during the 2015-2016 and 2016-2017 (year-to-date) award years. Highland also stated to Program Reviewers during the on-site interviews that Highland had not requested a waiver from the community service requirement as listed above.

Required Action: Highland must take steps to come into compliance with the FWS community service requirements. Highland can either employ a reading tutor as required, or apply to be approved for a waiver of this requirement. A detailed discussion of the steps taken to come into compliance, including a copy of the application and response letter, if applicable, should accompany Highland's response to this report.

Finding 11: Incorrect Direct Loan Awarding

Citation: In the case of an undergraduate student who has not successfully completed the first year of a program of undergraduate education, the total amount the student may borrow for any academic year of study under the Federal Direct Subsidized Program may not exceed $3,500 for a program of study of at least a full academic year in length.

In the case of an undergraduate student who has successfully completed the first year of an undergraduate program but has not successfully completed the second year of an undergraduate program, the total amount the student may borrow for any academic year of study under the Federal Direct Subsidized Loan Program may not exceed $4,500, for a program of study of at least a full academic year in length. *34 C.F.R. § 685.203(a)(1)*

Noncompliance: Highland failed to properly award Direct Loans in two instances.

Student #12: Highland awarded and disbursed the improper amount of Subsidized Loan. Student was enrolled in the Associate of Arts – Business Administration degree, which required 63 credit hours to complete per Highland's academic catalog. Student earned 0 credit hours prior to the start of the Fall 2015 semester per the student academic transcript. Highland awarded and disbursed a $4,500 Subsidized Loan instead of $3,500 to the student for the Fall 2015-Spring

2016 award year prior to the student earning the 24 hours required to qualify for grade level 2 loan limits.

Student #13: Highland awarded and disbursed the improper amount of Subsidized Loan. Student was enrolled in the Associate of Arts degree, which required 63 credit hours to complete per Highland's academic catalog. Student earned 0 credit hours prior to the start of the Spring 2016 semester per the student academic transcript. Highland awarded and disbursed a $2,250 Subsidized Loan instead of $1,750 to the student for the Spring 2016 term prior to the student earning the 24 hours required to qualify for grade level 2 loan limits.

Required Action: Highland must submit updated policies and procedures to ensure Highland will correctly award students using the published academic year definition and correct grade level. A copy of the update of the updated policies and procedures should be included in Highland's response.

Finding 12: Inaccurate Title IV, HEA Award Notifications

Citation: Before an institution disburses title IV, HEA program funds for any award year, the institution must notify a student of the amount of funds that the student or his or her parent can expect to receive under each title IV, HEA program, and how and when those funds will be disbursed. If those funds include Direct Loan program funds, the notice must indicate which funds are from subsidized loans, which are from unsubsidized loans, and which are from PLUS loans. If an institution credits a student ledger account with Direct Loan, the institution must notify the student or parent of the anticipated date and amount of the disbursement the student's or parent's right to cancel all or a portion of that loan, loan disbursement.

The institution must provide the notice no earlier than 30 days before, and no later than 30 days after, crediting the student's ledger account at the institution, if the institution obtains affirmative confirmation from the student. A student or parent must inform the institution if he or she wishes to cancel all or a portion of a loan, or loan disbursement. *34 C.F.R. § 668.165(a)*

A school must notify a student of the amount of funds the student and his or her parent can expect to receive from each FSA program, and how and when those funds will be disbursed. This notification must be sent before the disbursement is made.

If the funds include a Direct Loan, the notice must indicate which funds are from subsidized loans and which are from unsubsidized loans. A school must provide the best information that it has regarding the amount of FSA program funds a student can expect to receive. Because the actual loan disbursements received by a student may differ slightly from the amount expected by the school (due to loan fees and rounding differences), you may include the gross amount of the loan disbursement or a close approximation of the net disbursement amount.

When Direct Loan funds are being credited to a student's account, the school must also notify the borrower in writing (paper or electronically) of the:

1) anticipated date and amount of the disbursement;
2) borrower's right to cancel all or part of the loan or disbursement; and
3) procedures for canceling a Direct Loan and the time by which the borrower must notify the school that he or she wishes to cancel to loan disbursement.

2015-2016 Federal Student Aid Handbook, Volume 4

Noncompliance: Highland improperly disbursed an Unsubsidized Direct Loan to a student after the student declined the loan on the award letter notification. Student #25 declined the $4,271 Unsubsidized Direct Loan award on May 20, 2016. Per COD records, Highland disbursed $1,936 Unsubsidized Direct Loan on September 2, 2016 on the student's behalf.

Additionally, Highland failed to list award all Title IV, HEA funds earned by two students:

Student #2: Student ledger card shows $500 in FSEOG was received by the student on during the 2015-2016 award year but was not listed on the award letter notification.

Student #34: FWS payroll records provided to program reviewers indicate $941 was received by the student during the 2016-2017 award period (year-to-date) but a FWS award was not listed on the award letter notification.

Required Action: Highland must review and, as necessary, revise its policies and procedures for performing Title IV, HEA awarding to ensure all awarded funds are listed on the award letter notification in accordance with federal regulations. A detailed discussion of these reviewed and revised procedures should accompany Highland's response.

Finding 13: Failure to Update Eligibility and Certification Approval Report (ECAR)

Citation: An institution may enter into a written contract with a third-party servicer for the administration of any aspect of an institution's participation in any Title IV, HEA program only to the extent that the servicer's eligibility to contract with the institution has not been limited, suspended, or terminated. However, an institution that participates in a Tile IV, HEA programs shall notify the Secretary within 10 days of that date of:

- When the institution enters into a new contract or significantly modifies an existing contract with a third-party servicer to administer any aspect of a Title IV, HEA program;
- The institution or a third-party servicer terminates a contract for the servicer to administer any aspect of a Title IV, HEA program; or
- A third-party servicer that administers any aspect of the institution's participation in a Title IV, HEA program stops providing services for the administration of that program, does out of business, or files a petition under the Bankruptcy Code; and

- The name and the address of the servicer. *34 C.F.R. §668.25*

Noncompliance: Highland contracts with Third Party Servicers Inceptia and National Student Clearinghouse to assist with Title IV, HEA operations, specifically with ISIR verification and student status reporting to the NSLDS system. However, Highland failed to notify the Department within 10 days of the institution's contract with these servicers.

Required Action: Highland submitted an electronic application to the Department on January 31, 2017 requesting acknowledgement of the Third Party Servicers mentioned in the above finding. The Department acknowledged the contracts between Highland and its Third Party Servicers on February 14, 2017. Consequently, no additional action is required in response to these updates. Highland is reminded to report to all substantive changes to the Department no later than 10 days after the change occurs.

Finding 14: Incorrect Gainful Employment Disclosures

Citation: A school must disclose certain information about each of its gainful employment programs to prospective students:

- the occupations that the program prepares students to enter (by occupation name and SOC code), with links to occupational profiles on the O*NET website (see sidebar);
- the program length (the normal time to complete the program);
- the on-time graduation rate for students completing the program;
- the tuition and fees the school charges a student for completing the program within normal time, the cost of room and board if applicable, and the typical costs for books and supplies (unless those costs are included as part of tuition and fees);
- the job placement rate for students completing the program;
- the median loan debt incurred by students who completed the program (separately by FSA loans, private education loans, and institutional financing plans, as described later); and
- other information the Department provided to the school about the program.
2015-2016 Federal Student Aid Handbook, Volume 2, Chapter 6

An institution must use the disclosure template provided by the Secretary to disclose information about each of its GE programs to enrolled and prospective students. The Secretary identifies the information that must be included in the template in a notice published in the FEDERAL REGISTER. *34 C.F.R. § 668.412(a)*

In accordance with procedures and timelines established by the Secretary, the institution must update at least annually the information contained in the disclosure template with the most recent data available for each of its GE programs. On any Web page containing academic, cost, financial aid, or admissions information about a GE program maintained by or on behalf of an institution, the institution must provide the disclosure template for that program or a prominent,

readily accessible, clear, conspicuous, and direct link to the disclosure template for that program. The Secretary may require the institution to modify a Web page if it provides a link to the disclosure template and the link is not prominent, readily accessible, clear, conspicuous, and direct. *34 C.F.R. § 668.412(b)*

It is important that the institution provide the disclosure data to its prospective students in a simple and meaningful way. It must be easy to understand for the student population and must be in an open document format that can be retrieved, downloaded, indexed, and searchable using commonly used Web search applications. This means that the format of the data must be readable with different operating systems (Windows, Mac, etc.) that are likely to be used by prospective students to view the information. It should be relatively easy for a prospective student to access this information in a few clicks of the mouse, and institutions should take care not to bury the disclosure information within their websites. *Gainful Employment Operations Manual*
ifap.ed.gov/GainfulEmploymentOperationsManual/attachments/GainfulEmploymentOperations ManualMasterFile.pdf

Noncompliance: Highland failed to properly disclose gainful employment information to its website in three aspects:

- Information was not published in the Department mandated format;
- Information published was not the most current year information;
- Information was not reasonably accessible within the school's website.

Required Action: Highland was notified during the on-site portion of the program review that gainful employment disclosures published were incorrect. The current format of the posted disclosures is not in compliance. Highland must correct the disclosures by using the Department's most recent published template.

E. Appendices

Appendix A (Student Sample) contains personally identifiable information and will be emailed to Highland as an encrypted WinZip file using Advanced Encryption Standard, 256-bit. The password needed to open the encrypted WinZip file(s) will be sent in a separate email.

RE: **Final Program Review Determination**
         OPE ID: 00192100
         PRCN: 201720729523

Dear President Reist:

The U.S. Department of Education's (Department's) School Participation Team – Kansas City
issued a program review report on April 13, 2017 covering Highland Community College's
(Highland) administration of programs authorized by Title IV of the Higher Education Act of
1965, as amended, 20 U.S.C. §§ 1070 et seq. (Title IV, HEA programs), for the 2015-2016 and
2016-2017 award years. Highland's final response was received on June 13, 2017. A copy of the
program review report (and related attachments) and Highland's response are attached. Any
supporting documentation submitted with the response is being retained by the Department and
is available for inspection by Highland upon request. Additionally, this Final Program Review
Determination (FPRD), related attachments, and any supporting documentation may be subject
to release under the Freedom of Information Act (FOIA) and can be provided to other oversight
entities after this FPRD is issued.

Purpose:

Final determinations have been made concerning all of the outstanding findings of the program
review report. The purpose of this letter is to: (1) identify liabilities resulting from the findings of
this program review report, (2) provide instructions for payment of liabilities to the Department,
(3) notify the institution of its right to appeal.

The total liabilities due from the institution from this program review are $51,494.00. The
repayment requirements are addressed in the FPRD.

This final program review determination contains detailed information about the liability
determination for all findings.

Protection of Personally Identifiable Information (PII):

PII is any information about an individual which can be used to distinguish or trace an
individual's identity (some examples are name, social security number, date and place of birth).

The loss of PII can result in substantial harm, embarrassment, and inconvenience to individuals and may lead to identity theft or other fraudulent use of the information. To protect PII, the findings in the attached report do not contain any student PII. Appendices A-D contain PII and were encrypted and sent separately to the institution via e-mail.

Appeal Procedures:

This constitutes the Department's FPRD with respect to the liabilities identified from the April 13, 2017 program review report. If Highland wishes to appeal to the Secretary for a review of financial liabilities established by the FPRD, the institution must file a written request for an administrative hearing. Please note that institutions may appeal financial liabilities only. The Department must receive the request no later than 45 days from the date Highland receives this FPRD. An original and four copies of the information Highland submits must be attached to the request. The request for an appeal must be sent to:

> Director
> Administrative Actions and Appeals Service Group
> U.S. Department of Education
> Federal Student Aid/PC
> 830 First Street, NE - UCP3, Room 84F2
> Washington, DC 20002-8019

Highland's appeal request must:

> (1) indicate the findings, issues and facts being disputed;
> (2) state the institution's position, together with pertinent facts and reasons supporting its position;
> (3) include all documentation it believes the Department should consider in support of the appeal. An institution may provide detailed liability information from a complete file review to appeal a projected liability amount. Any documents relative to the appeal that include PII data must be redacted except the student's name and last four digits of his / her social security number (please see the attached document, "Protection of Personally Identifiable Information," for instructions on how to mail "hard copy" records containing PII); and
> (4) include a copy of the FPRD. The program review control number (PRCN) must also accompany the request for review.
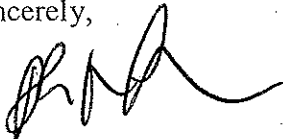

If the appeal request is complete and timely, the Department will schedule an administrative hearing in accordance with § 487(b)(2) of the HEA, 20 U.S.C. § 1094(b)(2). The procedures followed with respect to Highland 's appeal will be those provided in 34 C.F.R. Part 668, Subpart H. **Interest on the appealed liabilities shall continue to accrue at the applicable value of funds rate, as established by the United States Department of Treasury, or if the liabilities are for refunds, at the interest rate set forth in the loan promissory note(s).**

Record Retention:

Program records relating to the period covered by the program review must be retained until the later of: resolution of the loans, claims or expenditures questioned in the program review; or the end of the retention period otherwise applicable to the record under 34 C.F.R. §§ 668.24(e)(1), (e)(2), and (e)(3).

The Department expresses its appreciation for the courtesy and cooperation extended during the review. If the institution has any questions regarding this letter, please contact Matthew Monsees at (816)268-0429. Questions relating to any appeal of the FPRD should be directed to the address noted in the Appeal Procedures section of this letter.

Sincerely,

Ralph LoBosco
Division Director

Table of Contents

A. Institutional Information

Highland Community College
602 West Main
Highland, KS 66035

Type: Public

Highest Level of Offering: Associate's Degree

Accrediting Agency: North Central Association of Colleges and Schools - CIHE (Higher Learning Commission)

Current Student Enrollment per institution: 3355 (Fall 2015)

% of Students Receiving Title IV per institution: 32.52% (Fall 2015)

Title IV Participation (G5):

	2014-2015
Federal Pell Grant (Pell)	$ 3,670,509
Federal Supplemental Educational Opportunity Grant (FSEOG)	$ 44,561
Federal Work-Study (FWS)	$ 82,685
Federal Direct Loans (DL)	$ 4,569,127

Default Rate FFEL/DL:	2013	18%
	2012	16.2%
	2011	25.3%

B. Scope of Review

The U.S. Department of Education (the Department) conducted a program review at Highland Community College (Highland) from January 23, 2017 to January 27, 2017. The review was conducted by John Nading, Jenny Hendrickson, Matthew Monsees and Carol Hayes.

The review was focused on distance education and student eligibility. The review consisted of an examination of Highland's policies and procedures regarding institutional and student eligibility, individual student financial aid and academic files, attendance records, student account ledgers, and fiscal records.

A sample of 40 files was identified for review from the 2015-2016 and 2016-2017 (year to date) award years. The files were selected randomly from a statistical sample of the total population receiving Title IV, HEA program funds for each award year. Appendix A lists the names and partial social security numbers of the students whose files were examined during the program review. A program review report was issued on April 13, 2017.

Disclaimer:

Although the review was thorough, it cannot be assumed to be all-inclusive. The absence of statements in the report concerning Highland's specific practices and procedures must not be construed as acceptance, approval, or endorsement of those specific practices and procedures. Furthermore, it does not relieve Highland of its obligation to comply with all of the statutory or regulatory provisions governing the Title IV, HEA programs.

C. Findings and Final Determinations

Resolved Findings

Findings #3-11

Highland has taken the corrective actions necessary to resolve Findings #3-11 of the program review report. Therefore, these findings may be considered closed. Findings requiring further action by Highland are discussed below.

Findings with Final Determinations

The program review report findings requiring further action are summarized below. At the conclusion of each finding is a summary of Highland's response to the finding, and the Department's final determination for that finding. A copy of the program review report issued on April 13, 2017 is attached as Appendix D.

Note: Any additional costs to the Department, including interest, special allowances, cost of funds, unearned administrative cost allowance, etc., are not included in individual findings, but instead are included in the summary of liabilities table in Section D – Summary of Liabilities on page 10 of the report.

Finding #1: Late/Incorrect Return to Title IV Funds Calculation

Citation Summary: Federal regulations state that when a recipient of Title IV, HEA funds withdraws from an institution during a payment period or period of enrollment in which the recipient began attendance, the institution must perform a Return of Title IV Funds calculation to determine the amount of Title IV, HEA grant or loan assistance the student earned as of the student's withdrawal date. A student is considered to have withdrawn from a payment period or period of enrollment if in the case of a program that is measured in credit hours, the student does not complete all the days in the payment period or period of enrollment that the student was scheduled to complete. The calculation should incorporate all of the elements of a Return of Title IV Funds calculation identified in pertinent Federal regulations. 34 C.F.R. § 668.22(a)

For a student who ceases attendance at an institution that is required to take attendance, the student's withdrawal date is the last date of academic attendance as determined by the institution from its attendance records. An institution must document a student's withdrawal date and maintain the documentation as of the date of the institution's determination that the student withdrew. An institution is required to take attendance if the institution itself has a requirement that its instructors take attendance. 34 C.F.R. § 668.22(b)

Institutions are required to take attendance are expected to have a procedure in place for routinely monitoring attendance records to determine in a timely manner when a student withdraws. Except in unusual instances, the date of the institution's determination that the student withdrew should be no later than 14 days after the student's withdrawal date. 2015-2016 Federal Student Aid Handbook, Volume 5, Chapter 2

The total number of calendar days in a payment period or period of enrollment includes all days within the period that the student was scheduled to complete, except that scheduled breaks of at least five consecutive days are excluded from the total number of calendar days in a payment period or period of enrollment and the number of calendar days completed in that period. 34 C.F.R. § 668.22(f)

For a credit-hour program, the percentage of the period completed is determined by dividing the number of calendar days completed in the payment period or period of enrollment, as of the day the student withdrew, by the total number of calendar days in the same period. The number of calendar days in the numerator or denominator includes all days within the period, except for institutionally scheduled breaks of five or more consecutive days. The day the student withdrew is counted as a completed day. 2015-2016 Federal Student Aid Handbook, Volume 5, Chapter 1

An institution must return the amount of Title IV funds for which it is responsible as soon as possible but no later than 45 days after the date of the institution's determination that the student withdrew. 34 C.F.R. § 668.22(j)

The regulatory time line for most Return of Title IV Funds calculations is 45 days. Any action taken after a deadline, even a correction, is a violation of that deadline requirement. When an institution corrects a Return of Title IV Funds calculation and, as a result, returns funds after the 45-day deadline, it is a late return. 2015-2016 Federal Student Aid Handbook, Volume 5, Chapter 1

Noncompliance Summary: On a systemic basis, Highland failed to properly perform Return to Title IV Funds calculations in two aspects.

Failure to Adhere to Published Attendance Policy: Highland failed to maintain attendance records for all enrolled students. According to institution officials, Highland is not considered an institution that takes attendance, and does not consistently collect or maintain attendance records for all students for a payment period or period of enrollment.

Late Return to Title IV Fund Calculations: For a student who ceases attendance at an institution that is required to take attendance, the student's withdrawal date is the last date of academic attendance as determined by the institution from its attendance records. In discussions with Highland staff during the on-site portion of the program review, it was established that Highland did not consider itself as an attendance taking institution

or consistently track attendance, and that Return calculations for students who unofficially withdrew were performed at the conclusion of the payment period, therefore making them late.

Required Action Summary: *In response to this finding, Highland must provide comprehensive information for all Title IV, HEA program fund recipients who officially and unofficially withdrew during the 2015-2016 and 2016-2017 (year-to-date) award years. The institution must identify, review, and report on the files of all Title IV, HEA program fund recipients for whom a Return calculation should have been performed in any of the two award years. For Return calculations that are found to be improperly calculated Highland must perform a correct recalculation.*

Second, Highland must review and revise its internal policies and procedures to ensure that Returns of Title IV Funds are performed properly and in a timely manner in the future. A detailed discussion of these revised policies and procedures must accompany Highlands's response to this report.

Highland's Response: The attendance policy for Highland has been revised. Highland has removed the statement from the school catalog that stated that instructors will maintain course attendance for each student and left it up to the individual faculty members to determine individual attendance policies.

In regards to reviewing students for official and unofficial withdrawals, Highland has further refined reports to include the start and end dates for every class in order to better monitor and determine the student's payment period start and end dates.

Final Determination: The Department has reviewed Highland's updated policies and procedures as well as the records submitted for the file review provided by Highland which detailed all Return to Title IV calculations during the 2015-2016 award year and the 2016-2017 award year (year-to-date).

The Department has applied its Cost of Funds Calculation to Title IV, HEA funds that were incorrectly disbursed and/or retained in order to calculate the amounts owed, including interest, to the Department. The interest charges were computed using the cost of funds for the Federal Pell Grant Program published in the Federal Register by the Department of the Treasury. Detailed information about the liability determination may be found in Appendix B.

Highland's liability for this finding is **$23,120.07** which includes:

$3,578 Federal Pell Grant principal (2015-2016 award year);
$5,025 Federal Pell Grant principal (2016-2017 award year);
$5,656 Federal Direct Subsidized Loan principal (2015-2016 award year);
$462 Federal Direct Subsidized Loan principal (2016-2017 award year);

22807

3/3.07

$7,560 Federal Direct Unsubsidized Loan principal (2015-2016 award year);
$526 Federal Direct Unsubsidized Loan principal (2016-2017 award year);
$56.88 Federal Pell Grant interest (2015-2016 award year);
$38.19 Federal Pell Grant interest (2016-2017 award year);
$211 Federal Direct Loan interest (2015-2016 award year); and
$7 Federal Direct Loan interest (2016-2017 award year).

Student specific liabilities are outlined in Appendix B.

Highland must notify all students and/or borrowers in writing regarding payments made on their behalf. This notification must include the amount and date of the payments. A copy of this notification must accompany Highland's response to this report.

Instructions for repayment of the above liabilities are provided at the conclusion of this FPRD letter.

Finding #2: Inadequate Monitoring of Undeliverable Title IV, HEA Credit Balances

Citation Summary: A Title IV credit balance occurs whenever an institution credits Title IV program funds to a student's account and the total amount of those Title IV funds exceeds the student's allowable charges.

If Title IV disbursements to the student's account at the institution create a Title IV credit balance, the institution must pay the credit balance directly to the student or parent as soon as possible but no later than 14 days after:

The date the balance occurred on the student's account, if the balance occurred after the first day of class of a payment period; or
The first day of classes of the payment period if the credit balance occurred on or before the first day of class of that payment period. 34 C.F.R. § 668.164(h)(1)

The law requires that any excess PLUS Loan funds be returned to the parent. Therefore, if PLUS Loan funds create a credit balance, the credit balance would have to be given to the parent. However, the parent may authorize the institution (in writing or through StudentLoans.gov) to transfer the proceeds of a PLUS Loan credit balance directly to the student for whom the loan is made (for example, to a bank account in the student's name). The Department does not specify how an institution must determine which FSA funds create an FSA credit balance. An institution may not require a student to take any actions to obtain his or her credit balance. It is the sole responsibility of the institution to pay, or make available, any FSA credit balance within the 14-day regulatory time frames. 2015-2016 Federal Student Aid Handbook, Volume 4, Chapter 2

Notwithstanding any State law (such as a law that allows funds to escheat to the State), an institution must return to the Secretary, lender, or guaranty agency, any Title IV, HEA

*program funds, except FWS program funds, that it attempts to disburse directly to a
student or parent but the student or parent does not receive or negotiate those funds. For
FWS program funds, the institution is required to return only the federal portion of the
payroll disbursement.*

*If an institution attempts to disburse the funds by check and the check is not cashed, the
institution must return the funds no later than 240 days after the date it issued that check.
If a check is returned to the institution, or an EFT is rejected, the institution may make
additional attempts to disburse the funds, provided that those attempts are made not later
than 45 days after the funds were returned or rejected. In cases where the institution does
not make another attempt, the funds must be returned before the end of this 45-day
period. In cases where the institution makes further attempts, the institution must cease
any additional disbursement attempts and return the funds no later than 240 days after
the date it issued the check. 34 C.F.R. §668.164(l); 2015-2016 Federal Student Aid
Handbook, Volume 4, Chapter 2*

Noncompliance Summary: *Highland failed to return Title IV, HEA credit balances to the
Department in a timely manner after attempts to pay the credit balances to students were
unsuccessful.*

*During interviews with Highland staff, it was disclosed that Highland does not maintain
policies and procedures for making further attempts to pay Title IV, HEA fund credit
balances to students when initial attempts fail. It was also established that Highland has not
returned Title IV, HEA credit balances to the Department when it was unable to deliver
them to the student or, as applicable, the parent within the allotted time frame.*

Required Action Summary: *Highland must review the institution's account for
undeliverable credit balance checks and identify all Title IV, HEA credit balances that
Highland was unable to pay to the student (or parent, in the case of PLUS Loan funds)
within 240 days, and that the institution failed to pay to the Department within the
prescribed time frame, including any Title IV, HEA funds that were allowed to escheat to
the state. Highland must compile a report based on this file review, and submit the report
with its response.*

Highland's Response: Highland has reviewed the institution's account for undeliverable
credit balance checks and identified all Title IV, HEA credit balance that the College was
unable to pay to the student or parent within 240 days. Information regarding those
checks was included in Highland's response to the report.

Also included in the response, Highland has developed and implemented a policy and
procedures for the monitoring of Title IV, HEA credit balances to ensure that all
unpayable Title IV, HEA credit balances are returned to the U.S. Department of
Education within the required timeframes.

Final Determination: The Department has reviewed Highland's updated policies and procedures as well as the records submitted for the file review provided by Highland which detailed all undeliverable Title IV, HEA credit balances.

The Department has applied its Cost of Funds Calculation to Title IV, HEA funds that were incorrectly disbursed and/or retained in order to calculate the amounts owed, including interest, to the Department. The interest charges were computed using the cost of funds for the Federal Pell Grant Program published in the Federal Register by the Department of the Treasury. Detailed information about the liability determination may be found in Appendix B.

Highland's liability for this finding is **$28,374.08** which includes:

$27,977.01

$379.07

    $11,544.99 Federal Pell Grant principal;
    $750.00 Federal FSEOG Grant principal;
    $8,107.33 Federal Direct Subsidized Loan principal;
    $7,574.69 Federal Direct Unsubsidized Loan principal;
    $151.28 Federal Pell Grant interest;
    $5.79 Federal FSEOG Grant interest; and
    $240.00 Federal Direct Loan interest.

Student specific liabilities are outlined in Appendix B.

Highland must notify all students and/or borrowers in writing regarding payments made on their behalf. This notification must include the amount and date of the payments. A copy of this notification must accompany Highland's response to this report.

Instructions for repayment of the above liabilities are provided at the conclusion of this FPRD letter.

D. Summary of Liabilities

The total amount calculated as liabilities from the findings in the program review determination is as follows.

Liabilities	Federal Pell Grant	FSEOG (Federal Share)	Direct Loan	
Finding 1	$8,603.00		$14,204.00	
Finding 2	$11,544.99	$750.00	$15,682.02	
Findings Subtotal	**$20,147.99**	**$750.00**	**$29,886.02**	
	Federal Pell Grant	FSEOG (Federal Share)	Direct Loan	
Interest/SA – Finding #1	$95.07		$218.00	
Interest/SA – Finding #2	$151.28	$5.79	$240.00	
Interest Subtotal	**$246.35**	**$5.79**	**$458.00**	
Finding and Interest TOTAL DUE	*$20,394.34*	*$755.79*	*$30,344.02*	
Payable To:				**Totals**
Department of Education	*$20,394.34*	*$755.79*	*$30,344.02*	*$51,494.15* $51,494 (rounded)

William D. Ford Federal Direct Loan (Direct Loan) Liabilities:

Direct Loan Closed Award Years (Request Extended Processing)

Findings: 1 and 2
Appendix: B

Highland must repay the following Direct Loan liabilities:

DL Closed Award Year		
Amount (Principal)	Amount (Interest)	Award Year
$9,670	$208	2014-2015
$15,093.57	$230	2015-2016
$5,122.45	$20	2016-2017
Total Principal	Total Interest	
$29,886.02	$458	

The disbursement record for each student identified in the appendix to the applicable finding must be adjusted in the Common Origination and Disbursement (COD) system based on the recalculated amount identified in the/these appendix/appendices.

A copy of the adjustment to each student's COD record must be sent to Matthew Monsees **within 45 days of the date of this letter.**

Request Extended Processing

COD adjustments are necessary for the closed award year(s) listed above. Before any student level adjustments can be processed, Highland must immediately request extended processing through the COD Website (http://cod.ed.gov).

- Click on the Request Post Deadline/Extended Processing link under the School menu.

- On the request screen, the institution should indicate in their explanation that the request is based on a program review, and provide the program review control number.

- The institution will be notified of the status of the request at the time of submission, and will also be notified by email to the FAA and President when extended processing has been authorized. At that time, the school must transmit student/borrower level adjustments to COD for the closed award year(s).

Federal Pell Grant Liabilities

Pell – Closed Award Year Liabilities

Findings: 1-2
Appendix: B

Highland must repay the following Pell Grant liabilities:

Pell Closed Award Year			
Amount (Principal)	Amount (Interest)	Title IV Grant	Award Year
$1,171	$28.89	Pell Grant	2013-2014
$3,591	$63.56	Pell Grant	2014-2015
$9,798.99	$113.99	Pell Grant	2015-2016
$5,587	$39.91	Pell Grant	2016-2017
Total Principal	Total Interest		
$20,147.99	$246.35		

The disbursement record for each student identified in the appendix to the applicable finding must be adjusted in the Common Origination and Disbursement (COD) system based on the recalculated amount identified in the appendix.

Adjustments in COD must be completed prior to remitting payment to the Department. Payment cannot be accepted via G5. Once the Department receives payment via check, the Department will apply the principal payment to the applicable G5 award. The interest will be applied to the general program account.

A copy of the adjustment to each student's COD record must be sent to Matthew Monsees **within 45 days of the date of this letter.**

Campus Based Program Liabilities

FISAP Corrections

Finding: 2
Appendix: B

FSEOG		
Amount(Highland's Share)	Amount(Interest)	Award Year
$187.50	$4.20	2014-2015
$562.50	$1.59	2015-2016
Total Principal	Total Interest	
$750.00	$5.79	

Highland must make corrections to its FISAP for award years 2014-2015 and 2015-2016 as follows:

- Log into eCB and make changes to the Working Copy, click on Submit and choose "Change Request". Provide the justification for the changes in the comments box, including that the changes are a result of a program review and include the Program Review Control Number (PRCN) 201720729523.

- Once the request is approved, submit the changes within 5 days

- Changes to the FISAP may result in changes to the FISAP in subsequent years. Contact the eCB Call Center at (877)801-7168 for assistance in making this determination.

E. Payment Instructions

Liabilities Owed to the Department $1,000 or More but Less Than $100,000

Highland owes to the Department **$51,494**. Payment must be made by forwarding a check made payable to the "U.S. Department of Education" to the following address within 45 days of the date of this letter:

> U.S. Department of Education
> P.O. Box 979026
> St. Louis, MO 63197-9000

Remit checks only. Do not send correspondence to this address.

If the check is sent special delivery (signature/receipt required), the check must be sent to the following address:

U.S. Bank
1005 Convention Plaza
St. Louis, MO 63101
Attn: Govt. Lockbox Tram MO-SL-C2GL
Re: For Dept. of Ed. 979026
Payment must be made via check

Payment must be made via check and sent to the above Post Office Box. Payment and/or adjustments made via G5 will not be accepted as payment of this liability. Instead, the school must first make any required adjustments in COD as required by the applicable finding(s) and Section II – Instructions by Title IV, HEA Program (below), remit payment, and upon receipt of payment the Department will apply the funds to the appropriate G5 award (if necessary).

The following identification data must be provided with the payment:

> Amount: $51,494
> DUNS: 084098136
> TIN: 480760016
> Program Review Control Number: 201720729523

Terms of Payment

As a result of this final determination, the Department has created a receivable for this liability and payment must be received by the Department within **45 days of the date of this letter.** If payment is not received within the 45-day period, interest will accrue in monthly increments from the date of this determination, on the amounts owed to the Department, at the current value of funds rate in effect as established by the Treasury Department, until the date of receipt of the payment. Highland is also responsible for repaying any interest that accrues. If you have any questions regarding interest accruals or payment credits, contact the Department's Accounts Receivable & Bank Management Group at (202) 245-8080 and ask to speak to Highland's account representative.

If full payment cannot be made within **45 days** of the date of this letter, contact the Department's Accounts Receivable & Bank Management Group to apply for a payment plan. Interest charges and other conditions apply. Written request may be sent to:

> U.S. Department of Education
> OCFO Financial Management Operations
> Accounts Receivable & Bank Management Group
> 550 12th Street, S.W., Room 6114
> Washington, DC 20202-4461

If within 45 days of the date of this letter, Highland has neither made payment in accordance with these instructions nor entered into an arrangement to repay the liability under terms satisfactory to the Department, the Department intends to collect the amount due and payable by administrative offset against payments due Highland from the Federal Government. **Highland may object to the collection by offset only by challenging the existence or amount of the debt.** To challenge the debt, Highland must **timely appeal** this determination under the procedures described in the "Appeal Procedures" section of the cover letter. The Department will use those procedures to consider any objection to offset. **No separate appeal opportunity will be provided.** If a timely appeal is filed, the Department will defer offset until completion of the appeal, unless the Department determines that offset is necessary as provided at 34 C.F.R. § 30.28. This debt may also be referred to the Department of the Treasury for further action as authorized by the Debt Collection Improvement Act of 1996.

RE: **Final Program Review Determination Closeout Letter**
        OPE ID: 00192100
        PRCN: 201720729523

Dear President Reist:

This letter is in reference to the documentation received in response to the instructions provided in the Final Program Review Determination. All requirements have been addressed. The institution may now consider the program review closed, with no further action required.

Program records relating to the period covered by this program review are now subject to the record retention requirements in 34 C.F.R. § 668.24(e)(1), (2), which generally require that records be retained until the close of the third award year following the award year in which the student last attended the institution or the aid was awarded.

The courtesy and cooperation extended during the program review process is appreciated. If you have any questions, please do not hesitate to contact Matthew Monsees at (816)268-0429.

Sincerely,

Ralph LoBosco
Division Director

RE: Program Review Report
OPE ID: 00192100
PRCN: 201720729523
To whom it concerns:
As part of our program review, Highland Community College has been asked to provide supporting documentation and evidence to the review and correction to the findings discovered during Department of Education's visit. The experience of working with the Program Review team was very enlightening and it has certainly helped us review our policies and procedures to make sure we are following the Title IV Financial Aid regulations as best as possible.

I would like to also thank our Program Review team that visited us on-site, Jenny Hendrickson, John Nading, Matthew Monsees and Carol Hayes. All four reviewers were very helpful during this experience and helped make this process go as smoothly as possible. One thing that is always spoken around the financial aid community is how stressful a program review is. While that statement is still true, the program review team made sure that we were supplying the correct information and helping us understand the nature of some of our problem areas as well.

With that said, per the Program Review Report, please see Highland's responses to each finding as requested.

I have organized each finding in its own folder for simplicity of organization. The password to access the attached file is the same as we have used for the duration of our program review.

Finding 1: Late/Incorrect Return to Title IV Funds Calculations

Since the program review, we have revised our attendance policies. The main conflict we found was the fact that the program review team viewed us as an attendance taking school while we considered ourselves as non-attendance taking. We have remove the statement from our school catalog that stated that instructors will maintain course attendance for each student and we have left it up to the individual faculty members to determine their individual attendance policies. As required by federal regulations, professors are required to indicate a student's last date of attendance any time a student has received a failing grade. This will allow Highland to determine if a student who has received a non-passing grade if the student met the course objectives or not. If a professor leaves this information blank, we shall assume the date is the mid-point of the semester, or exactly 50%, but we will primarily use the latest available last date of attendance.

In regards to reviewing our students for official and unofficial withdrawals, we have further refined our reports to include the start and end dates for every class, that way we can better monitor and determine the student's payment period start and end dates. This report will generate a list of all students who received no passing grades, so we can determine if we should consider them as a withdrawn student or not. Per the FSA Handbook, we will use the Last Date of Attendance entered by the instructor as the way to determine and differentiate between students who completed the course but failed to achieve the course objectives and those students who failed to complete the course. If a student has a last date of attendance within two weeks of the last day of the payment period, Highland will consider the student as completing the course and will not process a Return of Title IV calculation for that student. All other students will have a Return of Title IV calculation processed.

Policy and Procedures Updates:

Return of Title IV

If a student withdraws or drops from all courses during the middle of a payment period or receives all failing grades or withdraws, or any combination of those grades and received Title IV Financial Aid, this triggers what is called Return of Title IV (R2T4) Calculations. This is a calculation to determine what portion of a student's financial aid was earned by the student and what must be returned to the Department of Education. To make this determination, the school determines what the student's first day of class began on, what was scheduled last day of class as well as the student's last date of attendance.

Attendance is defined by the Department of Education as the following:
- Physically attending a class where there is an opportunity for direct interaction between the instructor and students
- Submitting an academic assignment
- Taking an exam, an interactive tutorial, or computer-assisted instruction
- Attending a study group that is assigned by the institution

- Participating in an online discussion about academic matters
- Initiating contact with a faculty member to ask a question about the academic subject studied in the course

If a student does not begin attendance in a class, then the financial aid amounts will be recalculated to reflect the student's actual enrollment. For example, if a student was enrolled in twelve credit hours, but failed to begin attendance in nine credit hours, financial aid would be recalculated to a less-than half-time basis instead of full-time basis.

Every two weeks, the financial aid office will run a report to determine if any students have failed to continue in their courses and will make a determination if an R2T4 calculation is required. If it is, the R2T4 calculation will be processed and any disbursed financial aid will be removed from the student's account. If a student's financial aid has not been disbursed at the time of calculation, a post withdrawal disbursement notification will be sent to the student to offer any undisbursed aid based on the calculated values.

To determine the amount of earned financial aid, the school will determine the percentage of the payment period completed by the following formula:

Completed Days / Total Days = Percentage Earned

Completed Days are determined by counting the days between the Start Date and Last Date of Attendance. Total Days are determined by counting the days between the Start Date and Scheduled End Date. If there is a break of five calendar days or greater, then that break is removed from the calculation.

Once a percentage earned is determined, HCC uses that percentage to determine if any financial aid is due to the student or if any funds must be returned. If funds are returned, a notification letter will be sent to the student letting them know how much has been returned from the school. If a student must return a portion of their received pell grant, then a letter will be sent to the student via certified mail and the student has forty-five (45) days to respond to the letter. The student has the option to repay the overpayment in full, sign a repayment agreement with HCC that is no longer than two years long or sign a repayment agreement with the Department of Education. If no response is received within the forty-five days, then the overpayment is reported to the Department of Education and the debt is referred to the Department for further action.

Policy and Procedures for Outstanding Refunds

The purpose of this policy and procedures is to provide written guidance in the management of credit balances refunded to students resulting from Federal Student Aid (FSA) Title IV programs and/or other non-federal funds.

An FSA credit balance occurs when the total FSA funds credited to a student's account exceed tuition and other eligible charges. Types of FSA include:
• Federal Pell Grant   • Federal SEOG   • Federal Subsidized Loan
• Federal Direct Parent PLUS Loan   • Federal Unsubsidized Loan

Examples of non-federal funds that may create a credit balance:
        • Scholarships   • State or Local Grants   • Third party payments

Refunds will be monitored by for accuracy, reliability, and timeliness. The Business Office will identify refunds that are more than 90 days outstanding and will reach out to the payee to determine the status of the refund via telephone, e-mail, or letter to the last known address. Refund checks must be cashed within 180 days from their issue date. After 180 days, refund checks become stale-dated and non-negotiable.

Any Title IV, HEA funds that have been disbursed to a student or parent that are not received or negotiated must be returned to the appropriate Title IV program no later than 240 days after the refund issue date. Students risk losing funds from any such non-negotiated refund after the 240-day period has passed.

Any non-federal funds that have been disbursed to a student that are not received or negotiated within 3 years will be considered abandoned property and turned over to the State of Kansas Unclaimed Property.

Timeline for Refund Monitoring

Days After Refund Issued   Action
    0 - 90 days: Refunds reviewed. No action.
  90 - 120 days: Initial contact to payee via telephone, e-mail, or letter regarding
                                outstanding refund and options for reissue.
120 - 180 days: Letter to payee regarding outstanding refund and options for reissue.
180 - 210 days: Final letter to payee regarding outstanding refund and notice regarding
                                failure to respond to notice.
210 – 240 days: Title IV, HEA funds returned to appropriate Title IV program.
        3 years: Outstanding refunds become abandoned property and are turned over
                                to the State as Unclaimed Property.

When a refund is returned as undeliverable, additional attempts to disburse funds or return them to the appropriate party will be made within 45 days. However, the 240-day limit for Title IV, HEA funds will remain applicable to the initial refund date.

WWW.HIGHLANDCC.EDU

_____ _____
Print Student Name   Student ID #

Authorization to Hold Excess Funds

The purpose of this authorization is for you to provide written guidance to Highland Community College (HCC) in the management of a credit balance created on your student account by Federal Student Aid (FSA) and/or other non-federal funds.

An FSA credit balance occurs when the total FSA funds credited to a student's account exceed tuition and other eligible charges. Types of FSA include:

● Federal Pell Grant ● Federal SEOG ● Federal Subsidized Loan
● Federal Direct Parent PLUS Loan ● Federal Unsubsidized Loan

Examples of non-federal funds that may create a credit balance:

● Scholarships ● State or Local Grants ● Third party payments

Unless a student authorizes HCC to hold a credit balance, a credit resulting from FSA must be paid to the student no later than 14 calendar days after the FSA is officially disbursed to the student account. Signing this form authorizes HCC to retain an FSA and/or non-federal credit balance on your student account to be applied towards future eligible educational expenses.

This authorization will remain in effect for each subsequent semester unless you withdraw it. However, in no case will HCC hold an FSA credit balance beyond the end of the last semester in the award year for which the funds were awarded.

Authorization:

❑ I voluntarily authorize HCC to hold and manage my credit balance as described within this authorization.

_____ _____
Student Signature   Date

This authorization may be withdrawn at any time. If you withdraw your authorization, HCC will issue any remaining credit balance to you within 14 days. Cancellation is not retroactive.

Withdrawal:

❑ I voluntarily authorize HCC to release my credit balance. If I want HCC to hold my credit balance in the future, I understand that I will need to complete a new authorization form.

_____ _____
Student Signature   Date

Finding 3: Improper Holding Title IV Credit Balances

Highland Community College has ceased its practice of holding Title IV, HEA credit balances on student accounts beyond 14 days after the credit balances occurred. The College has developed an authorization to hold form, included, which will be used when the College is no longer on Heightened Cash Monitoring (HMC1) and students wish to have their credit balances held.

Finding 4: Failure to Reconcile Title IV Accounts on a Monthly Basis

We have developed a policy that has incorporated the Direct Loan Quality Assurance standards. During the 2016-2017 award year, we have been reconciling all federal funds on a monthly basis. The tool that we use is PowerFaids, which compares automatically what has been sent to COD as well as what was sent to the business office and will indicate if there is a discrepancy between the amount disbursed or the disbursement date. At the end of each semester, we will also review all records to determine if any student was incorrectly reported to COD as being disbursed, thus keeping our G5 balance as close to zero at all times. We run this report on the 15th of every month and will continue this process going forward.

Finding 5: Failure to Resolve Conflicting Information

In response to this finding, we have further expanded the definition of documents that we require for confirming financial aid eligibility and reviewed our forms to make sure they meet federal guidelines. In regards to the two specific findings, we have trained ourselves to be more aware of the differences between temporary guardianship and legal guardianship. Going forward, part of our policy and procedures is to make notation on a student's account based on the type of documentation that we have received as well as more frequent training on what is considered as acceptable documentation.

Finding 7: Failure to Perform Direct Loan Exit Counseling

We have worked with IT to develop a query that we can run at the end of every payment period that will review if a student has attended a semester and now has dropped below half-time status the following payment period and if the student has ever received a student loan with Highland Community College at any point during their educational career. This query will allow us to determine if a student should complete the exit counseling or not easier and allow us to notify all students as early as possible.

Finding 8: Inadequate Federal Work Study Job Descriptions

As discussed in our program review findings, we have reviewed all positions and made all supervisors complete the required template for any work study positions we have at Highland and have included them in this report. Going forward, if any department is looking for a work study position, it is now part of our policy and procedures to request a completed work study description before we will allow any students to work in that position. Also, we will review every award year for any positions who do not meet the base requirements for the work study description.

Finding 9: Improper Federal Work Study Payments

As part of our ongoing improvement of our work-study procedures, we have implemented multiple checks to improve our accuracy of FWS Payments. First, we now require students to turn in a copy of their school schedule every month. This will assist in making sure we have the most current copy of their class schedule in case something changes, such as a withdrawal or added class. Second, we now review every time card at the beginning of the semester. If a student is determined to be working during class time, we notify their supervisor and the Vice President of Student Services. If a student is found working during their class time three times, they are dismissed from their position. Finally, if a student is working during class time, it is now our policy that we will not pay them with federal funds. As a student did technically work and it is illegal to not pay them for time worked, we will now pay that time out of institutional funds.

Finding 10: Failure to Employ Federal Work Study as Reading Tutor or for Family Literacy Activities

As noted in our finding, we did not have any reading tutors per the requirements of Federal Work Study program. We do not have a school in our immediate area that we could employ as a reading tutor. Upon finding out that there is a waiver request, we submitted the waiver on 2/14/17 and as of today, we are still waiting for the response from that waiver request. Please see the below screenshot with proof of waiver submission.

If we are not approved for this waiver, then we will develop a committee to explore what options are available to us so we can meet the requirements of the FWS program.

eCampus-Based Submission Activity Log - Award Year July 1, 2017 through June 30, 2018

Name of School: Highland Community College
OPEID Number: 00192100
Date: 05/12/2017

Submittal Type	Submittal Date	Submittal Time	User ID
Community Service Waiver	02/14/2017	10:08:12	north.fsajoshua
FISAP Signature Received	09/30/2016	15:10:14	mensahsean0805
FISAP Submitted On-line	09/29/2016	11:36:55	north.fsaioshua

As of 6/1/17, the Campus Based Awards Department has informed HCC via telephone communication that letters will be sent out on 6/30/17 to all schools per their normal deadlines, but HCC was approved for the waiver. HCC will apply for the waiver each year going forward to make sure we stay in compliance.

Once HCC receives the waiver approval, we shall forward the letter to the program review team.

Finding 11: Incorrect Direct Loan Awarding

We have reviewed our policies and procedures for this issue and determined that the problem was based on how the student self-reported their information on the FAFSA as a second year or greater student. Due to these errors, we are working with IT to develop and refine a synchronizing option between PowerCampus and PowerFAIDS. We will be importing the number of earned credit hours as reported by the registrar office for the student's current degree program into PowerFAIDS and will run a script to correctly identify what year a student should be considered as, this way we can identify more accurately the true status of the student instead of relying on the information reported on the FAFSA.

Finding 12: Inaccurate Title IV, HEA Award Notification

Per the listed findings, we have reviewed our policies and procedures to require that anytime a change occurs to the students' awards, we will send an updated copy of the student's award letter to the student and will require the award letter to be signed and returned to our offices before any modifications can occur. We will process this new award letter for both federal and institutional aid, which includes, but not limited to, FSEOG, Pell, FWS, Direct Loans, Institutional Scholarships, etc.

Finding 13: Failure to Update Eligibility and Certification Approval Report

No response required as updated ECAR was received on 2/14/17. HCC has revised the ECAR as of 5/26/17 and sent the signature page to Jenny Hendrickson in preparation for our recertification.

Finding 14: Incorrect Gainful Employment Disclosures

We have reviewed all regulations in regards to where and how Gainful Employment disclosures should be listed and have made the required changes. As noted in the Program Review, we originally had the Gainful Employment discloses published as PDFs on one centralized page. Per the regulations, we have now published the official web template provided by the Department of Education both on the one centralized page as well as on every GE Program page. I have spoken to the director of the technical center and all future publications will also have the required disclosures printed on their fliers, adverts and other publications.

- Transfer Students (Transferring In)
  A transfer student must meet all the regular student admissions requirements. HCC reserves the right to determine which transfer courses will fulfill graduation or departmental program requirements. A maximum of forty-seven (47) credit hours may be transferred to HCC and applied toward a degree, including hours transferred from other institutions as well as qualifying CLEP test credits. Prior to registration, students transferring to HCC are required to submit official transcripts of all credits earned at other institutions. The Registrar will evaluate successfully completed coursework from accredited institutions. If accepted as satisfying degree requirements, these transfer hours will be counted toward graduation and will be counted in the calculation of the GPA. A transfer student must complete sixteen (16) credit hours at Highland Community College to be eligible for graduation. Additional information on Credit for Prior Learning, CLEP or AP credit, repeated transfer coursework, and all other policies can be found in our **Academic Catalog Introduction and Policies**.

Standards of Satisfactory Academic Progress (SAP) for Financial Aid Eligibility

Federal regulations require that students receiving Federal Financial Aid, including Pell Grants, Supplemental Educational Opportunity Grants, Federal Work Study, VA Benefits and Federal Direct Student Loans, maintain satisfactory academic progress towards a degree or certificate in order to be eligible to receive Federal aid.

Progress will be measured at the end of each semester according to three factors:
1) a semester and cumulative grade point average (GPA);
2) completion of credit hours; and
3) the time frame allowed for completing a certificate or degree.

SAP Requirements:

1.   GPA - A minimum 2.0 GPA measured **by semester and cumulative credit hours**. All TRANSFERRED hours except for developmental and audit hours are counted in a student's GPA. Developmental hours are included as hours paid and passed, but are <u>not</u> calculated in the GPA. Audit hours are <u>not</u> considered for financial aid. Incomplete present on student's records at time of review will be calculated as an F until the grade is complete.

2.   Minimum Completion Rate - Students must complete 66.67% or $2/3_{rd}$ of all hours attempted. This will be measured **by semester and cumulative credit hours**. Completion rate is calculated as follows: Hours Completed / (divided by) Hours Attempted x (multiplied by) 100 = Completion Percentage. This number is rounded two decimal points out. IE. 70.155% = 70.16%. 70.154% = 70.15%

3.   Maximum Time Frame 150% - Two-year degree seeking students may not receive financial aid for more than 150% of the required hours to complete a degree. The chart below gives a breakdown of the maximum number of credit hours a student can take before losing eligibility for financial aid.

Type of Degree	Credit Hours required for Graduation	Pace Warning Credit Hours	Pace Ineligibility Credit Hours
Certificate A	30	33	45
Certificate B	45	55	68
Certificate C	55	70	83
Associates	63	80	95

Good Standing Status
Good Standing status is defined as meeting all of the above requirements for both Term and Cumulative calculations.

Warning Status
Students who have been in good standing, but fail to meet the minimum requirements stated above will be placed on warning for the following semester of attendance, but will continue to be eligible for Federal Financial Aid. At the end of the warning semester, students must have a minimum semester and cumulative 2.0 GPA and must have a minimum 66.67% cumulative completion rate. There is no warning status for students who have exceeded the Maximum Time Frame of 150%.

Suspension/Financial Aid Ineligible Status
Suspension means that a student's eligibility for Federal grants, direct loans, VA Benefits, and federal work-study has been suspended due to not making Satisfactory Academic Progress. Suspension from Federal Student Aid will occur if a student on Warning does not meet the requirements for Good Standing. Suspension will also occur if a student has exceeded the Maximum Time Frame stated above. Students will be able to attend HCC if reinstated.

Returning Students: A student's SAP status and prior history with Highland Community College will remain on a student's account and be counted towards the student's Satisfactory Academic Progress calculations.

SAP Appeals: Any student placed on SAP Suspension can request for an appeal to the decision. The student will need to complete the form online at https://highlandcc.edu/pages/sap-appeal-form. Students requesting an appeal will need to provide the reason for not meeting SAP requirements and what has changed in their life to be able to now meet SAP requirements and supply documentation to support their statement.

Examples of reasonable requests would be, but not limited to, death of a relative, injury or illness of student, family difficulties, such as divorce or illness, or other situations beyond a student's control. Once the SAP Appeal is received, it is initially reviewed by the Director of Financial Aid. Any appeals that are denied by the Director automatically go to the Financial Aid Appeal Committee for a secondary review.

Students with approved appeals will be notified in writing to their student issued e-mail account and will be placed on "Probation" for the term in which the appeal was approved. Students with denied appeals will be notified in writing to their student issued e-mail account of the committees' decision and the reinstatement process.

SAP Probation: As part of the SAP Appeal process, a student who was granted a successful appeal are placed into the SAP Probation status. There are two different levels of SAP Probation that a student could be put into, SAP Probation without Academic Plan or SAP Probation with Academic Plan.

SAP Probation without Academic Plan: If a student is placed on SAP Probation without Academic Plan, a student is eligible to enroll in classes that go towards his or her degree program and receive financial aid for one additional semester. At the end of the semester, the students' academic progress will be re-reviewed. If the student meets all SAP Requirements, then the student will be placed back into SAP Good Standing and can continue to receive financial aid as normal. If a student does not meet SAP Requirements by the end of one semester, the student will be placed back into SAP Suspension and cannot receive financial aid. The student may re-appeal the new SAP Suspension status.

SAP Probation with Academic Plan: If the SAP Committee determines that the student cannot meet SAP requirements after one semester OR feels that the student would benefit from an Academic Plan, the SAP Committee will develop an academic plan for the student. The academic plan will be unique per student and may include, but not limited to the following items: Requirements to register for fewer credit hours per semester, stipulating enrollment in only certain classes, required GPA/Completion Rate per semester, required number of hours in tutoring, etc.

A student is required to follow the academic plan completely to remain in SAP Probation status and receive Financial Aid. If a student deviates from the academic plan in any way, the student's academic plan is voided and is no longer eligible for financial aid until back in SAP Good Standing. Examples of reasons for the academic plan to be voided would be changing majors, not enrolling in the semester the academic plan was designed for or not meeting the requirements of the academic plan. All requirements of academic plans will be communicated with student and must be agreed to by student.

If a student cannot achieve SAP Good Standing within one semester, the student will be placed on SAP Probation with Academic Plan if the appeal is approved. The progress of the Academic Plan will be reviewed periodically through each semester. If a student does not complete the academic plan or does not fulfil any portion of the required actions, the student will be placed in Financial Aid Suspension effective immediately and will not be eligible for any disbursements from that point going forward.

Student Rights and Responsibilities

Highland Community College Code of Conduct

Students at Highland Community College are dedicated to growing both academically and personally. The HCC Community has defined six "Shared Performance Expectations" that are essential for all members of the community to exhibit in order to grow personally and academically.

HCC Shared Performance Expectations
1. **Be Competent at your Work**-Know your area of work or study; consistently perform to expectations; use constructive feedback to improve.
2. **Communicate Effectively**-Demonstrate the ability to create and understand messages-in written, oral, or visual form.
3. **Respect Others**-Show respect for other people and the environment; be open to perspectives different from your own; treat people and the environment with courtesy.
4. **Make Good Decisions-**Apply critical thinking processes-examine assumptions, gather relevant and reliable data and information; make decisions based on evidence.
5. **Act Responsibly**-Within your role or roles at HCC, meet your commitments and be accountable for your own behavior and performance.
6. **Work Effectively in Teams**-Contribute productively-as a leader or member of a team.

The College reserves the right to sanction students for conduct that violates the Shared Performance Expectations. The following types of acts are examples of such violations and could result in serious disciplinary sanctions to include suspension or expulsion from Highland Community College.
1. Threatening the life or physical safety of others.
2. Conduct that violates the right of others to an educational atmosphere or interferes with the operations of the College.
3. Vandalism, theft, or willful destruction of property.
4. Violation of College policies or regulations.
5. Violation of federal, state, or local laws.
6. Insubordination to College authorities.

Equal Opportunity, Harassment and Nondiscrimination
HCC's full Equity Grievance Policy and processes associated with Equal Opportunity, Harassment, and Nondiscrimination may be found online at https://highlandcc.edu/pages/handbook. All students are required to review this policy. For your immediate information, the Student Discipline Adjudication Procedure is printed below.

Student Discipline Adjudication
The purpose of this Student Discipline Adjudication Procedure is to document the College's due process for responding to Student Code of Conduct violations including gender discrimination and sexual misconduct under Title IX.

Official Communication & Policies
Email received at a student's Highland CC email address is the official mode of communication at HCC for all matters.
Complete copies of HCC Policies referred to in this handbook, including the HCC Housing Handbook, may be found online at: https://highlandcc.edu/pages/handbook.

Definitions under Student Discipline Procedure

A. *Academic Integrity* -The moral code or ethical policy of academia. Students are expected to submit original work and give credit to other peoples' ideas. Maintaining academic integrity involves: creating and expressing your own ideas in course work; acknowledging all sources of information; completing assignments independently or acknowledging collaboration; accurately reporting results when conducting your own research or with respect to labs; and honesty during exams.

B. *Advisor* – Any person (other than an individual who may be called to provide witness testimony) who attends a discipline hearing to provide support or guidance to the student participant. The advisor is not allowed to participate in questioning or present information.

C. *Appeal Board*– A team of two College officials designated to hear the appeal and make recommendations to uphold the Conduct Hearing Board decision or return the case for further review.

D. *Campus* – All land, buildings, facilities and property in the possession of or owned, used or controlled by the College or the HCC Foundation.

E. *College* – Highland Community College

F. *College Official* – Any person employed by the college

G. *Complainant* – The person filing a complaint

H. *Disciplinary Probation* – Disciplinary probation is a written reprimand for a violation of the Student Conduct Code. Probation is a period of observation and review of conduct during which the student must demonstrate compliance with HCC policies and procedures. Students placed on Disciplinary Probation are not considered to be in good judicial standing with HCC for the duration of the probationary period. Progressive disciplinary action will result, including suspension or expulsion, if repeat violations occur, especially during the probationary period. Terms of the probationary period will be determined at the time probation is imposed and will be confirmed in writing to the student.

I. *Disciplinary Suspension* – Disciplinary suspension temporarily terminates the student's enrollment and/or housing contract. The suspension may be for a specified period of time or for an indefinite period of time until stated conditions are met. If a student desires to be reinstated, the Vice President for Student Services must be notified in writing with evidence that any specified conditions for reinstatement have been satisfied.

J. *Educational Activities* – For educational purposes, mandatory participation in educational activities such as workshops, service learning, writing assignments, etc. may be imposed.

K. *Expulsion* – Expulsion terminates a student's academic program and housing contact and right to future enrollment. The student may also be prevented from returning to HCC premises. Students who are expelled are responsible for all financial obligations at the College.

L. *Formal Resolution* – A meeting between a hearing panel and a student(s) or organization that has been accused of violating the Code of Conduct. This process allows the student(s) or organization the opportunity to respond to the concern, to contest the information within the reports if applicable, and to appeal the outcome of the hearing under certain criteria.

M. *Hearing*-A meeting taking place between the Student Conduct Officer/Title IX Coordinator within the Student Conduct/Title IX Adjudication Process.

N. *Hearing Panel* – A team of two EGP (Equity Grievance Panel) members designated to hear conduct cases and make recommendations of responsible or not responsible.

O. *Informal Resolution* – A meeting between a conduct officer and a student(s) or organization who has/have violated the Code of Conduct. The informal process is for students who have taken responsibility for their actions and are not disputing the facts of what occurred or the sanctions. Informal resolutions are mutually agreed upon decisions and as such are not appealable. If a mutual decision cannot be reached by the conclusion of the informal resolution, the case will transfer to the formal resolution process.

P. *Interim suspension*-The immediate termination of a student's privilege to attend the College and all of its related functions.

Q. *Investigator* – A College EGP member designated by the Title IX Coordinator or Student Conduct Officer to investigate cases of misconduct.

R. *Respondent* – Student responding to allegations of student misconduct.

S. *Restitution* – The student may be billed for loss or damages or requested to make payment to HCC or to other persons, groups, or organizations for loss or damages incurred. Payment may take the form of appropriate service and/or monetary or material replacement.

T. *Sanction* – A consequence issued as a result of being found responsible for violating the Student Code of Conduct.

U. *Student* – Any person enrolled in credit bearing courses offered by Highland Community College, either full time or part time. This definition includes persons attending College orientation and enrollment events, signed athletes, and others on a direct path to becoming students.

V. *Student Code of Conduct* – Behavioral expectations listed as HCC Shared Performance Expectations, Statements of Student Rights and Responsibilities, Academic Code of Conduct, General Code of Conduct, and behavioral expectations as communicated in Student Handbook, Housing Handbooks, Program Handbooks, Team Handbooks and on the college website.

W. *Title IX*- a comprehensive federal law that prohibits discrimination on the basis of sex in any federally funded education program or activity.

X. *Warning* – A warning is an official written or verbal notice to a student that such conduct is in violation of HCC policies and procedures. The continuation of such conduct or action may result in further disciplinary action.

Y. *Working Day* – Any day the College's administrative offices are open.

Procedures

A. Students Rights and Responsibilities in the Student Conduct Process
　1) When student misconduct is reported, and it is determined that disciplinary proceedings will be initiated, the student will be notified of the specific allegation(s) in writing via official College e-mail, U.S. Mail, and/or hand-delivered letter, and of the requirements to attend a conduct hearing. Once mailed, emailed and/or received in person, notice will be presumptively delivered. The responsibility for all decisions relative to the hearing, including the determination of responsibility and the imposition of disciplinary sanctions, if any, are the responsibility of the Conduct Hearing Panel and/or the Student Conduct Officer and/or the Title IX Coordinator. Should the student fail to appear at a hearing, the Conduct Hearing Officer and/or Panel may consider the evidence in the absence of the student and come to a decision. Being under the influence of alcohol and/or other drugs does not in any way excuse responsibility for a student's actions.
　2) Student disciplinary actions initiated by the College will adhere to the following due process considerations.
　　a. All HCC Students receive written notice of behavioral expectations via the Student Handbook – available online and in alternative formats by request. Additionally, students who are living in campus housing, members of teams, or enrolled in academic programs with additional standards receive housing/program/team handbooks with behavioral expectations included.
　　b. Students receive notification of the conduct proceeding and the nature of the alleged misconduct via official College e-mail, U.S. Mail, and/or hand-delivered letter.
　　c. Students are given the opportunity to participate in the investigation.
　　d. Students may have a personal advisor present during the investigation. Advisors may be anyone other than individuals who may be called to provide witness testimony. The advisor is not allowed to participate in questioning or presenting information and is there purely in a support role.

e. Students may speak on their own behalf and to suggest witnesses to speak on their behalf during the investigation process.

f. Students have the right to review summary reports concerning the alleged incident, in accordance with FERPA.

g. Students are notified of the results of the hearing in writing.

h. Students have the right to appeal the Conduct Hearing Panel's decision according to the Conduct Procedures below.

i. Students are responsible for reading and understanding the information provided in the Student Handbook, Housing Handbook, College Catalog, First Day Handouts, and Program/Team Handbook.

j. Students are responsible for reading the information provided in the letter scheduling conduct hearing and responding as indicated.

k. Students are responsible for responding to all reports and information presented.

l. Students are responsible for telling the truth with the intent of clarifying the incident for the investigators so that an informed decision can be made.

m. Students are responsible for reading and following the guidelines set forth in the "Notice of Sanction" letter.

n. Students are responsible for following the procedures for filing appeals as set forth in the "Notice of Sanction" letter.

B. Conduct Procedures

1) Student conduct cases will be reviewed by the Student Conduct Officer and/or the Title IX Coordinator or their designee. All student conduct cases will be triaged in one of the following four areas:

a. First offense academic integrity cases will be handled in the classroom and by the Vice President for Academic Affairs (VPAA). The VPAA will enter integrity issues into the database system for tracking of multiple academic integrity issues.

b. Conduct issues involving possible permanent dismissal from a class or program are automatically referred to the Student Conduct Officer for adjudication.

c. All student conduct cases including multiple offenses of academic integrity will be referred to the Student Conduct Officer.

d. All students violating three or more HCC policies will be referred to the Student Conduct Officer for adjudication.

e. All gender discrimination and sexual misconduct under Title IX cases will be referred to the Title IX Coordinator.

f. All CARE reports will be referred to the CARE Team.

2) In all cases other than gender discrimination and sexual misconduct, a student may choose between an informal resolution and the formal adjudication process. Some gender discrimination and sexual misconduct cases may be resolved informally at the purview of the Title IX Coordinator.

3) In all academic integrity issues, the VPAA will be notified.

4) Informal Resolution

a. Students may choose to resolve conduct issues through informal resolution with the following provisions:

i. The student admits to the misconduct

ii. The student agrees to the sanctions

iii. All parties understand that informal resolution is not appealable.

b. At any point in the informal resolution process, a student may choose to move to the formal resolution process.

5) With the exception of gender discrimination and sexual misconduct violations, student code of conduct complaints must be initiated within 10 working days of the alleged violation/offense.

a. The conduct complaint must be filed through the online report form, Campus Housing, Campus Security, Student Conduct Officer or with the Vice President of Student Services.
b. The written complaint shall contain a concise statement of the alleged violation/offense including dates, places, witnesses and others involved.
c. Gender discrimination and sexual misconduct cases under Title IX do not have a statute of limitations.
d. All gender discrimination and sexual misconduct violations should be reported to the appropriate HCC Title IX Coordinator.

6) The appropriate Title IX Coordinator or Student Conduct Officer or designee will perform an initial assessment of the alleged violation(s) and make a determination of how to proceed.

7) At the conclusion of the initial assessment, the Title IX Coordinator or Student Conduct Officer/designee will determine if the allegations(s) have merit.
a. If the allegation(s) are found not to have merit, the complainant will be notified that the allegation(s) have been dismissed.
b. If the allegation(s) are found to have merit, the Title IX Coordinator or Student Conduct Officer/designee will refer the matter to a set of assigned investigators.
   i. The Respondent will be notified of the following information:
      a) Initiation of the investigations, including the date of the incident being investigated.
      b) The nature of the alleged misconduct.
      c) Information regarding the student's rights and responsibilities in the conduct process.
      d) Possible outcomes/sanctions of the process, should the student be found responsible.
   ii. In cases of gender discrimination and sexual misconduct, the complainant and respondent will both receive the same, regular communication regarding the process of the investigation.
c. Upon completion of the investigation, the results will be shared with the respondent. The respondent will be given the opportunity to accept or reject the findings. In cases of gender discrimination and sexual misconduct, both the respondent and complainant will be given the results of the investigation.

8) If the findings are accepted, the case moves to the sanction phase. If the findings are rejected, a hearing panel will convene to hear the case. The investigators will prepare a written statement to the hearing panel.

9) The Hearing Panel will make a decision based on a preponderance of the evidence (more likely than not standard).

10) The Hearing Panel will prepare a written report concluding the conduct process. This report will be submitted to the Student Conduct Officer/Title IX Coordinator and contain the following information.
a. The report initiating the investigation, including the date of the incident.
b. A copy of the investigative reports
c. The nature of the alleged misconduct and the Code of Conduct violation
d. The date, time and location of the hearing
e. A concise summary of the hearing, including a review of the evidence used in making a decision
f. Rationale for the decision regarding the student's responsibility

11) If the student is found responsible for violations of the Conduct Code, the Student Conduct Officer/Title IX Coordinator will determine appropriate sanctions(s) based on the relevant College procedures and the case precedents, noting any institutional standards, as well as considering the student's prior relevant conduct (if any). The Student Conduct Officer/Title IX Coordinator will follow up as necessary to ensure sanctions are completed in a timely manner.

12) The Student Conduct Officer/Title IX Coordinator will communicate the outcome of the hearing to the student via written notification ("Notice of Sanction" Letter) through official College e-mail within five working days of the hearing. This notification will:
a. Explain the rationale for the decision regarding the student's responsibility.
b. Review the required sanctions (if any) being imposed.

       c. State expectations for future success within the College community.

       d. Explain the appeal procedures.

13) The investigators, Hearing Panel, and Student Conduct Officer or Title IX Coordinator will document all steps of a case within a secure conduct tracking program.

C.   Sanctions for Misconduct. When a student is found responsible for violating the HCC Student Code of Conduct, one or more of the sanctions listed in the sanctioning chart in the HCC Campus Fine, Consequence, and Sanctioning Information section of this handbook may be imposed.

D. Appeals Process

1) Conduct decisions may be appealed for the following reasons:

    a. There were procedural errors made which significantly impacted the sanction or the findings.

    b. The severity of the sanction imposed was not appropriate based on the nature of the violation or the circumstances.

    c. New information is discovered that was not available at the time of the investigation that would significantly impact the sanction or the findings.

2) First offense academic integrity decisions may be appealed through the student conduct process. These decisions may be appealed for the same reasons as noted above in section D 1.

    a. Refer to the Grade Appeal procedure for grade appeals.

3) Respondents have the right to appeal the decision to the appeal reviewer (VPSS or either Title IX Coordinator) by filing a written appeal within five working days after receiving notification of the decision. In cases of gender discrimination or sexual misconduct, both the Respondent and Complainant have the right to appeal.

    a. The following should be addressed in the appeal letter:

        i. Were the procedures, as stated in the code of conduct/adjudication followed? If not how did the process error affect the outcome of the case?

        ii. Why was the severity of the sanction imposed not appropriate for the circumstance?

        iii. What new information has been discovered, why was it not available at the time of the investigation, and how would it potentially affect the outcome of the case?

    b. The assigned appeal reviewer will review the appeal and determine whether it should go to the appeal board.

    c. If the case is appealable, it will be referred to an appeal board to review the case and the appeal documents. The appeal board will then meet with the student(s) and may affirm, reverse, or remand the case for further proceedings. The appeal board will make a recommendation to the VPSS or either Title IX coordinator. A written decision shall be provided to each party via official College email. The decision of the Vice President or Title IX Coordinator will be final.

E. Extenuating Circumstances – Interim Suspension

1) In certain circumstances, students may be placed on interim suspension from the College while the investigation and adjudication process is taking place. The Vice President for Student Services or designee will have the authority to place a student on interim suspension when it is determined such suspension is necessary to:

    a. Maintain order on the campus.

    b. Preserve the orderly functioning of the College.

    c. Stop interference in any manner with the public or private rights of citizens on College- owned and controlled property or at College-sponsored activities.

    d. Stop assault or battery.

    e. Stop actions that are destroying or damaging property of the College, its students, employees, guests, or the general public.

      f.   Deal with any violation of the Student Code of Conduct deemed to be serious or repetitive enough to warrant interim suspension.

2) A student who has been placed on interim suspension may not attend classes, may not participate in any College activities, and is excluded from all College property, including housing. The student's faculty will be notified of the suspension. Should the student ignore the conditions of this suspension, the College will take further action deemed appropriate. If a student is granted the opportunity to return to classes, the VPSS and the VPAA will work with faculty to reintegrate students to class and create alternative opportunities to complete course objectives.

3) The student shall be granted a hearing in accordance with these policies within five College working days of the interim suspension.

F. Release of Disciplinary Information

1) Access to any student's disciplinary file shall be governed by provisions of the Family Educational Rights and Privacy Act (FERPA).

2) Only the student charged and those College officials who have a legitimate educational interest in disciplinary information may have access to the files.

3) All other inquiries, including but not limited to employers, governmental agencies, news media, relatives, friends, or local police agencies must have a written release from the student to gain access to College disciplinary files.

4) When cases involve any crime of violence, the results of the disciplinary proceedings will be released upon request to the victim(s).

5) In cases of Title IX sexual misconduct, the results of the disciplinary proceedings will be released to the victim(s).

Every effort will be made by the College to respect the privacy of the student. However, if the identity of the student(s) has been publicly disclosed in the news media, the College reserves the right to respond as it deems appropriate to describe fairly and accurately the disposition of disciplinary matters.

HCC Campus Fine, Consequence, and Sanctioning Information

The fine system is in force to promote campus safety and help protect your rights as an HCC student. This system affects all students at Highland Community College. All crimes committed on college property are subject to regulatory procedures of local, state, and federal laws.

HCC Fines and Habitual Violator (3 Strike) Policy
The following list of violations will be subject to fines. This is not an all-inclusive list of fineable offenses or general offenses. Student Code of Conduct violations at HCC are cumulative. Students accumulating three offenses will be considered a habitual offender and will be sent into the student conduct process. Please see the definitions of Category 1, 2, and 3 violations in the HCC Violation Chart for additional information. Example: First offense noise violation and first offense alcohol violation and first offense plagiarism violation constitutes a habitual offender and will be sent into the student conduct process. Some offenses, which are not fined, are subject to the habitual offender clause.

Alcohol and Drugs on College Owned Property
Alcohol and drugs are not allowed on campus! (See HCC Drug and Alcohol Prevention Policy at
https://highlandcc.edu/caffeine/uploads/files/HCC%20Drug%20free%20schools%20policy%20for%20web.pdf
for more information.) All students in college-controlled housing and other property where alcohol and/or drugs are present will be held individually accountable and are subject to appropriate disciplinary action, which includes being fined in accord with the schedule hereinafter set forth.

If there is a violation in a campus-housing unit, all students will be held individually accountable and in most cases, fines will be assessed to <u>all</u> the parties present. Failure to report violation(s) that occur within one's own assigned housing unit, by other campus housing residents or non-campus housing residents, to proper College authorities is in and of itself a violation of the student conduct code. Students who are present and report campus violations for which they are not responsible or an active participant will not be fined or held accountable. Student reports will be kept as confidential as possible.

Alcohol Violation Definition-Students present in or on college owned property in the presence of alcohol, empty alcohol containers, or any evidence of alcohol are in violation of the HCC Drug and Alcohol policy and will be charged with an alcohol violation.

Marijuana Violation Definition-Students in or on college owned property in the presence of marijuana, persons using marijuana, pipes with residue, bongs, marijuana stems or seeds, or any evidence of marijuana or marijuana use are in violation of the HCC Drug and Alcohol Policy and will be charged with a marijuana violation.

Weapons on Campus
The HCC weapons policy is posted in its entirety online at https://highlandcc.edu/pages/handbook. Please read the entire policy for definitions related to the legal possession of weapons on campus. Posted below are excerpts from the policy.

In order to promote a safe and secure community college and learning environment, HCC prohibits the possession or use of Weapons* on Campus and at Off-Campus Activities, except as set forth below.

In accordance with the Kansas Personal and Family Protection Act, K.S.A. 75-7c01 et seq., as amended (the "Act") and other applicable federal/state laws, it is permissible and will not be a violation of this Policy for the:
  i) Carrying of a concealed Handgun** on Campus by legally qualified individuals, pursuant to Kansas law, and also in accordance with the Concealed Carry Restrictions set forth below,
  ii) Lawful carrying of a concealed Handgun by an employee performing College duties at an off-Campus Activity, when in accordance with applicable laws/policies for such location,
  iii) Lawful possession of a Handgun within a personal/non-College vehicle,
  iv) Lawful possession of Weapons as necessary for the conduct of College approved programs.

Safety Requirements: To reduce the risk of accidental discharge on Campus, when carrying a concealed Handgun on Campus (whether on the person or in a carrier,) the concealed Handgun is to be secured in a holster that completely covers the trigger and the entire trigger guard area. The holster should also secure an external hammer in an un-cocked position through the use of a strap or by other means. Handguns with an external safety are to be carried with the safety in the "on" position.

Storage: Handgun storage is not provided by HCC. Individuals may store a Handgun in the individual's vehicle when the vehicle is locked and the Handgun is secured in a location within the vehicle that is not visible from outside the vehicle.

Individuals who legally reside in HCC Campus Housing may store a Handgun in an opaque (non-transparent), locked storage box inside a campus apartment when the apartment is locked and the Handgun is not visible from inside or outside the apartment. Handgun storage by any other means is prohibited.

Specifically, it is prohibited for any individual to store a Handgun: i) in a vehicle that is unlocked or when the Handgun is visible from outside the vehicle, ii) in an unattended backpack/carrier, iii) in any type of locker, iv) in a campus apartment that is not contractually assigned to the owner of the Handgun v) in a transparent, locked or unlocked storage container, vi) in an unlocked campus apartment, vii) in an unlocked storage container inside a

campus apartment, or viii) in any other location and under any circumstances except as specifically permitted by this Policy and by state and federal law.

Even the lawful carrying of a concealed Handgun has its own risks. Any report of Weapons on an HCC Campus will be addressed by local law enforcement in coordination with HCC officials. The lawful carrying of a concealed Handgun should not create concerns on Campus; however, anything other than lawful carrying of a concealed Handgun has the potential to create confusion and additional risk during police responses.

Enforcement: Any individual violating this Policy will be subject to appropriate disciplinary action, including but not limited to suspension/expulsion, termination of employment, immediate removal from the premises and/or arrest. Enforcement of this Policy will be administered by HCC Officials.

HCC Violation Chart

Violation	Fine/Sanction	Category-Housing or Campus Wide (including housing and all regional centers)
Category 1 Violations-Students receiving the third violation in this category will be subject to a disciplinary hearing.		
Empty Alcohol containers used for room decoration	$50	Housing
Pets in rooms	$50	Housing
Large amperage appliances	$50	Housing
Solicitation	$50	Campus wide
Using personal BBQ grills or open flame (candles, incense,) in room.	$50	Housing-exceptions are North Apartments and Brown/Blue House
Water guns, water balloons, and water balloon launchers	$50	Campus wide
Violating educational environment	$25	Campus Wide
Visitation Violations	$25	Housing
Improper trash disposal	$25	Campus Wide
Failure to pass a housing health and welfare check (after given the opportunity to clean apartment)	$25	Housing
College owned furniture found outside of apartments	$50 plus replacement costs if damaged	Housing
Unauthorized room change or entry into a room for which you do not have appropriate access. This includes giving someone your apartment key.	$25	Housing
Improper checkout of housing	$50	Housing
Failure to return furniture to original arrangement	$25	Housing
Trash Left from End of Semester check-out-small	$25	Housing
Trash Left from End of Semester check-out-medium	$50	Housing
Trash Left from End of Semester check-out-large	$75	Housing
Trash Left from End of Semester check-out-	$100	Housing

X Large		
First Offense Classroom Disruption	Student enters the classroom disruption process	

Category 2 Violations-These violations, depending on the severity, may go to disciplinary hearing on the first or second offense.

Dangerous items or items used to inflict harm as determined by staff. Examples include but are not limited to sling shots, fireworks, archery equipment, paint ball guns, water guns, potato gun, air soft guns, knives less than 4 inches. (Kitchen knives not used as a dangerous weapon are excluded.)	$50	Campus Wide
Destruction of College property	$50 plus replacement and labor costs	Campus Wide
Disorderly Conduct including but not limited to public drunkenness, fighting, physical altercation, use of extremely obscene or offensive language, inciting a riot, etc.	$100	Campus Wide
Insubordination to College Authorities	$50	Campus Wide
Discharging a fire extinguisher, dismantling a fire alarm or tampering with an AED unit	$100 plus restitution	Campus Wide
Damaging, tampering with or removing a wireless router	$100 plus restitution	Campus Wide
First offense smoking or using any tobacco product on campus (including inside campus apartment, buildings, etc., and excluding inside personal cars legally parked on campus)	$200 or mandatory enrollment and completion of College approved smoking cessation course at the student's expense.	Campus Wide
Second offense smoking or using any tobacco product on campus (including inside campus apartment, buildings, etc., and excluding inside personal cars legally parked on campus)	$250	Campus Wide
First Offense Alcohol Violation and/or Marijuana Violation (see definition of violations above).	$200 and completion of an alcohol/drug education program	Campus Wide
Failure to complete assigned alcohol/drug education program from first offense alcohol within 4 weeks	$100	Campus Wide
Second Offense Alcohol Violation and/or Marijuana Violation (see definition of violations above).	$250 and attend an 8 hour alcohol education program through the HCC campus counselor. Parents and/or guardians may be notified.	Campus Wide
First Offense Academic Dishonesty	Instructor sanctions as per first day handout	Campus Wide

Category 3 Violations-These violations will go to disciplinary hearing.

The sale of alcoholic beverages or any illegal drugs	$250	Campus Wide
Use or possession of illicit drugs other than marijuana or alcohol.	$250	Campus Wide
Unlawful possession of Firearms	$200	Campus Wide
Unlawful possession of weapons and/or significantly dangerous items as determined by staff. Examples include but are not limited to pellet guns, explosives, martial arts weapons, knives longer than four inches (excluding kitchen knives), etc.	$200	Campus Wide
Inappropriate storage of weapon.	$200	Campus Wide
Failure to attend alcohol/drug education program through campus counselor from second offense alcohol/marijuana within time allotted.	$200	Campus Wide
Third Offense Alcohol Violation and/or Marijuana Violation (see definition of violations above).	$250	Campus Wide
Multiple Academic Dishonesty violations	Enters student conduct process	Campus Wide
Multiple Classroom Disruption violations	Enters student conduct process	Campus Wide
Habitual Violator (3 strike policy-When a student has three violations of any type, they will be sent into the conduct process. Example, 2 academic violations and one housing violation, 3 alcohol violations, etc.)	Fines assessed in accordance with violations committed	Campus Wide

HCC Sanctioning Rubric

The following rubric lists examples (not all inclusive) of sanctions that may be assigned for various violations of the student code of conduct. They are listed as low, medium and high consequence sanctions. Refer to the HCC Sanctioning Chart for examples of various violations and the level of consequence assigned.

Low Consequence	Medium Consequence	High Consequence
Warning-conduct unacceptable, don't do it again.	Disciplinary Suspension from class	Expulsion from college
Community Service	Mandatory counseling	Disciplinary suspension from housing
Letter of Suspicion issued indicates we are watching	Lose partial or all points on test, quiz, or assignments	Loss of Scholarship
Writing Assignment-i.e. letter of apology, research on topic of offense, instructor/coach/sponsor-assigned assignment, etc.	Restitution-student may be billed for loss or damages or requested to make payment to HCC or to other persons, groups, or organizations for loss or	No Trespass on College property

	damages incurred. Payment may take the form of appropriate service and/or monetary or material replacement.	
Assigned to attend educational workshops on campus	Referred to Social Services and/or support group i.e. Alcoholics Anonymous, Narcotics Anonymous etc. This may require transportation out of town.	Fine
Required Tutoring Hours assigned	Parents/guardian will be notified if appropriate for FERPA. (Can be done with health and safety issues including alcohol and drug use.)

	No Trespass Order from housing	
	Dropped from class	
	Fine	

HCC Sanctioning Chart

The examples below are not inclusive of all offenses or sanctions. The student conduct officer/Title IX coordinator/hearing panel reserves the right to broaden or lessen any range of recommended sanctions in the case of serious mitigating circumstances or intentional offensive behavior. Neither the conduct officer or Title IX coordinator or hearing panel/appeals board will deviate from the range of recommended sanctions unless compelling justification exists to do so.

Examples	Recommended Sanction(s) on first offense unless otherwise stated.
Threatening the life or physical safety of others	
Non-Consensual or forced sexual contact (where no intercourse has occurred)	Medium to High
Non-Consensual or Forced Sexual Intercourse	High
Sexual exploitation or Sexual harassment	Low to High
Stalking	Medium to High
Behavior that endangers self or others	Medium to High

Fighting on campus	Medium to High
Striking another individual-physical altercation	Medium to High
Name calling and/or bullying including cyber bullying.	Low to High
Verbal & Written Threats	Low to High
Dating Violence	Medium to High
Domestic Violence	Medium to High
Bomb Threat	High
Retaliation	Medium to High
Conduct that violates the rights of others to an educational atmosphere or interferes with the operation of the college.	
Classroom disruption-1st violation	Low
Classroom disruption-2nd violation	Medium to High
Excessive noise	Low
Interrupting a classroom from outside the room in the hallway	Low
Conduct that denies others of human Constitutional rights, including that which is motivated by racism, sexism, or other forms of discrimination	Medium to High
Making false reports concerning another individual	Low to High
Inappropriate use of Network including Learning Management System, disruption of network (i.e. viruses), illegal downloads of copyrighted material, gaining access to or using resources for which one does not have authorization, disrupting the work and/or use of the network by others, accessing inappropriate content such as sexually explicit material, etc.	Low to High
First Offense Academic Dishonesty	(As per instructor policy)
Second Offense Academic Dishonesty	Medium to High
Vandalism, theft, or willful destruction of property	
Slashing tires	High
Breaking windows	Medium to High
Damaging vehicles	High
Tampering with smoke detectors, other people's property	Medium to High
Discharging a fire extinguisher	Medium to High
Damaging or tampering with the wireless router	Medium to High
Intentionally breaking College furniture/appliances	Medium
Removing furniture/appliances from your apartment	Low to Medium

Theft	Medium to High
Theft of College Property	Medium to High-Police notified
Vandalism	Low to High
Violations of College Policies or regulations	
Possession of firearm on person or in campus housing or at any college activity (Firearm=handgun, rifle, shotgun) OR Second offense firearm in vehicle	High
Firearm in vehicle-1st offense	Low to Medium
Unlawful possession of weapons and/or significantly dangerous items, as determined by housing staff, on person, in vehicle, or in campus housing or any part of campus or at any college activity. Examples include but are not limited to: • Pellet guns • Bows and Arrows • Potato guns • Explosives • Martial arts weapons Knives longer than 4 inches (not including cutlery when no intent to harm)	Low to Medium
2nd Offense Unlawful possession of weapons and/or significantly dangerous items	Medium to High
3rd Offense Unlawful possession of weapons and/or significantly dangerous items	High
Habitual Violator (3 strike policy-When a student has three violations of any type, they will be sent into the conduct process. Example, 2 academic violations and one housing violation, 3 alcohol violations, etc.)	Medium to High
Academic Violation (integrity, classroom disruption, etc.)-2nd Offense	Medium
Failure to report violations	Low to Medium
Failure to identify oneself to College officials	Low to Medium
Possession of a College key without authority	Medium to High
Failure to comply with hearing sanctions	Medium to High
Violation of Federal, State, or local laws	
Marijuana odor in car or room or on person	Low
Indication of drug use by individual (including positive drug test) or group, but no significant amount of marijuana (stems, seeds, residue, pipe, bong, wrappers, other	Medium

drug paraphernalia)-1st offense only	
Significant Possession of marijuana or any amount of other illicit drug.	High
Indication of drug use including significant amount of marijuana or any illicit drugs on person or positively identified as belonging to respondent or 2nd offense indication of drug use (see above).	High
Indication of drug sales (combination of scales, grinder, wrappers, residue, baggies, cash, odor and/or any amount of marijuana or any illicit drugs)	High
Possession and improper use of prescriptions	Medium to High
Insubordination to college authorities	
Failure to follow instruction from college staff	Low to Medium
Repeating behavior you have previously been sanctioned for	Medium to High
Failure to follow through on previous sanctions	Medium to High

Academic Information

Attendance Requirements

Highland Community College has the expectation that students should be active participants in their coursework. Regular class attendance is considered a key element of participation and an essential part of the educational experience. Specific attendance requirements for individual classes must be communicated through the First Day Handout.

Technical Center Students Leaving Campus

High school students attending classes at the Technical Center who must leave campus during class time, must report to the main office to obtain and sign an off campus pass. Upon returning to campus, students must return the pass to the main office before returning to class. High school students are not allowed to leave campus without permission from their parent or guardian.

Academic Integrity

Highland Community College faculty and students have the responsibility to maintain high academic standards. Academic dishonesty by students, which includes but is not limited to cheating, fabrication, plagiarism, or facilitation of academic work, is reason for disciplinary action. Students should submit their own academic work. Faculty should not allow or leave unreported academic dishonesty by the student.

Cheating affects more than just the cheat; it frustrates the honest efforts of other students, degrades the learning environment, and reflects poorly on any institution that tolerates it. At HCC, a record of cheating does not go away at the end of the course or semester. Integrity violations become part of the violator's record. Multiple violations may result in more serious penalties, including possible dismissal from HCC.

Every instructor will:
- State clearly in the first-day handout his/her personal policy about academic dishonesty and the consequences for such actions.
- List examples of academic dishonesty and how those specific acts will be handled (not all acts of academic dishonesty can be anticipated and this list is not all inclusive).
- Send his/her policy (first-day handout) to the Vice President for Academic Affairs or appropriate regional director for review and acceptance.

First violations of academic integrity will generate sanctioning from the classroom instructor. Subsequent violations will generate an institutional response via the student conduct process.

Once the instructor confirms there have been no prior academic dishonesty violations in any course, the instructor will sanction first offenses according to his/her individual classroom policy. Instructors will send a notification of all offenses and resulting consequence to the Vice President for Academic Affairs, along with any relevant documentation.

Incidents of academic dishonesty recorded in the student conduct system are cumulative; multiple or repeated incidents of academic dishonesty will be turned over to the conduct officer and ordinarily result in a medium-level sanction, which may include removal from the course. However, repeated or severe violations may result in high-level sanctions, such as loss of scholarship or expulsion from the college.

A student may appeal decisions of academic dishonesty for the following reasons:
a. There were procedural errors made which significantly impacted the sanction or the findings.
b. The severity of the sanction imposed was not appropriate based on the nature of the violation or the circumstances.
c. New information is discovered that was not available at the time of the investigation that would significantly impact the sanction or the findings.

First offense academic integrity appeals will be assigned to the VPAA. Subsequent offense appeals will go through the Student Conduct Process.

Classroom Disruptions
No acts of disruption in the classroom will be tolerated at Highland Community College. If students are being disruptive, they are violating the rights of others to an educational atmosphere, interfering with the operations of the College, and/or being insubordinate to College authorities.
Every instructor will:
- State clearly in the first-day handout their personal policy about disruptive acts in accordance with their expectations of their students.
- List examples of disruptive acts and how those specific acts will be handled (not all acts of disruption can be anticipated and this list is not all inclusive).
- Send his/her policy (first-day handout) to the Vice President for Academic Affairs or appropriate regional director for review and acceptance.

First Offense

For disruptive acts that do not require immediate removal, instructors will warn the student on the first offense to discontinue the offending behavior in any and all future class sessions. After the instructor has given warning and the behavior continues, the student may be removed from that class session and directed to the classroom readmission process.

In order to be readmitted to class, the student must complete the online "classroom readmission form" and meet with the Vice President for Academic Affairs (or designee). The instructor is not obligated to allow the student to make up any work that is missed after removal from a class session and before readmission.

Second Offense

When an instructor observes a second incident of classroom disruption, the instructor will send a notification of the offense and relevant documentation to the conduct officer and the student will enter the Student Conduct Process.

Incidents of classroom disruption recorded in the student conduct system are cumulative; multiple or repeated incidents of classroom disruption will ordinarily result in a medium-level sanction which may include removal from the course. However, repeated or severe violations may result in high-level sanctions, such as a loss of scholarship or expulsion from the college.

Immediate Removal

Situations that demean, embarrass, sexually harass, or threaten the life or physical safety of others will not be tolerated. If this happens in the classroom, the instructor will immediately ask the student to leave the classroom and the instructor will forward an incident form to the student conduct office for entry into the Student Conduct Process. The student will not be allowed to return to the classroom until the process has been completed. This offense will result in a medium to high consequence.

A student may appeal all decisions of classroom disruption through the Student Conduct Process.

A grade of "W" will appear on the academic transcript if the student is removed from the class before or on the last withdrawal date for the semester. A grade of "WF" will appear on the academic transcript if the student is removed from the class after the last withdrawal date for the semester.

Technical Center Classroom Disruption and Program Removal

For disruptive acts that do not require immediate removal, instructors will send notification of the offense and relevant documentation to the conduct officer and the student will enter the Student Conduct Process on the first offense. A student may appeal all decisions of classroom disruption through the Student Conduct Process.

Technical Center Immediate Removal

Situations that demean, embarrass, sexually harass, or threaten the life or physical safety of others will not be tolerated. If this happens in the classroom, the instructor will immediately ask the student to leave the classroom and forward an incident form to the student conduct office for entry into the Student Conduct Process. The student will not be allowed to return to the classroom until the process has been completed. This offense will result in a medium to high consequence.

Academic Problems

Feel free to talk with your instructor about any problems you may have with a course. It is usually best to make an appointment to see him/her in an office rather than trying to get an answer to a question or to take care of a problem between classes.

Faculty members are expected to provide information at the start of each semester on how the final grade will be determined. Faculty members are very conscientious about determining student grades, but if you feel an error has been made, talk with the instructor.

If you feel your concerns have not been addressed, you may speak with the Vice President for Academic Affairs on campus. Although, the practice is rare, a grade can be appealed. See the Grade Appeal Policy for more information.

Highland Campus Final Examination Schedule

All final exams will be given in the regularly scheduled classrooms. The time each exam begins is available from each instructor or from the academic office on the Highland Campus. All exams are scheduled for two hours

except activity-based courses. Final exams for all other scheduled instruction will be given during the last regular class period. Requests for exceptions to the final examination schedule should be directed to the Vice President for Academic Affairs. Independent study, arranged courses, and evening class finals will be scheduled by the course instructor.

Changes and Class Cancellations

Highland Community College reserves the right to cancel, combine, or change the time, day, or location of any classes, and to change the instructor and/or instructional method. Tuition and fees may also be changed by the Board of Trustees without notice or obligation.

Institutional Awards/Scholarships

Students receiving institutional awards from Highland Community College are expected to maintain a minimum grade point average and pass at least 12 hours per semester or, in the case of athletics, the students must meet NJCAA eligibility guidelines.

Each award has different guidelines which students will receive when he or she signs the award agreement. At the conclusion of each semester, students not meeting the guidelines will not have their awards renewed for the succeeding semester. There is not an appeal procedure or probationary period for HCC institutional awards. Please consult the website (www.highlandcc.edu) for specific institutional award guidelines.

Satisfactory Academic Progress Policy

At the conclusion of each semester, all students will be evaluated to determine whether or not they are attaining satisfactory academic progress according to the Satisfactory Academic Progress (SAP) Policy. This policy may be found in the HCC Catalog and online at https://highlandcc.edu/caffeine/uploads/files/SAP%20Policy%20Changes%20effective%20Fall%202016(1).pdf.

Grade Appeals

Students are responsible for meeting the standards for academic performance established for each course in which they are enrolled. The establishment of the criteria for grades and the consistent evaluation of student academic performance are the responsibilities of the instructor.

This grade appeal procedure is available only for the review of allegedly capricious grading, and not for review of the instructor's evaluation of the student's academic performance. Capricious grading, as the term is used here, consists only of any of the following:

1. The assignment of a grade to a particular student on some basis other than documented performance in the course;
2. The assignment of a grade to a particular student by applying more exacting or demanding standards than were applied to other students in the course;
3. The assignment of a grade by a substantial departure from the instructor's previously announced standards.

Step 1: A student who wishes to appeal a course grade must notify the Vice President for Academic Affairs' (VPAA) office within 30 working days of the date on which the grade was posted. The VPAA's office outlines the allowable criteria for appealing a grade (see above) and, if appropriate, provides the student with the grade appeal form and assists in contacting the instructor to begin the process.

Step 2: The student meets with the instructor to review assignment grades, attendance, and any other factors that affected the final grade. The instructor should check all calculations and ensure that any assignments accepted for credit have been posted and included. This meeting must take place within 30 working days of the end of the term for which the grade was posted. The result of the meeting will be to leave the grade as posted or raise the

grade. The instructor will notify the VPAA's office of the result of the meeting. If a grade change is necessary, the instructor submits a grade change request to the Registrar with a copy to the VPAA's office. The VPAA's office will notify the student of the decision via email.

Step 3: If the student is unsatisfied with the decision from step 2 and wishes to file a formal grade appeal, the student must notify the Vice President for Academic Affairs within 10 working days of the decision. The student and the instructor will receive an email from the VPAA requesting all documentation pertinent to the grade appeal. This will include copies of assignments, documentation of absences due to college events, tests, and any other material that is relevant. These materials must be received by the VPAA's office within 10 working days of the date of the request.

Step 4: The VPAA (or designee) reviews all materials from the student and instructor. Within 10 working days, emailed notification is sent to student and instructor of the decision to uphold the grade as posted or change the grade. If a grade change is necessary, the VPAA submits a request to the registrar.

Step 5: If the student chooses to appeal the Step 4 decision, he or she must notify the VPAA within 10 working days of the notification. A 3-panel review committee, composed of two instructors and an academic advisor, is convened to review the appeal. This committee may decide to uphold the grade as posted or raise the grade; the committee must send its decision to the VPAA within 15 working days of being convened. The decision is emailed by the VPAA's office to the student, instructor, and registrar (if a grade change is required). The decision of the committee is final and may not be appealed.

General Information

Resource Guide

MyHCC-All HCC students are required to log in to their MyHCC account to view schedules, billing statements, transcripts, class assignments, and a variety of supplementary information. In addition, students are required to log into their Highland student email account to receive official HCC messages and communications. All students can easily access both of these accounts by going to the Highland website (www.highlandcc.edu) and entering their username and password in the box titled "MyHCC Login." **Student usernames will always be lastname.firstname@highlandcc.edu (for example: smith.john@highlandcc.edu). New students who do not have their password** will automatically receive this information by means of email correspondence sent from the Highland IT department directly to the student's personal email account given during the application process and/or during enrollment.

Accreditation

Highland Community College is authorized to operate by the Kansas Board of Regents and is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (NCA). NCA offices are located at 30 North LaSalle Street, Chicago, Illinois 60602 (312) 263-0456. The technical college is also fully accredited by the Council on Occupational Education, 41 Perimeter Center East, NE, Suite 640, Atlanta, GA 30346 (770)-396-3898 or 800-917-2018. Program specific accreditations are available on file at Highland Community College Technical Center, Atchison, KS.

Bookstore

The HCC Bookstore is located in the lower level of the Library Student Union Building (LSU) on the Highland campus and is open weekdays from 8:00 a.m. - 4:00 p.m. Rental books and school supplies can be obtained through the Bookstore. College apparel, college souvenirs, and miscellaneous merchandise are also available.

Book Rental for non-technical school students - The mandatory book rental program saves money for HCC students. Book rental fees are published at www.highlandcc.edu. **The fee does not include workbooks or supplements required by instructors.** Books are distributed by the HCC Bookstore and must be returned at the end of the semester or upon dropping a course. Students who fail to return books by posted deadlines, will be assessed the current replacement cost of the book. Academic transcripts will be held until payment is received.

Technical Students - Students are responsible for purchasing necessary textbooks, tools, and/or other items required for each program.

Online Students - Online students are responsible for purchasing textbooks.

Mail Room - The mailroom is located in the Bookstore on the Highland campus. Students living on the Highland campus have mailboxes located in the hallway outside the Bookstore. Students are required to present student ID when picking up packages. UPS service is available to students and employees for a $1.00 fee for handling plus the shipping charge. Other individuals will be charged a $2.00 fee for handling plus shipping. Packages should be secured with tape and properly labeled using a street address.

Lost and Found - Lost and Found is located in the HCC Bookstore on the Highland campus. Students attending other campuses should check in the main office of the attendance center.

Calendar

Please consult the online calendar at www.highlandcc.edu for all pertinent dates for the 2017-18 Academic Year.

Care Team

The Care Team is a team of student services personnel and other support staff trained to identify and assist high-risk students who are having difficulty being successful at HCC. Students may contact the Care Team to refer oneself or other students by emailing care@highlandcc.edu or completing the "Concerned About an HCC Student" form online at https://highlandcc.edu/pages/concerned-about-an-HCC-student.

Directory Information

Highland Community College designates the following student information as public or "Directory Information."

- Name
- Address (local & permanent)
- Telephone number (local & permanent)
- Date and place of birth
- Major field of study
- Full or part-time enrollment status
- E-mail address
- Photographs
- Classification (freshman, sophomore)
- Dates of attendance
- Degrees
- Awards received
- Previous institutions attended
- Sports - height, weight, and picture
- Participation in recognized activities

Currently enrolled students may withhold disclosure of this information to institutional persons or organizations. To withhold disclosure, written notification must be received in the Office of the Registrar by the end of the first week of each semester. This also will keep you out of the Campus Directory which is published each semester and which is available to anyone on request.

Emergency Procedures

HCC emergency procedures may be found online at www.highlandcc.edu.

Equal Opportunity Statement

Highland Community College does not discriminate on the basis of race, color, religion, national origin, sex, age, disability, marital status, or military veteran status as defined by law, in employment, admission, or operation of its educational programs and activities, as prescribed by Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Executive Order 11246, as amended, sections 503 and 504 of the Rehabilitation Act of 1973, the Vietnam Era Veteran's Readjustment Assistance Act of 1974, the Age Discrimination Acts of 1974 and 1975, and other federal and state laws and regulations. Inquiries concerning the application of these laws and regulations to the College may be directed to either of the College's Title IX Coordinators or the Office of Civil Rights, U.S. Department of Education, Washington, D.C. 20201.

Inclement Weather Closing Alerts

It is sometimes necessary for various campuses to close due to inclement weather. All students may sign up to receive RAVE Alerts, a free messaging service that alerts students in various campus locations to announcements about campus closings, emergencies, or other announcements.

Notifications of campus closings may also be sent to the following radio, television, and social media outlets for broadcast:

- KAIR, 1470 AM/93.7 FM (Atchison)
- KNZA, 104 FM (Hiawatha)
- 94 Country Radio
- WIBW Channel 13 (Topeka)
- KQ-2, Channel 2 (St. Joseph)
- @highlandcc Twitter Account
- Highland Scotties Facebook Account

Missing Student Notification

In compliance with the Higher Education Opportunity Act of 2008, this policy sets forth procedures for the reporting, investigating and making emergency notifications regarding any currently-enrolled student who is believed to be missing.

A student will be presumed to be missing when his/her absence, of 24 hours or more, is inconsistent with his/her established patterns of behavior and the deviation cannot be readily explained.

Reporting a Possible Missing Student:

Any member of the college community, including both employees and students, who is concerned that a currently-enrolled student may be missing should immediately contact the Vice President for Student Services at 785-442-6020. Any college employee who receives a report of a possible missing student must immediately refer such report to the Vice President for Student Services. The Vice President for Student Services shall investigate all reports and determine whether a student is missing. If the Vice President for Student Services determines that a student is missing, he/she shall notify the President and the Doniphan County Sheriff's Department, and/or other appropriate law enforcement agencies, as necessary.

Missing Person Emergency Contact:

Students are able to designate a "Missing Person Emergency Contact" on the application for student housing. If a student is determined to be missing, the Vice President for Student Services shall notify the designated Missing Person Emergency Contact not later than 24 hours after the student is determined to be missing. This contact information is considered confidential and will only be accessible to authorized college or law enforcement personnel.

Parent/Guardian Notification for Students under 18 years of age:

If a student is under 18 years of age (and not emancipated) and is determined to be missing, the Vice President for Student Services shall notify a custodial parent or guardian not later than 24 hours after the student is determined to be missing.

Law Enforcement Notification:

If a student is determined to be missing, the Vice President for Student Services shall notify the Doniphan County Sheriff's Department, or other appropriate law enforcement agency, not later than 24 hours after the student is determined to be missing.

Parking

Students, staff, and faculty are required to register their vehicles and display parking permits when parked in campus parking lots. Students living in campus housing will be assigned parking according to their housing assignment as per the following chart and **may not park in any other area on campus**. Parking policy may be found on the website at www.highlandcc.edu.

Payment Information

Student housing at Highland Community College is owned and operated by the College on a self-supporting basis. The College reserves the right to increase rates before or during the school year due to increased cost of services.

Payments of all HCC tuition and fees are made on a semester basis and must be paid in full by registration day. Payment plans are offered for room and board charges on the Highland campus. The amount due for room and board minus any verified financial aid may be paid by one of the following options: (1) pay all of amount due on or before day of registration; or (2) pay 1/2 on day of registration and the remainder no later than November 1 (Fall semester) or April 1 (Spring semester). Those choosing option (2) will be assessed a service charge. No room and board payment plans are allowed for the summer terms. Highland Community College accepts MasterCard, Visa, and Discover.

Silent Witness

If you are concerned about students committing campus violations or criminal actions on campus and would like to report it to campus security, please fill out the Silent Witness form at https://highlandcc.edu/pages/silent-witness. Your identity cannot be found by submitting this form. If you need an immediate response please call 911.

Smoking

Smoking and use of all tobacco and tobacco products including e-cigarettes is prohibited across campus. Use of tobacco inside of vehicles legally parked in campus parking lots is allowed. See the HCC Tobacco Use Policy on the website at https://highlandcc.edu/pages/handbook for details.

Student Insurance

HCC provides secondary insurance for injury for students enrolled in and attending industrial classes, health classes, and/or for student athletes. This insurance serves as a secondary policy.

Vehicle Entry

The College reserves the right to search students' vehicles parked on College property if there is a suspected health and safety violation or violation of College policy, housing policy, or law. HCC Security, Campus Housing Staff or the Vice President for Student Services may conduct vehicle inspections. Law enforcement officials and/or canines, used for the detection of illegal substances or unlawful possession of weapons, may accompany HCC officials during inspections.

Campus Owned Housing Information

Residents of campus housing are required to read and understand the campus-housing handbook that may be found online and is available from the Director of Student Life. The guidelines below are included in the Student Handbook to provide a general overview.

Housing on the Highland Campus

On-campus apartment-style housing is a unique part of the educational experience on the Highland campus. Like any student housing option, whether it is school or privately owned, there are terms and conditions to the lease students sign. The lease outlines those guidelines for HCC housing. Students are responsible for knowing this information and following it. The housing handbook is available online at www.highlandcc.edu and is reviewed at the required housing orientation held at the beginning of each semester. Students are responsible for all information contained therein and for sharing that information with all off-campus guests that may visit campus housing.

Check Out Procedure

In order to be eligible for a refund of the $150.00 deposit, students are required to complete the following steps by 6:00 p.m. on the last day of the contract, which is the last day of the semester or on the day of a student's withdrawal from College.

1. Clean room completely: remove all trash, sweep and mop the floors, dust, vacuum carpeted areas, clean bathroom and kitchen areas thoroughly, including the oven and refrigerator. Be sure beds are bunked in all rooms (if applicable).
2. Remove all personal belongings.
3. Contact the Resident Assistant or other housing personnel for a room inspection during designated check out times.
4. Turn in keys. Resident Assistants or other housing personnel will direct you to the designated key-drop site.
5. Complete and sign a forwarding address and checkout form.

At 6:00 p.m. on the final day of the contract, the College reserves the right to dispose of personal property remaining in housing units without liability to itself or its personnel.

Disciplinary Process

Students in violation of their agreement with the College will be placed in the student housing disciplinary process and/or fined. Please consult the Student Rights and Responsibilities portion of this handbook for more information on the College policies and procedures for discipline.

Facilities and Furnishings

Storage space in the rooms is limited and the College is unable to provide additional storage.

Each resident will be held responsible for breakage, damage, and cleaning that is beyond the normal wear of the facility and its furnishings. Damage to student rooms and its furnishings will be assessed to the occupants at the time the damage is discovered.

The College is not liable for the loss or damage of any kind to personal property of a student--the protection of personal property is the individual's responsibility. Students are encouraged to obtain insurance on property and possessions.

Report lost housing keys to the Director of Student Life immediately. A replacement fee will be charged for lost campus apartment keys. Replacement fees must be paid BEFORE receiving the new key(s).

Failure to Report

Failure to report violation(s) which occur within one's own assigned housing unit, by other campus housing residents or non-campus housing residents, to proper College authorities is in and of itself a violation of the student code of conduct.

Housing/Meal Costs per Semester

A refundable $150 damage deposit is required with the contract. The deposit will be refunded at the end of the academic year if there are no damages to the room or its contents, and if you have no outstanding debts to the College. The deposit may be transferred to the following academic year if you plan to return to housing. Single rooms are an option only if space is available. Current housing and meal prices are available on the College website.

Students living in campus housing must purchase a meal plan. HCC offers 17 meals per week plans and includes a flex dollar plan. Meals will not carry over to a following week. Flex dollars will carry over from fall semester to spring semester. All unused flex dollars will expire on the last day of the meal plan in the spring semester.

The cafeteria serves breakfast, lunch, and dinner Monday through Friday, plus Saturday and Sunday brunch. Hours are posted in the cafeteria.

Housing and Room Assignments

The Director of Student Life will make all housing assignments. Campus housing opens on registration day. The Director of Student Life must authorize all room changes in advance of a move. There is a two week room freeze after students check into their room. Room changes will not be accepted until September 1. Students will be compensated and/or charged for differences in room rates. Students making unauthorized room changes will be fined.

The College reserves the right to change room assignments in the interest of health, discipline, or the general welfare of a student and/or students. The College reserves the right on a case-by-case basis to deny housing rights to those who have criminal records.

Length of the Contract

The contract expires at 6:00 p.m. on the day you withdraw from the College or the date of your last examination.

Housing units are closed during Winter break. Only those students required to remain on campus during the break (i.e. for an athletic event or a performance) will be allowed to occupy student housing during break periods. Students with special circumstances may contact the Director of Student Life to make any necessary arrangements. A daily rate will be charged to those receiving permission to stay.

Mail

Each student has his or her own mailbox located in the basement of the Student Union. Students will be assigned a key for his or her box. Students may have their mail addressed to: Student Name, Apartment, 606 West Main, Highland, KS 66035. **Replacement cost for lost mailbox key is $15.00.**

Maintenance

For routine maintenance, contact your Resident Assistant to fill out a maintenance request. **When you make the request, you authorize maintenance personnel to enter your room to perform any necessary work.**

For maintenance emergencies, contact your resident assistant. If he or she is unavailable, contact Security or the Director of Student Life.

Quiet Hours

Quiet hours are from 9:00 p.m. - 8:00 a.m. daily. During quiet hours, no noise (voices, television, radio/stereo) may leave your room. At all other times, keep in mind that you are living with and near others. City of Highland quiet hours begin at 9:00 p.m. daily, and will be enforced by local officials.

Resident Assistants

Students serving as Resident Assistants live in campus housing. Resident Assistants serve several purposes:

- Answer questions about housing policies or procedures
- Direct students to the campus or community resources that may be needed to address or solve a problem
- Conduct regular room inspections and inform student of activities, intramural events or anything which may be of concern to dorm residents.
- Help address personal problems
- Assist with conflict resolution

- Help the College maintain an educational environment
- Respond in emergency situations
- Resident Assistants are considered to be College officials. Any insubordination directed at them will be treated in the same way as that directed at other College staff members.

Room Entry

The College reserves the right to enter students' rooms in the interest of health and safety, or when a violation of College policy, housing policy, or law is apparent or probable cause is given. Your assigned Resident Assistant, Campus Housing Staff, or the Vice President for Student Services may conduct room inspections. HCC campus security, law enforcement officials and/or canines, used for the detection of illegal substances or unlawful possession of weapons, may accompany HCC officials during inspections.

Visitation

Room visitation hours for all campus housing are from:

9:00 a.m. - 1:00 a.m. Sunday through Thursday, and

9:00 a.m. - 2:00 a.m. Friday and Saturday.

The Director of Student Life must approve all overnight guests of students living in campus housing prior to the stay. Residents who have unapproved guests will be subject to disciplinary action.

Affirmative Action/Equal Opportunity Statement
Highland Community College does not discriminate on the basis of race, color, religion, national origin, sex, age, disability, marital status, or military status, or military veteran status as defined by law, in employment, admission, or operation of its educational programs and activities, as prescribed by Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Executive Order 11246, as amended, sections 503 and 504 of the Rehabilitation Act of 1973, the Vietnam Era Veteran's Readjustment Assistance Act of 1974, The Age Discrimination Acts of 1974 and 1975, and other federal and state laws and regulations. Inquiries concerning the application of these laws and regulations to the College may be directed to the College's affirmative action officer, or the Director, Office of Civil Rights, U.S. Department of Education, Washington, D.C. 20201.

Content and Disclaimer
Currently the HCC website represents the curriculum, educational plans, offerings, and requirements that may be altered from time to time to carry out the purposes and objectives of the College. Highland Community College retains the right to cancel or change programs or course offerings when enrollments are insufficient to continue them on an educationally sound and/or economically efficient basis.

Highland Community College expressly reserves the right to:
1. Add or delete courses from its offerings
2. Change times or locations of courses or programs
3. Reassign or substitute instructors
4. Change academic calendars without notice
5. Cancel any course for insufficient registration or other reasons
6. Revise or change tuition, rules, charges, fees, schedules, courses, requirements for degrees
7. Revise or change policies or regulations affecting students
8. Revise or change evaluation standards

The electronic catalog is updated periodically and represents the current legal document, available at **highlandcc.edu/pages/catalog_1.**

Revision of Regulations
Any regulation adopted by the Board of Trustees or the administration of Highland Community College subsequent to the printing of this catalog shall have the same force as a printed regulation within the website. The new regulation shall supersede any ruling on the same subject, which may either appear in the printed website or in official bulletins of the College.

Photo and Videotape Policy
The HCC Office of Institutional Advancement takes photographs (still and video) of students throughout the year. These photographs often include students in classrooms, study areas, attending athletic events, etc. HCC reserves the right to use these photographs as a part of its publicity and marketing efforts. Students who enroll at HCC do so with the understanding that these photographs might include their likeness and might be used in College publications, both printed and electronic, for recruiting and advertising purposes.

Academic Calendar
The academic calendar is located at **highlandcc.edu/pages/calendar** . This may be altered or changed to carry out the purposes and objectives of the College. Highland Community College retains the right to cancel or change events listed without notice.

Mission Statement
HCC, the first college in Kansas, provides lifelong learning opportunities and contributes to economic development to enhance the quality of life in the communities we serve.

Vision Statement
Highland Community College is recognized as the college of choice in Northeast Kansas.

History of Highland Community College
Highland Community College was chartered as Highland University by the Kansas Territorial Legislature on February 9, 1858, making it the first college in Kansas and two years older than the state itself. Begun as part of the Presbyterian mission to area Indian tribes, the College evolved through eight name changes and a variety of support structures to today's public regional community college serving a nine county service area in Northeast Kansas.

The history and mission of the College can best be described as providing opportunities for higher education that citizens in the region would not have had otherwise. Whether as a conduit to a four-year degree, for professional enhancement, a variety of technical career opportunities or personal development, the College provides affordable access to higher education in Northeast Kansas.

Today, the College is financially sound and serving more students than any time in its history. The College is governed by a six-member Board of Trustees elected from Doniphan County and is coordinated by the Kansas Board of Regents.

Degrees and Certificates
Highland Community College offers associate degrees and certificates of achievement in specialized areas. The associate degrees are: Associate in Arts, Associate in Science, Associate in Applied Science, Associate Degree in Nursing, and Associate in General Studies. Students have a choice of over eighty programs, including technical certificates and degrees. Degree and certificate planning forms begin on page 20 of this catalog.

HIGHLAND
COMMUNITY COLLEGE

Concurrent

Highland's Concurrent Program provides high school students in the HCC service area the opportunity to expand their curriculum by enrolling in concurrent courses. Highland courses taught at the high school have the identical course content of courses offered on campus, online, and in regional centers. Classes are evaluated by the Director of Concurrent Enrollment and the Vice President of Academic Affairs before being implemented at the high school. The course instructor must meet the Kansas Board of Regents (KBOR) criteria prior to teaching a concurrent course.

The Kansas Board of Regents (KBOR) encourages high school students to take advantage of postsecondary educational opportunities by enrolling in college courses while still in high school. The statute is known as Concurrent Enrollment of High School Students in Eligible Postsecondary Institutions. Taking college classes in the high school setting is a great opportunity for high school junior and seniors in good standing to experience college while they are still in high school. Students who choose the Concurrent Program learn first-hand the demands of going to college. They experience the process of enrolling in college classes and get a feel for the costs associated with college: tuition, fees, and textbooks. The Concurrent Program experience eases a student's transition from high school to college and provides academic enrichment to students who are ready for the challenge of college course work. Highland classes are offered at affordable rates when compared to state universities, and students enjoy accessibility to instructors within small classroom settings.

Interactive Distance Learning (IDL)

The IDL system allows students to complete courses being taught at other HCC sites without having to travel to that location. Through a TV, camera setup, and microphone, students are able to physically attend class at one location and fully participate and interact with the instructor and classmates located at other sites. Instructors utilize lecture, board work, videos, and computer sharing to provide a high-quality learning environment.

Hybrid

Hybrid classes combine face-to-face classroom learning with computer-assisted online learning. Time in a hybrid course is divided between classroom learning activities and online classroom participation in the HCC Online platform. Students benefit from the quality instruction delivered through different modes and the flexibility of both the online and classroom learning environments through independent and collaborative work.

Online

The College has an active online program which offers courses in 8-week and 16-week sessions. Several degree programs are available entirely online, offering students the opportunity to pursue their educational goals, such as earning transfer credit or achieving personal and career growth. Online courses are an excellent option when attending college in a traditional classroom is not convenient. Courses taught in the online format meet the same competencies as those in a classroom, yet fit the student's schedule.

Regional

The College serves nine counties in Northeast Kansas. The five regional centers are: Atchison, Holton, Perry, Wamego, and Western Center in Baileyville. All administrative services for students -- advising, placement testing, and enrollment are available at each regional center and online. The College continues to offer college courses during the day, evening, and weekend at over thirty existing community sites, including high schools and community education centers.

Adult Basic Education/General Educational Development (ABE/GED)

The Highland Community College Adult Education Program offers free services to students 18 years of age and over and 16 and 17 year olds not currently enrolled in school (with a "Compulsory School Attendance Disclaimer" form) in Northeast Kansas.

New students may enter the program at appointed times throughout the year. Pre-tests are given to help determine the level at which students begin study. Further testing is used to determine when a student is ready to take the General Educational Development (GED) test. More information available at **highlandcc.edu/pages/adult-education-programs.**

Placement Testing

Highland Community College provides placement testing for incoming students who have no ACT or SAT scores to determine placement in English, reading and mathematics. HCC currently administers the Work Keys and Accuplacer. Students may contact any location to set up an appointment for assessment. Multiple attempts on assessments cost $25.00 each. Work Keys Assessments are available at the Technical Centers for students applying for technical programs. The Work Keys assessments cost $10.00 each for reading and mathematics.

Outcome Assessment

Assessment of student learning is a critical component of the College's mission. Students who graduate with the Associate in Arts (A.A.) or Associate in Sciences (A.S.) degree complete an assessment of general education competencies. Students who earn an Associate in Applied Science or Technical Certificate complete an exit exam specific to their program or discipline.

Student Handbook

Highland Community College annually publishes a Student Handbook with information about Student Conduct, Notification of Non-Discrimination, Campus Policies, Security, Sexual Harassment, Student Grievance, Directory Information and several other student related categories. Please consult the Student Handbook at **highlandcc.edu/pages/handbook.**

Student Accidents and Losses

Although the College exercises reasonable precautions, it can assume no responsibility for accidents to students that may occur incidental to attendance at, or participation in classroom, laboratory work, intramural or intercollegiate activities. The College does not accept responsibility for any personal property lost, stolen, or misplaced.

Student Identification Cards

At registration, new students receive an identification card that is good for their period of enrollment at Highland Community College. The identification card is important because it is the student's permit to enter the College buildings, one of the requirements for checking out books and accessing electronic information in the Library, an admittance card to many student activities and College events, meal plan access, and it allows benefits such as reduced rates at plays, concerts and other public events. A fee of $5.00 will be assessed for replacing a lost identification card.

Admissions

Students who meet the requirements listed below may be admitted to Highland Community College. Admission to the College does not ensure entrance into a particular course or program of study. An application for admission can be found at **highlandcc.edu/pages/online-application** on the HCC website or by contacting the Admissions Office at (785) 442-6020.

Rights of the College

The College reserves the right to deny a student admission or readmission if considered detrimental to the best interests of the college community or if the College is unable to provide the services, courses or program(s) needed to assist the student in meeting educational objectives.

Regular Student Admission

Any applicant who has graduated from an accredited high school or has successfully passed the General Educational Development (GED) examination is eligible to enroll at Highland Community College. If the applicant meets neither of these requirements, admission as a special student should be sought.

All students applying for regular admission must:
- Complete an application for admissions at **highlandcc.edu/pages/apply**
- Submit a current high school or GED transcript and a complete official transcript upon graduation.
- Submit official college transcripts from each college attended.
- Submit ACT/SAT scores OR arrange to take appropriate placement test.
- Comply with Tuberculosis Screening Requirement (excludes online only students). See "Additional Admissions Requirement for Face-to-Face Classroom Settings."

Regular students are eligible to receive federal financial aid and may earn a certificate and or degree, and may be eligible to compete in intercollegiate athletics. International students are not eligible to receive federal financial aid.

Note: *Students not submitting all official transcripts from all previously attended institutions prior to completion of entering term will be changed to "Special Student" for the next term and not be eligible to receive federal financial aid.*

Special Student Admission*

A person may be admitted to Highland Community College as a special student if the student meets one of the following criteria:

- Is not seeking an approved certificate or degree from Highland.
- Is taking classes for personal enrichment.
- Is a high school/home school sophomore, junior or senior with permission from the high school/home school administrator.
- Is a high school/home school student enrolled in approved gifted program with permission from the high school/home school administrator.
- Is taking classes to transfer to another school.
- Comply with Tuberculosis Screening Requirement (excludes online only students). See "Additional Admissions Requirement for Face-to-Face Classroom Settings."

*Special students are not required to submit transcripts, are not eligible for federal financial aid and most institutional aid, are not eligible to earn a certificate or degree from Highland, and are not eligible to complete in intercollegiate athletics. Student services will be available upon the student's request. For purposes of placement, special students may be required to submit placement scores, college transcripts, or be assessed prior to enrollment. Special students taking face-to-face classes must comply with "Additional Admissions Requirement for Face-to-Face Classroom Settings."

Changing Status from Special Student to Regular Student

Concurrent Students and other Special Students who wish to change their status from special student to regular student must contact the Highland Campus Admissions Office at admissions@highlandcc.edu.

Transfer Students

A transfer student must meet all of the regular student admissions requirements. HCC reserves the right to determine which transfer courses will fulfill graduation or departmental program requirements. A maximum of forty-seven (47) credit hours may be transferred to HCC and applied toward a degree, including hours transferred from other institutions as well as qualifying CLEP test credits.

Prior to registration, students transferring to HCC are required to submit official transcripts of all credits earned at other institutions. The Registrar will evaluate successfully completed coursework from accredited institutions. If accepted as satisfying degree requirements, these transfer hours will be counted towards graduation and will be counted in the calculation of the GPA. A transfer student must complete sixteen (16) credit hours at Highland Community College to be eligible for graduation.

Repeating a Course

Highland Community College will transcript both the original and any repeated course. The highest will be used in computing the cumulative grade point average.

International Applicants

For purposes of admission, international applicants are defined as all persons who are not citizens nor permanent residents of the United States. An international applicant must meet ALL of the following requirements.

1. Submission of an HCC application for admissions **highlandcc.edu/pages/apply (at least two months prior to the beginning of the semester for which application is being made).**
2. Submission of official transcripts from all secondary schools and universities attended. Student must have a 3.0 minimum GPA on a 4.0 scale in secondary school.
   a. If English translation is needed: Students must have their foreign credits evaluated by an accredited, independent agency such as: World Education Services (wes.org), Educational Perspectives (educational-perspectives.org), or Educational Credential Evaluators, Inc. (ece.org).
   b. If English translation is not needed: Transcripts must be mailed, faxed, or emailed directly from the institution to HCC Student Services, 606 W. Main, Highland, KS 66035 Fax: 785-442-6106 or Email: admissions@highlandcc.edu

3. Submission of evidence of the ability to communicate in English, which will permit reasonable academic progress, through the following methods:
a. Completion of a minimum of 15 weeks in an approved Intensive Language Center OR
b. A score on the Test of English as a Foreign Language (TOEFL) of one of the following:
   ·500 (paper-based)
   ·173 (computer-based)
   ·61 (internet-based)
c. A score on the International English Language Testing System (IELTS) of 6.0
4. Submission of the affidavit of support form and a bank statement dated within 6 months of the start of the semester.
5. Payment of $150 housing deposit and signed housing contract for HCC campus housing or provide written verification from a sponsor living within 30 mile radius of Highland campus or other HCC regional site the student is planning to attend.
6. Payment of $100 I-20 processing fee, which is credited toward fees in the semester for which the I-20 is issued.
7. Provide a copy of current passport (photo identification).

Before receiving F-1 visa, student must pay the $200 SEVIS fee for the I-901 document online at ice.gov/sevis/i901.

After Arriving at Campus

8. Provide proof of adequate health insurance, which includes coverage for medical evacuation, repatriation, and medical coverage while in US.
9. Provide copy of F-1 Visa to Student Services Office.
10. Students, who are not citizens of the United States and come from TB endemic countries as defined by WHO Global TB database, are required to have a TB skin test (known also as a PPD) upon arrival on campus.

International Student Admission-Special Student

International students whose I-20 is held by another college or university may take up to 9 hours per semester at Highland Community College and may be admitted as a Special Student after the following are provided:

1. Submission of an HCC application for admissions **highlandcc.edu/pages/apply**
2. Letter (on official letterhead) from the PDSO or DSO of the SEVP university or college holding the I-20, stating that the student is maintaining their immigration status.
3. Copy of the I-20 form.
4. TB test (if applicable). Special students taking face-to-face classes must comply with "Additional Admissions Requirement for Face-to-Face Classroom Settings."

Selective Admissions Policy

Admission to Highland Community College does not guar-antee acceptance and/or enrollment in the following pro-grams. Additional admissions requirements are required:

Practical Nursing (PN)

Students are required to be a CNA (certified nursing aide) and take the following hours prior to entering the PN Program:
• Human Growth and Development-3 credit hours
• Human Anatomy & Human Physiology with lab - minimum of 5 credit hours. (There is a 7 year expiration date. If over 7 years, please contact the Nursing Department.)
    o BS104 Human Anatomy with lab- 4 credit hours
    o BS105 Human Physiology with lab- 4 credit hours

PN students begin classes each August and finish in May. Application materials (Nursing Program Application; Test Results; Transcripts; etc.) are due by April 1 each year. Forty students are accepted into the PN program each year. Students should contact the nursing department to obtain an informational packet with comprehensive application requirements by emailing Nursing@highlandcc.edu

Applicant's file must contain the following in order to interview:
1. Application with correct major/program and semester (select practical nursing and fall.)
2. Teas V Test: Minimum average score of 58.7%. Bring photo ID, arrive 15 minutes prior to start time, plan on two plus hours, fee is $65. Call (913) 367-6204, ext. 138 for open test dates

3. Work Keys Scores: Level 5 for Math and level 6 for Reading. Plan on two plus hours for these tests. Fee is $12 for each test for a total of $24.
4. CNA certification in Kansas or its equivalent if from another state. This must be current.
5. Proof of graduation from high school or completion of GED.
6. Letter of reference (form provided in information packet) from most recent employer that recommends applicant.
7. Transcripts verifying C or better grades for these college courses: Anatomy & Physiology (minimum of 5 credit hours with lab) and Human Growth and Development (3 credit hours).

The Selection Process is Point Driven:

An applicant's file is complete when items 1-7 are in his/her file. Applicants whose files are complete are scheduled for the group interview around April 1st. As part of the interview, applicants will be given points for punctuality, attire, and the writing sample. A point system is used to determine the best qualified applicants who are then sent letters of acceptance. These individuals must respond to their acceptance letter by the date indicated in the letter. Failure to return the acceptance by the date provided will result in the loss of a position in the class.

Additional Points Award for the following: CNA (<6 month), CMA, College English, College or Intermediate Algebra. All application materials must be in the nursing office by April 1. Applicants will be directed as to how to obtain a criminal background check and a drug screen in the ac-ceptance letter. Nursing applicants must be 18 years old by graduation from the Practical Nursing Program and able to perform the physical and mental activities required of nurses.

LPN to RN Completion Program (Associate Degree in Nursing)

Must have an active LPN license. In addition, the following prerequisites are required:
• Human Growth and Development - 3 credit hours
• Human Anatomy and Human Physiology with labs - minimum of 5 credit hours. (There is a 7 year expiration date. If over 7 years, please contact the Nursing Department.)
    o BS104 Human Anatomy with lab - 4 credit hrs
    o BS105 Human Physiology with lab - 4 credit hrs
• General Psychology - 3 credit hours
• Microbiology with lab - minimum of 4 credit hours. (There is a 7 year expiration date. If over 7 years, please contact the Nursing Department.)
    o BS 203 Microbiology with lab - 5 credit hours (BS 101 prerequisite)
• College English I - 3 credit hours
• College English II or Public Speaking or Oral Communications - 3 credit hours
• Computer Literacy Elective - 1 credit hour
• Humanities and Fine Arts Elective - 3 credit hours
• IV Therapy Certification
• CPR Certification - American Heart Association BLS for Healthcare Providers

Students must make application to the program by September 1 meeting all application requirements. Students should contact the nursing department to obtain an informational packet with comprehensive application requirements. The program begins in the spring semester and finishes after the summer semester. Twenty students are accepted to the program each year.

Kansas Army National Guard and Reservists
Members of the Kansas Army National Guard can attend Highland Community College under an agreement between the Kansas Army National Guard and Kansas community colleges. The agreement allows Guard members to transfer military training and experiences under the recommendations of the American Council of Education (ACE) to Highland Community College and to gain credit through the College Level Examination Program (CLEP).

Generally, the Guard member must earn a minimum of sixty-three credit hours of which sixteen (16) hours must be in residency (on campus, regional site, or online) at Highland Community College. Guard members must earn the sixteen hours within two years of their graduation date.

Additional Admissions Requirement for
Face-to-Face Classroom Settings
In compliance with Kansas Statute KSA 2009 Supp. 65-129, the College has instituted a tuberculosis prevention and con-trol policy for students. All students applying for admission to Highland with classes in a classroom setting at Highland Community College or at one of its regional sites will be re-quired to complete a Tuberculosis Screening Questionnaire. Very Important: A yes response to ANY of the five questions on the questionnaire will classify the student in a "high risk" tuberculosis category as defined by the Kansas Department of Health and Enrollment guidelines. These students will be required to complete a Tuberculosis Assessment at the local health department or medical clinic prior to attendance in a college classroom. Students who do not comply with this requirement will not be able to enroll in face-to-face classes.

Credit by Assessment
Highland Community College accepts College Level Examination Program (CLEP) credits by examination. The CLEP permits students of any age or education level to gain college credit, following satisfactory completion of CLEP examinations. Highland Community College serves as a testing center along with other community colleges, colleges, and universities around the United States.

College-Level Examination Program (CLEP)
CLEP exams offered are sufficiently challenging to an individual who has a significant background in the subject area. Study guides with sample test questions are available online at **collegeboard.com.**

Highland Community College is a CLEP Open Test Center. This means that the CLEP Coordinator will administer the CLEP examinations upon receipt of the completed "Request for College Credit" form and fees from the individual requesting the service. However, students seeking a degree program from HCC are reminded to review institutional policies concerning CLEP credit and confer with the Registrar for permission to test. More information at **highlandcc.edu/pages/clep-testing.**

Registering for CLEP Exams
1.   Obtain a "Request for College Credit" form, from the Testing Coordinator.
2.   Discuss taking a CLEP examination with the Registrar. If approved, then the Testing Coordinator and the Registrar must sign the "Request for College Credit".
3.   Schedule a date and time with the Testing Coordinator to take the test.
4.   On test date, take the completed "Request for College Credit " form and two checks: One payable to CLEP for the amount of the exam(s) and one payable to Highland Community College for the amount of the administrative fee. Credit cards are accepted. (English Literature and American Literature ONLY require additional fees.)

HCC "CLEP" Policy Subject Examinations
1.   The Registrar must grant approval for a student (those seeking a degree from HCC) to take a subject level exam on the basis of an interview.
2.   A passing score on the examination shall be the mean score achieved by "C" students in the national norm sample.
3.   Sixteen (16) semester hours of credit is the maximum allowed toward a degree program through CLEP. Credit can be used to meet course requirements in a major field of study, general studies program or other appropriate areas.
4.   CLEP credit earned does not count toward course load in any term.
5.   Students who fail a course offered by Highland Community College cannot be approved for a CLEP subject examination covering similar content.
6.   Subject examinations may be repeated with written authorization obtained in advance from the College Entrance Examination Board (CEEB), once within a 12-month period but no sooner than six months after the student was last tested.

Highland Community College will accept CLEP credit for the following courses (following page) if the scores meet the minimum score required for each course. Minimum scores are the credit-granting scores recommended by the Ameri-can Council on Education. No more than sixteen (16) credit hours of CLEP credit will be accepted at HCC. A student's transcript will designate all credits earned through CLEP.

College-Level Examination Program (CLEP) Guidelines for Awarding College Credit for CLEP Subject Examinations

Subject Examinations	HCC Course Equivalent	Minimum Acceptable	Amount of Credit Awarded
American Government	POL100	50	3

General Information
A normal full-time class load consists of twelve (12) to eighteen (18) credit hours. Students enrolled in fewer than twelve (12) are considered part-time students. Students may register for up to eighteen (18) credit hours per semester (or 12 credit hours over an 8 week summer session or 6 hours over a 4 week summer session). Students wishing to enroll in more than eighteen (18) credit hours must obtain approval. Visit the website at **highlandcc.edu/pages/request-for-overload** for the overload approval form. All tuition and fees are due at the time of registration.

Registration Procedure
Class schedules are located on our website at **myhcc.highlandcc.edu/SelfService/Search/SectionSearch.aspx** Dates and hours published are set by the College. Questions concerning enrollment should be directed to the Student Services, regional or online offices.

Enrollment is available when the class schedule is open and posted, to current students, in good academic standing: Available for new students that have submitted all required admissions documents; official transcripts, and have been accepted. Enrollment is available for all students on a first-come, first-serve basis.

Placement Testing
Entering freshmen are encouraged to take either the ACT or SAT assessment prior to registration. Students who have not taken the ACT or SAT assessments will be required to take the Work Keys and Accuplacer assessment in mathematics, English, and reading. All campus students will be assigned an advisor who will use these scores to place students in the appropriate level course(s). Regional and online students will be advised and assessed based on their assessment scores.

College Success and Orientation Classes
College Success and Orientation classes are scheduled to introduce all new students to the programs and requirements of the College. Attendance is mandatory. These sessions are specifically organized to help answer questions about admissions, registration, enrollment, and program planning. All new Highland Community College students are required to complete AB114 Agriculture Orientation (2 credit hours) or COL 103 College Success and Orientation (1 credit hour). Orientation is a graduation requirement.

More facts about orientation:
1. Students must take the course before enrolling in the twenty-fifth (25) credit hour.
2. Students transferring more than thirty (30) hours into Highland Community College are not required to take orientation.
3. Students who have already taken a similar course are not required to take orientation.

Current Tuition and Fees
The HCC tuition and fees are in compliance with the laws of the state of Kansas and adopted by the Highland Community College Board of Trustees. These are subject to change at any time by the Board of Trustees. To determine the amount due from semester charges, Highland Community College will total all charges (tuition, all fees, room and board) and subtract verifiable financial aid (Pell, SEOG, loans, scholarships) and advance payments. If the student has a prior semester balance due that student will not be allowed to enroll until the prior semester's balance is paid in full. All tuition and fees are payable at the time of registration. Payment may be made with cash, check, or credit card (MasterCard, Visa, Discover). For the most current tuition and fees, please refer to the College website at **highlandcc.edu/pages/tuition-costs**.

Payment Plans
Highland Community College offers payment plans as yet another way to make college more affordable. This payment plan is administered by Nelnet Business Solutions. Students taking an HCC course may finance a portion of their tuition, fees and main campus Room/Board via one of the payment plans. There is a $25 non-refundable fee due immediately to establish a payment plan for each semester.

Students may set up a payment plan in their name, or they may authorize a parent, guardian or another individual to set up a payment plan on their behalf. To set up a payment plan or for more information visit the website at **highlandcc.edu/pages/payment-plans.**

Third Party Payments
Payments made by a third party vendor will have the option of deferred billing. A student must submit a letter from the vendor on a letterhead indicating the total cost it will cover and attach a letter from the vendor indicating it will cover the cost of the amount due. The College will bill the vendor. Should the vendor not pay the account in full, the student is responsible for any balance remaining.

Billing
Students with outstanding balances will receive monthly statements indicating amount due.

Collections
Accounts with outstanding balances beyond ninety (90) days will be sent to a collection agency.

Refunds and Withdrawals
1. If HCC cancels a course, the student will receive a full refund of tuition paid.
2. 100% refunds are given on student-initiated withdrawals within the first week of classes. (1st week is defined as

three hours of class time in a 3 hour class; five hours of class time in a 5 hour class; and one hour of class time in a 1 credit hour class.)

3. 50% refunds are given on student-initiated withdrawals within two weeks of the class beginning. (Two weeks is defined as six hours of class time in a 3 credit hour class; 10 hours of class time in a 5 credit hour class; and two hours of class time in a 1 credit hour class.)

4. 0% refunds are given at the beginning of the 3rd week of classes. (Three weeks is defined as attending seven hours in a 3 credit hour class; 11 hours in a 5 credit hour class; and three hours in a 1 credit hour class.)

Campus students should contact their Advisor, regional students must contact the Regional Center Director, and online students must send an email to **hcconline@highlandcc.edu** to process withdrawals. For students who receive financial aid, refunds will be determined according to Federal Financial Aid regulations. Highland Community College will use the institutional policy or the 'Return of Title IV Funds' formula issued by the U.S. Department of Education.

Housing and Food Service
On-campus apartment-style housing is available at Highland Community College on a first come basis. A completed contract and deposit will hold a housing space as received. Summer on-campus housing is also available at an affordable rate. Contact the Student Services office for details at (785) 442-6020.

The deposit is a refundable damage deposit. Students must complete a required check out procedure with the College staff to confirm status of the room and contents. Pending the results of the check out procedure and other debts to the College, a refund will be sent within forty-five (45) days of the end of the academic year.

The contract also includes paid utilities, cable television service, and Internet access.

Things to Remember
Each year, financial aid from various sources is available to eligible students. The College administers a variety of federal, state, and local programs, as well as providing computerized search programs and application materials for an assortment of private scholarship and grant sources. The Highland Community College Financial Aid Office staff is eager to answer students' questions and provide assistance to students in determining their eligibility for available funds. A major source of funding for educational programs is obtained through federal and state governmental agencies. There are many regulations, forms to complete, and deadlines to meet. The Financial Aid staff will only ask for documents necessary to determine eligibility for financial assistance. All information students provide will be held in confidence as required by the Family Educational Rights and Privacy Act of 1974. We try to prevent any duplication of effort and work as quickly as possible.

The Financial Aid Application Process
Follow these guidelines to make the application process easier:

1. Apply early! Gather the requested documents and submit an application well before the published deadlines so there is time to resolve any problems.

2. Students and their parents must maintain copies of IRS tax forms, Social Security or Pension Benefit Letters or other official documents needed to complete the application and verify family income.

3. Read all instructions carefully before completing your application. Ask for help if necessary.

4. Make certain the student's mailing address is reported accurately, and report any change of address.

5. Don't leave items blank. If the answer is zero, enter zero (0).

6. When mail is received from the College, the Department of Education, the State Scholarship Commission, or other similar agencies, open immediately, read carefully, and respond promptly.

7. Even if the student receives financial assistance, that aid will rarely cover all expenses while attending college. The student will be expected to contribute some portion of the total cost.

Getting Access to Financial Assistance
The Financial Aid office assists students in gaining access to available sources of financial assistance to complete their college program. Federal, state, and local governmental agencies fund an assortment of financial assistance programs. Funds may also be obtained from various private businesses, foundations, or other philanthropic organizations. However, students are rarely able to find enough resources to fully fund the complete cost of college attendance and should be aware that the primary responsibility for financing educational expenses belongs to the student and his/her family.

Eligibility Requirements for Federal Financial Aid
As of July 1, 2011, all successful federal financial aid applicants, in addition to meeting institutional admission requirements, must have earned a high school diploma or recognized equivalent at the time of admission.

Successful applicants for federal and state financial aid programs must also:
1. Establish a "complete" financial aid file.
2. Meet current federal and state guidelines for financial need.
3. Be a U.S. citizen or eligible nonresident.
4. Enroll as a student in an eligible program with the objective of earning a degree or certificate in a program leading to a recognized field or occupation.
5. Maintain satisfactory academic progress as defined by the College.
6. Be neither in default on, nor owe a refund or repayment on a federal grant or education loan.
7. Have lawfully complied with Selective Service Registration procedure.

How Financial "Need" for Federal and State Programs is Determined

Financial need is the difference between the cost of attendance (COA) at Highland Community College and the amount the student and/or the student's family can reasonably be expected to contribute to the cost. This "family contribution" is computed on the basis of documented income and other related information (family size, number of family members in college, family assets, etc.) that must be furnished by every applicant completing the Free Application for Federal Student Aid (FAFSA). The data are used in a Congressionally approved needs analysis formula which determines Effective Family Contribution (EFC). This figure can be found on the Student Aid Report (SAR) and is used by the College to determine the total amount of financial aid one can receive.

After an application for financial aid is processed, depending on the availability of funds, the Financial Aid Office will put together an individualized package, based on the applicant's computed EFC, and the institution's scheduled cost of attendance, or student budget.

How to Apply for Federal and State Financial Aid

Complete the Free Application for Federal Student Aid (FAFSA) electronically at **fafsa.gov**. When completing the FAFSA, it is important to indicate Highland Community College as the first school choice; the **HCC school code is 001921**. Depending on the method of application, the applicant should receive a response from the processor within two to six weeks.

The FAFSA is used for all federal, most state, and some independently funded financial aid programs. Provide the Financial Aid Office with:
1. All requested documents to verify income, citizenship status, household size, and other essential data elements.
2. Verification of compliance with Selective Service Registration procedures, upon request.
3. Documentation of a valid social security number, upon request.
4. All other requested documents related to verification of your eligibility for financial aid funds.

Financial Aid Programs

Federal Work Study Program

The Federal Work Study Program provides jobs for students with financial need, allowing them to earn money to help pay education expenses. The program encourages community service work and work related to the student's course of study.

Federal Pell Grant

Pell grants are federal funds intended to provide the basis for a student's financial aid package. An eligible student may currently qualify for a maximum award of $5,645.00 (2013 rate) a year, for full-time enrollment, to help cover the cost of tuition, fees, books, living expenses, and transportation. The actual amount of the grant will depend on hours enrolled and demonstrated need.

Supplemental Educational Opportunity Grant (SEOG)

Federal funds that supplement Pell grant awards for students with exceptional financial need. Students are offered these awards on a "first-come, first-served basis," depending on certified eligibility, demonstrated need, and availability of funds.

Awards

Highland Community College offers a variety of awards. The sources of these funds include the state, the College, and private donors. Awards are available in the academic, performance, and athletic areas. For information containing a complete list of awards and requirements, please see the website at **highlandcc.edu/pages/scholarships-awards.**

Loans

Federal Direct Loan Program, Highland Community College participates in the federally-sponsored Direct Loan Program commonly known as Stafford Loans. Students demonstrating need may be eligible to receive a subsidized Stafford Loan with interest paid by the federal government while the student is in school. Students who do not demonstrate need based upon their Free Application for Federal Student Aid (FAFSA) may qualify for an Unsubsidized Stafford Loan. Although the student may defer payment of interest on the loan until after leaving school, he or she remains responsible for all interest that accrues from the disbursement date of the loan. Students apply for these programs by completing the FAFSA and meeting all other institutional, federal, state, academic, and financial aid eligibility requirements. The student borrower must repay loan funds.

Independent Funding Sources

Students who do not qualify for federal and state need-based programs are encouraged to inquire about possible referrals for other independently administered award, grant, and loan programs.

Veterans Educational Benefits

The Registrars office provides administrative assistance to obtain benefits for veterans enrolled at Highland Community College. Some of the programs eligible veterans may participate in at Highland Community College include:
Benefits Sponsored by the Department of Veterans' Affairs:
1. G.I. Bill, provides monthly stipend
2. Veterans' Dependents Allowance Educational benefits are for dependents of deceased or disabled veterans
3. Vocational Rehabilitation Benefits for occupational retraining
4. Tutorial Assistance

Eligibility requirements vary. The application is available on the GI Bill website at **gibill.va.gov.**

Standards of Satisfactory Academic Progress (SAP) for Financial Aid Eligibility

Federal regulations require that students receiving federal financial aid, including Pell Grants, Supplemental Educational Opportunity Grants, Federal Work Study, VA Benefits, and Federal Direct Student Loans, maintain satisfactory academic progress towards a degree or certificate in order to be eligible to receive federal aid. Progress will be measured at the end of each semester according to three factors: 1) a semester and cumulative grade point average (GPA); 2) completion of credit hours; 3) and the time frame allowed for completing a certificate or degree.

Students in Good Standing

Students maintaining the following minimum criteria will be in good standing for Federal Aid purposes.
1. GPA - A minimum 2.0 GPA measured by semester and cumulative credit hours. All hours except for developmental and audit hours are counted in a student's GPA. Developmental hours are included as hours paid and passed, but are not calculated in the GPA. Audit hours are NOT considered for financial aid.
2. Minimum Completion Rate-Students must complete 66.67% or two thirds of all hours attempted. This will be measured by semester and cumulative hours. Completion rate is calculated as follows: hours completed/(divided by) hours attempted x (multiplied by) 100 = completion percentage.
3. Maximum Time Frame 150% - Two-year degree seeking students may not receive financial aid for more than 150% of the required hours to complete a degree. At HCC, students may not receive federal aid for more than 95 hours. Calculation: HCC degrees require students to complete 63 credit hours. 150% x 63=94.5 (rounded to 95).

Warning Status

Students who have been in good standing, but fail to meet the minimum requirements stated above will be placed on warning for the following semester of attendance, but will continue to receive Federal Financial Aid. At the end of the warning semester, students must have a semester and cumulative 2.0 GPA <u>and</u> must have a 66.67% or two thirds cumulative completion rate. <u>There is no Warning status for students who have exceeded the Maximum Time Frame of 150%. These students will go directly into suspension status.</u>

Suspension Status

Suspension means that a student's eligibility for federal grants, direct loans, VA Benefits, and federal work-study has been suspended due to not making Satisfactory Academic Progress. Suspension from Federal Student Aid will occur if a student on Warning or Probation does not meet the requirements for Good Standing. Suspension will also occur if a student has exceeded the Maximum Time Frame stated above. Students will be able to attend HCC if reinstated.

Reinstatement

Students who are suspended from financial aid will receive a suspension notification letter at the end of the semester. There are two ways that a student may be reinstated.
1. **Appeal** - Students with documented mitigating or unusual circumstances may complete an online appeal form and submit appropriate documentation requesting reinstatement from the Satisfactory Academic Progress Committee. The decision of the committee is final. Students should submit their appeal form and documentation any time after receiving notice of suspension (or withdrawing) and no later than midterm of the semester before they want to re-enroll. Allow approximately three weeks for processing. SAP appeals will be approved only once per academic career.
2. **Self-Reinstatement** - If there is not an extenuating documented circumstance to appeal or if the appeal is denied, a student is placed on self-reinstatement. Any student with this status is eligible to re-enroll at Highland Community College but is not eligible for financial aid or VA Benefits. After a Self-Reinstatement semester, a student must reach Good Standing requirements to regain eligibility to financial aid. If a student owes a repayment of overpayment of Federal Student Aid, it must be taken care of before the student can regain eligibility for additional Federal Student Aid. Student account balances must be paid in full before financial aid can be reinstated. <u>Students on suspension for Maximum Time Frame cannot appeal or self-reinstate, but must submit a separate reason for Attending 150% of Degree Program Form</u>

Probation

Probation occurs when a suspended student submits an appeal form to the SAP committee and the appeal is granted. Probation students will be eligible for federal aid for one additional semester. After the probationary semester, students now meeting the required SAP standards will be placed back in Good Standing and will have their financial aid reinstated upon review. Students not meeting the required standards will no longer have the option to receive financial aid at HCC and will again be placed on Suspension..

Maximum Time Frame

Students who have exceeded the 150% Maximum Time Frame, as stated above, will need to submit a Pace Appeal Form. Students who do not have a 2.0 GPA or 66.67%, or two thirds, completion rate will not be considered for a Reason for Attending 150% of Degree Program. It will not be reviewed until all previous college transcripts have been received. Students must report all other colleges they have attended to the Financial Aid office. The Pace Appeal form will be reviewed in conjunction with the Registrar's office to determine hours needed for degree completion or transfer. Students may be funded for the number of hours needed at HCC to finish their degree or hours needed for the degree completion institution. If students take classes not needed for their degree or transfer degree, then they will not have enough financial aid to complete. If a student runs out of fundable hours OR it is determined that no hours are needed, then the student is not eligible for additional financial aid. There is no appeal once a student is out of fundable hours. Students will not be allowed fundable hours for repeated, failed, or withdrawn classes.

Repeated Coursework
Passed Courses

Students needing to retake a previously passed course can receive financial aid for one additional attempt. A, B, C, or D is considered passed, regardless of the program of study.

Transfer Credits

Transfer credits that count toward the student's current program will be counted as both attempted and completed hours when determining a student's GPA, minimum completion rate, and maximum time frame. Per federal regulations these hours must be counted regardless of whether the student received financial aid for those hours or not.

HCC Student Status Definitions for Continued Attendance & Financial Aid Eligibility

Good Standing: Students who have a 2.0 semester and a cumulative GPA; have completed 66.67%, or two thirds of all attempted hours; and have not attempted more than 95 cumulative hours, will be eligible to receive financial aid.

Warning: Students who fail to meet the minimum good standing requirements listed above, but may enroll and may receive financial aid for one semester to be given the opportunity to get back in good standing.

Suspension: Students will not receive financial aid because they did not make satisfactory academic progress, even after the warning status period or have attempted more than 95 total credit hours. Students on suspension cannot enroll at HCC until they have requested reinstatement either by being granted an appeal or by self-reinstating.

Probation: Students who have been suspended for not meeting SAP, but applied for reinstatement and have been granted an appeal by the SAP committee. These students are eligible to enroll at HCC and are eligible for financial aid for one additional semester with the goal of earning the student good standing status.

Self-Reinstatement: Students who have been suspended for not meeting SAP, but
a) requested an appeal for reinstatement that was denied by the SAP committee and now agree to take, pay for, and complete course(s) with the goal of getting back to the good standing student status. (Must pay for and complete all hours in which they are enrolled.)
b) have applied to be self-reinstated and agreed to take, pay for, and complete course(s) with the goal of getting back to the good standing student status. (Must pay for and complete all hours in which they are enrolled.) Students who are self-reinstated may enroll at HCC, but are not eligible to receive financial aid or VA Benefits.

Obligations to the College

Students may be prohibited from registering and/or receiving grade reports and transcripts for reasons falling within the following general categories.

Financial/Materials A properly authorized agent of the College may restrict a student who has failed to meet financial obligations or to return library or other materials to the College.

Judicial The Student Conduct Officer may suspend or place on disciplinary probation following due process a student who has failed to honor the Highland Community College Standards of Conduct on the College website at: **highlandcc.edu/pages/handbook.**

Condition of Registration The Admissions Office may restrict a student who has not fulfilled a duly established condition of registration.

The Student's Program

Twelve semester hours are considered to be a minimum full-time load during fall and spring terms. Fifteen semester hours are the normal full-time program, and eighteen is the maximum. Twelve hours is considered to be full-time for the summer term. Students wishing to exceed the eighteen or twelve hour limits must apply for approval. The overload request form is at **highlandcc.edu/pages/request-for-overload.**

Students are expected to spend at least two hours in preparation for each hour of class session. For twelve semester hours, at least twenty-four hours per week should be budgeted for class preparation. Laboratory hours meet one and a half-hours of instruction per week for one hour of credit. Other instruction may vary with each program.

Highland Community College reserves both the rights to restrict a student's program to less than full-time and even to

assign a course. Such decisions may be based on a review of the student's previous academic record, on results of placement tests given at the time of registration, or on commitments outside of the College. The purpose of this restriction is to meet better the needs of each student.
Students who are employed and attending college should consider carefully the number of hours they undertake in order to ensure that they have sufficient study time.

The College reserves the right to select from the courses listed in this catalog those that can be offered during any session. Further, the College reserves the right to change any of its offerings or regulations without previous notice.

Responsibility of the Student
It is the student's responsibility to meet course prerequisites and graduation requirements. Students who plan to complete the admission and graduation requirements of a transfer institution should refer directly to the catalog of that institution and the transfer guidelines. In addition, students are encouraged to contact the Transfer Coordinator for assistance.

The curricula of Highland Community College are described in this catalog. The College offers a number of resources to assist students in planning their educational programs. Academic Advisors are available, *but it is the student alone who makes final choices and assumes responsibility for decisions and actions.*

Academic Standards
Academic Integrity Highland Community College faculty and students have the responsibility to maintain high academic standards. Academic dishonesty by students, which includes but is not limited to cheating, fabrication, plagiarism, or facilitation of academic work, is reason for disciplinary action. Students should submit their own academic work. Faculty should not allow or leave unreported academic dishonesty by the student.

Cheating affects more than just the cheat; it frustrates the honest efforts of other students, degrades the learning environment, and reflects poorly on any institution that tolerates it. At HCC, a record of cheating does not go away at the end of the course or semester. Integrity violations become part of the violator's record. Multiple violations may result in more serious penalties, including possible dismissal from HCC.
Every instructor will:
• State clearly in the first-day handout his/her personal policy about academic dishonesty and the consequences for such actions.
• List examples of academic dishonesty and how those specific acts will be handled (not all acts of academic dishonesty can be anticipated and this list is not all inclusive).
• Send his/her policy (first-day handout) to the Vice President for Academic Affairs or appropriate regional director for review and acceptance.

First violations of academic integrity will generate sanctioning from the classroom instructor. Subsequent violations will generate an institutional response via the Student Conduct Process.

Once the instructor confirms there have been no prior academic dishonesty violations in any course, the instructor will sanction first offenses according to his/her individual classroom policy. Instructors will send a notification of all offenses and resulting consequence to the Vice President for Academic Affairs, along with any relevant documentation. Incidents of academic dishonesty recorded in the student conduct system are cumulative; multiple or repeated incidents of academic dishonesty will be turned over to the conduct officer and ordinarily result in a medium-level sanction, which may include removal from the course. However, repeated or severe violations may result in high-level sanctions, such as loss of scholarship or expulsion from the College.

A student may appeal decisions of academic dishonesty for the following reasons:
a. There were procedural errors made which significantly impacted the sanction or the findings.
b. The severity of the sanction imposed was not appropriate based on the nature of the violation or the circumstances.
c. New information is discovered that was not available at the time of the investigation that would significantly impact the sanction or the findings.

First offense academic integrity appeals will be assigned to the VPAA. Subsequent offense appeals will go through the Student Conduct Process.

Classroom Disruptions
Acts of disruption in the classroom will not be tolerated at Highland Community College. If students are being disruptive, they are violating the rights of others to an educational atmosphere, interfering with the operations of the College and/or being insubordinate to College authorities. Please refer to the HCC Student Handbook and First Day Handouts for specific policy information. Please refer to the Student Handbook and First Day Handouts for specific policy.

Course Load and Credit Hours
The credit hour is the unit by which the College measures course work and calculates tuition charges. Most Highland Community College courses meet for three instructional hours a week and carry three semester hours' credit. Students enrolled for 12 or more credit hours are considered full-time (an average of 16 hours per semester is needed to complete a degree program in two years); a course load of 11 hours or less is part-time enrollment. Highland Community College reserves the right to restrict students to less than full-time or to assign students to specific courses on the basis of placement test results, on the basis of a review of students' previous academic records, or on the basis of such other criteria as the College deems appropriate.

Course Load and Credit Hours
Students may not normally register for more than eighteen (18) credit hours per semester (or twelve credit hours over an eight week summer session or six hours over a four week summer session). Those wishing permission to exceed these

15

credit-hour limits must apply and obtain permission. The request for overload form may be found under resources on our website at, **highlandcc.edu/pages/request-for-overload**. Students uncertain about the course load appropriate to their particular circumstances are urged to speak with an Academic Advisor/ Regional Center Director.

Scholastic Honors
President's Honor List
Students completing a minimum of twelve credit hours within a semester and achieving a semester grade point average of 4.0 are placed on the President's Honor List.

Dean's Honor List
Students completing a minimum of twelve credit hours within a semester and achieving a semester grade point average of 3.5 or higher (with no grade lower than a "C") are placed on the Dean's Honor List. The scholastic honors lists are issued at the end of each semester.

Standard Course Syllabus
The Standard Course syllabi's containing a description of a class, noting prerequisites, course content, number of hours, etc. are available on the website at **highlandcc.edu/ pages/course-descriptions_0** . During the first week of class, the instructor will provide a first day handout which includes an outline of course goals, competencies, methods of instruction, course content, reading materials, grading practices, class policies and their attendance policy.

All letter grades earned will be included in a student's permanent academic record or transcript.

Grade Designations

Letter Grade	Description	Points per credit hour
A	Excellent	4
B	Good	3
C	Average	2
D	Minimum Passing	1
F	Failure	0 – not counted
CR	Credit	0 – not counted
NC	No Credit	0 – not counted
I	Incomplete	0 – not counted
AU	Audit	0 – not counted
W	Withdrawal	0 – not counted

Credit/No Credit
Credit/No Credit grading can be employed only on the recommendation of the instructor and approval of the Vice President for Academic Affairs prior to the time that the course begins. The courses are added to a student's credit hour total, but are not included in the grade point average. A "no credit" grade results in no credit earned for the course attempted.

Incomplete
Students who have actively pursued a course, have earned a passing grade up to the final examination period, but have not completed the final examination and/or other specific course assignments because of illness or some other sufficient reason, may be issued a grade of "I" by the instructor. To remove an "I" grade, a student must make arrangements

with the instructor to complete the coursework and/or take the final examination within the first four weeks following the termination of the semester, except when an extension of time is granted by the Vice President for Academic Affairs and the instructor of the course. If the course work is not completed and given to the instructor by this deadline, the "I" grade will convert to an "F" grade. A student who has an "I" grade may not re-register in that course. However, if the "I" is changed to an "F", the student may then re-register for the course.

Withdrawal
W—Administrative Withdrawal
The College reserves the right to withdraw students from classes at any time during the semester.

W—Student Initiated Withdrawal
A student may withdraw from a course through the eighth week of the semester (or as posted for the Summer term). A student-initiated withdrawal must be requested on the College's official add/drop form, which may be obtained from the student's Academic Advisor/ Regional Center Director. The "W" appears on the student's permanent academic record, but is not used to calculate cumulative grade point average.

Academic Status
Cumulative grade point average (GPA) is calculated on the basis of all grades, "A" through "F", earned in college credit courses at Highland Community College. If a student repeats a course, the highest grade earned will be counted in the grade point average, although both grades will appear on the permanent academic record.

A student who has earned
1 credit hour to 29.5 credit hours = Freshman Status
30+ credit hours = Sophomore status

Final Examinations
Final examinations are scheduled during the last week of the semester. A required two-hour time period is scheduled for each class period during this week. The only courses which are exempt from a final examination are activity courses. Only in the case of extreme emergency and with the approval from the Vice President for Academic Affairs will a student be permitted to deviate from the announced final examination schedule. An administrative fee will be assessed for each deviation.

Grade Change Policy
In any course of instruction for which grades are awarded, the instructor of the course shall determine the grade to be awarded in accordance with the course syllabus and the grading designations listed above. The determination of the student's grade by the instructor shall be final in the absence of mistake, fraud, bad faith, incompetence, or caprice. The instructor of record may correct a grade given in error within one semester of the initial award of the grade. More information available **highlandcc.edu/pages/handbook.**

Privacy of Records

Highland Community College maintains various student records to assist students in achieving their educational goals. These records are regarded as confidential, and information contained in them can be released only by written permission from the student. The College complies fully with the provisions of the Family Educational Rights and Privacy Act.

Transcripts of Academic Records

The Registrar's office will provide a transcript of a student's academic record upon request. All requests for transcripts must be in writing; either by letter or by completing the Transcript Request Form supplied by the Registrar's office. Students also may fax their written and signed requests for transcripts to (785) 442-6106. No transcripts will be released without the written permission of the student. Therefore, transcript requests by telephone or e-mail will not be honored at Highland Community College. The College reserves the right to withhold transcripts of persons who have past-due monetary obligations to the College, such as tuition, fees, or materials. Transcripts issued directly to the student will be marked 'Issued to Student.' Current students can log in to their MyHCC account to access an unofficial transcript. Official transcripts from other institutions cannot be released to any individual or institution.

Transfer Students

Prior to registration, students transferring to Highland Community College are required to submit official transcripts of all credits earned at other institutions. The College Registrar will evaluate successfully completed coursework from accredited institutions. If accepted as satisfying degree requirements, these transfer hours will be counted towards graduation and will be counted in the calculation of the GPA. A transfer student must complete sixteen (16) credit hours at Highland Community College to be eligible for graduation.

Grade Appeals

Students are responsible for meeting the standards for academic performance established for each course in which they are enrolled. The establishment of the criteria for grades and the evaluation of student academic performance are the responsibilities of the instructor. This grade appeal procedure is available only for the review of allegedly capricious grading, and not for review of the instructor's evaluation of the student's academic performance. Capricious grading, as the term is used here, consists only of any of the following:

1. The assignment of a grade to a particular student on some basis other than the performance in the course;
2. The assignment of a grade to a particular student by resort to more exacting or demanding standards than were applied to other students in the course;
3. The assignment of a grade by a substantial departure from the instructor's previously announced standards.

STEP 1 - The student should first discuss the course grade fully with the instructor of the course. This must be done within thirty calendar days after grades have been posted by

the College at the close of each semester. If the student cannot arrange such a meeting, he/she should contact the Vice President for Academic Affairs to arrange for such a meeting.

STEP 2 - If the matter cannot be resolved by consultation with the instructor, the student may request that the instructor set up a hearing with the Vice President for Academic Affairs within ten calendar days. The student, the instructor, and the Vice President for Academic Affairs should attempt to resolve the matter at this level.

STEP 3 - If the matter is not resolved, the student may appeal to the Vice President for Student Services. The student's appeal to the Vice President for Student Services should be made within fifteen calendar days after receiving notification of the Vice President for Academic Affairs' decision. The Vice President for Student Services will establish an ad hoc academic appeals committee and appoint a committee chairperson to review the written records presented by the student, instructor, and recommendation of the Vice President for Academic Affairs. After the committee has had the opportunity to review all verbal or written data, the committee will make its decision regarding the appeal. The decision of the committee will be communicated to the student, the instructor, the Vice President for Academic Affairs, and the Vice President for Student Services by the committee chairperson.

STEP 4 - The student may appeal the committee's decision to the College President within fifteen calendar days after receiving notification by the committee's chairman. The President will review all written data collected regarding the student's appeal. The President's decision will be communicated in writing to the student, the instructor, the Vice President for Academic Affairs, and the Vice President for Student Services.

STEP 5 - The student may thereafter appeal to the Board of Trustees of Highland Community College by filing a written Notice of Appeal with the chairperson and the President or primary administrative officer as appropriate to be placed on the Board of Trustees' agenda. Such Notice of Appeal must be filed within ten (10) days of the notification of action by the President.

Upon the filing of a Notice of Appeal to the Board, the President shall cause the records of the case, including any written memorandum received during the consideration, to be promptly filed with the secretary of the Board through the Office of the President. The decision of the Board of Trustees will be final and binding upon all parties of the appeal. Students must begin the grievance procedure within thirty days of the publication of grades (and for grievances relating to spring semester grades, within thirty days from the beginning of the fall semester) by requesting a conference with the instructor. Please consult the Student Handbook. available at **highlandcc.edu/pages/handbook.**

Programs for the **Associate in Arts** Degree, Curriculum: **Agriculture**

Agriculture Economics -- Recommended Courses:
Orientation: AB 114 Agriculture Orientation
Computer Literacy: AB 227 Agriculture Microcomputers
Social and Behavioral Sciences: BUS 203 Macroeconomics, and PSY 101 General Psychology and SOC 101 General Sociology
Natural and Physical Sciences: BS 101 College Biology and PS 111 College Chemistry I
Electives: AB 108 Principles of Animal Science, AB 202 Agriculture Economics, AB 207 Fundamentals of Animal Nutrition, BUS 103 Accounting I, BUS 105 Accounting II

Agriculture Education -- Recommended Courses:
Orientation: AB 114 Agriculture Orientation
Computer Literacy: AB 227 Agriculture Microcomputers
Humanities and Fine Arts: History and Literature
Social and Behavioral Sciences: PSY 101 General Psychology
Natural and Physical Sciences: BS 101 College Biology and General Chemistry
Electives: AB 108 Principles of Animal Science, AB 202 Agriculture Economics, AB 207 Fundamentals of Animal Nutrition, AB 203 Soils with Lab, AB 210 Crop Science with Lab

Agronomy -- Recommended Courses:
Orientation: AB 114 Agriculture Orientation
Computer Literacy: AB 227 Agriculture Microcomputers
Social and Behavioral Sciences: BUS 203 Macroeconomics, PSY 101 General Psychology, SOC 101 General Sociology
Natural and Physical Sciences: BS 101 College Biology and PS 111 College Chemistry I
Electives: AB 202 Agriculture Economics, AB 203 Soils with Lab, AB 210 Crop Science with Lab

Animal Science -- Recommended Courses:
Orientation: AB 114 Agriculture Orientation
Computer Literacy: AB 227 Agriculture Microcomputers
Social and Behavioral Sciences: BUS 203 Macroeconomics
Natural and Physical Sciences: BS 101 College Biology and PS 111 College Chemistry I
Electives: AB 202 Agriculture Economics, AB 108 Principles of Animal Science, AB 207 Fundamentals of Animal Nutrition, AB 220 Beef Production, AB 210 Crop Science

Programs for the **Associate in Arts** Degree, Curriculum: **Art**

Art Education & Art Therapy -- Recommended Courses:
Computer Literacy: A 121 Design Software Applications, A 113 Typography,
Humanities and Fine Arts: A 201 Art History I or A 202 Art History II
Social and Behavioral Sciences: PSY 101 General Psychology, SOC 101 General Sociology
Electives: A 113 Typography, A 103 Two-Dimensional Design, A 107 Drawing I, A 110 Painting I, A 112 Ceramics, PHO 104 Introduction to Digital Photography

Graphic Design -- Recommended Courses:
Humanities and Fine Arts: A 202 Art History II
Electives: A 113 Typography, A 107 Drawing I, A 103 Two-Dimensional Design, PHO 101 Photography I, A 139 Computer Graphics: Web Design, PHO 104 Introduction to Digital Photography

Studio Art -- Recommended Courses:
Computer Literacy: A 121 Design Software Applications, A 113 Typography,
Humanities and Fine Arts: A 201 Art History I or A 202 Art History II and PHO 107 History of Photography
Electives: A 103 Two-Dimensional Design, A 104 Three-Dimensional Design, A 107 Drawing I, A 108 Drawing II, A 112 Ceramics I, PHO 104 Introduction to Digital Photography

21

Programs for the **Associate in Arts** Degree, Curriculum: **Business**

All Business -- Recommended Courses to transfer:
Computer Literacy: BUS 130 Microcomputer Applications I
Social and Behavioral Sciences: BUS 203 Macroeconomics
Electives: BUS 103 Accounting I, BUS 105 Accounting II, BUS 204 Microeconomics, BUS 216 Managerial Accounting

All Business Majors: (Business Education, Economics, & Finance)
Electives: BUS 101 Introduction to Business, BUS 133 Micro Applications I: Spreadsheet, BUS 151 Micro Applications I: Electronic Business Presentations, BUS 201 Principles of Management, BUS 205 Business Law, BUS 210 Marketing, BUS 213 Business Communications, BUS 127 Principles of Entrepreneurship I, BUS 230 Entrepreneurship, MAT 203 Basic Statistics

Accounting:
Electives: BUS 102 Personal Finance, BUS 115 Business Math using a Calculator, BUS 117 Computerized Accounting

Business Administration:
Electives: BUS 201 Principles of Management

Management:
Electives: BUS 201 Principles of Management

Marketing:
Electives: BUS 210 Marketing

Programs for the **Associate in Arts** Degree, Curriculum: **Criminal Justice**

Criminal Justice -- Recommended Courses:
Computer Literacy: BUS 130 Microcomputer Applications I
Humanities and Fine Arts: LG 101 Spanish I
Social and Behavioral Sciences: POL 100 United States Government, PSY 101 General Psychology, and SOC 101 General Sociology
Electives: CJ 100 Introduction to Criminal Justice, CJ 105 Introduction to Corrections, CJ 110 Fundamentals of Investigation, CJ 111 Forensic Investigation, CJ 120 Juvenile Delinquency, CJ 201 Criminal Law, CJ 205 Critical Issues Enforcement, LG 102 Spanish II

Programs for the **Associate in Arts** Degree, Curriculum: **Education**

Elementary Education -- Recommended Courses:
Computer Literacy: BUS 130 Microcomputer Applications I
Humanities and Fine Arts: Art/Music/Theatre Appreciation
Social and Behavioral Sciences: GEO 212 World Regional Geography, PSY 101 General Psychology, and SOC 101 General Sociology
Natural and Physical Sciences: BS 101 College Biology
Electives: ED10 Pre-Professional Lab I, ED 102 Pre-Professional Lab II, ED 110 Introduction to Education, PSY 202 Child Psychology, PSY 205 Human Growth and Development, LS 101 Children's Literature

Secondary Education -- Recommended Courses:
Humanities and Fine Arts: Art/Music/Theatre Appreciation
Social and Behavioral Sciences: PSY 101 General Psychology, and SOC 101 General Sociology
Natural and Physical Sciences: BS 101 College Biology
Electives: ED10 Pre-Professional Lab I, ED 102 Pre-Professional Lab II, ED 110 Introduction to Education, PSY 202 Child Psychology, PSY 205 Human Growth and Development, LS 101 Children's Literature

Programs for the **Associate in Arts** Degree, Curriculum: **English**

English -- Recommended Courses:
Humanities and Fine Arts-**Literature:** ENG104 Introduction to Literature, ENG 202 American Literature I, ENG 207 Narrative Film, ENG 208 Introduction to the Short Story, ENG 209 American Literature II, ENG 210 World Literature I, ENG 211 World Literature II, ENG 212 English Literature I , ENG 213 English Literature II , ENG 223 Creative Writing, LS 102 Children's Literature
Humanities and Fine Art-**Foreign Language:** LG 101 Spanish I, LG 102 Spanish II
Electives: COL105 Research Methods, ENG 110 Technical Composition, ENG 203 English Grammar, (and additional Humanities and Fine Arts courses)

Programs for the **Associate in Arts** Degree, Curriculum: **History**

History -- Recommended Courses:
Humanities and Fine Arts: ENG 202 American Literature I, HIS 101 United States History I, LG 101 Spanish I
Social and Behavioral Sciences: ANT 112 General Anthropology, BUS 203 Macroeconomics, POL 100 United States Government
Electives: BUS 204 Microeconomics, GEO 212 World Regional Geography, HIS 102 United States History II, HIS 103 History of Western Civilization I, HIS 104 History of Western Civilization II, LG 102 Spanish II, SOC 101 General Sociology

Programs for the **Associate in Arts** Degree, Curriculum: **Mathematics**

Mathematics -- Recommended Courses:
Natural and Physical Sciences: MAT 106 Calculus I, MAT 110 Calculus II, MAT 201 Calculus III, PS 203 General Physics I, PS 204 General Physics II
Electives: BS 101 College Biology, MAT 203 Basic Statistics, PS 107 General Chemistry, PS 111 College Chemistry I

Programs for the **Associate in Arts** Degree, Curriculum: **Music**

Music-Instrumental -- Recommended Courses:
Humanities and Fine Arts: M 164 Introduction to World Music
Electives: M 101 Music Fundamentals, M 119 Band I, M120 Band II, M 135 Aural Skills I, M 145 Aural Skills II, M 154 Group Piano I, M 155 Group Piano II, M 200 Music Theory I, M 201 Music Theory II, M 219 Band III, M 220 Band IV

Music-Vocal -- Recommended Courses:
Humanities and Fine Arts: M 164 Introduction to World Music
Electives: M 101 Music Fundamentals, M 107 Applied Music I-Vocal, M 108 Applied Music II-Vocal, M 115 Chorus I, or M 113 Lads and Lassies I, M 116 Chorus II or M 114 Lads and Lassies II, M 135 Aural Skills I, M 145 Aural Skills II, M 154 Group Piano I, M 155 Group Piano II, M 200 Music Theory I, M 201 Music Theory II, M 219 Chorus III or M 213 Lads and Lassies III, M 220 Chorus IV, or M 214 Lads and Lassies IV

Programs for the **Associate in Arts** Degree, Curriculum: **Psychology**

Psychology -- Recommended Courses:
Humanities and Fine Arts: PHI 102 Introduction to Ethics
Social and Behavioral Sciences: PSY 101 General Psychology, and SOC 101 General Sociology
Electives: PSY 202 Child Psychology, PSY 206 Social Psychology, PSY 280 Health Psychology, PSY 290 Abnormal Psychology

Programs for the **Associate in Arts** Degree, Curriculum: **Social Work**

Social Work -- Recommended Courses:
Humanities and Fine Arts: LG 101 Spanish I
Social and Behavioral Sciences: ANT 112 General Anthropology and PSY 101 General Psychology, and SOC 101 General Sociology
Electives: LG 102 Spanish II, LG 103 Spanish III, LG 104 Spanish IV, SOC 102 Marriage and the Family, SOC 200 Sociology Through Film, SOC 210 Social Problems

Programs for the **Associate in Arts** Degree, Curriculum: **Sociology**

Sociology -- Recommended Courses:
Humanities and Fine Arts: LG 101 Spanish I
Social and Behavioral Sciences: BUS 203 Macroeconomics and PSY 101 General Psychology, and SOC 101 General Sociology
Electives: ANT 112 General Anthropology, LG 102 Spanish II, LG 103 Spanish III, PSY 206 Social Psychology, SOC 200 Sociology Through Film, SOC 210 Social Problems

Programs for the **Associate in Arts** Degree, Curriculum: **Spanish Language**

Spanish Language -- Recommended Courses:
Humanities and Fine Arts: LG 101 Spanish I, Literature or Philosophy Courses
Natural and Physical Science: BS 101 College Biology
Electives: LG 102 Spanish II, LG 103 Spanish III

Programs for the **Associate in Arts** Degree, Curriculum: **Speech Communication**

Speech Communication -- Recommended Courses:
Humanities and Fine Arts: LG 101 Spanish I, TH 108 History and Appreciation of Theatre Arts, Literature Elective
Social and Behavioral Sciences: PSY 101 General Psychology, SOC 101 General Sociology
Electives: SP 101 Oral Communications, SP 103 Oral interpretation, SP 105 Interpersonal Communication, BUS 213 Business Communications

Programs for the **Associate in Arts** Degree, Curriculum: **Studio Photography**

Studio Photography -- Recommended Courses:
Humanities and Fine Arts: A 201 Art History I or A 202 Art History II and PHO 107 History of Photography
Electives: PHO 109 Studio Photography I, PHO 205 Lighting Techniques PHO 208 Applied Photography II, PHO 209 Studio Photography II, PHO 260 Portfolio Preparation

Programs for the **Associate in Arts** Degree, Curriculum: **Theatre**

Theatre -- Recommended Courses:
Humanities and Fine Arts: TH 108 History and Appreciation of Theatre Arts or TH 105 Introduction to Dramatics
Social and Behavioral Sciences: SOC 101 General Sociology or PSY 101 General Psychology
Electives: TH 103 Theatre Practicum I, TH 104 Theatre Practicum II, TH 106 Play Production, TH 151 Introduction to Stage Lighting, TH 152 Stagecraft I, TH 203 Theatre Practicum III, TH 204 Theatre Practicum IV, TH 211 Stagecraft II

Basketball, Softball, Baseball Athletes:
(Qualifying courses for PE requirement)
___ PE 136 Baseball Conditioning I (1)
___ PE 137 Basketball Conditioning-Men (1)
___ PE 138 Basketball Conditioning-Women (1)
___ PE 149 Softball Conditioning I (1)
___ PE 236 Baseball Conditioning II (1)
___ PE 237 Adv Basketball Condition-Men (1)
___ PE 238 Adv Basketball Condition-Women (1)
___ PE 249 Softball Conditioning II (1)

Programs for the **Associate in Science** Degree, Curriculum: **Athletic Training**

Athletic Training -- Recommended Courses:
Social and Behavioral Sciences: PSY 101 General Psychology
Sciences and Mathematics: BS 101 College Biology, BS 104 Human Anatomy, BS 105 Human Physiology
Electives: PE 112 Personal and Community Health, PE 113 First Aid and Safety, PE 151 Athletic Training Clinical Experience, PE 143 Introduction to Athletic Training I, PE 224 Care and Prevention of Athletic Injuries

Programs for the **Associate in Science** Degree, Curriculum: **Biology**

Biology -- Recommended Courses:
Physical Education: PE 139 Lifetime Fitness
Humanities and Fine Arts: PHI 101 Introduction to Philosophy or PHI 102 Philosophy of Ethics
Social and Behavioral Sciences: PSY 101 General Psychology, SOC 101 General Sociology
Sciences and Mathematics: BS 101 College Biology, MAT 106 Calculus I, PS 111 College Chemistry I, PS 203 General Physics I
Electives: BS 203 Microbiology, PS 112 College Chemistry II, PS 204 General Physics II

Programs for the **Associate in Science** Degree, Curriculum: **Enology**

Enology -- Recommended Courses:
Science and Mathematics: BS 101 College Biology, BS 203 Microbiology, PS 107 General Chemistry
Electives: ENO 116 Introduction to Enology, ENO 130 Intermediate Enology, ENO 148 Winery Sanitation, ENO 160 Winery Equipment Operation, ENO 210 Introduction to Wine Microorganisms, ENO 257 Fall Wine Production Technology, ENO 259 Cellar Operation Technology, ENO 266 Sensory Evaluation, ENO 268 Wine and Must Analysis

Programs for the **Associate in Science** Degree, Curriculum: **Exercise Science**

Exercise Science -- Recommended Courses:
Physical Education: PE 139 Lifetime Fitness
Sciences and Mathematics: BS 101 College Biology, BS 104 Human Anatomy, BS 105 Human Physiology
Electives: BS 110 Nutrition, PE 112 Personal and Community Health, PE 113 First Aid and Safety, PE 151 Athletic Training Clinical Experience, PE 224 Care and Prevention of Athletic Injuries, PE 250 Exercise Physiology

Programs for the **Associate in Science** Degree, Curriculum: **Pre-Physical Science**
(Physics, Chemistry, Geology, and Meteorology)

Pre-Physical Science -- Recommended Courses:
Sciences and Mathematics: MAT 106 Calculus I, MAT 110 Calculus II, MAT 201 Calculus III, PS 111 College Chemistry I, PS 112 College Chemistry II, PS 215 College Physics I, PS 216 College Physics II
Electives: BS 101 College Biology, PS 104 Physical Geology, PS 210 Organic Chemistry I, PS 212 Organic Chemistry II, MAT 203 Basic Statistics, MAT 202 Differential Equations

Programs for the **Associate in Science** Degree, Curriculum: **Pre-Chiropractic**

Pre-Chiropractic -- Recommended Courses:
Humanities and Fine Arts: PHI 102 Introduction to Ethics
Social and Behavioral Sciences: PSY 101 General Psychology
Sciences and Mathematics: BS 101 College Biology, BS 203 Microbiology, PS 111 College Chemistry I, PS 203 General Physics I
Electives: BS 104 Human Anatomy, BS 105 Human Physiology, PS 112 College Chemistry II, PS 204 General Physics II

Programs for the **Associate in Science** Degree, Curriculum: **Pre-Dental Hygiene**

Pre-Dental Hygiene -- Recommended Courses:
Humanities and Fine Arts: HIS 101 United States History I
Social and Behavioral Sciences: PSY 101 General Psychology and SOC 101 General Sociology
Sciences and Mathematics: BS 101 College Biology, BS 104 Human Anatomy, BS 105 Human Physiology,
BS 203 Microbiology, PS 107 General Chemistry I
Electives: BS 109 Medical Terminology, BS 110 Nutrition, PE 112 Personal and Community Health

Programs for the **Associate in Science** Degree, Curriculum: **Pre-Dentistry**

Pre-Dentistry -- Recommended Courses:
Humanities and Fine Arts: PHI 102 Introduction to Ethics
Social and Behavioral Sciences: PSY 101 General Psychology, SOC 101 General Sociology
Sciences and Mathematics: BS 101 College Biology, BS 203 Microbiology, PS 111 College Chemistry I,
PS 112 College Chemistry II
Electives: BS 104 Human Anatomy, BS 105 Human Physiology, PS 203 General Physics I, PS 204 General Physics II

Programs for the **Associate in Science** Degree, Curriculum: **Pre-Engineering**

Pre-Engineering -- Recommended Courses:
Social and Behavioral Sciences: BUS 203 Macroeconomics
Sciences and Mathematics: MAT 106 Calculus I and MAT 110 Calculus II and MAT 201 Calculus III and PS 111 College
Chemistry I and PS 112 College Chemistry II and PS 215 College Physics I and PS 216 College Physics II
Electives: MAT 202 Differential Equations

Programs for the **Associate in Science** Degree, Curriculum: **Pre-Forestry**

Pre-Forestry -- Recommended Courses:
Humanities and Fine Arts: HIS 101 United States History
Social and Behavioral Sciences: BUS 203 Macroeconomics or POL100 United States Government
Sciences and Mathematics: MAT 106 Calculus I, PS 111 College Chemistry I, BS 202 General Botany
Electives: AB 202 Agriculture Economics, AB 203 Soils and Soils Lab, MAT 203 Basic Statistics, PS 203 General Physics I

Programs for the **Associate in Science** Degree, Curriculum: **Pre-Medicine**

Pre-Medicine -- Recommended Courses:
Humanities and Fine Arts: PHI 102 Introduction to Ethics
Social and Behavioral Sciences: PSY 101 General Psychology
Sciences and Mathematics: BS 101 College Biology, MAT 106 Calculus I, PS 111 College Chemistry I,
PS 203 General Physics I
Electives: BS 104 Human Anatomy, BS 105 Human Physiology, PS 112 College Chemistry II, PS 204 General Physics II

Programs for the **Associate in Science** Degree, Curriculum: **Pre-Nursing**

Pre-Nursing -- Recommended Courses:
Computer Literacy: BUS 130 Microcomputer Applications I
Humanities and Fine Arts: PHI 102 Introduction to Ethics
Social and Behavioral Sciences: ANT 112 General Anthropology or SOC General Sociology and PSY 101 General Psychology
Sciences and Mathematics: BS 101 College Biology, BS 104 Human Anatomy, BS 105 Human Physiology,
BS 203 Microbiology, PS 107 General Chemistry
Electives: BS 110 Nutrition, MAT 203 Basic Statistics, NUR 201 Certified Nurse Aide, PSY 205 Human Growth and
Development, BS 220 Pathophysiology

Programs for the **Associate in Science** Degree, Curriculum: **Pre-Optometry**

Pre-Optometry -- Recommended Courses:
Humanities and Fine Arts: PHI 102 Introduction to Ethics
Social and Behavioral Sciences: PSY 101 General Psychology and SOC 101 General Sociology
Sciences and Mathematics: BS 101 College Biology, PS 111 College Chemistry I, PS 112 College Chemistry II,
PS 203 General Physics I
Electives: BS 203 Microbiology, MAT 106 Calculus I, MAT 203 Basic Statistics, PS 204 General Physics II

Programs for the **Associate in Science** Degree, Curriculum: **Pre-Pharmacy**

Pre-Pharmacy -- Recommended Courses:
Humanities and Fine Arts: PHI 102 Introduction to Ethics
Sciences and Mathematics: BS 101 College Biology, MAT 106 Calculus I, PS 111 College Chemistry I,
PS 112 College Chemistry II
Electives: BS 104 Human Anatomy, BS 105 Human Physiology, BS 203 Microbiology, PS 210 Organic Chemistry I,
PS 212 Organic Chemistry II

Programs for the **Associate in Science** Degree, Curriculum: **Pre-Physical Therapy**

Pre-Physical Therapy -- Recommended Courses:
Humanities and Fine Arts: PHI 102 Introduction to Ethics
Social and Behavioral Sciences: PSY 101 General Psychology and SOC 101 General Sociology
Sciences and Mathematics: BS 101 College Biology, PS 111 College Chemistry I, PS 112 College Chemistry II,
PS 203 General Physics I
Electives: BS 104 Human Anatomy, BS 105 Human Physiology, BS 203 Microbiology, PE 112 Personal and Community
Health, PS 204 General Physics II

Programs for the **Associate in Science** Degree, Curriculum: **Pre-Respiratory Therapy**

Pre-Respiratory Therapy -- Recommended Courses:
Humanities and Fine Arts: PHI 102 Introduction to Ethics
Social and Behavioral Sciences: PSY 101 General Psychology
Sciences and Mathematics: BS 101 College Biology, BS 104 Human Anatomy, BS 105 Human Physiology,
BS 203 Microbiology, PS 107 General Chemistry
Electives: MAT 203 Basic Statistics, PE 113 First Aid and Safety, PS 102 Concepts of Physics

Programs for the **Associate in Science** Degree, Curriculum: **Pre-Veterinarian**

Pre-Veterinarian -- Recommended Courses:
Basic Skills: AB 114 Agriculture Orientation
Sciences and Mathematics: BS 101 College Biology, PS 111 College Chemistry I, PS 112 College Chemistry II,
PS 203 General Physics I, PS 204 General Physics II
Electives: AB 108 Principles of Animal Science, AB 207 Fundamentals of Animal Nutrition, BS 203 Microbiology
or PS 210 Organic Chemistry I, PS 204 General Physics II

Programs for the **Associate in Science** Degree, Curriculum: **Viticulture**

Viticulture -- Recommended Courses:
Science and Mathematics: BS 101 College Biology, BS 202 General Botany, PS 101 College Physical Science,
PS 107 General Chemistry
Electives: VIN 111 Introduction to Viticulture, VIN 113 Winter Viticulture, VIN 114 Spring Viticulture, VIN 115 Summer/Fall
Viticulture Technology, VIN 211 Integrated Pest Management, VIN 213 Midwest Vineyard Management, VIN 293 Soils for
Viticulture

ASSOCIATE IN GENERAL STUDIES
HUMAN SERVICES
(63 total credit hours)

The AGS degree in Human Services has four areas of concentration to choose from. The concentrations are:

►Allied Health   ►Early Childhood
►Family, Child and Juvenile   ►Gerontology

Page 1 and 2 are requirements for all for concentrations

BASIC SKILLS (15 Credits)
- ❑ **ENG 101 Composition I (3)**
- ❑ **ENG 102 Composition II: Literature and Research**
- **OR ENG 103 Composition II: Rhetoric and Research (3)**
- ❑ **SP 106 Public Speaking**
- **OR SP 101 Oral Communications (3)**
- ❑ **MAT 108 Topics in Contemporary Math**
- **OR MAT 100 Beginning Algebra**
- **OR higher level mathematics (3)**
- ❑ **COL 103 College Success & Orientation (1)**
- ❑ **Physical Education (1)**
- ___ PE 119 Tennis (1)
- ___ PE121 Volleyball (1)
- ___ PE 122 Archery (1)
- ___ PE124 Weightlifting I (1)
- ___ PE 129 Basketball (1)
- ___ PE 134 Golf (1)
- ___ PE 135 Running Awareness (1)
- ___ PE 139 Lifetime Fitness (2)
- ___ PE 140 Advanced Weightlifting/Condition I (1)
- ___ PE 141 PE for Men (1)
- ___ PE 240 Advanced Weightlifting/Condition II (1)
- ___ PE 241 Weightlifting II (1)
- ❑ **Computer Literacy (1)**
- ___ **BUS 181 Micro App I: Word Processing (1)***
- **Required class for Allied Health & Gerontology*
- ___ BUS 130 Microcomputer Applications I (3)
- ___ BUS 132 Micro App. I: Outlook (1)
- ___ BUS 133 Micro App I: Spreadsheet (3)
- ___ BUS 136 Micro App I: Desktop Publishing (3)
- ___ BUS 139 Micro App I: Word Processing (3)
- ___ *BUS 181 Micro App I: Word Processing (1)**
- ___ BUS 182 Micro App I: Database Manage (1)
- ___ BUS 183 Micro App I: Spreadsheet (1)
- ___ BUS 185 Micro App I: Desktop Publishing (1)
- ___ BUS 186 Micro App I: Integrated Software (1)
- ___ BUS 188 Computer Applications I: Windows (1)
- ___ BUS 189 Micro App I: Electronic Bus Pres (1)
- ___ BUS 246D Micro App I: Web Design (2)

HUMANITIES and FINE ARTS (6 Credits)
Select from 2 DIFFERENT areas.

- ❑ **Art****
- ___ A 101 Art Appreciation (3)
- ___ A 201 Art History I (3)
- ___ A 202 Art History II (3)
- ❑ **Foreign Language****
- ___ LG 101 Spanish I (5)
- ___ LG 102 Spanish II (5)
- ___ LG 201 Spanish III (3)
- ❑ **History**
- ___ HIS 101 United States History I (3)
- ___ HIS 102 United States History II (3)
- ___ HIS 103 History of Western Civilization I (3)
- ___ HIS 104 History of Western Civilization II (3)
- ___ HIS 202 Introduction to Ancient History (3)
- ___ HIS 204 Readings in Western Civilization I (3)
- ❑ **Literature**
- ___ ENG 104 Introduction to Literature (3)
- ___ ENG 202 American Literature I (3)
- ___ ENG 208 Introduction to Short Story (3)
- ___ ENG 209 American Literature II (3)
- ___ ENG 210 World Literature I (3)
- ___ ENG 211 World Literature II (3)
- ___ ENG 212 English Literature I (3)
- ___ ENG 213 English Literature II (3)
- ___ LS 102 Children's Literature (3)
- ❑ **Music****
- ___ M 103 Music History/Appreciation (3)
- ___ M 146 Musical Theatre History (3) (= to TH 146)
- ___ M 162 Introduction to World Music (3)
- ___ M 223 History of Jazz (3)
- ❑ **Philosophy**
- ___ PHI 101 Introduction to Philosophy (3)
- ___ PHI 102 Introduction to Ethics (3)
- ___ PHI 103 Logic and Critical Thinking (3)
- ___ PHI 105 Religions of the World (3)
- ❑ **Photography**
- ___ PHO 107 History of Photography (3)
- ❑ **Speech**
- ___ SP 103 Oral Interpretation (3)
- ❑ **Theatre****
- ___ TH 105 Introduction to Drama (3)
- ___ TH 108 History/Appreciation of Theatre Arts (3)
- ___ TH 146 Musical Theatre History (3) (= to M 146)
- ___ TH 208 Film Appreciation (3)

> ****NOTE:** Suggested Humanities and Fine Arts for the **Family, Child and Juvenile** concentrations are: *Art, Foreign Language and Music or Theatre*

(63 total credit hours)

NATURAL & PHYSICAL SCIENCES (5 Credits)

❑ **Natural Sciences**

___ BS 101 College Biology with lab (5)
___ BS 104 Human Anatomy with lab (4)
___ BS 105 Human Physiology with lab (4)
___ BS 107 Intro to Environmental Sci. with lab (4)
___ BS 110 Nutrition (3)
___ BS 112 Nutrition for Health, Fitness and Sports with Lab (5)
___ BS 201 General Zoology (5)
___ BS 202 General Botany with lab (5)
___ BS 203 Microbiology with lab (5)

❑ **Physical Science**

___ PS 101 College Physical Science with lab (5)
___ PS 102 Concepts of Physics with lab (4)
___ PS 104 Physical Geology with lab (4)
___ PS 107 General Chemistry with lab (5)
___ PS 108 Astronomy with lab (4)
___ PS 111 College Chemistry I with lab (5)
___ PS 112 College Chemistry II with lab (5)
___ PS 203 General Physics I with lab (5)
___ PS 204 General Physics II with lab (5)
___ PS 210 Organic Chemistry I with lab (5)
___ PS 215 College Physics I with lab (5)
___ PS 216 College Physics II with lab (5)

ALL CONCENTRATIONS

Note: Prior to enrolling in HMS 250 Human Services Practicum, students must be American Heart Association, First Aid/CPR certified.

Associate in General Studies – Human Services
(Minimum 63 total credit hours)

___

Concentration Requirements

►ALLIED HEALTH◄

DEGREE REQUIREMENTS (12 Credits)
- ❏ HS 109 Pharmacology for Allied Health (3)
- ❏ HS 112 Pathophysiology for Allied Health (3)
- ❏ HMS 250 Human Services Practicum (3)
- ❏ PSY101 General Psychology (3)

DEGREE ELECTIVES (22 Credits)
- ___ BS 104 Human Anatomy (4)
- ___ BS 105 Human Physiology (4)
- ___ BS 109 Medical Terminology (3)
- ___ BS 110 Nutrition (3)
- ___ HMS100 Fundamentals of Human Service (3)
- ___ HMS 118 Ethics in Helping Professions (3)
- ___ HS 103 Legal and Ethical Issues in Healthcare (3)
- ___ LG 100 Conversational Spanish (2)
- ___ LG 105 American Sign Language (3)
- ___ NUR 201 Certified Nurse Aide (6)
- ___ PSY 205 Human Growth and Development (3)
- ___ PSY 209 Abnormal Psychology (3)
- ___ SOC101 General Sociology (3)
- ___ SOC 104 Introduction to Social Work (3)

►EARLY CHILDHOOD◄

DEGREE REQUIREMENTS (18 credits)
- ___ HMS100 Fundamentals of Human Service (3)
- ___ HMS 112 Home Visiting ECH I (3)
- ___ HMS 115 Home Visiting ECH II (3)
- ___ HMS 250 Human Services Practicum (3)
- ___ PSY 101 General Psychology (3)
- ___ SOC 102 Marriage and the Family (3)

DEGREE ELECTIVES (16 Credits)
- ___ LG 105 American Sign Language (3)

Revised 9/2016

Administrative Assistant

The Administrative Assistant program is designed for the individual who is seeking a career as an administrative assistant. Students will become proficient in word processing, database, presentation, desktop publishing and spreadsheets. Use of photo editing software, basic accounting applications compose and format correspondence. This program will provide educational opportunities to individuals that will enable them to obtain the knowledge, skills, and professionalism necessary to succeed in an entry-level clerical position.

Automotive Collision Repair

Auto Collision Repair technicians repair and replace automotive body and frame components. The job involves many skills including frame repair, welding, cutting, metal straightening, and application of up-to-date body materials, metal finishing, painting, and alignment of body components. Technicians also estimate damage, compute labor and material costs. This program will provide educational opportunities to individuals that will enable them to obtain the knowledge, skills, and attitudes necessary to succeed in the field of auto collision repair.

The certificate program is intended to produce graduates who are prepared for employment as an entry level auto collision repair technician. The first year of the program is designed to teach the basics of auto collision repair. The complete program is designed to provide practice of the basics and teach major body repair, estimating, shop management, and customer relations.

The Associate in Applied Science degree program is for those individuals who seek auto collision repair training and additional academic preparation for advancement into management, engineering, sales, or other related areas.

Automotive Technology

Automotive Repair technicians are skilled in the use of automotive testing equipment, special tools, and the latest information on specifications to service many types of automobiles. Technicians diagnose trouble in any one of thousands of automobile components. They work with many new systems each year that require new service techniques and training. This program is designed to provide educational opportunities to individuals that will enable them to obtain the knowledge, skills, and attitudes necessary to succeed in the field of automotive technology.

The certificate program is intended to produce graduates who are prepared for entry-level employment as technicians in the field of modern automotive electronics and mechanics. This program prepares students for Automotive Service Excellence (ASE) certifications. Hands-on laboratory/live work experiences and technical instruction necessary for ASE certification are the main components of the program.

The Associate in Applied Science degree program is for those individuals who seek automotive technology training and additional academic preparation for advancement into management, engineering, sales, or other related areas.

Computer Support Technology

As businesses rely more and more on computer applications, the importance of quality computer support grows. Computer Support Technicians must enjoy working with people to offer technical assistance with knowledge of computer networking, repair, and programming. Emphasis is put on training for A+ (at the completion of your first year) and Net+ (at the completion of your second year) certification.

Construction Technology

The Construction Technology program is designed to prepare interested students for a productive job in the building industry by teaching students how to use both tools and materials effectively in actual construction. Students will be challenged to complete the building of a project each year in conjunction with plumbers, electricians, and sheet metal workers. This program is designed to provide educational opportunities to individuals that will enable them to obtain the knowledge, skills, and attitudes necessary to succeed in the field of construction.

Diesel Technology

Diesel Technicians diagnose trouble accurately with the use of modern testing equipment for diesel equipment engines. Students will learn to repair and service trucks, agriculture equipment, and trailers. Students will learn diesel engine overhaul, air and hydraulics, electrical, fuel systems, and many more components of today's modern truck. This program is designed to provide educational opportunities to individuals that will enable them to obtain the knowledge, skills, and attitudes necessary to succeed in the field of diesel truck service and repair.

The certificate program is intended to produce graduates who are prepared for entry-level employment as diesel technicians. The program emphasizes a combination of truck repair theory and practical application necessary for successful employment.

The Associate in Applied Science Degree program is for those individuals who seek diesel technology training and additional academic preparation for advancement into management, sales, or other related areas.

Electrical Technology

The Electrical Technology program includes training in AC and DC fundamentals, residential and construction wiring, blueprint reading, commercial and industrial wiring, National Electrical Code (NEC), motor controls, and programmable logic controllers (PLC's). The combination of theory and hands-on training prepares graduates for a successful career in the electrical field.   This program is designed to provide educational opportunities to individuals that will enable them to obtain the knowledge, skills, and attitudes necessary to succeed in the field of electricity.

Engineering Graphics and Technologies

The Engineering Graphics and Technologies program exposes students to architecture drawing, 3-D modeling, mechanical/CNC drafting, digital drafting and design, 3-D animations, and much more.   This program is designed to provide educational opportunities to individuals that will enable them to obtain the knowledge, skills, and attitudes necessary to succeed in the field of drafting.

The certificate program is intended to produce graduates who are prepared for employment in architectural, mechanical or digital drafting. Program graduates are to be competent in computer use, advanced mathematics, and basic CAD applications to translate the ideas of engineers, architects, and designers into working plans and models, which can be used to make the desired product such as buildings, maps, or machine parts.

The Associate in Applied Science Degree program is for those individuals who seek additional academic preparation for advancement into management, engineering, or other related areas.

Heating, Ventilation, Air Conditioning (HVAC) & Plumbing

Students completing study in the Heating, Ventilation, and Air Conditioning program will develop competency and basic work skills pertaining to heating and cooling, modern refrigeration, air conditioning, and plumbing industries. Students will acquire the knowledge necessary for employment by learning the skills and develop the work ethics that will be used in the HVAC program. Graduates from the HVAC program will be prepared to seek career opportunities in a variety of diverse industries, such as operating engineers, sheet metal assistants, repair specialists, maintenance technicians, installers, testers, and application engineers. This program is designed to prepare interested students for a productive job in the air conditioning, heating, refrigeration, and plumbing industry. The student will be shown how to use both tools and materials correctly and effectively in the actual construction of a house. Students will perform the above in conjunction with builders, electricians, and sheet metal workers so they also will have a basic understanding of these associated crafts.

Industrial Welding Technology

Welding, brazing, and cutting operations require skilled workers who are well-trained in the use of shielded metal arc welding (stick), gas shielded arc welding (wire), gas tungsten arc welding (tig), oxy-acetylene welding (gas), pipe welding, plasma arc cutting, carbon arc cutting, and robotics. Skilled welding fabricators are thoroughly familiar with breakdown and setup procedures, test standards, and all types of metals. This program is designed to provide educational opportunities to individuals that will enable them to obtain the knowledge, skills, and attitudes necessary to succeed in the field of welding.

The certificate program is intended to produce graduates who are prepared for employment as welders. In the Industrial Welding Technology program, all areas of welding listed above and blueprint reading are taught. Graduates will be able to find employment in construction, fabrication plants, railroads, manufacturing foundries, farm equipment repair, and in sales of welding equipment and supplies.

Medical Coding

Medical Coding degree is designed to prepare students to work in the medical field as coders in a variety of healthcare settings. Recipients of this degree will have the skills and knowledge necessary to use, analyze, and assign the proper codes to medical procedures and diagnoses for the purposes of billing and insurance. Medical coders are essential members of the healthcare field who monitor costs and ensure patient care satisfaction.

This Associate in Applied Science degree requires 64 semester credit hours and is designed to prepare students to take the national Certified Coding Associate (CCA) exam administered by AHIMA. The entire program is available online and can be completed in two years with full-time enrollment.

Medical Office Assistant

Medical Office Assistants are critical to the health care industry. Physicians rely on well-trained medical office professionals to assist them in the documentation of patient care. The Medical Office Assistant's job, using the latest technology, may include transcribing reports, composing and processing correspondence, coding of diagnosis and procedures, completing insurance forms, maintaining financial records, making calls for physicians, making patient appointments, and other related duties. Medical Assistants also check vital signs, perform phlebotomy and EKG's, administer injections, and apply bandages. This program is designed to provide educational opportunities to individuals to obtain the knowledge, skills, and attitudes necessary to succeed in the areas of medical assisting.

The Medical Office Assistant program provides instruction for the development of basic manipulative skills, including some of the latest computer equipment. It also provides for the development of communicative skills for gaining proficiency in the skill areas such as document production, machine transcription, microcomputer applications, gaining patient history, and clinical occupational information.

Practical Nursing

Health service is a growing industry that focuses on providing medical care to many. Demand for professionals who work to prevent illness and restore health is well known. Within the health care arena, men and women with special knowledge and abilities are needed to assist other professionals such as registered nurses and doctors. Licensed Practical Nurses fill that role. In the Practical Nursing program, students will learn the skills necessary in today's health care system. This program is designed to provide educational opportunities to individuals that will enable them to obtain the knowledge, skills, and attitudes necessary to function in the role of an entry level Licensed Practical Nurse. Upon completion of the program, students are qualified to take the national licensure examination for practical nursing (NCLEX).

The certificate program prepares graduates for employment as licensed practical nurses under the supervision of registered nurses and physicians. LPNs use technical skills acquired from this program to assist clients in meeting their physical and psychosocial needs. Licensed practical nurses administer medications, perform treatments, assist in preparing a care plan, document care, and monitor client progress.

Precision Agriculture

Precision Agriculture is the practice of using remote sensing, soil sampling, and information management tools to improve production. Precision agriculture is about whole farm management with the goal of optimizing returns on inputs while preserving resources. It relies on growing technologies like satellite imagery, information technology, and geospatial tools.

Precision Ag is used more and more in local farming operations. With the increasing availability of such mapping technologies as GPS (Global Positioning Systems) and GIS (Geographical Information Systems), Precision Ag technicians will install, operate, troubleshoot, and repair precision ag systems. Technicians will also use the advanced processing software to collect, visualize, and analyze data.

Risk Management

The Certificate in Risk Management is designed for the degreed professional interested in increasing their knowledge of risk management. Each of the following six classes must be successfully completed with a C or higher for participants to be eligible to receive the certificate. RM 110 Risk Assessment, RM 111 Investigations in theWorkplace, RM 114 Risk Control, RM 200 Risk Finance, RM 202 Risk Communication, and RM 204 Risk Quality

Revised 9/2016

Programs at the Technical Centers
(circle one)

Construction Trades

Credit hours

33	Construction Technology	1 year
35	Electrical Technology	1 year
38	HVAC and Plumbing	1 year
35	Industrial Welding Technology	1 year
	12 Option Additional Semester in IWT	

Transportation

52	Auto Collision Repair	2 years
58	Automotive Technology	2 years
58	Diesel Technology	2 years

Business and Computers

32	Accounting Specialist	1 year
32	Administrative Assistant	1 year
58	Engineering Graphics & Tech	2 years
59	Computer Technology	2 years

Health Services

35	Medical Office Assistance	1 year
39	Practical Nursing	1 year

Prerequisites:
- Human Anatomy*
- Human Physiology*
- Certified Nurse Aide
- Human Growth and Development*

* Satisfies Social/Behavioral Sciences and Mathematics/Sciences requirements.

Electives:
___ _____
___ _____
___ _____

Basketball, Softball, Baseball Athletes:
(These courses count for PE requirement.)
___ PE 136 Baseball Conditioning I (1)
___ PE 137 Basketball Conditioning-Men (1)
___ PE 138 Basketball Conditioning-Women (1)
___ PE 149 Softball Conditioning I (1)
___ PE 236 Baseball Conditioning II (1)
___ PE 237 Adv Basketball Condition-Men (1)
___ PE 238 Adv Basketball Condition-Women (1)
___ PE 249 Softball Conditioning II (1)

Note: A student must complete either 2 – 1 year programs or 1 -- 2 year program, plus take these general studies classes in order to be awarded an Associate in Applied Science degree. Technical courses can be no more than 5 years old.

Revised 10/16

A 101 Art Appreciation   3
This course is an introduction to the fundamentals of the visual arts. The course focuses on the importance of art in the contemporary world as well as the historical aspects of art and its influence on Western culture today.

A 103 2-D Design   3
This course provides an introductory study of the elements and principles of two-dimensional design. Emphasis will be placed on two-dimensional spatial organization. A variety of materials and approaches will be explored and applied.

A 104 3-D Design   3
This studio design course covers the elements and principles of three-dimensional design. Course projects will deal with the linear and planar aspects of 3-D design as well as the structural concepts of volume, mass, and form.

A 105 Prints I   3
This course provides an introduction to the tools, methods, and techniques used in intaglio and relief printing processes. Emphasis will be placed on the variety of ways to create an intaglio plate, such as etching, soft mezzotint, engraving, aquatint, and drypoint. Relief processes such as linocut and woodcut will also be included.

A 107 Drawing I   3
This course will cover the fundamentals of drawing as applied to the realistic and expressive representation of objects through the use of various media, approaches, and techniques. Emphasis will be placed on composition, line, value, texture, and spatial relationships.

A 108 Drawing II   3
This class continues the investigation of various drawing media with an emphasis on creative expression. The course will cover techniques as well as compositional problems. Subject matter will include still life, landscape, the figure, and invented compositions. *PreReq: A 107*

A 110 Painting I   3
This course will provide a brief history of painting and an introduction to the color wheel and various painting techniques. The course will emphasize the use of oil and acrylic paint, and projects will deal with line, color, form, texture, and space in both representational and non-objective subject matter.

A 111 Painting II   3
This course will provide a continuation of Painting I concepts and will also emphasize individual expression and exploration. *PreReq: A 110*

A 112 Ceramics I   3
This course will provide an introduction to the use of clay as an art medium. The course will cover traditional techniques used in hand-building and wheel thrown forming methods and will also introduce ceramic glazes, slips, stains, and firing methods.

A 113 Typography   3
This course will provide a study of the principles of contemporary typographic design. The course will focus on size, form, contrast, color, spacing, and design of the printed word and printed page. Typography production from traditional letterpress through photomechanical processes will also be discussed. The course will provide an introduction to the Macintosh computer and the latest graphic design software.

A 117 Ceramics II   3
This course continues the instruction and skill building begun in Ceramics I. The course will emphasize the development of sound clay design and form and will cover contemporary hand-building and throwing techniques, as well as kiln firing and glaze formulation. *PreReq: A 112*

A 121 Design Software Applications   3
This course provides an introduction to computer hardware, software, and peripherals commonly used by graphic designers and professional artists. Students will complete projects using graphic design software.

A 123 Design Software Applications   3
This course introduces students to the use of digital technology using state-of-the-art computer illustration software. Projects will incorporate use of the Macintosh computer for digital imaging and manipulation, as well as image editing, scanning, and printing.

A 139 Computer Graphics -Web Design   3
This course provides an introduction to basic web page and site design. The course will focus on applying strong design principles to create effective page and site projects using Macintosh computers and web design software. *PreReq: A121*

A 201 Art History I   3
This course provides an introductory survey of the art and architecture of the Western world from Prehistoric times through the Early Renaissance. Because of the extensive time period and the number of civilizations being examined, the course will focus on art objects and monuments that are most representative and significant for each historical period. A broad range of art forms will be examined, including monumental architecture, sculpture, ceramics, paintings (including frescoes, mosaics, and manuscripts), textiles, and metalwork.

A 202 Art History II   3
This course provides an introductory survey of the art and architecture of the Western world from the Renaissance through Modern periods, ending with a survey of trends in contemporary American and European art. The course will explore the relationships between the art periods and styles as well as the achievements of individual artists. Because of the extensive time period and the number of cultures and styles being examined, the course will focus on art objects and monuments that are most representative and significant for each historical period. A broad range of art forms will be examined, including monumental architecture, sculpture,

ceramics, paintings (including frescoes, mosaics, and manuscripts), textiles, and metalwork.

A 205 Art Methods 3
This course will focus on the principles and practices of teaching art to children from preschool through middle school.

A 215 Graphic Design 3
This course covers the resources, materials, and procedures of graphic design. The course will provide an introduction to problem solving, basic layout skills, and graphic design terminology. An introduction to the Macintosh computer with the latest graphic software will be included. Projects will emphasize color, form, and typography.

A 223 Computer Graphics - Illustration 3
This course provides an introduction to contemporary illustration practice, including the use of traditional drawing, painting, and printmaking techniques supplemented with digital manipulation using the most recent version of Adobe Illustrator and Adobe Photoshop. The course also covers hand rendering, computer rendering, scanning, digital tablet use, image manipulation, and printing. The course will also focus on a client based approach to image creation, emphasizing the development of concepts and ideas concluded by finished images. *PreReq: None, A 103 or A 121 recommended*

A 224 Computer Graphics - Enhanced Photography 3
This course provides experience in the use of high-tech enhanced photography software. Course projects will incorporate use of Macintosh computers and Adobe Photoshop software for digital imaging and manipulation as well as image editing, scanning, and printing.

A 240 Art Seminar 1
This course is designed for students interested in research, discussion, and studio experience in various media within academic or vocational areas such as art education, art therapy, computer graphics, graphic design, interior design, and studio art. *PreReq: Sophomore standing*

A 250 Advanced Studio I 1
This studio course is designed for the student with an interest in fine arts. The course will allow students to explore the possibilities of self-expression with media and materials of their own choosing. *PreReq: Any previous studio course*

A 251 Advanced Studio II 1
This studio course is designed for the student with an interest in fine arts. The course will allow students to explore the possibilities of self-expression with media and materials of their own choosing. *PreReq: A 250*

A 252 Advanced Studio III 1
This studio course is designed for the student with an interest in fine arts. The course will allow students to explore the possibilities of self-expression with media and materials of their own choosing. *PreReq: A 251*

A 253 Advanced Studio IV 1
This studio course is designed for the student with an interest in fine arts. The course will allow students to explore the possibilities of self-expression with media and materials of their own choosing. *PreReq: A 252*

A 260 Portfolio Preparation 1
This course is intended to provide students with the skills and knowledge to design and prepare a portfolio that can be used for college admissions or scholarship applications as well as for pursuing employment opportunities. *Pre Req: Sophomore standing*

AB 101 Small Scale Local Food Production 3
This course will cover garden practices as they relate to food production. Fruit and vegetables will be raised in a College garden site. The course will specifically cover the principles of plant growth, garden planning, soil preparation, planting and tending crops, marketing, and processing garden produce.

AB 108 Principles of Animal Science 3
This course will provide an introduction to the field of animal science. The course will focus on fundamental concepts of genetics, animal breeding, physiology, anatomy, nutrition, digestion, and the scope of the livestock industry. *PreReq: AB 114 or permission*

AB 114 Orientation 2
This course will provide an introduction to the various careers in agriculture. The course will also cover career and job trends, setting academic goals, note taking, designing a term study plan, preparing for tests, and test taking strategies and skills.

AB 120 Introduction to Beekeeping 3
This course will provide an introduction to the basics of beekeeping. The course will cover equipment and supplies necessary for setting up an apiary, appropriate apiary locations, installing a colony of bees, and checking the progress of a colony.

AB 121 Honey Products Development & Marketing 3
This course is designed to provide an introduction to the legal requirements of honey product packaging and quality control of the product. The course will also cover packaging and marketing strategies to maximize profits. Other value-added products will be introduced for diversification of sales possibilities.

AB 122 Colony Health & Treatment of Disease 1
This course is designed to provide an introduction to the recognition, diagnosis, and treatment of honeybee diseases and pests. The course will also cover preventative maintenance methods for general colony health.

AB 123 Spring Apiary Management 2
This course is designed to provide an introduction to the basics of spring apiary management. The course will cover preparing colonies for spring honey production, promoting colony health, and increasing the number of colonies.

*indicates a technical course

AB 124 Beekeeping Equipment Construction   1
This course will provide a hands-on learning experience in making a complete beehive from wood. The course will also cover assembling pre-made beehive components. *PreReq: Permission*

AB 126 Principles of Agronomy   3
This course will provide instruction in crop plant classification, use, and identification. The course also covers cropping systems, tillage methods, planting methods, harvesting methods, and crop growth patterns. Course emphasis will be balanced between theoretical and practical crop science.

AB 128* Agriculture Electronic Devices/System   3
This course is designed for students with basic electrical knowledge and will provide information on how agribusiness and industrial machines are controlled. The course will cover basic concepts, such as 2 and 3 wire control systems, as well as more complex systems, including the applications and limitations of Programmable Logic Controllers (PLCs). Applications of this technology and the language of how to read and understand ladder diagrams and wiring diagrams will also be emphasized.

AB 130* Precision Farming Systems   3
This course presents an overview of precision farming concepts and the tools of precision farming (Global Positioning System, Geographic Information System, and Intelligent Devices and Implements). The course will provide experience using these tools within the processes of a precision farming system, and hands-on activities with local data will be included. Economic and environmental benefits are also covered.

AB 132* Advanced Precision Farming Systems   3
This course will cover the use of precision farming software, including initial setup, creating management and production lists, saving and unloading data cards, and processing field data. The course will also cover using the software to create reports and prescription/application maps. Deere Apex, Ag Leader Spatial Management System, and FarmWorks SiteMate will be the packages used. This is a project driven course in which the instructor will provide guidance, with students required to read software documentation to complete most of the tasks.

AB 134* Advanced Precision Farming Hardware   3
This course will cover the use of various precision farming hardware components. The course will include basic concepts of electricity, electronics, hydraulics, and pneumatics and will provide hands-on experience in the installation of display modules, Global Positioning System (GPS) units, and control components. This is a project driven course which requires students to use technical manuals for installations. Systems used for the course will include Deere Greenstar, Deere StarFire Real Time Kinematics (RTK), Ag Leader guidance, Case IH yield monitoring, and Rawson variable rate hydraulic unit.

AB 136* Geographic Information Systems   3
This course covers fundamental concepts and theories from the geospatial, cartographic, and computing sciences relevant to the emergence, use, and development of Geographic Information Systems (GIS). The course will focus on GIS, Global Positioning Systems (GPS), and remote sensing as well as spatial data production, analysis, and management. The course will combine a review of theoretical foundations with hands-on practical exercises in collecting, analyzing, and producing geospatial and attribute information.

AB 138* Remote Sensing   3
This course will cover the concepts of radiometric and photometric measurements: propagation, irradiance, radiance, radiant intensity, luminance, and radiant existence. Calibration and characteristics of remote sensing data and data analysis techniques will be included. The course will also focus on the interaction between electromagnetic radiation and matter and the effects of the atmosphere on light propagation and remote sensing experiments. Class work will include laboratory and teamwork exercises and will also provide practical experience in the technical workplace.

AB 142* Mapping for Decision Making   3
This intermediate course focuses on the concepts and procedures used in discovering and applying the spatial relationships within and among maps. The course applies the mapping and geo-query capabilities of Geographic Information System (GIS) technology to map analysis and construction of spatial models. The course also provides a comprehensive framework that addresses a wide range of applications from natural resources to geo-business.

AB 144* Intermediate GIS   3
This course will cover advanced topics and current techniques in Geographic Information Science (GISci). The course will emphasize both theory and practice and will go beyond the development of geographic mapping technology to focus on integrated systems. The course will cover data models, spatial data quality and uncertainty modeling, network analysis and modeling, digital terrain modeling, spatial interpolation, 3-D mapping and visualization, mobile Geographic Information System (GIS) mapping, and Internet GIS.

AB 146* Aerial Systems Management   2
This course introduces Unmanned Aerial Systems (UAS) platforms, their history, and commercial applications, with special emphasis in Precision Agriculture, Federal Aviation Administration (FAA) regulatory framework, data collection, privacy issues, and navigation concepts.   Although instruction will cover content that is needed to pass the certification test for flying drones, no certification will be awarded as part of this class in the actual flight of unmanned aerial vehicles. Further training and instruction will be required for students wishing to acquire and/or pilot aerial vehicles, and students will be responsible for pursuing that certification through testing.

AB 148* Positioning Systems Management   3
The Global Navigation Satellite System (GNSS) is a worldwide, satellite-based navigation system used for aviation, remote sensing, shipping, vehicle tracking, surveying, time transfer, search and rescue operations, and personal communications via satellite. This course provides an introduction to this rapidly growing field,

71

indicates a technical course

covering both applications and the technology that makes satellite navigation possible. It is by nature an interdisciplinary course, covering subject material in orbit prediction, satellite systems, signal processing, error modeling, computer programming, digital and microwave electronics.

AB 202 Agriculture Economics I   3
This course provides an introduction to the field of agricultural economics as well as some of the basic tools and concepts of decision making. Concepts are illustrated in terms of selected contemporary social and economic issues, including the role of agriculture in both the national and international dimensions. Topics will include the structure of U.S. agriculture, consumer food issues, world food problems, agribusiness, and rural development.

AB 203 Soils and Soils Lab   4
This course will provide a study of the physical, chemical, and biological properties of soils and how these properties determine the nature of each soil and its crop productivity. The course will also cover soil management practices. *PreReq: AB 210, PS 111 or 2 years high school chemistry or permission*

AB 207 Fundamentals of Animal Nutrition   3
This course covers the role of carbohydrates, proteins, lipids, minerals. vitamins, and water in animal nutrition. The course will emphasize digestion, absorption, metabolism, and excretion of nutrients and their metabolites. *PreReq: AB 108 or permission*

AB 208 Applied Animal Nutrition   3
This advanced course will cover various techniques involved in the formulation, preparation, and construction of animal nutrient rations. *PreReq: AB 207 or permission*

AB 210 Crop Science   4
This course will examine plant morphology and anatomy and will also provide a history of plant agriculture. The course will emphasize plant structures and systems related to the five major field crops found in the local region: corn, sorghum, wheat, soybeans, and alfalfa. Growth stages, critical periods of development, plant nutrition, mineral elements involved in physiology, and grain grading and marketing will also be covered. *PreReq: PS 107, PS 111 or permission*

AB 212 Livestock Production   3
This advanced animal science course is designed so students can expand their expertise working with livestock. The course will cover lactation, genetic applications, physiology of reproduction, animal ecology, and the impact of livestock production on the quality of life. *PreReq: AB 108 or permission*

AB 216 Marketing Farm Products   3
This introductory course will cover operations involved in the movement of agricultural commodities from the farmer to the consumer. The course will focus on the essential marketing functions of buying, selling, transportation, storage, financing, standardization, pricing, and risk bearing. *PreReq: AB 202 or permission*

AB 220 Beef Production   3
This course will cover the basic husbandry practices used in modern beef production. The course will focus on the latest advancements in technology as they apply to cattle production. Special emphasis will be placed on genetics, physiology of reproduction, beef nutrition, health programs, management methods, use of electronic ID systems, ID databases, and marketing methods. *PreReq: AB 108 or permission*

AB 222 Sheep Production   3
This course is designed to introduce the technology required for modern sheep production. The course will focus on genetics, reproduction, health, nutrition, management concepts, marketing, budgets, and the proper care and handling of wool. *PreReq: AB 108 or permission*

AB 224 Range Management   3
This course is designed to give students knowledge about forage and range management. The course will cover principles of plant species selection, establishment, fertilization, and weed control. Utilization and grazing of natural grasses will also be covered, as well as improved cultivators.   The course will include discussion of intensive grazing design and temporary forage systems, silage, and haying methods. *PreReq: AB 210 or permission*

AB 225 Animal Diseases and Health   3
This course will cover general concepts and applications for designing and developing an effective flock or herd health program. The course will emphasize effective sanitation, disease prevention, control of ectoparasites and endoparasites, disease identification, and methods of effective chemotherapy. *PreReq: AB 108 or permission*

AB 227 Ag Microcomputer   3
This course is designed for students who have had some experience with computers. The course will cover the start-up dialogue, care and maintenance of software and hardware, and what to look for when purchasing a farm computer system. The course will also emphasize the use of integrated software packages and their agricultural applications. *PreReq: 2 years high school math or permission*

AB 244 Applications Global Positioning Systems   3
The Global Positioning System (GPS) is a worldwide, satellite-based navigation system used for aviation, remote sensing, shipping, vehicle tracking, surveying, time transfer, search and rescue operations, and personal communications via satellite. This course provides an introduction to this rapidly growing field, covering both applications and the technology that makes satellite navigation possible. The focus of the course is interdisciplinary in nature, including orbit prediction, satellite systems, signal processing, error modeling, computer programming, and digital and microwave electronics.

ACR 105* Painting and Refinishing I   3
This course is the first in a four-course sequence covering all aspects of painting and refinishing auto body surfaces. The course will cover safety and health issues, surface preparation, metal treatments, equipment, and paint specifics.

72

*indicates a technical course

ACR 115* Non-Structural Analysis & Damage Repair I   4
This course is the first in a four-course sequence covering all aspects of non-structural analysis and damage repair for automobiles. The course will cover safety issues, vehicle construction, industry opportunities, and auto body repair techniques and materials.

ACR 125* Structural Analysis & Damage Repair I   2
This course is the first in a four-course sequence covering all aspects of structural analysis and damage repair for automobiles. The course will cover measuring, damage analysis, safety, frame repair, unibody analysis, and welding.

ACR 135* Airbrush, Fiberglass, and Pin Striping   3
This course is designed to enhance skills in auto collision repair through creating detail and unique products using airbrush and pin striping techniques and fiberglass fabrication.

ACR 155* Painting and Refinishing II   3
This course is the second in a four-course sequence covering all aspects of painting and refinishing auto body surfaces. The course will cover protective equipment, shop operations, and specific painting principles and procedures. *PreReq: ACR 105*

ACR 165* Non-Structural Analysis and Damage Repair II   4
This course is the second in a four-course sequence covering all aspects of non-structural analysis and damage repair for automobiles. The course will cover trim and hardware protection, glass, outer body, metal work, welding, safety, cutting, plastics, and adhesives. *PreReq: ACR 115*

ACR 175* Structural Analysis and Damage Repair II   2
This course is the second in a four-course sequence covering all aspects of structural analysis and damage repair for automobiles. The course will cover safety, frame inspection and repair, structural damage, unibody repair, welding techniques, and cutting procedures. *PreReq: ACR 125*

ACR 185* Panel Fabrication   3
This course is designed to give students the skills needed to fabricate panels using sheet metal in order to create a finished product by replacing or repairing existing parts. *PreReq: ACR 125*

ACR 205* Painting and Refinishing III   3
This course is the third in a four-course sequence covering all aspects of painting and refinishing auto body surfaces. This more advanced course will focus on application procedures and techniques for auto body painting. *PreReq: ACR 155*

ACR 215* Non-Structural Analysis and Damage Repair III   4
This course is the third in a four-course sequence covering all aspects of non-structural analysis and damage repair for automobiles. This advanced course will cover trim and hardware, glass repair, outer body, mechanical and electrical components, safety protocol, intermediate welding skills, and plastic and adhesive repairs.. *PreReq: ACR 165*

ACR 225* Structural Analysis and Damage Repair III   3
This course is the third in a four-course sequence covering all aspects of structural analysis and damage repair for automobiles. This advanced course will cover safety, welding and cutting techniques, unibody damage and repair, frame procedures, and fixed glass. *PreReq: ACR 175*

ACR 235* Fleet and Commercial Vehicles   3
This course is designed to allow students to use knowledge gained in sheet metal repair, welding, plastic repair, and painting to obtain skills in working on fleet and commercial vehicles, using tools and paint specific to the industrial field of collision repair. *PreReq: ACR 175*

ACR 255* Painting and Refinishing IV   4
This course is the final one in a four-course sequence covering all aspects of painting and refinishing auto body surfaces. This course will focus on advanced aspects, techniques, and procedures for a variety of auto body painting and refinishing applications. *PreReq: ACR 205*

ACR 265* Non-Structural Analysis and Damage Repair IV   5
This course is the final one in a four-course sequence covering all aspects of non-structural analysis and damage repair for automobiles. This course will focus on advanced aspects, techniques, and procedures for non-structural damage repair. *PreReq: ACR 215*

ACR 275* Structural Analysis and Damage Repair IV   3
This course is the final one in a four-course sequence covering all aspects of structural analysis and damage repair for automobiles. The course will focus on advanced welding and cutting techniques, unibody repair, frame repair, and fixed glass removal and installation. *PreReq: ACR 225*

ACR 285* Mechanical and Electrical   3
This course will focus specifically on auto mechanical and electrical systems and will cover inspection, diagnosis, service, and repair of system problems or damage. *PreReq: ACR 225*

ACR 295* Occupational Work Experience   0
Occupational Work Experiences are available to students who have completed at least 85% of their required course hours. This is an optional course for students wanting practical experience at local businesses or other approved sites.

ADM 101* Document Processing I   3
This course develops the student's basic typing skills and emphasizes the production of various kinds of business correspondence, tabulations, reports, and forms from unarranged and rough-draft sources.

ADM 115* Administrative Procedures I   3
This course is designed to give students knowledge about the concepts, terminology, skills, and procedures used in a business office. The course will focus on topics such as basic filing, office design, computer and office technology, business writing, and presentations.

ADM 121* Proofreading and Editing   3
This course is designed to assist students in identifying and correcting errors in abbreviations, formats, grammar, punctuation,

73

indicates a technical course

word division, capitalization, and number expression. The course also covers reviewing and applying the rules of written language to business documents, such as letters, memos, reports, resumes, agendas, and itineraries.

ADM 131* Microcomputer Applications I   3
This course is designed to examine and apply the skills, tools, and information necessary to perform basic software applications used with microcomputers. The course will cover Microsoft Word, Outlook, Power Point, and Desktop Publisher.

ADM 135* Business Math with 10-Key   3
This course will cover fundamental business mathematical operations and will emphasize development of speed and accuracy. The course will also include topics necessary for understanding business and consumer application and accounting techniques. Students will become familiar with using both mechanical and computerized 10-key calculators to complete basic math operations.

ADM 140A* Professional Profile I   1
This course will focus on the knowledge, professionalism, and skills necessary to succeed in business environments and grow personally and professionally. A variety of topics will be presented through campus seminars, faculty and guest speakers, student presentations, and group projects.

ADM 140B* Professional Profile II   1
This course continues ADM 140A and will focus on the knowledge, professionalism, and skills necessary to succeed in business environments and grow personally and professionally. A variety of topics will be presented through campus seminars, faculty and guest speakers, student presentations, and group projects. *PreReq: ADM 140A*

ADM 141* Applied Media Technology   3
This course offers an overview of the role that media play in modern society, with emphasis on the ethics, technology, social obligations, and technical skills needed by modern communicators. Course work will include digital photography, electronic publishing, and current office technology. As new technology emerges, it will be incorporated into this course.

ADM 151* Document Processing II   3
This course is a continuation of ADM 101. Students are placed in a variety of office settings with each situation emphasizing office skills such as editing, decision making, abstracting information, setting priorities, maintaining a smooth work flow, following directions, and working under pressure with interruptions.

ADM 161* Administrative Procedures II   3
This course builds on material covered in Administrative Procedures I and provides additional information on mail and shipping services, career development, effective leadership skills, stress and time management, telephone and teleconference techniques, and travel arrangements. *PreReq: ADM 115*

ADM 171* Microcomputer Applications II   3
This course provides advanced instruction on how to use database and spreadsheet software programs. The course is designed to give students in-depth knowledge for using Microsoft Excel and Access. Students will create and manage databases and spreadsheets along with exploring the Internet as a valuable tool in today's business. *PreReq: ADM 131*

ADM 180* Accounting I   3
This course is designed to give students a broad overview of business operations and the basic skills needed to keep financial records. Simulations provide students the opportunity to combine individual tasks in hands-on activities.

ADM 280* Occupational Work Experience and/or Special Topics   3
Occupational Work Experiences are available to students who have completed at least 85% of their required course hours. This is an optional course for students wanting practical experience at local businesses or other approved sites.

ANT 100 Introduction to Archaeology   3
This course will provide a general survey of archaeology and the history of archaeology. The course will emphasize the impact and importance of major discoveries and the relevance of archaeology as it relates to history. The course will include a general survey of world prehistory revealing major cultural changes from the development of early foraging societies through the rise of agricultural and complex communities. The course will also examine prehistoric cultures and their evolution in adaptive responses to changing natural and social environments from the early Paleolithic to the emergence of urban civilizations.

ANT 112 General Anthropology   3
This survey course will cover the biological and cultural evolution of humans and will emphasize culture as an adaptive and learned behavior necessary for survival. The four fields of anthropology will be introduced as well as perspectives on anthropological culture, cultural diversity, and the value of multiculturalism. The course will also focus on race, emergence of civilizations, survival needs and skills, agriculture, horticulture, contraception, economic development, language, marriage and family, kinship and descent, sex and gender, political organization, civilization, social control, social stratification, supernatural beliefs, art, globalization, and cultural change.

AUT 101* Electrical and Electronic Systems   3
This course is designed for the study of automotive electrical and electronic systems. The course takes a practical look at electricity and electronics. Topics include completing work orders, describing basic electrical relationships, identifying electrical system faults, and describing basic circuit characteristics. These topics will be covered using a variety of classroom and shop learning and assessment activities.

*indicates a technical course

AUT 121* Auto Electricity and Electronics   2
This course deals with the operation, diagnosis, and service of electrical and computer systems found on modern automobiles and light trucks. The course will focus on the latest developments in the field.

AUT 122* Brakes I   3
This course is designed to provide students with an understanding of how various basic and antilock brake systems work.

AUT 132* Engine Performance I   3
This course provides current information to develop the skills needed to diagnose and fix drivability problems. The course will cover OBD I and OBD II diagnosis as well as computerized power-train systems.

AUT 142* Automotive Technology Lab I   7
This lab course is designed to give students practical work experience in diagnosing, repairing, and understanding the components of engine repair, auto transmission/transaxles, and auto service management.

AUT 151* Heating and Air Conditioning   2
This course is designed to provide knowledge of basic heating and air conditioning systems. The course will cover theory and operation as well as proper maintenance and service procedures. Emphasis will also be on safety and correct use of air conditioning tools. *PreReq: AUT 142*

AUT 161* Steering and Suspension I   2
This course is designed to provide knowledge about various parts of chassis work, such as wheel alignment, wheel balancing, and suspension system operation and repair.

AUT 192* Automotive Technology Lab II   7
This lab course is designed to give students practical work experience in diagnosing, repairing, and understanding the components of engine repair, auto transmission/transaxles, and auto service management. *PreReq: AUT 142*

AUT 193* Hybrid and Fuel Cell Vehicles   1
This course is designed to give students an introduction to the various types of hybrid electric vehicles (HEV). Topic areas include improvement of fuel economy, hybrid designs, HEV components, and the operation of the typical HEV.

AUT 201* Manual Drive Train and Axles   2
This course is designed to provide an in-depth study of torque delivery. The course will cover clutches, drive-lines, drive axles, transfer case, and manual transmissions and transaxles. *PreReq: AUT 192*

AUT 211* Auto Transmission/Transaxles I   2
This course provides an in-depth study of torque delivery and planetary gear sets. Instruction areas include operation, service, diagnosis, and repair of automatic transmission and transaxle functions, including electronic controls. *PreReq: AUT 192*

AUT 221 Engine Performance Drivability II   2
This course provides current information to develop more advanced skills needed to diagnose and fix more complex drivability problems. The course will cover analyzing, servicing, and diagnosing a variety of fuel, exhaust, and induction systems. *PreReq: AUT 192*

AUT 242* Automotive Technology Lab III   7
This lab course is designed to give students practical work experience in diagnosing, repairing, and understanding the components of engine repair, auto transmission/transaxles, and auto service management.

AUT 251* Engine Repair I   2
This course begins with basic engine diagnostics and progresses through engine removal, tear down, short block repair, and cylinder head repair. The course will also emphasize correct engine repair techniques. *PreReq: AUT 242*

AUT 255* Automatic Transmission & Transaxle II   1
This course continues the study of automatic transmissions and transaxles and their electronic control circuits, including trouble diagnosis and service procedures. *PreReq: AUT 242*

AUT 261* Auto Service Management   2
This interactive course covers the essentials and rationale for service management. The course covers shop safety, safety planning, personal planning, supervising, and customer and staff relations. *PreReq: AUT 242*

AUT 281* Automotive Technology Lab IV   7
This lab course is designed to give students practical work experience in diagnosing, repairing, and understanding the components of engine repair, auto transmission/transaxles, and auto service management. *PreReq: AUT 242*

AUT 291* Service Management Practicum   2
This course is a continuation of AUT261 Auto Service Management and is designed to develop professional and personal skills. Emphasis will be placed on attendance, professional attitude, and laboratory behavior for the fourth semester of the program. *PreReq: AUT 242*

AUT 295* Occupational Work Experience   0
Occupational Work Experiences are available to students who have completed at least 85% of their required course hours. This is an optional course for students wanting practical experience at local businesses or other approved sites.

BS 101 College Biology   5
This general education course will examine the plant and animal kingdoms, their fundamental principles and processes of life, and their relationship to everyday life. The course consists of three hours of lecture plus three hours of laboratory work per week. *PreReq: MAT 090 , ENG 096, or Assessment*

*indicates a technical course

BS 104 Human Anatomy   4
This course is an anatomical study of the systems forming the human body. Emphasis is placed on the organs forming each system, the embryonic development of the system, and the functions of the tissues and organs of each system. The course includes a brief physiological review with each system and will consist of three hours lecture and one and one half hours of laboratory work per week.

BS 105 Human Physiology   4
This course provides a physio-chemical study of the systems forming the human body. The course will focus on the relationships between the systems and the maintenance of a homeostatic condition within the body. Diseases, defects, and abnormalities are covered with each system. The course will consist of three hours of lecture and one and one-half hours of laboratory per week.

BS 107 Introduction to Environmental Science   4
This interdisciplinary science course is designed to stimulate interest in environmental science, increase awareness of environmental problems, and improve understanding of environmental issues. The focus is on contemporary issues relating to biodiversity and sustainability. Topics include air and water quality, global climate change, environmental toxicants, energy resources, deforestation, overfishing, and endangered species. The course will also examine political and ethical concerns, sociological consequences, and economic impacts. A weekly lab session will offer a variety of experiences that demonstrate the principles, processes, techniques, and technologies of natural environmental systems and solutions.

BS 109 Medical Terminology   3
This course is designed to teach basic competency in the vocabulary and comprehension of medical terms. The course will focus on word attack skills for medical terms. The course can serve as preparation for academic success in Human Anatomy.

BS 110 Nutrition   3
This course is a study of the fundamentals of human nutrition and the relationship of nutrition to health, well-being, and personal food choices. The course will examine human growth and development, scientific research in nutrition, and how nutrition affects human disease. The course will also include the application of basic nutritional science to the requirements of life cycle stages, activity and exercise, and various states of health. This course is appropriate for Biology, Nursing, and Pre-Med students.

BS 111 Nutrition for Health, Fitness, Sports   3
This course will provide a study of food and the effect nutrition has on health, growth and development, and physical performance. The course topics include: calorie expenditures and the nutritional value of foods, including related calculations; human metabolism and metabolic pathways for carbohydrates, fat, and protein; methods for determining body composition, general fitness levels, and exercise intensity; nutritional health research data and statistics; and scientific data concerning the effects of nutrition on health, fitness, and sports activity.

BS 112 Nutrition for Health, Fitness, Sport w/ Lab   5
This course will provide a study of food and the effect nutrition has on health, growth and development, and physical performance. The course topics include: calorie expenditures and the nutritional value of foods, including related calculations; human metabolism and metabolic pathways for carbohydrates, fat, and protein; methods for determining body composition, general fitness levels, and exercise intensity; nutritional health research data and statistics; and scientific data concerning the effects of nutrition on health, fitness, and sports activity.

BS 201 General Zoology   5
This course covers the anatomy and physiology of representative species of each phylum of the animal kingdom. The evolutionary connection between the phyla of the phylogenetic tree is covered with each phylum. *PreReq: BS 101*

BS 202 General Botany   5
This course provides a study of the structure of plants and how they live, grow, and reproduce. The course will emphasize function as a basis of life and how it is related to human problems such as population, food supply, and conservation. *PreReq: BS 101 or BS 105*

BS 203 Microbiology   5
This course will provide a study of the morphology, physiology, and classification of microorganisms associated with disease. The course will also focus on methods of disease prevention through sanitation, disinfection and sterilization, sources and means of infection, and body defenses. *PreReq: BS 101 or BS 105*

BS 220 Pathophysiology   4
An introduction to the basic concepts of pathophysiology as it relates to nursing and pre-professional students. This course is organized in a manner that brings the principles of pathophysiology to the forefront with a focus on the relatively few patterns of disease, rather than asking students to memorize extensive catalogs of specific diseases and this conceptual approach is more suited to these types of students. Laboratories will be used to support and supplement the information presented in lecture. *PreReq: BS 104, BS 105*

BS 240 Emergency Medical Technician   12
This course is designed to provide training for giving medical care to patients in the pre-hospital setting. The course will offer instruction and practical experience for students to develop the knowledge, skills, and attitudes needed for certification and practice as an Emergency Medical Technician-Basic (EMT-B) in Kansas.

BS 241 CPR Basic   1
This course is designed to give students the knowledge and skills needed to provide emergency care using cardiopulmonary resuscitation (CPR) and automated external defibrillator (AED).

BS 244 Emergency Medical Training - Intermediate   6
This course is designed to provide advanced training for giving medical care to patients in the pre-hospital setting. The course will offer instruction and practical experience for students to develop the knowledge, skills, and attitudes needed for certification and practice as an Emergency Medical Technician-Intermediate (EMT-I) in Kansas.

indicates a technical course

BTT 105* General Safety for the Building Trades   1
This course provides an introduction to the tools and materials required in the building trades. The course will cover wood and lumber, engineered panels, engineered lumber products, fasteners, hand tools, portable power tools, and stationary power tools. Emphasis will be placed on the safe operation of hand and power tools as well as job hazards and safety in the building trades industry.

BTT 106* Introductory Craft Skills   4
This course provides both a general and specific introduction to the construction business. The course will include a study of the Occupational Outlook and the various types of jobs available in the building trades industry. Emphasis will be placed on the safe operation of hand and power tools and other equipment. The course also covers the application of basic mathematics in the construction industry.

BTT 109* Carpentry Basics   4
This course provides step by step instruction on how to use equipment, tools, and fasteners, as well as how to measure, cut, drill, join, fasten, and finish various types of hardwoods and softwoods. The course will also cover reading and interpreting plans, elevations, schedules, sections, and details contained in basic construction drawings. Students will apply construction skills through participation in a student designed and built house project.

BTT 111* Roof Framing   3
This course provides a practical study of roof styles, including gambrel, gable, shed, hips, and trusses. The course covers rafter and truss design, lay-out, and framing, as well as cornice, soffits, and gable end construction.

BTT 119* Floors, Walls, and Ceiling Framing   4
This course provides experience in construction of the sub-floor system in a residential house according to the Uniform Building Code. The course also offers experience in constructing and installing exterior and interior walls, as well as a practical study of sheet rock materials and finishing techniques. *PreReq: BTT 111*

BTT 121* Residential Concrete Construction   3
This course is a study of the reinforcing materials, concrete, and basic formwork used in construction. The course will cover how to perform several masonry and concrete finishing tasks, such as mixing concrete, building footings, edges and wall forms, and using concrete reinforcing materials.

BTT 155* Residential Interior Finish Carpentry   3
This course focuses on the materials, techniques, and skills needed to finish the interior of a home. The course will cover insulation and moisture protection, finishing walls, ceilings, and floors, and cabinetry. *PreReq: BTT 121*

BTT 159* Windows, Doors, and Stairs   3
This course provides a study of exterior sheathings, windows, doors, sidings, eaves, and fasciae. The course will include instruction and experience in installation, finish, and maintenance. In addition, the course will provide experience in installing thresholds, weather stripping, locksets, and overhead garage doors.

BTT 170* Painting, Finishing, and Decorating   5
This course focuses on the various materials used for coatings that cover all types of finishes, including wood and other materials such as metals and drywall. The course will provide instruction and experience in paints, stains, varnishes, and various synthetic materials, both clear and colored. *PreReq: BTT 159*

BUS 101 Introduction to Business   3
This course provides an introduction to business, including business organization and management, the financing of a business operation, the marketing of the product or service, the accounting of business transactions, and career information.

BUS 102 Personal Finance   3
This course is for non-business as well as business majors. The course is primarily concerned with the management of money from the viewpoint of the individual. Topics covered include the consumer's credit buying, borrowing, saving, and investments; purchase of insurance, real-estate, and other major items; the problem of taxation and wills; and controlling expenditures through the use of a budget.

BUS 103 Accounting I   3
This course will focus on the recording, classification, and analysis of economic transactions of the sole proprietorship form of business ownership. The student will analyze transactions, use journals and ledgers, prepare financial statements, and summarize results at the close of the fiscal period.

BUS102 Personal Finance   3
This course is for non-business as well as business majors. The course is primarily concerned with the management of money from the viewpoint of the individual. Topics covered include the consumer's credit buying, borrowing, saving, and investments; purchase of insurance, real-estate, and other major items; the problem of taxation and wills; and controlling expenditures through the use of a budget.

BUS 105 Accounting II   3
This course is a continuation of Accounting I. The focus of the course will be on recording, classification, and analysis of economic transactions of the corporation. Students will analyze transactions, use journals and ledgers, prepare financial statements, and summarize results at the close of the fiscal period. Students will be introduced to decision-making and financial analysis. *PreReq: A C or higher in BUS103*

BUS 108 Business Visitations   1
This course provides the opportunity to tour businesses. Owners or managers will host students and explain their business operations.

BUS 109 Applied Office Practice I   1
This course provides paid on-the-job training in an office setting.

*indicates a technical course

BUS 110 Records Management   3
This course provides instruction on how to manage records in an office setting. The course will cover methods of filing, including alphabetic, numeric, geographic, subject, and chronological, as well as cross-referencing and procedures for using requisitions, retrievals, charge-outs, and follow-ups. The course will also examine special equipment and supplies, micro-graphics, cycle creation, retention, transfer, and records safety, security, and disposal.

BUS 111 Applied Office Practice II   1
This course provides paid on-the-job training in an office setting.
PreReq: BUS 109

BUS 112 The Business of Personal Training   3
This course will provide a study of the entrepreneurial process specifically focused on the business of personal training. The course will cover topics such as opportunity recognition, entry strategies, market opportunities and marketing, business plan, financial projections, venture capital, financing, external assistance for startups and small businesses, legal and tax issues, intellectual property, franchising, and entrepreneurship economics.

BUS 113 Business English and Vocabulary   3
This course will cover the essentials of business writing and will focus on terminology, word choice, spelling, capitalization, punctuation, and effective sentence structure.

BUS 115 Business Math with Calculators   3
This course covers basic business math operations and focuses on the development of speed and accuracy on the calculator. The course will emphasize business and consumer applications using both mechanical and computerized 10-key calculators.

BUS 116 Introduction to Accounting   3
This course provides an introduction to the fundamental principles of accounting as applied to business enterprises. The entire accounting cycle is covered.

BUS 117 Computerized Accounting   3
This course provides an introduction to computerized accounting. The course will offer practical experience in establishing and maintaining accounting systems and records for single proprietorships and corporations. *PreReq: BUS 116 or permission*

BUS 120 Professional Development I   1
This course provides an introduction to the concepts of professional activities and behavior in business. The course will focus on attitude, work ethic, leadership, and communication.
PreReq: Permission

BUS 120A Professional Development II   1
This course provides an introduction to the concepts of professional activities and behavior in business. The course will focus on attitude, work ethic, leadership, and communication.
PreReq: Permission

BUS 120B Professional Development II   1
This course provides an introduction to the concepts of professional activities and behavior in business. The course will focus on attitude, work ethic, leadership, and communication.
PreReq: Permission

BUS 120C Professional Development IV   1
This course provides an introduction to the concepts of professional activities and behavior in business. The course will focus on attitude, work ethic, leadership, and communication. *PreReq: Permission*

BUS 123 Advanced Document Production   3
This course focuses on increasing straight copy speed and production rate for letters, business forms, tables, reports, and rough-draft copy that would be encountered in a business office setting.

BUS 125 Human Resources   3
This course will examine the development and role of human resources management in an organization. The course will focus on legal and ethical contexts, administration of wages and benefits, job design and analysis, performance management systems, and recruitment, hiring, and training.

BUS 126 Keyboarding   1
This course covers basic touch keyboarding skills for computer use.

BUS 127 Principles of Entrepreneurship I   3
This courses emphasizes the major issues confronting entrepreneurs and those in small business. It provides guidance regarding the legal considerations of which entrepreneurs should be aware when launching a new enterprise. It serves as a source and reference to those who either aspire or are currently active in the entrepreneurial world.

BUS 130 Microcomputer Applications I: Word Processing, Spreadsheet, Database, Presentation   3
This course is designed to provide practical knowledge and skill in using basic computer applications. The course will focus on problem solving with the use of word processing, spreadsheet, database management, and presentation software.

BUS 132 Microcomputer Applications I: Outlook   1
This course is designed to develop the desktop information management program skills needed in business, which include sending and receiving e-mail and managing messages, appointments, contacts, and tasks. Calendars will be shared with other users, and data stored within Outlook will be integrated to and from the other applications within the Microsoft Office suite.

BUS 133 Microcomputer Applications I: Spreadsheet   3
This course focuses on the mastery of spreadsheet concepts and applications utilizing the spreadsheet as a tool in the processing of information.

indicates a technical course

BUS 136 Microcomputer Applications I: Desktop Publishing 3
This course will focus on the production of publication-quality documents. Appropriate software will be used to combine text and graphics. The course will provide practice in creating, editing, formatting, laying out, and designing brochures, programs, flyers, advertisements, resumes, agendas, invitations, menus, letterheads, forms, booklets, and newsletters.

BUS 136A Microcomputer Applications I: Desktop Publishing 2
This course will focus on the production of publication-quality documents. Appropriate software will be used to combine text and graphics. The course will provide practice in creating, editing, formatting, laying out, and designing brochures, programs, flyers, advertisements, resumes, agendas, invitations, menus, letterheads, forms, booklets, and newsletters.

BUS 137 Microcomputer Applications I: Integrated Software 3
This course will focus on problem solving with the use of integrated software.

BUS 139 Microcomputer Applications I: Word Processing   3
This course is designed to provide students instruction on word processing concepts, systems, equipment, and career opportunities.

BUS 140 Microcomputer Applications II:
Word Processing, Spreadsheet, Database   3
This course provides advanced instruction in the use of word processing, spreadsheet, and database software. *PreReq: BUS 130*

BUS 151 Electronic Business Presentation   3
This course will focus on using presentation software to create organizational charts, business graphs, and other visual information materials. The course will also cover how to enhance presentations by using features such as animation, slides, templates, note pages, and transition effects.

BUS 181 Microcomputer Applications I: Word Processing 1
This course is designed to provide instruction in using word processing software. This course is not available for students who have already taken BUS 139.

BUS 182 Microcomputer Applications I: Database Management 1
This is an introductory course that will cover the basic functions to set up a database, enter and add data, edit entries, delete entries, find data, index and sort data, save a database, and print files. The main focus is on the combination of practical database design principles with hands-on experience in the computer laboratory.

BUS 183 Microcomputer Applications I: Spreadsheet   1
This course is designed to provide instruction in using spreadsheet software. This course is not available for students who have already taken BUS 133.

BUS 185 Microcomputer Applications I: Desktop Publishing 1
This course is designed to provide instruction in using desktop publishing software. This course is not available for students who have already taken BUS 136.

BUS 186 Microcomputer Applications I: Integrated Software 1
This course will focus on problem solving with the use of integrated software. This course is not available for students who have already taken BUS 137.

BUS 188 Microcomputer Applications I: Windows   1
This course is designed to introduce Microsoft Windows operating environment software.

BUS 189 Microcomputer Applications I: Electronic Business Presentation   1
This course is designed to provide instruction in using business presentation software. This course is not available for students who have already taken BUS 151.

BUS 191 Microcomputer Applications II: Word Processing 1
This course provides advanced instruction in the use of word processing software. This course is not available for students who have already taken BUS139. *PreReq: A C or higher in BUS 130 or BUS 181*

BUS 200 Financial Accounting   4
This course focuses on the basic accounting model, measurement processes, and data classifications essential to the interpretation and effective use of financial statements by shareholders, creditors, government auditors, and managers. The course will also emphasize the effective communication of financial information. *PreReq: BUS 116 or permission*

BUS 201 Principles of Management   3
This course is designed to provide a basic understanding of the field and techniques of management. The course will cover management and managers, scientific management, human relations in management, bureaucracy in management, contingency findings, the management of foreign operation, product management, and ethics and social concerns of managers.

BUS 203 Macroeconomics   3
This course provides a study of basic macroeconomic concepts, principles, and terminology. Attention is given to supply and demand, national income, unemployment, money and banking, international trade, and finance. *PreReq: MAT 100 or Assessment*

BUS 204 Microeconomics   3
This course provides a study of basic microeconomic theory applied to the analysis of prices, markets, production, profits, rents, interest, and wages. *PreReq: MAT 100*

BUS 205 Business Law   3
This course provides a basic study of law related to business. Emphasis will be on contracts, law of sales, negotiable instruments, consumer protection, and the Uniform Commercial Code (UCC).

BUS 209 Medical Procedures   3
This course covers duties and responsibilities of office employees in the medical office. The course will focus on oral and written

79

communications, medical vocabulary, medical forms, travel arrangements, filing, mail handling, business meetings, financial records, reprographics, public relations, establishing priorities, and organization work. *PreReq: BS 109*

BUS 210 Marketing 3
This course provides a study of the importance of marketing techniques to the success of modern organizations. The course will focus on the four basic elements of marketing: product, price, promotion, and place. Topics include the marketing concept, marketing research, consumer behavior, the product life cycle, channels of distribution, physical distribution, advertising, personal selling, pricing objectives and strategies, and social responsibilities of marketers.

BUS 213 Business Communications 3
This course covers both traditional and innovative communication skills. The primary focus will be on writing employment documents and business letters for specific situations. *PreReq: ENG 101*

BUS 216 Managerial Accounting 3
This course provides a study of materials, labor, overhead, budget administration, cost accounting systems, break-even analysis, accounting statement analysis, and return on investment as factors in management decisions. *PreReq: A C or higher in BUS 105 or BUS 200*

BUS 230 Principles of Entrepreneurship II 3
This course will provide a study of the basic entrepreneurial process. The course will cover opportunity recognition, entry strategies, market opportunities and marketing, creation of a successful business plan, financial projections, venture capital, debt and other forms of financing, external assistance for startups and small businesses, legal and tax issues, intellectual property, franchising, and entrepreneurship economics. *PreReq: BUS127, BUS103, BUS210, and BUS101 or BUS201, BUS 130*

BUS 245C   Electronic Communication: Internet 1
This course introduces Internet use and applications, such as e-mail, file transfer protocol, and the web.

BUS 245D Electronic Communications: Web Design 2
This course is designed to provide a basic understanding of the Internet and various software applications used with the Internet. The course will also cover basic web page design.

BUS 246A Microcomputer Applications I: Dreamweaver 3
This course is designed to provide an introduction to web site creation and design through the use of Adobe Dreamweaver software. Also covered will be how to use the Spry framework to create enhanced web site activities. The course will include adding media objects to web pages as well.

BUS 246B Microcomputer Applications I: FrontPage 3
This course focuses on the practical use of computer communication through web page design using Microsoft FrontPage software.

CAD 101* Technical Drawing I 4
This course teaches the basic concepts of drafting communication.

Subjects include line types, orthographic projections, sectioning, language, auxiliary views, pictorial drawings, and scale.

CAD 111* Operating Systems 4
This course provides the student with a basic understanding of computer terminology, operations, hardware, and software. An overview of word processing, spreadsheet, and database software related to the student's primary area will be explored.

CAD 122* Measurements 3
This course covers the basic principles of operations and scale, with emphasis on the order of operations. The course reviews the use of decimal and fractional operations and also covers the use of scales and how they are read and applied.

CAD 131* Computer Graphics I 5
This course is designed to provide students with a basic understanding of the uses and applications of computer drafting hardware and software. The course will also explore and develop drawing, editing, and coordinate input skills.

CAD 151* Technical Drawing II 4
This course is a continuation of Technical Drawing I and teaches the basic concepts of drafting communication. Subjects include line types, orthographic projections, sectioning, language, auxiliary views, pictorial drawings, and scale. *PreReq: CAD 101*

CAD 162* Word Processing 2
This course is designed to give the student a working knowledge and skill in the use of Microsoft Word software and how it can be applied to computer assisted drafting.

CAD 172* Algebra 2
This course covers the basic principles of algebra, including symbols, signs, equations, basic operations, proportions, and formulas. The course will focus on how these principles apply to graphic communications.

CAD 182* Computer Graphics II 5
This course is designed to provide students with an advanced understanding of the uses and applications of computer drafting hardware and software. The course will also explore and develop drawing, editing, and coordinate input skills. *PreReq: CAD 131*

CAD 201* Technical Drawing III 4
This course covers advanced concepts of drafting communication pertaining to mechanical engineering. Subjects include line types, orthographic projections, sectioning, language, auxiliary views, pictorial drawings, and scale. *PreReq: CAD 131*

CAD 211* Spreadsheets 3
This spreadsheet application course is designed to show students how to organize data, complete calculations, make decisions, graph data, and develop professional-looking worksheets. The course will also cover Microsoft Windows concepts and terminology.

*indicates a technical course

CAD 221* Geometry   **2**
This course covers the principles of basic geometric construction: lines, arcs, circles, angles, and the relationships between geometric forms. The course will focus how these principles apply to graphic construction.

CAD 232* Computer Graphics III   **5**
This advanced course will cover hardware, networking, and Internet concepts. The course will cover how to install hardware devices, interrupts, jumpers, and switches, as well as troubleshooting. Network protocol, operations, and concepts will also be covered. The course will also focus on accessing information on the Internet and using e-mail and news groups. *PreReq: CAD 182*

CAD 251* Technical Drawing IV   **4**
This course covers advanced concepts of drafting communication pertaining to mechanical engineering. Subjects include line types, orthographic projections, sectioning, language, auxiliary views, pictorial drawings, and scale. *PreReq: CAD 201*

CAD 261* Database   **4**
This database application course is designed to show students how to create, store, sort, and retrieve data. The course will also cover Microsoft Windows concepts and terminology.

CAD 271* Trigonometry   **2**
This course covers trigonometric functions, solution of triangles, vectors, and complex numbers. Application of trigonometric functions in the solution of triangles will be stressed.

CAD 282* Computer Graphics IV   **5**
This advanced course will cover hardware, networking, and Internet concepts. The course will cover how to install hardware devices, interrupts, jumpers, and switches, as well as troubleshooting. Network protocol, operations, and concepts will also be covered. The course will also focus on accessing information on the Internet and using e-mail and news groups. *PreReq: CAD 232*

CAD 295* Occupational Work Experience   **0**
Occupational Work Experiences are available to students who have completed at least 85% of their required course hours. This is an optional course for students wanting practical experience at local businesses or other approved sites.

CJ 100 Introduction To Criminal Justice   **3**
This is an introductory course in the field of criminal justice. The course will provide a short historical background of law enforcement, constitutional limits of law enforcement, 4th, 5th, 6th and 14th amendment safeguards, court room processes, and court processes from pre-arrest through verdict. This course will give students a general knowledge about the scope of crime, measurement of crime, and causes of crime.

CJ 105 Introduction to Corrections   **3**
This course is an introductory study of the entire field of corrections, beginning with conviction. The course will cover the sentencing grid from the state of Kansas, including mitigating and aggravating factors, post-conviction remedies, and appeal processes. Students will explore alternatives to confinement as well as probation and parole practices. There will be an emphasis on current trends in incarceration.

CJ 110 Fundamentals of Investigation   **3**
This course is designed to explore the fundamentals of criminal investigative techniques. While many investigative techniques remain relatively static, most are evolving due to technology, national databases, and applicability of basic medical practices. This course focuses specifically on major felony investigations with an emphasis on adherence to rigid crime scene protocols. *PreReq: CJ 100*

CJ 111 Forensic Investigation   **2**
This course focuses on laboratory investigations of forensic science, with an emphasis on the lab operations of criminal science. Topics will include detection of blood stains, blood typing and testing, hair analysis, drug detection, gunshot residue analysis, fingerprint analysis, virus spread within a population, and DNA fingerprinting. The course will use laboratory and computer simulations.

CJ 120 Juvenile Delinquency   **3**
This course is a contemporary approach to understanding the nature of juvenile delinquency. Students will examine the evolution of juvenile rights in America and juvenile court processes. The course will provide a balanced view of high risk factors for delinquency and prevention methods.

CJ 140 Police Patrol Procedures   **3**
This course is designed for students who want to have a career in law enforcement. Students will gain a fundamental understanding of the organization, management, and administration of law enforcement agencies. Basic police patrol procedures, including officer safety protocol, pursuit policies, arrest procedures, search and seizure processes, and a basic understanding of police report writings will be covered.

CJ 201 Criminal Law I   **3**
This course is designed to provide the student with a general understanding of American criminal law. Topics include principles of criminal law, principles of criminal liability, complicity, inchoate offenses, defenses, justifications, crimes against persons, crimes against property, and crimes against public order. Additionally, this course will cover basic rules of criminal procedure, including, but not limited to, constitutional aspects of criminal justice processes, pretrial processes, trials, sentencing, and appeals. *PreReq: CJ100 or permission*

CJ 205 Critical Issues In Law Enforcement   **3**
This course is designed to focus on several issues facing law enforcement today in terms of police response, mandatory arrest, and policy formation. These issues recognize the core of violence including domestic violence, child abuse/neglect, and elderly abuse. An overview of each system is provided as well as careful examination of the infrastructure and interrelationship between them. *PreReq: CJ100 or permission*

81

indicates a technical course

CJ 211 Penology and Corrections   3
This course provides a survey of correctional services and treatment. The course Includes philosophy, history, correctional models by type and function, institutional treatment, parole operations, community-based treatment, and special treatment programs.

CJ 220   Practicum in Administration of Justice   3
Students will participate in community administration of justice agencies to provide experience in the practical application of classroom instruction.

COL 103 College Success and Orientation   1
This course is an orientation to the world of college. The course will include preparation of an academic plan to obtain an associate degree in a selected major. The course will also cover curriculum structure, program design, college success skills, transferring to a four-year institution, decision making, and career planning. This course must be taken before registering for the 25th credit hour at HCC. Students who have already taken a similar course elsewhere or who are transferring more than 30 hours to HCC are not required to take this course.

COL 103A College Success and Orientation   1
This course is an orientation to the world of college. The course will include preparation of an academic plan to obtain an associate degree in a selected major. The course will also cover curriculum structure, program design, college success skills, transferring to a four-year institution, decision making, and career planning.

COL 162 Careers in Sports and Fitness   2
The purpose of this course is to make students aware of the variety of careers related to sports and fitness. The course will provide students a realistic look at personal abilities, level of commitment, and work ethic. The course will examine various sports and fitness careers as well as preparation, expectations, and employment opportunities. Guest speakers currently engaged in sports or fitness careers will also provide information and insight. The focus of the course is to help students make an informed choice and develop a plan to achieve personal goals in a sports or fitness career.

COL 170 Leadership Organization and Goals   0.5
This course will provide practical instruction and experience in student government and leadership. The course will cover leadership qualities, parliamentary procedures, time management, conflict resolution, budgeting, and team building. Students will be actively involved in student government, as well as fundraising, community projects, student activities, entertainment, and programs. This course is designed for individuals with little or no background in student government. *PreReq: Permission*

COL 180 Self Awareness for Young Adults   2
This course will emphasize personal and career growth and development by exploring the family of origin, developing insight and self-confidence, and making assertive life choices. We will focus on the individual's ability to find answers from within him/her self, as well as the development of the class as a group.

CRT 191* Certification Training Lab   3
This class is designed to give the second semester student supervised practice with computerized testing. Students will apply previously learned skills and concepts in preparation for the CompTIA A+ Examinations. Practice test banks will be used to simulate the exams. Students will take practice tests, review answers, research any incorrect answers, and research and obtain correct answers. The actual exams are scheduled when the student feels prepared for them.

CST 103* Operating Systems   2
This course provides instruction on the most commonly used major operating systems. Components covered will be installation, configuration, maintenance, file management, and batch files.

CST 105* Industrial Computer Applications   2
This is an introductory course appropriate for all technical and skilled trade students. This course is designed to provide computer familiarity, not proficiency. Industrial applications of computers will be stressed. Computer software, storage/input/output devices, and controls as they apply to industry will be explored. The course is competency based and will provide the student with experiences and demonstrations in keyboarding, Windows programs, word processing, spreadsheets, computer graphics, and e-mail. The student will learn the basic features and functions of the Internet, Outlook, Word, and Excel. The student will also learn about basic computer concepts and Internet skills.

CST 106* Networking Fundamentals: CCNA1   4
This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. It uses the Open System Interconnection (OSI) and Transmission Control Protocol (TCP) layered models to examine the nature and roles of protocols and services at the application, network, data link, and physical layers. The principles and structure of Internet Protocol (IP) addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. Labs use a "model Internet" to allow students to analyze real data without affecting production networks. Packet Tracer (PT) activities help students analyze protocol and network operation and build small networks in a simulated environment. This is the first class in a series of four offerings to prepare for the Cisco Certified Network Associate (CCNA) certification. *PreReq: Concurrent enroll in CST or CompTIA+ Certification*

CST 111* PC Fundamentals   3
This course is designed as an introduction to personal computer technology. The course will examine basic computer concepts, history of computers, terminology associated with computer technology, and basic hardware troubleshooting.

CST 122* Technical Writing   2
This course is designed to give students instruction on the organization and writing of technical documents, including proposals, business letters and memos, and technical reports.

indicates a technical course

CST 124* PC Troubleshooting Essentials   3
This course is intended to introduce the student to various computer components, business systems, and the basics of troubleshooting the Personal Computer (PC). Safety and proper tool usage will also be covered. The course will focus on the techniques used to isolate and resolve computer problems, multimedia technology, and input-output devices, including monitors and video cards. Instruction will also be given on basic electrical principles and PC power supplies.

CST 154* CompTIA A+ Essentials   3
This course is designed to give instruction on complex hardware installation as well as prevention and recovery of data loss. The course will also provide an introduction to telephone communications, printers, notebook PCs, virus infection, and data recovery.

CST 156* Integrated Applications   2
This course is designed to give instruction on the skills, tools, and information necessary to perform basic software applications used with microcomputers. The course will cover software applications for word processing, spreadsheet, database, presentation, and Web page development.

CST 158* CompTIA A+ Practical Applications   3
This course is designed to give instruction on how to troubleshoot and resolve operating system issues. The student will use tools within the operating systems as well as third-party software to resolve problems. This course will examine common operating system problems and problems specific to individual operating systems. The differences, advantages, and disadvantages of several Windows operating systems will be considered.

CST 159* CCNA2 : Routers and Routing   4
This course describes the architecture, components, and operation of routers, and explains the principles of routing and routing protocols. Students will analyze, configure, verify, and troubleshoot the primary routing protocols: Routing Information Protocol Version 1 (RIPv1), Routing Information Protocol Version 2 (RIPv2), Enhanced Interior Gateway Routing Protocol (EIGRP), and Open Shortest Path First (OSPF). The course will cover the recognition and correction of common routing issues and problems. The course includes a basic procedural lab, followed by basic configuration, implementation, and troubleshooting labs. Packet Tracer activities will reinforce concepts and allow students to model and analyze routing processes that may be difficult to visualize or understand. This is the second class in a series of four offerings to prepare for the Cisco Certified Network Associate (CCNA) certification. *PreReq: CST 106*

CST 201* Advanced Operating Systems   3
This course is designed to provide advanced instruction on the most commonly used operating systems. The course will cover installation and configuration of dual boot operating systems, system file configuration and editing, system files, and system conflict resolution.

CST 205* Advanced Integrated Applications   3
This course is designed to provide advanced instruction on how to use Microsoft Office for Windows 2007. The course covers Microsoft Word, Excel, Access, and PowerPoint, and will include desktop publishing, databases, spreadsheets, and integrated presentations. Simulated business problems will be used and students will create and maintain records, inquire, sort, search, and prepare reports.

CST 206* Programming   2
This course is designed to provide an introduction to computer programming. The course will cover basic programming skills such as form and menu creation, decision making, looping arrays and subroutines, and database interfacing. The course will introduce students to programming in a Windows environment using Visual Basic.

CST 207* Technical Support Lab I   2
This course is designed for second-year students who are enrolled in the Computer Support Technology and/or the A.A.S. Degree Program. The course will provide advanced classroom instruction as well as practical experience with service calls and help desk situations. Students will be repairing PCs and resolving networking problems during class time, working directly with instructors and students from other departments on campus. The course will also cover advanced techniques to develop and improve workplace skills.

CST 208* Network Operating Systems   2
This course provides an introduction to computer networking administration and maintenance. The course will examine typical network hardware, network architectures, data transmission, and popular network technologies as well as how communication layers and their protocols are used on a network. The course will also cover installing Novell NetWare, troubleshooting network problems, and ensuring the integrity and stability of a network.

CST 212* CCNA3: LAN Switching and Wireless   4
This course provides a comprehensive, theoretical, and practical approach to learning the technologies and protocols needed to design and implement a converged switched network. Students learn about the hierarchical network design model and how to select services for each layer. The course explains how to configure a switch for basic functionality and how to implement Virtual Local Area Networks (VLANs), VLAN Trunking Protocol (VTP), and Inter-VLAN routing in a converged network. The different implementations of Spanning Tree Protocol in a converged network are presented as well as how to implement a Wireless Local Area Network (WLAN) in a small-to-medium network. This is the third class in a series of four offerings to prepare for the Cisco Certified Network Associate (CCNA) certification. *PreReq: CST 106, CST 159*

CST 213* Network Operating Systems Lab   3
This course is an introduction to computer networking administration and maintenance. The course will examine typical network hardware, network architectures, data transmission, and popular network technologies as well as how communication layers and their protocols are used on a network. The course will also cover installing Windows Server and Linux Server, troubleshooting of network problems, and ensuring integrity and stability of a network.

83

*indicates a technical course

CST 214* CCNA4: WAN Technologies   4

This course is designed to provide a comprehensive understanding of how to design and implement Local Area Networks (LANs) and Wide Area Networks (WANs). The focus will be on the equipment and technologies used in LANs and WANs. This course covers the features and functions of these devices as well as the circumstances under which each device can be implemented. Cabling standards and appropriate design parameters for various types of media and topologies are included. This course introduces wireless technologies and a variety of high-speed Internet access options. The challenges involved in creating a network design that meets the needs of the users of today's LANs and WANs will be discussed. The course will feature hands-on projects and case projects that provide experience in using tools involved in network design and implementation. This is the fourth class in a series of four offerings to prepare for the Cisco Certified Network Associate (CCNA) certification. *PreReq: CST106, CST159, CST212*

CST 295* Occupational Work Experience   0

This course is designed to finish students' preparation for employment in the Information Technology industry. Students will complete a resume to present to potential employers and may also participate in on-the-job-training opportunities.

DSL 101* Shop Safety I   1

This course is designed to identify safety hazards associated with working around heavy equipment and to establish procedures that will prevent accidents.

DSL 111* Fundamentals of Operating Principles   4

This course covers the history of the diesel engine from invention to the present. The course will also focus on the differences and advantages of the diesel over other types of engines.

DSL 121* Engine Maintenance   2

This course provides instruction for standard DB, DB@ and DM pump disassemble inspection and overhaul. The course covers removal, installation, and timing procedures on the injection pumps, as well as test stand operation, pump installation on the test stand, and proper calibration of the injection pump.

DSL 132* Engine Overhaul   5

This course teaches the three major engine companies products. Training engines are provided for all classes to ensure the student's knowledge of troubleshooting maintenance, disassembly, overhaul, and reassembly techniques. Training is further enhanced by class discussion and visual media.

DSL 141* Welding & Fabrication Lab   2

This course includes basic principles and fundamentals of arc welding and acetylene cutting as applied to heavy equipment and diesel repairs. It also covers basic welding and acetylene safety.

DSL 152* Fuel Systems Diagnosis/Repair   4

This course teaches the operating of fuel systems used on most modern diesel engines, how they differ from one another, and service and adjustment of each system.

DSL 161* Introduction Electrical Diagnosis/Repair   4

This course of basic electrical systems on the diesel engine teaches troubleshooting and component testing using volt ohm meter and volt 33 tester.

DSL 171* Introduction to Clutch/Power Train   3

This course teaches disassembly, inspection, and troubleshooting of the three major types of clutch systems used by present engine manufacturers. The course also teaches installation techniques and adjustments.

DSL 182* Introduction to Hydraulics   3

This course gives a student a short introduction to hydraulic systems. It covers major component identifications, their functions and how each component operates in the system.

DSL 201* Shop Safety II   1

This course is continuation of Shop Safety I and is designed to identify safety hazards associated with working around heavy equipment and to establish procedures that will prevent accidents. Avoidance to actions that may result in damage to personal or equipment is stressed. *PreReq: DSL 101*

DSL 212* Advanced Engine Overhaul   3

This is an advanced training course in engine overhaul. Advanced training is provided to ensure the student's knowledge of troubleshooting maintenance, disassembly, overhaul, and reassembly techniques. *PreReq: DSL 132*

DSL 222* Advanced Electrical Diagnosis/Repair   5

Students will become proficient in the diagnosis and repair of electrical circuits including testing, repairing, and /or replacing of components. *PreReq: DSL 161*

DSL 232* Hydraulic Components Diagnosis/Repair   3

This course teaches the theory of both open and closed center hydraulic systems. It covers pump overhaul and testing procedures. It also covers the use of hydraulic flow meter and testing procedures.

DSL 251* Electronic Computer Diagnosis Repair   3

This course covers the study of the electrical and electronic control system used on diesel powered equipment. This course also teaches the student how to use service tools, system operations, monitoring attachments, fault codes, and injection timing sensor and actuator principles to diagnose computer related problems.

DSL 261* Air Conditioning Diagnosis/ Repair   3

This course covers refrigeration theory, operation, testing, and repair of air conditioning systems. Students will also discuss the use of refrigerant recovery methods.

*indicates a technical course

DSL 271* Brakes/Suspension Diagnosis/Repair   3
This course teaches troubleshooting disassembly, inspection and adjustment of both hydraulic and air brake systems with the advantages and disadvantages of both systems. The course also covers the two air systems, their components, and function in the brake system.

DSL 275* Diesel Management   3
This course introduces the concepts and principles of effective business management as they apply to diesel technology and includes forms of business ownership, typical business organizational structures, relationship of business to the community and the effect of government regulations on businesses.

DSL 281* Transmission Overhaul/ Diagnosis   3
This course covers standard DB, DB2 and DM pump disassemble inspection and overhaul. It teaches removal, installation, and timing procedures on the above injection pumps. This course also teaches test stand operation, pump installation on the test stand, and proper calibration of the injection pump.

DSL 291* Advanced Clutch/Power Train   3
Students will become proficient in the diagnosis and repair of power trains, clutches, transmissions, and differentials. *PreReq: DSL 171*

DSL 295* Occupational Work Experience   0
Occupational Work Experiences are available to student who have completed 85% of their required course hours. This is an optional course for diesel technology students who wish to gain further "real life" experiences at local businesses and/or approved sites.

ECH 100 Early Childhood Fundamentals   3
Students will develop baseline knowledge and skills needed to work with young children in an Early Care and Education Program in Northeast Kansas. Students will complete a Kansas Bureau of Investigation (KBI) background check and provide a copy of a current physical and TB test. Information covered will serve as the foundation for decisions and practices carried out by professionals in all settings and programs. Students set up their Child Development Associate (CDA) Professional Portfolio. In addition, students will identify the steps involved in preparing for National Child Development Association (CDA) credentialing. *PreReq: Students unable to pass the KBI inspection, the physical, and the TB test are unable to work with young children.*

ECH 101 Recognizing Child Abuse and Neglect   1
This course focuses on the categories of child abuse and neglect as well as the signs and symptoms of the various types of abuse and neglect. The course will cover appropriate responses to suspected abuse or neglect and what to do in the event of child disclosure. Kansas-mandated reporter laws are also discussed. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

ECH 102 Understanding Multiple Intelligences and Children's Learning Styles   1
This course will focus on Howard Gardner's theory of multiple intelligences and how different learning styles are affected by the environment, physiology, processing, emotions, and social choices. Practical information will be given on how to create educational environments by applying activities that use different learning styles. Students will also examine their own personal teaching style as applied to teaching multiple intelligences to a variety of students. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

ECH 103 Infant Toddler Creative Curriculum   3
This course will provide basic information about what professionals need to know and be able to do to provide quality care for infants and toddlers. The course will use the research-based Creative Curriculum model and will explore the integrated roles of the caregiver/teacher, the children, the families, and the community, using a strength-based model that defines developmentally appropriate practices for infants and toddlers and the role of the curriculum.

ECH 104 Preschool Creative Curriculum   3
This course will provide basic information about what professionals need to know and be able to do to provide quality care for preschool children. The course will use the research-based Creative Curriculum model and will explore the integrated roles of the caregiver/teacher, the children, the families, and the community, using a strength-based model that defines developmentally appropriate practices for preschoolers and the role of the curriculum.

ECH 105 Early Childhood Cultural Competency   1
This course will present general concepts about cultural competency when working with children and families. The course will examine cultural norms, values, codes of conduct, traditions, and child rearing practices of ethnic, cultural, and other groups served by programs. The course will also focus on assessment of individual or family behavior and how racism, sexism, ageism, homophobia, and other forms of discrimination can affect individual and family development and functioning. This course is instructor-led and interactive through discussions and assignments.

ECH 106 Understanding Children's Temperament   1
This course provides an overview of the nine temperament traits and the variety of influences on temperament styles. The course will discuss challenging temperaments, including flexible, fearful, and feisty styles. Students will assess a child's temperament as well as their own. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

ECH 107 Supporting Children's Learning Through Play   1
This course will examine the nature and characteristics of play and why play is important in a child's development. The course will cover the development domains and milestones that affect children's learning through play, as well as the social and cognitive stages of play and the behavior children exhibit in those stages. The course is instructor-led and interactive through discussions and assignments in course discussion boards.

85

indicates a technical course

ECH 108 Childhood Obesity and Good Nutrition   1
This course will examine the common reasons for childhood obesity and the complications of being overweight or obese. The course will focus on the new food pyramid, MyPlate, and will look at ways to encourage healthy eating habits and ways to integrate learning activities about healthy eating into daily routines. The course will also cover movement activities that encourage and support development and learning in children, as well as ways to share information on healthy eating and active living with parents and families. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

ECH 109 Bullying Prevention and Response   1
This course will examine types of bullying and consequences for bullying behaviors. The course will cover the dynamics of bullying behaviors and the roles of targets, bullies, and witnesses. Emphasis will be placed on intervention strategies for dealing with bullying behaviors, as well as strategies to prevent bullying behaviors. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

ECH 110 Early Childhood Functions I   3
This course is designed to provide the skills and knowledge for creating safe, healthy learning environments for infants, toddlers, and preschool age children. Individuals will also acquire the skills and knowledge associated with advancing physical and intellectual competence for those age groups. Creativity and communication are also explored. Students will learn how to ensure well-run programs. Students will achieve first aid/CPR certification. Student will conduct observation in an approved Early Care and Education Program in Northeast Kansas. Students will complete additional steps involved in preparing their Child Development Associate (CDA) professional Portfolio: *PreReq: ECH100*

ECH 111 Caring for Children with Special Needs   1
This course will examine child development milestones and how to recognize signs of early childhood delays. The course will cover guiding terms, as well as laws and principles regarding special needs, including common questions and answers for childcare providers. The course will focus on observation, assessment, documentation, communication with families, and resources available to families and caregivers. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

ECH 115 Early Childhood Function II   3
Students will learn ways to establish positive relationships with parents and families with young children. Students will identify areas of strength and areas for future professional growth as an Early Childhood Professional. Students will complete the final steps necessary for requesting national Child Development Associate (CDA) Credentialing. Students will conduct classroom observations and complete the Direst Assessment Application. They will compile data from a family questionnaire and write their Professional Philosophy Statement. *PreReq: ECH100, ECH110*

ECH 120 Family Child Care Administration   2
This course covers the management aspects of operating a family child care business. The course will focus on contracts, policies, legal issues, fee structure, collection, budgeting, cash flow, keeping records, taxes, and developing sound fiscal and management skills.

ECH 150 Creative Experiences   3
This course is designed for early childhood classroom practitioners. The course will focus on how to develop interesting and secure environments and activities that encourage play, exploration, learning, and creative expression.

ECH 160 Observing and Interacting with Young Children   3
This course is designed for practitioners who work with children and families. Students will develop skills for quality observation and documentation associated with young children. Ethical considerations and confidentiality are discussed. Students will conduct an in-depth child study. Students must identify a child and set up and conduct observations. Students will also conduct structured observations targeting specific developmental areas. Students will create a professional report illustrating the developmental level of the child. The child portfolio will include completed checklists, work samples, pictures, and interviews. *PreReq: ECH 100, ECH 110, ECH 115*

ECH 180 Early Childhood Literacy and Language Development 3
This course will prepare current or future early childhood teachers to enhance the early literacy outcomes of young children by improving teachers' knowledge of early literacy development. Students will develop an in-depth understanding of language development and acquisition. Students will acquire skills and knowledge in facilitating early literacy to young children, and how to involve parents and families in the process. *PreReq: 9 CR of Early Childhood*

ECH 182 Early Childhood CDA Renewal   3
This course is for students who have a current preschool or Infant/Toddler Child Development Associate (CDA) Credential and are interested in renewing their credential. Students will learn to act with specific goals in mind for all domains and children's development. This course provides specific ideas and strategies for interacting with children in key subject areas during both child-guided and adult-guided experiences. Students will complete all of the documentation and requirements for CDA renewal. *PreReq: A Valid Preschool or Infant/Toddler Child Development Association Credential @ CPR*

ECH 200 Program Planning and Development   3
This course will examine the administrative and curriculum demands in different types of early childhood education centers. Funding, budgeting, evaluating, hiring, planning, collecting fees, and writing reports are some of the topics that will be covered. The course will emphasize developing sound fiscal and program management skills with a focus on interpersonal relationships. *PreReq: ECH 100, ECH 110, ECH 115*

*indicates a technical course

ECH 202 Early Childhood Mentoring   3
This course is for the committed Early Childhood Professional. Early Childhood Professional Ethics and Standards will be infused throughout the course. Students ill reflect on their personal and professional growth and leadership skills. Understanding the role of the mentor, effective mentoring practices, and the mentor as a change agent will be explored. This course will provide individuals working in the Early Childhood field the basic foundation needed for developing mentoring relationships, especially those with apprentices. *PreReq: 12 hours of Early Childhood*

ECH 210 Family Involvement in Education   3
This course will provide a study of family involvement in education from an interdisciplinary approach. The course will cover history, current research, and diversity in families and will also present information, activities, and programs to enrich family-school partnerships and collaborations. *PreReq: ECH 100, ECH 110, ECH 115*

ECH 220 Principles of Inclusion   3
This course explorers the barriers to and influences on inclusive education settings for young children. Topics covered will include instructional strategies, individualized instruction, and family perceptions of inclusion, collaborative relationships among adults, classroom ecology, social policy, and cultural and linguistic diversity. *PreReq: ECH 100, ECH 160, or permission*

ECH 250 Early Childhood Practicum   3
This course is designed for students who are assuming teaching responsibility under guided supervision. Students must meet all state and national requirements for working in an Early Childhood facility. The purpose of the practicum is to put theory into practice. Students will spend 15 hours in classroom activities and 225 hours teaching in the Early Childhood classroom. The course will cover working with parents, classroom management, observation and assessment, values identification, trends and issues in Early Childhood, personal reflections, and educational philosophy. *PreReq: Permission*

ED 101 Pre-professional Lab I   1
This course is designed to provide an introductory hands-on experience for students majoring in education. The course will consist of direct experience observing a professional educator in the classroom as well as tutoring and participation in classroom activities. *PreReq: ED 110*

ED 102 Pre-professional Lab II   1
This course is a continuation of ED 101 and is designed to provide additional hands-on experience for students majoring in education. The course will consist of direct experience observing a professional educator in the classroom as well as tutoring and participation in classroom activities. *PreReq: Permission*

ED 110 Introduction to Education   3
This course will cover the historical and sociological development of American education, the role of public schools in American society, and the diverse nature of the American student population. The course will also look at professional opportunities in the field of education.

ELE 101* Electrical and General Safety   1
This course will present basic safety information for establishing a safe electrical working environment. The course will cover electrical and general safety practices needed during coursework and at construction sites. The course will provide hands-on instruction in the use and care of power tools, hand tools, special electrical trade tools, ladders, and other equipment.

ELE 110* Direct Current Fundamentals   1
This course will focus on basic direct current theory. The course will cover electron theory and Ohm's law and how they apply to direct current circuits. The course will also introduce series circuits and their equations, parallel circuits and their equations, and combination circuits and their equations.

ELE 111* Alternating Current Fundamentals   2
This course will examine the effects an alternating current has on circuits. The course will also cover the functions and properties of capacitors, inductors, resistors, and other circuit components.

ELE 121* Residential Construction Wiring and Maintenance   6
This course is an introduction to the field of residential wiring. The course will cover basic blueprint reading and construction of cable layouts as well applying code standards. The course will provide hands-on experience in the lab and on site.

ELE 122* Residential Wiring I   4
An introductory course on residential wiring methods that includes practical application hand-on experience in implementing National Electrical Code (NEC) requirements.

ELE 131* Commercial Construction Wiring and Design   6
This course provides an introduction to the high intensity lighting systems used in commercial and industrial locations. The course will examine types of structures, location, types of equipment, and requirements of the National Electrical Code. Emphasis will be on how to install, maintain, and troubleshoot each system. The course will cover the application of lighting systems appropriate to the construction site, as well as wiring methods such as conduit, cable trays, surface metal raceways, rigid non-metallic conduits, and others, depending on the commercial application.

ELE 132* Commercial Wiring I   4
An introductory course on commercial wiring methods that includes practical applications and hands-on experience in implementing code requirements. This course of instruction will introduce the student to an environment much different than that of residential construction. In commercial applications, students have to look at types of structures, location, types of equipment, and requirements of the National Electrical Code (NEC). The course introduces student to the high intensity lighting systems used in commercial and industrial locations. Students learn how to install, maintain, and troubleshoot each system. Students will also receive instruction on application of different lighting systems to suit the application

87

indicates a technical course

encountered. The course also provides instruction about wiring methods such as conduit, cable trays, surface metal raceways, rigid non-metallic conduits, and those of other wiring methods used to meet certain locations in commercial applications.

ELE 141* Journeyman Exam Preparation NEC I   1
The purpose of this course is to introduce the Block and Associates exam. The course focuses on the makeup of the tests, the best use of time, highlighting text in the code book, and many other helpful testing ideas. The course will also provide sample exams and explain how to identify weaknesses and areas needing improvement.

ELE 151* Industrial Construction Wiring and Design   6
This course will examine requirements and designs used for the industrial wiring environment. The course will focus on the study of transformers — single and three phases are begun — as well as connection of these systems and voltages found. The course will also provide an introduction to the requirements for plant automation.

ELE 161* Electric Motor Operation and Control   6
This course will begin a study of electrical motors and systems used to control their operation. The course will cover the fundamentals of single and three phase motors along with their operational characteristics. The course will also focus on the language of control, ladder diagram, logical operational sequences, connection control sequences, diagramming, and troubleshooting. Voltages and systems presented are those found in most industrial locations. The code ruling is used during this course.

ELE 172* Fundamentals of Programmable Logic Controllers 2
This course provides an introduction to programmable logic controllers (PLCs) and their industrial and commercial applications. The course will cover the fundamentals of operation, installation, and programming. *PreReq: This course is for students who have completed all the motor control requirements.*

ELE 181* Journeyman Exam Preparation NEC II   1
This course continues preparation for the Block and Associates exam. The course focuses on the makeup of the tests, the best use of time, highlighting text in the code book, and many other helpful testing ideas. The course will also provide sample exams and explain how to identify weaknesses and areas needing improvement. *PreReq: ELE 141*

ELE 195* Occupational Work Experience   0
Occupational Work Experiences are available to students who have completed at least 85% of their required course hours. This is an optional course for students wanting practical experience at local businesses or other approved sites.

ENG 095 Fundamentals of Reading & Writing   5
This course is designed to develop student proficiency in college reading and writing. In this course students will apply analytical and critical reading skills to a variety of texts and will develop skills in the writing process. In addition, students will gain skills in document design, researching, and documentation. Upon completion, students should be able to recognize and use various patterns of text organization and compose effective paragraphs and short essays. Students should also improve critical thinking, enlarge working vocabulary, improve reading skills, and increase reading speed. *PreReq: Assessment*

ENG 096 Fundamentals of Reading & Writing   3
This course is designed to develop student proficiency in college reading and writing. In this course students will apply critical thinking skills, critical reading skills, and writing skills to narrative and expository texts. In addition, students will develop skills in document design, researching, and documentation. Upon completion, students will be able to demonstrate effective skills in reading comprehension, analysis, and evaluation of college texts, as well as effective writing skills necessary to succeed in ENG 101 College English I and in the workforce. *PreReq: Assessment*

ENG 101 Composition I   3
This course provides instruction and practice in the principles of written composition. The major emphasis is on improving the ability to organize and express thoughts clearly and effectively. Students will be expected to write coherent essays that declare and support a thesis, as well as use and document research material. A reading text is used for criticism and discussion. This course is required for all degree programs. *PreReq: ENG 096 or assessment*

ENG 102 Composition II: Literature and Research   3
This is the second of a two-course sequence in college English composition. The course will continue to emphasize improving the ability to organize and express thoughts in clear, effective writing. The course will use literature study as a basis for improving and extending research, critical analysis, and writing skills. The forms, elements, and techniques of literature will be examined in terms of how literature affects readers. *PreReq: ENG 101*

ENG 103 Composition II: Rhetoric and Research   3
This is the second of a two-course sequence in college English composition. The course will continue to emphasize improving the ability to organize and express thoughts in clear, effective writing. The course will also place emphasis on writing practices/processes (pre-writing, drafting, revision) as well as reinforcement of rhetoric as the art of persuasion. Critical thinking skills are developed in many areas (identifying and understanding scholarly or credible sources, integrating others' perspectives into one's own argument, analyzing audience). *PreReq: ENG 101*

ENG 104 Intro to Literature   3
This course will enable the student to discuss and interpret representative English-language literary works in a variety of genres. The student will identify the use of literary elements; recognize relationships between writers, works, and socio-cultural contexts; and arrive at informed personal and critical interpretations. Various thematic approaches may be offered.

indicates a technical course

ENG 110 Technical Composition   3
This course focuses on using rhetorical writing methods applied to technical fields. Students will practice organizing technical subject matter and arranging and supporting writing with facts. Analysis and explanation, advocacy and argument, and academic and professional discourse will be explored. The course will also cover audience analysis. *PreReq: ENG 096 or assessment*

ENG 201 Advanced Composition   3
This course provides additional training in writing for individuals who have completed College English I and II. The course will focus on advanced rhetorical techniques, sentence structure, idea development, and writing style. *PreReq: ENG 101, ENG 102*

ENG 202 American Literature I   3
This course provides a survey of significant writers, works, and developments in American literature from around 1620 to 1885.

ENG 203 English Grammar   3
This course is designed to provide a comprehensive examination of English grammar and to serve as a foundation for further linguistic study. The course will provide an intensive study of grammar and the application of grammatical principles to composition, emphasizing a functional approach to both sentence structure and punctuation. This course is especially recommended for students majoring in the areas of language instruction or public communication, including English, ESL, foreign language, journalism, speech, theatre, radio, television, education, business, and pre-law. *PreReq: ENG 101*

ENG 205 Old Testament Literature   3
This course provides a survey of the Old Testament as a literary work. The course will emphasize literary characteristics and the cultural and historical contexts of various books of the Old Testament and Apocrypha.

ENG 207 Narrative Film   3
This course is designed to provide an introduction to the history and conventions of narrative film. The focus of the course will be on narrative form and film's story-telling techniques and capabilities. *PreReq: ENG 102*

ENG 208 Introduction to the Short Story   3
The purpose of this course is to provide a study of the literary genre of the short story, with emphasis on critical analysis and appreciation. The basic elements of short fiction, such as point of view, plot, character, and theme will be discussed and analyzed in terms of how they are applied in individual stories by major writers from various periods and countries. The purpose of such analysis will be to help students understand, appreciate, and enjoy more fully the reading of short fiction.

ENG 209 American Literature II   3
This course provides a survey of the significant writers, works, and developments in American literature from roughly 1865 to the present.

ENG 210 World Literature I   3
This course focuses on the scope of world literature with selections generally regarded as masterpieces. The time range represented by the selections is wide, roughly from 2000 BCE to 1650 CE.

ENG 211 World Literature II   3
This course focuses on the scope of world literature with selections generally regarded as masterpieces. The time range represented by the selections is wide, roughly from 1650 CE to the present.

ENG 212 English Literature I   3
This course provides a survey of the significant writers, works, and developments in English literature from the Middle Ages through the Eighteenth Century.

ENG 213 English Literature II   3
This course provides a survey of the significant writers, works, and developments in English literature from the Nineteenth Century Romantic writers through the Twentieth Century.

ENG 223 Creative Writing   3
This course is designed to give students an opportunity to write and develop skills in various genres of creative writing, such as fiction, poetry, and drama. Students may do some work in each area but will be able to focus on the genre of their choice. Basic elements of creative writing will be discussed, and students will work on several creative projects in a workshop format. In addition to the instructor providing evaluation and guidance, students themselves will be an audience for the writing done in the class and will give feedback, interaction, and critiques of other students' work.

ENO 116 Introduction to Enology   3
This introductory course is designed to provide students with an understanding of winemaking principles, including history, grape growing, chemistry, wine microorganisms, fermentation, and winery operations. It is intended for entrepreneurs to explore business opportunities and winery employees to gain career development. Coursework is expected to integrate lecture, discussion, guest presenters, and field trips to operating vineyards and wineries. Students will make wine at home from a kit, track fermentation, make various chemical measurements, and provide one bottle of finished wine at the conclusion of the course.

ENO 130 Intermediate Enology   3
This intermediate course is built on the fundamentals of science and technology in wine making practices taught in Introduction to Enology. During this course, students will understand how the whole wine making practice works and learn the scientific background for any decisions made during the process of wine making. At the completion of the course, students will understand wine making calculations necessary for accurate, precise, and safe additions to the wine. This class emphasizes the practical aspects to growing grapes and making wine. *PreReq: ENO 116*

ENO 148 Winery Sanitation   3
This is a course in the basic science and technology of winery sanitation. The course serves as an introduction to wine microbiology and covers all methods used for winery sanitation, including but not limited to premises, tanks, pumps, filters, oak barrels and sampling equipment, chemical agents, reagents, and thermal

89

indicates a technical course

treatments leading to sterile bottling. Environmental issues and compliance are also addressed. *PreReq: ENO 116 or permission*

ENO 160 Winery Equipment Operations 2
This course covers process technologies and process systems that are used in modern commercial wineries. The course will include lectures, demonstrations, and two-day workshops and will provide an overview of wine-making systems, including wine making operations and equipment, barrel aging and barrel management, membrane separation processes, specialized contacting systems, cleaning and sanitation systems, process control systems, refrigeration systems, air conditioning and humidity systems, electrical systems, waste water systems, solid waste handling, and work place safety. *PreReq: ENO 116 or permission*

ENO 210 Introduction to Wine Microorganisms 2
This course is an introduction to the variety of both beneficial and harmful microorganisms frequently encountered in the wine making process. Topics include identification, physiology, morphology, and biochemistry of various wine microorganisms. *PreReq: ENO 116 or permission*

ENO 257 Fall Winery Production Technology 3
This course is designed for the individual anticipating a career in the wine industry. This course (practicum) is designed to provide a student who has completed major course sequences with an intense level of practical and realistic winery operation experiences sufficient to equip him or her with sufficient skills and work experience for an entry-level position in the wine industry. Students involved in this program will participate in a full time Crush Season practicum at a supporting winery and are expected to use the time and opportunities to further their understanding of the wine making process and common winery operations. A minimum of 120 hours of field practicum are required along with a daily journal of practicum experiences. *PreReq: ENO 130, ENO 148, ENO 160, or permission*

ENO 259 Cellar Operation Technology 2
This course is designed to provide students initiated in the field of enology with actual and practical exposure to the technology of wine making as it is performed during the passive vineyard periods associated with winter. The student is expected to improve his/her understanding of the methods and science involved by on-site participation in each of the various activities associated with finished wine production. The course may qualify as experience for those seeking employment in commercial enology. A minimum of 80 hours of field practicum are required along with a daily journal of practicum experiences. *PreReq: ENO 257*

ENO 266 Sensory Evaluation 3
This course is intended for students who need to develop an understanding of the principles of sensory evaluation used in commercial wine making. It will also be of benefit to the wine enthusiast who is interested in reaching advanced levels of appreciation as well as to the producer, the wine merchant, and ultimately the enologist, who, by the nature of their profession, need to discern flavors and establish tasting benchmarks. Students will utilize sensory kits and

workshops to further their sensory evaluation skills and techniques. Students must be at least 21 years old to enroll in this class. *PreReq: ENO 116 or permission*

ENO 268 Wine and Must Analysis 3
This course is designed to provide students with an understanding of the principles of grape juice and wine analysis and the reasons for use of each analysis. Analyses of a practical and useful nature are chosen for the laboratory exercises demonstrating various chemical, physical and biochemical methods. Students will participate in workshops and hands-on experiences at participating wineries. *PreReq: ENO 116 and PS 107 or permission*

GEO 212 World Regional Geography 3
This course provides a general survey of the distinguishing geographic characteristics of the major regions of the world. Emphasis is placed on the physical, cultural, historic, and economic aspects of each region. The course is designed to meet the needs of students majoring in education, social science, or geography, as well as students interested in attaining a global perspective

HIS 101 United States History I 3
This course provides a survey of United States history from European beginnings through the Reconstruction period after the Civil War. The course considers the changing configurations of American culture and its modes of expression, religion, politics, and literature. Also covered arethe rise of the Federalists, the War of 1812, the emergence of the Jacksonian Movement, westward expansion, war with Mexico, and the Civil War. Special emphasis will be placed on economic, political, and social forces from colonial times to the Civil War.

HIS 102 United States History II 3
This course provides a survey of United States history from post-Civil War Reconstruction to the present. The course considers the changing configurations of American culture and its modes of expression, religion, politics, and literature. Emphasis will be placed on the changing role of the government in the lives of people and on the changing position of the United States in world affairs. The course will also cover the impact of industrialism, imperialism, two world wars, and the Cold War on the policies of the United States.

HIS 103 History of Western Civilization I 3
This course provides a survey of the development of western culture and institutions from the ancient world to the time of the European Renaissance and Reformation. The course will cover the civilizations of the Ancient Near East, Greece, and Rome, as well as the development of European nations from the early Middle Ages to the High Middle Ages. Emphasis will be on political, social, religious, and cultural life. The course will also cover the rise of Christianity and its importance from the end of the Roman Empire through the rise of European civilization in the Middle Ages.

*indicates a technical course

HIS 104 History of Western Civilization II   3
This course provides a survey of the history of Europe from the Reformation and Renaissance to the present. The spiritual, intellectual, social, political, and economic foundations will be covered, with emphasis on the religious wars of the 16th century, the Age of Absolutism of the 17th and 18th centuries, and the American and French Revolutions of the 18th century and the many European revolutions of the first half of the 19th century. The course will also cover the breakdown of order in the early 20th century which led to World War I and World War II, the aftermath of World War II, the Cold War, and the fall of the Soviet Union.

HIS 202 Introduction to Ancient History   3
This course provides a survey of the political, social, and economic development of Mesopotamia, Asia Minor, Greece, and Rome from the Paleolithic times to A.D. 500. The course will review the history of the ancient world from 5000 B.C. to the collapse of the Roman Empire. Emphasis will be placed on reviewing the similarities and differences between various cultures and civilizations. The course will also examine the influence the past has had on the modern world and the impact the ancient world has had on the way the modern world views the arts, government, education, religion and ethics.

HIS 204 Readings in Western Civilization I   3
This interdisciplinary course critically examines the ideas and values of Western culture from ancient beginnings in Mesopotamia, the Near East, Greece, and Rome through the Middle Ages, Renaissance, Reformation, and the beginning of the modern period.

HS 101 Introduction to Health Information   4
This course provides an introduction to health information management and healthcare delivery systems in the United States. The course will focus on the roles of health professionals, types of healthcare organizations, types and levels of healthcare delivery systems, healthcare governing bodies, content and structure of the health record, documentation requirements for health records in various healthcare settings to ensure clinical coders are familiar with basic health data structure, content and standards; healthcare delivery systems; and information technology and systems.

HS 103 Legal and Ethical Issues in Healthcare   3
This course introduces the U.S. legal system, laws, and ethical issues and how they relate to health care. Emphasis is placed on legal and compliance issues faced by clinical coders in the workplace setting.

HS 105 Insurance and Health Information Compliance   3
This course introduces the study of the uses of coded data and health information in reimbursement and payment systems appropriate to all healthcare settings and managed care. Topics will include contemporary prospective payment systems and key health plans, charge master maintenance, and evaluation of fraudulent billing practices.

HS 109 Pharmacology for Allied Health Professionals   3
This course introduces the principles of pharmacology, drug classifications, and the effects of selected medication on the human body. The course will cover drug classifications, use of generic name drugs, trade drugs, and drugs to treat various body systems. Emphasis is placed on understanding the actions of the drugs, such as absorption, distribution, metabolism, and excretion of drugs by the body, and matching drugs to common conditions and laboratory findings. This course does not meet the current requirements for nursing.

HS 110 Pathopharmacology for Health Science   4
This course is designed for the Health Science student to study diseases and disorders that affect the various body systems and the principles of pharmacology, drug classifications, and the effects of selected medication on the human body. This course will focus on diseases of each body system including cause, diagnosis, and treatment. Emphasis is also placed on understanding the actions of the drugs, such as absorption, distribution, metabolism, and excretion of drugs by the body, and matching drugs to common conditions and laboratory findings. This course does not meet the current requirements for nursing.

HS 112 Pathophysiology for Allied Health Professionals   3
This course is designed for the Allied Health student to study diseases and disorders that affect the various body systems. This course will focus on diseases of each body system including cause, diagnosis, and treatment. This course does not meet the current requirements for nursing. *PreReq: A C or higher in BS 104, BS 105 and BS 109*

HS 115 International Classification of Disease (ICD) Coding I 3
This course helps the student develop an understanding of coding and classification systems in order to assign valid diagnostic and/or procedure codes. It will include the validation of coded clinical information, and case mix/severity of illness data. The course will focus on basic diagnosis coding skill and guidelines associated with International Classification of Diseases, Clinical Modification (ICD-CM). *PreReq: A C or higher in BS 104, BS 105, and BS 109*

HS 118 Current Procedural Terminology (CPT) Coding I   3
This course helps the student develop an understanding of coding and classification systems in order to assign valid diagnostic and/or procedure codes. It will include the validation of coded clinical information, and case mix/severity of illness data. The course will focus on basic diagnosis coding skills and guidelines associated with Current Procedural Terminology (CPT) and Healthcare Common Procedure Coding System (HCPCS). *PreReq: A C or higher in BS 104, BS 105, and BS 109*

**HS 120 Healthcare Computer Applications and
Electronic Encoder   3**
This course is designed for the Health Science student to study diseases and disorders that affect the various body systems and the principles of pharmacology, drug classifications, and the effects of selected medication on the human body. This course will focus on diseases of each body system including cause, diagnosis, and treatment. Emphasis is also placed on understanding the actions of the drugs, such as absorption, distribution, metabolism, and excretion of drugs by the body, and matching drugs to common

91

indicates a technical course

conditions and laboratory findings. This course does not meet the current requirements for nursing. *PreReq: BUS 130*

HS 125 International Classification of Disease (ICD)   3
International Classification of Disease (ICD) Procedural Coding Systems This course helps the student develop an understanding of coding and classification systems in order to assign valid diagnostic and/or procedure codes. It will include the validation of coded clinical information, and case mix/severity of illness data. The course will focus on diagnosis coding skill and guidelines associated with International Classification of Diseases Procedural Coding System (ICD/PCS). *PreReq: A C or higher in HS 115 or permission (ICD/PCS).*

HS 130 Reimbursement Methodologies (Physician)   3
Study the uses of coded data and health information in reimbursement and payment systems appropriate to all healthcare settings and managed care. Includes contemporary prospective payment systems and key health plans, charge-master maintenance, and evaluation of fraudulent billing practices.

**HS 210 International Classification of Disease ICD)
Coding II   3**
This course helps the student develop an understanding of coding and classification systems in order to assign valid diagnostic and/or procedure codes. It will include the validation of coded clinical information and case mix/severity of illness data. The course will focus on more advanced diagnosis coding skills and guidelines associated with International Classification of Diseases, Clinical Modification (ICD-CM). *PreReq: A C or higher in HS 115*

HS 218 Current Procedural Terminology (CPT) Coding II   3
This course helps the student develop an understanding of coding and classification systems in order to assign valid diagnostic and/or procedure codes. It will include the validation of coded clinical information and case mix/severity of illness data. The course will focus on more advanced diagnosis coding skills and guidelines associated with Current Procedural Terminology (CPT) and Healthcare Common Procedure Coding System (HCPCS). *PreReq: A C or higher in HS 118*

HS 225 Healthcare Coding Practicum   3
To provide the student with coding practices in a hospital, physician's office, clinical, or other healthcare setting, with directed projects common to a clinical coding specialist on the job. This course will reinforce skills developed in the medical coding program and provide an opportunity to perform these skills in the workplace. *PreReq: Permission*

HVA 101* Occupational Safety   1
This course is designed to provide students with an appreciation and basic understanding of the safety rules and regulations that govern the construction industry. Students will also learn and apply safe work habits and the use of hand and power tools as well as the handling use and application of hazardous materials.

HVA 102* Blueprint Reading/Sketching   2
This course will introduce students to a basic set of house plans, including the plan views, elevations, framing, wall section, and details. Students will be able to read these prints and sketch details and layouts of specific items that relate to their occupational area.

HVA 103* Hand/Power Tools   1
This course will introduce students to the various hand and power tools used in the construction industry, specifically related to those in the HVAC occupational area. The correct and safe use of hand and power tools will be emphasized. Students will be required to pass a written and performance safety test on all power equipment used in their program area.

HVA 106* Technical Math   2
This course is designed to provide students a review of the basic principles of math, which include whole numbers, common and decimal fractions, ratio proportions and percent algebra, the metric system, and basic geometric shapes and graphs.

HVA 110* Theory of Refrigeration   3
This course in refrigeration is designed to include how mechanical refrigeration operates. This includes the following: heat and heat flow, temperature measurement, pressure and state of matter, as well as the laws of refrigeration.

HVA 115* Electrical Magnetic Fundamentals   3
"This course covers generating electricity, types of electricity, direct and alternating current circuit fundamentals, magnetism, and electrical components.

HVA 121* Domestic Refrigeration   3
This course includes terminology associated with domestic refrigeration, identification of types of domestic refrigeration, location of data plates, and their purpose. Also covered will be sealed system components, what their functions are and how they operate, as well as locating and solving programs in a domestic refrigeration system in a safe manner.

HVA 126* Plumbing I   3
This course is designed to provide an understanding of the plumbing system of a structure including water supply distribution pipes; fixtures and fixture traps; soil, waste and vent pipes; building drains and building sewers; storm water drainage and their devices; appurtenances and connections within the building and outside the building within the property lines. All plumbing is taught to specifications of the Uniform Plumbing Code.

HVA 136* Electric Circuits & Controls   3
This course includes electric control circuits in ladder diagram and pictorial form. Also covered will be icemaker diagrams, comfort cooling controls, central air-conditioning controls, pressure motor controls, motor safety controls, defrost controls, and humidity controls. *PreReq: HVA 115*

*indicates a technical course

HVA 145* Sheet Metal   3
This course introduces the student to pattern development and fabrication of fittings used in the heating/air conditioning industry. Installation in a sage and proper manner is covered.

HVA 156* AC Heating & Cooling   3
This course covers terminology associated with heating and humidification. Heating equipment covered will include; gas heating systems, hydraulic heating, electric heating, and oil heating. In addition, humidification will be covered. Also covered. *PreReq: HVA 136*

HVA 170* AC Control Systems   3
This course is designed to help students to understand the operation of the control systems in heating and cooling equipment as well as heat pump control systems. Sequence of operation of the controls will be covered. *PreReq: HVA 156*

HVA 175* Commercial Refrigeration   3
This course includes the study of condensing units, condensers, refrigerant controls, evaporators, and other components used in commercial refrigeration systems, as well as diagnosing, testing, servicing and repair of commercial equipment. Safety for the technician, customer, and equipment is also covered.

HVA 181* Plumbing II   3
This course is a continuation of Plumbing I dealing with the development of technical skills and knowledge of the trade. *PreReq: HVA 126*

HVA 195* Occupational Work Experience   0
Occupational Work Experiences are available to students who have completed 85% of their required course hours. This is an optional course for HVAC technology students who wish to gain further "real life" experiences.

IDS 110 Contemporary Issues in Sustainability   3
This interdisciplinary course is designed to introduce students to diverse global perspectives and practical personal solutions related to long-term sustainability. The course focuses on the impact personal and professional decisions have on the global condition and how those decisions can support the objectives of sustainability: economic viability, environmental integrity, and social equity. Topics covered will include energy, food, land use, water, air, waste, housing, personal health, and community. Instruction will be provided by a team of faculty, staff, and practitioners of sustainable living.

IDS 120 Introduction to Leadership Concepts   3
This interdisciplinary course is designed to introduce students to the academic discipline of leadership. The course focuses on the study of leadership development through the examination of leadership theory and research, identity development, self-awareness, awareness of others and the application of leadership theories, concepts, and skills.

IDS 130 Culture and Context   3
This interdisciplinary leadership course is designed to discover and examine personal cultural identity from a values based perspective. The course will focus on strategies and skills needed to analyze intercultural experiences, events, and dilemmas. The concepts of power and privilege will be discussed as psychological constructs operating across all cultures and contexts. *PreReq: IDS 120 and sophomore standing.*

IWT 105* Welding Safety   1
This course will provide information on safety issues, equipment, and procedures in the field of industrial welding. The course will cover job and site hazards, safety precautions, personal protective equipment, procedures, and practices. Fire prevention techniques will also be covered.

IWT 115* Cutting Processes   3
This course will cover the cutting equipment and processes used in the welding trade. The course will include set up, operation, and shut down of various cutting equipment. Safety and inspection for quality will be emphasized.

IWT 125* Shielded Metal Arc Welding   3
This course will provide instruction and experience in the Shielded Metal Arc Welding (SMAW) process. The course will cover setting up the SMAW workstation, electrode classification, selection, and use, welding, and inspection.

IWT 135* Gas Metal Arc Welding   3
This course will provide instruction and experience in the Gas Metal Arc Welding (GMAW) process. The course will cover setting up the GMAW workstation, electrode classification, selection, and use, welding, and inspection.

IWT 145* Gas Tungsten Arc Welding   3
This course will provide instruction and experience in the Gas Tungsten Arc Welding (GTAW) process. The course will cover setting up the GTAW workstation, electrode classification, selection, and use, welding, and inspection.

IWT 162* Blueprint Reading   4
This course will provide an introduction to reading blueprints related to industrial welding. The course will cover basic lines, views, and abbreviations, as well as interpretation of basic 3-D sketches. The course will also include applicable mathematical operations, measuring, scale ratios, identification of welding joints and symbols, and interpreting a bill of materials.

IWT 175* Shielded Metal Arc Welding II   5
This course will continue instruction and experience in Shielded Metal Arc Welding (SMAW). The course will cover safety issues, equipment repairs, setting up a complete SMAW system, operation of equipment, surface repairs, groove welds, and thickness qualification tests. *PreReq: IWT 125*

93

indicates a technical course

IWT 180* Gas Metal Arc Welding II   5
This course will continue instruction and experience in Gas Metal Arc Welding (GMAW). The course will cover safety issues, equipment repairs, setting up a complete GMAW system, operation of equipment, surface repairs, groove welds, and thickness qualification tests. *PreReq: IWT 135*

IWT 185* Gas Tungsten Arc Welding II   5
This course will continue instruction and experience in the Gas Tungsten Arc Welding (GTAW) process. The course will cover safety issues, equipment repairs, setting up a complete GTAW system, operation of equipment, surface repairs, 5G welds, and qualification tests. *PreReq: IWT 145*

IWT 190* Blueprint Reading II   3
This course will continue instruction and experience in blueprint reading related to industrial welding. *PreReq: IWT 162*

IWT 195* Occupational Work Experience   0
Occupational work experiences are available to students who have completed 85% of their required course hours. This is an optional course for welding students who wish to gain practical experience at local businesses and industries or other approved sites.

LG 100 Conversational Spanish   2
This course emphasizes the development of basic Spanish communications skills through practice in listening, speaking, reading, and writing. It is designed to introduce students to skills necessary for casual conversation and career specific situations.

LG 101 Spanish I   5
This course covers the fundamentals of Spanish pronunciation, vocabulary building, conjugation of the present tense, and introduction of two past tenses. The course will provide practice in understanding and speaking simple phrases, elementary reading and writing, and some study of the culture of people in countries where Spanish is spoken.

LG 102 Spanish II   5
This course builds on Spanish I and provides continued emphasis on pronunciation, vocabulary building, speaking, and understanding modern Spanish. Focus will be on elementary reading and basic writing skills as well as the study of the culture of Latin America and Spain. Review of the present tense is continued. The course will introduce the preterite tense and irregulars, the future, conditional, and perfect tenses, and subjunctive-introduction to present. Direct and indirect object pronouns, reflexive pronouns, command forms, sequencing, and storytelling will also be covered. *PreReq: LG 101*

LG 105 American Sign Language   3
This course offers a basic study of American Sign Language (ASL), the language used by the deaf community in the United States. The course covers the fundamentals of ASL grammar, vocabulary, finger spelling, numbers, visual-gestural communication, and information related to deaf culture.

LG 106 American Sign Language II   3
This course continues study begun in LG 105 and will focus on continued development of American Sign Language (ASL) skills, concentrating on comprehension and production. The course will also provide information about the linguistic and cultural features relevant to language learning.

LG 201 Spanish III   3
This course builds on Spanish II and provides continued emphasis on pronunciation, vocabulary building, speaking, and understanding modern Spanish. Focus will be on intermediate listening, speaking, reading, and writing skills, using a variety of tenses and moods, as well as the continued study of the culture of Latin America and Spain. Expanded review and practice using the present, preterite, imperfect, future, and conditional tenses and the imperative, indicative, and subjunctive moods will be continued. Sequencing and storytelling will also be continued. Por and para, comparatives and superlatives, prepositions, and the subjunctive in noun, adjective, and adverbial clauses will be covered and incorporated in the demonstration of appropriate interpretation and response to Spanish language input. *PreReq: LG 102 or permission*

LS 102 Children`s Literature   3
This course is designed to introduce students to the field of children's literature. The course will cover the theories, history, and types of children's literature. Emphasis will be on giving students the ability to evaluate and select appropriate literature for various ages of children. The course is recommended for elementary education and library science majors, and at some institutions, is a requirement for those majors. Course material, however, will be broad enough to accommodate anyone with an interest in the field of children's literature.

M 101 Music Fundamentals   3
This course covers the basics of music, including symbols, rhythm, and scale construction. The course also introduces reading and dictation in two or three parts, the minor modes and chromatics, eye and ear study through the simple modulations, and transpositions.

M 103 Music History and Appreciation   3
This course provides an introduction to music as an art form. The course will cover the basic elements of music and historically significant style periods and composers. The course will also emphasize the concept of music as self-expression.

M 105 Applied Keyboard I   1
This course offers private lessons on piano and/or electronic keyboard for music majors or non-music majors interested in developing their skills. *PreReq: Permission*

M 106 Applied Keyboard II   1
This course offers private lessons on piano and/or electronic keyboard for music majors or non-music majors interested in developing their skills. *PreReq: M 105 or permission*

94

indicates a technical course

M 107 Applied Music I (Vocal) 1
This course offers private lessons for students interested in developing vocal performance skills.

M 108 Applied Music II (Vocal) 1
This course offers private lessons for students interested in developing vocal performance skills. *PreReq: M 107*

M 111 Applied Music I (Instrumental) 1
This course provides private lessons on primary instruments for music majors or non-music majors interested in developing their skills. *PreReq: Permission*

M 112 Applied Music II (Instrumental) 1
This course provides private lessons on primary instruments for music majors or non-music majors interested in developing their skills. *PreReq: M 111 or permission*

M 113 Vocal Ensemble - Lads and Lassies I 1
This course is designed for both music majors and other students interested in performing with a stage vocal ensemble that features various styles of music along with choreography and props. The ensemble also travels within the College service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and ensemble music skills. *PreReq: Permission*

M 114 Vocal Ensemble - Lads and Lassies II 1
This course is designed for both music majors and other students interested in performing with a stage vocal ensemble that features various styles of music along with choreography and props. The ensemble also travels within the College service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and ensemble music skills. *PreReq: Permission*

M 115 Chorus I 1
This course is designed for both music majors and other students interested in performing with a stage vocal chorus that features various styles of music along with choreography and props. The chorus also travels within the College service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and choral music skills.

M 116 Chorus II 1
This course is designed for both music majors and other students interested in performing with a stage vocal chorus that features various styles of music along with choreography and props. The chorus also travels within the College service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and choral music skills. *PreReq: M 115*

M 119 Wind Ensemble I 1
This course is designed for both music majors and other students interested in performing with a wind and percussion ensemble. The course provides opportunities for musical self-expression and continued development of individual and ensemble music skills.

M 120 Wind Ensemble II 1
This course is designed for both music majors and other students interested in performing with a wind and percussion ensemble. The course provides opportunities for musical self-expression and continued development of individual and ensemble music skills. *PreReq: M 119*

M 130 Pep Band I 1
This course is for both music majors and other students interested in performing with a pep band at home football and basketball games. The course offers opportunities for musical self-expression while providing a service for the College's athletic community.

M 131 Pep Band II 1
This course is for both music majors and other students interested in performing with a pep band at home football and basketball games. The course offers additional opportunities for musical self-expression while providing a service for the College's athletic community. *PreReq: M 130*

M 135 Aural Skills I 2
This course provides an aural study of melodies, intervals, harmonies, rhythms, and meters. *CoReq: M 200*

M 145 Aural Skills II 2
This course provides additional aural study of melodies, intervals, harmonies, rhythms, and meters. *CoReq: M 201, M 135*

M 152 Opera Production I 1
This course is designed for dance and music students and others interested in participating in a stage vocal and dance ensemble that prepares and performs the role of the chorus with a professional opera company. The course provides opportunities for artistic self-expression and continued development of individual and ensemble skills, while offering exposure to the performance arts as a profession. *PreReq: Permission*

M 153 Opera Production II 1
This course is designed for dance and music students and others interested in participating in a stage vocal and dance ensemble that prepares and performs the role of the chorus with a professional opera company. The course provides opportunities for artistic self-expression and continued development of individual and ensemble skills, while offering exposure to the performance arts as a profession. *PreReq: M 152 and permission*

M 154 Group Piano I 1
This course is designed to develop functional keyboard skills needed in the music classroom or for personal enjoyment.

M 155 Group Piano II 1
This course is designed to develop intermediate keyboard skills needed in the music classroom or for personal improvement and enjoyment. *PreReq: M 154*

M 162 Introduction to World Music 3
This course will provide an introduction to music across the world. The basic elements of music and musical style from specific

95

regions will be studied. The course will also emphasize music as self-expression.

M 200 Music Theory I   3
This course will provide a study of the harmonic systems used in musical composition from approximately 1650 to 1900, including mastery of scales, keys, intervals, rhythms, and basic triads. The course will cover simple four-part writing, triad inversions, non-chord tones, secondary chords, and dominant seventh chords. Students will also analyze chorales, hymns, and representative literature from recognized style periods. *CoReq: M 135 PreReq: A C or higher in M 101 or permission*

M 201 Music Theory II   3
This course will provide more advanced study of the harmonic systems used in musical composition from approximately 1650 to 1900, including mastery of scales, keys, intervals, rhythms, and basic triads. The course will cover simple four-part writing, triad inversions, non-chord tones, secondary chords, and dominant seventh chords. Students will also analyze chorales, hymns, and representative literature from recognized style periods. *PreReq: A C or higher in M 200 CoReq: M 145*

M 205 Pep Band III   1
This course is for both music majors and other students interested in performing with a pep band at home football and basketball games. The course offers additional opportunities for musical self-expression while providing a service for the College's athletic community. *PreReq: M 131*

M 206 Pep Band IV   1
This course is for both music majors and other students interested in performing with a pep band at home football and basketball games. The course offers additional opportunities for musical self-expression while providing a service for the College's athletic community. *PreReq: M 205*

M 207 Applied Music III (Vocal)   1
This course offers private lessons for students interested in developing vocal performance skills. *PreReq: M 108*

M 208 Applied Music IV (Vocal)   1
This course offers private lessons for students interested in developing vocal performance skills. *PreReq: M 207*

M 211 Applied Music III (Instrumental) 1
This course provides private lessons on primary instruments for music majors or non-music majors interested in developing their skills. *PreReq: M 112 or permission*

M 212 Applied Music IV (Instrumental)   1
This course provides private lessons on primary instruments for music majors or non-music majors interested in developing their skills. *PreReq: M 211 or permission*

M 213 Vocal Ensemble - Lads and Lassies III   1
This course is designed for both music majors and other students interested in performing with a stage vocal ensemble that features various styles of music along with choreography and props. The ensemble also travels within the college service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and ensemble music skills. *PreReq: Permission*

M 214 Vocal Ensemble - Lads and Lassies IV   1
This course is designed for both music majors and other students interested in performing with a stage vocal ensemble that features various styles of music along with choreography and props. The ensemble also travels within the college service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and ensemble music skills. *PreReq: Permission*

M 215 Chorus III   1
This course is designed for both music majors and other students interested in performing with a stage vocal chorus that features various styles of music along with choreography and props. The chorus also travels within the College service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and choral music skills. *PreReq: M 116*

M 216 Chorus IV   1
This course is designed for both music majors and other students interested in performing with a stage vocal chorus that features various styles of music along with choreography and props. The chorus also travels within the College service area to perform. This course provides an opportunity for musical self-expression and continued development of individual and choral music skills. *PreReq: M 215*

M 219 Wind Ensemble III   1
This course is designed for both music majors and other students interested in performing with a wind and percussion ensemble. The course provides opportunities for musical self-expression and continued development of individual and ensemble music skills. *PreReq: M 120*

M 220 Wind Ensemble IV   1
This course is designed for both music majors and other students interested in performing with a wind and percussion ensemble. The course provides opportunities for musical self-expression and continued development of individual and ensemble music skills. *PreReq: M 219*

M 223 History of Jazz   3
This course provides a listening-based approach to the evolutionary development of America's unique jazz art form. The course will cover the American roots of jazz and its early figures, the development of various jazz styles, significant jazz musicians, and the place of jazz in modern music.

indicates a technical course

M 225 Applied Keyboard III   **1**
This course offers private lessons on piano and/or electronic keyboard for music majors or non-music majors interested in developing their skills. *PreReq: M 106 and permission*

M 226 Applied Keyboard IV   **1**
This course offers private lessons on piano and/or electronic keyboard for music majors or non-music majors interested in developing their skills. *PreReq: M 225 and permission*

M 229 Aural Skills III   **2**
This course provides aural study of melodies, intervals, harmonies, rhythms, and meters. *PreReq: A C or higher in M 145, CoReq: M 233*

M 230 Aural Skills IV   **2**
This course provides aural study of melodies, intervals, harmonies, rhythms, and meters. *PreReq: A C or higher in M 229, CoReq: M 234*

M 233 Music Theory III   **3**
This course continues work with harmony and composition. The course will also introduce the use of 20th century techniques with melody, rhythm, form, and harmony. *PreReq: A C or higher in M 201, CoReq: M 229*

M 234 Music Theory IV   **3**
This course continues work with harmony and composition. The course will also introduce the use of 20th century techniques with melody, rhythm, form, and harmony. *PreReq: A C or higher in M 233, CoReq: M 230*

M 252 Opera Production III   **1**
This course is designed for dance and music students and others interested in participating in a stage vocal and dance ensemble that prepares and performs the role of the chorus with a professional opera company. The course provides opportunities for artistic self-expression and continued development of individual and ensemble skills, while offering exposure to the performance arts as a profession. *PreReq: M 153 and permission*

M 253 Opera Production IV   **1**
This course is designed for dance and music students and others interested in participating in a stage vocal and dance ensemble that prepares and performs the role of the chorus with a professional opera company. The course provides opportunities for artistic self-expression and continued development of individual and ensemble skills, while offering exposure to the performance arts as a profession. *PreReq: M 252 and permission*

MAT 090 Fundamentals of Math   **3**
Fundamentals of Math precedes the algebra sequence of courses. This course is designed to develop skills in the four fundamental mathematical operations using whole numbers, fractions, decimal fractions, ratio, proportion, and percent. Business and consumer applications are also included. If time permits, applied geometry and an introduction to algebra will be included.

MAT 100 Beginning Algebra   **3**
This course focuses on basic algebra fundamentals and is designed to prepare students for the Intermediate Algebra course. *PreReq: MAT 090 or assessment*

MAT 102 Technical Math   **3**
Technical math focuses on measurement, algebraic operations, formulas, geometry, and basic statistics, scientific notation, number systems, algebra (equations and formulas, factoring, and systems), geometry, and trigonometry. These concepts are supported by practical applications to a variety of career and technical vocations, including manufacturing, automotive, allied health, welding, building trades, and heating, ventilation, air conditioning, and plumbing*: MAT 090 or assessment*

MAT 103 Intermediate Algebra   **3**
Intermediate Algebra is a thorough study of the fundamental laws of algebra, including adding, subtracting, multiplying, dividing, factoring, and simplifying polynomial, rational, and radical expressions. The course also will cover solving linear, quadratic, rational, and radical equations, including non-real complex solutions, as well as solving linear, compound, and absolute value inequalities. In addition, graphing linear equations, inequalities, and quadratic functions, solving systems of two equations in two variables, and using function notation will be covered, as well as applications of many of these algebraic concepts. Other topics will be included as time permits. A scientific calculator is required for this course. *PreReq: MAT 100 or assessment*

MAT 104 College Algebra   **3**
College Algebra is a comprehensive study of the fundamental laws of algebra, including exponents, linear and quadratic equations, polynomial and rational inequalities, system of equations, radicals and radical equations, functions and graphing, polynomials and polynomial equations, modeling, logarithms, complex numbers, augmented matrices, determinants, and regression. The course will provide analysis of graphs and linear systems in two or three variables, as well as applications of most of the topics listed above and others as time permits. A graphing calculator is required for this course. *PreReq: MAT 103 or assessment*

MAT 105 Trigonometry   **3**
College Trigonometry includes the study of circular functions and their graphs, working with the right triangle, unit circle, inverse circular functions, identities, conditional equations, the Law of Sines, the Law of Cosines, and other topics as time permits. *PreReq: MAT 104 or assessment*

MAT 106 Calculus I   **5**
Calculus I is the first in a three-semester sequence of calculus courses. This course consists of the study of algebraic functions of one variable, the use of modern technology to enhance calculus knowledge, limits including the study of L'Hopital's Rule, differentiation and its various techniques, definite and indefinite integrals, including integration by substitution and logarithmic functions, and applications of the derivative and definite integral in geometry, science, engineer-

97

indicates a technical course

ing, business, medicine, and other fields. Other topics will be covered as time permits. *PreReq: MAT 105 or assessment*

MAT 107 General Calculus and Linear Algebra   3

General Calculus is an introduction to calculus and linear algebra concepts that are particularly useful in the study of economic and business administration. This course consists of the study of algebraic functions of both one and several variables, the use of modern technology to enhance calculus knowledge, differentiation and partial differentiation and their various techniques and applications to business such as marginal analysis and optimization including Lagrange Multipliers. Other topics may be covered as time permits. *PreReq: MAT 104*

MAT 108 Topics in Contemporary Mathematics   3

This course is designed to develop problem-solving skills by studying a wide range of contemporary applications of mathematics and to develop an appreciation of what mathematics is and how it is used today. The main goal of the course is to give an introduction to the power and variety of mathematical techniques that are available to an educated member of society. Some of the great ideas of mathematics and how they can be used in everyday life will be explored, including but not limited to: set theory, logic and syllogisms, graph theory, number theory, algebraic models, modeling systems for both linear equations and inequalities, voting methodology, consumer mathematics, and descriptive statistics. *This course does not satisfy the graduation requirements for an Associate in Science degree. PreReq: MAT 103 or assessment*

MAT 110 Calculus II   5

Calculus II is the second in a three-semester sequence of calculus courses. This course consists of working with logarithms and other exponential functions, hyperbolic functions, inverse and hyperbolic trigonometric functions, numerous integration techniques including using tables, integration by parts, substitutions, partial fractions, improper integrals, continued work with L'Hopital's rule, sequences and series, convergence and comparison tests, using formulas to estimate integrals, and differential equations. The course also covers calculus involving three-dimensional space, vector operations including the dot product, projections, the cross product, parametric equations of lines, and three-dimensional plane operations with quadric surfaces, as well as selected topics in analytic geometry as time permits. *PreReq: MAT 106*

MAT 201 Calculus III   5

Calculus III is the final course in the three-semester sequence of calculus courses. This course is designed to prepare students to be successful in Differential Equations, Vector Analysis, Statics, Dynamics, and other upper-level mathematics, science, and engineering courses. The course consists of a thorough study of polar coordinates and parametric equations, vector analysis in calculus problems, vector-valued functions, partial derivatives, centroids, directional derivatives, gradients, and multiple integrals including double integrals, triple integrals, changing variables involving polar coordinates, center of mass and moments of inertia, and many applications. In addition, there will be a thorough study of multiple

integrals and their applications, including in cylindrical and spherical coordinates and change of variables using Jacobians. Topics from the field of vector analysis, such as vector fields, line integrals, Green's Theorem applications, surface integrals including applications and flux, and the use of matrices in various operations will also be covered. *PreReq: MAT 110*

MAT 202 Differential Equations   3

This course covers standard types of ordinary differential equations of first and second order, linear equations, solutions by series, and application to geometry and physical science. *PreReq: MAT 201*

MAT 203 Basic Statistics   3

This course is an introductory study of the fundamentals of modern statistics and probability. The main topics covered include descriptive methods, inductive statistics, probability, estimation, and tests of hypotheses, along with other topics as time allows. *PreReq: MAT 104*

MOA 109* Emergency Preparedness   1

This course is designed to provide health care professionals with an orientation for their possible future roles in disaster response. Focus will be on the importance of staying within the scope of practice of the profession. The course will also cover being prepared to meet the expectations of their employers, volunteering effectively, and being confident and safe responders.

MOA 110* Administrative Aspects I   3

This course covers the administrative skills needed as a health care team member, including effective telephone techniques, scheduling patients for appointments, management of facilities, records management, and use of office equipment.

MOA 113* Clinical Internship I   2

This course provides practical experience in the Medical Office Assistant field by working in various medical arenas.

MOA 114* Patient Care I   4

This course focuses on the application of skills learned in the classroom and lab in the internship. The course also introduces the basics of patient care, including Medical Asepsis and Infection Control, preparing a patient for examination, acquiring vital signs, and assisting the physician with patient exams.

MOA 121* Principles of Pharmacology   3

This course presents topics essential for a thorough understanding of drug sources, legislation relating to drugs, drug references and forms of drugs, drug classifications and actions, the medication order, and basic principles.

*indicates a technical course

MOA 123* Insurance Billing and Coding 3
This course covers a wide range of medical insurance topics, including types of health insurance, types of coverage, claims processing, abstracting from medical records, and current issues in medical insurance.

MOA 125* Medical Terminology 3
This course defines prefixes, suffixes, and roots used to compose medical terms. The course will cover spelling, pronunciation, definitions, and interpretation of terminology related to body structure, disease, diagnosis, and treatment.

MOA 128* Body Structure and Functions 3
This course examines the complexities of human structure and function. The course emphasizes how tissues, organs, and body systems work together to carry out complex activities such as eating, learning and responding to stress, and interaction with other structures of the body.

MOA 133* Administrative Aspects II 3
This course covers the administrative skills needed as a health care team member managing specialized patient appointment scheduling, electronic medical records, and referrals. The course also examines the financial responsibilities of medical office assistants relating to posting of charges and payments and balancing of day sheets. *PreReq: MOA 110*

MOA 134* Patient Care II 3
This course introduces cast application and removal, performing EKG's, and patient teaching. The course also covers how to prepare and administer various forms of medication. *PreReq: MOA 114*

MOA 135* Clinical Internship II 2
This course provides practical experience in the Medical Office Assistant field by working in various medical arenas. *PreReq: MOA 113*

MOA 136* Clinical Laboratory Procedures 4
This course addresses the role and function of the professional in the clinical laboratory setting. Topics include safety, Clinical Laboratory Improvement Act of 1988 (CLIA), government regulations, and quality assurance in the laboratory. The course examines concepts and procedures in different departments of the laboratory, including specimen collection and performance of CLIA 88 low and/or moderate complexity testing.

MOA 137* Professional Issues 2
This course focuses on the basic concept of professional practice of medicine and the role and function of the medical assistant. The course examines personal and professional characteristics and legal and ethical standards for medical assistants, explores professional and personal therapeutic communication, and addresses time management and goal setting.

MOA 295* Occupational Work Experience 0
This experience is designed to provide the student with purposeful occupational experience in the Medical Office Assistant field. Each experience is individualized. A training plan is created for each student in conjunction with the training site to provide experience related to the skills and knowledge acquired in the program. Students must have completed 85% of their required course hours, be in good standing, and have instructor and administration approval.

MT 111 Introduction to Media Technology 3
This course concentrates on the advanced applications of various media technologies used in a creative way to produce the College yearbook.

MT 112 Media Technology I 3
This course is a continuation of MT 111. It concentrates on the advanced applications of various media technologies used in a creative way to produce the College yearbook.

MT 113 Media Technology II 3
This course is a continuation of MT 111 and MT 112. This course is a continuation of MT 112. It concentrates on the advanced applications of various media technologies used in a creative way to produce the College yearbook. *PreReq: MT 113 and permission*

MT 114 Media Technology III 3
This course is a continuation of MT 113. It concentrates on the advanced applications of various media technologies used in a creative way to produce the College yearbook. *PreReq: MT 113 and permission*

NET 125* Introduction to Net+ 3
This course will introduce the various networking concepts and technologies for students interested in becoming network administrators. Safety and proper tool usage will be reinforced. Key topics include protocols, topologies, hardware, client and server configuration, network services, and network security. In addition, the course will provide hands-on experience in configuration, troubleshooting, and maintenance of networks.

NET 195* Certification Training Lab NET+ 3
This course is designed to give the second semester student supervised practice with computerized testing. Students will apply previously learned skills and concepts in preparation for the CompTIA Network+ Examination. Practice test banks will be used to simulate the exams. Students will take practice tests, review answers, research incorrect answers, and obtain correct answers. The actual exam is scheduled when the student feels prepared for it.

NUR 103* PN Success 3
This course provides an orientation to the Practical Nursing program. The course includes math for medication administration, basic computer use, and strategies to learn and test well.

NUR 106* Foundations of Nursing KSPN 4
This course utilizes the nursing standards of practice based on principles of biology, psychosocial, spiritual and cultural to meet the needs of clients throughout the lifespan. Emphasis is placed on basic nursing skills, patient safety and therapeutic communication. Concepts and skills are enhanced in subsequent courses.

indicates a technical course

NUR 117* Pharmacology KSPN   4
This course introduces the principles of pharmacology and drug classifications. The course also covers the effects of selected medication on the human body. The nursing process is used as the framework for ensuring safe and effective nursing care for clients across the lifespan. *PreReq: NUR 103*

NUR 122* Medical Surgical Nursing I KSPN   4
This course focuses on the effect of disorders of selected systems throughout the lifespan and applies the nursing process in meeting basic needs. Health promotion and maintenance, rehabilitation, and continuity of care are emphasized. The role of the practical nurse is incorporated throughout. *PreReq: NUR 106, NUR 126*

NUR 126* Foundations of Nursing Clinical I KSPN   2
This clinical course explores the art and science of nursing. The course will focus on the nursing process, cultural and spiritual awareness, communication, data collection, performance of basic nursing skills, and documentation. The course will also introduce the principles of safe medication administration.

NUR 127* Medical-Surgical Nursing I Clinical KSPN   3
This course provides practical experience in simulated and actual care situations dealing with selected systems throughout the lifespan. The course will use acute and long-term care settings and will focus on critical thinking and clinical decision-making skills, principles of leadership for the practical nurse, and multi-task management skills for transition as a practical nurse. Note: Medication administration competency evaluations in NUR 126 must be passed in order to dispense and administer medications in this clinical experience. *PreReq: NUR 106, NUR 126*

NUR 130* IV Therapy for LPN   3
This course is designed to prepare the LPN to start, maintain, troubleshoot, and discontinue intravenous infusions safely and in accordance with Kansas statute and regulations. The course consists of online learning, 10 hours on-site clinical experience, and two hours on site for the final written exam. The course is also appropriate for RNs wanting to learn basic IV therapy or to refresh their skills. HCC Technical Center is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering is approved for 32 contact hours applicable for LPN relicensure or 20 contact hours for RNs. Kansas State Board of Nursing Provider: available upon request.

NUR 150* Gerontology KSPN   2
This course explores issues related to the aging adult using the nursing process as the organizing framework. The course also examines the impact of ageism, alterations in physiological and psychosocial functioning, and the role of the practical nurse in caring for older adult clients.

NUR 156* Mental Health Nursing KSPN   2
This course explores basic concepts and trends in mental health nursing as well as therapeutic modalities and client behavior management. The course will emphasize the nursing process and meeting the basic human needs of the mental health client.

NUR 157* Maternal Child Nursing KSPN   2
This course focuses on pre-natal and post-natal maternal nursing care, as well as the care of children from infancy to adolescence. The course emphasizes normal reproduction and frequently occurring biological, cultural, spiritual, and psychosocial needs of the child-bearing and child-rearing family.

NUR 159* Medical-Surgical Nursing II KSPN   4
This course focuses on the effect of disorders of selected systems throughout the lifespan and applies the nursing process in meeting basic needs. Prevention, rehabilitation, and continuity of care are emphasized. The role of the practical nurse is incorporated throughout.

NUR 162* Critical Thinking in Nursing   2
This course focuses on developing a deeper understanding of the nursing process and critical thinking in the work environment. The course will present scenarios, case studies, practice tests, and ATI test performance.

NUR 163* Nursing Leadership & Management   2
This course focuses on the skills needed to set and meet goals within a nursing workplace setting, including management, delegation, evaluation, and time and resource management within the scope of practice of the LPN in Kansas. Legal and ethical standards are also presented as guides to behaviors of the nurse.

NUR 168* Maternal Child Nursing Clinical KSPN   1
This clinical course applies concepts from Maternal Child I. Emphasis is placed on the nursing process and meeting the basic needs of the maternal child client.

NUR 170* Medical-Surgical Nursing II Clinical KSPN   3
This experience uses simulated and actual care situations of selected systems throughout the lifespan, utilizing acute ADN long-term care settings. An emphasis is placed on critical thinking and clinical decision-making skill development. Principles of leadership for the practical nurse will be implemented, as well as multi-task management skills for transition as a practical nurse.

NUR 172* Clinical Simulations   1
This clinical course uses both moderate and high fidelity manikins in a variety of clinical situations designed to give students a safe environment to test clinical understanding and competence.

NUR 201 Certified Nurse Aide   6
This course is based on the Kansas Department of Health and Environment (KDHE) Certified Nurse Aide Curriculum Guidelines (90 Hours) and prepares individuals to take the state certification exam. The course focuses on the responsibilities of the nurse aide working as a member of the health team in caring for residents of long term care facilities. The course includes basic anatomy and physiology, communication skills, measurement of vital signs, and procedures to help meet the hygiene, nutrition, and rehabilitation needs of older individuals. Students who successfully complete this course and pass the state exam will be qualified to become a practicing Kansas Certified Nurse Aide (CNA). *PreReq: Permission*

*indicates a technical course

NUR 202 Certified Medication Aide   **5**
This course is based on the Kansas Department of Health and Environment (KDHE) Medication Aide Curriculum and prepares individuals to take the state certification exam. The course focuses on the responsibilities associated with medication administration, including drug dosage calculations. Students who successfully complete this course and pass the state exam will be qualified to become a practicing Kansas Certified Medication Aide (CMA). *PreReq: Kansas Certified Nurse Aide*

NUR 203 Certified Medication Aide Certification Update I   **1**
Provides continued certification for the Certified Medication Aide. *PreReq: Permission*

NUR 206 Social Service Designee   **3**
This course prepares the individual for the role of Social Services Designee in an adult care facility. The course examines the impact of aging changes on the psychosocial and physical needs of long-term care residents. The course also covers the specific responsibilities and functions of the Social Services Designee with residents and as a member of the healthcare team. *PreReq: Permission*

NUR 220* LPN to RN Transition   **1**
This course prepares the licensed practical nurse to perform as a registered nurse by expanding the LPN knowledge base and exploring the scope of practice of the RN. The course begins with a review of nursing process, communication, client teaching, and critical thinking. Also covered are the philosophy of associate degree nursing as well as the philosophy and objectives of the LPN to RN completion program. The scope and the standards of practice for the professional RN are stressed. In addition, the results of entrance testing provide a blueprint for the LPN student to use for content review and remediation. *PreReq: Admission to LPN to RN*

NUR 225* Health Assessment & Advanced Nursing Skills   **4**
The course provides the framework for preparing students to perform comprehensive health assessments. Emphasis is placed on taking a thorough nursing history, performing physiological, psychological, sociological, cultural, and spiritual assessments. Laboratory experiences provide an opportunity to practice assessment and perform a head to toe assessment at a prescribed competency level. This course will also develop student skills in relation to advanced nursing skills needed to provide patient-centered care to patients with complex and multisystem disorders. *PreReq: Admission to LPN to RN*

NUR 230* Advanced Medical-Surgical Nursing   **6**
This course focuses on the care of adult and older patients with complex medical/surgical health alterations. Emphasis is placed on helping patients and their families cope with alterations in body functions. Concepts pf pharmacology and parenteral therapy, health promotion and education, evidence-based practice, and inter-professional collaboration will be integrated throughout the course. Intermediate and complex clinical skills, as well as priority setting, clinical judgment, and tenets of legal and ethical practice are integrated throughout the course. Emphasis is placed on enhancing time management, organizational, and priority-setting skills when providing care to patients with multiple needs. Clinical experiences provide the student an opportunity to apply theoretical concepts and implement safe, quality care to patients. *PreReq: Admission to LPN to RN*

NUR 235* Advanced Mental Health Nursing   **3**
This course focuses on the care of patients across the lifespan experiencing cognitive, mental, and behavioral disorders. Emphasis is placed on management of patients facing emotional and psychological stressors as well as promoting and maintaining the mental health of individuals and families. Concepts of crisis interventions, therapeutic communication, anger management, and coping skills are integrated throughout the course. The community as a site for care and support services is addressed. Clinical experiences provide the student an opportunity to apply theoretical concepts and implement safe patient care to patients in selected mental health settings. *PreReq: Admission to LPN to RN*

NUR 235* Advanced Mental Health Nursing   **3**
This combined lecture/discussion and clinical course focuses on the client need for care and support in times of stress, crisis, and acute or chronic mental illness. The course will explore selected mental illnesses and their treatment modalities, care for clients with dependencies (substance and non-substance), care for clients in crisis and care for clients and families experiencing end of life. Critical thinking, nursing process, caring, therapeutic communication and documentation, and teaching/learning are integrated throughout the course.

NUR 240* Nurse as Manager of Care   **2**
This online course focuses on the principles of management used in professional nursing. The course covers client and staff safety as well as legal and ethical issues pertaining to management. Also covered are topics in delegation, client, time, and resource management, evaluation, patient teaching, and communication skills with a multidisciplinary health care team. This course addresses program outcomes 4, 5, and 6. *PreReq: NUR 220, NUR 225, NUR 230, NUR 235, NUR 245*

NUR 245* High Risk Maternal-Child Nursing   **2**
This lecture/discussion course provides content needed for the registered nurse to care for the high-risk maternal, newborn, and pediatric client not covered in the basic LPN curriculum. The nursing process, developmental age, communication, and pharmacology are integrated into this course. *PreReq: NUR 220, NUR 225, NUR 230, NUR 235*

NUR 250* Professional Nursing Practicum   **4**
This clinical course is the capstone course for the LPN to RN Completion program. Students will demonstrate novice competency as a professional nurse by managing and providing care for a culturally, economically, medically, developmentally, and socially diverse clientele in a variety of clinical settings. Students will develop and implement plans of care using critical thinking and the nursing process, employ therapeutic communication, support physiologic and psychosocial integrity, and promote a safe environment for clients. *PreReq: NUR 220, NUR 235, NUR 230, NUR 225, NUR 240, NUR 245*

101

indicates a technical course

PE 103 Volleyball (WVA)   1
This course is for women participating in volleyball at the collegiate level. The course is designed to improve skill and knowledge in all areas of volleyball.

PE 104 Basketball (WVA)   1
This course is for women participating in basketball at the collegiate level. The course is designed to improve skill and knowledge in all areas of basketball.

PE 105 Football (MVA)   1
This course is for men participating in football at the collegiate level. The course is designed to improve skill and knowledge in all areas of football.

PE 106 Basketball (MVA)   1
This course is for men participating in basketball at the collegiate level. The course is designed to improve skill and knowledge in all areas of basketball.

PE 107 Dance Team I   1
This performance class is specifically for members of the Classy Lassies dance group, which represents the College at athletic events and school activities. Auditions are required for admission. The course emphasizes development of technical and choreographic skills for performance.

PE 108 Dance Team II   1
This performance class is specifically for members of the Classy Lassies dance group, which represents the college at athletic events and school activities. Auditions are required for admission. The course emphasizes development of technical and choreographic skills for performance. *PreReq: PE 107*

PE 109 PE for Elementary Teachers   3
This course for prospective elementary teachers examines the practice of organized play activity. The course includes a study of the meaning of play, values of supervised play, and selection of games and activities. The course will also cover writing objectives and making lesson plans, unit plans, and a yearly plan. Different styles of teaching and how to evaluate programs and students will also be covered.

PE 110 Rules and Officiating I   2
This course covers how to officiate the sports of football and volleyball. The course will examine rules and the development of officiating philosophies as a basis for judgment and decision making.

PE 111 History and Principals of PE   3
This course focuses on the historical development and foundation areas of physical education in America.

PE 112 Personal and Community Health   3
This course provides an overview of the physical, mental, emotional, social, and spiritual components of health that affect the whole human being. The course will include an introduction to the interdependency and relationships between such topics as mental/emotional health, drug use, drug misuse, drug abuse, physical fitness, nutrition, consumer health, human sexuality, death and dying, community health, environmental health, and diseases.

PE 113 First Aid and Safety   3
This course focuses on identifying and eliminating potentially hazardous conditions in various situations, recognizing emergencies, and making appropriate decisions for first aid care. The course covers the knowledge and skills that people in the workplace need to give immediate care to an ill or injured person until more advanced medical care arrives.

PE 114 Track (WVA)   1
This course is for women participating in track and field at the collegiate level. The course is designed to improve skill and knowledge in all areas of track and field.

PE 115 Softball (WVA)   1
This course is for women participating in softball at the collegiate level. The course is designed to improve skill and knowledge in all areas of softball.

PE 116 Track (MVA)   1
This course is for men participating in track and field at the collegiate level. The course is designed to improve skill and knowledge in all areas of track and field.

PE 117 Baseball (MVA)   1
This course is for men participating in baseball at the collegiate level. The course is designed to improve skill and knowledge in all areas of baseball.

PE 118 Cross Country I (MVA)   1
This course is for men participating in cross country at the collegiate level. The course is designed to improve skill and knowledge in all areas of cross country.

PE 119 Tennis   1
This course covers the basic skills, fundamentals, knowledge of the rules, and strategies of the game of tennis.

PE 121 Volleyball I   1
This course is designed to provide instruction in the basic skills of volleyball, including the forearm pass, overhead set, spike, and overhand serve. Elementary offenses and defenses will also be covered in the course.

PE 122 Archery   1
This course provides the basic skills, fundamentals, and general information about the leisure sport of archery. The course will introduce the skills, general rules, safety, and techniques related to the sport of archery, with emphasis on acquisition of skills.

*indicates a technical course

PE 123 Introduction to Physical Education   3
This course provides a study of the historical background, philosophy, and principles of the field of physical education. The course will also offer some practical experience in this area.

PE 124 Weightlifting I   1
This course offers an individualized weightlifting program designed to improve physical health, well-being, and strength.

PE 125 Introduction to Recreation   3
This course is designed for the student interested in a career in recreation. Various recreational activities are included in this class along with opportunities for practical experience. The student is also given the opportunity to work in a recreational setting in the community.

PE 126 Physical Fitness Management   1
This course is designed to provide each student the opportunity to develop the knowledge and skills essential for maintaining a fitness lifestyle.

PE 127 Cheerleading I   1
This performance course is for members of the College spirit group of cheerleaders, yell leaders, and mascots. The course emphasizes the development of physical and technical skills, including jumps, stunts, cheers, chants, conditioning, and safety for performing at athletic events and other school activities.

PE 128 Cheerleading II   1
This performance course is for members of the College spirit group of cheerleaders, yell leaders, and mascots. The course emphasizes the development of physical and technical skills, including jumps, stunts, cheers, chants, conditioning, and safety for performing at athletic events and other school activities. *PreReq: PE 127*

PE 129 Basketball I   1
This course is designed to develop skills fundamental to playing basketball. The course will focus on strategies that are necessary for team play.

PE 134 Golf   1
This course will cover the history, rules, fundamental techniques, proper use of the clubs, and courtesies of the game of golf.

PE 135 Running Awareness   1
This course covers the proper mechanics of running and training, exercise benefits, fitness programs, warm-ups, and cool downs. The course will also emphasize cardiovascular fitness.

PE 136 Baseball Conditioning I   1
This course is designed to improve individual physical strength and endurance through a strength program and conditioning drills. Enrollment is limited to those enrolled in activities courses such as baseball and softball.

PE 137 Basketball Conditioning I - Men   1
This course provides weight training and conditioning for the men's basketball program. Enrollment is limited to those enrolled in basketball activity courses.

PE 138 Basketball Conditioning I - Women   1
This course provides weight training and conditioning for the women's basketball program. Enrollment is limited to those enrolled in basketball activity courses.

PE 139 Lifetime Fitness   2
This course is designed to provide an individual exercise and fitness evaluation and program. The course will focus on how to develop and maintain a fitness lifestyle.

PE 139A Lifetime Fitness   3
This course is designed to provide each student pursuing the field of personal fitness training with the knowledge to build an individual exercise program, including cardiovascular, strength, and flexibility, essential for maintaining a fitness lifestyle. The course will also cover nutrition, weight management, and body composition. This course is part of an Applied Science Degree program and offers preparation for the National Council of Strength and Fitness personal trainer exam. *PreReq: Permission*

PE 140 Advanced Weightlifting and Conditioning   1
This course provides an individualized program to improve health, well-being, and strength through weightlifting, conditioning drills, and agility drills.

PE 141 PE for Men   1
This course focuses on improving strength and overall fitness through exercise. The course will demonstrate how to apply exercises to improve fitness.

PE 143 Introduction to Athletic Training I   3
This course provides an overview of the athletic training profession and the field of sports medicine. The course will cover the different aspects of an athletic trainer's job and provide an opportunities for practical experience and observation in this field.

PE 147 Cross Country I (WVA)   1
This course is for women participating in cross country at the collegiate level. The course is designed to improve skill and knowledge in all areas of cross country.

PE 149 Softball Conditioning I   1
This course is designed to improve athleticism, both mental and physical. The course will focus on techniques used in the following aspects of softball: hitting, pitching, fielding, and base running.

PE 150 Personal Trainer Field Experience I   1
This course provides a beginning hands-on experience for students pursuing a personal fitness trainer degree. The course will provide instruction and experience in how to interact with people participating in a personal training program. The course will include application

103

indicates a technical course

of exercise theory to fitness machine workouts. This course is part of an Applied Science degree program and offers preparation for the National Council of Strength and Fitness personal trainer exam.

PE 150A Personal Trainer Field Experience II 1
This second semester course provides additional hands-on experience for students pursuing a personal fitness trainer degree. This course focuses on a more comprehensive approach to wellness. Students will work with staff members of the Walters Wellness center and will follow a program provided by the trainer to help individuals obtain their fitness goals. Students may also work with various athletic groups or clubs with pre-written programs. This course is part of an Applied Science degree program and offers preparation for the National Council of Strength and Fitness personal trainer exam. *PreReq: PE 150*

PE 150B Personal Trainer Field Experience III 1
This third semester course provides additional hands-on experience for students pursuing a personal fitness trainer degree. This course provides experience in writing and executing comprehensive wellness programs with the input of the trainer. This course is part of an Applied Science degree program and offers preparation for the National Council of Strength and Fitness personal trainer exam. *PreReq: PE 150A*

PE 150C Personal Trainer Field Experience IV 1
This fourth semester course is designed to provide each student pursuing the field of personal fitness training more experience outside of the college wellness center and campus. The student will be able to job shadow or interact with area fitness facilities. This course is part of an Applied Science Degree program and offers preparation for the National Council of Strength and Fitness personal trainer exam. *PreReq: PE 150B*

PE 151 Clinical Experience Athletic Training I 2
This course will provide students with an introduction to clinical experiences in the Highland Community College Athletic Training Education Program. There will be application of introductory skills through laboratory practice and clinical experiences in practical settings. *PreReq: Permission*

PE 151B Clinical Experience Athletic Training II 2
This course will provide an intermediate level of clinical experiences in the Highland Community College Athletic Training Education Program. There will be application of intermediate skills through laboratory practice and clinical experiences in practical settings. *PreReq: PE 151*

PE 151C Clinical Experience Athletic Train III 2
This course will provide an advanced level of clinical experiences in the Highland Community College Athletic Training Education Program. There will be application of advanced skill modules through laboratory practice and clinical experiences in practical settings. *PreReq: PE 151B*

PE 151D Clinical Experience Athletic Training IV 2
This course will provide a professional level of clinical experiences in the Highland Community College Athletic Training Education Program. There will be application of professional skills through laboratory practice and clinical experiences in practical settings. *PreReq: PE 151C*

PE 203 Volleyball II (WVA) 1
This course is for women participating in volleyball at the collegiate level. The course is designed to improve skill and knowledge in all areas of volleyball. *PreReq: PE 103*

PE 204 Basketball II (WVA) 1
This course is for women participating in basketball at the collegiate level. The course is designed to improve skill and knowledge in all areas of basketball. *PreReq: PE 104*

PE 205 Football II (MVA) 1
This course is for men participating in football at the collegiate level. The course is designed to improve skill and knowledge in all areas of football. *PreReq: PE 105*

PE 206 Basketball II (MVA) 1
This course is for men participating in basketball at the collegiate level. The course is designed to improve skill and knowledge in all areas of basketball. *PreReq: PE 106*

PE 207 Dance Team III 1
This performance class is specifically for members of the Classy Lassies dance group, which represents the College at athletic events and school activities. Auditions are required for admission. The course emphasizes development of technical and choreographic skills for performance. *PreReq: PE 108*

PE 208 Dance Team IV 1
This performance class is specifically for members of the Classy Lassies dance group, which represents the College at athletic events and school activities. Auditions are required for admission. The course emphasizes development of technical and choreographic skills for performance. *PreReq: PE 207*

PE 210 Advanced Concepts of Personal Training 5
Released by the National Council on Strength & Fitness (NCSF), this is an intensive cumulative core course designed to prepare students for the NCSF National Certified Personal Trainer Exam. The course covers all the areas required for the exam and will include lessons with textbook reviews, presentations, and study guide sessions, as well as lab activities for each lesson or chapter of the textbook. There will be three hours lecture and two hours lab per week. *PreReq: Permission*

PE 214 Track II (WVA) 1
This course is for women participating in track and field at the collegiate level. The course is designed to improve skill and knowledge in all areas of track and field. *PreReq: PE 114*

104

PE 215 Softball II (WVA)   1
This course is for women participating in softball at the collegiate level. The course is designed to improve skill and knowledge in all areas of softball. *PreReq: PE 115*

PE 216 Track II (MVA)   1
This course is for men participating in track and field at the collegiate level. The course is designed to improve skill and knowledge in all areas of track and field. *PreReq: PE 116*

PE 218 Cross Country II (MVA)   1
This course is for men participating in cross country at the collegiate level. The course is designed to improve skill and knowledge in all areas of cross country. *PreReq: PE 118*

PE 220 Theory of Coaching Basketball   2
This course covers all phases of the game of basketball and is designed to provide a foundation for those interested in coaching basketball. The course will include developing a coaching philosophy, motivational techniques, offensive and defensive strategies, and developing a basketball program.

PE 222 Theory of Coaching Football   2
This course covers the history of the sport of football, theories of coaching, and fundamental coaching techniques.

PE 223 Theory of Coaching Baseball   2
This course covers the basic fundamentals of coaching the sport of baseball. The course will focus specifically on pitching, catching, infield and outfield positions, and hitting. The course will also cover how to deal with individual players and the correction of common faults.

PE 224 Care and Prevention of Athletic Injuries   3
This course provides a practical study of injury recognition, preventative measures, evaluation techniques, supportive taping methods, and basic modalities and rehabilitation used in the management of athletic injuries.

PE 225 Theory of Coaching Volleyball   2
This course is designed to provide an understanding of the game of volleyball from a coaching perspective. The course will cover developing a personal coaching philosophy, organization of practices, teaching fundamentals, game strategies, working with individual athletes, team dynamics, team and program management, and professional development. The course will consider all levels of volleyball competition.

PE 227 Cheerleading III   1
This performance course is for members of the College spirit group of cheerleaders, yell leaders, and mascots. The course emphasizes the development of physical and technical skills, including jumps, stunts, cheers, chants, conditioning, and safety for performing at athletic events and other school activities. *PreReq: PE 128*

PE 228 Cheerleading IV   1
This performance course is for members of the college spirit group of cheerleaders, yell leaders, and mascots. The course emphasizes the development of physical and technical skills, including jumps, stunts, cheers, chants, conditioning, and safety for performing at athletic events and other school activities. *PreReq: PE 227*

PE 236 Baseball Conditioning II   1
The course will focus on techniques for improving hitting, pitching, fielding, and base running. The course is designed to make the student a better athlete both mentally and physically. *PreReq: PE 136*

PE 237 Advanced Basketball Conditioning- Men   1
This course covers preseason conditioning for men's varsity basketball. The course will focus on proper weight training techniques and running principles. *PreReq: PE 137*

PE 238 Advanced Basketball Conditioning - Women   1
This course covers preseason conditioning for women's varsity basketball. The course will focus on proper weight training techniques and running principles. *PreReq: PE 138*

PE 240 Advanced Weightlifting & Conditioning II   1
This course provides an individualized program to improve health, well-being, and strength through weightlifting, conditioning drills, and agility drills. *PreReq: PE 140*

PE 241 Weightlifting II   1
This course offers an individualized weightlifting program designed to improve physical health, well-being, and strength. *PreReq: PE 124*

PE 243 Introduction to Athletic Training II   3
This course covers documentation of athletic injuries, principles of therapeutic modalities, and methods of therapeutic exercise. *PreReq: PE 143 and permission*

PE 245 Baseball II (MVA)   1
The course will focus on techniques for improving hitting, pitching, fielding, and base running. The course is designed to make the student a better athlete both mentally and physically. *PreReq: PE 117*

PE 247 Cross Country II (WVA)   1
This course is for women participating in cross country at the collegiate level. The course is designed to improve skill and knowledge in all areas of cross country. *PreReq: PE 118*

PE 249 Softball Conditioning II   1
The course will focus on techniques for improving hitting, pitching, fielding, and base running. The course is designed to make the student a better athlete both mentally and physically. *PreReq: PE 149*

PE 250 Exercise Physiology   3
This course examines the fundamental physiological processes that operate during exercise. The course will emphasize integrating systems and organs into a functional whole. Laboratory work will provide experience in evaluating exercise stress by motion methods and equipment. *PreReq: BS 105*

105

indicates a technical course

PHI 101 Introduction to Philosophy   3
This course provides a study of major philosophical ideas of the Western world from the time of Plato to the present. The course will present a broad overview of the history of philosophy and the thoughts of major philosophers. Emphasis will be placed on showing relationships between current societies and significant philosophical ideas.

PHI 102 Introduction to Ethics   3
This course provides a survey of ethical theories as they apply to the quest for human happiness and "the good life." The principles of moral reasoning and good reasoning will be considered and emphasis will be placed on the views of leading moral philosophers of the western tradition, such as Aristotle, Kant, Mill, Nietzsche, and others. The course will also focus on the applications of moral theory to practice.

PHI 103 Logic and Critical Thinking   3
The study of critical thinking and logic allows the student to practice skills in clear and logical thinking, analysis of information, and effective argumentation. The student will formulate and deliver arguments in written and oral form, supported by evidence and valid underlying assumptions.

PHI 105 Religions of the World   3
This course provides an objective and impartial survey of the major religious systems of the world, including Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, and Islam.

PHO 104 Introduction to Digital Photography   3
This is a basic course that provides familiarization with digital cameras and their technical controls. The course covers the use of camera functions: lens, exposure, f-stops, shutter speeds, and digital formats. Adobe Lightroom will be used as an image editing tool as well as digital printing output. The course will emphasize technical and compositional skills along with the aesthetic importance of the image. Students must have access to a digital single lens reflex (SLR) camera or equivalent with the ability for manual control and RAW image capture.

PHO 105 Introduction to Film Photography   3
This course provides an introduction to film photography using a 35 mm single lens reflex (SLR) camera. The course will cover the use of gelatin silver black and white materials and achieving technical control of film, paper, and chemistries in the development and print processes, including techniques for refining the print image and using previsualization and darkroom manipulations.
PreReq: PHO 104

PHO 107 History of Photography   3
This course provides an introduction to the history of still photography as an art medium. The course will cover developments of the photographic image from 1839 to the present. Emphasis will be placed on individual artists, artistic movements, and photography as a communication tool.

PHO 108 Applied Photography I   1
This course is designed for the student with an interest in commercial photography. The student will have supervised assignments in a field relating to their professional interests. Such areas may include, but are not limited to, portraiture, fashion, industrial, or illustration photography. The class will meet one hour per week, with additional hours arranged as necessary. *PreReq: PHO 101*

PHO 109 Studio Photography I   1
This course is designed for the student with an interest in fine arts photography. The course will provide an opportunity to explore the possibilities of self-expression with the photographic image. Students may elect to explore non-silver (alternative) photographic processes as well, including, but not limited to, palladium printing, salted paper prints, carbon, or kallitype prints. The course will meet one hour per week, with additional hours arranged as necessary. *PreReq: PHO 101*

PHO 110 Photography Fundamentals   2
This is a beginning course covering the basics of digital cameras and their technical controls. Camera functions: lens, exposure, f-stops, shutter speeds and digital formats will be explored. Emphasis will be geared toward understanding the creative potential and use of digital imaging technology. Compositional skills and the aesthetic importance of image making will be discussed.

PHO 203 Color Photography   3
This is an advanced course using digital technologies to examine, explore, and apply color theory in photographic works. The course will focus on the advanced use of Photoshop, color balancing, and management systems in digital printing. The emphasis of the course is on self-expression using color as a tool for mood and emotional value. Students must have access to a high quality digital SLR camera with the ability for manual control and RAW image capture. *PreReq: PHO 104*

PHO 205 Lighting Techniques   3
This course provides an introduction to the physical laws of light and photographic lighting techniques. The course will cover terminology and lighting techniques for form, texture, and separation, using both portraiture and still life. Assignments will include controls and exposure of lighting systems such as working with natural, tungsten or strobe lighting. Students must have access to a high quality digital (single lens reflex) camera with the ability for manual control and RAW image capture. *PreReq: PHO 104*

PHO 207 Advanced Digital Photography   3
This course is designed in exploring and using advance functions on the digital (single lens reflex) camera. Functions and topics include: color corrections, working in HDR, using live view, perspective controls, tweaking saturation, lens control and programing presets. Computer editing will include using both Adobe Lightroom and Photoshop. Assignments will be given in architecture, product and advertising, and fine art photography. Studio lighting techniques with tungsten, flood, or strobe systems will be utilized. *PreReq: PHO 203, PHO 205*

*indicates a technical course

PHO 208 Applied Photography II   1
This is an advanced course designed for the student with profes-
sional goals in commercial photography. The student will continue
to concentrate on a series of photographs that will relate to their
professional interests in a specific field. The class will meet one
hour per week, with additional hours arranged as necessary. *Pre-Req: PHO 108*

PHO 209 Studio Photography II   1
This advanced course is designed for the student with professional
goals in the photographic fine arts. Students will continue to explore
the photographic image as a tool for self-expression. Students
may elect to work with traditional or non-traditional processes. The
course will meet one hour per week, with additional hours arranged
as necessary.

PHO 210 Landscape Photography   3
This course allows students to work in the natural environments of
the landscape. The goal of the course is to expand technical and
aesthetic photographic skills by working in practical and unique
field locations. Daily field sessions and lectures will be scheduled
as well as individual assistance. The student will select a field proj-
ect of their choice. Topics could include, but are not limited to, fine
art landscape, wildlife, macro, and portrait location photography.
PreReq: PHO 101

PHO 210A Landscape Photography   3
This course allows students to work in the natural environments of
the landscape. The goal of the course is to expand technical and
aesthetic photographic skills by working in practical and unique
field locations. Daily field sessions and lectures will be scheduled
as well as individual assistance. The student will select a field proj-
ect of their choice. Topics could include, but are not limited to, fine
art landscape, wildlife, macro, and portrait location photography.
PreReq: PHO 101

PHO 260 Portfolio Preparation   1
Provides individuals with the necessary skills and knowledge to
design and prepare a portfolio. A finished portfolio can be helpful
in seeking educational goals such as scholarships or entrance
requirements, or utilized in seeking employment. *PreReq: Permission*

POL 100 United States Government   3
This course focuses on the political arena and public affairs of the
national government of the United States. The course will examine
the development of constitutional principles and issues, such as
civil liberties, the role of political parties, and the structure and func-
tion of the legislative, executive, and judicial branches of the United
States government.

POL 101 Introduction to Political Science   3
This course provides a survey of the field of political science. The
course will cover the nature of politics and political power, the insti-
tutions of government and how they make decisions, enforce rules,
and decide conflicts about policies, the nature of public opinion and
political participation, major political ideologies and philosophers

of politics, and politics in the international realm. The course will
focus on American politics but will also provide some comparison
with other nations.

POL 115 State and Local Government   3
This course examines the interrelationships between the federal,
state, and local branches of the United States government. Current
events will be discussed as they relate to state and local govern-
mental entities. The course will also emphasize the impact of
government on daily life.

PS 101 College Physical Science   5
This course provides a study of major concepts in modern science.
The course will focus on physics, chemistry, geology, meteorology,
and astronomy. Some consideration will be given to the problems
of energy and the environment. This course is designed for those
with no previous background in physical science and will include
laboratory experience. *PreReq: MAT 100*

PS 102 Concepts of Physics   4
This course provides a qualitative introduction to the science
of physics and examines principles from classic, relativity, and
quantum theories. The course will cover motion, forces, energy,
thermodynamics, waves, electromagnetism, atomic physics, special
and general relativity. This course is intended as a broad-based
introduction to physics for students who are not majoring in science.
Three hours of lecture and 1.5 hours of lab per week. *PreReq:
MAT100 or assessment*

PS 104 Physical Geology   4
The course offers an introduction to the basic principles of geology.
The course covers geological measuring techniques, minerals and
rocks, internal processes such as plate tectonics, earthquakes and
volcano, and surface processes such as streams, coasts, mass
movement, and glaciers. This course is intended as a broad-
based introduction to geology for students who are not majoring in
science. Three hours of lecture and 1.5 hours of lab per week.

PS 107 General Chemistry   5
This course includes a survey of chemistry with special emphasis
on solutions and biochemistry. This course is for students who
have not had the equivalent of one year of high school chemistry.
The course is designed for students majoring in scientific and tech-
nological fields such as allied health and agriculture. Three hours
of lecture and three hours of lab.

PS 108 Astronomy   4
This course provides a qualitative introduction to the nature of
the solar system and beyond. The course will cover the celestial
sphere, astronomical observation techniques, the planets and
moons, asteroids and comets, the Sun, the lives and evolution of
stars, pulsars, black holes, galaxies and dark matter. This course is
intended as a broad-based introduction to astronomy for students
who are not majoring in science. Three hours of lecture and 1.5
hours of lab per week. *PreReq: MAT 100 or assessment*

107

indicates a technical course

PS 111 College Chemistry I 5
This course provides a college-level introduction to chemistry. The course is intended for those students majoring in technological and scientific fields such as engineering, pre-medical, pre-veterinary, pre-pharmacy, pre-dentistry. This is also the PreRequisite course for further chemistry studies in organic chemistry, biochemistry. The course will focus on the study of chemical compounds, their properties and reactions, and the scientific laws which determine their behavior. Topics include basic chemical concepts, calculations with chemical formulas and equations, chemical reactions, thermo-chemistry, modern theories of the atom and electronic structure, chemical periodicity, and chemical bonds. This is the first semester of a two-semester sequence. *PreReq: High school chemistry, MAT 103, or permission*

PS 112 College Chemistry II 5
This course is a continuation of PS 111 and is designed for students whose studies will continue in science or engineering. This is also a part of the required pre-professional course load. Topics include crystals and solids, reaction kinetics, chemical equilibrium, solution chemistry including acid-base and complex-ion equilibria, thermodynamics, and electrochemistry. There is also a brief discussion of organic chemistry, biochemistry, and nuclear chemistry. *PreReq: PS 111*

PS 203 General Physics I 5
This course provides a study of units, physical quantities and vectors, motion, forces and equilibrium, oscillations and waves, gravitation, work, energy, and thermodynamics. This is the introductory course for those who require algebra-based physics. *PreReq: MAT 104*

PS 204 General Physics II 5
This course includes the study of electricity, magnetism, electro-magnetic induction, electromagnetic waves, optics, and atomic and nuclear physics. This is a second semester course for students who require algebra-based physics. *PreReq: PS 203*

PS 210 Organic Chemistry I 5
This course is the first of a two-semester sequence. Fundamental topics studied will include hybridization, bond and molecular orbitals, stereochemistry, acids and bases, chemical radicals, kinetics, thermodynamics, conformational analysis, and molecular structure. These topics will be applied to alkanes, haloalkanes, alkenes, and alcohols. Spectroscopic techniques including NMR, IR, and mass spec will be applied to structure determination of organic molecules. *PreReq: PS 111, PS 112, and permission*

PS 212 Organic Chemistry II 5
This course is the second of a two-semester sequence. Fundamental topics studied will include a continuation of all topics from the first semester and their application to chemical synthesis and structure determination. These topics will be applied to aldehydes and ketones, carboxylic acids and their derivatives, amines, aromaticity, benzene and its derivatives, organometallic compounds, conjugated and unconjugated unsaturated systems, and pericyclic reactions. Selected applications to biochemistry, medicinal and

108

indicates a technical course

pharmaceutical chemistry, and industrial chemistry will also be discussed. *PreReq: PS 210 and permission*

PS 215 College Physics I 5
This course covers in detail the analysis of units, physical quantities and vectors, motion, forces and equilibrium, oscillations and waves, gravitation, work, energy, and thermodynamics. This is a first semester course for students who require calculus-based physics such as engineering, chemistry, physics, and pre-med majors. Three hours of lecture, one hour of recitation and two hours of lab per week. *PreReq: MAT 110 may be taken concurrently*

PS 216 College Physics II 5
This course continues PS 215 and includes the study of electricity, magnetism, electromagnetic induction, electromagnetic waves, optics, and atomic and nuclear physics. This is a second semester course for students who require calculus-based physics such as engineering, chemistry, physics, and pre-med majors. Three hours of lecture and one hour of recitation and two hours of lab per week. *PreReq: PS 215*

PSY 101 General Psychology 3
This general survey course provides a broad background in the principles and applications of scientific psychology. The course will focus on the principles and proponents of psychological theories and methods of scientific inquiry, as well as the biological basis of behavior, including physiology of the brain and nervous system and the accompanying sensory systems and perceptual processes. The course also covers learning theories and cognitive processes, theories and applications of motivation and emotion, the major phases of human life span development, and the major theories of personality, including disorders, treatments, therapies, and how human interaction is influenced by the individual, group, and environment.

PSY 202 Child Psychology 3
This course is a study of child development from conception to adolescence. The course will cover the physical, intellectual, emotional, and social aspects of personality. Genetic predisposition and environmental influences will also be reviewed. *PreReq: PSY 101*

PSY 205 Human Growth and Development 3
This course focuses on human development using normative scales for physical, intellectual, emotional, language, social, and personality development. The process of human growth and development across biological beginnings, infancy, childhood, adolescence, adulthood, and end of life will be presented. Environmental and biological influences that affect development are also reviewed.

PSY 206 Social Psychology 3
This course provides a psychological perspective on social behavior and the processes involved in being a member of a social group. Social psychology is the scientific study of how people think about, influence, and relate to one another. Topics include self-concept, perception, attitude, social influence, conformity, persuasion, prejudice, group influence, and pro-social behavior. The individual as a member of a group and society is a central component of this course. *PreReq: PSY 101*

PSY 280 Health Psychology   3
This course examines the psychosocial factors relevant to general health. The course will cover the contributions of psychological theory to the encouragement of health and wellness and prevention of physical illness. Course topics include stress management, theories of pain and pain management, and evaluation of health related research. *PreReq: PSY 101*

PSY 290 Abnormal Psychology   3
This course is a study of emotional and behavioral disorders. Abnormal Psychology focuses on the description, causes, and treatment of abnormal behavior patterns. Classifications of disorders according to the DSM-IV, such as mood disorders, anxiety disorders, psychotic disorders, and personality disorders will be presented. Methods of treatment, specifically psychotherapies and biomedical therapies, will be discussed. *PreReq: PSY 101*

RM 100 Security & Loss Prevention   3
This course is designed to provide a comprehensive overview of security and loss prevention. The course will focus on loss problems and those countermeasures that protect against crimes, fires, and accidents.

RM 110 Risk Assessment   3
This course is designed to provide a comprehensive overview of the risk management process. The course will focus on loss exposures that organizations face and will cover the quantitative foundations needed for assessing the importance of loss exposures and forecasting their effect.

RM 111 Investigations in the Workplace   3
This course is designed to provide a comprehensive overview of the investigative process. The course explores the methodology, rationale, and practices involved in effective workplace investigations.

RM 112 Security & Loss Prevention II   3
This course examines security and loss prevention challenges associated with specific areas and industries. The course will focus on loss problems and those countermeasures that protect against crimes, fires, and accidents. *PreReq: RM 110*

RM 114 Risk Control   3
The course is designed to provide a comprehensive overview of the risk control process, including the techniques and measures available to control the risks from property, personnel, liability, and net income loss exposures. *PreReq: RM 110*

RM 115 Prevention and Assessment Workplace Violence   3
This course is designed to provide a comprehensive overview of the prevention, assessment, and intervention of workplace violence.

RM 116 Safety I   3
This course is designed to provide a comprehensive overview of the safety responsibilities associated with a risk management professional. The course will focus on general industry: officers, retailers, manufacturers, and industrial facilities that do not have special technical safety concerns.

RM 117 Foundations of Information Systems Security and Loss Prevention   3
This course is designed to provide a comprehensive overview of information systems security. The course will focus on establishing and managing an information system protection program.

RM 200 Risk Finance   3
The course is designed to provide a comprehensive overview of the risk financing process, including the techniques and measures available to finance the risks from property, personnel, liability, and net income loss exposures. *PreReq: RM 114*

RM 201 Safety II   3
This advanced course is designed to provide a comprehensive overview of the safety responsibilities associated with a risk management professional. The course will focus on general industry: officers, retailers, manufacturers, and industrial facilities that do not have special technical safety concerns.

RM 202 Risk Communications   3
This course is designed to provide a comprehensive overview of the risk communication process. The course will cover care, consensus, and crisis communication as it relates to environmental, safety, and health issues.

RM 204 Risk Quality   3
This course is designed to introduce the risk management professional to quality management concepts and tools. The course will cover continuous improvement tools, satisfying internal customers, meeting and team development and management, problem solving, survey development, cost/benefit analysis, and audit techniques.

SOC 100 Creating Positive Settings for Children & Families   1
This course will consider how children's mental health is affected by life events, culture, environment, biology and relationships and how these aspects affect understanding and wellness. The course will include how to create safe and nurturing learning environments and strategies for working with families to create a healthy atmosphere for children. This course is instructor-led and interactive through discussions and assignments in course discussion boards.

SOC 101 General Sociology   3
This course provides an introduction to sociology and the basic principles of sociological perspectives, theories, and research methods. The course will focus on the way culture patterns societies and social interaction and how these patterns are transmitted through socialization and social interaction. The course will also cover social stratification systems, social institutions, collective behaviors, social change, and perspectives on how social forces influence human activity and how human activity creates social forces.

SOC 102 Marriage and the Family   3
This course examines the nature, development, functions, and norms of the family in American society as well as in other cultures. The course will focus on courtship, marriage, sexual relations, birth control, male and female roles, kinship, child rearing, divorce, and death in the family.

indicates a technical course

SOC 104 Introduction to Social Work 3
This course provides an introduction to the field of social work. The course will cover the history, mission, values, and activities of social work practice. The course will focus on how social workers interact with a diverse client population and contribute to solving social problems. The knowledge and value base of the profession will also be examined.

SOC 150 Community Leadership 3
This course will focus on leadership skills and community leadership procedures and techniques. The course will emphasize the principles of project management, including design, planning, follow-up, and closure, as well as problem solving, community diversity, and long-range planning.

SOC 150A Community Leadership 1
This course will focus on leadership skills and community leadership procedures and techniques. The course will emphasize the principles of project management, including design, planning, follow-up, and closure, as well as problem solving, community diversity, and long-range planning.

SOC 200 Sociology through Film 3
This course is designed to teach key sociological concepts and topics through the use of cinematic film. The course will examine how social life is presented, distorted, magnified, or politicized in the films. The course will also consider how films not only reflect society but also actually shape social trends and values. *PreReq: SOC 101 and ENG 101 with grade B or higher in both courses, SOC 102 or ANT 112*

SOC 204 Introduction to Nonviolence Studies 3
This course will examine the theory and practice of nonviolence as a method of social change and as a way of life. The course will consider the dynamics of violence and nonviolence within individuals and in terms of global issues that affect the future of the Earth and its life forms. The course will focus on the history of nonviolence movements around the world and on people who have thought about and practiced nonviolence in their lives and work.

SOC 210 Social Problems 3
This course examines a wide variety of social problems in society, including crime, racial discrimination, poverty, drug abuse, disorganization of social institutions, and rapid social change. The course will apply sociological theories to explain social problems and will look at various approaches used to solve these problems. *PreReq: SOC 101*

SP 101 Oral Communications 3
The purpose of this course is to develop the understanding and skill necessary for meaning-oriented oral communication. This course focuses on becoming a more effective critical listener and communicator and includes both interpersonal and public communication.

SP 105 Interpersonal Communication 3
This course is designed to improve student effectiveness in small-group and one-to-one communication.

SP 106 Public Speaking 3
The purpose of this course is to increase student understanding of the principles and applications of public speaking through analysis and practice in communication theory, topic selection, audience analysis, research, use of support materials, content organization, presentation, and evaluation.

TH 103 Theatre Practicum I 1
This course is designed to provide practical experience as a member of a theatre production crew. Crew members may work in several technical or production areas, including stage management, costumes, set design and construction, lighting, sound, properties, house management, and publicity.

TH 104 Theatre Practicum II 1
This course continues TH 103 and is designed to provide additional practical experience as a member of a theatre production crew. Crew members may work in several technical or production areas, including stage management, costumes, set design and construction, lighting, sound, properties, house management, and publicity. *PreReq: TH 103*

TH 105 Introduction to Dramatics 3
This course will provide a thorough survey of the basic elements of theatre and the dramatic arts.

TH 106 Play Production 3
This course provides an introduction to the elements of play production. The course will cover planning, management, and technical aspects of play production and will include practical experience working with College productions.

TH 108 History and Appreciation of Theatre Art 3
This course is designed to provide an introduction to the development of theatrical presentation from antiquity to the modern stage. The course will examine direction, management, design, and performance. Representative dramatic productions will be viewed to provide insight into the historical development and artistic values of theatre.

TH 109 Fundamental Style and Principles of Acting 3
This course provides an introduction to the basics of acting and is geared towards students with little or no performance experience. The course will focus on rehearsal procedures and techniques, terminology, actor discipline, and public performance.

TH 110 Acting I 3
This course continues TH 109 and provides additional experience in the basics of acting. The course is geared towards students with limited performance experience. The course will focus on rehearsal procedures and techniques, terminology, actor discipline, and public performance. *PreReq: TH 109*

*indicates a technical course

TH 151 Introduction to Stage Lighting 3
This course provides hands-on experience with the tools and theory of stage lighting and basic electricity, including types of lighting instruments, lamps, and plugs, types of lighting control equipment, special lighting effects, mounting productions, use of cue sheets, hanging plots, running orders, and dimmer schedules.

TH 152 Stagecraft I 3
This course provides an introduction to the basic tools and principles of stagecraft. The course will focus on basic tools and their uses, shop organization and maintenance, construction, rigging, and painting. Course participants will be responsible for building, maintaining, and striking sets used in performances.

TH 203 Theatre Practicum III 1
This course continues TH 104 and is designed to provide additional practical experience as a member of a theatre production crew. Crew members may work in several technical or production areas, including stage management, costumes, set design and construction, lighting, sound, properties, house management, and publicity. *PreReq: TH 104*

TH 204 Theatre Practicum IV 1
This course continues TH 203 and is designed to provide additional practical experience as a member of a theatre production crew. Crew members may work in several technical or production areas, including stage management, costumes, set design and construction, lighting, sound, properties, house management, and publicity. *PreReq: TH 203*

TH 206 Acting II 3
This course continues TH 110 and provides additional experience in the basics of acting. The course is geared toward students with some performance experience. The course will focus on rehearsal procedures and techniques, terminology, actor discipline, and public performance. *PreReq: TH 110*

TH 207 Acting III 3
This course continues TH 206 and provides additional experience in acting. The course is geared toward students with some performance experience. The course will focus on rehearsal procedures and techniques, terminology, actor discipline, and public performance. *PreReq: TH 206*

TH 211 Stagecraft II 3
This course continues TH 152 and provides additional experience in the use of basic tools and principles of stagecraft. The course will focus on basic tools and their uses, shop organization and maintenance, construction, rigging, and painting. Course participants will be responsible for building, maintaining, and striking sets used in performances. *PreReq: TH 152*

VIN 111 Intro to Viticulture and Vineyard Establishment 3
This course is designed to introduce students to current practices for establishing a commercial vineyard and maintaining its health and productivity. Topics include varietal selection, site selection, site preparation, equipment, first season establishment, vine growth development and training, trellis systems, vine propagation, weed control, and vine disease control. Field practicum sessions consisting of 16 hours of hands-on experience will be scheduled in area vineyards.

VIN 211 Integrated Pest Management 2
This course focuses on how effective grape production depends on the grower developing a system of grape management that is appropriate for each vineyard. The course will also examine the decisions that need to be made for managing all the normal cultural practices, such as planting, fertility, harvesting, and pruning, as well as managing the insect, disease, and weed problems that occur either regularly or sporadically. The information in this course will address management issues related to common, expected pest problems as well as the occasional appearance of minor pest problems.

VIN 212 Winter Viticulture Technology 2
This course is a study of commercial grape growing in the Midwest United States. Topics include cultivators, vine nutrition, irrigation, canopy management, pests, maturity sampling and harvest, balanced pruning/cropping, and cold injury. *PreReq: VIN 111 or permission*

VIN 213 Midwest Vineyard Management 2
This course is a study of commercial grape growing in the Midwest United States. Topics include cultivators, vine nutrition, irrigation, canopy management, pests, maturity sampling and harvest, balanced pruning/cropping, and cold injury.

VIN 214 Spring Viticulture Technology 2
This course is designed to provide practical experience in spring viticultural operations for students already initiated in the field of viticulture. Students are required to partner with an approved vineyard to participate in the required field experience portion of the course, which will serve as work experience for those seeking employment in commercial viticulture. A minimum of 30 hours of field practicum are required along with a daily journal of practicum experiences. *PreReq: VIN 111 or permission*

VIN 215 Summer-Fall Viticulture Technology 2
This course is designed to provide practical experience in summer/fall vineyard operations for students already initiated in the field of viticulture. Students are required to partner with an approved vineyard to participate in the required field experience portion of the course, which will serve as work experience for those seeking employment in commercial viticulture. A minimum of 30 hours of field practicum are required along with a daily journal of practicum experiences. *PreReq: VIN 111 or permission*

VIN 293 Soils for Viticulture 3
This course will explore soil properties and behavior and their influence on wines. The course focuses not only on growth and production, but also on the long-term effects of viticulture on soil quality and the wider environment.

111

indicates a technical course

Academic Load: The total number of credit hours enrolled in during one semester.

Advisor: A faculty or staff person who helps students achieve their educational goals by providing guidance on courses, program requirements, prerequisites, programs of recommendations, policies and procedures, and resources.

Associate Degree in Nursing (ADN): A degree program intended for students that have completed the License Practical Nursing (LPN) program and want to continue on to be able to meet the requirements to take the state nursing examination.

Associate in Applied Science degree (AAS): A degree for students who desire to enter into employment after two years of college.

Associate in Arts degree (AA): A degree intended to enable students to satisfy equivalent lower-division college credit course requirements and to transfer into a comparable discipline Bachelor of Arts degree program.

Associate in Science degree (AS): A degree program intended to enable students to satisfy equivalent lower-division college credit course requirements and to transfer into a comparable discipline Bachelor of Science degree program.

Associate in General Studies degree (AGS): A degree program intended to recognize the attainment of a broad general education at a lower-division level. The degree does not meet all lower-division requirements at Kansas Regent universities.

Co-requisite: A course required to be taken simultaneously with another.

Credit by examination: Credit received when a student takes an oral or written examination in lieu of taking a course.

Credit hour: A unit of measurement used in determining the quantity of work taken. Each credit hour is roughly equivalent to one hour of class time per week.

Curriculum: A program of courses that meets the requirements for a degree in a particular field of study also referred to as a major.

Degree program: Courses required for completion of a particular degree.

Department: A unit within a college representing a discipline.

Discipline: A course of study, a science, or an art. A branch of knowledge, typically studied in higher education.

Drop/Add: Changing the student's course schedule by adding and/or dropping courses to increase or decrease the credit hours.

Electives: Courses chosen by a student that are not required for the major or minor. The number of hours of electives required varies according to the student's major.

Enrollment: The process of selecting courses and scheduling courses.

Extracurricular: Activities such as band or athletics for which a student may earn credit toward graduation. Extracurricular activities are counted as electives.

Financial aid: Assistance for students who lack funds to pay for college. Aid is available from grants, loans, scholarships, and work study employment.

Grade Point Average (GPA): A measure of scholastic performance. A GPA is obtained by dividing the number of grade points by the hours of work attempted. An A=4 points, a B=3 points, a C=2 points, a D=l point, and a F=O points.

Intersession: Courses offered between fall and spring semesters.

Major: The subject or subject areas upon which a student chooses to place principal academic emphasis.

Orientation: Activities designed to help the new student become acquainted with the college.

PreRequisite: A requirement, usually credit in another course, which must be met before a particular course can be taken.

Scholastic honors: An award an undergraduate receives based on excellence of academic work.

Transcript: An official copy of a student's permanent academic record.

Appendix S

Website communicates admissions policies and procedures for the Institution. Institution has access to update and improve website information as needed. Catalog updated bi-annually to reflect course changes and admissions requirements. Academic Updates will occur annually to provide admissions representatives current information for programs of student and scholarship areas. Brochures are updated annually to reflect changes in cost, scholarship areas, programs of study for the Institution. Annually, the Board determines cost of tuition, fees, room and board for the Institution. This is reflected in the board minutes. Visitor information is updated annually to reflect current cost, housing, financial aid information as determined by the Board. Email campaigns are sent to guide prospective students through the process of admissions. Campaigns are updated as often as needed. All locations have access and training in Delivera for communication.

HIGHLAND COMMUNITY COLLEGE

WELCOME TO THE LEGACY. From the multiple locations of Highland Community College, you can see anywhere and begin pursuing any dream you choose. We've grown beyond our historical status as the first college in Kansas to become the most unique and fulfilling two-year college you know.

At Highland Community College (HCC), you're an integral part of an ever-expanding group that believes anything is possible. It's our goal to help you get there, and it's up to you to begin the journey.

READY TO APPLY? *Getting started is easy. Visit* **HIGHLANDCC.EDU** *and complete the online application for admission. From there, simply review the HCC admission requirements, submit a copy of your official high school transcript, and submit ACT or SAT scores if completed. We'll contact you personally to guide you through the rest of the process.*

Add Highland as a receiving school when you take your ACT. Our school code is 001921.

ONLINE

ONLINE PROGRAMS and courses are available at HCC and provide flexible learning opportunities for students. HCC Online offers a variety of options for students, so you can find a course or program to fit your needs. You can even earn your Associate Degree completely online!

HCC Online courses give students the opportunities to plan their study time around the rest of their day. You can study and work when it's convenient for you. Online courses utilize progressional learning activities and assessments with attainable deadlines. Instructor support is a key component of our courses.

FINANCIAL AID

Highland Community College knows that college is an important foundation for future success. We understand that it's an expensive venture and that most need financial help along the way. That's why we offer a comprehensive financial aid and scholarship program.

In order to be considered for all types of federal financial aid administered by HCC, a student needs to complete the FAFSA. Applicants and parents may have to submit federal income tax return transcripts and other documents if selected for verification.

FINANCIAL AID
FINANCIALAID@highlandcc.edu
785.442.6135

Apply for Financial Aid at FAFSA.GOV
School code - 001921
FAFSA may be completed as early as **October 1**

PAYMENT OPTIONS

PAYMENT PLANS
⊕ POWERED BY NELNET BUSINESS SOLUTIONS
Let us help make college more affordable.

STUDENTS MUST BE PAID IN FULL OR SIGNED UP FOR A PAYMENT PLAN BY REGISTRATION DAY EACH SEMESTER.

Highland Community College Tuition Payment Plans: The easiest way to pay for college.
Students who have not paid in full or signed up for a payment plan by close of business on Registration Day will be dropped from all HCC classes.

You may finance 90% of your semester bill.
To set up a payment plan, follow these simple steps.

PAYMENTS
PAYMENTS@highlandcc.edu
785.442.6001

Choose your payment method
• Automatic Bank Payment (ACH)
• Credit or Debit Card Transaction

Note: Payments will be drafted the 5th of the month. If the 5th falls on a weekend or banking holiday, payment will come out the following business day.

Know Your Fees
• $25 payment plan setup fee per semester + 10% down
• $30 returned payment fee if a payment is returned
If the enrollment fee returns for any reason, the agreement may be terminated.

How to Enroll
• Go to **www.mycollegepaymentplan.com/highlandcc**
• Log in to the student portal and select sign up for payment plan

Fall Payment plan schedule

Last day to sign-up online	Required Down Payment	Number of payments	Months of payments
June 23	10%	5	July - Nov

SCHOLARSHIPS

NURSING is one of the most diverse fields of study in healthcare today. As a nurse, you will have an opportunity to touch many lives and have an active role in advancing the health of your community. HCC offers three approaches of study for the student seeking a career in nursing:

PRE-NURSING *Associate in Science*
> Associate degree with classes that transfer to a four-year university.

ADMISSIONS
ADMISSIONS@highlandcc.edu
785.442.6020

PRACTICAL NURSING *Certificate*
> Application deadline April 1.
> Program Starts in the Fall Semester.

NURSING
NURSING@highlandcc.edu
913.367.6204 x146

IV THERAPY *Certificate*
> Required for LPN to RN Completion.

LPN TO RN COMPLETION PROGRAM *Associate in Applied Science*
> Application deadline August 1 *(effective 2018)*.
> Program Starts in the Spring Semester. Must have an active LPN license to apply.

ALLIED HEALTH is a growing field with jobs that are in high demand. HCC offers a wide variety of programs that prepare individuals for vital careers in healthcare.

Does not include $16 per credit hour textbook rental fee. Miscellaneous materials such as lab manuals, computer supplies, workbooks, and access codes are not included in tuition, fees, or book rental costs.

HCC ONLINE COURSES FOR HIGH SCHOOL STUDENTS

High School students can earn college credits completely online through HCC's online program. High school students who have completed their freshman year can enroll in HCC courses, Excel in CTE funding is only eligible to juniors and seniors. Choose from a General Education block to include standard introductory courses that are easily transferable or choose a career and technical education block. Courses are taught by experienced faculty and provide students the opportunity to get a head start on their college degree or jump start their career.

- Job Description Review & Improvement Plan

Social Media/Marketing Plan

Phase 1: Understanding Frameworks and Gathering Pertinent Information

Institutional Goals

- Mission: Provide lifelong learning opportunities and contribute to economic development to enhance the quality of life in the communities we serve.
- Vision: College of choice in northeast Kansas.
- Guiding principles, aka Shared Performance Expectations (adopted in 2014):
    - Be competent at your work
    - Communicate effectively
    - Respect others
    - Make good decisions
    - Act responsibly
    - Work effectively on teams
- *Key stakeholders*: President David Reist,

Alumni
- Form closer bond of fellowship
- Cultivate loyalty to advance an interest in HCC
- Support the promotion of the growth and development of Highland Community College

Admissions
- Recruit concurrent and postsecondary students
- Promote affordable technical and academic offerings that pertain to student interests

Institution
- Shared Performance Expectations: Competence, Communication, Respect, Good Decision-Making, Responsibility, Teamwork
- Historic significance -- First college in Kansas
- Affordability

VP for Institutional Advancement Craig Mosher, VP for Academic Affairs Erin Shaw, VP for Business and Finance Randy Willy, VP for Student Services Eric Ingmire.

Admissions Goals

- ==Recruit high school concurrent and postsecondary students== to face-to-face classrooms and online instructional environments.
- ==Promote affordable academic and technical postsecondary programs== that pertain to student preferences. In the absence of preference, promote a general curriculum that prepares students for transfer to 4-year colleges and universities.
- Employ divide-and-conquer mindsets through varied markets. Targeted Regional, Online, and Highland Campus audiences.
- *Key stakeholders*: Director of Admissions Stephanie Peterson, Regional and Online Directors, admissions representatives and student services representatives.

Alumni Association/Foundation Goals

- ==Form closer bond of fellowship==
- ==Cultivate loyalty== to advance an interest in Highland Community College
- Support the promotion of the ==growth and development of Highland Community College==
- *Key stakeholders*: Director of Alumni Association Kelly Twombly, Director of Foundation Keith Jaloma, VP for Institutional Advancement Craig Mosher.

==Highlighted statements suggest how social media marketing can reflect our goals==

COMPREHENSIVE PLAN

- How can we align Shared Performance Expectations to Institutional, Admissions, and Alumni marketing strategies, goals, and tactics?
- Strengths, Weaknesses, Opportunities, Threats (SWOT) Analysis
- Within each area, let's assess Shared Performance Expectations in terms of:
    - What works well?
    - What improvements do you suggest?
- Tactics emerge from feedback
    - Email campaigns (strong use in Delivra)
    - Twitter/Instagram/Snapchat (Twitter OK…still need to explore Instagram and Snapchat)
    - Facebook (strong use in Alumni and Athletics content)
    - YouTube – redirect outdated content to new links (many complete, more in production)
    - Google AdWords (revisit proposal from summer 2016)
    - Text messaging (currently reviewing options)

- o Freshman-Sophomore-Junior postcards
- o Movie theater ads
  - St. Joseph – National CineMedia/Hollywood Regal 10 – Lisa Erdman, 816-649-8663, lisa.erdman@ncm.com

MARCH	*Targeted Enrollment*	*Send*	*Person Responsible*	*Contact Lists*	*Sent*
Tech Visit Day – HCCTC (Date TBD), and HCCWC (Date TBD)	Fall 2018 for HCCTC and HCCWC	March 4	Chris	Applied Not Enrolled (All), Inquired Not Applied (All)	
FAFSA Reminders to Applicants (HS Seniors) and HS Counselors	Summer 2018/ Fall 2018	March 8	Chris	Applied Not Enrolled (All), High School Counselors	
Affordability Campaign (video)	Summer 2018/ Fall 2018	March 10	Chris	Applied Not Enrolled (All), Inquired Not Applied (All)	
Affordability (KS, NE & MO residents)	Summer 2018/ Fall 2018	March 14	Chris	Applicants (KS, NE, and MO residents) and "Inquiries, Not Applied" (KS, NE, and MO residents)	
Prepare for Next Semester – Highland Campus	Current students	March 14 (Right before Spring Break)	Chris	All current students (Highland Campus)	
Prepare for Next Semester – Regional, Tech, and Online	Current students	March 14 (Right before Spring Break)	Chris	All current students (Regional, Tech, Online)	
Clery Act/Safety Report Disclosure	Summer 2018/ Fall 2018/ Spring 2019/	March 15 (tentative)	Chris	Applied Not Enrolled (All), Inquired Not Applied (All)	

	Summer 2019/ Fall 2019				
Enrollment Days (April 7, April 21, May 24, June 13, July 6) – include: enrolling at a Regional Center, "You've made the right choice, affordability…"	Fall 2018	March 15	Chris	Accepted Highland Campus Applicants (cross-reference with Enrollment Days signups list from Jackie)	
Enroll at a Regional Center or Online	Fall 2018	March 15	Chris	Applied Not Enrolled (Regional Centers, Online). Cross-reference with Enrollment Days signups list from Jackie.	
Placement Testing – AccuPlacer, WorkKeys	Summer 2018/ Fall 2018	March 27	Chris – Consult with Lexy Clark, Hannah Stirton, Jolie McDaniel	All Applicants, tailor versions for on-campus, tech, regional	
Schedule a Visit (Main Campus)	Fall 2018/ Spring 2019/ Fall 2019	March 30	Chris	Inquired Not Applied and Applied Not Enrolled (All)	
APRIL	*Targeted Enrollment*	*Send*	*Person Responsible*	*Contact Lists*	*Sent*
Tech Visit Day – HCCWC – Date TBD	Fall 2018 at HCCWC	April 3	Chris	Inquired Not Applied and Applied Not Enrolled (All)	
Early April Enrollment Day – Date TBD	Fall 2017	April 4	Jackie Peden (only to group, not in Delivra)	Applicants who signed up for Early April Enrollment Day	
Affordability & Award Deadline	Summer 2018/ Fall 2018	April 9	Chris	Scholarship Sponsors, Applicants (cross-reference with Scholarship List; send to those **without** scholarships)	
Do You Know a Future Scottie?	Summer 2018/ Fall 2018	April 11	Chris	Alumni (from Kelly Twombly)	
Enrollment Days	Fall 2018	April 12	Chris	Accepted Applicants, Not Yet Signed Up for Enrollment Dates (cross-reference with Enrollment Day signups)	
HCC Engage – Follow-up to Early April Enrollment Day	Fall 2018	April 12	Chris	People who attended an Enrollment Day	
Enroll for Next Semester	Current students	April 13	Chris	All current students (Main Campus, Regional, Tech, Online)	
Affordability (KS, NE & MO residents)	Summer 2018/ Fall 2018	April 15	Chris	Applicants (KS, NE, and MO residents) and "Inquiries, Not Applied" (KS, NE, and MO residents)	

Late April Enrollment Day – Date TBD	Fall 2018	April 16	Jackie Peden (only to group, not in Delivra)	Students who signed up for Late April Enrollment Day	
Applied, No Housing Contract	Summer 2018/ Fall 2018 at Highland Campus only	April 18	Chris	List from Taylor Allen/Liam Nevin	
HCC Engage – Follow-up to Late April Enrollment Day	Fall 2018	April 24	Chris	People who attended an Enrollment Day	
Inquired, But Not Applied	Summer 2018/ Fall 2018	April 25	Chris	Inquired Not Applied	
Award Deadline Date	Fall 2018 at Highland Campus and Tech Center	April 30	Chris	Scholarship Sponsors, Applicants (cross-reference with Scholarship List (send to those without scholarships)	
MAY	*Targeted Enrollment*	*Send*	*Person Responsible*	*Contact Lists*	*Sent*
Enrollment Days	Fall 2018	May 2	Chris	Accepted Applicants, Not Yet Signed Up for Enrollment Day (Cross-reference with Enrollment Day signups)	
July Summer Blitz – App Deadline (Date TBD)	Summer 2018	May 8	Chris	Summer 2018 Highland Campus applicants who need to submit Summer Blitz Form (Cross-reference with Summer Blitz signups)	
Specific Program Promotions (one campaign for each program)	Fall 2018	May 10	Chris	Inquired Not Applied, sorted by interest area	
Applied, No Housing Contract	Summer 2018/ Fall 2018	May 12	Chris	List from Taylor Allen/Liam Nevin	
Enrollment Days	Fall 2018	May 17	Chris	Accepted Applicants, Not Yet Signed Up for Enrollment Day (Cross-reference with Enrollment Day signups)	
May Enrollment Day	Fall 2018	May 18	Jackie Peden (only to group, not in Delivra)	Students who signed up for May Enrollment Day	
FAFSA Reminder to Applicants and Enrolled Students – It's Not Too Late! Include: "If you applied for FAFSA, contact HCC F.A. Office…"	Fall 2018	May 24	Chris	Applied Not Enrolled, Fall 2018 Student List	

HCC Engage – Follow-up to May Enrollment Day	Summer 2018/ Fall 2018	May 26	Chris	People who signed up for an Enrollment Day	
JUNE	*Targeted Enrollment*	*Send*	*Person Responsible*	*Contact Lists*	*Sent*
Enrollment Days	**Fall 2018**	**June 1**	**Chris**	**2 Versions: 1) Accepted Fall 2018 Highland Campus Applicants, 2) Inquired Not Applied (cross-reference with Enrollment Day attendees/signups)**	
July Summer Blitz – App Deadline (June 23)	**Summer 2018**	**June 6**	**Chris**	**Summer 2018 Highland Campus applicants who need to submit Summer Blitz Form (Cross-reference with Summer Blitz signups)**	
June Enrollment Day	**Fall 2018**	**June 10**	**Jackie Peden (only to group, not in Delivra)**	**Students who signed up for June Enrollment Day (cross-reference with Summer Blitz signups)**	
Program Videos	Fall 2018/ Spring 2019/ Fall 2019	June 13	Chris	Inquired Not Applied	
HCC Engage – Follow-up to June Enrollment Day	Fall 2018	June 15	Chris	People who attended an Enrollment Day	
Applied For Housing – No Deposit	Fall 2018	June 19	Remind Liam (Should Chris or Housing send a campaign?)	List from Liam (Summer 2018 and Fall 2018 housing)	
July Summer Blitz –App Deadline (Date TBD)	**Summer 2018**	**June 20**	**Chris**	**Summer 2018 on-campus applicants who need to submit Summer Blitz Form (Cross-reference with Summer Blitz signups)**	
July Enrollment Day	**Fall 2018**	**June 23**	**Chris**	**2 Versions: 1) Accepted Fall 2018 On-Campus Applicants, 2) Inquired Not Applied (cross-reference with Enrollment Day attendees/signups)**	
Summer Blitz Enrollment Day	**Summer 2018**	**June 27**	**Jackie Peden (only to group, not in Delivra)**	**Students signed up just for Summer Blitz**	
July Enrollment Day	**Fall 2017**	**June 28**	**Jackie Peden (only to group, not in Delivra)**	**Students signed up for just July 6 Enrollment Day (not Summer Blitz)**

Reports

Highland Community College provides publicly-available reports on its students, its employees, and its finances. These Reports may be accessed through the links below.

Student Reports:

The Reports found here include various student characteristics, graduation rates, success indicators, and more.

- **IPEDS Data Feedback Report 2011**
- **IPEDS Data Feedback Report 2012**
- **IPEDS Data Feedback Report 2013**
- **IPEDS Data Feedback Report 2014**
- **IPEDS Data Feedback Report 2015**
- **IPEDS Data Feedback Report 2016**
- **Gainful Employment Data**
- **Student Outcome Data from Various Sources**

Federal Reports:

The Reports found here come from standard federal reports, which includes various on students and staff, transfer rates, retention rates, and more.

- **Federal Report Summaries**

Financial Reports:

The Reports found here include budget reports, financial reports, and more.

- **Financial Reports**

National Benchmarking Studies and Targets:

- **National Community College Benchmark Project**

Other Reports:

The Reports found here include summaries of the College Employee Satisfaction Survey (CESS), HCC Campus Climate Survey, and student satisfaction surveys.

Student Outcome Data

The Reports found here include various student characteristics, graduation rates, success indicators, and more.

- **IPEDS Data 2014**

- **Gainful Employment Data**

- **Student Outcome Data**

1

The following pages include important Student Outcome Data like graduation rates, retention rates, transfer out rates, demographics, enrollment details and more. Before you dive in, please take a moment to familiarize yourself with the words you'll come across in many of the tables.

Here we go…

Unduplicated Enrollment: An unduplicated student headcount is the actual number of individual students enrolled. Each student is counted only once. Students may be enrolled in one or more courses in a term, but they are counted only once for the term or academic year.

Total FTE Students: Total FTE, or Total 'Full-Time Equivalent' students, are summed and derived from the college's 12-month enrollment survey. Students reported are those enrolled for credit in courses that can be applied toward a postsecondary degree, diploma, certificate, or any other formal award. The calculation takes the total number of unduplicated credits students earn and divides them by 24 credits [two semesters of 12 hours each] to arrive at a full-time equivalency figure ['FTE Student']. Some collections instead use 30 credit hours as full-time.

Full-time versus Part-time Enrollment Status: For most collections, depending on the definition, undergraduate students enrolled for 12 or more credit hours per semester (fall or spring) during the academic year are considered to be full-time students. Those with fewer than 12 credit hours per semester are considered to be part-time students.

IPEDS: The Integrated Postsecondary Education Data System (IPEDS) is a system of interrelated surveys conducted annually by the National Center for Education Statistics (NCES), a part of the Institute for Education Sciences within the United States Department of Education.

KHEER: The Kansas Higher Education Enrollment Report that is collected and managed by the Kansas Board of Regents (KBOR) data collections and institutional research team.

AY: This is the Academic Year, and it is comprised of a Summer term, a subsequent Fall term, and also a subsequent Spring term, and the year identified in the AY statement is the Spring year. Example: AY2016 is comprised of the Summer 2015, Fall 2015, and Spring 2016 semesters, collectively.

Student–to-Faculty Ratio: This is the number of students who attend a college or university divided by the number of teachers in the institution, expressed as a reduced and usually rounded to the nearest whole number ratio to one.

Retention Rate: This is the percentage of a college's selected grouping of students, such as first-time, first-year undergraduate students enrolled in the fall semester, who continue at that school the next term later (usually a year). Highland generally uses first-time, full-time, degree-seeking students in the fall semester who are still enrolled at Highland the following fall term the next year.

Persistence Rate: This is the percentage of a college's selected grouping of students, such as part-time students, enrolled in a given semester, who continue their education at any college or university the next term of interest (such as Fall-to-Fall, Next-term, or even two full years later).

Graduation Rate: This is the percentage of a college's selected grouping of students, such as those who entered that were first-time, first-year undergraduate students, who complete their program within the published time for the program (for a community college, usually two or three years) at the same college.

Transfer Rate: This is the percentage of the college's first-time, first-year undergraduate students who transfer to another college within 150% of the expected time for completion. For example, a student who is in a two-year degree program is counted as a transfer if the student enrolls at another college within three years of when they first entered, without graduating with a degree or certificate yet. For some collections, if a student transfers after graduating, they are still listed as a transfer (with degree/certificate).

Cohort: A group of people, usually with similar traits or something of interest in-common [example: possess a Pell Grant], banded together and treated as a group in the research or collection.

Student Success Index: A total reported percentage supplied by KBOR that includes the following percentages, all added together to form one index - Completed Home Institution, Completed System Institution, Completed Elsewhere, Retained at Current Institution Index, Retained at a Kansas System Institution Index, and Retained Elsewhere Index.

100%, 150%, or 200% Graduation Rates: Each percentage represents the amount of time compared to a traditional two-year period for a student to graduate from the community college with an Associate's degree. Hence, 100% would be the two-year time period, 150% would be a three-year time period, and 200% would be a four-year time period to graduate after entering. For one-year certificates, the amount of time would be different, as 100% would be one year, 150% would be 1.5 years, and 200% would be twice the original amount of time, or 2 years.

And now for the numbers…

Subject: NATEF Compliance Review Results

12/14/2016

Program ID: 106091   School Name: Highland Community College Technical Center

Atchison, KS

Dear Mr. Hunziger:

 The National Automotive Technicians Education Foundation (NATEF) has completed our evaluation of your midpoint compliance review.

 Based on the information you have provided the Automobile training program at Highland Community College Technical Center continues to meet the NATEF standards of quality education.

 Remember that your accreditation is due to expire on 5/13/2019. To ensure sufficient time for processing your renewal we recommend submitting your application at least 6 months prior to your expiration date.

 The following are a few important requirements to keep in mind before you begin the accreditation renewal process:

 1.   Advisory Committee meeting minutes must indicate that key issues relating to NATEF accreditation have been discussed.

Click Here for detailed information regarding Advisory Committees, and a suggested format for meeting minutes.

 2.   Documentation of 20 hours of technical update training has been achieved by all instructors.

Click Here for more information regarding technical update training.

 3.   Instructors hold ASE certification(s) in accordance with current NATEF Program Standards. Please check the ASE website for available testing dates.

 We recommend you visit the NATEF website on a regular basis for important changes that may affect your program.

 Thank you for your continued support of NATEF accreditation and program improvement. As always please do not hesitate to contact the NATEF office should you have any questions.

Sincerely,

Wanda Bloomer

Manager, NATEF Operations

Dear Ms. Zaccardi:

The Education Committee of the Kansas State Board of Nursing met September 12, 2017 and reviewed the annual report of the Associate Degree Nursing Program at Highland Community College Technical Center. The Committee recommended continuing the approval of the program for the year July 1, 2017 through December 31, 2018.

The Board of Nursing agreed with the Education Committee and voted on September 13, 2017 to continue approval of the Associate Degree Nursing Program at Highland Community College Technical Center.

Please contact me if you have questions.

Sincerely,

Carol Moreland MSN, RN

Interviews conducted during the site visit:

Administration:
 David Resits, President
 Peggy Forsberg, Vice President of Academic Affairs
 Craig Mosher, Vice President of Institutional Advancement
 Cheryl Rasmussen, Vice President of Student Services
 Jane Zaccardi, MA, RN, GCSN-BC, Director of Nursing

Support Personnel:
 Lucas Hunziger, Director of Technical Education
 Allison Johnson, Student Resources/Financial Aid Representative
 Kristin Woodruff, Counseling
 Lynette, REynolds, Purchasing
 Irene Covert, Administrative Assistant to VP of Academic Affairs

General Education Faculty:
 Matt McElroy, Biology Department
 Greg Bryant, English

Librarian:
 Penny Donaldson, Director of Library

Meeting with Students:
 PN ≅ 29
 ADN - 1

Clinical Site:
   Atchison Hospital

Advisory Board Meeting:
   Lynne Connelly
   Karen Kidder
   Teresa Mosher
   Brenda Potter
   Collin, Richards
   Janean Bowen
   Cynthia Jacobson
   Julie Martinez
   Mabel Morton
   Jane Zaccardi
   Marjorie Ceniza
   Jesslyn Thies
   Susana Wiedefeld
   Kyleigh Geisen
   Bobbi Jo Grable

Nursing Faculty:
   Amy Folsom. BSN, RN - PN Faculty
   Robin Carolus, BSN, RN - PN Faculty
   Kerri Crittendon, BSN, RN - ADN Faculty

Strengths Identified:
1. Various faculty professional development opportunities
2. Strong Administration support for the nursing program
3. Great college and community support for the nursing program
4. Simulation lab changes and experiences are great and students report very helpful to them
5. Pediatric assessment day is an innovative experience for more pediatric clinical exposure
6. Students report strong student-faculty relationship
7. Good selections of clinical sites for PN program
8. Students report resources available to students are strong
9. Nursing program has a good reputation
10. Stable NCLEX pass rates
11. Good utlization of ATI in the nursing program

Opportunities for improvement:
1. Development of testing program for both faculty and students
2. Develop talking points re: college accreditation vs. national nursing accreditation to assist in communication
3. Examine faculty workloads considering inexperience of faculty and need for curriculum development, faculty development and test development
4. Testing policy in student handbook
5. Develop a process to ensure clinical contracts contain signatures and dates
6. Advisory Committee minutes should include information/feedback given to nursing program from the Advisory Committee

Recommendations:
1. Develop testing policy for student handbook. Submit to KSBN Education Specialist by 3/31/18.
2. Develop testing process for faculty that includes test analysis and test item devleopment. Submit testing process to KSBN Education Specialist by 3/31/18.
3. Develop testing process for students that includes test taking strategies. Submit student testing process to KSBN Education Specialist by

8

3/31/18.
4. Recommend reapproval of PN program for time period of five years. Recommend KSBN return for site visit at time of national accreditation site visit.

Meeting with Students:
    PN = 29
    ADN = 1

Clinical Site:
    Atchison Hospital

Advisory Board Meeting:
    Lynne Connelly
    Karen Kidder
    Leesa Mosher
    Brenda Potter
    Collin Richards
    Janean Bowen
    Cynthia Jacobson
    Julie Martinez
    Mabel Morton
    Jane Zaccardi
    Marjorie Ceniza
    Jesslyn Thies
    Susana Wiedefeld
    Kyleigh Geisen
    Bobbi Jo Grable

Nursing Faculty:
    Amy Folsom, BSN, RN - PN Faculty
    Robin Carolus, BSN, RN - PN Faculty
    Kerri Crittendon, BSN, RN - ADN Faculty

Strengths identified:
1. Various faculty professional development opportunities
2. Strong Administration support for the nursing program
3. Great college and community support for the nursing program
4. Simulation lab changes and experiences are great and students report very helpful to them
5. Pediatric assessment day is an innovative experience for more pediatric clinical exposure
6. Students report strong student - faculty relationship
7. Good selection of clinical sites for ADN program
8. Students report resources available to students are strong
9. Nursing program has a good reputation
10. Stable average NCLEX pass rate for last five years (88.72%)
11. Good utilization of ATI in nursing program

Opportunities for improvement:
1. Development of testing program for both faculty and students
2. Develop talking points re: college accreditation vs. national nursing accreditation to assist in communication
3. Examine faculty workloads considering inexperience of faculty and need for curriculum development, faculty development and test development
4. Testing policy in student handbook
5. Develop process to ensure clinical contracts contain signatures and dates
6. Advisory Committee minutes should include information/feedback given to nursing program from Advistory Committee

Recommendations:

8

1. Develop testing policy for student handbook. Submit to KSBN Education Specialist by 3/31/18.
2. Develop testing process for faculty that includes test analysis and test item development. Submit testing process to KSBN Educaiton Specialist by 3/31/18.
3. Develop testing process for students that includes test taking strategies. Submit student testing process to KSBN Education Specialist by 3/31/18.
4. Recommend reapproval of ADN program for time period of five years. Recommend KSBN return for site visit at time of National accreditation visit.

HIGHER LEARNING COMMISSION

Statement of Accreditation Status

as of November 29, 2017

Highland Community College

606 West Main Street

Highland, KS 66035-4165

(785) 442-6000

www.highlandcc.edu

Previous names: Highland Community Junior College to Highland Community College (1982)

The information on this page describes the accreditation relationship between this institution and the Higher

Learning Commission. General information about the Commission and the accreditation process is provided at

the end of this document. In addition, links to definitions are provided for many of the terms used.

Accreditation Information

Current status: Accredited

Candidacy date(s):   03/27/1974 - 04/12/1977

Accreditation granted: 04/13/1977

Most recent reaffirmation of accreditation: 2010 - 2011

Next reaffirmation of accreditation: 2017 - 2018

Upcoming or In-Progress Reviews

No current / upcoming events found

Most Recent History with the Commission

Date	Event	Description
04/18/2011:	Reaffirmation of Accreditation (AQIP)	

General Institutional Information

This section provides brief, general information about the institution's organization and scope. The information is self-reported by the institution through the annual Institutional Update to the Commission. Additional information can be found at nces.ed.gov/collegenavigator/ or on the institution's web site noted above.

Control: Public

Degree programs (number in each category): Associates (28)

Certificate programs (number offered): 29

Off-Campus Activities (This listing was last updated: 01/06/2016; the information may not be current.) The institution's accreditation includes courses and programs at:

Location	Campuses	Additional Locations
In-State:	None.	Atchison - Atchison, KS; Highland Community College - Baileyville, KS; Holton - Holton, KS; Perry - Perry, KS; Wamego - Wamego, KS;
Out-of-State:	None.	None.
Out-of-U.S.:	None.	None.

About HLC and Accreditation

Institutions of higher education in the United States seek accreditation through two types of accreditation agencies, institutional and specialized. Institutional accreditation agencies are classified as regional and national.

National accreditation associations focus on certain types of colleges such as trade and technical institutions, or religious colleges such as seminaries and bible colleges.

Regional accreditation agencies are recognized by the U.S. Department of Education to accredit degree granting colleges and universities. There are six regions of the U.S. in which regional agencies operate. The regional accreditation agencies have similar standards for accrediting colleges and universities.

Regional accreditation validates the quality of an institution as a whole and evaluates multiple aspects of an institution ranging from its academic offerings, governance and administration, mission, finances, and resources.

The Higher Learning Commission is a regional accreditation agency that accredits degree granting institutions of higher education that are based in the 19-state North Central region of the United States. Institutions that HLC accredits are evaluated against HLC's Criteria for Accreditation, a set of standards that institutions must meet to receive and/or maintain accredited status.

HLC's Criteria for Accreditation reflect a set of guiding values. The accreditation process is based on a system of peer review. Approximately 1,300 educators from institutions of higher education serve as peer reviewers conducting accreditation evaluations for other institutions. Peer reviewers also serve on committees that make up the decision-making bodies of the accreditation process.

Evaluation Process

HLC accreditation assures quality by verifying that an institution (1) meets standards and (2) is engaged in continuous improvement. In addition, all institution's are required to complete an annual filing of the Institutional Update, undergo annual monitoring of financial and non-financial indicators, and adhere to HLC policies and practices on institutional change.

Peer reviewers trained in HLC's standards evaluate institution's demonstration of whether they meet the Criteria for Accreditation and make recommendations to HLC's decision-making bodies.

Institutional Actions Council (Decision-Making Body)

The Board of Trustees appoints and authorizes members of the Institutional Actions Council (IAC) to conduct reviews and take actions on the majority of accreditation recommendations. IAC members consist of representatives of academic institutions accredited by HLC, as well as members of the public. Detailed information on IAC processes is found in HLC's policies on decision-making.

Public Information

In the interest of being transparent, HLC is committed to providing information to the public regarding accreditation decisions made regarding individual institutions.

Actions that are taken by HLC regarding an institution's accreditation status are disclosed to the public. Beginning July 2013, in all cases of issuing continued accreditation, placing an institution on or resolving a sanction, or withdrawing accreditation, the Action Letter issued to the institution is made available for viewing and the institution's status in HLC's online directory is updated. Public Disclosure Notices are also issued in cases of sanction to provide the public more detail of the issues leading to sanction.

Complaints Against HLC Accredited Institutions

Each year, HLC receives a number of complaints about institutions from faculty, students, and other parties. HLC has established a clear distinction between individual grievances and complaints that appear to involve broad institutional practices. Where a complaint does raise issues regarding the institution's ongoing ability to meet the Criteria of Accreditation, HLC forwards the complaint to the institution and requests a formal response.

Complainants with specific claims related to the Americans with Disabilities Act or employment discrimination should seek prior review of such claims by the appropriate federal agencies. HLC may ask for the report or record of such review in determining whether it can proceed to consider the claim as a complaint related to compliance with the Criteria for Accreditation.

FEDERAL STUDENT AID START HERE. GO FURTHER."

UNITED STATES DEPARTMENT OF EDUCATION

FEDERAL STUDENT AID
SCHOOL ELIGIBILITY CHANNEL
SCHOOL PARTICIPATION TEAM
KANSAS CITY TEAM

Mr. David Reist
President
Highland Community College   **OPE ID 00192100**
606 West Main Street
Highland, KS 66035-4062

Dear Mr. Reist:

The Kansas City School Participation Team is pleased to inform you that, based upon the information included in your Application for Approval to Participate in Federal Student Financial Aid Programs, the Secretary of Education (Secretary) has determined that Highland Community College (Institution) satisfies the definition of an eligible institution under the Higher Education Act of 1965, as amended (HEA). Highland Community College will be listed in the next edition of the Directory of Postsecondary Institutions published by the U.S. Department of Education (Department).

OPE ID NUMBER

The OPE ID Number 00192100 is a unique identifier for the Institution. The OPE ID Number will also be the Institution's identification number for the Title IV, HEA programs. Please use the OPE ID Number in all communications with the Department.

ELIGIBILITY AND CERTIFICATION APPROVAL REPORT

Please print a copy of the **Eligibility and Certification Approval Report** (ECAR) Together, the **Program Participation Agreement** (PPA) that has been signed on behalf of the Secretary and the ECAR constitute the Kansas City School Participation Team's determination that the Institution has qualified to participate in programs under the Higher Education Act of 1965, as amended (HEA) and the Federal student financial assistance programs (Title IV, HEA programs).

The Institution must retain the ECAR and the PPA together.

The ECAR contains the most critical of the data elements that form the basis of the Institution's approval, and also a list of the highest level of offering, any nondegree or short term training programs, and any additional locations that provide 50 percent or more of an educational program that have been approved for the Title IV, HEA programs. The Institution may not award, distribute or disburse any Title IV, HEA program funds for any educational or training program that is beyond the scope of the approval contained in the ECAR, nor for any additional location providing 50 percent or more of an educational program that has not been approved and is not listed on the ECAR.

- In order to comply with the requirements of 34 CFR 668.8(1), some vocational or nondegree programs may have been approved for fewer credit hours than requested in the Institution's application.
- Vocational and nondegree programs that do not meet the requirements of 34 CFR Parts 600 and 668 have not been approved and are marked in the ECAR as not approved.
- The listing of Vocational Programs in the ECAR contains those nondegree programs that the Kansas City School Participation Team has determined are eligible programs for participation in the Title IV, HEA programs.
- The ECAR contains a list of HEA programs other than Title IV, HEA programs, for which the Institution is eligible to apply. This list does not mean that the Institution will automatically be eligible to participate in or receive funds under any HEA competitive grant program. Information concerning applications for, and the individual requirements of, the competitive grant program can be obtained from:

> Deputy Assistant Secretary
> Office of Higher Education Programs
> U.S. Department of Education
> 400 Maryland Avenue, S.W.
> Washington, DC 20202-5140

PROGRAM PARTICIPATION AGREEMENT

The PPA contains the agreement between the Institution and the Secretary concerning the Institution's participation in the Federal student financial assistance programs (Title IV, HEA programs).

CERTIFICATION FOR TITLE IV, HEA PROGRAMS

As explained in the PPA, Title IV, HEA programs administered by participating educational institutions are subject to applicable laws, regulations, and guidelines. Listed below are the appropriate telephone numbers for further information on the HEA programs:

- Federal Pell Grant Program (800) 474-7268
- Federal Family Education Loan Program (202) 377-4008
- Federal Direct Student Loan Program (800) 848-0978
    If the Institution wishes to begin participating in the Direct Loan Program or to request a change in its funding method, contact COD School Relations at the Federal Direct Student Loan Program number above or send an email to codsupport@acs-inc.com

- Federal Campus-Based Programs (877) 801-7168

   The Federal Campus-Based Programs are (a) the Federal Supplemental Educational Opportunity Grant Program, (b) the Federal Work-Study Program, and (c) the Federal Perkins Loan Program. To obtain funding under any or all of these programs, the Institution must file the Fiscal Operations Report and Application to Participate (FISAP) annually. FISAP packages are typically available at the end of July each year and the due date for electronic submission of this data is generally a postmark or transmission date of October 1. Please keep in mind that the October 1 submission is to obtain funding for the Award Year that begins the following July 1.

If the Institution does not already participate in the Title IV, HEA programs, the Institution must complete Fundamentals of Title IV Administration (Precertification) Training no later than 12 months after the Institution executed the PPA. Completion of this training must be not earlier than one year before beginning to participate in any Title IV, HEA program for which the Institution has not previously participated. If you wish to register for Fundamentals of Title IV Administration (Precertification) Training, please register at http://www.register123.com/event/profile/web/index.cfm? PKwebID=0x112117625&varPage=info. For information concerning the training, contact the Kansas City Team at the telephone number listed later in this letter.

Participating educational institutions will be reviewed at least once every six years to determine whether the institutions remain administratively capable and financially responsible to administer Title IV programs and funds.

REPORTING AND REAPPLICATION REQUIREMENTS

The Institution must report promptly to the Department certain changes and actions that affect the Institution's participation approval, as specified in 34 CFR 600 and 668, including, but not limited to:

- Change of name and/or address;
- New contract or significant modification of existing contract with a third party servicer;
- Change in exercise of a person's substantial control over the Institution, e.g., a change in the chief executive officer or members of the board of trustees or board of directors.
- Change in the way the Institution measures educational program length;
- Change in the level of course offerings;
- Additions and/or closures of non-main campus locations that offer at least 50% of an educational program;
- Change of accrediting agency;
- Change of the State agency that confers legal authority on the Institution to offer programs of postsecondary education; or
- Change in ownership *whether or not* that ownership change results in a change in control of the Institution.

If the Institution fails to report any such changes within ten days after the change occurs, the ability of the Institution to administer the Title IV student financial assistance programs properly will be called into question. As a consequence, we will consider whether it is necessary to monitor the Institution's receipt of Federal funds more closely. Failure to report

changes within the time frame required may also result in an adverse action being taken against the Institution in accordance with 34 CFR 668, Subpart G.

Automatic Termination of Approval

This Approval for Institutional Participation automatically terminates on the happening of any of the following events:

- June 30, 2020
- The date the Institution loses the legal authority to offer programs of postsecondary education in the State in which it is located;
- The date the Institution loses accreditation from its designated primary accrediting agency;
- The date the Institution ceases to offer all approved postsecondary instruction;
- The date the Institution merges with another institution;
- The date the Institution undergoes a change in ownership resulting in a change of control;
- The date the Institution files for bankruptcy; or
- The date the Institution otherwise ceases to meet the definition of an eligible institution of higher education.

Please send all information or documentation required by this letter to:

United States Department of Education
Federal Student Aid, Schools Channel
Attention: Kansas City School Participation Team
1010 Walnut
Suite 336
Kansas City, MO 64106-2147

One of the institutional eligibility requirements is that the institution must admit as regular students only persons who have a high school diploma; have the recognized equivalent of a high school diploma; or are beyond the age of compulsory school attendance in the State in which the institution is physically located (see 34 CFR 600.4, 5 or 6). This means if the student is not yet beyond the age of compulsory school attendance in the State in which the institution is physically located, the institution can only enroll the individual as a regular student if he or she has a high school diploma or its equivalent.

One of the student eligibility requirements is that an eligible student is one who is not enrolled in either an elementary or secondary school (see 34 CFR 668.32). This means that an institution cannot accept as a regular student at this school, an individual who is also enrolled at the same time in elementary or high school.

The telephone number for the Kansas City Team is (816) 268-0410. The fax number is (816) 268-0444.

Sincerely,

Ralph LoBosco
Area Case Director

PROGRAM PARTICIPATION AGREEMENT
[PROVISIONAL APPROVAL]

Effective Date of Approval:	The date on which this Agreement is signed on behalf of the Secretary of Education
Approval Expiration Date:	**June 30, 2020**
Reapplication Date:	**March 31, 2020**

Name of Institution: **Highland Community College**

Address of Institution: **606 West Main Street**
Highland, KS 66035-4062

RECEIVED
AUG 2 1 2017
FSA, KANSAS CITY

OPE ID Number: **00192100**
DUNS Number: **084098136**
Taxpayer Identification Number (TIN): **480760016**

> **The execution of this Agreement by the Institution and the Secretary is a prerequisite to the Institution's initial or continued participation in any Title IV, HEA Program.**

The postsecondary educational institution listed above, referred to hereafter as the "Institution," and the United States Secretary of Education, referred to hereafter as the "Secretary," agree that the Institution may participate in those student financial assistance programs authorized by Title IV of the Higher Education Act of 1965, as amended (Title IV, HEA Programs) indicated under this Agreement and further agrees that such participation is subject to the terms and conditions set forth in this Agreement. As used in this Agreement, the term "Department" refers to the U.S. Department of Education.

SCOPE OF COVERAGE

This Agreement applies to all locations of the Institution as stated on the most current ELIGIBILITY AND CERTIFICATION APPROVAL REPORT issued by the Department. This

Agreement covers the Institution's eligibility to participate in each of the following listed Title IV, HEA programs, and incorporates by reference the regulations cited.

- **FEDERAL PELL GRANT PROGRAM,** 20 U.S.C. §§ 1070a *et seq.*; 34 C.F.R. Part 690.

- **FEDERAL FAMILY EDUCATION LOAN PROGRAM,** 20 U.S.C. §§ 1071 *et seq.*; 34 C.F.R. Part 682.

- **FEDERAL DIRECT STUDENT LOAN PROGRAM,** 20 U.S.C. §§ 1087a *et seq.*; 34 C.F.R. Part 685.

PROVISIONAL CERTIFICATION

This provisional certification is granted for a limited period to permit the Institution to participate in the Title IV, HEA programs referenced in this Agreement. During the period of provisional certification, the participation of the Institution will be subject to revocation for cause. Cause for revocation includes, without limitation, a failure to comply with any provision set forth in this Agreement, a violation of Department regulations deemed material by the Department, or a material misrepresentation in the material submitted to the Department as part of the Institution's application process for this certification. The Department in its sole discretion may provide the Institution with an opportunity to cure any such failure, may place the Institution on reimbursement funding pending a decision regarding revocation of this Agreement by a designated Department official, or may suspend the participation of the Institution pending a decision by the Department regarding revocation of this Agreement. In the event the Department chooses to revoke this Agreement and the Institution's participation in the Title IV, HEA programs, the Institution will have the right to show cause why this Agreement should not be revoked by presenting its objections to the designated Department official in writing. The Institution agrees that this opportunity to show cause, and not the procedures in 34 C.F.R. 668 subpart G, shall be the sole administrative appeal regarding such revocation. The decision by the designated Department official will constitute the final agency action.

Special Requirements for Substantial Changes Made During Term of Provisional Certification

Any institution provisionally certified must apply for and receive approval by the Secretary for expansion or of any substantial change (as hereinafter identified) before it may award, disburse or distribute Title IV, HEA funds based on the substantial change. Substantial changes generally include, but are not limited to: (a) establishment of an additional location; (b) increase in the level of academic offering beyond those listed in the Institution's Eligibility and Certification Approval Report (ECAR); or (c) addition of any educational program (including degree, nondegree, or short-term training programs).

If the Institution applies for the Secretary's approval of a substantial change, the Institution must

demonstrate that it has the financial and administrative resources necessary to assure the Institution's continued compliance with the standards of financial responsibility (34 C.F.R. 668.15) and administrative capability (34 C.F.R. 668.16).

Reasons and Special Conditions of Provisional Certification

Program Review Condition

A program review of the institution's administration of the Title IV, HEA Programs was conducted. The institution is accountable for all program review liabilities and fines and must resolve all deficiencies. The program review liabilities must be paid by the date specified in the Final Program Review Determination Letter establishing the liabilities, and paid in full prior to the expiration of the Program Participation Agreement unless (a) the determinations of the program review are under appeal, or (b) alternative payment arrangements have been made with the Department's Debt Collection Services.

Late Submission of Compliance Audits

The institution has submitted one or more compliance audit(s) of its Title IV, HEA programs after the deadline for submission. The institution has an affirmative duty to meet the standards of conduct required of a fiduciary, as set forth in 34 CFR §668.82. In the capacity of a fiduciary, an institution is subject to the highest standards of care and diligence in administering the Title IV, HEA programs in accounting for the funds received for those programs. The failure of the institution to submit its audit(s) in a timely manner is evidence of a lack of administrative capability under 34 CFR §668.16(a). The institution is accountable for all audit liabilities and fines, if any, and must resolve all audit deficiencies, if any, before the expiration of this provisional certification. Any audit liabilities determined by the Department must be paid by the date specified in the letter establishing the liabilities, and paid in full prior to the expiration of the Program Participation Agreement unless (a) the determinations of the audit are under appeal, or (b) alternative payment arrangements have been made with the Department's Financial Operations Division. Further, the institution is advised that if it fails to submit an acceptable audit by the required date, during the provisional period, its provisional PPA will be recommended for possible administrative action.

New Degree Program at Public or Private Non-Profit

In addition to the expansions and substantial changes identified above under Special Requirements for Substantial Changes Made During Term of Provisional Certification, as a provisionally certified public or private non-profit institution, the institution must also apply for and receive approval by the Secretary for the addition of any degree programs.

Application for Recertification

Upon completion of the period of provisional certification, if the Institution wishes to apply for recertification to participate in the Title IV, HEA programs, the Institution must submit a completed Application for Approval to Participate in Federal Student Financial Aid Programs, together with all required supporting documentation, no later than March 31, 2020.

Grant or Denial of Full Certification

Notwithstanding any paragraph above, the provisional certification ends upon the Department's

notification to the Institution of the Department's decision to grant or deny a six year certification to participate in the Title IV, HEA programs.

GENERAL TERMS AND CONDITIONS

1. The Institution understands and agrees that it is subject to and will comply with the program statutes and implementing regulations for institutional eligibility as set forth in 34 C.F.R. Part 600 and for each Title IV, HEA program in which it participates, as well as the general provisions set forth in Part F and Part G of Title IV of the HEA, and the Student Assistance General Provisions regulations set forth in 34 C.F.R. Part 668.
The recitation of any portion of the statute or regulations in this Agreement does not limit the Institution's obligation to comply with other applicable statutes and regulations.

2. a. The Institution certifies that on the date it signs this Agreement, it has a drug abuse prevention program in operation that it has determined is accessible to any officer, employee, or student at the Institution.
   b. The Institution certifies that on the date it signs this Agreement, it is in compliance with the disclosure requirements of Section 485(f) of the HEA (Campus Security Policy and Campus Crime Statistics).

3. The Institution agrees to comply with --
   a. Title VI of the Civil Rights Act of 1964, as amended, and the implementing regulations, 34 C.F.R. Parts 100 and 101 (barring discrimination on the basis of race, color or national origin);
   b. Title IX of the Education Amendments of 1972 and the implementing regulations, 34 C.F.R. Part 106 (barring discrimination on the basis of sex);
   c. The Family Educational Rights and Privacy Act of 1974 and the implementing regulations, 34 C.F.R. Part 99;
   d. Section 504 of the Rehabilitation Act of 1973 and the implementing regulations, 34 C.F.R. Part 104 (barring discrimination on the basis of physical handicap); and
   e. The Age Discrimination Act of 1975 and the implementing regulations, 34 C.F.R. Part 110.
   f. The Standards for Safeguarding Customer Information, 16 C.F.R. Part 314, issued by the Federal Trade Commission (FTC), as required by the Gramm-Leach-Bliley (GLB) Act, P.L. 106-102. These Standards are intended to ensure the security and confidentiality of customer records and information. The Secretary considers any breach to the security of student records and information as a demonstration of a potential lack of administrative capability as stated in 34 C.F.R. 668.16(c). Institutions are strongly encouraged to inform its students and the Department of any such breaches.

4. The Institution acknowledges that 34 C.F.R. Parts 602 and 667 require accrediting agencies, State regulatory bodies, and the Secretary to share information about institutions. The Institution agrees that the Secretary, any accrediting agency recognized by the Secretary, and any State regulatory body may share or report information to one another about the Institution without limitation.

5. The Institution acknowledges that the HEA prohibits the Secretary from recognizing the accreditation of any institution of higher education unless that institution agrees to submit any dispute involving the final denial, withdrawal, or termination of accreditation to initial arbitration prior to any other legal action.

SELECTED PROVISIONS FROM

GENERAL PROVISIONS REGULATIONS, 34 C.F.R. PART 668.14

An institution's program participation agreement applies to each branch campus and other location of the institution that meets the applicable requirements of this part unless otherwise specified by the Secretary.

(b) By entering into a program participation agreement, an institution agrees that--

(1) It will comply with all statutory provisions of or applicable to Title IV of the HEA, all applicable regulatory provisions prescribed under that statutory authority, and all applicable special arrangements, agreements, and limitations entered into under the authority of statutes applicable to Title IV of the HEA, including the requirement that the institution will use funds it receives under any Title IV, HEA program and any interest or other earnings thereon, solely for the purposes specified in and in accordance with that program;

(2) As a fiduciary responsible for administering Federal funds, if the institution is permitted to request funds under a Title IV, HEA program advance payment method, the institution will time its requests for funds under the program to meet the institution's immediate Title IV, HEA program needs;

(3) It will not request from or charge any student a fee for processing or handling any application, form, or data required to determine a student's eligibility for, and amount of, Title IV, HEA program assistance;

(4) It will establish and maintain such administrative and fiscal procedures and records as may be necessary to ensure proper and efficient administration of funds received from the Secretary or from students under the Title IV, HEA programs, together with assurances that the institution will provide, upon request and in a timely manner, information relating to the administrative capability and financial responsibility of the institution to--

(i) The Secretary;

(ii) A guaranty agency, as defined in 34 CFR part 682, that guarantees loans made under the Federal Stafford Loan and Federal PLUS programs for attendance at the institution or any of the institution's branch campuses or other locations;

(iii) The nationally recognized accrediting agency that accredits or preaccredits the institution or any of the institution's branch campuses, other locations, or educational programs;

(iv) The State agency that legally authorizes the institution and any branch campus or other location of the institution to provide postsecondary education; and

(v) In the case of a public postsecondary vocational educational institution that is approved by a State agency recognized for the approval of public postsecondary vocational education, that State agency;

(5) It will comply with the provisions of § 668.15 relating to factors of financial responsibility;

(6) It will comply with the provisions of § 668.16 relating to standards of administrative capability;

(7) It will submit reports to the Secretary and, in the case of an institution participating in the Federal Stafford Loan, Federal PLUS, or the Federal Perkins Loan Program, to holders of loans made to the institution's students under that program at such times and containing such information as the Secretary may reasonably require to carry out the purpose of the Title IV, HEA programs;

(8) It will not provide any statement to any student or certification to any lender in the case of an FFEL Program loan, or origination record to the Secretary in the case of a Direct Loan Program loan that qualifies the student or parent for a loan or loans in excess of the amount that the student or parent is eligible to borrow in accordance with sections 425(a), 428(a)(2), 428(b)(1)(A) and (B), 428B, 428H and 455(a) of the HEA;

(9) It will comply with the requirements of Subpart D of this part concerning institutional and financial assistance information for students and prospective students;

(10) In the case of an institution that advertises job placement rates as a means of attracting students to enroll in the institution, it will make available to prospective students, at or before the time that

those students apply for enrollment--

(i) The most recent available data concerning employment statistics, graduation statistics, and any other information necessary to substantiate the truthfulness of the advertisements; and

(ii) Relevant State licensing requirements of the State in which the institution is located for any job for which an educational program offered by the institution is designed to prepare those prospective students;

(11) In the case of an institution participating in the FFEL Program, the institution will inform all eligible borrowers, as defined in 34 CFR part 682, enrolled in the institution about the availability and eligibility of those borrowers for State grant assistance from the State in which the institution is located, and will inform borrowers from another State of the source for further information concerning State grant assistance from that State;

(12) It will provide the certifications described in paragraph (c) of this section;

(13) In the case of an institution whose students receive financial assistance pursuant to section 484(d) of the HEA, the institution will make available to those students a program proven successful in assisting students in obtaining the recognized equivalent of a high school diploma;

(14) It will not deny any form of Federal financial aid to any eligible student solely on the grounds that the student is participating in a program of study abroad approved for credit by the institution;

(15) (i) Except as provided under paragraph (b)(15)(ii) of this section, the institution will use a default management plan approved by the Secretary with regard to its administration of the FFEL or Direct Loan programs, or both for at least the first two years of its participation in those programs, if the institution --

(A) Is participating in the FFEL or Direct Loan programs for the first time; or

(B) Is an institution that has undergone a change of ownership that results in a change in control and is participating in the FFEL or Direct Loan programs.

(ii) The institution does not have to use an approved default management plan if --

(A) The institution, including its main campus and any branch campus, does not have a cohort default rate in excess of 10 percent; and

(B) The owner of the institution does not own and has not owned any other institution that had a cohort default rate in excess of 10 percent while that owner owned the institution.

(16) For a proprietary institution, the institution will derive at least 10 percent of its revenues for each fiscal year from sources other than Title IV, HEA program funds, as provided in § 668.28(a) and (b), or be subject to sanctions described in § 668.28(c);

(17) The Secretary, guaranty agencies and lenders as defined in 34 CFR part 682, nationally recognized accrediting agencies, the Secretary of Veterans Affairs, State agencies recognized under 34 CFR part 603 for the approval of public postsecondary vocational education, and State agencies that legally authorize institutions and branch campuses or other locations of institutions to provide postsecondary education, have the authority to share with each other any information pertaining to the institution's eligibility for or participation in the Title IV, HEA programs or any information on fraud and abuse;

(18) It will not knowingly --

(i) Employ in a capacity that involves the administration of the Title IV, HEA programs or the receipt of funds under those programs, an individual who has been convicted of, or has pled *nolo contendere* or guilty to, a crime involving the acquisition, use, or expenditure of Federal, State, or local government funds, or has been administratively or judicially determined to have committed fraud or any other material violation of law involving Federal, State, or local government funds;

(ii) Contract with an institution or third-party servicer that has been terminated under section 432 of the HEA for a reason involving the acquisition, use, or expenditure of Federal, State, or local government funds, or that has been administratively or judicially determined to have committed fraud or any other material violation of law involving Federal, State, or local government funds; or

(iii) Contract with or employ any individual, agency, or organization that has been, or whose officers

or employees have been--

(A) Convicted of, or pled *nolo contendere* or guilty to, a crime involving the acquisition, use, or expenditure of Federal, State, or local government funds; or

(B) Administratively or judicially determined to have committed fraud or any other material violation of law involving Federal, State, or local government funds;

(19) It will complete, in a timely manner and to the satisfaction of the Secretary, surveys conducted as a part of the Integrated Postsecondary Education Data System (IPEDS) or any other Federal collection effort, as designated by the Secretary, regarding data on postsecondary institutions;

(20) In the case of an institution that is co-educational and has an intercollegiate athletic program, it will comply with the provisions of § 668.48;

(21) It will not impose any penalty, including, but not limited to, the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that the student borrow additional funds for which interest or other charges are assessed, on any student because of the student's inability to meet his or her financial obligations to the institution as a result of the delayed disbursement of the proceeds of a Title IV, HEA program loan due to compliance with statutory and regulatory requirements of or applicable to the Title IV, HEA programs, or delays attributable to the institution;

(22)(i) It will not provide any commission, bonus, or other incentive payment based in any part, directly or indirectly, upon success in securing enrollments or the award of financial aid, to any person or entity who is engaged in any student recruitment or admission activity, or in making decisions regarding the award of title IV, HEA program funds.

(A) The restrictions in paragraph (b)(22) of this section do not apply to the recruitment of foreign students residing in foreign countries who are not eligible to receive Federal student assistance.

(B) For the purpose of paragraph (b)(22) of this section, an employee who receives multiple adjustments to compensation in a calendar year and is engaged in any student enrollment or admission activity or in making decisions regarding the award of title IV, HEA program funds is considered to have received such adjustments based upon success in securing enrollments or the award of financial aid if those adjustments create compensation that is based in any part, directly or indirectly, upon success in securing enrollments or the award of financial aid.

(ii) Notwithstanding paragraph (b)(22)(i) of this section, eligible institutions, organizations that are contractors to eligible institutions, and other entities may make--

(A) Merit-based adjustments to employee compensation provided that such adjustments are not based in any part, directly or indirectly, upon success in securing enrollments or the award of financial aid; and

(B) Profit-sharing payments so long as such payments are not provided to any person or entity engaged in student recruitment or admission activity or in making decisions regarding the award of title IV, HEA program funds.

(iii) As used in paragraph (b)(22) of this section,

(A) *Commission, bonus, or other incentive payment* means a sum of money or something of value, other than a fixed salary or wages, paid to or given to a person or an entity for services rendered.

(B) *Securing enrollments or the award of financial aid* means activities that a person or entity engages in at any point in time through completion of an educational program for the purpose of the admission or matriculation of students for any period of time or the award of financial aid to students.

(1) These activities include contact in any form with a prospective student, such as, but not limited to--contact through preadmission or advising activities, scheduling an appointment to visit the enrollment office or any other office of the institution, attendance at such an appointment, or involvement in a prospective student's signing of an enrollment agreement or financial aid application.

(2) These activities do not include making a payment to a third party for the provision of student

contact information for prospective students provided that such payment is not based on--

(i) Any additional conduct or action by the third party or the prospective students, such as participation in preadmission or advising activities, scheduling an appointment to visit the enrollment office or any other office of the institution or attendance at such an appointment, or the signing, or being involved in the signing, of a prospective student's enrollment agreement or financial aid application; or

(ii) The number of students (calculated at any point in time of an educational program) who apply for enrollment, are awarded financial aid, or are enrolled for any period of time, including through completion of an educational program.

(C) *Entity or person engaged in any student recruitment or admission activity or in making decisions about the award of financial aid* means--

(1) With respect to an entity engaged in any student recruitment or admission activity or in making decisions about the award of financial aid, any institution or organization that undertakes the recruiting or the admitting of students or that makes decisions about and awards title IV, HEA program funds; and

(2) With respect to a person engaged in any student recruitment or admission activity or in making decisions about the award of financial aid, any employee who undertakes recruiting or admitting of students or who makes decisions about and awards title IV, HEA program funds, and any higher level employee with responsibility for recruitment or admission of students, or making decisions about awarding title IV, HEA program funds.

(D) *Enrollment* means the admission or matriculation of a student into an eligible institution.

(23) It will meet the requirements established pursuant to Part H of Title IV of the HEA by the Secretary and nationally recognized accrediting agencies;

(24) It will comply with the requirements of § 668.22;

(25) It is liable for all--

(i) Improperly spent or unspent funds received under the Title IV, HEA programs, including any funds administered by a third-party servicer; and

(ii) Returns any title IV, HEA program funds that the institution or its servicer may be required to make;

(26) If an educational program offered by the institution is required to prepare a student for gainful employment in a recognized occupation, the institution must--

(i) Demonstrate a reasonable relationship between the length of the program and entry level requirements for the recognized occupation for which the program prepares the student. The Secretary considers the relationship to be reasonable if the number of clock hours provided in the program does not exceed by more than 50 percent the minimum number of clock hours required for training in the recognized occupation for which the program prepares the student, as established by the State in which the institution is located, if the State has established such a requirement, or as established by any Federal agency;

(ii) Establish the need for the training for the student to obtain employment in the recognized occupation for which the program prepares the student; and

(iii) Provide for that program the certification required in § 668.414.

(27) In the case of an institution participating in a Title IV, HEA loan program, the institution --

(i) Will develop, publish, administer, and enforce a code of conduct with respect to loans made, insured or guaranteed under the Title IV, HEA loan programs in accordance with 34 CFR 601.21; and

(ii) Must inform its officers, employees, and agents with responsibilities with respect to loans made, insured or guaranteed under the Title IV, HEA loan programs annually of the provisions of the code required under paragraph (b)(27) of this section;

(28) For any year in which the institution has a preferred lender arrangement (as defined in 34 CFR 601.2(b)), it will at least annually compile, maintain, and make available for students attending the

institution, and the families of such students, a list in print or other medium, of the specific lenders for loans made, insured, or guaranteed under Title IV, of the HEA or private education loans that the institution recommends, promotes, or endorses in accordance with such preferred lender arrangement. In making such a list, the institution must comply with the requirements in 34 CFR 682.212(h) and 34 CFR 601.10;

(29) (i) It will, upon the request of an enrolled or admitted student who is an applicant for a private education loan (as defined in 34 CFR part 601.2(b)), provide to the applicant the self-certification form required under 34 CFR 601.11(d) and the information required to complete the form, to the extent the institution possesses such information, including --

(A) The applicant's cost of attendance at the institution, as determined by the institution under part F of Title IV, of the HEA;

(B) The applicant's estimated financial assistance, including amounts of financial assistance used to replace the expected family contribution as determined by the institution in accordance with Title IV, for students who have completed the Free Application for Federal Student Aid; and

(C) The difference between the amounts under paragraphs (b)(29)(i)(A) and (29)(i)(B) of this section, as applicable.

(ii) It will, upon the request of the applicant, discuss with the applicant the availability of Federal, State, and institutional student financial aid;

(30) The institution --

(i) Has developed and implemented written plans to effectively combat the unauthorized distribution of copyrighted material by users of the institution's network, without unduly interfering with educational and research use of the network, that include --

(A) The use of one or more technology-based deterrents;

(B) Mechanisms for educating and informing its community about appropriate versus inappropriate use of copyrighted material, including that described in § 668.43(a)(10);

(C) Procedures for handling unauthorized distribution of copyrighted material, including disciplinary procedures; and

(D) Procedures for periodically reviewing the effectiveness of the plans to combat the unauthorized distribution of copyrighted materials by users of the institution's network using relevant assessment criteria. No particular technology measures are favored or required for inclusion in an institution's plans, and each institution retains the authority to determine what its particular plans for compliance with paragraph (b)(30) of this section will be, including those that prohibit content monitoring; and

(ii) Will, in consultation with the chief technology officer or other designated officer of the institution--

(A) Periodically review the legal alternatives for downloading or otherwise acquiring copyrighted material;

(B) Make available the results of the review in paragraph (b)(30)(ii)(A) of this section to its students through a Web site or other means; and

(C) To the extent practicable, offer legal alternatives for downloading or otherwise acquiring copyrighted material, as determined by the institution; and

(31) The institution will submit a teach-out plan to its accrediting agency in compliance with 34 CFR 602.24(c), and the standards of the institution's accrediting agency upon the occurrence of any of the following events:

(i) The Secretary initiates the limitation, suspension, or termination of the participation of an institution in any Title IV, HEA program under 34 CFR 600.41 or subpart G of this part or initiates an emergency action under § 668.83.

(ii) The institution's accrediting agency acts to withdraw, terminate, or suspend the accreditation or preaccreditation of the institution.

(iii) The institution's State licensing or authorizing agency revokes the institution's license or legal authorization to provide an educational program.

(iv) The institution intends to close a location that provides 100 percent of at least one program.

(v) The institution otherwise intends to cease operations.

(c) In order to participate in any Title IV, HEA program (other than the LEAP and NEISP programs), the institution must certify that it--

(1) Has in operation a drug abuse prevention program that the institution has determined to be accessible to any officer, employee, or student at the institution; and

(2)(i) Has established a campus security policy in accordance with section 485(f) of the HEA; and

(ii) Has complied with the disclosure requirements of § 668.47 as required by section 485(f) of the HEA.

(d)(1) The institution, if located in a State to which section 4(b) of the National Voter Registration Act (42 U.S.C. 1973gg-2(b)) does not apply, will make a good faith effort to distribute a mail voter registration form, requested and received from the State, to each student enrolled in a degree or certificate program and physically in attendance at the institution, and to make those forms widely available to students at the institution.

(2) The institution must request the forms from the State 120 days prior to the deadline for registering to vote within the State. If an institution has not received a sufficient quantity of forms to fulfill this section from the State within 60 days prior to the deadline for registering to vote in the State, the institution is not liable for not meeting the requirements of this section during that election year.

(3) This paragraph applies to elections as defined in Section 301(1) of the Federal Election Campaign Act of 1971 (2 U.S.C. 431(1)), and includes the election for Governor or other chief executive within such State.

(e)(1) A program participation agreement becomes effective on the date that the Secretary signs the agreement.

(2) A new program participation agreement supersedes any prior program participation agreement between the Secretary and the institution.

(f)(1) Except as provided in paragraphs (g) and (h) of this section, the Secretary terminates a program participation agreement through the proceedings in subpart G of this part.

(2) An institution may terminate a program participation agreement.

(3) If the Secretary or the institution terminates a program participation agreement under paragraph (f) of this section, the Secretary establishes the termination date.

(g) An institution's program participation agreement automatically expires on the date that--

(1) The institution changes ownership that results in a change in control as determined by the Secretary under 34 CFR part 600; or

(2) The institution's participation ends under the provisions of § 668.26(a)(1), (2), (4), or (7).

(h) An institution's program participation agreement no longer applies to or covers a location of the institution as of the date on which that location ceases to be a part of the participating institution.

WILLIAM D. FORD FEDERAL DIRECT LOAN PROGRAM

If an institution participates in the William D. Ford Federal Direct Loan (Direct Loan) Program, the institution and its representatives shall comply with the statute, guidelines, and regulations governing the Title IV, Part D, William D. Ford Federal Direct Loan Program as required by 20 U.S.C. §§ 1087a *et seq.* (Part C) and 34 C.F.R. Part 685.

The institution will:

1. Provide for the establishment and maintenance of a Direct Loan Program at the Institution that will:

Identify eligible students who seek student financial assistance in accordance with Section 484 of the Higher Education Act of 1965, as amended (the HEA).

Estimate the need of students as required under Title IV, Part F of the HEA.

Provide a certification statement of eligibility for students to receive loans that will not exceed the annual or aggregate limits, except the Institution may exercise its authority, under exceptional circumstances identified by the Secretary, to refuse to certify a statement that permits a student to receive a loan, or certify a loan amount that is less than the student's determination of need, if the reason for such action is documented and provided in written form to a student.

Establish a schedule for disbursement of loan proceeds to meet the requirements of Section 428G of the HEA.

Provide timely and accurate information to the Secretary concerning 1) the status of borrowers while students are in attendance, any new information pertaining to the status of student borrowers of which the Institution becomes aware after the student leaves the Institution, and 2) the utilization of Federal funds under Title IV, Part D of the HEA at such times and in such manner as prescribed by the Secretary.

2. Comply with requirements established by the Secretary relating to student loan information with respect to the Direct Loan Program.

3. Provide that students at the Institution and their parents (with respect to such students) will be eligible to participate in the programs under Title IV, Part B of the HEA, Federal Family Education Loan programs, at the discretion of the Secretary for the period during which such Institution participates in the Direct Loan Program, except that a student or parent may not receive loans under both Title IV, Part B and Part D of the HEA for the same period of enrollment.

4. Provide for the implementation of a quality assurance system, as established by the Secretary and developed in consultation with Institutions of higher education, to ensure that the Institution is complying with program requirements and meeting program objectives.

5. Provide that the Institution will not charge any fees of any kind, regardless of how they are described, to student or parent borrowers for loan application, or origination activities (if applicable), or the provision and processing of any information necessary for a student or parent to receive a loan under Title IV, Part D of the HEA.

6. Provide that the Institution will originate loans to eligible students and parents in accordance with the requirements of Title IV, Part D of the HEA and use funds advanced to it solely for that purpose (Option 2 only).

7. Provide that the note or evidence of obligation of the loan shall be the property of the Secretary (Options 2 and 1 only).

8. Comply with other provisions as the Secretary determines are necessary to protect the interest of the United States and to promote the purposes of Title IV, Part D of the HEA.

9. Accept responsibility and financial liability stemming from its failure to perform its functions

under this Program Participation Agreement.

CERTIFICATIONS REQUIRED FROM INSTITUTIONS

The Institution should refer to the regulations cited below. Signature on this Agreement provides for compliance with the certification requirements under 34 C.F.R. Part 82, "New Restrictions on Lobbying," 34 C.F.R Part 84, "Governmentwide Requirements for Drug-Free Workplace (Financial Assistance)," 34 C.F.R. Part 85, "Governmentwide Debarment and Suspension (Nonprocurement)," and 34 C.F.R. Part 86, "Drug and Alcohol Abuse Prevention." Breach of any of these certifications constitutes a breach of this Agreement.

PART 1 CERTIFICATION REGARDING LOBBYING; DRUG-FREE WORKPLACE; DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS; AND DRUG AND ALCOHOL ABUSE PREVENTION

1. Lobbying

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 34 C.F.R. Part 82, for persons entering into a Federal contract, grant or cooperative agreement over $100,000, as defined at 34 C.F.R. Part 82, Sections 82.105, and 82.110, the undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan or cooperative agreement, the undersigned shall complete and submit Standard Form - LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The Institution shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants and contracts under grants, loans and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

2a. Drug-Free Workplace (Grantees Other Than Individuals)

As required by the Drug-Free Workplace Act of 1988, and implemented at 34 C.F.R. Part 84, Subpart B, for grantees, as defined at 34 C.F.R. Part 84, Sections 84.200 through 84.230 -

The Institution certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a drug-free workplace statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an on-going drug-free awareness program to inform employees about-

(1) The dangers of drug abuse in the workplace;

(2) The Institution's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will -

(1) Abide by the terms of the statement, and

(2) Notify the employer in writing if he or she is convicted for a violation of a criminal drug statute occurring in the workplace no more than five calendar days after such conviction;

(e) Notifying the agency, in writing, within 10 calendar days after receiving notice under this subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to: Director, Grants and Contracts Service, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, DC 20202. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is so convicted -

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1972, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e), and (f).

2b. Drug-Free Workplace (Grantees Who Are Individuals)

As required by the Drug-Free Workplace Act of 1988, and implemented at 34 C.F.R. Part 84, Subpart C, for recipients who are individuals, as defined at 34 C.F.R. Part 84, Section 84.300 -

1. As a condition of the grant, the Institution certifies that it will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in conducting any activity related to the award; and

2. If any officer or owner of the Institution is convicted of a criminal drug offense resulting from a violation occurring during the conduct of any award activity, the Institution will report the conviction, in writing, within 10 calendar days of the conviction, to: Director, Grants and Contracts Service, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, DC 20202. Notice shall include the identification number(s) of each affected grant.

3. Debarment, Suspension, and Other Responsibility Matters

As required by Executive Order 12549, Debarment and Suspension, and implemented at 34 C.F.R. Part 85, for prospective participants in primary covered transactions as defined at 34 C.F.R. Part 85, Sections 85.105 and 85.110, the Institution certifies that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

(b) Have not within a three-year period preceding this application been convicted of or had a civil

judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public or private agreement or transaction; violation of Federal or State antitrust statutes; commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, receiving stolen property, making false claims, or obstruction of justice; or commission of any other offense indicating a lack of business integrity or business honesty that seriously and directly affects their present responsibility.

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (b) of this certification; and

(d) Have not within a three-year period preceding this application had one or more public transactions (Federal, State, or local) terminated for cause or default.

4. Drug and Alcohol Abuse Prevention

As required by the Drug-Free Schools and Communities Act Amendments of 1989, which added section 1213 to the Higher Education Act, and implemented at 34 C.F.R. Part 86, the undersigned Institution certifies that it has adopted and implemented a drug prevention program for its students and employees that, at a minimum, includes--

1. The annual distribution in writing to each employee, and to each student who is taking one or more classes for any kind of academic credit except for continuing education units, regardless of the length of the student's program of study, of:
   - Standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on its property or as part of any of its activities.
   - A description of the applicable legal sanctions under local, State or Federal law for the unlawful possession or distribution of illicit drugs and alcohol.
   - A description of the health risks associated with the use of illicit drugs and the abuse of alcohol.
   - A description of any drug or alcohol counseling, treatment, or rehabilitation or re-entry programs that are available to employees or students.
   - A clear statement that the Institution will impose disciplinary sanctions on students and employees (consistent with local, State and Federal law), and a description of those sanctions, up to and including expulsion or termination of employment and referral for prosecution, for violation of the standards of conduct. A disciplinary sanction may include the completion of an appropriate rehabilitation program.

2. A biennial review by the Institution of its program to:
   - Determine its effectiveness and implement changes to the program if they are needed.
   - Ensure that its disciplinary sanctions are consistently enforced.

PART 2 CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY, AND VOLUNTARY EXCLUSION -- LOWER TIER COVERED TRANSACTIONS

The Institution is to obtain the signatures of Lower Tier Contractors on reproduced copies of the certification below, and retain the signed certification(s) in the Institution's files.

CERTIFICATION BY LOWER TIER CONTRACTOR
(Before Completing Certification, Read Instructions for This Part 3, below)

(1) The prospective lower tier participant certifies by submission of this proposal, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal Department or Agency.

(2) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

Name of Lower Tier Organization	PR/Award Number or Project Name
Name of Authorized Representative	Title of Authorized Representative
Signature of Authorized Representative	Date

---

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to whom this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility, and

Voluntary Exclusion--Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

NOTE: A completed copy of the "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion--Lower Tier Covered Transactions" form must be retained by the Institution. The original blank certification must be returned with the PPA.

PART 3 CERTIFICATION REGARDING GAINFUL EMPLOYMENT PROGRAMS

A list of the reported Title IV eligible educational programs that the institution offers that are required to prepare students for gainful employment in a recognized occupation ("gainful employment programs") is included as part of the Eligibility and Certification Approval Report (ECAR) that is a part of this Program Participation Agreement. By signing this Program Participation Agreement, the institution certifies that:

1. the list of gainful employment programs it offers is accurate and complete;

2. each of the gainful employment programs is approved by a recognized accrediting agency or is otherwise included in the institution's accreditation by its recognized accrediting agency;

3. each of the gainful employment programs it offers is programmatically accredited, if such accreditation is required by a Federal governmental entity or a State where the institution or one of its additional locations is required to obtain State approval pursuant to 34 C.F.R. §600.9;

4. each gainful employment program in a State where the institution or one of its additional locations is located satisfies the licensure or certification requirements that are needed for a student who completes the gainful employment program to qualify to take any licensure or certification exam in that State that is needed for the student to practice or find employment in an occupation that the gainful employment program prepares the student to enter; and

5. for a gainful employment program for which the institution is establishing initial eligibility for Title IV, HEA program funds, the program is not substantially similar to a program offered by the institution that in the prior three years, became ineligible for Title IV, HEA program funds under the debt-to-earnings rates measure or was failing, or in the zone with respect to, the debt-to-earnings rates measure and was voluntarily discontinued by the institution.

IN WITNESS WHEREOF

the parties hereto have caused this Agreement to be executed by their duly authorized representatives.

Automotive Technology (2 yr)

Looking to jump start your career? Consider Automotive Technology! As a full-time time student, this program gives graduates the opportunity to enter the workforce in 18-months. Our Auto Technology program is ASE Education Foundation (formerly NATEF - National Automotive Technician Education Foundation) certified.

Students in the Auto Technology program learn to use up-to-date equipment and tools. ALLDATA and Mitchell-On-Demand programs are used in diagnosing and repairing vehicles. The program gives students the technical instruction and hands-on/live work experience necessary for ASE certification.

Drive into excellence with a career in Auto Technology from Highland Community College Technical Center!

Practical Nursing (1 yr)

The Practical Nursing program at Highland Community College Technical Center prepares students for employment as a Licensed Practical Nurse. Students will obtain the knowledge, skills and attitudes necessary to succeed in passing the National Licensure Examination (NCLEX-PN). Students will complete a nine-month course of study.

Licensed Practical Nurses play an important role in performing tasks in a variety of settings including long-term care facilities, doctor's offices, correctional facilities, hospitals and many more medical venues. Licensed Practical Nurses work under the direction of Registerd Nurses, advanced practice personnel and physicians. Some LPNs choose to continue their education toward Registered Nurse (RN).

Pre-Requisites for PN Program

Students are required to be a CNA (certified nursing aide) and take the following hours prior to entering the PN Program:

- Human Growth and Development-3 credit hours
- Human Anatomy & Human Physiology with lab - minimum of 5 credit hours. (There is a 7 year expiration date. If over 7 years, please contact the Nursing Department.)
  - BS104 Human Anatomy with lab- 4 credit hours
  - BS105 Human Physiology with lab- 4 credit hours

Applications

PN students begin classes each August and finish in May. Application materials (Nursing Program Application; Test Results; Transcripts; etc.) are due by April 1 each year. Forty students are accepted into the PN program each year. Students should contact the nursing department to obtain an informational packet with comprehensive application requirements by emailing **Nursing@highlandcc.edu**

Applicant's file must contain the following in order to interview:

1. Application with correct major/program and semester (select practical nursing and fall.)
2. Teas V Test: Minimum average score of 58.7%. Bring photo ID, arrive 15 minutes prior to start time, plan on two plus hours, fee is $65. Call (913) 367-6204, ext. 138 for open test dates
3. Work Keys Scores: Level 5 for Math and level 6 for Reading. Plan on two plus hours for these tests. Fee is $12 for each test for a total of $24.
4. CNA certification in Kansas or its equivalent if from another state. This must be current.
5. Proof of graduation from high school or completion of GED.

6. Letter of reference (form provided in information packet) from most recent employer that recommends applicant.
7. Transcripts verifying C or better grades for these college courses: Anatomy & Physiology (minimum of 5 credit hours with lab) and Human Growth and Development (3 credit hours).

The Selection Process is Point Driven:

An applicant's file is complete when items 1-7 are in his/her file. Applicants whose files are complete are scheduled for the group interview around April 1st. As part of the interview, applicants will be given points for punctuality, attire, and the writing sample. A point system is used to determine the best qualified applicants who are then sent letters of acceptance. These individuals must respond to their acceptance letter by the date indicated in the letter. Failure to return the acceptance by the date provided will result in the loss of a position in the class.

Additional Points Award for the following: CNA (<6 month), CMA, College English, College or Intermediate Algebra.

All application materials must be in the nursing office by April 1. Applicants will be directed as to how to obtain a criminal background check and a drug screen in the acceptance letter. **Nursing applicants must be** 18 years old by graduation from the Practical Nursing Program and able to perform the physical and mental activities required of nurses.

Contact

Come visit our Practical Nursing Program to see if we are the right fit for you! Call us at 913-367-6204 to schedule your visit.

HCC Nursing Programs are approved by the Kansas State Board of Nursing (KSBN).

The curriculum for both the LPN - RN Program and the PN Program support the statewide alignment as outlined by the Kansas Post-Secondary Technical Education Authority (TEA) under the auspices of KBOR as approved by KSBN.

LPN to RN

Highland Community College Technical Center offers an LPN to RN Completion Program which awards an Associate Degree in Nursing (ADN). This is a two-semester program that allows licensed practical nurses to "bridge" to the next level of nursing.

The ADN: LPN to RN Completion Program enables the qualified LPN to obtain the knowledge, skills, and abilities of the entry level registered nurse. Through a series of courses that build upon the knowledge and experience of the LPN, the program encourages critical thinking skills, ethical principles, and legal practices of professional nursing established in the Kansas Nurse Practice Act. Successful completion of this program enables the graduate to take the national licensure examination (NCLEX-RN ®) to become a registered nurse.

Please refer to this planning sheet link:

- **Associate in Applied Science in Nursing planning sheet**

HCC Nursing Programs are approved by the Kansas State Board of Nursing (KSBN).

The curriculum for both the LPN - RN Program and the PN Program support the statewide alignment as outlined by the Kansas Post-Secondary Technical Education Authority (TEA) under the auspices of KBOR as approved by KSBN.

Prerequisites

Students making application for the ADN: LPN to RN Completion Program must have an active LPN license. In addition, the following prerequisites are required:

- Human Growth and Development - 3 credit hours
- Human Anatomy and Human Physiology with labs - minimum of 5 credit hours. (There is a 7 year expiration date. If over 7 years, please contact the Nursing Department.)
    - BS104 Human Anatomy with lab - 4 credit hours
    - BS105 Human Physiology with lab - 4 credit hours
- General Psychology - 3 credit hours
- Microbiology with lab - minimum of 4 credit hours. (There is a 7 year expiration date. If over 7 years, please contact the Nursing Department.)

season 4-6.

Freshman running backs Deontae Hull and Justin Ruiz led the charge offensively for the Scotties. Hull had 17 carries for 161 yards and Ruiz had six carries for 65 yards and one touchdown. Naricuss Driver rushed 12 times for 59 yards and one touchdown. Tristan Speer went 7-10, passing for 56 yards and one touchdown.

The Scottie defense was once again led by sophomore middle linebacker Jeremiah Hill (SO, Cairo, GA) who finished with eight tackles, two for loss, and a sack. Hill is now second all-time in career tackles at Highland. Freshman corner Damarion Williams had his best game of the season, finishing with seven tackles, a broken-up pass, and the 85 yard punt return. Amadou Fofana (SO, Memphis, TN) chalked up six tackles, two for loss, a sack, and a fumble recovery, while Kendrick Catis (SO, Deerfield Beach, FL) finished with five tackles. Catis finished seventh all time at HCC in career tackles.

Highland finishes the season 4-6 overall and 2-5 in KJCCC play which lands them a 6th place finish in the Conference. This is Highland's first losing season since 2012, and Head Coach Aaron Arnold's first sub .500 record at Highland. Arnold now has a 22-20 overall coaching record during his four seasons at HCC.

call it (the hearing before Magistrate Roy Roper) a status conference?"

Early last June, Colhour was charged with the felony theft of a vehicle belonging to a St. Joseph man whose body later was found in the

KANZA Mental Health. If the KANZA report requested that there be further investigation, the judge advised Colhour could go to the Larned hospital. County jail records have indicated that Colhour was returned to the local facility on Jan. 2.

after 9 p.m.

Theft from college nets

Chief reporter

The Wathena home of Lester and Marilee Shalz at 706 N. Third was heavily damaged by fire last Friday afternoon, Jan. 12.

The couple was not at home when the fire erupted about 4 p.m.

H HIGHLAND COMMUNITY COLLEGE

PUBLIC COMMENT INVITED

Highland Community College is seeking comments from the public about the College in preparation for its periodic evaluation by its regional accrediting agency, the Higher Learning Commission (HLC). The College will host a visit March 26-28, 2018, with a team representing HLC. Highland Community College has been accredited by HLC since 1977. The team will review the College's ongoing ability to meet HLC's Criteria for Accreditation.

The public is invited to submit comments regarding the College to the following address:
Public Comment on Highland Community College (KS)
Higher Learning Commission
230 South LaSalle Street, Suite 7-500
Chicago, IL 60604-1411

The public may also submit comments on HLC's website at www.hlcommission.org/comment. Comments must address substantive matters related to the quality of the institution or its academic programs. Comments must be in writing.
All comments must be received by February 26, 2018.
